(b) To ensure the preferential treatment called for in Title I of the Defense Production Act, the Office of Industrial Mobilization of the Department of Commerce developed the Defense Priorities and Allocations System. In addition, the Office of Industrial Mobilization has delegated the authority to place priority ratings on contracts or orders for items needed for authorized programs to certain government agencies that issues such contracts or orders. Schedule I to this regulation includes a list of agencies delegated this authority. Copies of the delegations are provided at Appendix I.

(c) If you receive a rated order, you are required to be thoroughly familiar with and to follow all the provisions of this regulation.

(d) Rated orders are identified by a priority rating consisting of the rating—either DX or DO—and a program identification symbol. Rated orders take preference over all unrated orders and, among rated orders, DX rated orders take preference over DO rated orders. Program identification symbols indicate which authorized program is involved with the rated order. For example, A1 identified aircraft programs and A7 signifies electronic programs. The program identification symbols, in themselves, do not connote any priority.

§ 350.3 Use of priority ratings.

(a) If you receive a rated order, you must give it preferential treatment as required by this regulation. Generally, this means that you must accept and fill a rated order placed with you for items which you normally supply. The existence of previously accepted unrated or lower rated orders is not sufficient reason for rejecting a rated order. In fact, you are required to displace or defer lower rated or unrated orders if they conflict with your performance against a higher rated order.

(b) All rated orders must be scheduled in a manner and to the extent possible to ensure delivery by the required delivery date contained in each order.

(c) To ensure that contracts and orders for authorized programs are completed in a timely fashion, you must place a priority rating on all the contracts and orders you issue for items needed to fill rated contracts or orders you have received. This provision ensures that priority treatment will be afforded your orders by your suppliers and from vendor to vendor throughout the production process.

(d) You may place a priority rating on your contracts or orders only if you are in receipt of a rated order or if you have been otherwise explicitly authorized to do so by the Office of Industrial Mobilization or a Delegate Agency.

§ 350.4 Controlled materials.

(a) Certain key materials have been central to effective mobilizations in the past, and special rules for their allocation and control are required to provide for an allocation system that can be rapidly expanded during a national emergency to meet increased defense and other essential needs.

(b) These key items are called controlled materials, and the special rules developed for their administration include: set-asides, minimum order quantities, rules for opening order books, minimum lead times, ordering of production materials, and special reporting requirements.

(c) Basically, producers of controlled materials are required by the government to set aside a certain portion of their production in anticipation of the receipt of rated orders. This ensures that the material will be available when rated orders are placed. In addition, the system ensures that controlled materials producers are treated equitably, for after the set-aside quantity levels have been reached, controlled materials producers may generally reject additional rated orders. These orders would then be filled by other controlled materials producers who had not exhausted their set-aside requirement.

(d) In time of national emergency, the level and scope of the controlled materials program would be greatly expanded to ensure the proper allocation of materials and in order to direct general industrial activity toward supporting the requirements of the emergency.

(e) Certain other items, in addition to the controlled materials, have critical importance to national defense programs. From time-to-time, special rules, similar to those for controlled materials, may be needed for their management.

§ 350.5 Special priorities assistance.

(a) The Defense Priorities and Allocations System is designed to be largely self-executing. However, from time-to-time production or delivery problems will arise. In this event, immediate help should be sought from the local Delegate Agency representative. If additional aid is needed, special priorities assistance should be requested. Special priorities assistance is a service provided by the Delegate Agencies and the Office of Industrial Mobilization to alleviate any such problems.

(b) Special priorities assistance can be provided for any reason consistent with this regulation. Generally, though, special priorities assistance involves: (1) Locating suppliers or resolving delivery conflicts with other rated orders to facilitate timely deliveries of items needed to satisfy rated orders, or; (2) Issuing rating authorizations for items not ratable under this regulation without special authorization.

§ 350.6 Official actions.

Periodically, the Office of Industrial Mobilization may take specific official actions to implement the provisions of this regulation or to resolve requests for special priorities assistance. Such actions may include the issuance of: authorizations, which permit the placement of priority ratings; directives, which can be used to modify production schedules and to resolve conflicts between rated orders; or letters of understanding, which can be used to confirm agreements between suppliers, customers, Delegate Agencies, and the Office of Industrial Mobilization.

§ 350.7 Compliance.

(a) Compliance with the provisions of the Defense Priorities and Allocations System is provided for under the Defense Production Act and willful violators are subject to criminal penalties.

(b) If you are in receipt of a rated order, it is your obligation to comply fully with the provisions of this regulation.

Subpart B—Definitions

§ 350.9 Definitions.

The following definitions pertain to all sections of the regulation as applicable:

"Authorized program" means a program approved by the Federal Emergency Management Agency, for priorities and allocations support under the Defense Production Act.

"Capital Equipment" is any item having a unit acquisition cost of generally $1,000 or more and having an anticipated service life in excess of one year and having the potential for maintaining its integrity as a capital item.

"Construction" means the fabrication, addition, extension, or alteration of any building, structure, or project, using materials or products which are to be an integral and permanent part of the building, structure, or project, but it does not include maintenance and repair.

"Controlled materials" are various shapes and forms of materials through whose allocation the national defense and essential civilian requirements of the nation can be provided for during an emergency. Currently, the controlled materials are steel, copper, aluminum, and nickel alloys, in the various shapes and forms specified in Schedule II, whether new, remelted, rerolled, or redrawn.

"Delegate Agency" is a government agency authorized by delegation from the Department of Commerce to place priority ratings on contracts or orders for certain industrial items needed to support authorized programs.

"Defense Production Act" means the Defense Production Act of 1950, as amended (50 U.S.C., App. 2061, et seq.).

"Directive" is an official action taken in writing by the Office of Industrial Mobilization of the Department of Commerce which requires a person to take an action or refrain from taking an action in accordance with its provisions.

"Items" include any raw, in process, or manufactured material, commodity, equipment, component, accessory, part assembly, or product of any kind, or service.

"Lead time" means the period of time specified in this regulation for the placement of orders in advance of the first day of the month in which shipment is required.

"Letter of understanding" is a document summarizing and confirming an agreement reached between a supplier, a customer, a Delegate Agency, and the Office of Industrial Mobilization pertaining to production, shipment, delivery, and performance against rated orders or to the applicability and requirements of provisions of this regulation.

"Maintenance" means the upkeep necessary to continue any plant, facility, or equipment in working condition.

"MRO" means materials for maintenance, repair, and operating supplies, and for installation. Items produced or obtained for sale to other persons or for installation upon or attachment to the property of another person, and items required for the production of such items are not "MRO". "Maintenance, repair or operating" supplies do not include items needed for the replacement of any plant, facility, or equipment; nor do they include items for the improvement of any plant, facility, or equipment by replacing items which are still in working condition with items of a new or different kind, quality, or design.

"Operating supplies" include hand tools and expendable tools, jigs, dies, and fixtures used on production equipment.

"Official action" means an action taken by the Office of Industrial Mobilization of the Department of Commerce in furtherance of this regulation and includes authorizations, directives, demands for information, inspection authorizations, subpoenas, and letters of understanding. Such actions are binding legal actions under the authority of the Defense Production Act and this regulation.

"Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States Government or any other government.

"Repair" means the restoration of any plant, facility, or equipment to working condition when it has been rendered unsafe or unfit for service by wear and tear, damage, or failure of parts.

"Rated order" means any purchase order or contract for an item in support of an authorized defense or energy program. Rated orders must contain a rating symbol, a required delivery date, a signature of a person authorized to sign rated orders, and a prescribed statement on the requirement to follow the provisions of this regulation.

"Set-aside" means the amount of any item, including controlled materials, which a person is required to reserve for filling rated orders during specified periods of time, as perscribed by the Office of Industrial Mobilization or this regulation.

Subpart C—Industrial Priorities

§ 350.10 Delegation of authority.

(a) The priorities and allocations authorities given to the President in Title I of the Defense Production Act have been delegated to the Federal Emergency Management Agency with a direction that the Federal Emergency Management Agency, in turn, delegate these authorities with respect to industrial resources to the Department of Commerce. Within the Department of Commerce, the Office of Industrial Mobilization has been assigned these responsibilities. The Office of Industrial Mobilization has authorized Delegate Agencies to assign priority ratings to contracts and orders for items needed for authorized programs and to redelegate this authority to other agencies. Copies of the delegations are provided for information at Appendix I.

(b) In implementing the provisions of this Defense Priorities ties and Allocations System regulation, the local representatives of the contracting agencies serve as the first point of contact for persons subject to this regulation. Any person experiencing difficulty if following the provisions of this regulation or needing assistance under this regulation should immediately contact the local contracting agency representative and follow the procedures established by that agency.

§ 350.11 Levels of priority and rating symbols.

(a) *Levels of priority.* (1) There are two levels of priority established by this regulation, and they are identified by the symbol "DO" and the symbol "DX".

(2) All DO rated orders have equal priority with each other and take preference over unrated orders. All DX rated orders are equal and take preference over DO rated orders and unrated orders. (For resolution of conflicts between rated orders of equal priority, see section 350.14.)

(3) In addition, the Office of Industrial Mobilization may issue "directives." Unless otherwise indicated, directives take preference over any DX rated order, DO rated order, or unrated order (See section 350.62 for a full discussion of directives.)

(b) *Rating symbol.* A "rating symbol" consists of a prefix indicating the level of priority—DO or DX—and a program identification symbol, such as A1, B2, or H6. Program identification symbols indicate which authorized program is being supported by the rated order. For example, A1 identifies aircraft programs and A7 signifies electronic programs. Program identification symbols, in themselves, do not connote any priority. Thus, the rating symbol on a purchase order placed by an aircraft manufacturer for aluminum forgings for aircraft parts for a DO program would be DO–A1. For a DX aircraft program, the rating symbol would be DX–A1.

§ 350.12 Elements of a rated order.

Each rated order must include:

(a) The appropriate rating symbol (*e.g.* DO–A1, DX–A4, DO–H1);

(b) A required delivery date or dates. The words "immediately" or "as soon as possible" do not constitute a delivery date. However, a "requirements contract" bearing a rating may contain no specific delivery date or dates but may provide for the furnishing of items from time-to-time or within a stated

period against specific purchase orders or "calls". Such "calls" are rated as of the date of their placement by the purchaser and not as of the date of the original "requirements contract;"

(c) The signature of an individual authorized to sign rated orders. The signature certifies that the rated order is authorized under this regulation and that the requirments of this regulation will be followed; and

(d) A statement that reads in substance:

This is a rated order issued under the Defense Priorities and Allocations System Regulation (15 CFR 350). You are required to follow all the provisions of that regulation in filling this order and in obtaining items needed to fill this order.

§ 350.13 Acceptance and rejection of rated orders.

(a) *Mandatory acceptance.* (1) Except as otherwise premitted in this section, a person must accept every rated order received and must fill such orders regardless of any existing lower priority rated or unrated orders that have been accepted.

For example, if a person receives a DX–A1 rated order for delivery of 12 motors (total plant capacity) but has already accepted a DO–A1 rated contract covering those 12 motors, the person must accept and ship against the DX rated order. Similarly, if a person receives a DO–A1 rated order for delivery of the 12 motors but has already accepted a commercial contract covering those 12 motors, the person must accpet and ship against the DO rated order.

(2) A person may not discriminatre against rated orders in any manner.

For example, a person may not charge higher prices or impose different terms and conditions than for comparable unrated orders or contracts.

(b) *Rejection of rated orders.* Unless otherwise directed by the Office of Industrial Mobilization:

(1) A person must not accept a rated order for delivery on a specific date if unable to fill the order by the required date. The fact that a person has accepted other unrated or lower rated orders does not constitute a valid reason for rejection under this section. If the requested delivery date cannot be met, a person must inform the customer of the earliest date on which delivery can be made and offer to accept the order on the basis of that date.

(2) A person must not accept a DO rated order for delivery on a date which would interfere with delivery of any previously accepted DO or DX rated order. However, a person must offer to accept the order based on the earliest delivery dated otherwise possible.

(3) A person must not accept a DX rated order for delivery on a date which would interfere with delivery of any previously accepted DX rated order but must offer to accept the order based on the earliest delivery date otherwise possible.

(c) *Optional rejection.* Unless otherwise directed by the Office of Industrial Mobilization, rated orders may be rejected in the following cases as long as there is no discrimination among customers in rejecting or accepting rated orders:

(1) If the person seeking to place the order is unwilling or unable to meet regularly established terms of sale or payment;

(2) If the order is for an item not usually made or supplied, or for a service not usually performed, or for which no orders have been filled by the supplier for two years prior to the date of receipt of the order;

(3) If the order is for an item produced or acquired only for the supplier's own use. If, however, a supplier historically sold some items generally produced for internal use, the supplier is obligated to accept rated orders for that portion of production sold within the past two years;

(4) If the order is for an item which has not been supplied to the person tendering the order within the past two years; unless the person tendering the rated order certifies that the item has not been ordered or acquired from another domestic source during the past two years or certifies that the item cannot be obtained from regular suppliers in a timely fashion using a rated order;

(5) If the person placing the rated order makes the item or performs the service being ordered; or

(6) If the rated order is for an amount below the minimum quantity normally sold or established in Schedule II of this regulation and the person placing the order is not willing to buy the minimum quantity.

(d) *Customer notification requirements.* A person must accept, reject, or acknowledge receipt of a rated order in writing within five working days after receipt of a DX order and within ten working days after receipt of a DO order. If acknowledged the order must be accepted or rejected within thirty days after receipt of the order. A rejection must give reasons in writing for the rejection.

(2) If a person has accepted a rated order and later discovers that, due to unforeseen contingencies, deliveries will be delayed, the person who placed the order must be notified immediately, given the reasons for the delay, and advised of a new shipment date. If notification is given verbally, written confirmation must be provided within five calendar days.

§ 350.14 Preferential scheduling.

(a) A person must schedule operations in a manner to satisfy the delivery rate requirement of each rated order. DO rated orders must be given production preference over unrated orders, if necessary, to meet the required delivery date, even if this requires the diversion of items in process or ready to deliver against unrated orders. DX rated orders must be given preference over DO rated orders and unrated orders. Modifying production or delivery schedules is necessary only when required delivery dates for rated orders cannot otherwise be met.

Examples: If a person receives a DO rated order with a delivery date of June 3 and if meeting that date would mean postponing production or delivery of an item needed to fill an unrated order, the unrated order must be postponed. If a DX rated order is received calling for delivery on July 15 and a person has a DO rated order requiring delivery on June 2 and operations can be scheduled to meet both deliveries, there is no need to alter production schedules to give any additional preference to the DX rated order.

(b) If a person cannot fill all the rated orders or equal priority status received on the same day (for example, two DO rated orders are received on November 3), a person must accept the order with the earliest shipment or performance dates. For example, a person must accept order A requiring delivery on December 15 rather than order B requiring delivery on December 31.

§ 350.15 Extension of priority ratings.

(a) If production materials, products, services, or other items are needed to fill a rated order, a person must use the priority rating (*i.e.*, the rating and program identification symbol), indicated on the customer's rated order when placing orders with suppliers. For example, if a person is in receipt of a DO–A3 priority rated order for a navigation system and needs to purchase semiconductors for its manufacture, a person must place a DO–A3 priority rated order with a supplier of semiconductors specifying the items needed and the date delivery is required.

(b) A person must order production materials and services sufficiently in advance and in sufficient quantity to ensure the timely availability of all items necessary to meet the delivery requirements of a rated order.

(c) The priority rating must be assigned to each successive contract or

order placed to obtain items needed to fill the received rated order. This continues from vendor to vendor down through the entire supply chain.

(d) If a person is unable to obtain needed production items in time to fill the rated order by its required delivery date, a person must fill the rated order using inventoried production materials or by diverting finished items that were produced to fill other lower or unrated orders. A person may use a DO priority rating to replace inventory so used within 90 days of its use.

(e) If a person places a rated order to replace inventories used to fill a rated order, the person must use a DO priority rating and the program symbol indicated on the customer's rated order. However, if the customer's rated orders are varied or numerous, a person may use the program identification symbol H1. A DX priority rating may not be used to replace inventory, even if inventory was used to fill a DX rated order.

§ 350.16 Changes in rated orders.

(a) The effective date of a rated order is the original date the order or contract was placed. However, if an amendment or change to the rated order significantly alters the production or delivery scheduling of the rated order, the effective date becomes the date of the amendment or change.

(b) The effective date of a rated order is not changed by: a change in shipping destination; a reduction in the total amount of the order; an increase in the total amount of the order which does not impact upon previously accepted rated orders; minor variation in size or design; or a change which is agreed upon between the supplier and the customer which does not impact upon other rated orders.

(c) The priority rating on a rated order must be cancelled:

(1) If it is effectively invalidated or revoked by a regulation or official action of the Office of Industrial Mobilization;

(2) If a Delegate Agency terminates the involved rated order; or

(3) If a person no longer needs the items for which the rating was used either to fill a rated order or to replace in inventory items used to fill a rated order.

(d) When the priority rating is cancelled all suppliers must be promptly notified in writing.

§ 350.17 Ratable items.

(a) In general, ratings may be used for:

(1) Items which will be physically incorporated into the product or material covered by the rated order and the portion of such items normally consumed or converted into scrap or by-products in the course of processing;

(2) Items used for packaging or containers required to make delivery against the rated order; or

(3) Services, other than contracts of employment. The person receiving a rated order for services shall use the rating symbol on that order to obtain items needed to fill the order.

(b) If a person requires maintenance, repair and operating items to fill a rated order, the person must place a rated order using the program symbol H8.

(c) A person may combine orders as follows:

(1) Rated orders may be combined to obtain items needed to fill several rated orders of equal priority rating by using the program symbol H1; and

(2) A rated order may be combined with an unrated order provided the portion that is rated is clearly identified so that preferential treatment to the rated portion of the order may be provided, if necessary.

(d) A person may place a rated order for the minimum commercially procurable quantity even if the quantity needed to fill a rated order is less than that minimum. However, a person must combine different rated orders, if possible, when obtaining minimum quantities.

§ 350.18 Limitations on placing rated orders.

(a) *General limitations on placing rated orders.* (1) A person may not place a rated order unless entitled to do so under this regulation.

(2) A person may not place a rated order for a greater quantity of the item than needed to fill the rated order (except in the case of minimum procurable quantities).

(3) A person may not place a rated order calling for delivery on a date earlier than needed to fill rated orders.

(4) A person may not place separate rated orders solely for the purpose of obtaining minimum procurable quantities on each order.

(5) A person may not place a rated order for items in anticipation of the receipt of a rated order, *except* as specifically authorized by the Office of Industrial Mobilization [see § 350.53(d) of this part].

(6) A person is not required to place a rating on a contract or order for less than $2,500 provided that delivery can be obtained in a timely fashion without the use of the priority rating.

(7) A person may not place rated orders for the following items unless specific written authorization has been obtained from a Delegate Agency or the Office of Industrial Mobilization:

(i) Items for plant improvement, expansion or construction, unless they will be physically incorporated into a construction project covered by a rated order; and

(ii) Capital or production equipment or items to be used for the manufacture of capital or production equipment. (See section 350.53 of this part for information on requesting rating authorization.)

(b) *Items not subject to this regulation.* (1) Under Executive Order 10480, as amended (18 FR 4939, August 14, 1953), the priorities and allocations authority for certain items has been delegated to other agencies, and, thus, priority ratings under this regulation cannot be used to obtain them. Such items include:

(i) Petroleum, gas, solid fuel, and electric power (under the jurisdiction of the Department of Energy);

(ii) Food and the domestic distribution of farm equipment and commercial fertilizer (under the jurisdiction of the Department of Agriculture);

(iii) Domestic transportation, storage, port facilities, air transport and shipping (under the jurisdiction of various other agencies); and

(iv) Radioisotopes, stable isotopes, source and fissionable materials (under the jurisdiction of the Department of Energy).

(2) The jurisdiction for certain items has been clarified by Interagency Agreements. Copies of these agreements are provided at Appendix II. Questions concerning jurisdictional responsibilities for the exercise of priorities and allocations should be directed to the Office of Industrial Mobilization.

(3) Certain items under the jurisdiction of the Office of Industrial Mobilization are presently excluded from the rating provisions of this regulation; however, these items are subject to Office of Industrial Mobilization directives. These excluded items include:

Communication services
Crushed stone
Gravel
Copper raw materials (as defined in section 350.31 of this part)
Sand
Scrap
Slag
Steam heat, central
Waste paper

Subpart D—Industrial Priorities for Energy Programs

§ 350.20 Use of priority ratings.

(a) Section 101(c) of the Defense Production Act authorizes the use of

priority ratings for projects which maximize domestic energy supplies.

(b) Projects which maximize domestic energy supplies include those which maintain or further domestic energy exploration, production, refining, and transportation; maintain or further the conservation of energy; or are involved in the construction or maintenance of energy facilities.

§ 350.21 Application for priority rating authorization.

(a) For projects believed to maximize domestic energy supplies, a person may request priority rating authorization for scarce, critical and essential supplies of materials and equipment by submitting DOE Form PR 437 to the Procurement and Contracts Management Directorate, the Department of Energy, Attn: PR 221, Forrestal Building, 1000 Independence Avenue, SW., Washington, D.C. 20585. Blank applications may be obtained at the above address or from a Department of Energy Field Office.

(b) On receipt of the application, the Department of Energy will:

(1) Determine if the project maximizes domestic energy supplies; and

(2) Find whether the materials and equipment involved in the application are critical and essential to the project.

(c) If the Department of Energy officially notifies the Office of Industrial Mobilization that the project maximizes domestic energy supplies and that the materials or equipment are critical and essential, the Office of Industrial Mobilization must find that the items in question are scarce and that there is a need to use the priorities and allocations authorities.

(1) Scarcity implies an unusual difficulty in obtaining the material or equipment in a time frame consistent with the completion of the energy project. Among the factors to be used in making the scarcity finding will be the following:

(i) Value and volume of material or equipment shipments,

(ii) Consumption of material and equipment,

(iii) Volume and market trends of imports and exports,

(iv) Domestic and foreign sources of supply,

(v) Normal levels of inventories,

(vi) Rates of capacity utilization,

(vii) Volume of new orders, and

(viii) Lead times for new orders.

(2) In finding whether there is a need to use the priorities and allocation authorities, the Office of Industrial Mobilization will include in its consideration factors such as:

(i) Alternative supply solutions, and

(ii) The impact of authorizing a priority rating on other rated projects.

(d) If the Office of Industrial Mobilization does not find that the items of material or equipment are scarce, it will not proceed to analyze the need to use the priorities and allocations authorities.

(e) The Office of Industrial Mobilization will inform the Department of Energy of the results of its analysis. If the Office of Industrial Mobilization has made the two required findings, it will authorize the Department of Energy to grant the use of a priority rating to the applicant.

(f) The Department of Energy will notify the applicant of the results of the Department of Energy and the Office of Industrial Mobilization analyses.

(g) Schedule I includes a list of approved programs and program identification symbols to be used to support the maximization of domestic energy supplies. For details on the Department of Energy procedures and criteria used in making its determination and findings, see Department of Energy Regulation 1 (10 CFR Part 216).

Subpart E—The Controlled Materials

§ 350.30 General provisions.

(a) The controlled materials are items through which allocation the general activity of the economy and industry can be controlled during times of national emergency.

(b) In order to ensure that an allocation system can be rapidly implemented during a period of emergency, certain aspects of its administration must be maintained. The following sections of Subpart E provide for this administration and, thus, serve as insurance that a controlled materials allocation program can be rapidly expanded during a national emergency.

(c) The controlled materials are steel, copper, aluminum, and nickel alloys in the shapes and forms listed in Schedule II.

§ 350.31 Controlled materials technical definitions.

The following definitions pertain to the controlled materials as applicable:

"Distributor" means any person (including a warehouseman or jobber, but not a retailer) engaged in the business of stocking controlled materials at a location regularly maintained for the sale or resale of controlled materials in the form or shape as received, or after performing such operations as cutting to length or shape, slitting, shearing, or sorting and grading.

"Further conversion" means the further processing of a controlled material by another person.

"Minimum mill quantity" means the minimum quantity of a controlled material product that may be obtained with a rated order for shipment by a producer at any one time to any one destination.

Copper

"Brass mill products" means copper and copper-base alloys in the following forms: Sheet, plate, and strip in flat lengths or coils; rod, bar, shapes, and wire (except copper wire mill products); anodes, rolled, forged, or sheared from cathodes; and seamless tube and pipe. Straightening, threading, chamfering, cutting to width or length, and reduction in gauge, do not constitute changes in form of brass mill products. The following related products which have been produced by a change in form of brass mill products are not included in the definition of brass mill products:

Circles, discs (except brass military ammunition discs)
Cups (except brass military ammunition cups)
Blanks and segments
Forgings (except anodes)
Welding rod, 3 feet or less in length
Rotating bands
Tube and nipples—welded, brazed, or mechanically seamed
Formed flashings
Engravers' copper

"Copper-base alloy" means any alloy of which the percentage of copper metal equals or exceeds 40 percent by weight of the metallic content of the alloy. It does not include alloyed gold produced in accordance with U.S. Commercial Standard CS 67–38.

"Copper foundry products" means cast copper and copper-based alloy shapes or forms suitable for ultimate use without remelting, rolling, drawing, extruding, or forging. The process of casting includes the removal of gates, risers, and sprues, and sandblasting, tumbling, and dipping, but does not include any machining or further processing. For centrifugal casting, the process includes the removal of the rough cut in the inner or outer diameter, or both, before delivery to a customer. Castings include anodes and shot cast in a foundry or by an ingot maker.

"Copper powder mill products" means copper or copper-base alloy in the form of granular or flake powder.

"Copper raw materials" includes:

(a) "Refined copper"—Copper metal which has been refined by any process of electrolysis or fire-refined to a grade and in a form suitable for fabrication;

(b) "Blister copper"—High-grade crude copper in any form produced from converter operations and from which nearly all the oxidizable impurities have been removed by slagging and volatilization;

(c) "Copper and copper-base alloy scrap"—including fired and demilitarized cartridge and artillery cases;

(d) "Brass mill casting"—from which brass mill or intermediate shapes may be rolled, drawn, or extruded, without remelting;

(e) "Copper-base alloy ingot"—to be used in remelting, alloying, or deoxidizing operations;

(f) "Copper or copper-base alloy shot and waffle"—to be used in remelting, alloying, deoxidizing, or chemical operations; and

(g) "Copper precipitates (or cement copper)"—precipitated from mine water by contact with iron scrap, tin cans, or iron in other forms.

"Copper wire mill products" means uninsulated or insulated wire and cable made from copper or copper-base alloy, used for transmission of electrical energy, whatever the outer protective coverings may be, and also copper-clad steel or aluminum wire containing over 20 percent copper by weight regardless of end use. Copper wire mill products shall be measured in terms of pounds of copper content.

Nickel Alloy

"Nickel alloys" means those alloys for which the specified nickel content is 10 percent or more up to and including pure nickel, and which the iron content is nominally less that 50 percent of iron, and which does not contain as much as 40 percent of copper, nor as much as 50 percent of aluminum, in the shapes and forms shown in Schedule II. It also includes cast alloy (less gates and risers, rough as cast) for which the specified nickel content is 5 percent or more. It does not include primary nickel in the forms of electrolytic cathodes, pigs, rondelles, cubes, pellets, shot, briquettes, oxide (including sintered oxide), salts, or chemicals; nor does it include primary nickel in the forms of ingots or powder for remelting.

Steel

"Alloy steel" means steel containing 50 percent or more of iron or steel and any one or more of the following elements in the following amounts: manganese, maximum of range in excess of 1.65 percent; silicon, maximum of range in excess of 0.60 percent (excepting electrical sheet and strip); copper, maximum of range in excess of 0.60 percent; aluminum, boron, chromium (less that 10 percent), cobalt, columbium, molybdenum, nickel, tantalum, titanium, tungsten, vanadium, zirconium, or any other alloying elements in any amount specified or known to have been added to obtain a desired alloying effect. Clad steels which have an alloy steel base or carbon steel base for which nickel and/or chromium is contaned in the coating or cladding material (e.g., nickel-copper alloy, nickel-chrome-iron alloy or stainless) are alloy steels.

"Alloy steel plate" includes the following specifications:

—0.180 inch or thicker, over 48 inches wide.

—0.230 inch or thicker, over 8 inches wide.

—7.35 pounds per square foot or heavier, over 8 inches wide.

"Carbon steel" means any steel (including wrought iron) customarily so classified and also includes: (a) Ingot iron; (b) all grades of electrical sheet and strip; (c) high-strength low-alloy steels; (d) clad and coated carbon steels not included with alloy steels; *e.g.*, galvanized, tin, terne, copper (excluding copper wire mill products) or aluminum clad and/or coated carbon steels; and (e) leaded carbon steels.

"Carbon steel plate" includes the following specifications plus floor plates of any thickness:

—0.180 inch or thicker, over 48 inches wide.

—0.230 inch or thicker, over 8 inches wide.

—7.53 pounds per square foot or heavier, over 48 inches wide.

—9.62 pounds per square foot or heavier, over 8 inches wide.

"High- strength low-alloy steels" means only the proprietary grade promoted and sold for this purpose, and Navy high-tensile steel grade HT Specification Mil–S–16113 (Ships).

"Stainless steel" means heat- and corrosion-resisting steel containing 50 percent or more of iron or steel and 10 percent or more of chromium whether with or without nickel, molybdenum, or other elements.

"Stainless steel plate" includes the following size specifications: 3/16 inch (0.1875) or thicker, over 10 inches wide.

"Standard steel pipe" includes the following:

Ammonia pipe
Bedstead tubing
Driven well pipe
Drive pipe
Dry kiln pipe
Dry pipe for locomotives
English gas and steam pipe
Fence pipe
Furniture pipe
Ice Machine pipe
Mechanical service pipe
Nipple pipe
Pipe for piling
Pipe for plating and enameling
Pump pipe
Signal pipe
Standard pipe coupling
Structural pipe
Turbine pump pipe
Water main pipe
Water well casing
Water well reamed and drifted pipe

"Structural steel shapes" means rolled flanged sections having at least one dimension of their cross section 3 inches or greater, commonly referred to as angles, channels, beams, and wide flange sections.

§ 350.32 Special rules applicable to controlled materials producers and distributors.

(a) *Rated orders.* (1) Rated orders are used to obtain controlled materials needed for authorized programs.

(2) A rated order placed with a controlled material producer must be in sufficient detail to permit entry on mill schedules and must be received by the producer in accordance with the minimum lead times specified in Schedule II of this regulation. However, DX orders must be accepted by controlled material producers regardless of lead time, if it is possible to make delivery by the required date.

(b) *Set-asides.* (1) A set-aside is the amount of any item, including controlled materials, which a person is required to reserve to fill rated orders during a specified period of time. A set-aside places a limit to a person's obligation to accept rated orders during the time period. Quantities above the set-aside levels may be devoted to unrated orders, unless specifically directed otherwise by the Office of Industrial Mobilization. However, all DX orders must be accepted regardless of whether the set-aside level has been reached.

(2) A person who has had a DO rated order rejected by a controlled material producer, because the producer's set-aside was filled, must attempt to place the rated order with another controlled material producer whose set-aside is not filled.

(3) Controlled material producers will be notified of the applicable set-aside either directly in writing (used for steel and aluminum) or by means of publication in Schedule III of this regulation (used for copper and nickel alloys).

(4) The following set-aside rules are applicable to the controlled materials:

(i) *Steel.* (A) A set-aside is applicable to each steel controlled materials producer who receives a written set-

aside notification from the Office of Industrial Mobilization.

(B) Any steel controlled materials producer who has not received a set-aside notification must accept, in accordance with the provisions of this regulation, all rated orders received but may apply in writing to the Office of Industrial Mobilization for a set-aside notification.

(C) The set-aside is a specified monthly quantity based on average monthly shipments during a specific base period.

(ii) *Aluminum.* (A) A set-aside is applicable to each aluminum controlled materials producer who receives a written set-aside notification from the Office of Industrial Mobilization.

(B) Any aluminum controlled material producer who has not received a set-aside notification must, in accordance with the provisions of this regulation, accept all rated orders received but may apply in writing to the Office of Industrial Mobilization for a set-aside notification.

(C) The set-aside for aluminum ingot and aluminum molten metal is a specified monthly quantity based on average monthly production capacity during a specific base period.

(D) The set-aside for all other aluminum controlled materials is a specified monthly quantity based on average monthly shipments during a specific base period.

(iii) *Copper.* (A) Set-asides are applicable to all copper controlled materials producers.

(B) The monthly set-asides for each copper controlled materials producer are calculated by multiplying the producer's set-aside base by the appropriate set-asides percentage for each product. The set-aside percentages and set-aside base are contained in Schedule III, which may be updated periodically by amendment to the Schedule.

(iv) *Nickel alloys.* (A) Set-asides are applicable to all nickel alloys controlled materials producers.

(B) The monthly set-asides for each nickel alloys controlled material producer are calculated by multiplying the producer's set-aside base by the appropriate set-aside percentage for each product. The set-aside percentage and set-aside base are contained in Schedule III, which may be updated periodically by amendment to the Schedule.

(5) Materials shipped for further conversion (also referred to as "intermediate shapes" in the copper industry) are not considered as being shipped against a controlled material set-aside, unless otherwise specified by the Office of Industrial Mobilization.

(c) *Order books and product lead times.* (1) Each controlled materials producer must open its order books for the acceptance of DO rated orders not later than 45 days prior to the commencement of the applicable minimum lead-times provided in Schedule II for the various shapes and forms of controlled materials.

(2) Once order books are opened, a controlled materials producer must accept all rated orders received until the set-aside level is reached or until the minimum lead time shown in Schedule II is reached.

(3) Once the minimum lead time is reached a controlled materials producer may devote remaining capacity, even if the set-aside has not been filled, to unrated orders. However, a person must accept a DX rated order without regard to lead time.

(d) *Controlled materials program symbols.* (1) A controlled materials producer must use the program symbol H2 on all rated orders to obtain production materials or to replace inventories used to fill rated orders except as noted in paragraph (d)(2) of this section.

(2) A controlled materials producer must use the program symbol H4 on rated orders to obtain controlled materials for further conversion needed for production or inventory replacement.

(3) A controlled materials distributor must use the program symbol H3 on rated orders to obtain controlled materials needed to fill rated orders.

(e) *Controlled materials requirements data.* (1) Controlled materials producers and suppliers are required to maintain and submit upon request, data on shipments (e.g. monthly or quarterly) against rated and unrated orders.

(2) Because Delegate Agencies are required to provide controlled materials requirements to the Department of Commerce, persons performing against rated orders may be required upon request by the appropriate Delegate Agency to provide their requirements for controlled materials needed to fill their rated contracts for items manufactured to military specifications.

(3) In addition, a person in receipt of a rated order for items manufactured to military specifications may be required by the person who placed the rated order, to provide data on requirements for controlled materials to fill the rated order.

Subpart F—Critical Items

§ 350.40 General provisions.

(a) From time-to-time the Office of Industrial Mobilization may determine that certain items have a critical importance to industrial production with respect to the national defense and authorized programs.

(b) The Office of Industrial Mobilization may establish special rules to ensure that critical items are available to authorized programs in a timely fashion and to provide for an equitable and orderly distribution of requirements for such items among all suppliers.

§ 350.41 Metalworking machines.

(a) "Metalworking machine" is any machine which has a producer's list price of $1,000 or more for the basic machine and includes metal cutting and metal forming type machines which are new, power driven, complete machines not supported in the hands of an operator when in use.

(b) Metalworking machines covered by this section include:

Bending and Forming Machines.
Boring Machines.
Broaching Machines.
Drilling and Tapping Machines.
Electrical Discharge, Ultrasonic and Chemical Erosion Machines.
Forging Machinery and Hammers.
Gear Cutting and Finishing Machines.
Grinding Machines.
Hydraulic and Pneumatic Presses, Power Driven.
Lathes.
Machining Centers and Way-Type Machines.
Manual Presses.
Mechanical Presses, Power Driven.
Milling Machines.
Miscellaneous Machine Tools.
Miscellaneous Secondary Metal Forming and Cutting Machines.
Planers and Shapers.
Punching and Shearing Machines.
Riveting Machines.
Saws and Filing Machines.
Wire and Metal Ribbon Forming Machinery.

(c) Metalworking machine producers are not required to accept DO rated orders calling for delivery in any month of a total quantity of any size of machine in excess of 60 percent of their scheduled production of that size of machine for that month. However, directives or DX rated orders must be accepted even if the set-aside has been reached.

(d) Metalworking machine producers are not required to accept DO rated orders for machines which they receive less than three months prior to the beginning of the month for which delivery is requested. However, directives and DX rated orders must be

accepted without regard to the lead time.

Subpart G—Special Priorities Assistance

§ 350.50 General provisions.

(a) The Defense Priorities and Allocations System is designed to be largely self-executing. However, it is anticipated that from time-to-time problems will occur. In this event, a person should immediately contact the local Delegate Agency representative for guidance or assistance. If additional formal aid is needed, special priorities assistance should be sought. Special priorities assistance is a service provided by the Delegate Agencies and the Office of Industrial Mobilization to alleviate problems that do arise.

(b) While special priorities assistance can be provided for any reason in support of this regulation, generally, special priorities assistance involves aid in obtaining timely deliveries of items needed to satisfy rated orders and in obtaining rating authorization for items not normally ratable under this regulation.

§ 350.51 Requests for special priorities assistance or rating authorization.

(a) Request for special priorities assistance or rating authorization must be submitted on Form ITA–999 to the local representative of the appropriate Delegate Agency specified in Schedule I. Form ITA–999 may be obtained from the local representative of the Delegate Agency, any Department of Commerce District Office, or from the Office of Industrial Mobilization. A sample Form ITA–999 is attached at Appendix III.

(b) If the Delegate Agency is unable to resolve the problem or to grant the rating authorization and believes additional assistance is warranted, the Delegate Agency may forward the request to the Office of Industrial Mobilization for action.

(c) Requests for rating authorization for capital or production equipment may be submitted to the appropriate Delegate Agency. The Delegate Agency may establish particular forms for these requests.

§ 350.52 Types of assistance.

(a) If a person has placed a rated order with a vendor for an item needed to complete a rated order and is experiencing difficulty in obtaining delivery by the required delivery date, a person may apply for special priorities assistance.

(b) If a person cannot locate a supplier for an item needed to satisfy a rated order received, a person may apply for special priorities assistance.

(c) Examples of special priorities assistance that can be provided include:

(1) Ensuring that rated orders receive preferential treatment by suppliers;

(2) Resolving production or delivery conflicts between various rated orders;

(3) Locating suppliers who can fill rated orders in a timely fashion;

(4) Securing verification of urgency with respect to rated orders supporting authorized programs; and

(5) Determining the validity of rated orders.

§ 350.53 Rating authorization.

(a) If the inability to obtain items, for which rating authority is not normally provided under this regulation, would result in delays in filling rated orders received, a person may request authorization to apply a priority rating to the contract or order for the needed item.

(b) Examples of items for which ratings can be authorized include:

(1) Capital or production equipment;

(2) Computers;

(3) Expansion of plant facilities;

(4) Rebuilding or replacing facilities; and

(5) Items excluded from the rating provisions of this regulation contained in § 350.18(b)(3).

(c) In any case where the use of a rating is specifically authorized for the procurement of production equipment, the rating may be used either to purchase or to lease such equipment. However, in the latter case, the equipment may be leased only from a person engaged in the business of leasing such equipment or from a person willing to lease rather than sell.

(d) In certain cases and upon specific request, the Office of Industrial Mobilization, to promote the national defense, may authorize a person to place a rated order in anticipation of the receipt of a rated order. In such instances, sponsorship of such requests must be obtained from the appropriate Delegate Agency.

(e) Whenever a person requests a priority rating in anticipation of the receipt of a rated order, that person must state in writing in the request the following:

It is understood that the authorization of a priority rating in anticipation of our receiving a rated contract or order from a Delegate Agency and our use of that priority rating with our suppliers in no way commits the Delegate Agency, the Department of Commerce or any other government agency to enter into a contract or order or to expend funds. Further, we understand that no Delegate Agency, the Department of Commerce, or any other government agency, shall be liable for any damages that may accrue, including termination penalties, if a rated contract or order is not eventually placed and, as a result, we must subsequently cancel contracts or orders placed with the use of the priority rating authorized as a result of this request.

§ 350.54 Criteria for assistance.

Requests for special priorities assistance must establish that:

(a) There is an urgent need for the item in question with respect to delivery against a rated order;

(b) The applicant has exercised a reasonable effort to resolve the problem; and

(c) The request is timely, *i.e.* that the request has been submitted promptly and that enough time exists for the Delegate Agency or the Office of Industrial Mobilization to effect a meaningful resolution to the problem.

§ 350.55 Assistance programs with Canada and other nations.

(a, *Canada.* (1) The joint U.S.-Canadian military arrangement for the defense of North America and the integrated nature of their defense industries set forth in the U.S.-Canadian Statement of Principles for Economic Cooperation require the close coordination of the industrial priorities activities of the two countries and the establishment of a means to provide mutual assistance to the defense industries located in both countries.

(2) The Office of Industrial Mobilization coordinates with the Canadian Department of Supply and Services (Ottawa) on all matters of mutual concern relating to the administration of this regulation.

(3) Any person in the United States requiring assistance in Canada shall submit a request through the Delegate Agency to the Office of Industrial Mobilization on Form ITA–999.

(4) Any person in Canada requiring assistance in the United States or requiring priority rating authority for items to be purchased in the United States shall request such assistance or rating authority through the Canadian Department of Supply and Services in accordance with any procedures specified by the Department.

(b) *Foreign nations.* (1) Persons in foreign nations other than Canada requiring priority rating authority or assistance in obtaining items in the United States may apply for such authority or assistance through the U.S. Department of Defense to the Office of Industrial Mobilization.

(2) The request must be sponsored by the government of the foreign nation prior to submission to the U.S. Department of Defense.

§ 350.56 Instances where assistance will not be provided.

Special priorities assistance is provided at the discretion of the Delegate Agencies and the Office of Industrial Mobilization when it is determined that such assistance is appropriate and warranted. Examples where assistance will not be provided include situations when a person is attempting to:

(a) Secure a price advantage;

(b) Obtain delivery prior to the time required to fill a rated order;

(c) Gain competitive advantage;

(d) Disrupt an industry apportionment or quota program in a manner designed to provide a person with an unwarranted share of scarce items; or

(e) Overcome a vendor's regularly established terms of sale or conditions of doing business.

Subpart H—Official Actions

§ 350.60 General provisions.

(a) In addition to the provisions of this regulation, the Office of Industrial Mobilization may, from time to time, take specific official actions to implement the provisions of this regulation or to resolve requests for special priorities assistance.

(b) Several of these official actions (authorizations, directives, and letters of understanding) are discussed in this subpart. Others which pertain to the compliance activities provided for in the Defense Production Act and this regulation (subpoenas, demands for information, and inspection authorizations) are discussed in section 350.71(b).

§ 350.61 Authorizations.

An authorization issued by the Office of Industrial Mobilization is an official action that:

(a) May permit the placement of a priority rating on a contract or order for an item not normally ratable under this regulation; or

(b) May authorize the upgrading of a DO priority rating to a DX rating on a specific contract or order or series of contracts or orders.

§ 350.62 Directives.

(a) A directive is an official action which requires a person to take certain actions or refrain from taking certain actions in accordance with its provisions.

(b) A person must comply with each directive issued by the Office of Industrial Mobilization. However, a person may not extend a directive to obtain any items from a supplier by placing a rated order, unless expressly so authorized in the directive.

(c) Directives take precedence over all DX rated orders, DO rated orders, and unrated orders previously or subsequently received, unless a contrary instruction appears in the directive or subsequent directives.

§ 350.63 Letters of understanding.

(a) In resolving special priorities assistance cases, a letter of understanding may be issued by the Office of Industrial Mobilization to reflect an agreement reached by all parties (the Office of Industrial Mobilization, the Delegate Agency, the supplier, and the customer).

(b) A letter of understanding is not used to alter scheduling between rated orders, to authorize the use of ratings, to impose restrictions under this regulation, or to take other official actions. Rather, letters of understanding are used to confirm production or shipping schedules which do not require modifications to other rated orders.

Subpart I—Compliance.

§ 350.70 General provisions.

(a) If compliance with any provision of the Defense Production Act, this regulation, or an official action would prevent a person from complying with another provision of the Defense Production Act, this regulation, or an official action, that person must immediately notify the Office of Industrial Mobilization for resolution of such conflict.

(b) If compliance with any provision of the Defense Production Act, this regulation, or an official action would prevent fulfillment of a rated order, a person must immediately report the matter to the Office of Industrial Mobilization for resolution of such conflict.

§ 350.71 Audits and investigations.

(a) Audits and investigations are official examinations of books, records, documents, other writings and information to insure that the provisions of the Defense Production Act, this regulation, and all official actions have been properly followed. An audit or investigation may also include interviews and a systems evaluation to detect weaknesses or failures in the implementation or use of this regulation.

(b) In conducting audits and investigations, the following documents may be issued which constitute the taking of an official action by the Office of Industrial Mobilization:

(1) *Subpoenas.* A subpoena requires a person to appear as a witness before an official designated by the Office of Industrial Mobilization to testify under oath on matters of which that person has knowledge relating to the enforcement or the administration of the Defense Production Act, this regulation, or any official actions. A subpoena may also require the production of books, papers, records, documents and physical objects or property.

(2) *Demands for information.* A demand for information requires a person to furnish to a duly authorized representative of the Office of Industrial Mobilization any information necessary or appropriate to the enforcement or the administration of the Defense Production Act, this regulation, or any official actions.

(3) *Inspection Authorizations.* An inspection authorization requires a person to permit a duly authorized representative of the Office of Industrial Mobilization to inspect books, records, documents, other writings and information in the person's possession or control at the place where that person usually keeps them, and to inspect a person's premises or property when such inspection is necessary or appropriate to the enforcement or the administration of the Defense Production Act, this regulation, or any official actions.

(c) The production of books, records, documents, or other writings and information will not be requested at any place other than the place where they are usually kept if, prior to the return date specified on the subpoena or demand for information, a duly official of the Office of Industrial Mobilization is furnished with true copies of such material. The copies must be certified under oath to be true and correct copies. As an alternative, a person may enter into a stipulation with a duly authorized official of the Office of Industrial Mobilization as to the content of such material.

(d) A subpoena, demand for information, or an inspection authorization, shall include the name, title, or official position of the person to be served, the evidence sought to be adduced and its general relevance to the scope and purpose of the investigation, audit, inspection or inquiry to be made. If books, records, documents, other writings, or information are required to be produced, or premises or property are sought to be inspected, the subpoena, the demand for information or the inspection authorization shall describe them with particularity. No subpoena, demand for information, or inspection authorization shall be issued until it is ascertained by the Office of Industrial Mobilization that the information sought

is not available from any Federal or other responsible agency.

(e) Service of documents shall be made in the following manner:

(1) Service of an inspection authorization or a demand for information shall be made personally or by Certified Mail—Return Receipt Requested. Service of a subpoena shall be made personally.

(2) Service upon other than an individual may be made by serving a partner, corporate officer, or a managing or general agent authorized by appointment or by law to accept service of process. If an agent is served, a copy of the document shall be mailed to the person named in the document.

(3) Any individual 18 years of age or over may serve a subpoena, a demand for information, or an inspection authorization. When personal service is made, the individual making the service shall prepare an affidavit as to the manner in which service was made and return the original document and the affidavit to the issuing officer. In case of failure to make service, the reasons for the failure should be stated on the original document.

§ 350.72 Notification of failure to comply.

(a) At the conclusion of an audit, inspection, investigation, or at any other time, the Office of Industrial Mobilization may inform the person in writing were compliance with the requirements of the Defense Production Act, this regulation, or an official action were not met.

(b) In cases where failure to comply with the provisions of the Defense Production Act, this regulation, or an official action was inadvertent, the person will be informed in writing of the particulars involved and corrective action will be recommended. Failure to take corrective steps may be construed as a willful violation of the Defense Production Act, this regulation, or the official action.

§ 350.73 Violations, penalties, and remedies.

(a) A person who willfully violates any provision of the Defense Production Act, this regulation, or any official action in the course of operating under this regulation or any official action is guilty of a crime and upon conviction may be punished by fine or imprisonment, or both. Maximum penalties provided by the Defense Production Act are a $10,000 fine, or one year in prison, or both.

(b) A person who willfully refuses to furnish any information or reports required by the Office of Industrial Mobilization is guilty of a crime and upon conviction may be punished by fine or imprisonment, or both. Maximum penalties provided by the Defense Production Act are a $1,000 fine, or one year in prison, or both.

(c) The government may also seek an injunction from a court of appropriate jursidiction to prohibit the continuance of any violation of or to enforce compliance with the Defense Production Act, this regulation, or any official action.

(d) In order to secure the effective enforcement of the Defense Production Act, this regulation, and official actions, the following are prohibited: (See Section 704 of the Defense Production Act; and Sections 2 and 371 of Title 18, United States Code):

(1) No person may willfully solicit, attempt, cause, aid, abet, counsel, command, induce, procure, or permit another person to perform any act prohibited by, or omit any act required by, the Defense Production Act, this regulation, or any official action.

(2) No person may conspire or act in concert with any other person in any manner or for any purpose to perform any act prohibited by, or to omit any act required by, the Defense Production Act, this regulation, or any official action.

Subpart J—Adjustments and Appeals

§ 350.80 Adjustments.

(a) A person may submit a request for adjustment or exception to the Office of Industrial Mobilization upon the ground that:

(1) A provision of this regulation or an official action taken by the Office of Industrial Mobilization works an undue or exceptional hardship on that person not suffered generally by others in similar situations and circumstances; or

(2) The consequences of following a provision of the Defense Production Act, this regulation, or an official action is contrary to the intent of the Defense Production Act or this regulation.

(b) Each request for adjustment or exception must be in writing and contain a complete statement of all the facts and circumstances related to the provision or official action from which adjustment is sought and a full and precise statement of the reasons the provision or official action should be modified.

(c) The submission of a request for adjustment or exception shall not relieve any person from the obligation of complying with the provision or official action while the request is being considered.

(d) The decision of the Office of Industrial Mobilization may be appealed to the Assistant Secretary for Trade Administration (see § 350.81 of this part).

§ 350.81 Appeals.

(a) Any person who has had a request for adjustment or exception denied by the Office of Industrial Mobilization under section 350.80 of this part may appeal to the Assistant Secretary for Trade Administration, who shall review and reconsider the denial.

(b) An appeal must be received by the Office of the Assistant Secretary for Trade Administration at the address provided in part 350.93(b) no later than 30 days after receipt of a written notice of denial from the Office of Industrial Mobilization.

(c) Each appeal must be in writing and contain a complete statement of all the facts and circumstances related to the denial action appealed from and a full and precise statement of the reasons the denial decision should be modified or reversed.

(d) In addition to the written materials submitted in support of an appeal, an appellant may request, in writing, an opportunity for an informal hearing. This request may be granted or denied at the discretion of the Assistant Secretary for Trade Administration.

(e) When an informal hearing is granted, the Assistant Secretary for Trade Administration may designate an employee of the Department of Commerce to conduct the informal hearing and to prepare a report. The hearing officer shall determine all procedural questions and impose such time or other limitations deemed reasonable. In the event that the hearing officer decides that a transcript is to be made, all expenses shall be borne by the appellant.

(f) The decision of the Assistant Secretary for Trade Administration shall be final, shall be issued to the appellant in writing, and shall contain a statement of the reasons for the decision.

Subpart K—Miscellaneous Provisions

§ 350.90 Protection against claims.

A person may not be held liable for damages or penalties for any act or failure to act resulting directly or indirectly from compliance with any provision of the Defense Production Act, this regulation, or any official action taken by the Office of Industrial Mobilization, notwithstanding that any such provision or action shall subsequently be declared invalid by judicial or other competent authority.

§ 350.91 Records and reports.

(a) Persons are required to make and preserve for at least three years,

accurate and complete records of any transaction covered by this regulation. This includes records of all rated orders and official actions received, copies of all rated orders placed, and records of purchases, receipts, inventories, production, use, sales, and deliveries of all items acquired, sold or delivered pursuant to this regulation.

(b) Records must be maintained in sufficient detail to permit the determination, upon examination, of whether each transaction complies with the provisions of this regulation or official actions taken by the Office of Industrial Mobilization. However, this regulation does not specify any particular method or system to be used.

(c) Records required by this regulation must be made available for examination on demand by duly authorized representatives of the Office of Industrial Mobilization in the manner provided for in § 350.71 of this part.

(d) In addition, persons must develop, maintain, and submit any other records and reports to the Office of Industrial Mobilization that may be required for the administration of the Defense Production Act and this regulation.

(e) Section 705(e) of the Defense Production Act provides, in part, that information required to be submitted in connection with the administration of the Defense Production Act and this regulation, which is deemed to be confidential or for which a request for confidential treatment is made by the person furnishing such information, shall not be published or disclosed unless it is determined that its withholding is contrary to the interest of the national defense.

§ 350.92 Applicability of this regulation and official actions.

(a) This regulation and all official actions taken by the Office of Industrial Mobilization, unless specifically stated otherwise, apply in any state, territory, or possession of the United States and the District of Columbia.

(b) This regulation and all official actions apply not only to deliveries to other persons but also include deliveries to affiliates and subsidiaries of a person and deliveries from one branch, division, or section of a single enterprise to another branch, division, or section of the same or other enterprise under common ownership or control.

§ 350.93 Communications.

(a) All communications concerning this regulation, including: requests for copies of the regulation or other explanatory information, requests for guidance or clarification, and requests for adjustment or exception shall be addressed to the Office of Industrial Mobilization, Room 4104, U.S. Department of Commerce, Washington, D.C. 20230, Ref: DPAS; telephone: (202) 377-3634.

(b) All appeals pursuant to this regulation shall be addressed to the Assistant Secretary for Trade Administration, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230, Ref: DPAS.

Issued: May 28, 1981.

John A. Richards,

Acting Director, Office of Industrial Mobilization.

Defense Priorities and Allocations System

Schedule I to Part 350.—Authorized Program Identifications and Delegate Agencies

The program identifications listed in this schedule have equal preferential status and are the only ones authorized under the Defense Priorities and Allocations System and must be used in accordance with this regulation and official actions taken by the Office of Industrial Mobilization.

While the Office of Industrial Mobilization may grant the use of priority ratings to support any authorized program, in addition, Delegate Agencies may authorize the use of ratings for those programs indicated below. For those programs where the Office of Industrial Mobilization is listed as the Delegate Agency, the Office of Industrial Mobilization has not delegated rating authority to any other agency.

Column 1—Program identification	Column 2—Authorized program	Column 3—Delegate agency
For Defense Programs:		
A1	Aircraft	Department of Defense: Army. Navy (including Coast Guard). Air Force. Defense Logistics Agency. Associated Agencies of Department of Defense: CIA. FAA. NASA
A2	Missiles	
A3	Ships	
A4	Tank—Automotive	
A5	Weapons	
A6	Ammunition	
A7	Electronic and communications equipment	
B1	Military building supplies	
B2	Production equipment (for defense contractor's account)	
B3	Production equipment (Government owned)	
C1	Department of Defense Construction	
C2	Maintenance, repair and operating supplies (MRO) for Department of Defense facilities	
C3	Controlled materials for Defense Industrial Supply Center (DISC)	
C4	Miscellaneous	
For International Defense Programs:		
Canada:		
D1	Canadian Military programs	Office of Industrial Mobilization. (Plus Department of Defense.)
D2	Canadian Production and construction	
D3	Canadian nuclear defense program	
Foreign Nations:		
G1	Certain munitions items purchased by foreign governments through domestic commercial channels for export.	
G2	Certain direct defense needs of foreign governments other than Canada	
G3	Foreign nations (other than Canada) production and construction	
Co-Production:		
J1	F-16 Co-Production Program	
For Atomic Energy Defense Programs:		
E1	Construction	Department of Energy.
E2	Operations—including maintenance, repair, and operating supplies (MRO)	
E3	Privately owned facilities	
For Energy Programs:		
F1	Exploration, production, refinging, and transportation	Department of Energy.
F2	Conservation	
F3	Construction and Maintenance	
For Other Defense, Energy and related programs:		
H1	Certain combined orders [see sec. 350.17(c)]	Office of Industrial Mobilization.
H2	Controlled materials producers	
H3	Distributors of controlled materials	
H4	Further converters (controlled materials)	
H5	Approved State and local civil defense programs [1]	
H6	Private domestic production	

Column 1—Program identification	Column 2—Authorized program	Column 3—Delegate agency
H7	Private domestic construction	
H8	Maintenance, repair, and operating supplies (MRO)	
K1	Federal supply items	General Services Administration.

[1] State and local governments will be authorized to use the program identification H5 only upon application to the Federal Emergency Management Agency and specific approval of the Office of Industrial Mobilization.

Defense Priorities and Allocations System.—*Schedule II to Part 350, Controlled Materials*

Controlled material[1]	Minimum quantity*		Minimum number of days**			
	Steel[2]		Steel			
	Carbon	Alloy	Carbon	High-strength low-alloy	Stainless	Alloy[3]
Steel						
Bar, bar shapes (including light shapes):						
Bar, hot-rolled stock for projectile and shell bodies	([2])	([2])	45	75		[3]75
Bar, hot-rolled, other (including light shapes):			[3]45	[3]75	90	[3]75
Round bars up to and including 3 inches, and squares, hexagons, half rounds, ovals, etc., of approximately equivalent section area (net tons)	5	([2])				
Round and square bars over 3 inches to, but not including, 8 inches (net tons)	15	([2])				
Bar-size shapes (angles, tees, channels, and zees under 3 inches (net tons)	5	([2])				
Bar, reinforcing (straight lengths, as rolled (net tons)	5		45			75

[1] See technical definitions (Section 350.31).
[2] All stainless steel products and certain other products. By negotiation between mill and its customer. If no acceptable arrangements are worked out, the Office of Industrial Mobilization should not notified.
[3] For clad products, add 45 days to lead time indicated.
[4] Includes projectile body stock, sizes under 2 1/8 inches.
[5] If annealed or heat-treated, add an additional 15 days.
[6] For welded tubing or high carbon spring steel strip, 75 days.
[7] For electrical sheet and strip, use the following: Grade—Low, Leadtime—45; Definition—AISI M47, M45, M36. Grade—Medium, Leadtime—45; Definition—AISI M27, M22, M19. Grade—High, Leadtime—60; Definition—AISI M15 and oriented.
[8] Applies to special rolled shapes including angles and channels.
[9] Steep pipe or tubing exceeding 36 inches O.D. is not a controlled material.
[10] Published carload minimum (mixed sizes and grades).
[11] Quantity refers to any assortment of wire merchant trade products.
[12] If cold-finished, add an additional 15 days.
[13] For forging quality, product of one heat.
[14] Product of one heat.
[15] Includes anodes—rolled, forged, or sheared from cathodes.
[16] For refractory alloys, 60 days.
[17] Standard package quantities as published by each mill.
[18] Standard minimum quantities as established by each mill.
[19] Lead time applies to unmachined castings after approval of patterns for production.
[20] Small simple castings to fit 12 x 16 inch flask, 7 days.

*Minimum quantity for each size and grade of any items for mill shipment at any one time to any one destination.
**Minimum number of days in advance of first day of month in which shipment is required.

Defense Priorities and Allocations System

Schedule III to Part 350.—*Copper and Nickel Alloys Controlled Materials Producers' Set-Aside Base and Percentages*

Part IV

Department of Energy

Outer Continental Shelf Oil and Gas Lease Sales; Variable Net Profit Share Bidding System

DEPARTMENT OF ENERGY

10 CFR Parts 376 and 390

Outer Continental Shelf Oil and Gas Lease Sales; Variable Net Profit Share Bidding System

AGENCY: Department of Energy.

ACTION: Final rule.

SUMMARY: On December 19, 1980, the U.S. District Court for the District of Columbia issued an order requiring the Department of Energy (DOE) to issue a proposed regulation implementing the bidding system described at 43 U.S.C. 1337(a)(1)(E) by February 28, 1981, and a final regulation by May 25, 1981. Pursuant to that court order, DOE issued that proposed regulation on February 27, 1981 (46 FR 15484, March 5, 1981), and today issues the final regulation required by the District Court Order. The Solicitor General filed a petition for a writ of certiorari which was granted by the Supreme Court. The case is expected to be heard by the Supreme Court in the fall term. This regulation establishes a new bidding system for use in lease sales of oil and gas tracts on the Outer Continental Shelf (OCS). This bidding system ("variable net profit share") uses a percentage of net profits as the bid variable and requires payment of a fixed cash bonus for each tract. This system also requires payment of an annual rental and makes use of existing accounting procedures, codified at 10 CFR Part 390, established to determine net profit share payments due the United States (45 FR 36784, May 30, 1980). This regulation implements rulemaking responsibilities under section 8(a) of the Outer Continental Shelf Lands Act, as amended, that were transferred to DOE under sections 302(b) and 303(c) of the Department of Energy Organization Act.

EFFECTIVE DATE: June 22, 1981.

I. Introduction

A. Authority

Sections 302 and 303 of the Department of Energy Organization Act (DOE Act, Pub. L. 95–91, 91 Stat. 578–580 (42 U.S.C. 7152, 7153)) transferred to the Secretary of Energy certain authorities previously held by the Secretary of the Interior under the Outer Continental Shelf Lands Act (OCSLA, Act of August 7, 1953, ch. 345, 65 Stat. 462 (43 U.S.C. 1331 *et seq.*), as amended by the Outer Continental Shelf Lands Act Amendments of 1978 (OCSLAA, Pub. L. 95–372, 92 Stat. 629)), the Mineral Lands Leasing Act, the Mineral Leasing Act for Acquired Lands, the Geothermal Steam Act of 1970, and the Energy Policy and Conservation Act. Specifically, with respect to Federal leases issued under these statutes, section 302(b) of the DOE Act authorizes the Secretary of Energy to promulgate regulations which relate to the: (1) fostering of competition for Federal leases (including, but not limited to, prohibition on bidding for development rights by certain types of joint ventures); (2) implementation of alternative bidding systems authorized for the award of Federal leases; (3) establishment of diligence requirements for operations conducted on Federal leases (including, but not limited to, procedures relating to the granting or ordering by the Secretary of the Interior of suspension of operations or production as they relate to such requirements); (4) setting rates of production for Federal leases; and (5) specifying the procedures, terms and conditions for the acquisition and disposition of Federal royalty interests taken in kind.

In addition, section 302(c) of the DOE Act grants the Secretary of Energy the authority to establish rates of production for Federal leases, and section 303(c)(1) permits the Secretary to disapprove any term or condition of a Federal lease that relates to DOE's authority to promulgate regulations under section 302(b).

The Secretary of Energy is specifically authorized by section 302(b)(2) of the DOE Act to promulgate regulations under the OCSLA as they relate to the implementation of alternative bidding systems for the award of Federal leases.

The bidding system or systems to be utilized by the Department of the Interior (DOI) in each OCS lease sale are chosen from those authorized by the OCSLA and prescribed by DOE regulation. DOE has promulgated regulations implementing four of the bidding systems authorized by section 8(a)(1) of the OCSLA in 10 CFR Part 376. On February 5, 1980 (45 FR 9536, February 12, 1980), DOE issued final regulations implementing three bidding systems: (1) cash bonus bid with a fixed royalty; (2) royalty bid with a fixed cash bonus; and (3) cash bonus bid with a sliding scale royalty. On May 14, 1980 (45 FR 36784, May 30, 1980), DOE issued final regulations implementing a fourth bidding system, cash bonus bid with a fixed net profit share. Respectively, these systems implement sections 8(a)(1)(A)–(D) of the OCSLA.

B. Mandate of the U.S. Court of Appeals

On June 22, 1979, Energy Action Educational Foundation, with several other parties, filed an action in the U.S. District Court for the District of Columbia which sought to halt further sales of OCS leases and to upset past sales on the basis of alleged violations of the OCSLA. Plaintiffs claimed, *inter alia*, that the Secretary of Energy had violated the OCSLA through failure to issue regulations for certain bidding systems authorized by the OCSLAA, in particular the system employing net profit share as the bid variable (section 8(a)(1)(E) of the OCSLA).

On September 17, 1980, the U.S. District Court denied plaintiff's request to enjoin scheduled OCS lease sales. The U.S. Court of Appeals for the D.C. Circuit affirmed the District Court's refusal to grant the injunction, but retained jurisdiction and proceeded to address certain issues on the merits.

On October 30, 1980, the Court of Appeals issued an opinion, *Energy Action Educational Foundation* v. *Andrus* (No. 80–2127, D.C. Cir., October 30, 1980), which held that the Secretary of Energy had violated the provisions of the OCSLA by failing to issue certain alternative bidding systems enumerated in the OCSLA. Specifically, the Court directed DOE to issue regulations establishing the two remaining bidding system alternatives which employ bid variables other than the cash bonus, namely, the net profit share and work commitment bid variables, in order to allow empirical experimentation with these systems by the Secretary of the Interior. The Court noted that injunctive relief for future OCS lease sales might be appropriate if the regulatory process for these two bidding system alternatives was not completed by mid-1981.

In its opinion, the Court found in the language and legislative history of the OCSLAA "* * * a Congressional imperative to promulgate regulations, as a necessary prelude to experimentation, involving non-cash bonus statutory bidding alternatives, including variable net profit share bidding * * *." *(Slip. op.,* at 41.) In order to accomplish the required "experimentation" within the five-year period set out in the OCSLA, the court concluded that DOE must fulfill its obligation to promulgate a regulation establishing a variable net profit share bidding system "with the maximum possible speed consistent with procedural and statutory rulemaking requirements." *(Slip. op.,* at 42.)

Upon remand, on December 19, 1980, the U.S. District Court issued an order establishing a "precise timetable" for promulgation of the variable net profit share and a variable work commitment bidding system regulations. The District Court ordered the Secretary of Energy to issue a proposed regulation for a variable net profit share bidding system by February 28, 1981, with a final regulation to follow by May 25, 1981. The variable work commitment bidding system was ordered to be proposed by March 30, 1981, and issued as a final regulation by June 30, 1981. On February 3, 1981, the Department of Justice notified the District Court that the government had decided to seek Supreme Court review of the decision of the Court of Appeals. The Solicitor General filed a petition for a writ of certioriari on February 26, 1981. The Supreme Court has granted this petition and will review the decision of the Court of Appeals.

C. The Proposed Regulation

As its initial response to the decision of the U.S. Court of Appeals, DOE issued a proposed regulation on February 27, 1981 (46 FR 15484, March 5, 1981), to establish a variable net profit share bidding system for use in OCS lease sales. Issuance of this proposal met the terms specified in the order of the U.S. District Court. The proposed bidding system differed radically from the bidding system most often used in sales of OCS oil and gas leases. Instead of using the cash bonus as the bid variable, the proposed bidding system employed a share of lessee's net profits as the bid variable, and cash bonus replaced royalty as the fixed term of the lease. No provision for royalty appeared in the proposed regulation. The proposal also incorporated the accounting procedures developed in connection with the fixed net profit share bidding system regulation (45 FR 36784, May 30, 1980) and codified in 10 CFR Part 390.

The variable net profit share bidding system is authorized by section 8(a)(1)(E) of the OCSLA, which authorizes a bidding system utilizing a "fixed cash bonus with the net profit share reserved as the bid variable." In further compliance with the Court's decision, DOE proposed on March 30, 1981 (46 FR 20522, April 3, 1981) a regulation to implement a bidding system which would employ work commitment as the bid variable.

Among the concerns that led to enactment of the OCSLAA was the concern of Congress that the large cash bonus payments that tend to characterize the traditional bidding system may inhibit competition for OCS leases by preventing smaller, independent firms from participating in OCS development. Congress therefore adopted amendments authorizing the establishment of several new bidding system alternatives that did not rely on front-end cash bonuses as the main determinant of lease award. Under the variable net profit share system, leases will be awarded on the basis of the highest net profit share bid. Initial cash bonus payments will be reduced to the level of the associated, presumptively lower, fixed cash bonus and return to the public is shifted away from large initial cash bonuses to periodic contingency payments based on net profits from the actual production of oil and gas. Compared to costs of development, as well as to net profit share payments that might be anticipated under this system, the fixed cash bonus under this system will likely represent a relatively small amount.

Thus, the most immediate effect of using the variable net profit share bidding system, in place of traditional cash bonus systems, will be a reduction in front-end cash bonuses and a consequent reduction of funds flowing into the U.S. Treasury at the time of the lease sale. The amount of any such reduction will depend upon the level at which cash bonuses are fixed for any OCS lease sale. The reduction in bonus amounts may eventually be offset, at least in part, to the extent that lessees make contingency payments during production; however, any such contingency payments would not begin for several years after issuance of the lease. It is also possible that these lower cash bonus amounts may lead to speculative bidding. These conclusions found considerable support in the public comments.

To the extent that very high profit share rates are bid, DOE anticipates that minimum economical commercial field sizes may increase and that there may be premature abandonment of leases. Either of these results will lead to reduced resource recovery and losses in national income, that is, in net economic value. In addition, high profit share rates are likely to reduce the incentive for exploration and cause overinvestment in development after discovery of a commercial field. High profit share rates may also cause inefficient distortions in production patterns. All of these impacts will tend to reduce resource production, national income, and the Federal revenues yielded by OCS development. Further, in any bidding system where the bid variable is not a cash bonus, there is no assurance that the high bid on a tract will yield the greatest return to the public or to the government over the life of the lease.

In amending the OCSLA to provide for new bidding system alternatives, Congress intended, in part, to encourage greater competition for OCS leases through decreased reliance on front-end cash bonus payments as the primary means of allocating leases on the OCS. The U.S. Court of Appeals, in its opinion mandating that DOE promulgate a regulation to establish a variable net profit share bidding system, reached a similar conclusion with respect to the impact of the new systems. The Court stated that bidding system alternatives "* * * like the variable net profit bidding option (and the work commitment bidding system) are designed to reduce front-end cash payment and to stimulate competition to a greater degree than the options already in place which still focus bidding on the front-end cash bonus." (*Slip. op.,* at 37.)

The variable net profit share bidding system may in practice encourage more participation in OCS lease sales by a more diverse range of firms. Participation in OCS lease sales may be viewed in terms of an increase in the overall number of bids in an OCS lease sale, in the number of bids per tract, or in the number of sale participants. In the sense that greater participation may be considered a measure of competition for OCS leases, this regulation should lead to increased competition. Also, to the extent that available capital is not used to pay large cash bonuses, it should remain available for exploration and development expenses.

Since administration of OCS leases issued pursuant to this regulation would be the responsibility of the U.S. Geological Survey (USGS) within DOI, use of this bidding system may result in somewhat greater responsibilities for USGS, particularly in the administration

of applicable accounting procedures. It should be noted that this responsibility is not qualitatively distinct from functions already committed to USGS. Some increase in USGS work load may be expected as a result of this regulation, depending on the extent to which this bidding system is used. USGS regulations are not superseded by this action, but must be followed in conjunction with this regulation, as appropriate.

Pursuant to section 5(a) of the OCSLA, as amended, a copy of the proposed regulation was forwarded to the Attorney General for review of any aspect of the proposed bidding system that may affect competition. No response has been received to date. DOE has consulted with DOI in the preparation of this regulation, given its views careful consideration, and incorporated into the regulation and preamble a number of DOI's suggestions.

II. Analysis of Public Comments

A. General

The proposed regulation was published in the **Federal Register** on March 5, 1981 (46 FR 15484) and public comment was invited over a period of approximately one month; the comment period closed on April 7, 1981. During the comment period, DOE held a public hearing on the proposed regulation in Washington, D.C., on March 26, 1981. In response to the proposal, oral or written comments were received from 21 private firms (all actively engaged in the energy industry), and one non-profit interest group. Of those responding, 15 comments expressed opposition to the use of a variable net profit share bidding system for a variety of reasons, four comments favored this bidding system, and three comments offered criticisms or suggestions pertaining to elements of the proposal without clearly indicating support or opposition to such a system.

Opposition to the variable net profit share bidding system appeared relatively more adamant than to the fixed net profit share bidding system. Several firms by reference incorporated their remarks on the earlier bidding system regulation, asserting the relevance of the same issues. DOE acknowledges that this regulation raises many of the same concerns as the fixed net profit share bidding system; if anything, more starkly than before. As the bid variable, the net profit share term is likely to exert a much more pervasive influence on lease acquisition, exploration, development, production, and termination, than as the fixed term of an OCS lease. Potential negative effects of the net profit share term become greatly magnified.

The issues raised in the comments fall generally in several categories, few of which are neatly severable from the others. For purposes of discussion, however, those issues that concern the merits and drawbacks of the proposed regulation will be considered in this section of the preamble. Specific recommendations and suggestions made in regard to perceived flaws in the variable net profit share bidding system will be discussed in Section III of this preamble.

B. Competition

In its opinion ordering DOE to promulgate a variable net profit share bidding system regulation, the U.S. Court of Appeals concluded from the legislative history of the OCSLAA that use of non-cash bonus bidding systems would serve to stimulate competition in OCS lease sales, through reduction in the front-end cash bonuses needed to acquire OCS leases. This conclusion found little support in the comments. A total of seven respondents agreed that variable net profit share bidding would likely increase the number of bidders for OCS leases, but of these, only four went on to state that variable net profit share bidding would therefore enhance competition in OCS lease sales.

Supporters of variable net profit share bidding stressed the capital-intensive nature of the industry in support of their assertion that the system will lower front-end costs sufficiently to attract smaller operators capable of OCS development once threshold barriers to lease acquisition are eased. This assertion posits the existence of a reservior of smaller firms capable of operating on the OCS, but which have either limited their activities or abandoned them altogether, because of the dominant use of the traditional high front-end cash bonus.

Most firms, however, viewed the proposed regulation at best as no improvement over cash bonus bidding systems and appeared convinced that a substantial reduction in the level of cash bonus will not encourage significantly greater participation by smaller firms, for several reasons. A number of firms observed that the level of investment required in OCS exploration and development may be too high for even a joint venture of smaller companies to sustain, especially considering the degree of risk inherent in the venture and the likelihood of long delays in recovering expenditures. A related consideration was that the cost of acquiring OCS leases by cash bonus bid usually represents a relatively less significant expense than the operational costs incurred to explore and develop OCS tracts. Regardless of the bidding system used to lease a particular tract, the lessee would still face large exploration and development costs, as well as enormous potential liabilities stemming from responsibilities imposed by the OCSLA and other statutes. While the variable net profit share bidding system will permit recovery of allowable costs prior to any payment to the government, until a commercial discovery is found there is no assurance that a lessee will recoup any costs.

Moreover, several firms warned that use of the variable net profit share bidding system might actually decrease the level of participation of smaller firms in OCS oil and gas lease sales, on the premise that the rate of return on investment is more critical for smaller firms. These firms believed that, due to the probable high net profit share bids anticipated under this system, smaller profit margins are likely to be available to lessees on variable net profit share tracts than on tracts leased under cash bonus bidding systems, and that this might actually deter smaller firms from participation in OCS lease sales using this bidding system. One respondent actively disagreed with this contention, asserting that OCS lessees would be willing to accept shrunken profit margins, in return for the prospect of access to OCS leases.

Again stating a point made repeatedly in regard to other OCS bidding systems, firms generally stressed the availability of opportunities for smaller companies to participate in OCS exploration and development through formation of joint ventures, often framing their discussion in terms of "adequate" participation. In issuing this regulation, DOE makes no judgment with regard to the adequacy or sufficiency of opportunities to participate in OCS lease sales, and acknowledges the widespread availability of the joint venture mechanism as a vehicle for participation by smaller firms.

DOE is in substantial agreement with many of the comments regarding the minimal benefits likely to be achieved through use of this system. As evidenced by the preamble to the notice proposing this regulation, it is not DOE's position that this regulation will necessarily enhance competition for OCS leases, however defined. To the contrary, DOE's own analysis suggests that competition for OCS leases appears quite active.

Neither does DOE contend that lowering the front-end costs of lease acquisition will remove all barriers to

fuller participation on the OCS for smaller firms. DOE agrees, however, that this regulation will to some extent reduce these barriers to entry; companies will have somewhat more flexibility in deciding whether to bid alone or jointly, how many partners to include in a joint venture, and what percentage of the bid to control. In providing this flexibility, new firms considering investment in the OCS may be better able to participate in OCS lease sales.

C. Speculation

While the comments were evenly divided as to whether the proposal would result in a greater number of bidders in OCS lease sales, there was nearly unanimous agreement that new bidders attracted to OCS lease sales by introduction of this system would bid for purely speculative reasons and would, in all likelihood, lack the capital, expertise, or intent to explore and develop leases on the OCS efficiently. Those who held this view generally noted that since any variable net profit share bidding system, by design, lowers the initial capital investment in the OCS lease to the level of the associated fixed cash bonus, thereby making it possible to obtain a lease with very little capital at risk, it is unavoidably susceptible to unrealistically high net profit share bids. Since speculators risk little, in comparison with bidders on cash bonus tracts, very high net profit share bids are likely to result from use of this system.

Most of the comments contained examples of undesirable consequences that could flow from speculative OCS bidding. Several respondents asserted that using the variable net profit share bidding system could decrease the value of pre-sale exploration and evaluation to firms, since months or years of effort spent by one firm in developing tract-specific resource information might be negated by an unrealistically high bid, submitted purely for speculative reasons. There was concern that the variable net profit share bidding system might lead, in an extreme situation, to virtual elimination of pre-sale exploration, such as seismic operations or off-structure drilling, with an almost complete shift to post-sale exploration.

Many comments noted that under a variable net profit share bidding system, lesses might find it advantageous to delay exploration of a tract, until exploration of adjacent or nearby tracts had taken place and the lessee had more information as to the resource potential of its tract; a speculative lessee might find it particularly advantageous, as an indication of the worth of its tract for purposes of assignment or farmount. Other comments indicated a concern over inefficient operations conducted by inexperienced or unqualified firms. Another respondent concluded that the advantages of increased participation, however, far outweighed any such initial disadvantages.

A few comments mentioned that speculation might cause exploration or development to be postponed for years, assuming that a tract held for speculative purposes would eventually have to be relinquished, at least by the expiration of the primary term of the lease. The tract then could not be leased again until a scheduled OCS lease sale took place in the area of the tract, possibly years later in a frontier area. From the perspective of both the need to inventory OCS oil and gas resources and the need for expeditious development of these resources, such delays would prove unacceptable.

DOE shares concerns over possible speculation in the use of the variable net profit share bidding system, but not to the extent expressed in the comments. The assumption that speculative bids will be submitted for tracts offered under this bidding system presumes that the associated fixed cash bonus will be established at levels low enough that speculators will be relatively indifferent to its loss if the tract proves valueless, as a number of comments mentioned. A speculative bidder considering whether to bid an inordinately high net profit share must weigh the consequences of obtaining an OCS lease encumbered by such terms. The expected rate of return on a lease with a high net profit share term might well be critically reduced, with the result that the tract might well become an unattractive candidate for assignment or farmout. Development might be uneconomical, unless other tracts overlying a field are unitized. Since the variable net profit share bidding system virtually eliminates the prospect for unusually large profits to lessees, and the risk of faulty bidding remains, there appears little justification for apprehension that this regulation will foster waves of speculative bidding.

Both DOE and DOI are cognizant of the possibility of speculation under the variable net profit share bidding system, and intend to cooperate to eliminate such speculation as does occur. While DOE agrees with the comment that manipulation of the capital recovery factor for specific leases will not deter speculators from bidding, other means of eliminating or at least limiting speculation, and its undesirable effects, are available. Prior to an OCS lease sale, fixed cash bonuses must be established for each tract offered under the variable net profit share bidding system. The level of these cash bonuses may be set sufficiently high as to deter speculative bids. It should also be noted that the Secretary of the Interior is under no obligation to accept bids for OCS leases, and may in his discretion reject the high bid on any tract.

Moreover, pursuant to section 5(a)(7) of the OCSLA, DOI has promulgated regulations to "assure prompt and efficient exploration and development of lease areas", in 30 CFR Part 250. DOI may be expected to enforce these regulations against speculative lessees.

D. Lease Exploration and Development

The comments were generally critical of the probable effects of a variable net profit share bidding system on OCS exploration and development. As already mentioned, many respondents indicated their belief that the use of a net profit share term as the bid variable devalued resource evaluation prior to lease issuance, with consequent delays in exploration and development. It becomes advantageous to the lessee then to postpone as much exploration activity as possible until after lease issuance when capital recovery treatment is available.

Other comments cited a lack of incentive for rapid exploration and development in the absence of a high cash bonus, or "sunk cost", to spur operations on a variable net profit share OCS lease. Since at the time of lease issuance the lessee's only tangible investment in a variable net profit share lease is the fixed cash bonus, there is a lack of incentive to recoup that investment, relative to work commitment bid leases, cash bonus bid leases, or other high front-end investments that promise a comparable return on investment. This lack of incentive allows the lessee to focus on alternative investment opportunities, on the OCS or otherwise, and to premise exploration and development activities on successful operations on tracts adjacent or nearby. Such waiting delays development and production; in the event that adjacent tracts are not proven, the lessee may never undertake any exploratory activities. Under such circumstances, even well-intentioned operators may find it beneficial to act speculatively. However, a supporter of variable net profit share bidding asserted to the contrary, that OCS tracts leased under this bidding system would be explored and developed at least as diligently as tracts leased under a cash bonus bid system.

DOE takes serious note of these possible effects of this regulation, but

discounts the likelihood of their widespread occurrence. Left to themselves, lessees might act in the manner described in the comments. However, the OCSLA and implementing DOI regulations have given DOI powerful means to enforce compliance with the general provisions of the OCSLA and of leases issued pursuant to the statute. These means include exploration plans, development and production plans, fines, lease forfeiture, and prohibitions on participation in future OCS lease sales. A number of comments noted the availability of such means to DOI to enforce compliance.

In addition, with regard to the contention that use of the variable net profit share bidding system would lead to a decrease in pre-sale exploration, it should be noted that the selection of a bidding system for tracts scheduled to be offered in particular OCS lease sales is not made public until publication of a notice of a proposed OCS lease sale, at which point bidders have already developed their resource evaluations for tracts. It is likely, then, that application of a particular bidding system to a tract will occur too late in the leasing process to affect pre-sale resource evaluation to any large extent.

DOE further disagrees with this contention because the cost of pre-sale exploration appears relatively minor when compared to other costs incurred in OCS operations. Since the value of pre-sale resource information is high and the opportunity loss is large, it is unlikely that a serious bidder will be deterred from performing adequate pre-sale resource evaluations.

DOE considers serious, however, some possible effects on OCS production which might stem from variable net profit share bidding, effects which appear to be independent of any specific system. For example, there was major concern in the comments that use of this regulation could increase the minimum size of commercially producible fields, and concomitantly induce early abandonment of fields with producible reserves remaining. Most of the firms active in OCS operations agreed that both these eventualities seemed both likely and more serious than in the case of the fixed net profit share system.

These concerns parallel closely the results of DOE's analysis. The rationale generally expressed in the comments was that, assuming discovery of a field, development depends upon a sufficient expected rate of return for each future dollar spent, and not on sunk costs such as the cash bonus. In this case, the decision whether to develop a lease occurs near the end of the capital recovery period, and at that time is based on anticipated future expenditures essentially the same as those to be incurred under a cash bonus bid tract. However, the rate of return is limited by the net profit share bid. As a consequence, the rate of return may not offer sufficient economic incentive to the lessee to justify development for fields below a minimum size. Thus, some fields that would be produced on tracts leased under a cash bonus bidding system might well prove unattractive investments under a variable net profit share bidding system. Relinquishment of such leases will result in further delays until the tract is leased again under more favorable terms. Two comments indicated that minimum field size would not be affected.

A similar rationale governed the majority of comment with regard to continuing production from fields that are marginal, either prior to production or later, due to declining rates of production. Additional expenditures, such as new wells and secondary recovery operations, may be required to sustain production at acceptable levels; most comments noted that such major capital investments would not qualify for application of the capital recovery factor. Faced with high net profit share payments and production costs, at some point the lessee may well opt to cease production and relinquish the lease. As a consequence, total production from tracts leased under this bidding system may be expected to be less than that from tracts leased under the cash bonus-fixed royalty bidding system. In addition, the average productive life of net profit share tracts may well be shorter.

DOE shares these concerns, as its own analysis yields similar results. As a means to mitigate partially these anticipated drawbacks to use of this bidding system, DOE notes the availability of capital recovery treatment for allowable exploration and development costs. Before any net profit share payments are owed to the government, the lessee is entitled to recoup all its allowable costs, plus an additional percentage of such costs incurred during the capital recovery period through application of the capital recovery factor. Assuming a technically producible field, the ability to recoup costs may provide some incentive to complete development and initiate production. This ability might postpone the point at which the lessee considers production uneconomic. Also, the lessee always recoups all of its allowable costs, whenever incurred during the life of the lease, though the election to end the capital recovery period is irreversible.

Other than incentives provided by the ability to recoup costs, DOE again points out the existence of enforceable DOI regulations relative to prompt exploration and development of leases and the requirement for a lessee to file exploration and development and production plans.

E. Capital Recovery Factor

In the notice of proposed rulemaking, DOE proposed two methods of establishing the capital recovery factor for each lease. One method would have DOI, in consultation with DOE, establish capital recovery factors for each tract or group of tracts scheduled to be offered under the variable net profit share bidding system in advance of each sale, as DOI does now for tracts offered for sale under the fixed net profit share bidding system. The predetermined capital recovery factor for each such tract would be published not later than in the final notice of OCS lease sale.

Alternatively, this regulation allows for use of a schedule in which the level of the capital recovery factor would in general tend to be set at lower levels for higher net profit share rate bids. Any such schedule will be announced well in advance of a particular OCS lease sale. Once a bid was accepted, an associated capital recovery factor would be fixed according to the schedule published not later than in the final notice of OCS lease sale.

Of firms expressing a preference, more preferred that a unique capital recovery factor be established for each tract offered under this bidding system, and published well in advance of the lease sale. Generally, those who favored a unique capital recovery factor did not consider the schedule method a significant deterrent to speculators, but did find its use an unnecessary complication in bid computation.

Others, however, preferred the use of a schedule. In contrast to those who favored assigning a unique capital recovery factor to a tract, these comments indicated that the schedule of capital recovery factors might serve to inhibit excessively high net profit share and speculative bids, with their associated possible undesirable effects, as already described. These comments also recognized that use of such a schedule might discourage uneconomic expenditures on the lease.

A number of other issues were raised in the comments with regard to possible effects of the capital recovery factor on exploration and production. Several firms indicated that the capital recovery

V 46 / 105 JUN 2 1981 UMI

factor encouraged uneconomical expenditures in exploration and development, in order to maximize the allowance for capital recovery, as well as delays in production, premature siting of production facilities, and purchases of oversized equipment. The use of a capital recovery factor was generally alleged to distort the level and timing of expenditures on exploration and development operations, leading to ineffiencies in recovery of the resource, loss of production, and loss of revenue to both the lessee and the government.

Other comments discounted the magnitude of such adverse effects while acknowledging their possibility in individual cases. These comments pointed to other more influential factors in determining the timing and level of expenditures, capital, geological, technical, and logistical in nature. DOE acknowledges that abuse of the capital recovery factor can contribute to undesirable consequences in exploration and production on tracts leased under the variable net profit share bidding system. But these comments indicated that establishment of low capital recovery factors, in conjunction with reliance on accustomed patterns and dynamics of OCS development, should mitigate any such adverse effects.

F. Administrative Costs

Most of the comments contained objections to the variable net profit share bidding system on administrative grounds, citing increased costs to both government and industry. Although no estimates of increases were provided in the comments, the respondents evidently expect such costs to be substantial, and to be borne ultimately by the public as consumers and taxpayers. Several firms asserted that this bidding system intertwines the government in corporate decisions to an unwarranted extent, by allowing certain expenditures to qualify for capital recovery treatment, thereby unnecessarily complicating management and resulting in costly delays while lessees wait for USGS to approve expenditures.

DOE recognizes that administration of this regulation will entail costs for both government and industry, although no cost information has been obtained to date. It should be noted that this regulation imposes no qualitatively distinct administrative burdens on either government or industry from those already in effect. The accounting procedures used to determine the net profit share due the government have been in place for more than a year. They have been used in several OCS lease sales, allowing development of familiarity in their use. In designing these accounting procedures, DOE used accepted joint venture accounting procedures to the extent possible, and adopted different procedures only in those instances where industry accounting procedures envisioned arms-length bargaining transactions among the parties.

Also, nowhere do the accounting procedures require a lessee to obtain USGS approval prior to incurring an expenditure. Allowance of expenditures in this regulation is solely for purposes of determining net profit share payments due the government, and never for judging whether a lessee may incur a particular expense. USGS involvement in a lessee's decisionmaking is not enlarged under this regulation, but since the government's interest in determining net profit share payments is relatively more important under this regulation, greater interest may be appropriately expected from DOI in its administration.

III. The Final Regulation

A. General

Despite many criticisms of the proposed regulation, and many recommendations in the comments directed toward its improvement, the final regulation establishing the variable net profit share bidding system remains identical to the proposal. For several reasons, DOE has declined to incorporate into the regulation any of the suggestions or recommendations made in the comments. In part, DOE has elected to keep the final regulation the same as the proposal because of the nature of the regulation. As opposed to prescribing detailed mandatory requirements for industry to follow, this regulation establishes a framework through which OCS oil and gas tracts may be leased. Due to its nature, there is little for DOE to change in this regulation. As written, the final regulation establishes certain lease terms and conditions to be used in the design and conduct of OCS lease sales using the variable net profit share bidding system. Because of the novelty of this untried system, the serious concerns raised by DOI, DOE and many respondents, it is especially advisable to maintain a maximum degree of flexibility with regard to the implementation of this bidding system.

As with all bidding systems, leases may be awarded to the highest qualified bidder, the issue of qualification being determined pursuant to standards established by DOI. Under the variable net profit share bidding system, the net profit share rate is the bid variable and the cash bonus and annual rental are fixed by the Secretary in advance of the lease sale. The highest bidder is that bidder submitting a bid containing the highest percentage of net profits. A successful bidder pays the United States the cash bonus and annual rental as fixed in the notice of OCS lease sale, and the percentage of net profits which was bid, with such profits based on the revenue received from production and sale of oil and gas minus allowable costs and the allowance for capital recovery, and determined in accordance with 10 CFR Part 390.

B. Accounting Procedures.

DOE has determined that the accounting procedures previously promulgated in 10 CFR Part 390 (45 FR 36784, May 30, 1980) for use in calculating net profit share payments due the United States for production of oil and gas from leases issued under the fixed net profit share bidding system will also serve for calculating net profit share payments due for tracts leased under this bidding system. The accounting procedures themselves are independent of whether the net profit share component constitutes the bid variable or the fixed term in the lease. There are no substantive changes in the accounting rules, but minor technical changes have been made to the definitions of "net profit share rate" and "NPSL" in 10 CFR § 390.002 to clarify that the accounting procedures in Part 390 will be applicable to determining net profit share payments under all of the authorized bidding systems in 10 CFR Part 378 which employ a net profit share component.

Use of these accounting procedures should help to hold down administrative costs for lessees, as mentioned often in the comments, since separate accounting systems for leases issued under each of the two bidding systems employing a net profit share component are not required. In addition, OCS lease sales using the fixed net profit share bidding system have already been conducted, allowing both the government and industry to become familiar with these accounting procedures. This experience and familiarity will further assist in minimizing administrative costs to lessees. For a more complete discussion of these accounting procedures, please refer to the preamble to the final fixed net profit share regulation (45 FR 36784, May 30, 1980).

In the preamble to the proposed regulation, DOE specifically requested comments on any aspect of the accounting procedures, in order to test

its determination that they are generally appropriate for use in connection with the variable net profit share bidding system regulation. One firm requested clarification of the accounting procedures to ensure that audits of a variable net profit share lease would be limited to the variable net profit share lease account in question. In view of the fact that no other comment raised this issue, however, DOE has concluded that no such clarification is necessary, but takes this opportunity to state that only net profit share lease accounts are subject to audit. DOE's belief that the accounting procedures are appropriate for this system was supported by the majority of comments, and DOE has therefore decided to retain them in the final regulation. A number of recommendations were made to modify specific provisions of the accounting procedures in 10 CFR Part 390, the most frequent suggestion being to delete 10 CFR 390.012(c)(2), which disallows overhead on contract services.

While DOE recognizes that there are difficulties in the application of these procedures to particular expenditures, DOE is not adopting any specific recommendations concerning the accounting procedures in 10 CFR Part 390. The U.S. District Court has ordered DOE to promulgate this regulation by May 25, 1981, in order to make it available for use thereafter in OCS oil and gas lease sales. Section 8(a)(6) of the OCSLA requires establishment of rules to govern the calculation of net profits at least 90 days prior to a notice of OCS lease sale using any of the bidding systems employing these rules. Therefore, if DOE were to undertake any major substantive amendment to the accounting procedures in connection with the variable net profit share bidding system, it might not be available for use in OCS lease sales scheduled for mid-1981. However, DOE appreciates all recommendations received and will use them as a basis for evaluating the need for modification of the existing accounting procedures.

In particular, several firms suggested that industry accounting practices, as set out in procedures of the Council of Petroleum Accounting Societies of North America (COPAS), be used in their entirety in lieu of the procedures set forth in 10 CFR Part 390. While DOE will take these comments into consideration in reviewing the need for modification, it should be noted that, insofar as possible, the adopted procedures defer to industry procedures. Deviations from COPAS procedures are basically due to the different purposes of this regulation from that of usual joint venture accounting, because COPAS leaves allocation of certain contract factors (e.g., overhead rates) to negotiation by joint venture partners.

C. Capital Recovery Factor

At the request of DOI, DOE provided in the proposed regulation for flexibility in the method of selecting a capital recovery factor for leases issued under the variable net profit share bidding system. Under bidding systems with a fixed net profit share term, capital recovery factors are fixed in advance for each tract in an OCS lease sale to be offered using that system. The capital recovery factor can be unique to each tract and, because the net profit share rate is also fixed in advance, can take into account the predetermined net profit share rate for each tract. With a variable net profit share system, this situation does not obtain.

DOE considers it advisable to retain both methods of establishing the capital recovery factor in order to provide DOI with the flexibility to test and use both methods so as to minimize possible adverse effects of the variable net profit share bidding system.

DOI analysis indicated that in some situations it may be difficult to control a tendency toward excessively high net profit share bids; several comments reflected these difficulties. There are potential problems stemming from the high net profit share rates likely under variable net profit share bidding if these are combined with capital recovery factors that would, under a fixed net profit share bidding system, be deemed to provide for a reasonable return on investment. Under this situation, there would be a greater incentive for a lessee to manipulate its costs in such a way that it would realize an acceptable return on capital spent for additional investment due mainly to capital recovery treatment for that investment. Under such circumstances, it could benefit lessees to incur exploration and development costs that would be uneconomical under a bidding system without a net profit share term. Since the variable net profit share bidding system allows lessees to recoup allowable costs, plus a return on investment, from production revenues prior to any payment to the government, it follows that uneconomical expenditures would lead to a consequent reduction in net profit share payments later due the Federal government.

An adequate return might therefore be received prior to the time the NPSL account changed to a credit balance and, therefore, prior to the time that any profit share payment was due the United States. Under these circumstances, the magnitude of the bid would not seem to matter a great deal. A high net profit share rate bid, coupled with a normal capital recovery factor, could induce a situation where the lessee would find production economical only to the point at which it had recovered its expenses, plus the accumulated allowance for capital recovery, and the balance in its NPSL capital account had changed to a credit balance. It would then have little incentive to continue production and would tend to relinquish the lease, even with producible reserves remaining.

Several comments addressed the relative advantages of the proposed alternative methods of establishing the capital recovery factor, but more as a means to deter speculation than in terms of uneconomic investment. A number of comments, however, recognized that relatively lower capital recovery factors would tend to discourage manipulation of investment in the lease. DOE understands that low capital recovery factors are not themselves likely to deter purely speculative bidding, but intends through this means to reduce any incentive for a lessee to produce only until the balance in the NPSL capital account turns to a credit balance.

The comments demonstrated a widespread misapprehension as to the purpose of the capital recovery factor. Several firms apparently assumed that the capital recovery factor is designed solely to reflect the extent of risk associated with exploration of a tract. To some extent, the capital recovery factor does compensate the lessee for risk, but more for the opportunity cost of investment than for the full risk incurred in exploration and development. It is designed to encourage investment by providing a normal return on investment, contingent upon production. DOE has always realized that opportunity costs represent a real cost to the lessee. The capital recovery factor is not based on expected resources and anticipated costs.

Since the capital recovery factor is designed to provide a normal return on risk capital, its application terminates with the risk of a dry tract. It is for this reason that DOE declines to accommodate the numerous suggestions to extend the capital recovery period throughout the term of the lease, or to reopen the capital recovery period for such major capital investments as secondary recovery operations or additional platforms. The nature of the risk incurred has changed at this point from one of whether exploration efforts would succeed to the more calculable

V 46 / 105 JE 2 81 UMI

risk of how much resource is commercially producible. In situations where initial or continued production becomes marginal, DOI may reduce the profit share rate, accept relinquishment, or exercise its various enforcement authorities under the OCSLA.

With regard to the method of establishing the capital recovery factor itself, however, no clear preference emerged from the comments. Therefore, DOE again intends to provide an opportunity to fix the capital recovery factor for a lease on the basis of a schedule to be published in the notice of OCS lease sale, under which the capital recovery factor for a lease would generally tend to be set at lower levels for higher net profit share bids. Since firms generally prefer higher capital recovery factors, their tendency to bid higher net profit share rates would be counteracted by the prospect of having a lower capital recovery factor. Moreover, use of a schedule that tends to assign lower capital recovery factors to higher net profit share rate bids may discourage lessees from incurring uneconomic exploration and development costs that would nonetheless yield an acceptable return on investment prior to the time any net profit share payment might become due to the Federal Government. Of course, the opportunity to establish the capital recovery factor, as under the fixed net profit share system, in advance of the sale and to announce it in the notice of OCS lease sale will remain open.

Under the variable net profit share bidding system, only the profit share rate is the bid variable and the bidder submitting the highest profit share rate is unambiguously the high bidder. DOE recognizes that, with the use of a schedule and varying capital recovery factors, it may be difficult to determine whether the high profit share bidder will actually pay more for the lease than a lower bidder. This difficulty, however, is inherent in the variable profit share bid system, regardless of the means of setting the capital recovery factor, because of the unknown differences in the profitability of the bidders' exploration and development of a tract. Lease awards under such a system can only be based on the numerical profit share rate bid, not on the expected lease revenues.

D. Other Recommendations

DOE received several recommendations in the comments, intended to deter speculative bidding. One suggestion would require DOI to establish a range of acceptable bids, which might be expected to yield a reasonable rate of return to both the lessee and the Federal government. Another alternative would require a fixed cash bonus set high enough to exceed the acceptable risk threshold of speculators. Still a third recommendation was to require a minimum work commitment as a fixed term of the lease. DOE has not incorporated these recommendations into the regulation itself, because the first two may be accomplished under existing authority while the third suggestion lies beyond the scope of this regulation and the statutory provision which it implements, as discussed more fully below.

This regulation does not prevent the Federal government from establishing a range of acceptable bids. Indeed, it is entirely within the discretion of the Federal government to establish such criteria as is now done for tracts offered under bidding systems with cash bonus as the bid variable. Establishment of the bonus level for each tract will require careful analysis of the expected value of the tract and the sensitivity of expected net profit share rate bids to bonus levels. Clearly, the cash bonus represents a risk aversion threshold to both "speculators" and "developers". Care must be taken in fixing the cash bonus, however, to ensure that the purpose and potential benefits of the variable net profit share bidding system are not defeated by erecting too high a barrier.

In addition, DOE has decided not to exercise its discretion under section 302(b) of the DOE Act to prescribe administrative parameters, in order to preserve a certain flexibility in the application of this bidding system. DOE has consistently maintained that its grant of authority under section 302(b) is discretionary, and that the authority to promulgate regulations differs from a statutory requirement to promulgate regulations. In view of the experimental nature of this bidding system, it seems prudent to structure as much flexibility into the regulation as possible, to allow for unanticipated effects.

Use of a minimum work commitment as a fixed lease term, in conjunction with a variable net profit share bid, appears to hold promise; however, the suggestion lies beyond the scope of this regulation and of section 8(a)(1)(E) of the OCSLA, which this regulation implements. Such hybrid systems would properly fall within the ambit of section 8(a)(1)(H) of the OCSLA, as would the suggested sliding scale net profit share system. Similarly, implementation of suggestions to keep net profit share rates low through reliance on a secondary bidding determinant would constitute a bidding system with two variables, specifically disallowed under the OCSLA.

DOE received several recommendations to mitigate possible increases in minimum commercial field size. These have not been incorporated into the regulation because of the need to preserve flexibility in administration and because the ability to achieve a similar result already is available under existing authorities. One suggestion provided for cancellation of the obligation to make net profit share payments for any year in which the net profit share obligation reduces the return on a field to less than 30 percent of capital expenditures measured on the basis of historic costs, before Federal income tax. Another recommendation would allow for cancellation or adjustment of any net profit share payments due from leases below a threshold level of production for the initial five to ten years of production.

As pointed out earlier, DOI may at its discretion reduce the net profit share rate, in order to facilitate initial or continued production. In addition, DOE wishes to avoid establishing inflexible regulatory procedures which in effect would constitute escape clauses from the net profit share bid. Such procedures could promote unwise or speculative bidding of imprudently high net profit share rates, as well as further reduce incentives to pre-sale resource assessment.

Lastly, while four of the comments unqualifiedly endorsed use of the variable net profit share bidding system, most expressed serious reservations with regard to its use. One firm requested that application of this bidding system be restricted to a minimum number of leases until its effects are empirically determined. Four others recommended that this bidding system not be used in frontier areas associated with high risks or in cases when its use might impede unitization of tracts. Another specifically recommended using this system exclusively on entire geologic structures, in order to prevent a lessee from unduly capitalizing on development activities by a lessee on an adjacent cash bonus bid tract.

The variable net profit share bidding system has been designed as a supplementary alternative system to those already in use. As with previous new systems, it is anticipated that this bidding system, if used, would initially be applied to tracts carefully selected to provide information concerning its viability while simultaneously attempting to use it to its best advantage

as a management tool. DOE does not consider unitization of tracts leased under this bidding system with those leased under other bidding systems to be an insurmountable problem. The existing accounting procedures (10 CFR § 390.014) provides for allocation of joint costs and credits. Unitization of tracts with differing royalties has not been seriously impeded in the past, and DOI has established a regulatory framework for unitization in 30 CFR Part 250.

IV. Environmental Review

After reviewing this regulation pursuant to DOE's responsibilities under the National Environmental Policy Act of 1969 (Pub. L. 91–190, 83 Stat. 852 (42 U.S.C. 4321)) DOE has determined that the proposed action does not constitute a major Federal action significantly affecting the quality of the human environment. Therefore, DOE has determined that no environmental impact statement is required for this regulation.

Environmental impacts resulting from the use of the variable net profit share bidding system are expected to be minimal. Absolute rates of activity or ultimate levels of production are not expected to fall outside the ranges that should be considered during an environmental impact analysis for lease sales conducted with conventional leasing systems. Environmental impacts associated with using this bidding system will, of course, be examined prior to each lease sale. Moreover, potential environmental impacts resulting from the use of this system will be considered prior to the selection of a leasing system for tracts in each sale.

V. Compliance with Executive Order 12291

A. General

Subsection 8(a)(2) of Executive Order 12291, issued February 17, 1981 (46 FR 13193, February 19, 1981), provides an exemption from the procedures prescribed by the Order whenever satisfying the terms of the Executive Order would conflict with deadlines imposed by judicial order. DOE has determined that, in view of a court order requiring that this regulation be promulgated no later than May 25, 1981, it is not possible to comply entirely with the procedures in the Order regarding final rules. In accordance with the further requirements of subsection 8(a)(2), DOE has reported the regulation to the Director of the Office of Management and Budget with an explanation of the conflict.

Although DOE has determined, in consultation with the Director of the Office of Management and Budget, that strict compliance with the procedures in the Order is not possible with regard to this regulation, DOE intends to adhere to the requirements of the Order to the extent permitted by the judicial deadline of May 25, 1981. DOE at present is preparing a Regulatory Impact Analysis, which conforms to the extent possible with the requirements of subsections 3(d)(1)–(4) of the Order. A summary of the Regulatory Impact Analysis is provided in the following subsection.

B. Regulatory Impact Analysis

Subsection 3(d) of the Order requires each Regulatory Impact Analysis to describe the potential benefits and costs of the regulation, including those that cannot be quantified in monetary terms, and to identify the likely recipients of any such benefits or costs. It also requires a determination of the potential net benefits of the regulation, including those that cannot be quantified in monetary terms. In addition to this cost-benefit analysis, each Regulatory Impact Analysis must contain a description of alternative approaches that could substantially achieve the same regulatory goal at lower cost, with a cost-benefit analysis of such alternatives, and an explanation of any legal reasons preventing their adoption. Lastly this subsection requires an explanation of any legal reasons why the regulation cannot be based on the requirements of section 2 of the Order.

Using a computer simulation model, DOE attempted to analyze the probable effects of the variable net profit share bidding system on several parameters crucial to exploration and production of OCS resources. A spectrum of cost regions was selected to be used in the analysis. To represent the lowest cost case, the Gulf of Mexico region, Central and Western OCS province, was selected. Higher costs characterize the Atlantic Coast region, Central Atlantic OCS province. The highest cost of production region examined was the Alaskan Beaufort Sea province, characterized as ice-laden.

The results were evaluated with regard to their impact upon five criteria: expected production, social value, government revenue, lease life, and percentage development. The criteria generally correspond to the purposes of alternative bidding systems as outlined in the OCSLAA. Among its purposes, the OCSLAA was intended to ensure that OCS production of oil and gas is timely, orderly, and efficient, as well as that the government as lessor receives a fair market value for its resource.

A major finding of the study is that the capital recovery factor had little, if any, impact on the evaluation criteria. Only in the case of expected production from small reservoirs (<50 million bbls) was the capital recovery factor an instrument that could be manipulated to affect production. This effect, however, was most significant at high profit share, high capital recovery factor combinations.

The results were influenced primarily by reservoir size. As the reservoirs tended to get larger, the level of net profit share and the capital recovery factor tended to have relatively less of an effect on government revenue, social value, and percentage development. For the lease life variable all situations examined reacted to increases in the profit share in the same manner. After the net profit share exceeded 20 percent, the lease life increased at a near-exponential rate from 15 to 27 years.

Compared to the traditional cash bonus bidding system, the variable net profit share bidding system performed at least as well for profit share bids of less than 25 percent. For profit share bids greater than 25 percent, the standard cash bonus bidding system generated more government revenue, more social value, more expected production, a greater percentage of development, and had a shorter lease life. For larger reservoirs, regardless of water depth, neither the level of net profit share nor of the capital recovery factor had major impacts upon government revenue, social value, expected production, or percentage development. Only lease life, as previously mentioned, was affected. No major differences in results can be attributed to water depth.

DOE does not maintain that the model used in this analysis will actually predict the exact levels of impact of this bidding system upon these criteria for real leases. Exact levels of impact will vary with actual conditions experienced, and with factors exogenous to the model. The model is only a tool; however, it is quite useful as a basis for comparing the performance of different bidding systems under the same conditions. Through this model, DOE can measure the relative behavior of various systems, and gauge their relative merits. Within this context, it is accurate.

VI. Compliance With the Regulatory Flexibility Act

The Regulatory Flexibility Act (Pub. L. 96–354, 5 U.S.C. 601 et seq., (September 19, 1980)), requires Federal agencies to consider the impact of proposed regulations on small businesses, small governmental units, and other small entities; to consider the ability of small

V46105 JE2 81 UMI

entities to comply with the proposed regulation; and to consider less stringent alternative compliance standards for small entities. An agency is required to prepare a regulatory flexibility analysis to document its consideration of these factors except in the situation where the agency determines that a regulation will not have a significant economic impact on a substantial number of small entities. In the preamble to the proposed variable net profit share regulation, DOE certified that the promulgation of this regulation will not have a significant economic impact on a substantial number of small entities, as defined in the statute; no comments were submitted in dispute of this certification. Therefore, a regulatory flexibility analysis will not be prepared.

(Outer Continental Shelf Lands Act, ch. 345, 67 Stat. 462 (43 U.S.C. 1331 *et seq.*, 1953), as amended by Pub. L. 95-372; Department of Energy Organization Act, Pub. L. 95-91, 91 Stat. 565 (42 U.S.C. 7101 *et seq.*, 1977), E.O. 12009, 42 FR 46267)

In consideration of the foregoing, Chapter II of Title 10, Code of Federal Regulations, is amended as set forth below.

Issued in Washington, D.C., May 22, 1981.

Roger W. A. LeGassie,

Acting Assistant Secretary for Fossil Energy.

PART 376—OUTER CONTINENTAL SHELF OIL AND GAS LEASING

1. Part 376 of Chapter II of Title 10, Code of Federal Regulations, is amended by adding a new subparagraph (5) to § 376.110(a), to read as follows:

§ 376.110 Bidding systems.

(a) * * *

(5) *Net profit share rate bid with a fixed cash bonus and an annual rental.*—(i) *Net profit share payment calculation.* The amount of the net profit share payment to the United States by the person awarded the lease shall be determined for each month by multiplying the net profit share base times the net profit share rate, in accordance with § 390.022.

(A) *Net profit share base.*

The net profit share base shall be calculated in accordance with § 390.021.

(B) *Capital recovery factor.*

The capital recovery factor, or a schedule for determining the capital recovery factor on the basis of the net profit share rate bid, needed to calculate the allowance for capital recovery in accordance with § 390.020, shall be specified in the notice of OCS lease sale published in the **Federal Register** and may vary from tract to tract.

(C) *Net profit share rate.*

The net profit share rate, which determines the fixed share of the net profits owed to the United States, is determined by the person submitting the bid.

(ii) *Cash bonus.* The cash bonus to be paid shall be an amount that is specified in the notice of OCS lease sale published in the **Federal Register** and may vary from tract to tract. Any deferment of the payment and the schedule of payments shall be included in the notice of OCS lease sale published in the **Federal Register**.

(iii) *Annual rental.* The annual rental to be paid by the person awarded the lease shall be the amount specified in the notice of OCS lease sale published in the **Federal Register**.

PART 390—ACCOUNTING PROCEDURES FOR DETERMINING NET PROFIT SHARE PAYMENT FOR OUTER CONTINENTAL SHELF OIL AND GAS LEASES

2. Part 390 of Chapter II of Title 10, Code of Federal Regulations, is amended as follows:

A. § 390.001 is amended by revising paragraph (b) to read as follows:

§ 390.001 Purpose and Scope.

* * * * *

(b) The procedures established by this Part 390 apply to any OCS lease issued by the Department of the Interior under any bidding system established by § 376.110(a) of this chapter which has a net profit share component.

B. § 390.002 is amended by revising two new definitions to read as follows:

§ 390.002 Definitions.

* * * * *

"Net profit share rate" means the percentage share of the net profit share base payable to the United States. The percentage share may be fixed in the notice of OCS lease sale or be the bid variable, depending upon the bidding system used, as established by § 376.110(a) of this chapter.

"NPSL" means a net profit share lease, which is an OCS lease that provides for payment to the United States of a percentage share of the net profits for production of oil and gas from the tract. This percentage share may be fixed in the notice of OCS lease sale or be the bid variable, depending on the bidding system used, as established by § 376.110(a) of this chapter.

* * * * *

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR NOTICE 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/SECRETARY	USDA/ASCS		DOT/SECRETARY	USDA/ASCS
DOT/COAST GUARD	USDA/FNS		DOT/COAST GUARD	USDA/FNS
DOT/FAA	USDA/FSQS		DOT/FAA	USDA/FSQS
DOT/FHWA	USDA/REA		DOT/FHWA	USDA/REA
DOT/FRA	MSPB/OPM		DOT/FRA	MSPB/OPM
DOT/NHTSA	LABOR		DOT/NHTSA	LABOR
DOT/RSPA	HHS/FDA		DOT/RSPA	HHS/FDA
DOT/SLSDC			DOT/SLSDC	
DOT/UMTA			DOT/UMTA	
CSA			CSA	

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.
Comments on this program are still invited.
Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

List of Public Laws

Note: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's **List of Public Laws.**

Last Listing May 27, 1981

Advance Orders are now Being Accepted for Delivery in About 6 Weeks

Federal Register

Wednesday
June 3, 1981

Highlights

29691 **Flag Day and National Flag Week, 1981** Proclamation

29693 **Amending the Manual for Courts-Martial, United States, 1969 (Revised Edition)** Executive order

29886 **Youth** Justice/JJDPO summarizes public comments received on the draft announcement for the "Model Comprehensive Program for High-Risk Youth" and issues final guidelines. (Part III of this issue)

29712 **Nuclear Energy** NRC considers rule change to upgrade emergency preparedness requirements for licensed fuel cycle and materials facilities which have potential to cause significant radiological impacts to public from accidents.

29808 **Veterans** VA requests comments on implementation procedures for its vocational rehabilitation and counseling programs.

29732 **Child Day Care Service** HHS/Sec'y proposes to postpone effective date of child care regulations and to require applicable state and local standards be met for Federal funding.

CONTINUED INSIDE

Highlights

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $75.00 per year, or $45.00 for six months, payable in advance. The charge for individual copies is $1.00 for each issue, or $1.00 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

29704 **Armed Forces—Civilian Health and Medical Program (CHAMPUS)** DOD/Sec'y allows benefit consideration for well-baby care up to age two and increases monthly share amount for benefits received under the program for the handicapped.

29806 **Postal Service** PS changes fees for certain international mail services.

29908 **Community Development Block Grants** HUD/CPD adds special procedures applicable only to Puerto Rico to the Small Cities Program regulations. (Part V of this issue)

29705 **Right to Financial Privacy Act** DOD/Sec'y provides procedures for obtaining information from financial institutions.

29697 **Natural Gas** DOE/FERC clarifies definition of "new, onshore production well."

29696 **Heaters** CPSC extends effective date of safety standard requiring oxygen depletion safety shutoff systems for unvented gas-fired space heaters.

29719 **Air Carriers** CAB proposes possible changes in its rules on "joint fares" for flights using two or more carriers.

Title 3—

The President

Proclamation 4846 of June 1, 1981

Flag Day and National Flag Week, 1981

By the President of the United States of America

A Proclamation

On June 14, 1777, the Continental Congress adopted the Stars and Stripes as our national flag. Ever since, the American flag has embodied the continuity of our original ideals and principles.

The stars in varying constellations and the stripes of alternating red and white have accompanied Americans from the Marne to the Moon. The flag was flying when the British surrendered to General Washington at Yorktown, when Admiral Peary reached the North Pole, and when our soldiers battled at Iwo Jima. Recently, we saw the American flag proudly on the side of the Space Shuttle Columbia as she circled the Earth.

Yet the flag flies not only over the great events of our history but also over the more personal moments of American life. Who cannot recall the vivid images of children at parades waving small flags in patriotic delight, of immigrants solemnly reciting the oath of allegiance before a flag in a judge's chambers, or of a grieving military widow clutching the folded Stars and Stripes?

The American clergyman Henry Ward Beecher conveyed the full meaning of the flag when he wrote, "A thoughtful mind, when it sees a nation's flag, sees not the flag only, but the nation itself; and whatever may be its symbols, its insignia, he reads chiefly in the flag the government, the principles, the truths, the history which belongs to the nation that sets it forth."

When we honor our flag we honor what we stand for as a Nation—freedom, equality, justice, and hope. Flag Day and National Flag Week are our traditional means to commemorate the Nation's beliefs as symbolized by the Stars and Stripes. In more recent times, the twenty-one days from Flag Day through Independence Day have been set aside as a period to honor America during which Americans reflect upon the Nation's character, heritage, fortifying principles and future well-being.

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, do hereby designate the week beginning Sunday, June 14, 1981, as National Flag Week, and I direct the appropriate officials of the Government to display the flag on all Government buildings during that week. I urge all Americans to observe Flag Day, June 14, and National Flag Week by flying the Stars and Stripes from their porches, windows and storefronts. I further urge the people of America to observe Honor America Days, from Flag Day through Independence Day, by appropriate activities which reflect upon our good fortune at being Americans.

IN WITNESS WHEREOF, I have hereunto set my hand this 1st day of June, in the year of our Lord nineteen hundred and eighty-one, and of the Independence of the United States of America the two hundred and fifth.

Ronald Reagan

Executive Order 12306 of June 1, 1981

Amendments to the Manual for Courts-Martial, United States, 1969 (Revised Edition)

By the authority vested in me as President by Chapter 47 of Title 10 of the United States Code (the Uniform Code of Military Justice), in order to prescribe an amendment to the Military Rules of Evidence of the Manual for Courts-Martial, United States, 1969 (Revised edition), prescribed by Executive Order No. 11476, as amended by Executive Order 11835, Executive Order No. 12018, Executive Order No. 12198, and Executive Order No. 12233, it is hereby ordered as follows:

SECTION 1. Rule 410 of Chapter 27 of the Manual for Courts-Martial, United States, 1969 (Revised edition), is amended to read as follows:

"Rule 410. *Inadmissibility of pleas, plea discussions, and related statements.*

"(a) *In general.* Except as otherwise provided in this rule, evidence of the following is not admissible in any court-martial proceeding against the accused who made the plea or was a participant in the plea discussions:

(1) a plea of guilty which was later withdrawn;

(2) a plea of nolo contendere;

(3) any statement made in the course of any judicial inquiry regarding either of the foregoing pleas; or

(4) any statement made in the course of plea discussions with the convening authority, staff judge advocate, trial counsel or other counsel for the Government which do not result in a plea of guilty or which result in a plea of guilty later withdrawn.

However, such a statement is admissible (i) in any proceeding wherein another statement made in the course of the same plea or plea discussions has been introduced and the statement ought in fairness be considered contemporaneously with it, or (ii) in a court-martial proceeding for perjury or false statement if the statement was made by the accused under oath, on the record and in the presence of counsel.

"(b) *Definitions.* A "statement made in the course of plea discussions" includes a statement made by the accused solely for the purpose of requesting disposition under an authorized procedure for administrative action in lieu of trial by court-martial; "on the record" includes the written statement submitted by the accused in furtherance of such request.".

SEC. 2. Notwithstanding Military Rule of Evidence 1102, Military Rule of Evidence 410, as prescribed by Executive Order No. 12198, shall remain in effect until the amendment prescribed by Section 1 of this Order takes effect.

SEC. 3. The amendment of Military Rule of Evidence 410 prescribed by Section 1 of this Order shall take effect on August 1, 1981. That amendment applies to all court-martial processes taken on or after August 1, 1981: Provided, that nothing contained in that amendment shall be construed to invalidate any investigation, trial in which arraignment has been completed, or other action begun prior to that date; and any such investigation, trial, or other action may be completed in accordance with applicable laws, Executive Orders, and regulations in the same manner and with the same effect as if that amendment had not been prescribed.

SEC. 4. The Secretary of Defense, on behalf of the President, shall transmit a copy of this Order to the Congress of the United States in accord with Section 836 of Title 10 of the United States Code.

Ronald Reagan

Federal Register
Vol. 46, No. 106
Wednesday, June 3, 1981

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 979

Melons Grown in South Texas; Approval of Amendment No. 1 to Handling Regulation

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This final rule amends the handling regulation, § 979.303 to permit shipments of honeydew melons in experimental bulk boxes of a specified size. It will provide information for the industry concerning the economic feasibility of making shipments in this manner while continuing to provide the consumer with melons of acceptable quality at reasonable prices.

EFFECTIVE DATE: May 28, 1981.

FOR FURTHER INFORMATION CONTACT: Charles W. Porter, Chief, Vegetable Branch, F&V, AMS, USDA, Washington, D.C. 20250. (202) 447–2615. The Final Impact Statement relating to this final rule is available from Mr. Porter.

SUPPLEMENTARY INFORMATION: This final rule has been reviewed under USDA procedures and Executive Order 12291 and has been classified "not significant" and not a major rule.

William T. Manley, Deputy Administrator, Agricultural Marketing Service, has determined that this action will not have a significant economic impact on a substantial number of small entities because it would not measurably affect costs for the directly regulated 41 handlers.

This amendment is based upon committee recommendations resulting from a telephone vote concluded May 11, 1981. The handling regulation is being amended to permit experimental shipments of honeydew melons in bulk containers having dimensions of 4 feet long by 4 feet wide by 2 feet deep or containers deemed similar by the committee. The container is intended to serve as a display for the retailer so that the melons need not be unpacked. The committee believes that since this type of bulk bin is of a relatively modest size it may improve efficiency and reduce costs while still providing substantially greater protection than if they were piled directly in the bed of a truck or trailer.

Inasmuch as the inspection and grade requirements of the melons so packed remain unchanged, this amendment will not permit the bulk shipments of questionable quality melons that were prevalent in the area prior to inception of the order. Handlers using these bulk containers shall provide the committee with such information as it deems necessary to properly evaluate the merits of these experimental containers.

Findings. After consideration of all relevant matters, it is found that the following amendment will tend to effectuate the declared policy of the act.

It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice or engage in public rulemaking procedure, and that good cause exists for not postponing the effective date of this section until 30 days after publication in the **Federal Register** (5 U.S.C. 553) in that (1) to maximize benefits to producers, this amendment should apply to as many shipments as possible during the effective period, (2) compliance with this amendment will not require any special preparation on the part of handlers, (3) information regarding the committee's recommendation has been made available to producers and handlers in the production area, and (4) this amendment relieves restrictions on the handling of production area honeydew melons.

Section 979.303 *Handling regulations* (46 FR 22356) is hereby amended by adding a new paragraph (e)(3), a new paragraph (f)(5), and a new paragraph (h).

§ 979.303 Handling regulation.

* * * * *

(e) * * *

(3) Upon approval of the committee, experimental shipments of honeydew melons may be made in bulk containers measuring 4 feet long by 4 feet wide by 2 feet deep, or containers deemed similar by the committee. Container requirements of paragraph (b) shall not apply, but such shipments shall meet all other applicable requirements of this section.

(f) * * *

(5) Each handler making experimental shipments of honeydew melons in bulk bins approved under paragraph (e)(3) shall report on each shipment as directed by the committee.

* * * * *

(h) *Forms.* Forms required for operation under this part are subject to clearance by the Office of Management and Budget and are in the process of review. They shall not become effective until such time as clearance by the OMB has been obtained.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated May 28, 1981, to become effective upon signing.

D. S. Kuryloski,

Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service

[FR Doc. 81-16498 Filed 6-2-81; 8:45 am]
BILLING CODE 3410-02-M

7 CFR Part 991

Hops of Domestic Production; Increase in Expenses Approved for Hop Administrative Committee for the 1980–81 Marketing Year

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation authorizes an increase in expenses for the Hop Administrative Committee for the 1980–81 marketing year from $255,000 to $295,000. The Committee locally administers the Federal marketing order covering hops of domestic production.

DATES: Effective August 1, 1980, through July 31, 1981.

FOR FURTHER INFORMATION CONTACT: J. S. Miller, Chief, Specialty Crops Branch, Fruit and Vegetable Division, AMS, USDA, Washington, D.C. 20250, (202) 447–5697.

SUPPLEMENTARY INFORMATION: This final action has been reviewed under USDA procedures established to implement Executive Order 12291 and has been classified "not significant" and, therefore, it is not a major rule.

William T. Manley, Deputy Administrator, Agricultural Marketing

Service, has determined that this action will not have a significant economic impact on a substantial number of small entities because it would result in only minimal costs being incurred by the regulated 12 handlers.

Forms required for operation under this part are subject to clearance by the Office of Management and Budget and are in the process of review. They shall not become effective until such time as clearance by the OMB has been obtained.

This action, unanimously recommended by the Committee, would increase the amount of the expenses previously approved for the 1980–81 marketing year from $255,000 to $295,000. This action is pursuant to § 991.55 of Marketing Order No. 991, as amended (7 CFR Part 991), regulating the handling of hops of domestic production. The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The previously approved expenses in the amount of $255,000 are set forth in § 991.315(a) of Subpart—Expenses and Assessments (7 CFR 991.315; 45 FR 55419). It now appears that those expenses will be exceeded by about $40,000. The Committee had to hire more field help than initially anticipated and expects its travel, auditing, and marketing research costs to exceed those budgeted previously. No change in the assessment rate for 1980–81 is necessary because sufficient funds are available to meet the increased expenses.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking and postpone the effective time until 30 days after publication in the **Federal Register** (5 U.S.C. 553). To enable the Committee to meet additional obligations during the current 1980–81 marketing year, approval of this additional amount of expenses is necessary without delay. Handlers and other interested persons were given an opportunity to submit information and views on the expenses at an open meeting of the Committee. It is necessary to effectuate the declared purposes of the act to make this increase in total expenses for the 1980–81 marketing year.

Therefore, § 991.315(a) of Subpart—Expenses and Assessments is revised to read as follows:

Subpart—Expenses and Assessment

§ 991.315 Expenses and rate of assessment.

(a) Expenses that are reasonable and likely to be incurred by the Committee during the 1980–81 marketing year will amount to $295,000.

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

Dated: May 28, 1981.

D. S. Kuryloski,

Deputy Director, Fruit and Vegetable Division.

BILLING CODE 3410-02-M

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Part 1212

Unvented Gas-Fired Space Heaters; Extension of Effective Date

AGENCY: Consumer Product Safety Commission.

ACTION: Final rule.

SUMMARY: The Commission has extended the effective date of the Safety Standard Requiring Oxygen Depletion Safety Shutoff Systems (ODS) for Unvented Gas-Fired Space Heaters to December 31, 1981.[1] The effective date is extended in order to alleviate the potential economic hardship to the three manufacturers producing unvented gas-fired space heaters, who, under the original effective date of June 15, 1981, would probably not be able to produce complying heaters during the last half of 1981 because ODS equipped heaters are not expected to be available until 1982. A June 15, 1981, effective date would require manufacturers to carry an unusually large inventory if they wish to be able to fill orders placed later in the year. A "stockpiling" rule previously issued by the Commission provides that between January 1, 1981, and the effective date of the standard, production of unvented gas-fired space heaters may not exceed by more than 10% the number of units produced during the base period specified in the stockpiling rule.

Therefore, extending the effective date from June 15, 1981, to December 31, 1981, does not permit the production of more heaters than was originally contemplated, but only extends the time during which the heaters may be produced.

DATES: The amendment of the effective date of 16 CFR Part 1212 to December 31, 1981, is effective June 3, 1981.

ADDRESSES: All material which the Commission has that is relevant to this proceeding may be seen in, and copies obtained from, the Office of the Secretary, Consumer Product Safety Commission, 3rd Floor, 1111 18th Street NW., Washington, D.C. 20207.

FOR FURTHER INFORMATION CONTACT: Elizabeth H. Jones, Directorate for Compliance and Administrative Litigation, Consumer Product Safety Commission, Washington, D.C. 20207, phone (301) 492–6400.

SUPPLEMENTARY INFORMATION: On September 29, 1980, the Commission issued a final rule requiring the use of oxygen depletion safety shut-off systems (ODS) on unvented gas-fired space heaters (45 FR 61880). At the same time, the Commission proposed a "stock-piling" rule which would limit the production of heaters without an ODS to not more than 110% of the number of units produced during an earlier base period specified by the rule (45 FR 61941). The Commission set an effective date of June 15, 1981, based on information obtained from the manufacturers indicating that production for the 1981–1982 heating season would be generally completed by June 15, 1981. Since ODS devices suitable for heaters made in the United States are expected to be available very early in 1982, at the beginning of production for the 1982–1983 season, all unvented gas-fired space heaters manufactured for the 1982–1983 season would incorporate an ODS.

In a letter dated September 25, 1980, one manufacturer petitioned the Commission (CP 81–1) to extend the effective date to December 31, 1981. The petitioner submitted new information showing that production of unvented gas-fired space heaters would normally extend past June 15 to much later in the year. The petitioner stated that financing costs for inventory would be greatly increased if production were halted on June 15, 1981, and that orders late in the year based on seasonal variation may be lost. Furthermore, the petitioner argued that if manufacturers produced inventory before June 15, 1981, in anticipation of later orders, they might produce more non-complying heaters than would be in the case if they waited to see if the anticipated demand was accurate.

Production appears to be split into two distinct phases. As the petitioner pointed out, production through June of each year is to fill preseason orders. After June, heaters are produced and inventoried to the extent future sales are anticipated. If "fill-in" orders do not develop during the third quarter, production is curtailed for the rest of the

[1] Acting Chairman Stuart Statler and Commissioners David Pittle and Sam Zagoria voted to extend the effective date. Commissioner Edith B. Sloan voted not to extend the effective date.

year. This was the situation experienced by the petitioner last year, due to a warm fall in 1980.

Two manufacturers cited increased manufacturing and inventory costs as the primary burdens they would incur if the effective date were not extended, because as much as possible of a full year's production would have to be squeezed into 5½ months. Instead of being able to ship units shortly after they are produced, units would have to be warehoused for up to six months after production. There might also be some increased risk of lost sales if a sufficient number of units were not produced by June 15. The manufacturers did not provide exact dollar costs of inventory, but the petitioner stated that his interest costs associated with inventory would double. One manufacturer, not the petitioner, stated that the June 15, 1981, effective date would result in the firm being able to produce only 60 percent of planned production, which would result in losing 40 percent of planned heater sales, or about 15 percent of sales of all goods produced. Potentially, this represents a significant loss of sales for this company.

All three manufacturers stated that interest costs and warehouse expenses would increase for those firms attempting to produce all planned 1981 production before the original effective date.

This information showed that by extending the effective date to December 31, 1981, normal manufacturing procedures could be maintained during 1981. Whatever financial and manufacturing burden that might be incurred because of an interruption of normal manufacturing procedures could be avoided by extending the effective date.

The "stockpiling rule" concerning this product that has been previously issued by the Commission (16 CFR 1212.30; 46 FR 20030, April 2, 1981) limits the production of non-ODS heaters between January 1, 1981, and the effective date to approximately 132,000. Therefore, extending the effective date will not allow the production of a larger number of non-ODS equipped heaters than was originally contemplated, but would merely allow the production of these heaters over a longer period of time.

After considering the factors discussed above, the Commission proposed an amendment to Part 1212 to extend the effective date from June 15, 1981, to December 31, 1981 (46 FR 20032; April 2, 1981). No comments were received on that proposal.

After considering the available information, the Commission concludes that extending the effective date of the rule requiring oxygen depletion safety shut-off systems (ODS) for unvented gas-fired space heaters is reasonable and in the public interest since it will not increase the risk of injury to consumers and may alleviate an economic hardship to the businesses manufacturing such heaters. For these reasons, the Commission has also concluded that this amendment does not constitute a material change to the standard. Furthermore, the Commission has certified that this extension will not have a significant economic impact on a substantial number of small businesses or other small entities.

Since the original effective date of June 15, 1981 is in the near future, the Commission believes that it is in the public interest for the amendment of the effective date to become effective as quickly as possible. Therefore, the delayed effective date provision of the Administrative Procedure Act that would normally apply, 5 U.S.C. 553(d), is not appropriate, and the extension of the effective date will become effective immediately upon publication of the final extension in the Federal Register (June 3, 1981).

Conclusion

Therefore, in accordance with section 9(e) of the Consumer Product Safety Act, Public Law 92–573, 86 Stat. 1215, 15 U.S.C. 2058(e), the Commission extends the effective date of the standard requiring oxygen depletion safety shut-off systems for unvented gas-fired space heaters from June 154, 1981 to December 15, 1981 by revising § 1212.2 of Title 16, Chapter II, Subchapter B, of the Code of Federal Regulations to read as follows:

§ 1212.2 Effective date.

All unvented gas-fired space heaters as defined at § 1212.3 that are manufactured or imported after December 31, 1981, are subject to the requirements of Subpart A, and shall be certified as complying with Subpart A as provided by Subpart B.

(Secs. 2, 3, 7, 9, 14, 16, 27, Pub. L. 92–573, as amended, Pub. L. 94–284, Pub. L. 95–631; 86 Stat. 1207, 1208, 1212, 1220 as amended, 90 Stat. 503, 92 Stat. 3742; 15 U.S.C. 2051, 2052, 2058, 2063, 2065, 2076)

Effective date. This amendment is effective June 3, 1981.

Dated: May 27, 1981.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355-01-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Part 271

[Docket No. RM81-31; Order No. 149]

Clarification of Regulations Regarding New, Onshore Production Wells

Issued: May 28, 1981.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Federal Energy Regulatory Commission clarifies the definition of "new, onshore production well" contained in § 271.303 of its regulations. The amendment, which effects no substantive change in the rule, provides that a determination that a well qualifies as a "new, onshore production well" applies only to gas produced from the proration unit (or units) on the basis of which the determination was obtained.

EFFECTIVE DATE: December 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Craig Ellis, Office of General Counsel, Room 4008E, 825 North Capitol Street, N.E., Washington, D.C. 20426, (202) 357–8316

Howard Kilchrist, Office of Pipeline and Producer Regulation, Room 6112, 825 North Capitol Street, N.E., Washington, D.C. 20426, (202) 357–8585

SUPPLEMENTARY INFORMATION: By this rule the Federal Energy Regulatory Commission (Commission) amends § 271.303 of its regulations. Section 271.303 is contained in Subpart C (relating to new, onshore production wells) which implements section 103 of the Natural Gas Policy Act of 1978 (NGPA) (15 U.S.C. 3313). The amendment clarifies the definition of "new, onshore production well."

I. Background

On August 20, 1979, the Commission issued final regulations implementing section 103 of the NGPA.[1] A "new onshore production well" is defined in paragraph (c) of section 103 as follows:

[1] Order No. 43, "Final Rule Amending Regulations on Natural Gas from New, Onshore Production Wells and Amendment to the Filing Requirements in § 274.204 of the Interim Regulations," Docket No. RM79–72 (issued August 20, 1979) 44 Fed. Reg. 49651 (August 23, 1979). Order No. 43–A, "Order Granting In Part and Denying in Part Rehearing of Order No. 43 and Amending Regulations," Docket No. RM79–72 (issued Nov. 16, 1979) 44 Fed. Reg. 67108 (November 23, 1979).

(c) *Definition of New, Onshore Production Well.* For purposes of this section, the term "new, onshore production well" means any new well (other than a well located on the Outer Continental Shelf)—

(1) The surface drilling of which began on or after February 19, 1977;

(2) Which satisfies applicable Federal or State well-spacing requirements, if any; and

(3) Which is not within a proration unit—

(A) Which was in existence at the time the surface drilling of such well began;

(B) Which was applicable to the reservoir from which such natural gas is produced; and

(C) Which applies to a well (i) which produced natural gas in commercial quantities or (ii) the surface drilling of which was begun before February 19, 1977, and which was thereafter capable of producing natural gas in commercial quantities.

The definition of "new, onshore production well" in the regulations did not embellish the statutory definition.[2]

Identification of gas which may be sold at the section 103 price depends, in part, on the proration unit from which the gas is produced; *i.e.*, whether proration units were applicable to the reservoir when the well was drilled; whether other wells had already been drilled into such a unit; etc. If a well is completed for production into two proration units, one completion location may qualify under section 103 as a new, onshore production well, while the other may not. A determination that a well qualifies as a new, onshore production well covers only gas produced from the proration unit(s) considered in qualifying the gas. If a producer obtains a section 103 determination and subsequently completes in a proration unit not considered in the prior determination, the prior determination does not qualify gas produced from the new proration unit for the section 103 price.

It has come to the Commission's attention by way of adjustment filings and informal contacts with Commission staff that some producers have not understood that qualification under section 103 applies only to production from particular proration units.[3] Some producers who have received a determination by a jurisdictional agency that gas is eligible for a price under section 103 have failed to submit a subsequent application for determination where they later produce gas from the same well, but from a different proration unit.

II. Clarification

The Commission did not intend that a section 103 eligibility determination cover gas produced from the same well from proration units not considered during the determination. The Commission intended that such a determination apply only to gas produced from the same well from proration units not considered during the determination. The Commission intended that such a determination apply only to gas produced from the proration unit(s) on the basis of which the determination was obtained. In light of the above, we are clarifying the definition of "new, onshore production well" in § 271.303 by expressly providing that a determination that a well qualifies under section 103 applies only to gas produced from the proration unit (or units) on which the determination was based.

III. Effective Date

Because this amendment effects no substantive change in the rule but is necessary only for proper implementation, the Commission finds that public notice and comment is unnecessary. For the same reasons, the amendment is being made effective as of December 1, 1978, the date the original regulations became effective. (43 FR 56448, December 1, 1978.) In the absence of Commission guidance prior to issuance of this clarification, some producers have interpreted the statute and the regulations as authorizing collection of the section 103 price for sales from all proration units in a wellbore where only one of the proration units received a section 103 determination. Where the producers did rely on such a misinterpretation (and the gas from the subsequent proration unit is eventually determined to qualify for the section 103 price) the Commission finds it would be inequitable to insist upon refunds for deliveries which occurred prior to 60 days from the issuance of this clarification. To avoid refund requirements in such cases, an application for a determination must be filed with a jurisdictional agency no later than 60 days after issuance of this rule, and the final determination must qualify the gas for the section 103 maximum lawful price.

We are aware that in many cases the producers were unaware of the necessity to file an application for each section 103 proration unit in a wellbore until some time after deliveries began from different proration units in the same wellbore. For example, some producers became aware of the proper interpretation as a result of NGPA regional meetings held throughout the country, or purchasers' refusal to pay the section 103 price, and thereafter filed the necessary section 103 applications. Other producers collected under section 103 prior to filing for a section 103 determination for the subsequent proration unit. Some made refunds when they became aware of the filing requirement while others have yet to make refunds. We believe that producers should be permitted to collect the section 103 price for the period they were unaware of the proper interpretation of the definition of "new, onshore production well" provided the contracts do not prevent such collection.

Where we know of no probative evidence to the contrary, we will presume that a producer relied on a misinterpretation of the regulations until such time as the producer filed a section 103 application for more than one proration unit in the same wellbore or for sales from any proration unit in any well which had previously obtained a section 103 determination for a different proration unit, or made refunds as noted above. However, if a producer filed a section 103 application for more than one proration unit in the same wellbore or for sales from any proration unit in any wellbore different from the proration unit(s) which had obtained a section 103 determination, we can no longer presume that the producer continued to rely on a misinterpretation of the definition. In other words, refunds will be required and retroactive collections will not be permitted if the producer was aware of the filing requirement and simply made a late filing.[4]

(Natural Gas Policy Act of 1978, 15 U.S.C. 3301–3432; Administrative Procedure Act, 5 U.S.C. 553)

In consideration of the foregoing, the final regulation in § 271.303, of Part 271 of Subchapter H, Chapter I of Title 18, Code of Federal Regulations, is amended as set forth below. Because

[2] Prior to this amendment that definition, in § 271.303, read: For purposes of this subpart, the term "new, onshore production well" means a well which a jurisdictional agency has determined, in accordance with Parts 274 and 275, to be a new, onshore production well (as defined in section 103(c) of the NGPA).

[3] After staff initiated work on this rulemaking a petition for clarification or amendment of the regulations was filed by J–3 Oil Company, Inc. and assigned Docket No. RM81–24. While this rule was not initiated in response to that petition it resolves the issues raised there.

[4] An Appendix to this order provides several examples which provide further clarification of our policy concerning this issue.

V. 46 / 106 / JUE 3 81 UMI

this amendment effects no substantive change, it is effective as of December 1, 1978.

By the Commission.

Kenneth F. Plumb,

Secretary.

1. Section 271.303 is amended by adding a second sentence at the end thereof to read as follows:

§ 271.303 Definition of new, onshore production well.

* * * A determination that a well qualifies as a "new, onshore production well" applies only to gas produced from the proration unit (or units) on the basis of which the determination was obtained.

Appendix

Example 1. A producer filed for and received a § 103 determination covering certain production from a well. Sometime later the producer plugged back the well and recompleted in a different proration unit. After the recompletion, the producer proceeded to collect under § 103 for sales from the new proration unit on the mistaken assumption that the original § 103 determination covered all the producing intervals in the wellbore. Within 60 days of the issuance of the clarifying order, the producer files for such a determination. If the resulting determination is affirmative, the clarifying order allows the producer to keep collections made under § 103 for sales from the recompletion interval.

Example 2. A producer filed for and received a § 103 determination for production from a certain well. Sometime later the producer plugged back the well and recompleted in a different proration unit. After the recompletion, the producer continued to collect under § 103 for sales from the new proration unit on the mistaken assumption that the original § 103 determination covered all producing intervals in the wellbore. Prior to the issuance of the clarifying order, the producer became aware that a subsequent application was required and made such application; however, no refunds were made for collections prior to that application filing. If the resulting determination is affirmative, the clarifying order allows the producer to keep collections made under § 103 for sales from the recompletion interval.

Example 3. The facts are the same as in example 2, except that at the time he made the second § 103 application, the producer refunded the collections over the otherwise maximum lawful price for sales from the recompletion interval made prior to the date of the second application. The clarifying order allows the producer to retroactively collect under § 103 for the sales from the recompletion interval made prior to the date of the second application provided that he was unaware of the filing requirements prior to filing the second application.

Example 4. A producer filed for and received § 103 determinations concerning production from wells A and B. Sometime later, the producer plugged back well A and recompleted into a different proration unit. The producer continued to collect under § 103 for sales from both wells based on the mistaken assumption that a § 103 determination covered all present and future producing intervals. Later, the producer also plugged back well B and recompleted into a different proration unit. Before sales recommenced from well B, however, the producer applied for a § 103 determination covering the production from the recompletion in well B because he had become aware of the necessity to so file.

Assuming that the producer files for a § 103 determination covering production from the recompletion in well A before 60 days after the issuance of the clarifying order and that eventually such a determination is received, the clarifying order allows collection under § 103 for sales from the recompletion in well A made prior to the filing of the application concerning the recompletion in well B. Sales from the well A recompletion are again eligible under § 103 from the filing date of an application for § 103 determination covering production from that recompletion; refunds, with interest in conformance with the Commission's regulations, are required for collections over the maximum lawful price for sales from well A from the date of filing of the second application for well B.

BILLING CODE 6450-85-M

---

18 CFR Part 271

[Docket No. RM79-76 (Colorado—5); Order No. 148]

High-Cost Gas Produced From Tight Formations

Issued: May 28, 1981.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determines that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR § 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This final order adopts with modification the recommendation of the Colorado Oil and Gas Conservation Commission that the Lower Mesaverde Formation, consisting of the Rollings, Cozzette and Corcoran Sandstone members, be designated as a tight formation under § 271.703(d).

EFFECTIVE DATE: This rule is effective May 28, 1981.

FOR FURTHER INFORMATION CONTACT: Leslie Lawner, (202) 357-8307, or Victor Zabel, (202) 357-8616.

SUPPLEMENTARY INFORMATION: The Commission hereby amends § 271.703(d) of its regulations to include the Lower Mesaverde Formation, consisting of the Rollins, Cozzette and Corcoran Sandstone members, in Colorado as a designated tight formation eligible for incentive pricing under § 271.703. The amendment was proposed in a Notice of Proposed Rulemaking by Director, OPPR, issued October 27, 1980 (45 FR 72199, October 31, 1980) [1] based on a recommendation by the Colorado Oil and Gas Conservation Commission (Colorado) in accordance with § 271.703(c), that the Lower Mesaverde Formation be designated as a tight formation.

Evidence submitted by Colorado and the commenters supports Colorado's assertion that the Lower Mesaverde Formation meets the guidelines contained in § 271.703(c)(2). The Commission generally adopts the Colorado recommendation, with the modification discussed below.

Section 271.703(c)(2)(i)(D) of the Commission's regulations provides that in making recommendations for designations of tight formation areas to the Commission, a jurisdictional agency shall not include any formation or portion thereof,

> [if] the formation or any portion thereof was authorized to be developed by infill drilling prior to the date of recommendation, and the jurisdictional agency has information which in its judgment indicates that such formation or portion subject to infill drilling can be developed absent the incentive price established in paragraph (a) of this section * * *.

In reviewing Colorado's recommendation, the Commission found evidence indicating that certain areas within the recommended formation had been authorized to be developed by infill drilling prior to the date the recommendation was made, and that thirteen sections within the infill area

[1] Comments on the proposed rule were invited and received. One commenter, on behalf of the State of California and the Public Utilities Commission of California, indicated that although it did not oppose the recommended designation, it was concerned that the existence of infill and other drilling programs evidenced the fact that the incentive price may not be necessary. The commenter stated that it would oppose incentives in such case. No party requested a public hearing in this matter and no hearing was held.

had been substantially developed without the incentive price.[2] The Commission finds that these sections should be excluded from the designated tight formation.

In the thirteen sections which are being excluded from the tightformation designation, about 58% of the authorized maximum number of wells which can be drilled have been completed and are in production. Forty-six percent of the thirteen sections contain three or more wells on their 640-acre units. Sixty-two percent of these sections contain two or more wells. The Commission finds that such development clearly constitutes infill drilling as defined in § 271.703(b)(6) of the Commission's regulations. Since such drilling in these sections has occurred absent the incentive price, the Commission is excluding these sections from the tight formation designation under § 271.703(c)(2)(i)(D). Future consideration of these excluded areas for tight formation designation is not precluded by the Commission's action in this order, if sufficient information and economic data become available which indicates that this area would not be further developed without the tight formation incentive price.

This amendment shall become effective immediately. The Commission has found that the public interest dictates that new natural gas supplies be developed on an expedited basis, and therefore, the incentive price should be made available as soon as possible. The need to make incentive prices available immediately established good cause to waive the thirty-day publication period.

(Department of Energy Organization Act, 42 U.S.C. 7101 *et seq.*; Natural Gas Policy Act of 1978, 15 U.S.C. 3301–3432; Administrative Procedure Act, 5 U.S.C. 553)

[2] Exhibit I of Colorado's submittal reveals that in Colorado Cause No. 166–1, issued April 17, 1962, 640-acre drilling units for gas production were established for portions of the Lower Mesaverde Formation. On April 18, 1967, by Order No. 166–8, Colorado, based upon a finding of lack of development and the need for additional gas, rescinded Order No. 166–1 for undeveloped units in the area. Thirteen sections which had been developed were not included in Order No. 166–8, and remained subject to Order No. 166–1.

On January 16, 1973, Colorado issued Order No. 166–11, which authorized additional drilling in the Lower Mesaverde Formation, with a maximum of four wells on a 640-acre unit in the thirteen sections that were not included in Order No. 166–8. The order also established new 160-acre units and incorporated the thirteen developed sections into the spaced area of the Plateau Field. The thirteen sections, which are being excluded from the recommendation as adopted by the Commission, are:

Township 10 South, Range 95 West, 6th P.M., Sections 17, 18, 19, and 30.
Township 10 South, Range 96 West, 6th P.M., Sections 12, 13, 23–28, and 33.

For the reasons stated herein, Part 271 of Subchapter I, Title 18, *Code of Federal Regulations*, is amended as set forth below, effective immediately.

By the Commission.

Kenneth F. Plumb,
Secretary.

Section 271.703(d) is amended by adding new subparagraph (25) to read as follows:

§ 271.703 Tight formations.

* * * * *

(d) *Designated tight formations.* The following formations are designated as tight formations. A more detailed description of the geographical extent and geological parameters of the designated tight formations is located in the Commission's official file for Docket No. RM79–76, subindexed as indicated, and is also located in the official files of the jurisdictional agency that submitted the recommendation.

* * * * *

(25) *The Lower Mesaverde Formation in Colorado.* RM79–76 (Colorado—5)

(i) *Delineation of formation.* The Lower Mesaverde Formation, consisting of the Rollins, Cozzette and Corcoran Sandstone members, is located in the Plateau Creek Field area in Mesa County, Colorado. It is approximately 30 miles east-northeast of Grand Junction, Colorado, and lies in the southern part of the Piceance Creek Basin. Excluded from the designation are thirteen sections found in Township 10 South, Range 95 West, 6th P.M., Sections 17, 18, 19, and 30, and Township 10 South, 96 West, 6th P.M., Sections 12, 13, 23–28, and 33.

(ii) *Depth.* The average depth to the top of the Lower Mesaverde Formation is 3850 feet.

18 CFR Part 375

[Docket No. RM81–20; Order No. 147]

Delegation of the Commission's Authority to the Directors of Office of Electric Power Regulation, Office of the Chief Accountant, and Office of Pipeline and Producer Regulation

Issued: May 22, 1981.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Final Rule.

SUMMARY: This rule delegates authority to take action on a variety of matters to the Chief Accountant, the Director of the Office of Electric Power Regulation, and the Office of Pipeline and Producer Regulation. This rule will serve to expedite the application process and will enable the Commission to focus its attention on more complicated and controversial tasks.

EFFECTIVE DATE: May 22, 1981.

FOR FURTHER INFORMATION CONTACT: Peter Lefkin, Office of the General Counsel, 825 N. Capitol Street NE., Washington, D.C. 20426 (202) 357–8363.

SUPPLEMENTARY INFORMATION:

A. Background

On August 14, 1978, the Commission adopted Delegations of Authority [Phase I]. Docket No. RM79–19, 43 FR 36433. That rule delegated to staff the responsibility for making certain decisions of a ministerial nature in order to free the Commission's time for issues of greater importance. By those delegations over 7000 decisions per year were transferred from the Commission to staff. On July 23, 1979, the Commission added to these delegations in a second delegation order [Phase II]. Docket No. RM79–59, 44 FR 46449 (August 8, 1979). Subsequently, on February 13, 1981, additional delegations were made in Docket No. RM81–14, 46 FR 14119 (February 26, 1981) with respect to preliminary permits under the hydroelectric program. Most of these delegations are contained in Subpart C of Part 375.

As a continuation of this process, by this rule (Phase III) the Commission is delegating additional authority to the Directors of the Offices of Electric Power Regulation (OEPR), the Chief Accountant (OCA), and Pipeline and Producer Regulation (OPPR). In addition, several delegations previously made to the Secretary of the Commission contained in § 375.302 are being transferred to OPPR. The functions involved in the delegations from the Secretary have been delegated to other office directors in order to reduce the administrative burden on the Secretary.

Like the other delegation orders, Phase III is prompted by the Commission's determination that an inordinate amount of the Commission's time is spent on matters that do not require the attention of the Commission. These delegations will transfer to staff the responsibility of making a large number of these decisions and will enable the Commission to focus on more complicated and controversial tasks.

In general, the matters being delegated require only limited discretionary decision-making on the part of the office director. The delegation authority is qualified by the following two provisions. First, as a

general rule, the director may only act on "uncontested" matters. "Uncontested" means, pursuant to 18 CFR 1.2(f)(23), that no petition for or notice of intervention in opposition to the application has been filed with the Commission under the Rules of Practice and Procedure. The receipt of an intervention in opposition to an application would result in the application being brought directly before the Commission. These definition of "uncontested" is deemed to include an application for a license or preliminary permit which competes with an application for an exemption from license, or an application for an exemption from license which competes with an application for a preliminary permit or license or exemption from license, or an application for a preliminary permit which competes with an application for a preliminary permit. In addition, it is deemed to include an application for preliminary permit which competes with an application for license and an application for license which competes with an application for preliminary permit.

Second, as is true of all other exercises of delegated authority, pursuant to 18 CFR § 1.7, any interested person may appeal the Director's decision to the Commission.

B. Summary

The delegation regulations contained in Subpart C of Part 375 are amended by this rule, as described below.

1. *Delegations to the Secretary.* Prior to this rule § 375.302(v) delegated to the Secretary authority to take action on any statements of eligibility Section 375.302(u) granted the Secretary authority to issue temporary certificates to independent producers pursuant to section 7 of the Natural Gas Act.

This rule revokes those delegations to the Secretary and redelegates them to the Director of OPPR. This transfer of authority will serve to reduce the administrative burden on the Secretary.

2. *Delegations to Chief Accountant.* The Chief Accountant's authority to approve applications for issuance of securities, delegated by § 375.303(e)(6), is amended to raise the threshold level from $15,000,000 to $30,000,000.

3. *Delegations to Office of Pipeline and Producer Regulation.* Section 375.307 contains the delegations to the Director of OPPR. Paragraph (a) contains generally the delegations regarding routine certification certificate amendments and abandonment authority matters. Paragraph (a) is amended in subparagraph (1) by raising the threshold level of the Director's authority to issue permanent certificates or amend certificates for the construction or operation of facilities from $1,000,000 to $5,000,000. Paragraph (a)(2) is amended to give the Director the authority to act on requests for waiver of single project or annual cost limits specified by § 157.7 (b)(1), (c), (d) and (g) relating to abbreviated applications for gas supply facilities. Paragraphs (a) (3), (4), and (5), as revised, considerably expand the Director's delegated power with respect to the certification of the transportation, storage and exchange of gas and the abandonment of facilities. Paragraph (a)(7) gives the Director authority to take action on blanket certificate applications by interstate pipelines and Hinshaw pipelines. Paragraph (a)(8) concerning the Director's authority to act upon applications for amendments to authorized gas-for-gas exchanges, has been deleted and the language granting such authorizations has been incorporated into new § 375.307(a)(5). Subparagraph (9) and (10) of paragraph (a) of § 375.307 have been renumbered to be subparagraphs (8) and (9) respectively.

A new paragraph (a)(10) has been added to provide the Director with authority to pass upon requests by applicants to change delivery points to existing sales customers, providing that sales volumes remain within the customer's total existing contract demand and certificate levels. New paragraph (a)(11) authorizes the Director to pass upon uncontested applications for authorization and applications for amendments to authorizations for new or additional service to right-of-way grantors. New paragraph (a)(12) delegates to the Director the authority to take action on requests for customer name changes. New paragraph (a)(13), delegates to the Director authority to pass upon applications for approval of customer rate schedule shifts.

It should be noted that the Commission has recently undertaken a comprehensive review of its certificate process, and has issued a Notice of Proposed Rulemaking in Docket No. RM81-19, 46 FR 16903 (March 16, 1981). If this rule is issued, it may eliminate the need for many of the delegations contained in paragraph (a), specifically those contained in subparagraphs (a)(1), (a)(2), (a)(3), (a)(4), (a)(5), (a)(10), (a)(11), and (a)(12) as amended by this rule. However, as long as these decisions are made on a case-by-case basis, the Commission believes that delegation of authority to the Director of the Office of Pipeline and Producer Regulation, will expedite the processing of a large number of cases. However, at the time that it takes final action in Docket No. RM81-19 the Commission intends to reexamine the need for such delegations.

Paragraph (b) of § 375.307 has been amended by delegating to the Director, in subparagraph (4), authority to accept rate filings of jurisdictional natural gas companies which involve replacement and rollover contracts, and in subparagraph (5), authority to accept statements of eligibility filed by producers of natural gas. The amendment to subparagraph (5) transfers to the Director of OPPR authority which was previously delegated to the Secretary, which delegation is also being revoked by this rule.

Paragraph (j) is amended to authorize the Director to deny or grant requests for a waiver of the 30 day statutory notice period, provided in section 4(d) of the Natural Gas Act. Under new paragraph (n) the Director may pass upon petitions by gas purchasers to permit one additional 60 day period of exemption for emergency sale arrangements, where the application for extension arrives at the Commission later than 45 days after the commencement of the initial period of exemption. Finally, the authority to initiate an annual survey of short term impacts of gas curtailments is granted by new paragraph (o).

4. *Delegations to Office of Electric Power Regulation.* The amendments to § 375.308 include additions to and modifications of the current delegation rules to the Director of OEPR concerning rate matters, licenses for hydropower projects, and other water resource matters.

Paragraph (p) is amended to expand in subparagraph (1) the Director's authority to reject for filing data and reports that are not in compliance with Commission opinions and orders.

Paragraph (w) is amended to expand the Director's authority to reject as well as accept amendments to agreements and rate schedules.

A new paragraph (ll) gives the Director authority to act on uncontested rates and rate schedules filed by the Secretary of Energy, or his designee for power developed at projects owned and operated by the Federal Government and for services provided by Federal power marketing agencies.

New paragraph (mm) gives the Director authority to determine payments for headwater benefits from the operation of Federal Reservoir projects. New paragraph (nn) authorizes the Director to take appropriate action on a Declaration of Intention filed

pursuant to section 23 of the Federal Power Act.

New paragraph (oo) provides the Director with authority to pass upon materially comparable competing applications for preliminary permit and license for water projects that compete with applications for exemption from license, application for preliminary permit that compete with an application for license, application for exemption from license that compete with an application for preliminary permit, license, or exemption from license and application for license that compete with an application for preliminary permit.

The Commission delegates its authority to the Director under paragraph (oo) only insofar as the competing applications are uncontested. However, competing applications for authorization to study or develop a water power project routinely contest other applications for the same site by filing petitions for, or notices of intervention. In order to permit the Director to act in those usual cases where competing applicants contest one another's applications, the limitation in new paragraph (oo)(2) prohibits the Director from acting only where third parties have intervened to raise questions of fact or law about a competing application. In other words, for purposes of this delegation, a competing applicant will not be deemed a contestant so as to deprive the Director of the delegated authority to pass on the applications described in paragraph (oo)(1).

New paragraph (pp) gives the Director's authority to pass upon uncontested applications for certification of the qualifying status of cogenerators and small power producers under § 292.107(b) of the Commission's rules. Authority to take appropriate action on requests by any state regulatory authority or nonregulated utility to waive the requirements of Subpart C of Part 292 of the Commission regulations governing cogeneration and small power production facilities is set forth in new paragraph (qq).

C. Effective Date

The Commission waives the notice and comment provisions of the Administrative Procedure Act, 5 U.S.C. 553(b), because the rule is one of agency procedure and practice. Public procedure is therefore unnecessary. In addition, the Commission finds good cause to make the rule effective immediately, pursuant to 5 U.S.C. 553(d). The Commission currently faces the task of having to make hundreds of decisions on items which can fairly be classified as routine. This delegation will permit a more efficient discharge of the Commission's responsibilities, enabling the Commission to devote its attention to the more controversial issues before it, while insuring the public of quicker action on items of concern.

The Commission nevertheless invites interested members of the public to submit comments or suggestions regarding these regulations. The Commission and its staff will evaluate any information received from interested persons and will consider appropriate revisions to these regulations as a result of comments received. An original and 14 copies should be filed by June 21, 1981, with the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. All comments should refer, on the cover page to Docket No. RM81-20.

(Federal Power Act, as amended, 16 U.S.C. 792 *et seq.*, Natural Gas Act, as amended, 15 U.S.C. 717 *et seq.*, Natural Gas Policy Act of 1978, 15 U.S.C. 3301 *et seq.*, Department of Energy Organization Act, 42 U.S.C. 7107 *et seq.*, E.O. 12009, 3 CFR 142 (1978))

In consideration of the foregoing, the Commission amends Subpart C, Part 375, Subchapter W of Chapter I, Title 18 of the *Code of Federal Regulations*, as provided below, effective on the date of issuance.

By the Commission.

Kenneth F. Plumb,

Secretary.

§ 375.302 [Amended]

1. Section 375.302 is amended by removing paragraphs (u) and (v) in their entirety.

§ 375.303 [Amended]

2. Section 375.303 is amended in paragraph (e)(6) by removing "$15,000,000" and inserting in lieu thereof "$30,000,000."

3. Section 375.307 is amended in paragraph (a)(1) by inserting between the word "construction" and the semicolon a comma and the phrase "or acquisition," and by removing "$1,000,000" and inserting in lieu thereof "$5,000,000."

§ 375.307 [Amended]

4. Section 375.307 is amended in paragraph (a)(2) by inserting between the word "chapter" and the semicolon, a comma and the phrase "including requests for waiver of single project and annual cost limits as prescribed in § 157.7 (b)(1), (c), (d) and (g) of this chapter;".

5. Section 375.307 is amended by revising paragraph (a)(3) to read as follows:

§ 375.307 Delegations to the director of the office of pipeline and producer regulation.

(a) * * *

(3) Applications by a pipeline for the abandonment of pipeline gas purchase facilities with a construction cost of less than $1,000,000 or for the deletion of delivery points. This authority shall be exercised only if the producer servicing the jurisdictional pipeline has received Commission approval to abandon service to the pipeline or if the producer servicing the jurisdictional pipeline has demonstrated that the gas involved is not subject to section 7(b) of the Natural Gas Act by operation of section 601(a)(1) (A) or (B) of the Natural Gas Policy Act of 1978;

* * * * *

6. Section 375.307 is amended by revising paragraph (a)(4) to read as follows:

§ 375.307 Delegations to the director of the office of pipeline and producer regulation.

(a) * * *

(4) Applications for temporary and permanent certificates (and amendments thereto) for the transportation of natural gas to end-users, pursuant to § 2.79 and § 157.101 of this chapter, and applications for temporary certificates (and for amendments thereto) for the transportation of natural gas to end-users pursuant to § 284.208 of this chapter;

* * * * *

7. Section 375.307 is amended by revising paragraph (a)(5) to read as follows:

§ 375.307 Delegations to the director of the office of pipeline and producer regulation.

(a) * * *

(5) Applications for temporary and permanent certificates (and for amendments thereto) for the transportation, exchange or storage of natural gas, provided that the estimated cost of construction of the certificate applicant's related facility is less than $5,000,000, as provided in § 375.307(a)(1);

* * * * *

8. Section 375.307 is amended by revising paragraph (a)(7) to read as follows:

§ 375.307 Delegations to the director of the office of pipeline and producer regulation.

(a) * * *

(7) Blanket certificate applications by interstate pipelines and Hinshaw

pipelines issued pursuant to § 284.221 and § 284.222, of this chapter;

* * * * *

§ 375.307 [Amended]

9. Section 375.307 is amended by removing paragraph (a)(8) in its entirety; and by redesignating paragraph (a)(9) as paragraph (a)(8) and paragraph (a)(10) as paragraph (a)(9).

10. Section 375.307 is amended by adding new subparagraphs (a)(10), (a)(11), (a)(12) and (a)(13) to read as follows:

§ 375.307 Delegations to the director of the office of pipeline and producer regulation.

(a) * * *

(10) Applications to change delivery points for existing sales customers filed pursuant to section 7(c) of the Natural Gas Act when such applications provide that the sales volumes remain within total existing contract demand and certificate levels;

(11) Applications for authorization and applications for amendments to authorizations filed pursuant to section 7(c) of the Natural Gas Act for new or additional service to right-of-way grantors either directly or through a distributor, where partial consideration for the granting of the right-of-way was the receipt of gas service pursuant to section 7(c) of the Natural Gas Act;

(12) Applications pertaining to approval of customer name changes; and

(13) Applications for approval of customer rate schedule shifts.

11. Section 375.307 is amended in paragraph (b) by removing the word "and" at the end of subparagraph (2), by replacing the final period by a semicolon in subparagraph (3), and by adding new subparagraphs (4) and (5) at the end thereof to read as follows:

§ 375.307 Delegations to the director of the office of pipeline and producer regulation.

(b) * * *

(4) Accept rate filings of jurisdictional natural gas companies which involve replacement and rollover contracts; and

(5) Accept statements of eligibility filed under § 2.56(p) of this chapter by producers of natural gas, as defined in § 154.91 and § 157.40 of this chapter.

12. Section 375.307 is amended in paragraph (j) by inserting between the word "Chapter" and the period, a comma and the phrase "including waiver of notice as provided in section 4(d) of the Natural Gas Act."

13. Section 375.307 is amended by adding paragraphs (n) and (o) to read as follows:

§ 375.307 Delegations to the director of the office of pipeline and producer regulation.

* * * * *

(n) Pass upon petitions to permit after an initial 60-day period, one additional 60-day period of exemption pursuant to § 157.48(b) where the application for extension arrives at the Commission later than 45 days after the commencement of the initial period of exemption.

(o) Initiate an annual survey of the impact of winter gas supply (Omnibus Report).

14. Section 375.308 is amended by revising paragraph (p) to read as follows:

§ 375.308 Delegations to the Director of the Office of Electric Power Regulations.

* * * * *

(p) With respect to data and reports submitted by public utilities and licensees that are required by Commission orders and presiding officers' initial decisions:

(1) Accept for filing data and reports which are in compliance with the orders or decisions; and, when appropriate notify the filing party of such acceptance;

(2) Reject for filing data and reports which are not in compliance with or are not required by the orders or decisions; and, when appropriate notify the filing party of such rejection.

* * * * *

15. Section 375.308 is amended by revising paragraph (w) to read as follows:

§ 375.308 Delegations to the Director of the Office of Electric Power Regulation.

* * * * *

(w) With respect to amendments to agreements, contracts or rate schedules (including approved rate settlements), submitted pursuant to Commission opinion or on other actions:

(1) Accept for filing any amendment made in compliance with such Commission opinion or other action; and

(2) Reject for filing any amendment not made in compliance with such Commission opinion or other action.

16. Section 357.308 is amended by inserting after paragraph (kk) new paragraphs (ll), (mm), (nn), (oo), (pp), (qq), to read as follows:

§ 375.308 Delegations to the Director of the Office of Electric Power Regulation.

* * * * *

(ll) Approve uncontested rates and rate schedules filed by the Secretary of Energy, or his designee, for power developed at projects owned and operated by the Federal government and for services provided by Federal power marketing agencies.

(mm) Determine payments for headwater benefits from the operation of Federal Reservoir projects.

(nn) If a declaration of intention or motion for declaratory order regarding proposed construction of a dam or other project works across, along, over, or in any stream or part thereof is filed pursuant to section 23 of the Federal Power Act, issue a declaratory order including any necessary findings:

(1) Requiring the declarant to obtain a license for such construction under Part I of the Federal Power Act.

(2) Make a determination that no license for construction is necessary under Part I of the Federal Power Act.

(oo) Take appropriate action with respect to any competing application that proposes to develop or study the development of mutually exclusive water projects if:

(1) The application is either—

(i) An application for license or preliminary permit which competes with an application for exemption from license,

(ii) An application for exemption from license which competes with an application for preliminary permit, license, or exemption from license;

(iii) An application for license which competes with an application for preliminary permit; or

(iv) An application for preliminary permit which competes with an application for license;

(2) No person other than a competing applicant contests any application specified in subparagraph (1) by petition for, or notice of, intervention; and

(3) The competing applications specified in subparagraph (1) do not propose and substantiate materially different plans to develop, conserve, and utilize water resources of the region.

(pp) Take appropriate action upon uncontested applications for certification of the qualifying status for cogeneration facilities under § 292.207 of the Commission's rules.

(qq) Take appropriate action on requests by any state regulatory authority or non-regulated electric utility to waive, pursuant to § 292.403 of the Commission rules, the requirements of subpart C of the Commission's rules governing cogeneration and small power production facilities.

[FR Doc. 81-16497 Filed 6-2-81; 8:45 am]
BILLING CODE 6450-85-M

DEPARTMENT OF JUSTICE

Attorney General

28 CFR, Part 0

[Order No. 944–81]

Delegation of the Attorney General's Authority Under Executive Order No. 12250

AGENCY: Department of Justice.

ACTION: Final rule.

SUMMARY: This order delegates to the Assistant Attorney General in charge of the Civil Rights Division authority to implement Executive Order No. 12250 ("Leadership and Coordination of Nondiscrimination Laws"). The effect of this delegation is to reassign to the Assistant Attorney General for Civil Rights most of the responsibilities and duties assigned to the Attorney General by Executive Order No. 12250. This is being done to provide effective and efficient management and oversight of the Department's coordination responsibilities.

EFFECTIVE DATE: May 21, 1981.

FOR FURTHER INFORMATION CONTACT: Stewart B. Oneglia, Chief, Coordination and Review Section, Civil Rights Division, Department of Justice, Washington, D.C. 20530 (202/724–6757).

SUPPLEMENTARY INFORMATION: This order deals with agency management. It is not required to be and has not been published in proposed form for comment under 5 U.S.C. 553(b). It is not a rule within the meaning of or subject to the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.* Likewise, it is not a rule within the meaning of or subject to Executive Order No. 12291 ("Federal Regulation").

Accordingly, by virtue of the authority vested in me as Attorney General by 5 U.S.C. 301, 28 U.S.C. 510, and Executive Order No. 12250, it is hereby ordered as follows:

1. Section 0.51 of Title 28, Code of Federal Regulations is revised to read as follows:

PART 0—ORGANIZATION OF THE DEPARTMENT OF JUSTICE

§ 0.51 Leadership and coordination of nondiscrimination laws.

(a) The Assistant Attorney General in charge of the Civil Rights Division shall, except as reserved herein, exercise the authority vested in and perform the functions assigned to the Attorney General by Executive Order No. 12250 ("Leadership and Coordination of Nondiscrimination Laws"). This delegation does not include the function, vested in the Attorney General by §§ 1–101 and 1–102 of the Executive order, of approving agency rules, regulations, and orders of general applicability issued under the Civil Rights Act of 1964 and § 902 of the Education Amendments of 1972. Likewise, this delegation does not include the authority to issue those regulations under § 1–303 of the Executive order which are required, by § 0.180 of this Part, to be issued by the Attorney General.

(b) Under paragraph (a) of this section, the Assistant Attorney General in charge of the Civil Rights Division shall be responsible for coordinating the implementation and enforcement by Executive agencies of the nondiscrimination provisions of the following laws:

(1) Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d *et seq.*).

(2) Title IX of the Education Amendments of 1972 (20 U.S.C. 1681 *et seq.*).

(3) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794).

(4) Any other provision of Federal Statutory law which provides, in whole or in part, that no person in the United States shall, on the ground of race, color, national origin, handicap, religion, or sex, be excluded from participation in, be denied the benefits of, or be subject to discrimination under any program or activity receiving Federal financial assistance.

2. A new paragraph (i) is added to 28 CFR 0.50 to read as follows:

§ 0.50 General functions.

* * * * *

(i) Upon request, assisting, as appropriate, the Commission on Civil Rights or other similar Federal bodies in carrying out research and formulating recommendations.

Dated: May 21, 1981.

William French Smith,

Attorney General.

[FR Doc. 81–16457 Filed 6–2–81; 8:45 am]

BILLING CODE 4410–01–M

DEPARTMENT OF DEFENSE

Office of the Secretary

32 CFR Part 199

[DOD Regulation 6010.8–R]

Implementation of the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS); Amendment No. 5

AGENCY: Office of the Secretary of Defense.

ACTION: Amendment of final rule.

SUMMARY: This amends the comprehensive CHAMPUS Regulation, DOD 6010.8–R, which implements the Civilian Health and Medical Program of the Uniformed Services. This amendment implements language contained in Pub. L. 96–342, "Department of Defense Authorization Act, FY81," which allows benefit consideration for well-baby care up to the age of two, and increases the U.S. Government's monthly share of the cost of any benefits provided an eligible beneficiary under the Program for the Handicapped from $350 to $1,000.

EFFECTIVE DATE: October 1, 1980.

FOR FURTHER INFORMATION CONTACT: Lorraine F. Carpenter, Special Assistant for CHAMPUS, Office of the Assistant Secretary of Defense (Health Affairs), Room 3E339, The Pentagon, Washington, D.C. 20301, telephone, 202–697–5185.

SUPPLEMENTARY INFORMATION: In FR Doc. 77–7834, appearing in the **Federal Register** on April 4, 1977 (42 FR 17972), the Department of Defense published its regulation DOD 6010.8–R, "Civilian Health and Medical Program of the Uniform Services (CHAMPUS)," as Part 199 of this title.

§ 199.10(g)(39) of the Part specifically excludes benefits for well-baby care. The basis for this exclusion is that well-baby care is preventive medical care rather than medically necessary services and supplies required in the diagnosis or treatment of an illness or injury.

§ 199.11(b) of this Part specifically limits the Government's share of the cost of any benefits provided under the Program for the Handicapped to $350 per month. The same $350 limit which applies to the CHAMPUS share of the reasonable charges/costs of all benefits provided the handicapped beneficiary in a given month is contained in § 199.11 (b)(2).

On September 8, 1980, President Carter signed into effect Pub. L. 96–342 which authorizes benefits for certain services related to well-baby care up to the age of two and increases the $350 limitation under the Program for the Handicapped to $1,000 per month. Both changes were effective on October 1, 1980.

Throughout the Part where discussions occur of medical necessity or appropriate medical care, such sections should be understood to include well-baby care even though not specifically mentioned. Each such section will be amended at a later date.

Accordingly, 32 CFR, Chapter 1, is amended as follows:

1. In § 199.8(a) the definitions of "Appropriate Medical Care," "Medically Necessary," "Preventive Care," and "Well-Baby Care" are amended by revising paragraphs (14) (i) (ii) (iii); (103), (139), and (176) as set forth below.

2. § 199.10 is amended as follows:

a. By adding a new paragraph (c) (2) (xiii) and redesignating existing paragraphs (xiii) and (xiv) as (xiv) and (xv) as set forth below.

b. By adding a new paragraph (c) (3) (xiv) and redesignating existing paragraph (xiv) as (xv) as set forth below.

c. By revising paragraph (g) (38) (i) as set forth below.

d. By deleting paragraph (g) (39) and designating it as "reserved" as set forth below.

3. § 199.11 is amended by revising paragraphs (b) introductory text, and (b) (2) as set forth below.

§ 199.8 Definitions.

* * * * *

(b) * * *

(14) *Appropriate Medical Care.* "Appropriate Medical Care" means:

(i) That medical care where the medical services performed in the treatment of a disease or injury, or in connection with an obstetrical case, or well-baby care, are in keeping with the generally acceptable norm for medical practice in the United States;

(ii) The authorized individual professional provider rendering the medical care is qualified to perform such medical services by reason of his or her training and education and is licensed and/or certified by the state where the service is rendered or appropriate national organization or otherwise meets CHAMPUS standards; and

(iii) The medical environment in which the medical services are performed is at the level adequate to provide the required medical care.

* * * * *

(103) *Medically Necessary.* "Medically Necessary" means the level of services and supplies (that is, frequency, extent, and kinds) adequate for the diagnosis and treatment of illness or injury, including maternity care and well-baby care. Medically necessary includes the concept of appropriate medical care.

* * * * *

(139) *Preventive Care.* "Preventive Care" means diagnostic and other medical procedures not directly related to a specific illness, injury, or definitive set of symptoms, or obstetrical care, but rather performed as periodic health screening, health assessment or health maintenance procedures.

* * * * *

(176) *Well-Baby Care.* "Well-Baby Care" means a specific program of periodic health screening, developmental assessment and routine immunization for children from birth up to age two years.

* * * * *

§ 199.10 Basic program benefits.

* * * * *

(c) *Professional services benefit—*

* * *

(2) Covered services of physicians and other authorized individual professional providers—* * *

(xiii) *Well-Baby Care.* Well-baby care means a specific program of periodic health screening, developmental assessment and routine immunization for children from birth up to age two years.

* * * * *

(3) *Extent of professional benefits—*

* * *

(xiv) *Well-Baby Care.* Benefits are payable for well-baby care from birth up to the child's second birthday.

(A) The following services are payable when rendered as a part of a specific well-baby care program and when rendered by the attending pediatrician or family physician:

(*1*) Newborn examination, PKU tests, newborn circumcision;

(*2*) History, physical examination, discussion and counseling;

(*3*) Vision, hearing and dental screening;

(*4*) Developmental appraisal;

(*5*) Immunization (that is, DPT, polio, measles, mumps, Rubella);

(*6*) Tuberculin test, Hematocrit, or Hgb., Urinalysis;

(B) Additional services or visits required because of specific findings or because of the particular circumstances of the individual care are covered if medically necessary and otherwise authorized for benefits under the program.

* * * * *

(g) *Exclusions and limitations.* * * *

(38) *Preventive care.* * * *

(i) Well-Baby Care, including newborn examination, PKU testing and newborn circumcision.

(39) [Reserved].

* * * * *

§ 199.11 Program for the handicapped.

* * * * *

(b) *Cost-sharing.* The sponsor is required to pay a portion of the costs for each month in which the dependent receives benefits under the Program for the Handicapped. The amount the sponsor pays is based upon the pay grade. The amounts required of members in each pay grade are as follows:

Member's pay grade	Share amount
E–1 through E–5	$25
E–6	30
E–7 and O–1	35
E–8 and O–2	40
E–9, W–1, W–2, and O–3	45
W–3, W–4, and O–4	50
O–5	65
O–6	75
O–7	100
O–8	150
O–9	200
O–10	250

Except as specifically set forth in paragraph (b)(3) of this section, the Government's share of the cost of and benefits provided under the Program for the Handicapped cannot exceed $1,000 per month. Any amount remaining after the Government's maximum share has been reached is again the responsibility of the active duty member. In ascertaining the total charges against which the sponsor's and the Government's shares will be computed, certain considerations are made:

* * * * *

(2) *CHAMPUS share limit.* The CHAMPUS share of the reasonable charges/costs of all benefits, provided, the handicapped beneficiary in a given month will not exceed $1,000 per month, except when there are two or more handicapped dependents in the same family, as described in paragraph (b)(3) of this section.

* * * * *

(10 U.S.C. 1086, 5 U.S.C. 301)

May 28, 1981.

M. S. Healy,

BILLING CODE 3810-70-M

---

32 CFR Part 294

[DOD Directive 5400.12]

Obtaining Information From Financial Institutions

AGENCY: Office of the Secretary, DOD.

ACTION: Final rulemaking.

SUMMARY: This document provides for uniform marking of documents containing financial information obtained under the provisions of the "Right to Financial Privacy Act of 1978" and sets forth a method whereby

Department of Defense Investigative agencies may obtain financial data from military banking contractors in overseas areas and from other financial institutions located on Department of Defense installations outside the United States, the District of Columbia, Guam, American Samoa or the Virgin Islands. Other changes have been made to conform to the requirements of the "Paperwork Reduction Act of 1980."

EFFECTIVE DATE: April 23, 1981.

FOR FURTHER INFORMATION CONTACT: Lt. Col. William C. Goforth, USAF, Staff Executive (Attorney), Defense Privacy Board, Room 818, Pomponio Plaza Building, 1735 N. Lynn Street, Arlington, VA 22209; telephone 202/694–3027.

SUPPLEMENTARY INFORMATION: In FR Doc. 80–8380 appearing in the **Federal Register** on March 19, 1980 (45 FR 17575), the Office of the Secretary of Defense (OSD) published a final rule establishing procedures for the Department of Defense Components to follow in obtaining information from financial institutions under the "Right to Financial Privacy Act of 1978," Title 12, United States Code, Section 3401, et seq. (Pub. L. 95–630; 92 Stat. 3697, et seq.). This document sets forth certain additions to those rules and makes changes to comply with the provisions of the "Paperwork Reduction Act of 1980," Title 44, United States Code, Section 3501, et seq. (Pub. L. 95–511; 94 Stat. 2812, et seq.).

Accordingly, 32 CFR, Chapter I, Part 294, is amended by revising § 294.3(b); § 294.13 (c) (d), adding (e) and (f); revising enclosures 1, 2, 3, 4, and adding a new enclosure 5, reading as follows:

§ 294.3 Policy.

* * * * *

(b) The provisions of 12 U.S.C. 3401 et seq. do not govern obtaining access to financial records maintained by military banking contractors located outside of the United States, the District of Columbia, Guam, American Samoa, or the Virgin Island. The procedures outlined in enclosure 5 may be followed in obtaining financial information from these facilities.

§ 294.13 Procedures for releasing information obtained from financial institutions.

* * * * *

(c) Unless a delay of customer notice has been obtained under § 294.12, when financial information is transferred under § 294.13 (b) the law enforcement office or personnel security element shall within 14 days, personally serve or mail to the customer, at his or her last known address, a copy of the certificate required by § 294.13 (b), and the following notice:

Copies of or information contained in your financial records lawfully in possession of (name of Component) have been furnished to (name of agency) pursuant to the Right to Financial Privacy Act of 1978 for the following purposes: [state the nature of the law enforcement inquiry with reasonable specificity]. If you believe that this transfer has not been made to further a legitimate law enforcement inquiry, you may have legal rights under the Financial Privacy Act of 1978 or the Privacy Act of 1974.

(d) If a request for release of information is from a federal agency authorized to conduct foreign intelligence or foreign counterintelligence activities, as defined in E.O. 12036 for purposes of conducting such activities, the transferring DOD Component shall release the information without notifying the customer, unless permission to provide notification is given in writing by the requesting agency.

(e) Whenever financial data obtained under this Part is incorporated into a report of investigation or other correspondence, precautions must be taken to ensure that:

(1) The reports or correspondence are not distributed outside the Department of Defense except in compliance with § 294.13 (b) and (c); and

(2) The report or correspondence contains an appropriate warning restriction on the first page or cover.

(f) A suggested restrictive legend for use on the first page or cover sheet of reports or other correspondence follows:

Some of the information contained herein (cite specific paragraph) is financial record information which was obtained pursuant to the Right to Privacy Act of 1978, 12 U.S.C. 3401 et seq. This information may not be released to another federal agency or department outside the Department of Defense without compliance with the specific requirements of 12 U.S.C. 3412.

Enclosure 1—Request For Basic Identifying Account Data Format

[Official Letterhead]

Mr./Mrs. XXXXXXXXXX,
Chief Teller (as appropriate), First National Bank, Little Rock, AR 72203

Dear Mr./Mrs. XXXXXXXXXXXXXX. In connection with a legitimate law enforcement inquiry and pursuant to section 3413(g) of the Right to Financial Privacy Act of 1978, 12 U.S.C. 3401 et seq., you are requested to provide the following account information: [Name, address, account number, and type of account of any customer or ascertainable group of customers associated with a certain class of financial transactions as set forth in § 294.7.

I hereby certify, pursuant to section 3403(b) of the Right of Financial Privacy Act of 1978, that the provisions of the Act have been complied with as to this request for account information.

[Official Signature Block]

Under section 3417(c) of the Act, good faith reliance upon this certification relieves your institution and its employees and agents of any possible liability to the subject in connection with the disclosure of the requested financial records.

Enclosure 2—Customer Consent and Authorization For Access Format

Pursuant to section 3404(a) of the Right to Financial Privacy Act of 1978, I, [Name of customer], having read the explanation of my rights on the reverse side, hereby authorize the [Name and address of financial institution] to disclose these financial records: [List the particular financial records] to [DoD Component] for the following purpose(s): [Specify the purpose(s)].

I understand that this authorization may be revoked by me in writing at any time before my records, as described above, are disclosed, and that this authorization is valid for no more than three months from the date of my signature.

Date: _____

Signature: _____

[Typed name]

[Mailing address of customer]

Statement of Customer Rights Under the Right to Financial Privacy Act of 1978

Federal law protects the privacy of your financial records. Before banks, savings and loan associations, credit unions, credit card issuers, or other financial institutions may give financial information about you to a federal agency, certain procedures must be followed.

Consent to Financial Records

You may be asked to consent to the financial institution making your financial records available to the Government. You may withhold your consent, and your consent is not required as a condition of doing business with any financial institution. If you give your consent, it can be revoked in writing at any time before your records are disclosed. Furthermore, any consent you give is effective for only three months, and your financial institution must keep a record of the instances in which it discloses your financial information.

Without Your Consent

Without your consent, a federal agency that wants to see your financial records may do so ordinarily only by means of a lawful subpoena, summons, formal written request, or search warrant for that purpose. Generally, the federal agency must give you advance notice of its request for your records explaining why the information is being sought and telling you how to object in court. The federal agency must also send you copies of court documents to be prepared by you with instructions for filling them out. While these procedures will be kept as simple as possible, you may want to consult an attorney before making a challenge to a federal agency's request.

V46N106 JUN 3 1981 UMI

Exceptions

In some circumstances, a federal agency may obtain financial information about you without advance notice or your consent. In most of these cases, the federal agency will be required to go to court for permission to obtain your records without giving you notice beforehand. In these instances, the court will make the Government show that its investigation and request for your records are proper.

When the reason for the delay of notice no longer exists, you will usually be notified that your records were obtained.

Transfer of Information

Generally, a federal agency that obtains your financial records is prohibited from transferring them to another federal agency unless it certifies in writing that the transfer is proper and sends a notice to you that your records have been sent to another agency.

Penalties

If the federal agency or financial institution violates the Right to Financial Privacy Act, you may sue for damages or seek compliance with the law. If you win, you may be repaid your attorney's fee and costs.

Additional Information

If you have any questions about your rights under this law, or about how to consent to release your financial records, please call the official whose name and telephone number appears below:

(Last Name, First Name, Middle Initial) Title (Area Code) (Telephone number)

(Component activity, Local Mailing Address)

Enclosure 3—Formal Written Request for Access Format

[Official letterhead]

Mr./Mrs. XXXXXXXXXX,
President (as appropriate), City National Bank and Trust Company, Altoona, PA

Dear Mr./Mrs. XXXXXXXXXX. In connection with a legitimate law enforcement inquiry and pursuant to section 3402(5) and section 3408 of the Right to Financial Privacy Act of 1978, 12 U.S.C. 3401 et seq., and [cite Component's implementation of this part], you are requested to provide the following account information pertaining to the subject:

[Describe the specific records to be examined]

The [DoD Component] is without authority to issue an administrative summons or subpoena for access to these financial records which are required for [Describe the nature or purpose of the inquiry].

A copy of this request was [personally served upon or mailed] to the subject on [Date] who has [10 or 14] days in which to challenge this request by filing an application in an appropriate United States district court if the subject desires to do so.

Upon the expiration of the above mentioned time period and absent any filing or challenge by the subject, you will be furnished a certification certifying in writing that the applicable provisions of the Act have been complied with prior to obtaining the requested records. Upon your receipt of a Certificate of Compliance with the Right to Financial Privacy Act of 1978, you will be relieved of any possible liability to the subject in connection with the disclosure of the requested financial records.

[Official Signature Block]

Enclosure 4—Certificate of Compliance With the Right to Financial Privacy Act of 1978

[Official letterhead]

Mr./Mrs. XXXXXXXXXX,
Manager, Army Federal Credit Union, Fort Ord, CA 93941

Dear Mr./Mrs. XXXXXXXXXX. I certify, pursuant to section 3403(b) of the Right to Financial Privacy Act of 1978, 12 U.S.C. 3401 et seq., that the applicable provisions of that statute have been complied with as to the [Customer's consent, search warrant or judicial subpoena, formal written request, emergency access, as applicable] presented on [Date], for the following financial records of [Customer's name]:

[Describe the specific records]
[Official Signature Block]

Pursuant to section 3417(c) of the Right to Financial Privacy Act of 1978, good faith reliance upon this certificate relieves your institution and its employees and agents of any possible liability to the customer in connection with the disclosure of these financial records.

Enclosure 5—Obtaining Access to Financial Records Overseas

(a) The provisions of 12 U.S.C. 3401 et seq. do not govern obtaining access to financial records maintained by military banking contractors in overseas or other financial institutions in offices located on DoD installations outside the United States, the District of Columbia, Guam, American Samoa, or the Virgin Islands. The purpose of this part is to describe a uniform procedure for access to the financial records of these institutions.

(b) Access to financial records maintained by military banking contractors in overseas areas or other financial institutions located on DoD installations outside the United States, the District of Columbia, Guam, American Samoa or the Virgin Islands is preferably obtained by customer consent. However, in those cases where it would not be appropriate to obtain this consent or where such consent is refused and the financial institution is not otherwise willing to provide access to its records the law enforcement activity may seek access by the use of a search authorization issued by the appropriate military official. This search authorization shall be issued in accordance with established Component procedures and the Military Rules of Evidence.

(c) Information obtained under this enclosure shall be properly identified as financial information and transferred only where an official need-to-know exists. Failure to identify or limit access in accordance with this paragraph does not render the information inadmissible in courts-martial or other proceedings.

(d) Access to financial records maintained by all other financial institutions overseas by law enforcement activities shall be in accordance with the local foreign statutes or procedures governing such access.

May 27, 1981.

M. S. Healy,

OSD Federal Register Liaison Officer, Washington Headquarters Services, Department of Defense.

BILLING CODE 3810-70-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-3-FRL-1831-8]

Approval of Revision of the Commonwealth of Virginia State Implementation Plan

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: This amendment directs applicants for Prevention of Significant Deterioration (PSD) permits who are planning to locate in the Commonwealth of Virginia to submit their applications directly to the Commonwealth instead of to The Environmental Protection Agency. This change is required since EPA has delegated PSD authority to the Commonwealth. The notice announcing the delegation of authority is published elsewhere in this issue of the **Federal Register.**

EFFECTIVE DATE: June 3, 1981.

ADDRESSES: Copies of all support documents are available for inspection during normal business hours at the following offices:

U.S. Environmental Protection Agency, Region III, Curtis Building, Tenth Floor, Sixth and Walnut Streets, Philadelphia, Pennsylvania 19106. Attn: Robert J. Blaszczak (3AH13), (215) 597–8186 or FTS 597–8186

Virginia State Air Pollution Control Board, Room 1106, Ninth Street Office Building, Richmond, Virginia 23219. Attn: William Meyer, Executive Director

Public Information Reference Unit, Room 2922—EPA Library, U.S. Environmental Protection Agency, 401 M Street, S.W. (Waterside Mall), Washington, D.C. 20460

FOR FURTHER INFORMATION CONTACT: Robert J. Blaszczak at (215) 597–8186 or FTS 597–8186.

SUPPLEMENTARY INFORMATION: The Regional Administrator finds good cause for foregoing prior public notice and for making this rule effective immediately in that it is an administrative change and

not one of substantive content. The delegation becomes effective upon publication of this rule; therefore, it serves no purpose to delay the technical change of this addition of the State address to the Code of Federal Regulations.

Under Executive Order 12291, EPA also must judge whether a regulation is "major" and therefore subject to the requirement of a regulatory impact analysis. This delegation of authority is not "major". This action only approves State actions, and imposes no new requirements of its own. Moreover, under the Clean Air Act, Federal inquiry into the economic reasonableness of State SIP changes would serve no practical purpose and could well be improper.

This regulation was submitted to the Office of Management and Budget for review as required by Executive Order 12291.

Under Section 307(b)(1) of the Clean Air Act, judicial review of this action is available *only* by the filing of a petition for review in the United State Court of Appeals for the appropriate circuit within 60 days of today. Under Section 307(b)(2) of the Clean Air Act, the requirements which are the subject of today's notice may *not* be challenged later in civil or criminal proceedings brought by EPA to enforce these requirements.

42 U.S.C. 7401, 7410, and 7470–79

Dated: May 12, 1981.

Jack J. Schramm,

Regional Administrator.

Part 52 of Title 40 of the Code of Federal Regulations is amended as follows:

Subpart VV—Virginia

1. Section 52.2451, new paragraph (c) is added to read as follows:

§ 52.2451 Significant deterioration of air quality.

* * * * *

(c) Pursuant to 40 CFR 52.21(u) full delegation of authority for all portions of the Federal PSD program, as described in 40 CFR 52.21, was relinquished to the Commonwealth of Virginia as of (date of publication). All applications submitted as of that date and supporting information required pursuant to § 52.21 from sources located in the Commonwealth of Virginia shall be submitted to: Division of Compliance, State Air Pollution Control Board, Commonwealth of Virginia, Room 1116, Ninth Street Office Building, Richmond, Virginia 23214.

40 CFR Part 162

[OPP-30029C; PH-FRL-1844-3]

Effective Date for Published Regulation Classifying Certain Uses of Eight Active Ingredients for Restricted Use

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; Confirmation of effective date.

SUMMARY: As required by section 25(a)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act, EPA submitted a final regulation classifying certain uses of eight active ingredients for restricted use to both Houses of Congress for review prior to the regulation taking effect. The regulation was published in the **Federal Register** on January 19, 1981 (46 FR 5696). The minimum 60-day period for Congressional review ended on May 3, 1981. Congress did not act either to extend the review period or to disapprove the regulation. Also, the Agency submitted the regulation to the Office of Management and Budget (OMB), as required by Executive Order 12291, for a 15-day review on April 9, 1981. OMB did not comment on the regulation and on April 29, 1981 cleared it for **Federal Register** publication.

DATES: The regulation published on January 19, 1981 will become effective on June 10, 1981.

FOR FURTHER INFORMATION CONTACT: Walter I. Waldrop, Jr., Office of Pesticide Programs (TS-767C), Environmental Protection Agency, Room 509-F, CM#2, 1921 Jefferson Davis Highway, Arlington, Virginia 22202, (703) 557-7136.

SUPPLEMENTARY INFORMATION: EPA promulgated a final regulation, which was published in the **Federal Register** of January 19, 1981 (46 FR 5696) under section 3(d) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (Pub. L. 95-396, 92 Stat. 819, 7 U.S.C. 136 et seq.). This regulation adds certain uses of eight active ingredients to the list of uses which the Agency has classified for restricted use. The current list is contained in 40 CFR 162.31. However, as required by section 25(a)(4) of FIFRA, this regulation could not take effect until it had been submitted to both Houses of Congress for review and possible disapproval. This review period was to last for a minimum of 60 days of continuous Congressional session, as defined by section 25(a)(4), with a possibility of extension by Congress for an additional 30 days. Since it was not possible to predict an exact date on which the Congressional review period would end, the preamble to the final regulation stated that EPA would publish a separate **Federal Register** Notice after the review period was over announcing the effective date of the regulation. On May 3, 1981, 60 days of continuous Congressional session elapsed. Since neither House of Congress took any action in that period either to disapprove the regulation or to extend the review period, Congressional review under section 25(a)(4) of FIFRA ended on that date.

This regulation was also subject to the Executive Office directive of January 29, 1981, which froze Federal regulations for 60 days. That freeze ended on March 30, 1981. In addition, on April 9, 1981, EPA submitted the regulation to OMB for review, as required by Executive Order 12291 of February 17, 1981. Under the Executive Order, OMB had 15 days to review the regulation. OMB did not comment on the regulation and on April 29, 1981, cleared the regulation for **Federal Register** publication.

Accordingly, the final regulation promulgated as 40 CFR 162.31 on January 19, 1981, will take effect on June 10, 1981.

Dated: May 15, 1981.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

[FR Doc. 81-16546 Filed 6-2-81; 8:45 am]

BILLING CODE 6560-32-M

---

41 CFR Part 15-1

[AS-FRL-1844-5]

Debarred, Suspended, and Ineligible Bidders

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is revising its procurement regulation relating to the debarment, suspension, and placement in ineligibility status of concerns and individuals. This revision, among other things, deletes reference to the documents constituting EPA's consolidated list of firms and individuals debarred from EPA contracting and subcontracting. The intended effect of this revision is to bring EPA's policies and procedures for the establishment and maintenance of a debarred, suspended, and ineligible bidders list in compliance with the Federal Procurement Regulations (FPR).

EFFECTIVE DATE: June 3, 1981.

FOR FURTHER INFORMATION CONTACT: Pamela John, Procurement and Contracts, Management Division (PM-214), Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460 (202/755-0900).

SUPPLEMENTARY INFORMATION: (a) The FRP requires each executive agency to establish and maintain a consolidated list of concerns and individuals to whom contracts and subcontracts will not be awarded and from whom bids and proposals will not be solicited. Prior to this revision, the documents which constituted EPA's consolidated list of debarred, suspended, and ineligible concerns and individuals were identified in the EPA procurement regulations. The documents identified were in conflict with the FPR; therefore, reference to these documents has been deleted.

(b) The FPR requires that the agency head or his designee make certain determinations relating to debarment and suspension actions. This rule specifies the designated official responsible for furnishing notices of debarment action and for granting hearings and taking other actions related to the suspension of concerns and individuals. This revision also provides for a nomenclature change to reflect current Agency organization and structure.

(c) The FPR requires agencies to establish internal procedures for effecting the policies and procedures of the FPR regarding the debarment, suspension, and placement in ineligibility status of concerns and individuals. This revision designates the Contracts Management Manual as the document for implementing these FPR policies and procedures within the Agency.

(d) The Agency has not invited public comments on this rule as it deletes material that is in conflict with the FPR, reflects an internal Agency procedural change, and identifies where internal Agency procedures implementing FPR requirements are located.

For the reasons set out in the preamble, 41 CFR Part 15-1 is revised as follows:

PART 15-1 GENERAL

1. The table of contents for Part 15-1 is changed by revising the contents of Subpart 15-1.6 to read as follows:

Subpart 15-1.6—Debarred, Suspended and Ineligible Bidders

Sec.
15-1.600 Scope of subpart.
15-1.602 Establishment, maintenance, and distribution of a list of concerns or individuals debarred, suspended, or declared ineligible.
15-1.602-1 Bases for entry on the debarred, suspended, and ineligible list.
15-1.603 Treatment to be accorded firms and individuals in debarred, suspended, or ineligible status.
15-1.604 Causes and conditions applicable to determination of debarment.
15-1.604-1 Procedural requirements relating to the imposition of debarment.
15-1.605 Suspension of bidders.
15-1.605-1 Causes and conditions applicable to determination of suspension.
15-1.605-3 Notice of suspension.
15-1.605-4 Hearings.
15-1.606 Agency procedures.

Authority: Sec. 205(c), 63 Stat. 390, as amended (40 U.S.C. 486(c)), unless otherwise noted.

2. The text of Subpart 15-1.6 is revised to read as follows:

Subpart 15-1.6—Debarred, Suspended and Ineligible Bidders

§ 15-1.600 Scope of subpart.

This subpart prescribes the Environmental Protection Agency (EPA) policy and procedures for establishment, use, maintenance, and distribution of a debarred, suspended, and ineligible bidders list for debarring or suspending bidders for cause.

§ 15-1.602 Establishment, maintenance, and distribution of a list of concerns or individuals debarred, suspended, or declared ineligible.

(a) The Director, Procurement and Contracts Management Division, is responsible for establishment and maintenance of a master consolidated list or file of firms and individuals who are debarred or suspended from EPA contracting and subcontracting and from whom bids and proposals will not be solicited as provided in FPR 1-1.603. This list will be known as the EPA Debarred, Suspended, or Declared Ineligible Bidders List.

(b) The Director, Procurement and Contracts Management Division, will effect direct distribution of the EPA Debarred, Suspended, or Declared Ineligible Bidders List to authorized personnel. The list shall not be disclosed to the public.

§ 15-1.602-1 Bases for entry on the debarred, suspended, or ineligible list.

The Deputy Assistant Administrator for Management and Agency Services makes the administrative determinations prescribed by FPR 1-1.602-1 (d), (f), and (g).

§ 15-1.603 Treatment to be accorded firms or individuals in debarred, suspended or ineligible status.

The Deputy Assistant Administrator for Management and Agency Services makes the determinations required by FPR 1-1.603(a).

§ 15-1.604 Causes and conditions applicable to determination of debarment.

Determination to debar a firm or individual for a cause as provided in FPR 1-1.604 shall be made by the Deputy Assistant Administrator for Management and Agency Services.

§ 15-1.604-1 Procedural requirements relating to the imposition of debarment.

(a) *Initiation of debarment action.* The Deputy Assistant Administrator for Management and Agency Services is responsible for furnishing the notification required by FPR 1-1.604-1(a).

(b) *Hearings.* Hearings requested in connection with debarment proceedings shall be conducted by the Deputy Assistant Administrator for Management and Agency Services.

§ 15-1.605 Suspension of bidders.

§ 15-1.605-1 Causes and conditions applicable to determination of suspension.

Determination to suspend a firm or individual for a cause as provided in FPR 1-1.605-1 shall be made by the

Deputy Assistant Administrator for Management and Agency Services.

§ 15-1.605-3 Notice of suspension.

The Deputy Assistant Administrator for Management and Agency Services is responsible for furnishing the notification required by FPR 1-1.605-3.

§ 15-1.605-4 Hearings.

The Deputy Assistant Administrator for Management and Agency Services is responsible for making the determinations and for taking the actions prescribed by FPR 1-1.605-4 (b), (c), (d), and (e).

§ 15-1.606 Agency procedures.

Internal agency procedures and methods for effecting the policies and procedures prescribed by FPR 1-1.6 are specified in the EPA Contracts Management Manual.

Dated: April 11, 1981.

Roy N. Gamse,

Acting Assistant Administrator for Planning and Management.

BILLING CODE 6560-36-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

43 CFR Public Land Order 5943

[U-14899]

Utah; Partial Revocation of Reclamation Project Withdrawals

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order revokes the Secretary's First Form Reclamation Withdrawal Order dated January 30, 1906, Strawberry Valley Project, and the Commissioner's First Form Reclamation Withdrawal Order concurred in by the Bureau of Land Management on November 14, 1955, Central Utah Project, currently referred to collectively as the Bonneville Unit, Central Utah Project. The national forest lands containing 7,760 acres will be open to such forms of disposition as may by law be made of such lands. Approximately 2,238 acres have been patented to the State and will be restored to the mining laws provided appropriate rules and regulations are issued to allow mineral location conveyed pursuant to the Recreation and Public Purposes Act. About 681 acres remain withdrawn for military use and 306+ acres are privately owned. None of the lands will be restored to operation of the public land laws.

EFFECTIVE DATE: June 23, 1981.

FOR FURTHER INFORMATION CONTACT: Dean Bowden, Utah State Office, 801-524-4245.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. The Secretary's First Form Reclamation Withdrawal Order dated January 30, 1906, Strawberry Valley Project, and the Commissioner's First Form Reclamation Withdrawal Order concurred in by the Bureau of Land Management on November 14, 1955, Central Utah Project, currently referred to collectively as the Bonneville Unit, Central Utah Project, are hereby revoked insofar as they affect the following described lands:

Salt Lake Meridian

Strawberry Valley Project

T. 9 S., R. 2 E.,
Sec. 21, SW¼SE¼.
T. 8 S., R. 5 E.,
Sec. 28, all;
Sec. 29, W½E½NE¼, W½NE¼, NW¼, SE¼SW¼, SE¼;
Sec. 30, lots 1 and 2, NE¼, E½NW¼, SE¼SE¼.

Central Utah Project

T. 2 S., R. 1 E.,
Sec. 36, NE¼, E½SE¼.
T. 11 S., R. 1 E.,
Sec. 10, lots 7 to 9, inclusive;
Sec. 15, lots 1 to 4, inclusive, W½NE¼, E½NW¼;
Sec. 22, lots 1 to 4, inclusive, SW¼NE¼, SE¼NW¼, E½SW¼, W½SE¼;
Sec. 28, S½NE¼, N½SE¼.

The areas described, including both public, nonpublic and national forest lands, aggregate 10,985.22 acres in Juab, Utah, and Salt Lake Counties.

2. At 10 a.m. on June 23, 1981, the national forest lands shall be open to such forms of disposition as may by law be made of such lands.

3. The lands in T. 4 S., R. 1 W., remain withdrawn for military use under Executive Order No. 1922 of April 24, 1914. The lands in T. 11 S., R. 1 E., T. 12 S., R. 1 E., and T. 13 S., R. 1 E., have been patented to the Utah Division of Wildlife Resources under the Recreation and Public Purposes Act.

All of the lands, except the 306+ acres privately owned or embraced in patented mining claims, have been and continue to be open to applications and offers under the mineral leasing laws.

Inquiries concerning the lands should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, University Club Building, 136 East South Temple, Salt Lake City, Utah 84111.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

May 18, 1981.

43 CFR Public Land Order 5944

[M-40702]

Montana; Partial Revocation of Public Water Reserve No. 149

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order revokes an Executive order which withdrew public lands for a public water reserve. All the lands remain segregated from operation of the public land laws generally, including the mining and mineral leasing laws by existing withdrawals.

EFFECTIVE DATE: June 3, 1981.

FOR FURTHER INFORMATION CONTACT: Roland F. Lee, Montana State Office 406-657-6291.

By virtue of the authority contained in Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat.

2751; 43 U.S.C. 1714, it is ordered as follows:

1. The Executive Order dated February 14, 1933, which withdrew lands for use as a public water reserve is hereby revoked in its entirety:

Principal Meridian

T. 23 N., R. 22 E.,
Sec. 26, lots 3, 4, S½NE¼;
T. 23 N., R. 23 E.,
Sec. 31, lot 6, SE¼NE¼, E½SE¼.

The area described contains 284.28 acres in Phillips County.

2. The lands in T. 23 N., R. 22 E., remain segregated from operation of the public land laws generally, by Powersite Classification No. 301 of August 31, 1937.

3. All the lands remain withdrawn from operation of the public land laws, including the mining and mineral leasing laws in accordance with the provisions of the Wild and Scenic Rivers Act of October 2, 1968, 82 Stat. 906; 16 U.S.C. 1271 et seq.

Inquiries concerning the lands should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, P.O. Box 30157, Billings, Montana 59107.

Garry E. Carruthers,

Assistant Secretary of the Interior.

May 18, 1981.

[FR Doc. 81-16534 Filed 6-2-81; 8:45 am]

BILLING CODE 4310-84-M

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1056

[Ex Parte No. MC-19 (Sub No. 36)]

Practices of Motor Common Carriers of Household Goods (Revision of Operational Regulations)

AGENCY: Interstate Commerce Commission.

ACTION: Notice of Availability of Corrected Copies of Form OCP-100.

SUMMARY: The Commission is making available corrected copies of Form OCP-100, *Your Rights and Responsibilities When You Move.* This action is taken to clarify corrections made subsequent to adoption of the Commission's final household goods operational rules and to emphasize certain later Commission decisions which affect publication of Form OCP-100 by the moving industry. This action is intended to facilitate compliance by household goods carriers with 49 CFR 1056.2.

DATE: Corrected Form OCP-100 will be available on June 3, 1981.

ADDRESS: Copies may be obtained from the Office of Consumer Protection, Room 7205, Interstate Commerce Commission, Washington, D.C. 20423.

FOR FURTHER INFORMATION CONTACT: Ray G. Atherton, Jr., (202) 275-7844 or W. F. Sibbald, Jr., (202) 275-7148.

SUPPLEMENTARY INFORMATION: The Commission's final household goods operational rules were published at page 16200 of the March 11, 1981, **Federal Register**. Section 1056.2 of these rules requires that household goods carriers provide a copy of Form OCP-100, *Your Rights and Responsibilities When You Move,* to prospective individual shippers. The text of Form OCP-100 as published in the March 11, 1981, **Federal Register**, contained certain typographical errors which were corrected by Notice published in the **Federal Register** of April 20, 1981, at page 22594. Since the correction notice did not republish Form OCP-100 in its entirety, several persons stated that they experienced difficulties with assimilating these corrections into the original text of Form OCP-100. To accommodate those who have had problems, corrected copies of the full OCP-100 text are being made available.

The following is intended to clarify the extent to which the Commission has allowed modification of Form OCP-100.

In a Commission decision served May 7, 1981, and published at page 25621 of the May 8, 1981, **Federal Register**, the Commission emphasized that the main text of Form OCP-100 may not be altered. The following modifications were permitted.

- Simple declarative footnotes may be used to indicate that a particular carrier does not offer a permissive feature, option or program.
- A footnote may be used in Form OCP-100 to indicate that the carrier is furnishing prospective individual shippers a telephone information card in satisfaction of the requirement that it furnish a written description of its complaint and inquiry handling procedures, provided the card indicates whether or not collect calls will be accepted at the numbers listed and at what telephone number complaints will be taken.

Carriers may append their complaint and inquiry procedures description to Form OCP-100, may reference the Appendix in an additional item of the OCP-100 Table of Contents and may refer to the Appendix in an appropriately placed footnote to the text.

It was also held in that decision that carriers are allowed to vary the placement of Form OCP-100-A, *Moving Service Questionnaire,* within the OCP-100 format.

The Commission, by decision served May 27, 1981, also suspended the requirement that Form OCP-100-A be furnished as part of Form OCP-100 until January 1, 1982. This decision requires that all Forms OCP-100 printed and distributed during the suspension period which do not include the questionnaire should include a note to read: The Moving Service Questionnaire is not required to be included in booklets distributed prior to January 1, 1982. The corrected copies of Form OCP-100 available for distribution reflect this interim change.

Dated: May 29, 1981.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81-16547 Filed 6-2-81; 8:45 am]

BILLING CODE 7035-01-M

Proposed Rules

Federal Register
Vol. 46, No. 106
Wednesday, June 3, 1981

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

NUCLEAR REGULATORY COMMISSION

10 CFR Parts 30, 40, and 70

Upgraded Emergency Preparedness for Certain Fuel Cycle and Materials Licensees

AGENCY: Nuclear Regulatory Commission.

ACTION: Advance notice of proposed rulemaking.

SUMMARY: One of the lessons learned from the Three Mile Island nuclear reactor accident in March 1979 was that improvements in emergency preparedness planning and coordination for some NRC licensed activities may be needed to minimize the danger to the public health and safety following an accident.

The Nuclear Regulatory Commission is, therefore, considering the adoption of regulations which will require NRC fuel cycle and materials licensees which have the potential to cause significant radiological impacts to the public from accidents to establish appropriate emergency preparedness. It is anticipated that there will be several categories of emergency preparedness required and will therefore vary in cost and complexity dependent upon facilities' potential for accidental radiological impacts to the public, based on factors such as possession limits, potential of criticality and offsite hazards. The Commission is interested in receiving public comment on the objectives for emergency preparedness and acceptance criteria for varying categories of these NRC licensees and on impacts expected to result from the proposed rulemaking.

DATE: Comments should be submitted on or before August 3, 1981. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given except as to comments received on or before that date.

ADDRESS: Written comments should be submitted to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch.

FOR FURTHER INFORMATION CONTACT: Mr. Michael Jamgochian, Division of Facility Operations, Human Engineering Section, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, (301) 443–5970.

SUPPLEMENTARY INFORMATION: One of the lessons learned from the Three Mile Island nuclear reactor accident in March 1979 was that improvements in emergency preparedness planning and coordination for some NRC licensed activities may be needed to minimize the danger to the public health and safety following an accident.

In recognition of this, strengthened requirements for emergency planning at nuclear power reactors were issued (10 CFR 50.47 and Appendix E, 10 CFR Part 50 (45 FR 55402)). Consideration is now being given to a rule change to specify strengthened emergency preparedness requirements for those fuel cycle and materials licensees which have the potential for accidents involving radioactive materials which could threaten the health and safety of the public.

A reevaluation by NRC staff of previously submitted emergency plans for fuel fabrication plants disclosed important deficiencies. For example, the plans failed to describe adequately (1) the means for the measurement and assessment of accidental releases of radioactive materials, (2) the equipment and procedures to protect workers against the types of radiation hazards that would be encountered following an accident, (3) the arrangements for prompt notification of Federal, State, and local government agencies, (4) plans for recovery actions that would restore safe conditions following an accident, and (5) emergency plans of State and local governments.

Upon noting these deficiencies and identifying other licensed activities with similar potential for accidents which could threaten the public health and safety, and which were not required to have emergency preparedness plans, the NRC staff prepared orders to require these licensees to prepare and submit comprehensive onsite radiological contingency plans. These orders, which were issued in February 1981, specifically required licensee planning for actions to be taken onsite in the event of an accident to: protect workers, limit offsite releases of radioactive materials, assess radiation doses, and mitigate adverse consequences of the accident. The orders were issued to operators of fuel processing and fabrication plants, UF_6 production plants, and radioisotope installations which possess and use significant quantities of unsealed radioactive materials. The installations selected were those which possess and use quantities of nuclear materials that might reasonably be expected to result in a potentially serious radiation exposure of an individual on or offsite as a result of a serious accident.

NUREG–0767 describes the bases used for development of the criteria for selection of the licensees issued orders. The report is included in this Federal Register Notice in order to assure adequate dissemination of relevant information.

The threshold quantities in NUREG–0767 are a preliminary effort by NRC staff to relate radioactive material license possession limits for fuel cycle and materials licensees to the offsite radiation doses established as Protective Action Guides (PAGs) by the Environmental Protection Agency. The (PAG) doses which may trigger protective actions are 1 rem to the whole body, 5 rems to the thyroid and 3 rems to any other critical organ in the case of individuals offsite. One rem to the whole body and 5 rems to the thyroid are the minimum doses which may trigger protective actions suggested by the Environmental Protection Agency in their PAGs, EPA–520/1–75–001. Three rems to other vital organs is an equivalent criterion. Doses constituting significant overexposures of workers are at least 5 times greater than those, i.e., about 5 rems whole body, about 25 rems thyroid and about 15 rems to other critical organs.

NRC believes it necessary now to codify the onsite radiological emergency planning requirements set forth in the orders, to possibly extend them to uranium mills and to other source materials licensees, as appropriate, and to specify several categories of offsite emergency preparedness requirements using factors such as possession limits, potential of criticality and offsite hazards for all of the NRC licensees whose radioactive material possession limits and processes are such that accidents could result in (i) serious

radiation overexposures of workers from a release of radioactive materials, (ii) offsite radiation doses exceeding offsite PAGs, or (iii) releases or process chemicals or other nonradioactive materials which could adversely impact the safety of licensed activities.

This rulemaking will also be responsive to a petition filed by the State of New Jersey (PRM–5010, 39 FR 15900) which requested that the emergency preparedness provisions of Appendix E of 10 CFR Part 50 be extended to licensees subject to 10 CFR Part 20 as appropriate.

In developing this Advance Notice, the NRC staff has consulted and worked in cooperation with FEMA. The staff has also met with representative from the Conference of Radiation Control Program Directors and will especially be seeking input from Agreement States.

Accordingly, requirements are being considered for rulemaking which would assure that fuel cycle and materials licensees establish and maintain appropriate emergency preparedness. The requirements being considered include:

1. The potential impacts to the public from these fuel cycle and materials licensees range from insignificant harm at the large majority of NRC materials licensees to accidents which could result in significant radiological impacts to the public near the site. The rule changes being considered would require that licensees with possession limits above certain specific threshold levels perform analyses to determine the dose to the public and the emergency preparedness appropriate for their licensed activities. A fairly large group of licensees may be affected. The doses to the public and the appropriate emergency preparedness required for various types of licensees would be determined by analysis of the form and amount of radioactive material licensed to be possessed and used throughout the facility.

2. Any NRC licensee facility which has the potential to cause offsite radiation doses to members of the public in excess of the Protective Action Guides established by EPA, would be required to establish and maintain appropriate emergency preparedness plans, or to make process or inventory adjustments which remove or reduce the potential for such offsite effects.

3. Some licensees may be required to incorporate Emergency Planning Zone (EPZs) similar to those set forth in NUREG–0396,[1] into their emergency prepardeness program.

4. Some licensees have large quantities of process chemicals, stored fuels, and water impoundments at or near the licensee's facility. Since the emergency response to accidents associated with such facilities could be complicated by accidents involving nonradiological materials, those licensees required to have emergency plans will be required to account for all hazards to the public inherent in the licensed facility's operations including the presence, onsite and near site, of hazardous materials and conditions which might affect the emergency response to an accident involving licensed materials, or might cause a radiological accident.

The NRC is especially interested in public comments related to the following issues and questions:

1. There are approximately 8,000 NRC fuel cycle and materials licensees. Staff estimates indicate that only 1 to 2 percent of these licensees would be required to have emergency plans and fewer than one percent would be required to have plans including offsite arrangements for response and support from agencies of Federal, State and local governments. What categorization schemes would ensure that licensees needing emergency plans establish and maintain an appropriate plan but at the same time ensure that licensees who either do not need plans or need only simple plans are not required to submit unneeded information? How can the approach set out in NUREG–0767 be expanded or adopted to determine the number of categories and criteria for categories of licensees needing emergency plans?

2. How should Federal, State and local governments affected by the proposed rulemaking work together and with the licensees to ensure that NRC fuel cycle and materials licensees establish an appropriate level of emergency prepardeness? In some cases, State and local governments will be able to draw upon the work that has been done to improve emergency preparedness at nuclear power reactor sites. After TMI, there was considerable effort and assistance provided by Federal, State and local governments and the nuclear power reactor licensees to establish acceptable radiological emergency preparedness onsite and offsite. However, there are State and local governments which have no nuclear power reactors located within their jurisdictions, but do have other NRC licensees within their jurisdictions. These governments may not have benefitted from the Federal, State or licensee cooperative efforts and assistance and may, therefore, face a more difficult task if a facility in their area requires offsite planning and preparedness.

3. What basis should be used to establish Emergency Preparedness Criteria for various categories of NRC fuel cycle and materials licensees? Some fuel cycle and material licensee's facilities are located in, or adjacent to, densely populated areas where accidental radiological releases could result in exposures having public health significance. For these operations, we recognize the need to perform detailed accident analyses as part of the licensing review process and to upgrade the emergency planning for these facilities as appropriate. NUREG–0767 sets out a preliminary analytic method which could be expanded and used for selecting those licensees requiring extensive analysis, and for setting the various categories of licensees by risk.

4. Would there be significant environmental impacts from the proposed rulemaking? What form are the impacts apt to take? Is the proposed rulemaking likely to result in unduly high costs to consumers or licensees? What economic impacts may be involved in this proposal?

5. Agreement States will probably adopt emergency preparedness regulations comparable to NRC rules, but a time delay is inevitable. How can this delay be reduced, and how much delay is acceptable? There are about 12,000 nuclear activities licensed by Agreement States. How are the impacts likely to differ in Agreement States and Non-Agreement States? How large is the category of Agreement States licensees for which Agreement States licensing agencies may need to issue orders (similar to the NRC orders), to prepare emergency preparedness plans?

6. What role should the Federal Emergency Management Agency have in reviewing offsite emergency preparedness for these NRC licensees? How will FEMA/NRC/Agreement State Cooperation be structured? How will FEMA review authority apply in Agreement States?

7. Will the impacts on differing categories of licensees be small relative to the resources of the licensees or will certain processes or services provided by smaller licensees no longer be economically feasible due to high costs of meeting emergency planning requirements?

It is probable that a significant number of small entities will be affected

[1] Copies of this document may be purchased from the Government Printing Office. Information on current prices may be obtained by writing the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Attention: Publications Sales Manager.

by the upgraded emergency preparedness requirements to be developed in this rulemaking process. For this reason, the NRC will prepare an initial regulatory flexibility analysis prior to issuance of proposed rules to upgrade emergency preparedness for fuel cycle and materials licensees. In order to facilitate preparation of that analysis, the NRC is particularly seeking comment from small entities (i.e., small businesses, small organizations, and small jurisdictions as defined by the Regulatory Flexibility Act 5 U.S.C. 601 et seq.) as to how the rulemaking will affect them and how the resulting regulations may be tiered or otherwise modified to impose less stringent requirements on small entities while still adequately protecting the public health and safety. Those small entities which offer comments on how the regulations could be modified to take into account the differing needs of small entities should specifically discuss:

(a) the size of their business and how the rulemaking would result in a significant economic burden upon them as compared to larger organizations in the same business community;

(b) how the regulations being considered could be modified to take into account their differing needs or capabilities;

(c) the benefits that would accrue, or the detriments that would be avoided, if the regulations being considered were modified as suggested by the commenter;

(d) how the regulations, being considered, if modified, would more closely equalize the impact of NRC regulations or create more equal access to the benefits of Federal programs as opposed to providing special advantages to any individuals or groups; and

(e) how the regulations being considered, if modified, would still adequately protect the public health and safety.

NUREG–0767, "Criteria for Selection of Fuel Cycle and Major Materials Licenses Needing Radiological Contingency Plans," is hereby printed in its entirety.

1. Introduction

The NRC believes there is a pressing need for upgrading of radiological contingency planning of those licensed fuel cycle and major materials facilities which exhibit the potential for accidents which could result in (1) offsite doses exceeding 1 rem to the whole body, 5 rems to the thyroid or 3 rems to other critical organs, or (2) potentially serious radiation overexposures of workers from a nuclear criticality incident or from release of radioactive materials, or (3) chemical exposures which could impact radiological safety. Radiation doses of 1 rem to the whole body and 5 rems to the thyroid are the lowest Protective Action Guides (PAGs) established by the Environmental Protection Agency for triggering a protective action in public areas following a radiation accident.

Radiological contingency planning is that part of emergency response preparedness contributed by plant operators to assure (1) that plants are properly configured to limit releases of radioactive materials and radiation exposures in the event of an accident, (2) that a capability exists for measuring and assessing the significance of accidental releases of radioactive materials, (3) that appropriate emergency equipment and procedures are provided onsite to protect workers against radiation hazards that might be encountered following an accident, (4) that notifications are promptly made to Federal, State and local government agencies, and (5) that necessary recovery actions are taken in a timely fashion to return a plant to a safe condition following an accident.

Limiting possession limits, i.e., quantities and forms of radioactive materials which can be reasonably estimated to be capable of causing, due to accidents, offsite doses equal to or greater than 1 rem total body, 5 rem thyroid or 3 rem other critical organ or potentially serious radiation exposures to workers from a criticality excursion or from release of radioactive materials, are developed in this report.

II. Summary and Conclusions

Table I is a listing of those quantities of radioisotopes, as license possession limits and conditions of use, which the NRC has determined to be of potential significant concern in the event of a major accident involving those radioactive materials.

Table I.—*Schedule of Limiting Possession Limits Arranged Alphabetically by Elements*

Radionuclides	Limiting possession limits (curies)
Americium-241	0.30
Americium-243	0.30
Antimony-124	1,000
Barium-140	2,000
Cadmium-113m	1,500
Calcium-45	800
Carbon-14	1,300
Californium-252	0.30
Cesium-134	350
Cesium-137	600
Chromium-51	150,000
Cobalt-60	4,000
Copper-64	50,000
Curium-242	8.0
Curium-244	0.50
Gold-198	100,000
Hydrogen-3	6,000
Iodine-125	8.0
Iodine-129	1.0
Iodine-131	3.0
Iridium-192	80,000
Iron-55	30,000
Iron-59	2,400
Krypton-85	7,000
Manganese-54	1,500
Manganese-56	120,000
Molybdenum-99	3,000
Neptunium-237	0.20
Nickel-63	5,000
Niobium-95	5,000
Phosphorous-32	15
Plutonium-238	0.10
Plutonium-239	0.10
Polonium-210	3.2
Promethium-147	3,500
Ruthenium-103	1,500
Ruthenium-105	15,000
Scandium-46	2,500
Selenium-75	500
Silver-110m	500
Strontium-90	25
Sulfur-35	400
Tantalum-182	15,000
Technetium-99m	200,000
Thallium-204	30,000
Thulium-170	1,000
Thorium-228	0.30
Tin-113	10,000
Tin-123	1,000
Tungsten-187	5,000
Uranium-233	6.0
Xenon-133	10,000
Zinc-65	2,500
Zirconium-93	5,000
Zirconium-95	1,300

Conditions

Where a license authorizes possession of a single radionuclide in forms other than a sealed sources or special form,[3] the licensee shall prepare and submit a Radiological Contingency Plan if the authorized possession limit exceeds that quantity specified for that radionuclide in the *Schedule of Limiting Possession Limits.*

Where possession of two or more radionuclides, in forms other than as sealed sources or special form,[3] is authorized by the license, the licensee shall prepare and submit a Radiological Contingency Plan if the sum of the quotients of the authorized possession limits for individual radionuclides divided by the quantities of those radionuclides specified in the *Schedule of Limiting Possession Limits* exceeds unity.

Where the license authorizes possession of a broad range of radionuclides, e.g., any byproduct material of atomic numbers 3 through 83, inclusive, in excess of those quantities specified in Schedule A of 33.100, i.e.

[3] See 10 CFR 30.4(r) and 10 CFR 71.4(o) for definitions of "sealed source" and "special form."

Type A specific licenses of Broad Scope, and in forms other than as sealed sources or special form,[2] the licensee shall prepare and submit a Radiological Contingency Plan if the quantity of any radionculide authorized, either explicitly or implicitly, exceeds that quantity specified in the *Schedule of Possession Limits* or if the sums of the quotients of those quantities explicitly or implicitly authorized divided by the quantities of those radionuclides specified in the *Schedule of Limiting Possession Limits* exceeds unity.

Licensees possessing U–235, U–233, or plutonium in any form in such quantities as to require criticality monitors and alarms in accordance with 10 CFR 70.24 are also required to prepare and submit for review Radiological Contingency Plans. Possession of large quantities of UF_6, even where no criticality hazards exist, shall also require preparation and submittal for review of Radiological Contingency Plans.

III. Discussion

Estimates of quantities of materials, which could lead to significant offsite doses and to overexposures of workers from accidents, that require protective actions have been based upon the relationship:

$$Q = \frac{D_n}{DCF_n \; R \; I}$$

Where:

- Q = Limiting possession limit, i.e., the quantity of radionuclide authorized to be possessed and assumed subject to an accidental release
- D_n = Doses requiring protective actions, rem
- DCF_n = The inhalation dose conversion factor and the limiting body organ
- R = Release fraction likely to be dispersed in a severe real accident
- I = Intercept fraction that could be inhaled by an individual

For the purposes of selecting licensees to prepare and submit Radiological Contingency Plans it is necessary to base the selection criteria upon the authorized possession limits since we have no other information available upon which to base a conclusion that lesser quantities of radionulides would be subject to the same severe accident condition.

Doses requiring protective actions are 1 rem to the whole body, 5 rems to the thyroid and 3 rems to any other critical organ in the case of individuals offsite. One rem to the whole body and 5 rems to the thyroid are the minimum doses requiring protective actions by the Environmental Protection Agency in their Protective Action Guides (PAGs), EPA–520/1–75–001. Three rems to other vital organs is an equivalent criterion. Doses constituting significant overexposures of workers are at least 5 times greater than those, i.e., about 5 rems whole body, about 25 rems thyroid and about 15 rems to other critical organs.

Selection criteria are based upon inhalation limiting doses except for Xe-133 and Kr-85 where submersion is the acute exposure pathway for which preplanned protective actions are needed. Ingestion pathways are not likely to cause prompt acute exposures to individuals and are believed not to the limiting in this analysis.

Rigorous estimates of release fractions, i.e., those portions of inventories of radioactive materials that could be made airborne in an accident, require plant-specific analyses to discover and characterize possible accident scenarios and to estimate possible releases. Insufficient data are presently available to support such analyses. In the absence of such data, release fractions have been estimated based upon experience and the generic physical and chemical forms of the radionuclides normally involved. Encapsulated materials and materials in "special form" have been assumed to be nondispersible and to have zero release fractions. Stable solid monolithic materials known to be accompanied by finely divided materials in industrial manufacturing operations, viz. Ir-192 and Co-60 have been assigned release fractions of 0.001. Other solids and liquids have been assigned release fractions of 0.01. Semi-volatiles have been assigned to release fractions of 0.03 and volatile and/or combustible radionuclides have been assigned release fractions of unity.

Only a fraction of the materials released, the "intercept fraction," will likely be inhaled and contribute to radiation dose. An intercept fraction of 10^{-6} for offsite exposures has been mentioned repeatedly in the literature [3] [4] and corresponds to a breathing rate of 20 m^3/day and an atomospheric relative concentration value, X/Q, of 4×10^{-3} sec/m^3, where the receptor is present throughout the entire release event. An atomospheric relative concentration value of 4×10^{-3} is believed to be an appropriately typical value for fuel cycle and materials licensee installations. This corresponds to the ground level relative concentrations experienced 150 meters from a ground level release under stable conditions. Workers could subjected to higher concentrations but only for short periods since they leave the scene of the accident or don protective equipment soon after any large releases occur.

The details of the estimation of Limiting Possession Limits are presented in Table II.

CIVIL AERONAUTICS BOARD

14 CFR Part 302

[PDR-75; Docket No. 39638; Dated: May 18, 1981]

Expedited Procedures for Processing Licensing Cases; Service of Documents

AGENCY: Civil Aeronautics Board.

ACTION: Notice of proposed rulemaking.

SUMMARY: The CAB proposes to provide that persons applying for a certificate of public convenience and necessity and air carriers applying for modification of a certificate of public convenience and necessity may serve a simplified notice of the application on specified persons in lieu of the present requirement that complete copies of the applications be served on those persons. In addition, the Board proposes to specify the information that shall be contained in such notices, whether filed by a U.S. or a foreign applicant. The CAB takes this action at its own initiative.

DATE: Comments by: August 3, 1981.

Comments and other relevant information received after this date will be considered by the Board only to the extent practicable.

Requests to be put on the Service List must be received by: June 18, 1981. The Dockets Section prepares the Service List and sends it to each person listed, who then serves comments on all others on the list.

ADDRESSES: Twenty copies of comments should be sent to Docket 39638, Civil Aeronautics Board, 1825 Connecticut Avenue, NW., Washington, D.C. 20428. Individuals may submit their views as consumers without filing multiple copies. Comments may be examined in Room 711, Civil Aeronautics Board, 1825 Connecticut Avenue, NW., Washington, D.C., as soon as they are received.

FOR FURTHER INFORMATION CONTACT: Christina R. Pfirrman, Legal Division, Bureau of International Aviation, 1825 Connecticut Avenue, NW., Washington, D.C. 20428, (202) 673–5203.

SUPPLEMENTARY INFORMATION: In 1979, as a result of the Airline Deregulation Act, the Board promulgated rules in Part 302, Subpart Q establishing the procedures to be used for the expeditious consideration of applications for new or amended certificates of public convenience and necessity and for foreign air carrier permits. As a part of those rules, the Board created § 302.1705—*Service of Documents*. Section 302.1705(a)(1) currently provides that when an application for a certificate of public convenience and necessity described in § 302.1701 (a) or (b) [1] is filed, the applicant must serve a complete copy of the application on each of the persons listed in § 302.1705(b) for each of the points covered in the application. The purpose of this requirement is to give sufficient notice of new applications to those persons who, in the Board's experience, normally have the greatest interest in them. Interested persons then have the opportunity to express their views in the docket.

With the advent of open entry in most domestic and many foreign markets, this requirement has become unnecessarily burdensome to the applicants. A single application may concern service to several points and contain detailed descriptions of proposed services. The present rule often results in lengthy documents being served on a relatively large group of potentially interested persons. Since the purpose of the requirement is merely to give notice, we find that this method is now inappropriate.

Therefore, we propose to eliminate the requirement that applicants serve complete copies of all applications on all those persons. Instead, we intend to require that applicants serve only a simple notice on those same persons. This should prove much less burdensome to the applicants. At the same time, it would still serve the purpose of the original requirement by giving notice to all persons who may have an interest in the application. The notice would be a short, probably one-page summary of the application containing the following information: (1) A list of all the points covered in the application; (2) a description of the Board action the applicant is requesting, *i.e.*, new authority, amendment, restriction removal; and (3) if the application is one for new or amended route authority, the type of equipment to be used and, for foreign air transportation, the proposed date of inauguration of service. If anyone receiving the notice wants further information, the applicant would be required to promptly provide complete copies to each requestor. This procedure was adopted earlier for applications involving foreign air carrier permits.

We also propose to amend § 302.1705(a)(2), dealing with foreign air carrier permit applications, by inserting an additional sentence. This new sentence would specify the information which should be contained in the notices which these applicants are already required to serve. This information would be identical to the information required of applicants for certificates of public convenience and necessity for foreign air transportation, described above. This change would not impose any additional burden on foreign applicants. They are already required to file the notices. This amendment would simply insure that the minimum necessary information is available to those who are interested and it would result in an identical filing requirement for both foreign and U.S. applicants for foreign air transportation.

We also propose technical amendments to paragraphs (b) and (c), to conform to the changes we are proposing for paragraph (a). In paragraph (b), the word "Documents" would be replaced by "Notices" to make it clear that it would only be necessary to serve the simplified notices on all the persons listed in paragraphs (b)(1) through (b)(6) and not necessary to serve any subsequent documents on them unless specifically requested to do so by the person or the Board. In paragraph (c), we would delete the present second sentence. This sentence encourages applicants to serve complete copies of their applications even in those cases where only notices are required. In light of the discussion above, we find that this "encouragement" is unnecessary.

Initial Regulatory Flexibility Analysis

The Regulatory Flexibility Act, Pub. L. 96–354, requires that agencies consider flexible approaches to the regulation of small business and other small entities. It requires a regulatory analysis for rules that, if adopted, will have a "significant economic impact on a substantial number of small entities." This

---

[1] § 302.1701 *Applicability.*

This subpart sets forth the rules applicable to proceedings on

(a) Applications for certificates of public convenience and necessity and renewals, amendments, modifications, suspensions and transfers of certificates under sections 401(d)(1), 401(d)(2), 401(g) and 401(h) of the Act;

(b) Applications under section 401(e)(7)(B) of the Act for the removal or modification of a term, condition, or limitation attached to a certificate; and

(c) * * *.

requirement is also applicable to rules that effectively reduce regulatory restrictions.

The analysis is required to describe the need, objectives, legal basis for and flexible alternatives to the action proposed here. The first three requirements are satisfied by the discussion above. The only alternative to our proposed action is to maintain the *status quo* and to continue to require that applicants continue to serve complete copies of all applications on all persons listed in § 302.1705(b). Therefore, our action proposed here would reduce a regulatory burden and would have no significant adverse economic impact.

In addition, the analysis must include a description of the small entities to which this proposal would apply, the reporting, recordkeeping or other requirements of the proposed rule and any other Federal rules that may duplicate, overlap or conflict with it. As we have previously stated, this rule would apply to all persons filing applications described in § 302.1701. The proposed rule would not duplicate, overlap or conflict with any other Federal rule and would not impose any additional reporting, recordkeeping or compliance requirement. It would in fact reduce one that now exists.

Accordingly, the Civil Aeronautics Board proposes to amend section 302.1705 of 14 CFR Part 302, *Rules of Practice in Board Proceedings* by revising paragraph (a), the introductory text of paragraph (b), and paragraph (c) as follows:

§ 302.1705 Service of documents.

(a) *General requirements.* (1) In a certificate proceeding involving an application described in § 302.1701 (a) or (b), the applicant shall serve on the persons listed in paragraph (b) of this section and, in the case of an application involving foreign air transportation, on the U.S. Department of State a notice that such application has been filed. The notice shall specify the points covered in the application, a description of the Board action the applicant is requesting and, in the case of an application for new or amended route authority, the type of equipment to be used. Notices of applications for new or amended route authority in foreign air transportation shall also indicate the proposed date of inauguration of service. The applicant shall promptly provide complete copies of the actual documents to all persons who request them. All documents filed after the initial application but prior to the issuance of an order establishing further procedures shall be served on all persons who have filed pleadings in the docket. After the order establishing further procedures has been issued, documents need only be served on the persons listed in the service list accompanying that order.

(2) In a foreign air carrier permit proceeding described in § 302.1701(c), the applicant shall serve on the persons listed in paragraph (b) of this section and on the U.S. Department of State a notice that such application has been filed. The notice shall specify the points covered in the application, a description of the Board action the applicant is requesting and, in the case of an application for new or amended route authority, the type of equipment to be used and the proposed date of inauguration of service. The applicant shall promptly provide complete copies of the actual documents to all persons who request them. All later documents shall be served on all persons who have filed pleadings in the docket.

(b) *Persons to be Served.* Notices shall be served, for each point covered in the application, on the following:

* * * * *

(c) *Additional Service.* The Board may, in its discretion, order additional service upon such persons as the facts of the situation warrant.

(Secs. 101, 204, 401, 402, 403, 406, 416, 1001, 1002, Pub. L. 85–726, 72 Stat. 737, 743, 754, 757, 758, 783, 771, 788, as amended by Pub. L. 95–504, 92 Stat. 1973; (49 U.S.C. 1301, 1324, 1371, 1372, 1373, 1376, 1386, 1481, 1482); Reorganization Plan No. 3 of 1961, 75 Stat. 837, 26 FR 5989; unless otherwise noted)

By the Civil Aeronautics Board.

Phyllis T. Kaylor,

Secretary.

14 CFR Part 399

[PSDR–70; Policy Statements Docket 38585]

Joint Fares; Statements of General Policy

Dated: May 14, 1981.

AGENCY: Civil Aeronautics Board.

ACTION: Notice of proposed rulemaking.

SUMMARY: The CAB is proposing several possible changes in its rules concerning "joint fares" for flights using two or more carriers, to aid in the transition to domestic fare deregulation.

DATES: Comments by: July 31, 1981. Reply comments by: August 20, 1981.

Comments and other relevant information received after this date will be considered by the Board only to the extent practicable.

Requests to be put on the Service List by: June 17, 1981.

The Docket Section prepares the Service List and sends it to each person listed, who then serves comments on others on the list.

ADDRESSES: Twenty copies of comments should be sent to Docket 38585, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428. Individuals may submit their views as consumers without filing multiple copies. Copies may be examined in Room 711, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. as soon as they are received.

FOR FURTHER INFORMATION CONTACT: Joanne Petrie, Office of the General Counsel, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428, 202–673–5442; or Julien R. Schrenk, Chief, Domestic Fares and Rates Division, Bureau of Domestic Aviation, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428, 202–673–5298.

SUPPLEMENTARY INFORMATION:

Background

This Notice of Proposed Rulemaking responds to a petition filed by American Airlines to exempt carriers from the present requirements of the joint fare system. Answers were filed by nine carriers (TWA, United, Air New England, Pacific Southwest, Big Sky, Golden Gate, Provincetown-Boston, Suburban, Sunbird), the Joint Local Service Carriers Association (JLSC), the Commuter Airline Association of America (CAAA) and the City of Lawton, Oklahoma. Answers were also filed by Air Oregon and Aspen Airways after the closing date. American moved for leave to file a reply, and Pilgrim Airlines moved to answer that reply. We grant the motions. Although the Board is inclined towards a transitional joint fare program in all markets, other alternatives are presented for comment. Because of the importance and complexity of the joint fare system, the Board strongly encourages interested persons to make their views known.

Joint fares relate to an interline passenger served by two or more air carriers. Section 404(a) of the Federal Aviation Act of 1958 (the Act) places a duty on air carriers to establish "joint and reasonable * * * joint * * * fares * * * and equitable divisions thereof." Under section 1002(i), the Board's powers in this area are mainly discretionary, enabling it to act whenever required by the public convenience and necessity. Before the *Domestic Passenger Fare Investigation*

(DPFI), the establishment of joint fares and the division of revenues was left to the voluntary agreement of the carriers. In Phase 4 of the *DPFI*, (Order 74–3–80, March 18, 1974), however, the Board found that a joint fare ceiling and division were required by the public convenience and necessity. In the Airline Deregulation Act of 1978, Pub. L. 95–504, (October 24, 1978), Congress required that if the CAB imposed any joint fare system, that system should be available to commuters as well as certificated carriers. In this proceeding we are considering whether the present joint fare system is still required by the public convenience and necessity.

The central issue is whether the present mandatory cost-based division should be eliminated. When a passenger flies from A to C with an interline connection at B, a joint fare may be less than the sum of the local fares. Because there is less total revenue generated by this passenger, some method of dividing the actual fare paid must be used. The two main methods of division are cost-prorate, where the fare theoretically is divided in proportion to the cost of the operations, and rate-prorate, where it is divided in proportion to the fares charged by those carriers for each leg of the trip taken separately. The two methods give the carriers different percentages of the joint fare revenue. The amount of revenue received in turn affects fares in other markets, carrier service, and investment decisions.

Currently, carriers must divide joint fares on the Board imposed cost-prorate basis.[1] The theory underlying that method is that fares do not always reflect costs. This problem is particularly severe in short-haul markets. The cost per passenger mile is generally greater on a short flight than on a long flight. In carrying out its pre-deregulation role as a promoter of air transportation the Board historically kept short-haul fares below cost to attract passengers away from alternative means of ground transportation. Because of this, the Board determined in 1974 that it would be more just to base each carrier's share of the joint fare revenue on a ratio of its *cost* to the total cost of the trip. This determination was made within a system of regulation that prevented fares from reflecting costs. Despite its label the cost division even in 1974 did not really achieve that goal. The formula in question was only a rough approximation that in many cases deviated widely from the true costs involved. Regardless of the equipment used, or the load factors achieved, the costs of air service in all markets of equal distance were assumed to be equal. Today, the formula-based joint fare division itself produces distortions in the cost picture. Under the Board's present policies the carriers largely have control of their fares, while the costs of commuter carriers which now participate in the joint fare program were never considered in establishing the cost formula. Application of the Board's method of computing and dividing joint fares can therefore generate substantially more revenue, for a short-haul carrier, from a connecting passenger than from a local passenger. This distortion of revenues can lead carriers to make investment decisions that are not based on the economic value of the market.

The mechanics of determining the cost-prorate are set forth in the DPFI. The cost formula used to determine the ratios is $24.53 per passenger plus $.0593 per mile for any trunk first class movement, and $17.52 per passenger plus $0.0358 per mile for any other trunk movement and for all local service carrier movement. For example, the joint fare offered by American Airlines and Westair Commuter Airlines between Eureka, California and Rochester, New York, via San Francisco, on December 6, 1980 was $453.33. Under the cost-prorate division formula, American would receive $359.72 for its leg of the trip, between Rochester and San Francisco, which is $30.76 less than its usual fare of $390.48 for that 2352-mile flight. Westair, on the other had, would receive $93,61,$20.28 more than its usual local fare of $73.33 for the 250-mile trip from San Francisco to Eureka. Thus, American would receive about 90 percent of its usual fare, while Westair would receive about 127 percent of its local fare.

The increased fare flexibility recently granted carriers has had a significiant effect on the amount of revenue local carriers receive from the cost-prorate division. Generally, the further above SIFL the fare charged by the long-haul partner, the greater the percentage of the local fare received by the short-haul partner. For example, in a journey consisting of a 148-mile segment and a 1000-mile segment, the short-haul carrier will receive 138.67 percent of its local fare if the long-haul carrier fare is 20 percent above SIFL. If it is 30 percent higher, the short-haul carrier will receive 149.10 percent of its local fare. See Appendix A. Thus, giving carriers greater freedom to set their own fares has increased the disparities caused by the joint fare requirements.

The current joint fare division formula was established during a period of pervasive governmental regulation of the industry. Indeed the DPFI was the zenith of Board intervention into carrier rate making and the redistribution of revenue between and among the members of the industry. Phase 4 of the DPFI was an attempt to transfer wealth from the then more highly favored trunk carriers, to the local service carriers. The latter as a group had little incentive to maximize efficiency and minimize costs and, even if they desired to do so, their efforts were blocked by a regulatory structure that generally tied them to a short hop and haul system. At the hubs they were forced to turn valuable feed traffic over to the trunks. In a system under which local carriers were second class citizens, giving them a disproportionate share of joint fare revenues as part of a program to control § 406 subsidy was a small burden to impose on the trunk carriers.

The Airline Deregulation Act changed the fundamental organization of the industry. The former local service carriers are now free to pursue aggressively any operationg strategy they choose, and the results have been dramatic. U.S. Air, Frontier, and Piedmont have expanded into longer-haul markets using the feed traffic they formerly turned over to the trunks. Republic now spans the continent in all directions. Indeed it is the majority of trunk carriers that now are losing the feed traffic and facing stiff competition on all fronts. These carriers have recently suffered through the most unprofitable year in their history.

Looking at the current situation from the trunk carriers' perspective, the present arrangement is clearly inequitable and an anomaly in the movement toward deregulation.[2] The

[1] Under a rate-prorate method, a carrier's portion of the joint fare in determined by a ratio of the actual local fare to the sum of the local fares. For example, the joint fare on a trip from Bangor, Maine to Phoenix, Arizona on December 6, 1980, was $408.57. The individual local fares were $67.62 on Bar Harbor Airlines for the Bangor to Boston leg and $360.00 on American Airlines for the Boston to Phoenix leg, totalling $427.62. $67.62 is 15.8 percent of $427.62 while $360 is 84.2 percent. The joint fare would be multiplied by these percentages to determine the amount of revenue each carrier would receive. In this case the division would be $64.55 and $344.02 respectively.

[2] Although the cost-prorate method is the cornerstone of the present joint fare system, there are important exceptions. A number of certificated carriers, including all of the major trunks, are exempted from the requirement of cost-based division if they are able to negotiate agreements with other carriers providing for divisions on another basis (Orders 79–6–196 and 80–2–35). In addition, a rate-prorate method is used where the joint fare is equal to the sum of the local fares, so that each carrier simply receives the local fare. The

Continued

trunks no longer have the monoploy over the long-haul routes that was the *quid pro quo* for the cost-prorate division. In addition, as a result of Board action in PS–92, 45 FR 24115, April 9, 1980, and in PS–98, 45 FR 70431, October 24, 1980, the short-haul operators are free to charge remunerative fares in their markets. Even where local fares must be held down to remain competitive with surface transportation, that is not a valid reason to continue intercarrier cross-subsidization. Indeed such an outcome is incompatible with our statutory responsibilities under the Airline Deregulation Act of 1978 to place maximum reliance on competitive market forces to provide efficiency, innovation, and reasonable prices, and to determine the variety, quality, and price of air transportation services.

In addition to the mandatory cost-based division, the present joint fare system also contains a fare ceiling. The fare ceiling is the second component of the joint fare system and is not directly related to division of fare revenue. Under Phase 4 of the DPFI, the maximum interline fare was the sum of the local segment fares over the least expensive routing minus a "terminal charge" for each interline connection. The ceiling, as modified by PS–80, 43 FR 39522, September 5, 1978, and PS–92, 45 FR 24115, April 9, 1980, and PS–95, 45 FR 42254, June 24, 1980, is set forth in 14 CFR 339.37(a). Today, the ceiling is equal to the sum of the maximum permissible local fares (which may be greater than the sum of the actual local fares), minus the appropriate number of "terminal charges," or the sum of the actual local unrestricted coach fare, whichever is less. The terminal charge, which on March 1, 1981, was $26.67, is updated periodically. In theory, the terminal charge corresponds to the amount saved by using one reservation transaction, one ticket, and interlining baggage, although in practice it is only a rough estimate.[3] However, the mandatory ceiling was designed to ensure a more equal treatment of *differing* classes of passengers treated unequally by the fare structure rather than to reflect any real cost saving.

Since the earliest days of commercial air transportation, individual carrier managements, for both marketing and operational reasons, generally chose to charge the same fare for nonstop, multistop, or on-line connecting service despite the fact that costs differed for each. At the same time, a passenger selecting or forced to take an interline routing frequently paid a joint fare equal to the sum of the local fares of each carrier. Under the now irrelevant DPFI fully allocated cost methodology, the cost of interline service logically was not much greater than the cost of on-line connecting service. Yet the fares often differed significantly. The Board believed that it should attempt to eliminate this apparent case of price discrimination which it recognized as being caused in large part by its own formula approach to costs and fares. In markets where a passenger had to interline the Board could see no reason why that passenger should pay more than he or she would have paid if the market had intraline service. The picture has now changed dramatically. That policy may have been justified when the lack of an on-line connection had more to do with the Board's licensing policy than with the actual economics of providing the service, but it is totally inconsistent with a regime of open entry where fares generally reflect the costs of service.

We believe that elimination of the current division forumla and mandatory ceiling would best serve the interests of the traveling public and the industry. In reaching this conclusion we have carefully looked at the costs and benefits of the current system, keeping in mind that our authority over domestic fares terminates in less than 2 years. By acting now we will have over a year to monitor the new regime and to take action if any serious problems with service arise or recommend remedial action to Congress.

Option I: Elimination of the Mandatory Joint Fare System in All Markets

Option I would eliminate the mandatory division and ceiling in all markets. The dramatic rise in the cost of fuel over the last 8 years together with changes in equipment type has altered dramatically the cost relationships in the original forumla. From 1972 to 1980, fuel expense per available seat-mile for the trunks and the local service carrier soared upward by almost 600 percent, while non-fuel expense climbed by less than 70 percent. Fuel expense affects line-haul costs more than terminal costs, so that the relationship between costs per passenger and costs per mile has changed. The relationship in the division formula, however, has not changed since 1972. The result is that the system is today even more skewed toward the short-haul operator. As shown in Appendix B, this can result in the short-haul carrier receiving revenues on interlines substantially in excess of its local fare. This cross-subsidization weakens the incentive of the short-haul carriers to operate efficiently. The longer these distortions continue the more difficult it will become for short-haul carriers to adjust when the Board's domestic fare authority sunsets on January 1, 1983.

American's petition requested elimination of both the mandatory division and the ceiling. Under the present system, the maximum joint fare for interline transportation in 14 CFR 399.37 is either the sum of the maximum permissible local fares less a terminal charge for each interline connection, or the sum of the actual fares, whichever is less. Carriers remain free to negotiate a lower joint fare. This proposal would eliminate any Board mandated joint fare ceiling in favor of free market competition. As a practical matter, joint fares would not be significantly more than the sum of the actual fares or consumers would merely buy separate tickets and forego interline service.

If this option is adopted, there is a range of possible effective dates. Because our domestic authority ends on January 1, 1983, we would be inclined to make relief effective 30 days after issuance of the final rule. However, we invite comments on other possible dates.

The effect of this proposed action on passengers would be very limited. In 1977, for instance, total interline passengers accounted for only 17 percent of total traffic carried. Even this figure overstates the number of passengers who could be affected since, in 1980, approximately 60 percent of total revenue passenger miles were flown at discount fares. To the extent that those passengers travelled on joint fares they benefited from voluntary joint fares which are below the mandatory joint fare ceiling. Moreover, many certificated carriers are already exempted from the mandatory division formula. Even in the unlikely event that fares in all markets now governed by the mandatory division and fare ceiling became the sum of locals the impact would fall primarily upon time-sensitive travelers going between communities that are generally located within a reasonable driving distance of a larger hub.

Since the number of individual consumers affected would be *de minimis*, we would not expect elimination of the program to have significantly adverse consequences for the public. Under the Act and the

---

fact that carriers exercise this option to operate outside the mandatory joint fare system is evidence that the Board's formula is not the marketplace solution.

[3] Any relationship the terminal charge might have had to ground costs has been virtually eliminated by the rapid rise in fuel prices. The SIFL adjustments have been applied equally to terminal and line-haul charges even though the bulk of the cost increases affect only the latter.

Board's fare flexibility policies, most recently set forth in PS–98, 45 FR 70431, October 24, 1980, carriers now have considerable flexibility to raise their local fares to a remunerative level, thus eliminating the need to subsidize this service through joint fares. By the same token, carriers in long-haul markets would be able to lower their fares (or mitigate fare increases), since presumably they would not agree to divide joint fare revenues under a formula in which they subsidize short-haul carriers.

The current divisions and ceiling may actually penalize an interline passenger, because many carriers covered by Phase 4 will only interline at ceiling fares. In some commuter-certificated markets, the commuter carriers will use a constructed fare to calculate the joint fare that is higher than the fare charged passengers for the local segment. For example, between Birdgeport and Hartford, Pilgrim uses a higher fare to calculate its portion of the joint fare revenue since it produces a greater total yield to both of the connecting carriers. For example, on March 10, 1981, the fare used for construction was $36.00, which is 133 percent of the local fare of $27.00. In addition, because of the cost-division formula, some joint fares are higher than they might be under a freely-negotiated system because many certificated carriers will only interline at the maximum ceiling to minimize their dilution. Because of this problem at least 14 certificated carriers refuse to interline at less than the ceiling fare except with carriers that agree to a more equitable prorate. Therefore, to benefit from the lowest fares in a variety of connecting markets consumers may have to double-ticket and transfer their own bags.

In addition to the limited and potentially positive benefit to travelers, elimination of the current rule would generate other efficiencies. First, the allocation of aircraft througout the system would no longer be skewed by the joint fare rules, especially by the subsidy inherent in the cost-prorate division formula. This subsidy encourages carriers to provide more service in certain markets, particularly the shorter-haul ones, than market forces would dictate. Correspondingly, medium and longer-haul markets may be receiving less service. The elimination of this subsidy, therefore, would have the added benefit of freeing up additional aircraft for service in those communities where air travel is the most efficient transportation mode.

In addition, section 419 of the Airline Deregulation Act directs the Board to determine the level of essential air transportation service for certain small communities and to guarantee this level of service by providing Federal subsidy where necessary. Therefore, an eligible community need not fear a loss of essential air service. From a policy standpoint, the Board believes that hidden governmental tinkering with the price system that distorts both consumer and investment decisions should be abandoned, even if direct subsidies are necessary.

Finally, the Board is aware of Congressional concern for the maintenance of a comprehensive and convenient system of scheduled air service to small communities. To promote this objective, Congress required in section 37 of the Airline Deregulation Act that commuters be included in any joint fare program uniformly applied to certificated carriers. Both before and after inclusion in the joint fare system, commuters have grown and assumed an increasingly important role in the air transportation system, especially in ensuring adequate service to small communities. Moreover, with the proposed advance of the termination date of the 406 subsidy program that is part of the President's 1982 budget package, market opportunities for commuters should expand rapidly in the next year. Indeed the Commuter Airline Association of America estimates annual growth of commuters at 10 percent a year for the next decade.[4] It does not appear that continuation of the current rule is a necessary or desirable tool for fulfilling the Congressional mandate.

The smaller carriers answering the American petition have voiced concern that if the mandatory division formula is eliminated, larger carriers will use their economic power and market dominance to force small carriers to accede to their demands. The smaller carriers argued that voluntary negotiation is impossible and that they would not get a fair share in the division.

While the Board is sensitive to the possibility of abuse, smaller carriers are far from helpless and may in fact have considerable bargaining leverage. Many smaller carriers have monopolies on feeder service to the hubs. If a hub in turn is served by a number of trunks, the trunks must compete with each other in offering reasonable terms to the short-haul carrier in order to attract that feeder traffic. Even at those hubs where there may be only one or two trunks, an attempt by those carriers to exercise their apparent market power may affect the willingness of commuters to deal with them at other more competitive hubs. The ability of many commuters to route their traffic through several hubs expands their negotiating flexibility with the long-haul carriers. Since deregulation, there has been a growing recognition among the larger carriers that promotion of feeder traffic is essential to financial performance. For example, the Allegheny commuter system has been closely tied to USAir's strong profit record. Similarly, feed has been of great importance to Delta Airlines' performance. Other carriers that do not have much feeder traffic or who have ignored it have not, in general, been doing as well.

Although the smaller carriers have some leverage, the Board recognizes that there may be inequality of bargaining power in some cases. However, after deregulation, smaller carriers will have to rely on their own innovation and efficiency, rather than governmental protection. During the interim, the Board would monitor the general performance of the industry. Any carriers that believe they have been the victim of discriminatory treatment may petition the Board for relief.

Option II: Mandatory Interlining

Under this option, which at this time is the one preferred by the Board, the cost-prorate divisions and the current mandatory ceilings would be eliminated. Existing exemptions from section 404(a) of the Act and from Phase 4 of the DPFI would be modified to require that carriers that agreed to interline with any carrier would be required to interline, upon request, with any other carrier. The two carriers would be free to negotiate the division and the joint fare level, as long as it did not exceed the sum of the local unrestricted coach fares. If the carriers were unable to agree, the joint fare would be the sum of the actual local fares, and the revenue would be divided on a rate-prorate basis.

The advantage of this option is that it retains the major benefits of the current joint fare system without placing a significant burden on unwilling carrier partners. Passengers would retain the convenience of one reservation transaction, one ticket, and through baggage handling. Because a carrier choosing to interline would have to do business with any carrier who asked for an interline agreement, these services would continue in all markets where they are currently available. In addition, by the elimination of the distorting division formula carriers might be more willing to voluntarily agree to a joint fare below the ceiling, which would

[4] Aviation Week and Space Technology, March 9, 1981.

V 46 / 106 J E 3 8 1 UMI

save passengers money over what it would cost to buy separate tickets for each leg. Indeed, fares in certain markets could go down if such mandatory interlining resulted in more competition.

We believe that most carriers would agree voluntarily to joint fares once the current division formula was abolished. This option, however, assures all commuters that they will have the right to interline with virtually all other carriers. This option may in fact result in more voluntary negotiations on both joint fare levels and divisions that would Option I.

There are some minor disadvantages to this option. In a period of decreasing regulatory oversight, we would be increasing our intrusion by extending a mandatory system to parties that are not now subject to one. See Orders 79–1–111 and 80–2–34. However, carriers like Southwest or Midway that do not interline at all would not be required to do so. Only those carriers that chose to interline would be required to offer that service to anyone. But the fare and divisions could be negotiated on a bilateral basis. There would be some added expense to carriers that were forced to enter additional interline agreements in such areas as interline accounting costs, coordinating reservations and ticketing systems, and intercarrier baggage transfer. But because of the recent advances in computerized ticketing and baggage handling procedures, these expenses should be *de minimis* when balanced against the benefit to travelers of assured access to an interline system. Moreover, the cost burden on Phase 4 carriers would be substantially less than under the current system.

Carriers that offered local single plane or connecting service in a market would not be required to subvert their own commercial interests for the sake of a carrier that wanted to interline. In such cases, the established carrier would only be required to agree to a joint fare yielding its regular local fare. The established carrier could protect its position by offering an on-line fare below the maximum joint fare and competing with attractive flight schedules and levels of service.

Option III: Continuation of the Joint Fare System in Markets Served Only by Commuter Carriers

A third alternative would be to retain the present joint fare system in all markets within the contiguous 48 States and the District of Columbia where there is no single carrier service and every reasonable interline routing includes at least one leg that is served only by commuter air carriers. "Commuter carrier" is defined in 14 CFR 298.2(f)(1) as an air taxi operator that performs at least five round trips per week between two or more points and publishes flight schedules that specify the times, days of the week, and places between which they are performed.

An interline connection is "reasonable" if it does not involve great circuity of routing. For example, a person travelling by air from Charlotte, North Carolina to Orlando, Florida would usually make a connection at Atlanta. Alternatively, the passenger could fly from Charlotte to Washington, D.C. and then on to Orlando. Such an indirect routing would involve greater time and expense. The degree of overlap in routing can be measured by a circuity factor. This circuity factor would also be a means of measuring competition because, generally speaking, the greater the circuity, the greater number of alternative routings and carriers.

In the original Phase 4 Investigation Order (Order 74–3–80, March 18, 1974, CAB DPFI Volume p. 190), a 20-percent circuity figure was used to distinguish between two different permitted maximum joint fares.[5] If the mileage over the interline routing exceeded the shortest available interline mileage between the origin and destination by more than 20 percent, the actual local fares, rather than the local fares over the shortest authorized interline routing, would be added up before subtracting the appropriate number of terminal charges to arrive at the maximum joint fare. In addition, carriers have traditionally used a 20-percent circuity test to determine whether joint fares should be set at the level of nonstop fares.

Unlike the previous alternatives, this proposal provides special benefits to a limited class of carrier. It has the advantage of eliminating the joint fare system in the markets most able to cope with the change, while retaining the present joint fare system for the communities that arguably rely most heavily on it.

The arguments in support of this alternative are, first, that it assures travelers in these markets access to the joint fare system at a reasonable price, and second, that through the division formula it can provide to commuter carriers additional revenues that can be used to expand and improve service at reasonable fares.

We believe this option has serious flaws. Option II would assure travelers the access they need without the distorting affect of the division formula and the artificial ceiling. Equally important is that the alleged benefits to the public from continuing the current program for commuters are at best short-lived. The division formula was never based on commuter carrier costs and, as pointed out, simply constitutes a windfall to the commuters. There is no evidence that these funds are used either to hold down fares or to develop service. Indeed under the current regulatory scheme it is reasonable to assume that the fares in the market will reflect demand, with or without the current divisions. To the extend that the short-haul operator gets additional revenues from the cost-prorate those revenues are compelled by the regulatory structure, which may lead to over-investment and a variety of service distortions that produce a less efficient system.

Finally, Congress never suggested that small community service should be supported through inter-carrier subsidies. The Airline Deregulation Act is intended to produce just the opposite result. The price of the service is to be based on the cost of providing it. Congress created the section 419 essential air service program in part to insure that service to points that could not support essential levels would be paid for by taxpayers out of general tax revenues, not by other users of the system and the carriers' stockholders.

Antitrust Issues

We do not anticipate that the elimination of mandatory joint fares will raise serious antitrust issues for carriers seeking to negotiate joint fares on a bilateral basis. Multi-carrier joint fare discussions appear to pose more significant antitrust problems, but we do not envision any necessity for multi-carrier discussions to maintain an efficient joint fare system. If any carriers believe that such discussions are required they should submit comments explaining both the need for and antitrust implications of group discussions. Interested persons may comment on potential antitrust impediments to bilaterally negotiated joint fares. If it appears that multi-carrier discussions are required to meet a serious transportation need we would consider granting a general temporary antitrust exemption to permit these discussions of joint fares pending a more detailed study of the issues. That exemption would be similar to the type that is currently given after a specific carrier requests discussion authority.

Any such exemption would be subject to several conditions. Written notice of

[5] These provisions were further amended by Order 78–8–152, August 25, 1978.

the meetings would have to be given at least 7 days in advance to the Board, the Department of Justice, and the United States Department of Transportation. Representatives of these agencies would be permitted to observe the discussion, and the carriers would file with the Board written minutes of the meeting within 2 weeks of the conclusion of the discussion. We are also seeking comment on a further condition that a carrier that could not participate in the interline connection involved in the joint fare or fares under discussion would be prohibited from discussing or voting on a proposal.[6] Any agreement reached concerning joint fare levels or divisions would be filed with the Board for approval. Carriers who did not meet these conditions or request Board authorization would not be given an exemption from the antitrust laws, and would be vulnerable to attack if they violated those laws.

Environment and Energy

We tentatively find that elimination of the joint fare program in some or all markets would not have a significant impact on the environment within the meaning of the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321 *et seq.*) The Board's rule in 14 CFR §312.11(a)(4) is that approving or setting carrier fares or rates normally does not require preparation of an environmental impact statement or an environmental assessment. In addition, however, we independently considered whether the elimination of joint fares has the potential to significantly affect the environment, and tentatively find that it does not. The proposed rule merely gives carriers greater freedom to negotiate joint fare levels and divisions. Although some change in service may result, we do not expect the change to be major.

In its answer to American's petition, the CAAA argued that joint fares promote fuel conservation by encouraging commuter replacement service for trunklines and the use of air travel over the automobile. Although the Board agrees that energy considerations must be weighed in the decisionmaking process, we do not think that this proposed change would be a regulatory action within the meaning of the Energy Policy and Conservation Act (42 U.S.C. 6201 *et seq.*) The joint fare program is far from being the predominant factor encouraging commuter replacement service for trunks and the use of air travel over the automobile. With the deregulation of market entry and exit, carriers can choose to leave a market. Uneconomic larger planes have been and will continue to be removed from markets where smaller planes are more efficient, with or without the present joint fare system.

Initial Regulatory Flexibility Analysis

The Regulatory Flexibility Act, Pub. L. 96-354, took effect on January 1, 1981. The Act is designed to ensure that agencies consider flexible approaches to the regulation of small businesses and other small entities. It requires regulatory flexibility analyses for rules that, if adopted, will have a significant economic impact on a substantial number of small entities.

The analysis is required to describe the need, objectives, legal basis for, and flexible alternatives to the actions proposed here. The first three requirements are met by the discussion above. Three alternative approaches are also set forth above. Other alternatives, such as updating the present division formula or substituting a mandatory rate prorate for the current cost-based division, have been considered. Because it is impossible to reflect all the cost variations of and between carriers and the markets they serve in one formula, an updated cost formula would be only a rough approximation that would be out of date almost as soon as it was completed. Attempted recalculation of the formula would place a heavy administrative burden on the Board at a time that the Board should be focusing on transition to free-market competition rather than the creation of new regulations. Adoption of a mandatory rate prorate did not seem desirable because it would not give carriers as much freedom to negotiate alternative divisions as do Options I and III.

In addition, the analysis must include a description of the small entities to which this proposal would apply, the reporting, recordkeeping or other compliance requirements of this proposed rule, and any other Federal rules that may duplicate, overlap or conflict with it. Elimination of the mandatory joint fare system will particularly affect some small communities and commuter carriers as discussed above. The proposed rule will not impose any reporting or compliance requirements. Under Options II and III, however, it my be difficult for the Board, carriers and the public in general to know exactly what markets are covered by the mandatory joint fare program at any given time. Finally, there are no other Federal rules duplicating, overlapping or conflicting with the proposal.

Accordingly, the Civil Aeronautics Board proposes to amend 14 CFR Part 399, Statements of General Policy, in one of the following ways:

Option I: Elimination of the Joint Fare Ceiling and Mandatory Division Formula

Section 399.37, *Joint fares*, would be removed.

Option II: Mandatory Interlining

In § 399.37, *Joint fares*, would be revised as follows:

§ 399.37 Joint fares.

An air carrier that agrees to interline with another air carrier in any market in the contiguous 48 States is required to interline, upon request, with any other air carrier. The carriers are free to negotiate the division and the joint fare level, as long as it does not exceed the sum of the actual local unrestricted coach fares. If the carriers are unable to agree, the joint fare shall be the sum of the actual local unrestricted coach fares and the revenue shall be divided on a rate-prorate basis.

Option III: Retain the Present Joint Fare Program for all Markets Served Only by Commuter Carriers

In § 399.37, the text that precedes paragraph (a) would be revised to read:

§ 399.37 Joint fares.

There shall be joint fares in all markets within the contiguous 48 States where there is no single-carrier service and every reasonable interline routing includes at least one leg that is served only by commuter air carriers. An interline routing is reasonable for the purpose of this section if its mileage is not more than 20 percent above the shortest available mileage. The joint fares shall be as follows:

(a) * * *

(Sec. 101, 102, 105, 204, 401, 402, 403, 404, 405, 407, 408, 409, 411, 412, 414, 416, 801, 1001, 1002, 1102, 1104, Pub. BILLING CODE 6320-01-C

Note.—In the preceding figures we assumed that joint fares were derived using a constructed fare for the commuter carrier. The commuter fare for construction purposes was assumed to be 100% of the DPFI fare formula. The following table shows the average fare and the DPFI fare formula for the appropriate distances.

October 15, 1979

	Mileage			
	56	99	148	192
DPFI fare	26.70	33.33	38.89	44.44
Average local fare	25.47	31.02	39.58	48.61
DPFI fare	34.52	40.24	46.90	52.62
Average local fare	29.63	39.72	47.56	67.46

Appendix B—*Examples of Commuter/Certificated Joint Fare Divisions, at Oct. 15, 1980*

Sector	Average distance	Joint fare case 1 [2]				Joint fare case 2 [3]			
		Average local fare [1]	Phase 4 cost prorate (pct) [2]	Joint fare [4]	Percent of local fare	Average local fare [1]	Phase 4 cost prorate (pct) [2]	Joint fare [4]	Percent of local fare
Example 1:									
Short haul	148	47.56	39.18	60.69	127.61	47.56	39.18	65.06	136.80
Long haul	500	133.72	60.82	94.22	70.46	144.86	60.82	100.99	69.72
Total	648	181.28	100.00	154.91	85.45	192.42	100.00	166.05	86.30
Example 2:									
Short haul	148	47.56	29.97	65.95	138.67	47.56	29.97	70.91	149.10
Long haul	1,000	198.85	70.03	154.09	77.49	215.42	70.03	165.70	76.92
Total	1,148	246.41	100.00	220.04	89.30	262.98	100.00	236.61	89.97

[1] Short haul fare based on the average of four randomly selected, exclusively commuter markets of 150 miles (±10 miles). Long haul fare based on SIFL in effect on 10–15–80 +$15 plus 20% flexibility, in Case 1, plus 30% flexibility in Case 2.
[2] Phase 4, cost prorate formula.
[3] Sum of SIFL authorized short leg fare +[(Long leg SIFL fare +$15) times 1.20] minus tax rounded terminal charge $25.71, Case 1. Sum of SIFL authorized short leg fare +[(Long leg SIFL fare +$15) times 1.30] minus tax rounded terminal charge $25.71, Case 2.
[4] Cost prorate.

[PSDR–71; Policy Statements Docket 38975]

Micronesia and American Samoa; Extension of Fare Flexibility; Statement of General Policy

Dated: May 14, 1981.

AGENCY: Civil Aeronautics Board.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Board is proposing to extend fare flexibility to Micronesia and American Samoa. This action is in response to a petition by Air Micronesia and Continental Air Lines.

DATES: Comments by: July 30, 1981.

Comments and other relevant information received after this date will be considered by the Board only to the extent practicable.

Requests to be put on the Service List by: June 16, 1981.

The Docket Section prepares the Service List and sends it to each person listed, who then serves comments on others on the list.

ADDRESSES: Twenty copies of comments should be sent to Docket 38975, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428. Individuals may submit their views as consumers without filing multiple copies. Copies may be examined in Room 711, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. as soon as they are received.

FOR FURTHER INFORMATION CONTACT: Joanne Petrie, Office of General Counsel, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428; 202–673–5442; or Julien R. Schrenk, Chief, Domestic Fares and Rates Division, Bureau of Domestic Aviation, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428; 202–673–5389.

SUPPLEMENTARY INFORMATION: Air Micronesia, Inc. and Continental Air Lines filed a petition on November 10, 1980 (Docket 38975), requesting the Board to extend a fare flexibility formula similar to the one contained in PS–96 (45 FR 48600, July 21, 1980) to U.S.-Micronesia and intra-Micronesia service. The economic losses in the Trust Territory operations were a major factor in the Board action permitting a 10.3 percent fare increase while this petition was pending, effective February 6, 1981. This rulemaking addresses the issues raised in the petition.

In PS–96 and PS–98 (45 FR 70431, October 24, 1980), the Board extended fare flexibility to markets in the 48 contiguous States and the District of Columbia, Puerto Rico, the Virgin Islands, Hawaii and Mainland-Alaska routes. Micronesia and American Samoa are held to SIFL fares, however, and are the only entity not covered by any fare flexibility formula. Carriers in these markets cannot obtain fare relief to cover their extraordinary fuel and operating cost increases unless full tariff justifications on statutory notice are submitted. This system is costly and cumbersome and does not give carriers flexibility needed to adjust fares to respond to changes in traffic density and operating costs. In addition, Air Micronesia/Continental argued that the SIFL, even as adjusted for inflation, does not reflect the unique conditions present in Micronesia. For example, fuel cost for Trust Territory service (excluding Japan) is much higher than fuel for domestic operations. Operating expenses are also greater because of higher flight pay for over-water flying and higher maintenance cost due to salt water corrosion and operations on short coral runways.

The U.S. Department of Interior filed an answer to the petition. It noted that air travel is virtually the only means of transportation among the major population centers of Micronesia, and that increased fares will adversely affect the development of the area and its economy. At the same time, however, Interior recognized that costs of aircraft operation have risen sharply in Micronesia. Consequently, Interior stated that it was not in a position to either oppose or support the proposal, and requested the Board to give the petition "careful and serious review before finally acting."

We proposed to grant the petition. In addition, we propose to extend fare flexibility to American Samoa. The flexibility would be the same as that recently granted to Puerto Rico and the Virgin Islands. Carriers serving Micronesia (which in this rulemaking is used in the geographic sense to include Guam) would be granted full downward, and 30 percent upward, fare flexibility relative to the adjusted SIFL level. Similarly, for scheduled certificated service within and between Micronesia and American Samoa, carriers would have flexibility to raise fares 30 percent above the SIFL. Exhibits providing economic support for this proposed action has been placed in the docket, and are available for public inspection at the Board's Washington office.

The cost per gallon of fuel in Micronesian markets averaged 42.6 percent above the price paid by the domestic trunk carriers for calendar year 1980, up from an average difference of 21.7 percent for the calendar year 1979. Thus the difference in fuel price jumped substantially during this period.

The quantity of service as reflected in the number of flights per week operated by Continental has declined 50 percent in most Trust Territory markets from 1979 to 1980. This cutback is the result of the high cost of operations. For example, Continental alleged that substantial increases in the cost of operations in recent months caused losses of $336,000 for Micronesian operations in the period from January to September 1980. Air Micronesia alleged that its inability to obtain timely fare relief along with the limited flexibility to adjust fares to correspond to traffic density and length of haul were important factors in its poor financial condition. If carriers continue to lose money in these operations over an extended period, they may be forced to implement further cutbacks in operations. Many of these points at present are receiving only minimum service. Unless we extend fare flexibility so that fares can more closely tract costs, there is a strong possibility that the Federal government will have to provide some form of subsidy to preserve essential levels of air service in that area.

The cost of operations is and has historically been significantly higher in Micronesia and American Samoa than in domestic markets. This cost disparity betrween the mainland and the Trust Territories was at its highest level in 1977, when the base fare levels were determined. Air Micronesia's and Continental's higher operating costs are therefore reflected in the present fare structure. Despite these higher fare levels, Continental suffered an operating loss there of $2.1 million from its Micronesian operations in calendar year 1977. Although the SIFI reflects some of these higher costs of providing service in Micronesia, it is only a rough approximation.

Although many of the markets in Micronesia and American Samoa are monopoly markets, there are good reasons reasons for permitting upward flexibility. In PS–96, the Board extended fare flexibility to the intra-Hawaii market although there was limited competition and high entry cost. The Board noted that carriers are now much freer to enter a market, and that in Hawaii there was no evidence that carriers were earning monopoly profits. These same factors are present in Micronesia and American Samoa, and should limit the effect of any monpoly service on fare increases. For example, 17 markets in Micronesia are currently priced below SIFL. According to the petitioners, some, such as Guam-Majuro, are intermediate markets between Guam and Honolulu and are influenced by the Honolulu-Guam fare. Others, such as Majuro-Yap, may require a one- or two-night layover in Guam due to the scheduling of the aircraft and cannot command a higher fare. In any event, carriers will have full fare freedom after December 31, 1982, and we believe that limited fare flexibility now will provide a useful transition to deregulation.

Equity considerations also point to the extension of fare flexibility to Micronesia and American Samoa. Most other markets under the Board's oversight have been given significant flexibility, while Micronesia and American Samoa have been held to rigid, government-mandated fare levels without a compelling reason for the distinction. Fare flexibility was extended to most of the other entities in order to give carriers greater ability to tailor their fares to traffic density, length of haul, quality and convenience of service, and any other factors that affect whether a passenger will fly. As in domestic markets, we believe that carriers, and not the government, are in the best position to assess the relative weight of those factors and the effect they should have on the fare level.

Initial Regulatory Flexibility Analysis

The Regulatory Flexibility Act, Pub. L. 96–354, took effect on January 1, 1981. The Act is designed to ensure that agencies consider flexible approaches to the regulation of small businesses and other small entities. It requires regulatory flexibility anslyses for rules that, if adopted, will have a significant economic impact on a substantial number of small entities.

The analysis is required to describe the need, objectives, legal basis for, and flexible alternatives to the actions proposed here. The first three requirements are met by the discussion above. The alternative approaches are to retain the present fare structure or to use some other flexibility formula. Our proposal would make the Board's fare structure uniform in virtually all markets.

In addition, the analysis must include a description of the small entities to which this proposal would apply, the reporting, recordkeeping or other compliance requirements of this proposed rule, and any other Federal rules that may duplicate, overlap or conflict with it. Commuter carriers such as Trans Micronesia and South Pacific Island Airways would benefit by the increased flexibility to tailor fares to costs in each particular market. The proposed rule would not impose any reporting, recordkeeping, or compliance requirements. There are no other Federal rules duplicating, overlapping or conflicting with the proposal.

Accordingly, the Civil Aeronautics Board proposes to amend 14 CFR Part 399, *Statements of General Policy*, as follows:

1. Paragraphs (a)(2) and (d)(2) of § 399.32, *Zone of limited suspension for domestic passenger fares*, would be revised to read as follows:

§ 399.32 Zone of limited suspension for domestic passenter fares.

(a) * * *

(2) Between the Mainland and Puerto Rico, the Virgin Islands, Hawaii, Alaska, Micronesia and American Samoa.

* * * * *

(d) * * *

(2) For service between the Mainland and Puerto Rico, the Virgin Islands, Hawaii, Alaska, Micronesia, or American Samoa: Up to 30 percent above the SIFL.

* * * * *

2. Section 399.34 would be retitled to read, *Intra-Hawaii, Intra-Puerto Rico/ Virgin Islands and Intra-Micronesia/ American Samoa fare flexibility*, and the introductory text and paragraph (a) would be revised to read as follows:

§399.34 Intra-Hawaii, Intra-Puerto Rico/ Virgin Islands and Intra-Micronesia/ American Samoa fare flexibility.

For scheduled service within Hawaii, within and between Puerto Rico and the Virgin Islands or within and between Micronesia and American Samoa, certificated air carriers have the fare flexibility set forth in §§ 399.32 and 399.33, except that—

(a) Instead of the limits set forth in § 399.32(d), the upper limit of the zone for Puerto Rico/ Virgin Islands and Micronesia/American Samoa is 30 percent above the SIFL, and for Hawaii is 30 percent above the SHFL, and

BILLING CODE 6320-01-M

INTERNATIONAL TRADE COMMISSION

19 CFR Part 200

Agency Ethics Rules; Amendment

AGENCY: International Trade Commission.

ACTION: Notice of proposed rule.

SUMMARY: In order to promote the orderly and efficient conduct of its investigations, the Commission proposes to amend its ethics regulations to allow employees to accept ground transportation in kind, of nominal value, in the course of investigative field trips, from representatives of the industry being investigated.

DATE: Comments must be received by July 15, 1981.

ADDRESS: Comments may be submitted to Michael H. Stein, General Counsel, USITC Ethics Counselor, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436.

FOR FURTHER INFORMATION CONTACT: Michael B. Jennison, Esq., Deputy Ethics Counselor, Office of the General Counsel, 701 E Street NW., Washington, D.C. 20436, 202-523-0350.

SUPPLEMENTARY INFORMATION: Executive Order 11222, 3 CFR 306 (1965 Compilation), prohibits Government employees from soliciting or accepting anything of monetary value from any person or corporation that conducts operations or activities regulated by his or her agency, or that has interests that may be substantially affected by performance or nonperformance of official duty. The Order provides, however, that "[A]gency heads are authorized to issue regulations * * * to provide for such exceptions therein as may be necessary and appropriate in view of the nature of their agency's work and the duties and responsibilities of their employees." The order specifies that agency heads may, for example, permit acceptance of food and other refreshments in the ordinary course of luncheon meetings or on inspection tours. The Commission has long included this exception in its ethics rules. 19 CFR 200.735-105(b)(2).

The Commission now proposes to alter this exception to allow employees to accept ground transportation of nominal value during the course of investigative field trips. From time to time Commissioners and investigative staff members have need to visit production or manufacturing facilities, distribution centers, or offices of participants in Commission investigations. Field trips are an invaluable, cost-effective adjunct to hearings, questionnaires, and other data gathering methods in helping the Commission gauge the economic impact of imports on domestic industries. Occasionally in the course of field trips, scheduling is tight, the investigator is pressed for time, and the office or facility to be visited is not convenient to public tranportation. Allowing employees to accept, for example, a ride in a company car or van from a suburban plant to the airport at the conclusion of an inspection tour may allow more time to see the facility and question officials—perhaps even continuing en route—and avoid the awkward problem of reimbursing the company for the value of the transportation. The Commission feels this is a necessary and appropriate exception to the general prohibition and that no possible appearance of conflict of interest can arise from it. It will apply equally to field trips to facilities of any participant in an investigation; the employee receives nothing of personal value because any transportation expense incurred would be reimbursed by the government; and conversations en route, subject to all *ex parte* rules and investigative record-keeping requirements, are no different in character from any conducted in plants and offices or during luncheon meetings.

The U.S. International Trade Commission proposes to amend 19 CFR § 200.735-105 by revising paragraph (b)(2) to read as follows:

§ 200.735-105 Gifts, entertainment, and favors.

(a) Except as provided in paragraph (b) of this section, no employee may solicit or accept * * * any gift * * * or any other thing of monetary value from any person who:
* * * * *

(2) Conducts operations or activities that are being investigated by the Commission * * *.

(b) The prohibitions set forth under paragraph (a) of this section shall not apply to:
* * * * *

(2) The acceptance of food and refreshments of nominal value on infrequent occasions in the ordinary course of a luncheon or dinner meeting or other meeting or on a field trip, *and of ground transportation of nominal value in the course of a field trip,* where an employee may properly be in attendance.
* * * * *

Issued: May 27, 1981.
Kenneth R. Mason,
Secretary.

BILLING CODE 7020-02-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 67

[Docket No. FEMA-6033]

Proposed Flood Elevation Determinations for the Town of Fircrest, Pierce County, Washington Under the National Flood Insurance Program

AGENCY: Federal Insurance Administration, FIA.

ACTION: Correction of proposed rule.

SUMMARY: This document corrects a proposed rule on base (100-year) flood elevations that appeared on April 20, 1981 at 46 FR 22623.

EFFECTIVE DATE: April 20, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, National Flood Insurance Program, (202) 755-5585, Federal Emergency Management Agency, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: Proposed base (100-year) flood elevations are listed below for selected locations in the Town of Fircrest, Washington, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 44 CFR 67.4(a)).

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The notice published on April 20, 1981 at 46 FR Page 22623, showing the following:

Source of flooding	Location	#Depth in feet. *Elevation in feet NGVD
Leach Creek	Intersection of Drake Street (38th Street West) and El Dorado Avenue.	#196

Should be corrected to read:

Source of flooding	Location	*Elevation, feet, national geodetic vertical datum
Leach Creek	Intersection of Drake Street (38th Street West) and El Dorado Avenue.	*196

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001–4128) Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator)

Issued: May 21, 1981.

Richard W. Krimm

Acting Administrator, Federal Insurance Administration.

[FR Doc. 81-16503 Filed 6-2-81; 8:45 am]

BILLING CODE 6718-03-M

44 CFR Part 67

[Docket No. FEMA-5979]

National Flood Insurance Program; Proposed Flood Elevation Determinations; Correction

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule; correction.

SUMMARY: This document corrects a Notice of Proposed Determinations of base (100-year) flood elevations for selected locations in the Town of Gray, Cumberland County, Maine, previously published at 46 FR 10764 on February 4, 1981.

EFFECTIVE DATE: June 3, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, Federal Emergency Management Agency, Federal Insurance Administration, National Flood Insurance Program, (202) 755–5585, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the correction to the Notice of Proposed Determinations of base (100-year) flood elevations for selected locations in the Town of Gray, Cumberland County, Maine, previously published at 46 FR 10764 on February 4, 1981, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448)), 42 U.S.C. 4001–4128, and 44 CFR 67.4(a).

In order for the following locations to be correctly identified with the Town of Gray, Maine, Flood Insurance Study (profiles) and Rate Maps, the distances in selected location descriptions should be amended as follows. The remainder of the Notice of Proposed Base Flood Elevations was correct as published.

Source of flooding	Location	Elevation in feet national geodetic vertical datum
College Brook	Approximately 200' upstream of Woods Road.	222
	Approximately 1,250' upstream of Woods Road.	230
	Approximately 2,500' upstream of Woods Road.	240
	Approximately 3,800' upstream of Woods Road.	250
	Approximately 4,200' downstream of State Route 26.	259
	Approximately 2,900' downstream of State Route 26.	269
	Approximately 1,650' downstream of State Route 26.	279

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001–4128); Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator)

Issued: May 22, 1981.

44 CFR Part 67

[Docket No. FEMA-6005]

National Flood Insurance Program; Proposed Flood Elevation Determinations; Correction

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule; correction.

SUMMARY: This document corrects a Notice of Proposed Determinations of base (100-year) flood elevations for selected locations in the City of Marlborough, Middlesex County, Massachusetts, previously published at 46 FR 15290 on March 5, 1981.

EFFECTIVE DATE: Date of this publication.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, Federal Emergency Management Agency, Federal Insurance Administration, National Flood Insurance Program, (202) 755–5585, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the correction to the Notice of Proposed Determinations of base (100-year) flood elevations for selected locations in the City of Marlborough, Middlesex County, Massachusetts, previously published at 46 FR 15290 on March 5, 1981, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448)), 42 U.S.C. 4001–4128, and 44 CFR 67.4(a).

Due to a clerical error, the location description listed as approximately 100† downstream of Maple Street, under the Source of Flooding of Walker Brook, should be amended to read approximately 350† downstream of Maple Street. The corresponding elevation, Flood Insurance Study (profile), and Rate Map were correct as published.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001–4128); Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator)

Issued: May 19, 1981.

44 CFR Part 67

[Docket No. FEMA-6033]

National Flood Insurance Program; Revision of Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed

below for selected locations in the Township of Franconia, Montgomery County, Pennsylvania.

Due to recent engineering analysis, this proposed rule revises the proposed determinations of base (100-year) flood elevations published in the *Souderton Independent* on April 8, 1981, and April 15, 1981, and in the **Federal Register** at 46 FR 22621 on April 20, 1981, and hence supersedes those previously published rules.

DATE: The period for comment will be ninety (90) days following the second publication of this notice in a newspaper of local circulation in each community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at the Township Building, Allentown Road, Franconia, Pennsylvania.

Send comments to: Honorable Merrill H. Bergey, Chairman of the Franconia Board of Supervisors, P.O. Box 128, Franconia, Pennsylvania 18924.

FOR FURTHER INFORMATION CONTACT:
Mr. Robert G. Chappell, Federal Emergency Management Agency, Federal Insurance Administration, National Flood Insurance Program, (202) 755–5585, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: Proposed base (100-year) flood elevations are listed below for selected locations in the Township of Franconia, Montgomery County, Pennsylvania, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448)), 42 U.S.C. 4001–4128, and 44 CFR 67.4(a).

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations are:

Source of flooding	Location	Depth in feet above ground. National geodetic vertical datum
East Branch	Downstream Corporate Limits.	219
Perkiomen Creek	Dam (upstream side) located approximately 2,200 feet upstream from corporate limits.	234
	Fretz Road bridge (upstream side).	234
	Camp Road bridge (upstream side).	243
	Allentown Road bridge (upstream side).	257
	Dam (upstream side) located approximately 4,700 feet upstream from Allentown Road bridge.	268
	Upstream corporate limits and County Line Road bridge (downstream side).	276
Shippack Creek	Downstream corporate limits.	226
	Approximately 2,400 feet upstream from Schoolhouse Road.	236
	Allentown Road bridge (upstream side).	253
	Approximately 2,850 feet upstream from Allentown Road bridge.	263
	Cowpath Road bridge (upstream side).	278
	Upstream corporate limits	313
Indian Creek	Downstream corporate limits.	225
	Orchard Lane Road bridge (upstream side).	236
	Long Mill Road bridge (upstream side).	247
	Approximately 1,000 feet downstream from Clemens Road bridge.	250
	Clemens Road bridge (downstream side).	255

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001–4128); Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator)

Issued: May 26, 1981.

BILLING CODE 6718-03-M

---

44 CFR Part 67

[Docket No. FEMA 6071]

National Flood Insurance Program Proposed Base Flood Elevations, Zone Designations and Delineations for the Town of Montague, Mass.

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base flood elevations, zone designations and delineations described below.

The proposed base flood elevations, zone designations and delineations will be the basis for the floodplain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in the newspaper of local circulation in the above-named community.

ADDRESSES: Map and other information showing the detailed outlines of the floodprone areas and the proposed base flood elevations, zone designations and delineations are available for review at the Selectmen's Office, Turners Falls, Massachusetts.

Send comments to: Mr. Walter Garbriel, Chairman, Board of Selectmen, Town of Montague, Town Hall, One Avenue A, Turners Falls, Massachusetts 01376.

FOR FURTHER INFORMATION CONTACT:
Mr. Robert G. Chappell, P.E., Acting Assistant Administrator, Program Implementation and Engineering Office, National Flood Insurance Program, 451 Seventh Street, S.W., Washington, D.C. 20410, (202) 755–6570.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed base flood elevations, zone designations and delineations (100-year-flood) for the Town of Montague, Massachusetts in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448), 42 U.S.C. 4001–4128, and 44 CFR 67.4 (a) (presently appearing at its former Section, 24 CFR 1917.4(a)).

The base flood elevations, zone designations and delineations together with the floodplain management measures required by Section 60.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State or regional entities. The proposed base flood elevations, zone

designations and delineations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed 100-year flood elevations and zone designations for selected locations are:

Source of flooding	Location	Elevation (feet)	Zone
Millers River	250 feet downstream of Bridge Street	223 feet NGVD	A5
Millers River	Between Bridge Street and Main Street	225 to 234 feet NGVD.	A5

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Adminstrator.)

Issued: May 18, 1981.

[Docket No. FEMA 6070]

National Flood Insurance Program Proposed Changes to the Special Flood Hazard Areas, Decreased Base Flood Elevations, and Changes to Zone Designations for the Town of New Milford, Conn. (Litchfield County)

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed changes to the special flood hazard areas, decreased base flood elevations and changes to zone designations described below.

The proposed changes to the special flood hazard areas, decreased base flood elevations and changes to zone designations will be the basis for the floodplain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in the newspaper of local circulation in the above-named community.

ADDRESSES: Map and other information showing the detailed outlines of the floodprone areas and the proposed changes to the special flood hazard areas, decreased base flood elevations and changes to zone designations are available for review at the First Selectman's Office, New Milford, Connecticut.

Send comments to: The Honorable Clifford Chapin, First Selectman, Town of New Milford, Town Hall, 10 Main Street, New Milford, Connecticut 06776.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, P.E., Acting Assistant Administrator, Program Implementation and Engineering Office, National Flood Insurance Program, 451 Seventh Street, S.W., Washington, D.C. 20410 (202) 755–6570.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed changes to the special flood hazard areas, decreased base flood elevations and changes to zone designations for the Town of New Milford, Connecticut in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448), 42 U.S.C 4001–4128, and 44 CFR 67.4 (a) (presently appearing at its former Section, 24 CFR 1917.4 (a))).

The proposed changes to the special flood hazard areas, decreased base flood elevations and changes to zone designations together with the floodplain management measures required by Section 60.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State or regional entities. The proposed changes to the special flood hazard areas, decreased base flood elevations and changes to zone designations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed changes to the special flood hazard areas, decreased base flood elevations and changes to zone designations for selected locations are:

Source of flooding	Location
Housatonic River	Area north of Kent Road
Still River	Area west of Pumpkin Hill Road
Great Brook	Area north of Mill Street
East Aspetuck	Area northwest of Westville Avenue and north of Housatonic Avenue
West Aspetuck	Area west of Aspetuck Road

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator.)

Issued: May 26, 1981.

BILLING CODE 6718-03-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

45 CFR Part 71

HHS Day Care Regulations

AGENCY: Office of the Secretary, HHS.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Department of Health and Human Services is proposing to postpone the effective date of its child day care regulations until January 2, 1982, and to require that applicable State and local standards be met for Federal funding of child day care services provided from July 1, 1981 until January 2, 1982.

DATE: Comments are requested by June 24, 1981. The Department believes this comment period, which is shorter than that which the Department would ordinarily provide, is warranted to enable the Department to take final action on or about July 1, 1981, when the present mandate establishing the application of State and local standards to most HHS-funded day care will expire. Agencies or organizations are requested to submit their comments in duplicate.

ADDRESS: Send written comments to: Day Care Division, Room 5754, 400 6th Street, S.W., Washington, D.C. 20013. Comments will be available for public inspection in Room 5754 of the Donohoe Building, 400 6th Street, S.W., Washington, D.C., on Monday through Friday of each week from 8:30 a.m. to 5:00 p.m.

FOR FURTHER INFORMATION CONTACT: Allen N. Smith, 202–755–8774.

SUPPLEMENTARY INFORMATION: On March 19, 1980, based in part upon the statutory authority contained in Section 2002(a)(9) of the Social Security Act, which authorizes the Secretary to establish requirements for day care services, the Department published final regulations setting forth conditions that day care services provided to children outside their own homes must meet in order to qualify for HHS funds. 45 FR 17870; Corrected 45 FR 46808 (July 11, 1980) and 45 FR 54765 (August 18, 1980).

These regulations replaced the modified version of 1968 Federal Interagency Day Care Requirements (FIDCR) which formerly applied to most HHS-funded day care. Most of the provisions of the new regulations were to become effective October 1, 1980, with the remaining provisions to become effective on April 1, 1981. 45 CFR 71.66. However, Congress postponed implementation of the regulations. The October 1, 1980 continuing resolution, providing appropriations for the first 10 weeks of FY 1981, included a provision (Section 124 of Pub. L. 96–369) prohibiting the Department from using funds under the continuing appropriation to:

> Implemen(t) requirements imposed by section 2002(a)(9) of the Social Security Act or by any regulations promulgated by the Department to carry out this section, to the extent that such requirements would not otherwise be applicable under State or local law.

By its terms, the continuing appropriation, including this provision, was to remain in effect until December 15, 1980 or until the passage of a subsequent appropriation, whichever came first. However, prior to the expiration of the continuing resolution, Congress took additional steps to delay the imposition of the new Federal day care requirements. Section 1001 of the Omnibus Reconciliation Act of 1980, enacted on December 5, 1980 (Pub. L. 96–499), added a new subparagraph (D) to Section 2002(a)(9) of the Social Security Act, providing that:

> The requirements imposed by this paragraph [§ 2002(a)(9)] or by any regulations promulgated by the Department of Health and Human Services to carry out this paragraph shall be inapplicable to child day care services provided after June 30, 1980, and prior to July 1, 1981, which meet applicable standards of State and local law.

As of July 1, 1981, the provisions of Section 2002(a)(9) again apply. As a result, the requirements of Section 2002(a)(9)(A)(ii) again become effective, subject to modifications made by the Secretary pursuant to Section 2002(a)(9)(B). The Department's March 1980 day care regulations were published under the authority of Section 2002(a)(9)(B), and absent any further action by the Secretary, would become effective on July 1, 1981.

However, the Administration has recently proposed legislation (the "block grant" proposals) which, if enacted, will eliminate the statutory basis for this type of Federal regulation of day care services. Given the possibility that this legislation will be enacted, the Department believes it is appropriate to maintain the day care standards which are currently in effect, for a six month period beyond June 30, 1981, in order not to impose potentially costly implementation burdens on the States pending enactment of the legislation or further review of the March, 1980 regulations. This action will also give the Department and the Congress sufficient time to review the results of each State's assessment of current practices in day care programs funded under Title XX. (Under Section 1001(c) of the Omnibus Reconciliation Act of 1980 (Pub. L. 96–499), the Department is required to assist each State in conducting a systematic assessment of current practices in day care programs funded under Title XX of the Social Security Act and to provide a summary report of the results of such assessments to the Congress.)

Proposal

For the reasons described above, the Department proposes to:

(1) Postpone the effective date of the HHS March 1980 Day Care Regulations until January 2, 1982; and

(2) Require that, as a condition of federal financial assistance during this period, day care services provided to children outside their own homes and funded under the programs listed below meet applicable local and State standards.

The following HHS-assisted programs are covered by this proposal:

(1) In the Social Security Act:

(i) Title IV–A (Social Services to Guam, Puerto Rico, the Virgin Islands, and the Northern Marianas; and the Work Incentive Program (WIN)).

(ii) Title IV–B (Child Welfare Services).

(iii) Title XX (Social Services);

(2) The Mental Retardation Facilities and Community Mental Health Centers Construction Act of 1963;

(3) The Developmental Disabilities Services and Facilities Construction Act of 1970;

(4) The Developmentally Disabled Assistance and Bill of Rights Act of 1975 (Developmental Disabilities Special Projects).

Regulatory Flexibility Act

The Secretary certifies that this proposed regulation will not have a significant impact on a substantial number of small entities.

Day care centers and homes have been meeting State and local standards as a condition for receipt of Federal financial participation since June 30, 1980. This proposed regulation would continue these standards in effect until January 2, 1982.

Executive Order 12291

Since this proposed regulation would continue the State and local standards already in effect, it is considered a non-major regulation under Executive Order 12291, and a regulatory impact analysis is not required.

Authority

Section 2002(a)(9)(B) of the Social Security Act; 42 USC 1397a(a)(9)(B).

Dated: June 1, 1981.

Dorcas R. Hardy,

Assistant Secretary for Human Development Services.

Approved: June 1, 1981.

Richard S. Schweiker,

Secretary.

BILLING CODE 4110–92–M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 661

Gulf of Mexico Fishery Management Council; Public Hearings

AGENCY: National Oceanic and Atmospheric Administration/DOC.

ACTION: Notice of Public Hearings.

SUMMARY: The Gulf of Mexico Fishery Management Council will hold public hearings for the purpose of public input on Amendment Number 1 to the fishery management plan (FMP) for the shrimp fishery of the Gulf of Mexico.

DATES: Written comments on the amendment from members of the public may be submitted no later than August 15, 1981.

Individuals or organizations wishing to comment on the amendment may do so at public hearings to be held as follows:

June 22, 1981—Corpus Christi, Texas.
June 23, 1981—Fort Myers, Florida.

All of the above hearings will start at 7:00 p.m. and adjourn at 10:00 p.m.

The hearings will be tape recorded and the tapes will be filed as an official transcript of the proceedings. A written summary will be prepared on each hearing.

ADDRESS: Send comments to: Chairman, Gulf of Mexico Fishery Management Council, Lincoln Center, Suite 881, 5401 West Kennedy Boulevard, Tampa, Florida 33609.

Public Hearing Locations:

June 22, 1981—Texas A&M Research and Extension Center, Highway 44, Corpus Christi, Texas.
June 23, 1981—Ramada Inn, 2220 West First Street, Fort Myers, Florida.

FOR FURTHER INFORMATION CONTACT: Wayne E. Swingle, Executive Director, Gulf of Mexico Fishery Management Council, Lincoln Center, Suite 881, 5401 West Kennedy Boulevard, Tampa, Florida 33609. Telephone (813) 228–2815.

SUPPLEMENTARY INFORMATION: The hearings will deal with a proposal to amend the shrimp FMP in the Gulf of Mexico, under authority of the Magnuson Fishery Conservation and Management Act.

The fishery management plan for shrimp in the Gulf of Mexico is based largely on the premise that restraint of the harvest of small shrimp until they reach a more optimum size will produce more pounds of shrimp and a greater total value. To accomplish this the Council established a closed area in the fishery conservation zone (FCZ) off Florida inhabited by small pink shrimp. A seasonal closure for brown shrimp in the FCZ off Texas was provided to protect a mass migration of small shrimp until they reach a larger size and provide a greater biomass. Both closures correspond to closures established in the territorial seas of the adjacent states.

The Council, through the Southeast Fisheries Center of National Marine Fisheries Service (NMFS), is monitoring to identify the effect of the closures which became effective in May 1981.

This amendment directs the Regional Director of NMFS to review research findings each year and authorizes him to adjust the regulations in accordance with findings and plan objectives. He is to publish annually his intent to take action or not to take action as provided. Lead time to make the change through plan and regulation amendments presently requires about 280 days. The proposed amendment will provide for a flexible procedure within the plan to allow for future regulatory amendment if needed within about 120 days. The shorter time period for regulation change would allow correction of any undue hardship to participants in the fishery before the following season.

Dated: May 29, 1981.

Robert K. Crowell,

Deputy Executive Director, National Marine Fisheries Service.

Notices

Federal Register
Vol. 46, No. 106
Wednesday, June 3, 1981

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Forest Service

Mill Creek and Mountain Lake Wilderness Study Areas; Hearing Announcement

Notice is hereby given that public hearings will be held to consider proposals for future management of the Mountain Lake and the Mill Creek Wilderness Study Areas in the States of Virginia and West Virginia. The Mountain Lake Wilderness Study Area is comprised of approximately 11,827 acres within the Jefferson National Forest, Craig and Giles Counties in the State of Virginia, and Monroe County in West Virginia; while the Mill Creek Wilderness Study Area includes approximately 4,000 acres within the Jefferson National Forest in Giles County, Virginia.

Hearing dates and locations are as follows: July 22, 1981 at 7:30 p.m. in the auditorium of the Forest Sciences Laboratory, Princeton, West Virginia, to consider the Mountain Lake Wilderness Study Area proposal.

July 23, 1981 at 7:30 p.m. at Giles County High School, Pearisburg, Virginia, to consider both the Mill Creek and the Mountain Lake Wilderness Study Areas proposals.

Maps of the study areas and information about the proposals may be obtained from the Forest Supervisor, Jefferson National Forest, 210 Franklin Road, SW, Roanoke, Virginia 24001.

Individuals and organizations may express their views by appearing at these hearings, or by submitting written comments for inclusion in the official record to the Forest Supervisor, Jefferson National Forest, 210 Franklin Road SW, Roanoke, Virginia 24001. To be included in the official record, written comments must be received by August 24, 1981.

Dated: May 27, 1981.

R. Max Peterson
Chief.

BILLING CODE 3410-11-M

Soil Conservation Service

Capital RC&D Area Critical Area Treatment Measures, Louisiana

AGENCY: Soil Conservation Service, U.S. Department of Agriculture.

ACTION: Notice of a finding of no significant impact.

FOR FURTHER INFORMATION CONTACT: Mr. Alton Mangum, State Conservationist, Soil Conservation Service, 3737 Government Street, Alexandria, Louisiana 71301, telephone 318-473-7751.

NOTICE: Pursuant to Section 1022(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that environmental impact statements are not being prepared for the Capital RC&D Area Critical Area Treatment Measures in Ascension, Assumption, East Baton Rouge, Iberville, Livington, Pointe Coupee, St. Helena, St. Tammany, Tangipahoa, and West Baton Rouge Parishes, Louisiana.

The environmental assessment of these federally assisted actions indicates that the projects will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. Alton Mangum, State Conservationist, has determined that the preparation and review of environmental impact statements are not needed for these projects.

The measures concern plans for reduction of damage by gully and rill erosion and the resulting sediment deposition. The planned works of improvement include pipe drops, diversion, critical area planting, fencing, and grassed waterways.

The Notice of a Finding of No Significant Impact (FNSI) has been forwarded to the Environmental Protection Agency. The basic data developed during the environmental assessment are on file and may be reviewed by contacting Mr. Alton Mangum. The FNSI has been sent to various Federal, State, and local agencies and interested parties. A limited number of copies of the FNSI are available to fill single copy requests at the above address.

Implementation of the proposal will not be initiated until 30 days after the date of this publication in the **Federal Register**.

ACTION: Notice of a finding of no significant impact.

FOR FURTHER INFORMATION CONTACT: Mr. Alton Mangum, State Conservationist, Soil Conservation Service, 3737 Government Street, Alexandria, Louisiana 71301, telephone 318–473–7751.

NOTICE: Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that environmental impact statements are not being prepared for the Twin Valley RC&D Area Critical Area Treatment Measures in Caddo, De Soto, Natchitoches, Red River, Sabine, and Vernon Parishes, Louisiana.

The environmental assessment of these federally assisted actions indicates that the projects will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. Alton Mangum, State Conservationist, has determined that the preparation and review of environmental impact statements are not needed for these projects.

The measures concern plans for reduction of damage by gully and rill erosion and the resulting sediment deposition. The planned works of improvement include pipe drops, diversion, critical area planting, fencing, and grassed waterways.

The Notice of a Finding of No Significant Impact (FNSI) has been forwarded to the Environmental Protection Agency. The basic data developed during the environmental assessment are on file and may be reviewed by contacting Mr. Alton Mangum. The FNSI has been sent to various Federal, State, and local agencies and interested parties. A limited number of copies of the FNSI are available to fill single copy requests at the above address.

Implementation of the proposal will not be initiated until July 6, 1981.

(Catalog of Federal Domestic Assistance Program No. 10.901, Resource Conservation and Development Program. Office of Management and Budget Circular No. A–95 regarding State and local clearinghouse review of Federal and federally assisted programs and projects is applicable)

Dated: May 26, 1981.

Joseph W. Haas,

Deputy Chief for Natural Resource Projects.

BILLING CODE 3410–16–M

CIVIL AERONAUTICS BOARD

[Docket No. 35634; Agreement C.A.B. 28493; Order 81–5–125]

Agreement Adopted by the Tariff Coordinating Conferences of the International Air Transport Association Relating to North Atlantic Cargo Rates

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 22nd day of May 1981.

Order

An agreement among various members of the International Air Transport Association (IATA) has been filed with the Board under section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations. The agreement was adopted at a Cargo Tariff Coordinating Conference held in Geneva in April 1981, and proposes increases in cargo rates from Europe to the United States, effective July 1, 1981.

The agreement would generally increase cargo rates from Europe to the United States by five U.S. cents per kg. (or six percent in the case of flat container rate charges), or by European local currency amounts which approximate $0.05 at current market exchange rates.[1]

Order 81–3–152, March 26, 1981, approved, subject to conditions, an IATA agreement establishing a new cargo rate structure from the United States to Europe, which incorporated increases of about 12–14 percent. As noted in that order, IATA is attempting to develop a westbound rate structure, and the instant agreement represents an interim step in that process.

The same considerations which led us to conclude in Order 81–3–152 that the U.S.-Europe rate agreement fell within

[1] There are numerous exceptions to the general increase proposed. The increase would not apply to rates from France, Portugal, Spain and Yugoslavia, to many specific commodity rates from Ireland, or to rates for bulbs and horses from the Netherlands. For rates from Italy and Switzerland, and many general cargo rates from the United Kingdom, the increase would not come into effect until October 1, 1981.

ratemaking standards apply with equal force to the westbound rate agreement now before us, and we will approve it subject to the same conditions.

Acting under the Federal Aviation Act of 1958, as amended, and particularly sections 102, 204(a), 412 and 414:

1. We do not find the following resolution, incorporated in the agreement indicated, to be adverse to the public interest or in violation of the Act provided that approval is subject to the conditions stated below:

Agreement	IATA No.	Title	Application
C.A.B. 28493..	001mm....	North Atlantic Special Effectiveness Resolution USA-Europe.	1/s

Provided that:

(1) Notwithstanding any provisions of this or any other resolution, all rates and charges established pursuant to this resolution with respect to any United States point shall be maximums;

(2) Each and every carrier operating pursuant to this resolution shall be permitted to file tariffs incorporating rates/or charges below those established by the resolution; and

(3) The IATA Secretariat shall send the Board copies of all notices received or sent pursuant to the resolution.

2. We will grant antitrust immunity to Agreement C.A.B. 28493. This agreement is a product of the IATA conference machinery which the Board conditionally approved and immunized for a period of two years in Order 81–5–27, May 6, 1981, Docket 32851. In keeping with that order, we will continue to grant antitrust immunity to those IATA agreements found not be be adverse to the public interest or in violation of the Act.

Accordingly,

We approve Agreement C.A.B. 28493 subject to the conditions stated above.

We shall publish this order in the **Federal Register**.

By the Civil Aeronautics Board:

Phyllis T. Kaylor,[1]

Secretary.

[FR Doc. 81–16521 Filed 6–2–81; 8:45 am]

BILLING CODE 6320–01–M

[Docket No. 39470; Order 81–5–130]

Eastern Air Lines, Inc.; Order Granting Exemption

Issued under delegated authority, May 26, 1981.

On May 20, 1980, Eastern Air Lines, Inc. filed an amendment to its original application for an exemption from Section 403 of the Federal Aviation Act of 1958 and Parts 221 and 223 of our regulations to the extent necessary to provide free transportation on a space-available basis for up to 300 persons, former prisoners of war in Vietnam/members of the NAM POW's, Inc. (plus their wives) to attend their national convention. Eastern's amendment includes not only Vietnam veterans, but in addition, spouse or one other family member in lieu of spouse.[1]

We find that the reasons given by the carrier supporting this request are consistent with the criteria we have previously found necessary to approve this type of exemption, and the exemption is consistent with the public interest, and therefore it will be approved. We will also extend this amendment to all other interested U.S. air carriers.

Accordingly, acting under authority delegated by the Board in the Board's Regulations, 14 CFR 385.16,

1. We exempt all U.S. air carriers from the provisions of Section 403 of the Federal Aviation Act of 1958, and Parts 221 and 223 of the Board's Economic Regulations, insofar as the enforcement of Section 403 and Parts 221 and 223 would prevent them from providing the free transportation as described herein in this amendment.

2. We will serve a copy of this order on all U.S. air carriers.

Persons entitled to petition the Board for review of this order pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order will be effective immediately and the filing of a petition for review shall not preclude its effectiveness.

This order will be published in the **Federal Register**.

Phyllis T. Kaylor,

Secretary.

DEPARTMENT OF COMMERCE

International Trade Administration

Georgia Institute of Technology; Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 A.M. and 5:00 P.M. in Room 3109 of the Department of Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

Docket No. 81–00021. Applicant: Georgia Institute of Technology, Engineering Experiment Station, Atlanta, Georgia 30332. Article: Extended Interaction Oscillator, Type VKB 244T32, and Samarium Cobalt Magnet, VKG 2443GI. Manufacturer: Varian Associates of Canada, Ltd., Canada. Intended use of article: See Notice on page 11694 in the **Federal Register** of February 10, 1981.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

---

[1] All members concurred.

[1] This amendment was orally approved on May 19, 1981.

Reasons: The foreign article operates at a center frequency of 95 gigahertz. The National Bureau of Standards advises in its memorandum dated April 29, 1981 that (1) the capability of the foreign article described above is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

Massachusetts Institute of Technology; Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Material Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereu .der as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5:00 p.m. in Room 3109 of the Department of Commerce Building, 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No. 80-00451. Applicant: Massachusetts Institute of Technology, 77 Massachusetts Avenue, Cambridge, MA 02139. Article: NMR Magnet System, Model 250/80. Manufacturer: Oxford Instruments, United Kingdom. Intended use of article: See Notice on page 2666 in the **Federal Register** of January 12, 1981.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides a field strength of 5.87 tesla and a bore diameter of 89 millimeters. The National Bureau of Standards advises in its memorandum dated April 28, 1981 that (1) the capabilities of the foreign article described above are pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

BILLING CODE 3510-25-M

Solar Energy Research Institute; Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5:00 P.M. in Room 3109 of the Department of Commerce Building, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 81-00022. Applicant: Solar Energy Research Institute, 1617 Cole Blvd., Golden, CO 80401. Article: X-Ray Diffraction System. Manaufacturer: Rigaku, Japan. Indended use of article: See Notice on page 11694 in the **Federal Register** of February 10, 1981.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article generates a twelve kilowatt high incidence (brilliant) x-ray beam. The National Bureau of Standards advises in its memorandum dated April 30, 1981 that (1) the capability of the foreign article described above is pertinent to the applicants intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

Receipt of Application for Permit

Notice is hereby given that an Applicant has applied in due form for a Permit to take marine mammals as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216), the Endangered Species Act of 1973 (16 U.S.C. 1531-1544), the National Marine Fisheries Service regulations governing endangered fish and wildlife permits (50 CFR Parts 217-222).

1. Applicant:
   a. Name: Dr. Tom Albert (P282)
   b. Address: Department of Veterinary Science, University of Maryland, College Park, Maryland 20742
2. Type of Permit: Scientific Research and Scientific Purposes
3. Name and Number of Animals:
   Bowhead whale *(Balaena mysticetus)*—60
   Gray whale *(Eschrichtius robustus)*—15
   Beluga whale *(Delphinapterus leucas)*—30
   Bearded seal *(Enrignathus barbatus)*—60
   Ringed seal *(Phoca hispida)*—100
4. Type of Take: Scientific specimen materials will be collected from dead stranded or subsistence harvested animals.
5. Location of Activity: Alaska
6. Period of Activity: 3 years

Concurrent with the publication of this notice in the **Federal Register**, the Secretary of Commerce is forwarding copies of this application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Written data or views, or requests for a public hearing on this application should be submitted to the Assistant Administrator for Fisheries, National Marine Fisheries Service, U.S. Department of Commerce, Washington, D.C. 20235, on or before July 6, 1981. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular application would be appropriate. The holding of such hearing is at the discretion of the Assistant Administrator for Fisheries.

All statements and opinions contained in this application are summaries of those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Documents submitted in connection with the above application are available for review in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street NW., Washington, D.C.; and

Regional Director, Alaska Region, National Marine Fisheries Service, P.O. Box 1668, Juneau, Alaska 99802.

Regional Director, Northeast Region, National Marine Fisheries Service, 14 Elm Street, Federal Building, Gloucester, Massachusetts 01930.

Dated: May 29, 1981.

Richard B. Roe,

Acting Director, Office of Marine Mammals and Endangered Species, National Marine Fisheries Service.

BILLING CODE 3510-22-M

CONSUMER PRODUCT SAFETY COMMISSION

National Advisory Committee for the Flammable Fabrics Act; Meeting

AGENCY: Consumer Product Safety Commission.

ACTION: Notice of meeting: National Advisory Committee for the Flammable Fabrics Act.

SUMMARY: This notice announces a meeting of the National Advisory Committee on Thursday, June 18, 1981 from 9:00 a.m. to 4:00 p.m., and Friday, June 19, 1981 from 9:30 a.m. to 2:30 p.m. at 1111 18th Street NW., 8th floor, Washington, D.C.

FOR FURTHER INFORMATION CONTACT: Barbara Rosenfeld, Director, Office of Public Participation, Office of the Secretary, Suite 300, 1111 18th Street NW., Washington, D.C. 20207, (202) 634-7700.

SUPPLEMENTARY INFORMATION: The National Advisory Committee provides advice and recommendations on Commission proposals and plans to reduce the frequency and severity of burn injuries involving flammable fabrics.

On Thursday morning, June 18, 1981, NACFFA members will attend the Commission meeting, at which staff will brief the Commission on furniture flammability issues. Upon conclusion of this portion of the Commission meeting, NACFFA members will meet as a committee to discuss these subjects. Discussion of upholstered furniture may continue on Friday morning. The Committee will also consider the Commission's injury data sources. The meeting is open to the public; however, space is limited. Persons who wish to make oral or written presentations to the National Advisory Committee should notify the Office of the Secretary (see address above) by June 8, 1981. The notification should list the name of the individual who will make the presentation, the person, company, group or industry on whose behalf the presentation will be made, the subject matter, and the approximate time requested. Time permitting, these presentations and other statements from the audience to members of the Committee may be allowed by the presiding officer.

Dated: May 27, 1981.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355-01-M

DEPARTMENT OF DEFENSE

Department of the Air Force

Privacy Act; New Systems of Records

AGENCY: Department of the Air Force, DOD.

ACTION: Notice of a new system of records.

SUMMARY: The Air Force proposes to establish a new system of records subject to the Privacy Act of 1974. The system notice for this new system of records is published below.

DATES: This system shall be effective as proposed without further notice on July 6, 1981, unless comments are received which would result in a contrary determination.

ADDRESS: Any comments including written data, views or arguments concerning the proposed system should be addressed to the system manager identified in the notice.

FOR FURTHER INFORMATION CONTACT: Mr. Jon E. Updike, HQ USAF/DAAD, Room 4A-1088I, The Pentagon Washington, D.C. 20330, Telephone: (202) 694-3431.

SUPPLEMENTARY INFORMATION: The Air Force system of records notices inventory subject to the Privacy Act of 1974 (5 U.S.C. 522a) Pub. L. 93-579 have been published to date in the **Federal Register** at:

FR Doc. 79-37052 (44 FR 74145) December 17, 1979
FR Doc. 81-897 (46 FR 6443) January 21, 1981
FR Doc. 81-7598 (46 FR 16110) March 11, 1981

The Department of the Air Force has submitted a new system report dated May 21, 1981, for this new system report under the provisions of 5 U.S.C. 552a(o) as implemented by Office of Management and Budget (OMB) Circular A-108, Transmittal Memoranda, No. 1 and No. 3, dated September 30, 1975 and May 17, 1976 respectively. The OMB guidance was set forth in the **Federal Register** (40 FR 45877) on October 3, 1975.

M. S. Healy,

OSD Federal Register Liaison Officer, Washington Headquarters Services, Department of Defense.

May 28, 1981.

F05004 SAC A

SYSTEM NAME:

Instructional Systems Development (ISD) Evaluation Program.

SYSTEM LOCATION:

93 Bombardment Wing (93 BMW) Instructional Systems Development Division (DO5), Castle AFB CA 95342.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Strategic Air Command (SAC) aircrew members (B-52 G/H pilots, copilots, navigators, radar navigators, electronic warfare officers, aerial defense gunners; KC-135 pilots, copilots, navigators, inflight refueling operators) who are attending, or have attended, a course of instruction conducted by the 93 BMW, Castle AFB CA after June 1, 1981.

CATEGORIES OF RECORDS IN THE SYSTEM:

Computerized information file compiled from questionnaires about training accomplished while attending a course of instruction, the respondee's base of assignment and subjective assessment of the training conducted.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 8012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Used to tabulate and compare data; and to identify strengths and weaknesses of the training programs. Will also be used to score trainee within course test performances. Identification of specific respondees in the records will only be used by the custodian to evaluate and assess quality of Air Force Training Programs.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Questionnaire responses will be read on an optical mark sense reader connected to a stand-alone microcomputer, located in the ISD offices and the data stored on diskettes. Original questionnaire responses will be maintained as documentation in a locked metal filing cabinet until entries on diskettes are verified but not longer than 6 months.

RETRIEVABILITY:

Filed and retrieved by Social Security Number (SSN). Information may also be retrieved by groupings of data from such elements as type airframe, course attended, crew position, or base of assignment.

SAFEGUARDS:

Records are accessed by custodian of the record system and personnel responsible for servicing the record system in performance of their official duties. Records are stored on diskettes kept in a locked room whenever office is not manned. Original questionnaire responses will be maintained in a locked container when the office is not manned.

RETENTION AND DISPOSAL:

Paper records are destroyed by tearing into pieces, shredding, burning, macerating, or pulping, and diskettes will be destroyed by degaussing, when superseded or when the individual is reassigned from SAC.

SYSTEM MANAGER(S) AND ADDRESS:

Education Specialist or ISD Systems Manager, 93 BMW/DO5 Scientific Advisory Branch (DO5S), Castle AFB CA 95342.

NOTIFICATION PROCEDURE:

Education Specialist or ISD Systems Manager, 93 BMW/DO5S, Castle, AFB CA 95342. Requests to determine existence of record should include full name and grade and approximate dates individual attended a course of instruction conducted by 93 BMW, Castle AFB CA subsequent to June 1, 1981.

RECORD ACCESS PROCEDURES:

Access to all records is controlled by 93 BMW/DO5S, Castle AFB CA 95342.

CONTESTING RECORD PROCEDURES:

The Air Force's rules for access to records and for contesting and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Information is obtained from questionnaires completed by 93 BMW students, graduates or SAC Squadron Training Flight Instructors, and current combat crew training instructors.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

BILLING CODE 3910-01-M

DEPARTMENT OF EDUCATION

National Institute of Education

Assessment Policy Committee of the National Assessment of Educational Progress

AGENCY: Department of Education.

ACTION: Notice of Meeting.

SUMMARY: The National Institute of Education announces a meeting of the Assessment Policy Committee of the National Assessment of Educational Progress (NAEP). The entire meeting will be open to the public and interested persons are invited to attend.

DATE AND LOCATION: The meeting will be held June 12–13, 1981 at the Holiday Inn Downtown, Molly Gibson Room, 15th and Glenarm Place, Denver, Colorado 80202. The session on June 12 will commence at 9:00 a.m. and terminate at 5:00 p.m. The session of June 13 will commence at 9:00 a.m. and terminate at the conclusion of the agenda.

FOR FURTHER INFORMATION CONTACT: In order to assure adequate seating arrangements, persons likely to attend the meeting may contact Mr. Dunlap Scott, Jr., National Assessment of Educational Progress, 1860 Lincoln Street, Room 700, Denver, Colorado 80295. Telephone: (303) 830–3721.

SUPPLEMENTARY INFORMATION: NAEP is a periodic survey of the knowledge, skills, understandings, and attitudes of young Americans. The Assessment Policy Committee is established under Section 405(k)(2)(A) of the General Education Provisions Act, as amended by Section 1242 of the Education Amendments of 1978. The Assessment Policy Committee is responsible for the design of NAEP, including the selection of learning areas to be assessed, the development and selection of goal statements and assessment items, the assessment methodology, the form and content of the reporting and dissemination of results, and studies to evaluate and improve the form and utilization of NAEP.

The proposed agenda for the meeting includes: (1) Director's Report, (2) action on previous minutes, (3) current budget and assessment plans, (4) Wirtz and Lapointe Preliminary report on the Review of National Assessment, (5) review of options for concurrent SEA and LEA assessments, and (6) public comments.

Dated: May 28, 1981.

Dick W. Hays,

Acting Assistant Secretary for Educational Research and Improvement.

BILLING CODE 4000-01-M

DEPARTMENT OF ENERGY

Economic Regulatory Administration

Powerplant and Industrial Fuel Use; Termination of Orders Granting Special Temporary Public Interest Exemptions

The Economic Regulatory Administration (ERA) of the Department of Energy hereby gives notice that it has terminated previously issued orders granting temporary public interest exemptions pursuant to section 311(e) of the Powerplant and Industrial Fuel Use Act of 1978, U.S.C. 8301 et seq. (FUA or the Act) and 10 CFR Part 508. Exemptions from the prohibitions of section 301(a) (2) and (3) of the Act were granted to the following petitioners:

Docket No.	Petitioner	Generating station	Powerplant identification No.
51006-0610-04-41	Florida Power & Light Co	Cutler	4
51006-0618-01-41	....do	Palatka	1
51006-0618-02-41	....do	....do	2
51461-0190-05-41	City Water and Light Plant	Jonesboro	5
51461-0190-06-41	....do	....do	6

ERA previously published in the **Federal Register** on March 10, 1980, and March 13, 1980 (45 FR 15257 and 45 FR 16313) orders granting exemptions to the above-mentioned petitioners. The petitioners had filed for temporary public interest exemptions to use natural gas to displace petroleum for electric power generation pursuant to 10 CFR Part 508.

In the previously accepted petitions, the petitioners represented that the powerplants for which the exemptions were sought, were subject to the prohibitions of either section 301(a)(2) or (3) of FUA. Based upon this information, ERA published final orders granting exemptions to petitioners in the **Federal Register.**

The petitioners listed above have now informed ERA that they wish to withdraw their petitions for the above listed powerplants. Florida Power & Light Company has informed ERA that

Cutler #4 and Palatka #1 and #2 are presently not in operation. The City of Jonesboro has decommissioned units 5 and 6 of the City Water and Light Plant due to the high cost of oil and the limited availability of gas. In light of this information, ERA hereby publishes this notice of termination, which will take effect on the thirtieth calendar day following publication in the **Federal Register**.

Any questions regarding this temporary public interest exemption action should be directed to Mr. James W. Workman, Director, Powerplants Conversion Division, Office of Fuels Conversion, Economic Regulatory Administration, Department of Energy, Room 3112D, 2000 M Street NW., Washington, D.C. 20461, (202) 653–4268.

Issued in Washington, D.C., on May 28, 1981.

Robert L. Davies,

Director, Office of Fuels Conversion, Economic Regulatory Administration.

[FR Doc. 81-16542 Filed 6-2-81; 8:45 am]

BILLING CODE 6450-01-M

Federal Energy Regulatory Commission

[Project No. 4531-000]

The City of Gillette, Wyoming; Application for Preliminary Permit

May 29, 1981.

Take notice that the City of Gillette, Wyoming (Applicant) filed on April 14, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 4531 to be known as the Meeks Cabin Dam Project located on the Black Fork River in Uinta County, Wyoming. The proposed project would utilize Federal lands and a Federal dam under the jurisdiction of the United States Water and Power Resources Service. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mayor Michael B. Enzi, The City of Gillette, P.O. Box 3003, Gillette, Wyoming 82716. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize the United States Water and Power Resources Service's existing Meeks Cabin Dam and would consist of: (1) a proposed powerhouse to be located just downstream of the Meeks Cabin Dam outlet works, and having units with a total installed capacity of 930 kW; and (2) appurtenant works.

The Applicant estimates that the average annual energy output would be 2,500,000 kWh.

Purpose of Project—Project energy would be sold to a local public utility.

Proposed Scope and Cost of Studies Under Permit—Applicant seeks issuance of a preliminary permit for a period of three years, during which time it would prepare studies of the hydraulic, construction, economic, environmental, historic, and recreational aspects of the project. Depending upon the outcome of the studies, the Applicant would prepare an application for an FERC license. Applicant estimates the cost of studies under the permit would be $100,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to the Mitchell Energy Company, Inc.'s Project No. 3731 filed on November 12, 1980, under 18 CFR 4.33 (1980), and, therfore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protest about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before July 6, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4531. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Room 208 RB Building, Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-16463 Filed 6-2-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. ER81-397-000]

Commonwealth Edison Company of Indiana; Order Accepting for Filing and Suspending Revised Rates, Granting Waiver, and Establishing Procedures

Issued: May 28, 1981.

On April 1, 1981, Commonwealth Edison Company of Indiana (Commonwealth of Indiana) [1] tendered for filing revised rates that would increase its jurisdictional revenues by approximately $7,674,762 (9.19%), based on a 12-month test period ending December 31, 1981.[2] Commonwealth of Indiana requests an effective date of June 1, 1981, for its revised rates. The

[1] Commonwealth of Indiana was formerly named Chicago District Electric Generating Corporation.

[2] *See* Attachment A for rate schedule designations.

company also requests waiver of certain provisions of section 35.13 of the Commission's regulations pertaining to allocated cost data [3] and a Period II cost study.[4]

Commonwealth of Indiana, a wholly-owned subsidiary of Commonwealth Edison Company (Commonwealth), owns a single generating station [5] and a 345 kV transmission line which are used exclusively for the sale of electricity to Commonwealth. Pursuant to two agreements between the companies, Commonwealth of Indiana sells and transmits electricity to Commonwealth under formula rates which are designed to recover Commonwealth of Indiana's cost of service plus a specified rate of return. The proposed changes in the formula rates would update Commonwealth of Indiana's capital structure and overall rate of return, revise the calculation of current interest expense, and increase the annual depreciation rate on generation investment.

Public notice of Commonwealth of Indiana's filing was issued on April 9, 1981, with protests or petitions to intervene due on or before April 28, 1981. No responses have been received.

Discussion

Since Commonwealth of Indiana owns only one generating station, sells the entire output to only one customer, and has supplied total company cost of service data, allocated cost data is not necessary. Further, Commonwealth of Indiana has supplied the Commission with sufficient information for preliminary analysis of the rates. In light of these considerations, the Commission finds that good cause exists to grant waiver of the filing requirements of section 35.13 of the regulations as requested by Commonwealth of Indiana.

Our analysis indicates that the proposed rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful. Accordingly, we shall accept the rates for filing and suspend them as ordered below.

In a number of suspension orders,[6] we have addressed the considerations underlying the Commission's policy regarding rate suspensions. For the reasons given there, we have concluded that rate filings should generally be suspended for the maximum period permitted by statute where preliminary study leads the Commission to believe that the filing may be unjust and unreasonable or that it may run afoul of other statutory standards. We have acknowledged, however, that shorter suspensions may be warranted in circumstances where suspension for the maximum period may lead to harsh and inequitable results. No such circumstances have been presented here. Accordingly, we shall suspend the rates for a period of five months permitting the rates to take effect subject to refund thereafter on November 1, 1981.

The Commission orders:

(A) Commonwealth of Indiana's request for waiver of the filing requirements is hereby granted.

(B) Commonwealth of Indiana's revised rates are hereby accepted for filing and suspended for five months, to become effective, subject to refund, on November 1, 1981.

(C) Pursuant to the authority contained in, and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by section 402(a) of the DOE Act and by the Federal Power Act, particularly sections 205 and 206 thereof, and pursuant to the Commission's Rules of Practice and Procedure and the regulations under the Federal Power Act [18 CFR, Chapter I (1980)], a public hearing shall be held concerning the justness and reasonableness of Commonwealth of Indiana's rates.

(D) A presiding administrative law judge, to be designated by the Chief Administrative Law Judge, shall convene a conference in this proceeding to be held within approximately fifteen (15) days of the issuance of this order in a hearing room of the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. Such conference shall be held for purposes of expediting discovery, establishing a procedural schedule, including submittal of a case-in-chief by Commonwealth of Indiana, and pursuing other appropriate matters. The designated law judge is authorized to establish procedural dates, and to rule on all motions (except motions to consolidate or sever and motions to dismiss), as provided for in the Commission's Rules of Practice and Procedure.

(E) The Secretary shall promptly publish this order in the **Federal Register.**

By the Commission.

Kenneth F. Plumb,

Secretary.

Attachment A

Commonwealth Edison Company of Indiana, Docket No. ER81-397-000, Rate Schedule Designations

Designation and Description

(1) Supplement No. 2 to Supplement No. 18 to Rate Schedule FPC No. 7 (Supersedes Supplement No. 1 to Supplement No. 18)—Revisions to Electric Service Agreement
(2) Supplement No. 2 to Rate Schedule FPC No. 8 (Supersedes Supplement No. 1)—Revisions to Transmission Service Agreement

[FR Doc. 81-16464 Filed 6-2-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket Nos. ER81-380-000 and ER81-353-000, et al.]

Dayton Power and Light Co.; Order Accepting for Filing and Suspending Revised Rates, Granting Intervention, Consolidating Dockets, and Establishing Procedures

Issued May 28, 1981.

On March 31, 1981, Dayton Power and Light Company (Dayton) submitted a revised Service Schedule B under its interconnection agreement with the City of Piqua, Ohio.[1] The proposed revision would increase the demand charge for short-term power from $.85/kW/week to $1.05/kW/week, and would increase the demand charge for transmission of short-term power from $.22/kW/week to $.24/kW/week. The short-term energy charge and related transmission charge would remain unchanged. Dayton requests that the proposed rates become effective on May 30, 1981.

Notice of the filing was issued on April 7, 1981, with comments, protests or petitions to intervene due on or before April 20, 1981. On April 20, 1981, Piqua filed a protest, petition to intervene, and request for suspension. Piqua objects to Dayton's use of a 17.5% rate of return on common equity in deriving the fixed-charge rate, which in turn is used to derive the demand charge. Piqua also objects to a 10% adder to out-of-pocket costs charged for short-term energy generated by Dayton. Piqua contends that Dayton has supplied no cost support for the 10% adder. Piqua requests that the proposed rates be suspended for a full five months. On May 5, 1981, Dayton filed an answer to

---

[3] 18 CFR 35.13(a), (1), (2), (3).

[4] 18 CFR 35.13(d)(2).

[5] The State Line generating station, which is located on Lake Michigan in Hammond, Indiana, consists of two units with a combined capacity of 614 MW.

[6] *E.g., Boston Edison Company*, Docket No. ER80-508 (August 29, 1980) (five-month suspension); *Alabama Power Co.*, Docket Nos. ER80-506, *et al.* (August 29, 1980) (one-day suspension); *Cleveland Electric Illuminating Co.*, Docket No. ER80-488 (August 22, 1980) (one-day suspension).

[1] Designation: *The Dayton Power and Light Company*, Supplement No. 15 to Rate Schedule FPC No. 34 (Supersedes Supplement No. 8, as supplemented).

Piqua's protest, taking issue with several of the contentions expressed by Piqua.

Particularly in view of the contentions raised by Piqua, our analysis of Dayton's filing indicates that the rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful. Therefore, we shall accept the rates for filing and suspend them as directed below.

In a number of suspension orders,[2] we have addressed the considerations underlying the Commission's policy regarding rate suspensions. For the reasons given there, we have concluded that rate filings should generally be suspended for the maximum period permitted by statute where preliminary study leads the Commission to believe that the filing may be unjust and unreasonable or that it may run afoul of other statutory standards. We have acknowledged, however, that shorter suspensions may be warranted in circumstances where suspension for the maximum period may lead to harsh and inequitable results. Such circumstances have been presented here. We note that the intervenor has raised several substantive contentions which warrant further development at hearing. However, according to our review, the proposed rates may not yield excessive revenues. Under these circumstances, a nominal suspension and a refund obligation should provide adequate protection to Piqua pending the outcome of a hearing. Accordingly, the Commission will suspend the proposed rates for one day to become effective, subject to refund thereafter, on May 31, 1981.

Since the instant submittal presents questions of law and fact common to those in the proceeding in Docket Nos. ER81-353-000, *et al.*, we shall consolidate these dockets for purposes of hearing and decision.

The Commission further finds that participation in this proceeding by Piqua is in the public interest. Accordingly, the petition to intervene will be granted.

The Commission orders:

(A) Dayton's rates for service to the City of Piqua are hereby accepted for filing and suspended for one day to become effective on May 31, 1981, subject to refund.

(B) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by section 402(a) of the DOE Act and by the Federal Power Act, particularly sections 205 and 206 thereof, and pursuant to the Commission's Rules of Practice and Procedure and the regulations under the Federal Power Act [18 CFR, Chapter I (1980)], a public hearing shall be held concerning the justness and reasonableness of Dayton's rates.

(C) The petitioner is hereby permitted to intervene in this proceeding subject to the Commission's Rules of Practice and Procedure and the regulations under the Federal Power Act; *Provided, however,* that participation by such intervenor shall be limited to the matters set forth in the petition to intervene; and, *provided, further,* that the admission of such intervenor shall not be construed as recognition by the Commission that it might be aggrieved by any order or orders entered by the Commission in this proceeding.

(D) Docket No. ER81-380-000 is hereby consolidated with the proceeding in Docket Nos. ER81-353-000, *et al.* for purposes of hearing and decision.

(E) The administrative law judge designated to preside in Docket Nos. ER81-353-000, *et al.*, shall convene a conference in this proceeding to be held within approximately fifteen (15) days of the issuance of this order, in a hearing room of the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. Such conference shall be held for purposes of establishing procedures appropriate for the consolildated proceeding and establishing procedural dates, including the submittal of testimony and exhibits by Dayton. The presiding judge is authorized to establish procedural dates and to rule on all motions (except motions to consolidate or sever and motions to dismiss) as provided for in the Commission's Rules of Practice and Procedure.

(F) The Secretary shall promptly publish this order in the **Federal Register.**

By the Commission.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Project No. 3945-000]

Energenics Systems, Inc.; Application for Preliminary Permit

May 29, 1981.

Take notice that Energenics Systems, Inc. (Applicant) filed on January 12, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)] for proposed Project No. 3945 to be known as El Vado Hydro Project located on the Rio Chama in Rio Arriba County, New Mexico. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Thomas H. Clarke, Jr., President, Energenics Systems, Inc., 1727 Q Street NW., Washington, D.C. 20009. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) an existing randomfill dam with a height above streambed of 173 feet and a crest length of 1,326 feet; (2) a reservoir having a storage capacity of 219,580 acre-feet at maximum pool elevation of 8,908.6 feet m.s.l. and a surface area of 3,707 acres; (3) an existing outlet works to be modified as intake facilities and penstock leading to (4) a new powerhouse containing generating units having a total rated capacity of 11,500 kW; (5) a tailrace; (6) a new transmission line; and (7) appurtenant facilities. The Applicant estimates that the average annual energy output would be 17,000,000 kWh.

Purpose of Project—Project energy would be sold to the Aztec Utility System, the Western Area Power Administration and/or nearby public institutions and industrial users.

Proposed Scope and Cost of Studies Under Permit—Applicant seeks issuance of a preliminary permit for a period of three years, during which time it would prepare studies of the hydraulic, construction, economic, environmental, historic and recreational aspects of the project. Depending on the outcome of the studies, Applicant would prepare an application for an FERC license. Applicant estimates the cost of the studies under the permit would be $50,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the

[2] *E.g., Boston Edison Company,* Docket No. ER80-508 (August 29, 1980) (five-month suspension); *Alabama Power Co.,* Docket Nos. ER80-506, *et al.* (August 29, 1980) (one-day suspension); *Cleveland Electric Illuminating Co.,* Docket No. ER80-218 (August 22, 1980) (one-day suspension).

Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to Gregory Wilcox's application for Project No. 3639 filed on November 3, 1980, under 18 CFR 4.33 (1980). Anyone desiring to file a competing application must submit to the Commission, on or before June 22, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than August 21, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before July 6, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 3945. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street NW., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Project No. 4544-000]

Farmers Electric Cooperative, Inc., Application for Preliminary Permit

May 29, 1981.

Take notice that Farmers Electric Cooperative, Inc. (Applicant) filed on April 17, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. §§ 791(a)–825(r)] for proposed Project No. 4544 to be known as the Sumner Hydro Project located on the Pecos River in DeBaca County, New Mexico. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Earl Allen, President, Farmers Electric Cooperative, Inc., Post Office Box 550, Clovis, New Mexico 88101. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The project would utilize the existing Water and Power Resources Service's Sumner Dam and Reservoir and would consist of: (1) a new penstock utilizing the existing outlet works near the right dam abutment; (2) a new powerhouse containing generating units having a total rated capacity of 3,600 kW; (3) a tailrace; (4) a new transmission line, approximately 7 miles long, connecting to an existing 69-kV transmission line; and (5) appurtenant facilities. The Applicant estimates that the average annual energy output would be 9,500,000 kWh.

Purpose of Project—Project energy would be sold to Applicant's members in seven counties of New Mexico.

Proposed Scope and Cost of Studies Under Permit—Applicant seeks issuance of a preliminary permit for a period of three years, during which time it would prepare studies of the hydraulic, construction, economic, environmental, historic and recreational aspects of the project. Depending on the outcome of the studies, Applicant would prepare an application for an FERC license. Applicant estimates the cost of the studies under the permit would be $50,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to he issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to Sequoia Energy Corporations's application for Project No. 3718 filed on November 13, 1981, under 18 C.F.R. § 4.33 (1980), and, therefore, no further competing applications or notices of intent to file a compeitng application will be accepted for filing.

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice nd Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will

consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petiton to intervene must be received on or before July 6, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTESTS", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminiary permit for Project No. 4544. Any comments, protests, or petitons to intervene must be filed by providing the original and those copies requried by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Room 208 RB Building, Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ER81-379-000]

Mississippi Power Co.; Order Accepting for Filing and Suspending Rates, Granting Interventions, and Establishing Hearing and Phased Price Squeeze Procedures

Issued: May 28, 1981.

On March 31, 1981, Mississippi Power Company (MPCO) tendered for filing increased rates for firm power service to its three wholesale cooperative customers.[1] The revised rates [2] would result in an increase in revenues of approximately $7,036,708 (19.36%) for the twelve month period ending November 19, 1981. MPCO requests an effective date of June 1, 1981.

Public notice of the filing was issued on April 7, 1981, with responses due on or before April 20, 1981. On April 20, 1981, MPCO's three wholesale customers (Customers) filed a joint petition to intervene and protest stating that their interests will be directly affected by any decision in this proceeding. Customers seek a maximum suspension and an order instituting a hearing concerning the lawfulness of the proposed rates. In addition, Customers allege certain improper cost of service procedures and allocations such as (1) inclusion in rate base of injuries and damages reserves, property insurance reserves, and accumulated deferred income taxes related to AFUDC; (2) allocation of EPRI expenses to wholesale customers; (3) failure to modify the 45-day formula to calculate cash working capital;[3] (4) failure to synchronize test year fuel expenses and revenues; (5) failure to synchronize interest expense used for income tax and the weighted debt component included in capitalization; and (6) use of an excessive rate of return on common equity. Customers also object to the wording of MPCO's fuel adjustment clause and allege that the rates will create a price squeeze.

In its May 15, 1981 response to customers' petition, MPCO denies the petitioners' specific factual allegations, and asserts that it will suffer the most from a long suspension period.

Discussion

Initially, we find that participation in this proceeding by Customers is in the public interest. Accordingly, we shall grant the petition to intervene.

In evaluating MPCO's submittal, we have reviewed Customers' contentions and we find that they are best suited for determination at a hearing which we shall order below. Also, our analysis of MPCO's filing indicates that the rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful. Accordingly, we shall accept the rates for filing and suspend them as ordered below.

In a number of suspension orders,[4] we have addressed the considerations underlying the Commission's policy regarding rate suspensions. For the reasons given there, we have concluded that inequitable results. No such circumstances have been presented here. Accordingly, we shall suspend the rates for five months from the proposed effective date, permitting the rates to take effect on November 1, 1981, subject to refund.

In accordance with Commission policy established in *Arkansas Power and Light Company*, Docket No. ER79-339, order issued August 6, 1979, we shall phase the price squeeze issue raised in this case. This will allow a determination first to be reached on the cost of service, capitalization and rate of return issues. If, in the view of the intervenors or staff, a price squeeze persists, a second phase of the proceeding may follow.

The Commission orders:

(A) MPCO's submittal is hereby accepted for filing and suspended for five months to become effective November 1, 1981, subject to refund.

(B) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by section 402(a) of the DOE Act and by the Federal Power Act, particularly sections 205 and 206 thereof, and pursuant to the Commission's Rules of Practice and Procedure and the regulations under the Federal Power Act [(18 C.F.R., Chapter I (1980))], a public hearing shall be held concerning the justness and reasonableness of MPCO's submittal.

(C) Customers are hereby permitted to intervene in this proceeding subject to the rules and regulations of the Commission; *provided, however,* that participation by the intervenors shall be limited to matters set forth in their petition to intervene; and *provided, further,* that the admission of any intervenor shall not be construed as recognition by the Commission that it might be aggrieved because of any order or orders by the Commission entered in this proceeding.

(D) We hereby order initiation of price squeeze procedures and further order that this proceeding be phased so that the price squeeze procedures begin after issuance of a Commission opinion establishing the rate which, but for a consideration of price squeeze, would be just and reasonable. The presiding judge may order a change in this schedule for good cause. The price squeeze portion of this case shall be governed by the procedures set forth in section 2.17 of the Commission's regulations as they may be modified prior to the initiation of the price squeeze phase of this proceeding.

[4] *E.g., Boston Edison Co.*, Docket No. ER80-508 (August 29, 1980) (five-month suspension); *Alabama Power Co.*, Docket Nos. ER80-508, *et al.* (August 29, 1980) (one-day suspension); *Cleveland Electric Illuminating Co.*, Docket No. ER80-488 (August 22, 1980) (one-day suspension).

V 46 / 106 / JE 3 81 UMI

(E) The Commission staff shall serve top sheets in this proceeding on or before June 8, 1981.

(F) A presiding administrative law judge to be designated by the Chief Administrative Law Judge for that, purpose shall convene a conference in this proceeding to be held within approximately fifteen (15) days of the service of top sheets in a hearing room of the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. The designated law judge is authorized to establish procedural dates and to rule on all motions (except motions to consolidate or sever and motions to dismiss), as provided for in the Commission's Rules of Practice and Procedure.

(G) The Secretary shall promptly publish this order in the **Federal Register.**

By the Commission.

Kenneth F. Plumb,

Secretary.

[FR Doc. 16468 Filed 6-2-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4542-000]

Sewell T. Wilson, Jr.; Application for Preliminary Permit

May 29, 1981.

Take notice that Sewell T. Wilson, Jr. (Applicant) filed on April 17, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 4542 to be known as the Boston Felt Hydroelectric Project located on the Salmon Falls River in Strafford County, New Hampshire and York County, Maine. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Sewell T. Wilson, Jr., c/o Boston Felt Company, 1 Front Street, E. Rochester, New Hampshire 03867. Any person who wished to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed run-or-river project would consist of: (1) the existing Boston Felt Dam, a 150-foot long, 10-foot high timber and split stone gravity dam which is owned by Boston Felt Company. The dam will require extensive repairs; (2) a reservoir having a surface area of approximately 58 acres at normal pool elevation; (3) a proposed 700-foot long penstock; (4) a proposed powerhouse containing unit(s) with a total installed generating capacity of approximately 300 kW; and (5) appurtenant works.

The Applicant estimates that the average annual energy output would be 1,576,000 kWh.

Purpose of Project—Project energy would be sold to a local public utility.

Proposed Scope and Cost of Studies Under Permit—Applicant seeks issuance of a preliminary permit for a period of two years, during which time applicant would investigate project design alternatives, financial feasibility, environmental effects of project construction and operation, and project power potential. Depending upon the outcome of the studies, the applicant would decide whether to proceed with an application for FERC license. Applicant estimates the cost of the studies under the permit would be $10,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtainied directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before August 10, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than October 9, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for the protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before August 10, 1981.

Filling and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4542. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to : Fred E. Springer, Chief, Application Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-16469 Filed 6-2-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4504-000]

Utah Municipal Power Agency; Application for Preliminary Permit

May 29, 1981.

Take notice that Utah Municipal Power Agency (Applicant) filed on April

9, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)—825(r)] for proposed Project No. 4504 to be known as Moon Lake Hydro Project located on the West Fork of the Lake Fork River in Duchesne County, Utah. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Grant Whitehead, Chairman, Utah Municipal Power Agency, P.O. Box 418, Payson, Utah 84651. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize the existing Water and Power Resources Service's Moon Lake Dam and Reservoir, operated and maintained by the Moon Lake Water Users Association, and would consist of: (1) a penstock utilizing the existing outlet works in the left dam abutment; (2) a new powerhouse containing generating units having a total rated capacity of 3,100 kW; (3) a tailrace; (4) new transmission lines; and (5) appurtenant facilities. The Applicant extimates that the average annual energy output would be 8,900,000 kWh.

Purpose of Project—Project energy would be retailed by the eight municipal members of Utah Municipal Power Agency ("UMPA").

Proposed Scope and Cost of Studies Under Permit—Applicant seeks issuance of a preliminary permit for a period of two years, during which time it would prepare studies of the hydraulic, contruction, economic, environmental, historic and recreational aspects of the project. Depending on the outcome of the studies, Applicant would prepare an application for an FERC license. Applicant estimates the cost of the studies under the permit would be $150,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to Utah Hydro Corporation's application for Project No. 3541 filed on October 8, 1980, under 18 CFR 4.33 (1980), and, therefore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before July 6, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all Capital letters the title "COMMENTS", "PROTESTS", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4504. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Room 208, RB Building, Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-16470 Filed 6-2-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. ER81-388-000]

Virginia Electric and Power Co.; Order Accepting for Filing and Suspending Rates, Granting Summary Disposition in Part, Granting Interventions, and Establishing Price Squeeze and Hearing Procedures

Issued: May 28, 1981.

On March 31, 1981, Virginia Electric and Power Company (VEPCO) tendered for filing revised rates for service to twenty-one wholesale municipal and eighteen electric cooperative customers.[1] The proposed rates would result in an increase in revenues of approximately $41,245,988 (19.84%) for the twelve-month period ending December 31, 1981. VEPCO requests an effective date of May 30, 1981, sixty days after filing, and suspension of the proposed rates until September 1, 1981, to coincide with retail rate relief in North Carolina and Virginia. On April 27, 1981, VEPCO submitted a supplementary filing to add an exhibit and to revise certain rate schedule language contained in its orginal filing. Public notice of the filing was issued on April 7, 1981, with responses due on or before April 20, 1981.

On April 17, 1981, the Secretary of the Navy (Navy) filed a petition to intervene stating that while VEPCO's Military Service (MS) rate schedule is not subject to this Commission's jurisdiction, the terms of the Navy's contract with VEPCO link the MS rates to the rates set by the Commission for the RS (Resale Service to Municipalities and Private Utilities) rate schedule. In developing rates for service to the Navy, VEPCO utilizes the same methodology, rate of return, test period, and effective date permitted for the RS rate schedule.

On April 20, 1981, petitions to intervene were filed individually by North Carolina Electric Membership Corporation and Abermarle Electric Membership Corporation (NCEMC); Old Dominion Electric Cooperative and Prince William Electric Cooperative (Old Dominion); ElectriCities of North Carolina (ElectriCities); and Bear Island Paper Company (Bear Island). NCEMC,

[1] *See* Attachment A for a list of customers and rate schedule dsignations.

Old Dominion, and ElectriCities allege price squeeze and move for summary disposition [2] of certain issues based on Opinion No. 118.[3] In addition, the petitioners request a five-month suspension period and state that further analysis of the filing is required. As a result, they state that they may seek at a later date to raise issues not set out in the petitions. In support of the contention that VEPCO's revised rates should be suspended for five months, the petitioners state that the rates are excessive, that VEPCO has presented no special circumstances to justify a shorter suspension period, that VEPCO received recent rate relief in Docket No. ER81–121–000, and that there is a possibility that retail rate increases in North Carolina and Virginia may not coincide with the proposed effective date as VEPCO asserts. On May 5, 1981, VEPCO filed answers which challenge specific allegations raised by the cooperatives and ElectriCities.

Bear Island raises no substantive issues, but states that it is a high-load factor industrial customer which purchases power furnished by VEPCO to the Rappahannock Electric Cooperative. Bear Island contends that its interests will not be adequately represented by other parties to this proceeding.

On April 27, 1981, the Town of Wakefield, Virginia (Wakefield) filed an untimely letter of protest opposing the rate increase. Wakefield has not requested intervenor status,[4] and notes that its interests are represented by ElectriCities.

Discussion

Initially we find that participation in this proceeding by the petitioners is in the public interest. Therefore, we shall grant the petitions to intervene.

With respect to the motions for summary disposition we agree that four of the items raised represent cost of service approaches contrary to company-specific precedent. Consistent with the Commission's conclusions in *Virginia Electric and Power Company*, Docket No. ER78–522, Opinion No. 118, issued April 10, 1981, we shall order VEPCO to file a revised cost of service and revised rates to: (1) exclude from rate base the unamortized cancellation costs associated with nuclear construction projects at its North Anna and Surry sites;[5] (2) exclude the capitalized expense and AFUDC associated with the Yorktown boiler implosion from rate base; (3) reduce the cost of service by the amount of the tax benefits associated with removal costs; and (4) treat the gain on the sale and leaseback of office buildings as a reduction to rental expense. The circumstances pertinent to the Commission's prior resolution of these issues have not changed and repetitious litigation should therefore be avoided.

We decline to grant the request for summary disposition with respect to VEPCO's treatment of spent nuclear fuel disposal costs because this issue presents questions of fact which should be addressed at hearing. Also, we note that in VEPCO's supplemental filing of April 27, 1981, the company modified its fuel adjustment clause applicable to the municipal customers to conform to the cooperative customer's fuel clause. This modification effectively moots the intervenors' request for summary disposition with respect to the fuel adjustment clause.

Our analysis indicates that VEPCO's revised rates have not been shown to be just and reasonable and that they may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful. Accordingly, we shall accept the rates for filing, as modified by summary disposition, and suspend them as ordered below.

In a number of suspension orders,[6] we have addressed the considerations underlying the Commission's policy regarding rate suspensions. For the reasons given there, we have concluded that rate filings should generally be suspended for the maximum period permitted by statute where preliminary study leads the Commission to believe that the filing may be unjust and unreasonable or that it may run afoul of other statutory standards. We have acknowledged, however, that shorter suspensions may be warranted in circumstances where suspension for the maximum period may lead to harsh and inequitable results. Such circumstances are presented here. We note that certain of the matters raised remain for resolution at hearing, and as previously noted, VEPCO's transmittal letter states that the company requests suspension of the proposed rates until September 1, 1981. Although our preliminary review of the filing reveals that VEPCO's rates, as reduced to reflect the summary dispositions herein ordered, may not be substantially excessive, we shall accommodate VEPCO's request for a voluntary three month suspension in order to track its retail rates, and suspend the rates to take effect subject to refund thereafter on September 1, 1981.

In accordance with the Commission's policy established in *Arkansas Power and Light Company*, Docket No. ER79–339, order issued August 6, 1979, we shall phase the price squeeze issue raised by NCEMC, Old Dominion, and ElectriCities. As we have noted in previous orders, this procedure will allow a decision first to be reached on the cost of service, capitalization, and rate of return issues. If, in the view of the intervenors or staff, a price squeeze persists, a second phase of the proceeding may follow.

The Commission orders:

(A) VEPCO's submittal is hereby accepted for filing, as modified by the summary dispositions required by paragraph (C) below, and the rates are hereby suspended until September 1, 1981, when they shall become effective subject to refund.

(B) The requests for summary disposition are hereby granted in part and denied in part. Within thirty (30) days after issuance of this order, VEPCO shall file a revised cost of service and revised rates to reflect the four summary dispositions identified in the body of this order.

(C) The petitioners are hereby permitted to intervene in this proceeding subject to the rules and regulations of the Commission; *Provided, however,* that participation by the intervenors shall be limited to matters set forth in their petitions to intervene; and *provided,* further, that the admission of any intervenor shall not be construed as recognition by the Commission that it might be aggrieved because of any order or orders by the Commission entered in this proceeding.

(D) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by section 402(a) of the DOE Act, and by the Federal Power Act, particularly sections 205 and 206 thereof, and

---

[2] The requests for summary disposition address VEPCO's: (1) inclusion of unamortized losses in rate base; (2) failure to recognize gains from the sale and leaseback of office facilities in cost of service; (3) inclusion in rate base of costs associated with the Yorktown implosion; (4) failure to normalize tax benefits of removal costs over the life of the plant giving rise to such benefits; (5) treatment of disposal cost of spent nuclear fuel; and (6) failure to modify the definition of nuclear fuel expense in the fuel adjustment clause to the municipal customers to conform to the language of the fuel adjustment clause of the cooperative customers.

[3] *Virginia Electric and Power Company*, Docket No. ER78–522, issued April 10, 1981.

[4] *See* CFR § 1.10(b)

[5] *See also New England Power Company*, Docket Nos. ER76–304, *et al.* Opinion No. 49 (July 19, 1979) (prohibiting rate base inclusion of extraordinary property losses associated with discontinued construction of Salem Harbor Unit No. 5).

[6] *E.g., Boston Edision Co.*, Docket No. ER80–508 (August 29, 1980) (five-month suspension); *Alabama Power Co.*, Docket Nos. ER80–506, *et al.* (August 29, 1980) (one-day suspension); *Cleveland Electric Illuminating Co.*, Docket No. ER80–488, (August 22, 1980) (one-day suspension).

pursuant to the Commission's Rules of Practice and Procedure and the regulations under the Federal Power Act [18 CFR Chapter I (1980)], a public hearing shall be held concerning the justness and reasonableness of the rates filed by VEPCO in this docket.

(E) The Commission staff shall serve top sheets in this proceeding on or before thirty (30) days following VEPCO's filing of the revised materials required by paragraph (C) above.

(F) A presiding administrative law judge to be designated by the Chief Administrative Law Judge for that purpose shall convene a conference in this proceeding to be held within approximately fifteen (15) days after the service of top sheets in a hearing room of the Federal Energy Regulatory Commission, 825 North Capital Street, N.E., Washington, D.C. 20426. The designated law judge is authorized to establish procedural dates and to rule on all motions (except motions to consolidate or sever and motions to dismiss), as provided for in the Commission's Rules of Practice and Procedure.

(G) We hereby order initiation of price squeeze procedures and further order that this proceeding shall be phased so that the price squeeze procedures begin after issuance of a Commission opinion establishing the rate which, but for consideration of price squeeze, would be just and reasonable. The presiding judge may order a change in this schedule for good cause. The price squeeze portion of this case shall be governed by the procedures set forth in section 2.17 of the Commission's regulations as they may be modified prior to the initiation of the price squeeze phase of this proceeding.

(H) The Secretary shall promptly publish this order in the **Federal Register.**

By the Commission.

Kenneth F. Plumb,

Secretary.

[Docket No. RM79-34, ST81-214 etc.]

Transportation Certificates for Natural Gas Displacement of Fuel Oil and Sea Robin Pipeline Co. et al.; Self-Implementing Transactions

June 1, 1981.

Take notice that the following transactions have been reported to the Commission as being implemented pursuant to Part 284 of the Commission's regulations and Sections 311 and 312 of the Natural Gas Policy Act of 1978 (NGPA). The "Recipient" column in the following table indicates the entity receiving or purchasing the natural gas in each transaction.

The "Part 284 Subpart" column in the following table indicates the type of transaction. A "B" indicates transportation by an interstate pipeline pursuant to § 284.102 of the Commission's regulations.

A "C" indicates transportation by an intrastate pipeline pursuant to § 284.122 of the Commission's regulations. In those cases where Commission approval of a transportation rate is sought pursuant to § 284.123(b)(2), the table lists the proposed rate and expiration date for the 150-day period for staff action. Any person seeking to participate in the proceeding to approve a rate listed in the table should file a petition to intervene with the Secretary of the Commission.

A "D" indicates a sale by an intrastate pipeline pursuant to § 284.142 of the Commission's regulations and Section 311(b) of the NGPA. Any interested person may file a complaint concerning such sales pursuant to § 284.147(d) of the Commission's regulations.

An "E" indicates an assignment by an intrastate pipeline pursuant to § 284.163 of the Commission's regulations and section 312 of the NGPA.

An "F" indicates a fuel oil displacement transaction implemented pursuant to § 284.202 of the Commission's regulations. Any interested persons may file a complaint concerning such transaction pursuant to § 284.205(d) of the Commission's regulations.

A "G" indicates transportation by an interstate pipeline on behalf of another interstate pipeline pursuant to a blanket certificate issued under § 284.221 of the Commission's regulations.

A "G (HS)" indicates transportation, sales or assignments by a Hinshaw Pipeline pursuant to a blanket certificate issued under § 284.222 of the Commission's regulations.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-C

Office of the Secretary

Proposed Sub-Contract Award

AGENCY: Assistant Secretary for Conservation and Renewable Energy, DOE.

ACTION: Notice of Proposed Sub-Contract Award.

SUMMARY: In accordance with Department of Energy (DOE) Procurement Regulation 41 CFR 9–1.5409, DOE gives public notice that a subcontract is being awarded, after taking into account the existence of potential organizational conflicts of interest, because this procurement is determined to be in the best interests of the United States.

FOR FURTHER INFORMATION CONTACT:
Walker L. Evey, Department of Energy, Office of Procurement Operations, PR–544, Forrestal Building, Washington, D.C. 20585, (202) 252–1074.
Robert Cohen, Department of Energy, Division of Ocean Energy Systems, CE–332, 600 E Street NW., Room 408, Washington, D.C. 20585, (202) 376–4773.

Determination and Findings

Upon the basis of the following findings and determination, the proposed sub-contract described below is being awarded, recognizing the existence of potential organizational conflicts of interest pursuant to the authority of DOE Procurement Regulation 41 CFR 9–1.5409(a)(3).

1. The DOE Division of Ocean Energy Systems is currently performing research and development activities for the conversion of ocean thermal energy to electricity and energy-intensive products in accordance with a program approved and funded by the Congress. The purpose of the project that includes the proposed subcontract is to research key benefits that would accrue to U.S. commerce and industry from U.S. industrial leadership in the development and deployment of Ocean Thermal Energy Conversion (OTEC) technology systems.

2. In order to assist DOE in collecting and analyzing the data to be utilized in this study, a contract has been awarded to Human Resources Management, Inc. (HRM). HRM has conducted similar projects for DOE previously. HRM desires to obtain OTEC industrial expertise on a subcontract basis from David I. Shapiro, an independent consultant to both potential commercial producers and users of OTEC systems. The HRM contract with DOE will be accomplished over the next 5 month period.

3. Consultation on this project by HRM with individuals that have in-depth OTEC experience in the private sector is mandatory in this effort so that technically sound and impartial industrial-related data can be obtained. Mr. Shapiro has such experience and access to data that could beneficially contribute to this analysis and evaluation.

4. In accordance with 41 CFR 9–1.5405, HRM and David I. Shapiro provided statements disclosing relevant information concerning their interests related to the contract work to be performed. Specifically, information was provided bearing on whether there might arise in the course of the work, possible organizational conflicts of interest (1) with respect to being able to render impartial, technically sound and objective assistance or advice, or (2) which may give the contractor or subcontractor an unfair competitive advantage.

5. Based on evaluation of the facts contained in the disclosure statement, that is, the clientele of David I. Shapiro includes energy concerns as defined by Section 601(b) of Public Law 95–91, it has been found that David I. Shapiro has a potential organizational conflict of interest with regard to the work required by the Division of Ocean Energy Systems.

6. Because David I. Shapiro has the unique capability to perform this work for HRM within the time constraints required for performance as established by the Division of Ocean Energy Systems, it is neither feasible nor desirable to disqualify David I. Shapiro from subcontract award, in accordance with 41 CFR 9–1.5409(a)(1). Furthermore, it is not possible to totally avoid potential organizational conflicts of interest by inclusion of appropriate conditions in the resulting contract, pursuant to 41 CFR 9–1.5409(a)(2).

7. Mitigation, to the extent feasible, under Section 9–1.5409(a)(3), will be obtained by independent staff review by DOE officials of the work performed by HRM. David I. Shapiro will not participate in policy-making or management aspects of DOE work on OTEC. In addition, the OCI special clause entitled "Organizational Conflicts of Interest," DOE PR 9–1.540302(b), shall be included in the contract, modified if necessary, to meet the specific circumstances experienced. All information developed under this contract and subcontract will be disseminated throughout the ocean thermal energy conversion industry by standard DOE distribution procedures.

Determination

In light of the above findings and in accordance with 41 CFR 9–1.5409(a)(3), the proposed subcontract award is in the best interests of the United States.

Dated: May 21, 1981.

Joseph J. Tribble,
Assistant Secretary, Conservation and Renewable Energy.

BILLING CODE 6450–01–M

ENVIRONMENTAL PROTECTION AGENCY

[RD–FRL–1841–6]

Public Hearing on the Federal Energy Conservation Program

AGENCY: Environmental Protection Agency.

ACTION: Participation in a public hearing.

SUMMARY: Section 11 of the Federal Nonnuclear Energy Research and Development Act (Public Law 93–577) requires EPA "to carry out a continuing analysis of the adequacy of attention to energy conservation". Part of this analysis is the conduct of annual public hearings and the preparation of a Report to the President, the Secretary of Energy, and the Congress.

The Hearings will be held at the Office of Personnel Management's Auditorium, 1900 E Street NW., Washington, D.C. The Hearings will begin at 9:00 a.m. each day. Witness testimony is limited to 10 minutes and will be followed by questions from the Hearing panel. An open period at the end of each day will be set aside for unscheduled testimony. The public is invited to participate.

DATES: Tuesday, July 14, 1981 and Wednesday, July 15, 1981 (9 a.m. through 5 p.m.).

ADDRESSES: An information package is available on the Hearings. Copies can be obtained from the Section 11 Program Manager, Office of Research and Development (RD–681), EPA, 401 M Street SW., Washington, D.C. 20460. Witnesses should submit a copy of their testimony or a summary of their full statement to the EPA Section 11 Program Manager by July 8, 1981. EPA will notify witnesses in early July of the date and time of their scheduled testimony. The envelope and its contents should be clearly marked "Written Testimony". All written testimony should be received by July 31, 1981. Copies of the Transcript and other products may be obtained from the EPA

Section 11 Program Manager in December 1981.

FOR FURTHER INFORMATION CONTACT: Gregory Ondich, at the EPA address above, or by telephone at (202) 426–9434.

SUPPLEMENTARY INFORMATION: The 1981 section 11 review program focuses on Federal energy conservation programs. Many of the changes in Federal energy conservation programs are based on projections that rising market prices of energy commodities will enhance conservation efforts, and the private sector and state/local agencies will carry out activities previously supported by the Federal government. Given the new directions of Federal energy policy and the decentralized nature of energy conservation, how can the adequacy of attention to conservation be assured?

To explore the impacts of the changes in Federal programs, witnesses are asked to address the following issues in their testimony:

- How are private firms, state governments and local agencies preparing to assume their new responsibilities?
- Which activities will get priority from public and private organizations and what will be the consequences if some activities are discontinued?
- Have any new initiatives, opportunities or efficiencies been created as a result of the shift in Federal energy conservation programs?
- How can the Federal government assist in this period of transition?
- How should the Federal government evaluate and monitor the effects of its new energy policies and program changes?

Dated: May 22, 1981.

Kurt W. Riegel,

Acting Deputy Assistant Administrator for Environmental Engineering and Technology.

BILLING CODE 6560–35–M

[PH–FRL–1844–4; OPP–C30200]

Department of Agriculture, Forest Service; Receipt of Application to Conditionally Register a Pesticide Product Containing a New Active Ingredient

AGENCY: Envoronmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces receipt of an application to conditionally register the pesticide product SERTAN, containing the new active ingredient Polyhedral Inclusion Bodies of *N. Sertifer* nucleopolyhedrosis virus at .05 percent.

DATE: Comments must be received on or before July 6, 1981.

ADDRESS: Written comments to: Franklin D. R. Gee, Product Manager (PM) 17, Registration Division (TS–767C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St. SW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Franklin D. R. Gee (703–557–7028). 81P–565

SUPPLEMENTARY INFORMATION: EPA gives notice that the U.S. Department of Agriculture, Forest Service, PO Box 2417, Washington, DC 20013, has submitted an application to conditionally register the pesticide product SERTAN, containing the new active indgedient Polyhedral Inclusion Bodies of *N. Sertifer* nucleopolyhedrosis virus at .05 percent. Notice of receipt of this application does not indicate a decision by the agency on the application.

The application proposes that the product be conditionally registered for general use for control of the European pine sawfly. The product has been assigned EPA File Symbol No. 27586–G.

Notice of approval on denial of this application will be announced in the **Federal Register**. Except for such material protected by section 10 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended (92 Stat. 819; 7 U.S.C. 136), the test data and other scientific information deemed relevant to the registration decision will be made available after approval, under provisions of the Freedom of Information Act. The procedure for requesting such data will be given in the **Federal Register**, if an application is approved.

Interested persons are invited to submit written comments on this application. Comments may be submitted and inquiries directed to the product manager. The comments must be received within 30 days from the date of publication of this notice in the **Federal Register** and should bear a notation indicating the document control number "[OPP–C30200]" and the file symbol.

Comments received after the specified time period will be considered only to the extent possible with delaying processing of the application. The label furnished by the applicant, as well as all written comments filed pursuant to this notice, will be available for public inspection in the product manager's office from 8:00 a.m. to 4:00 p.m., Monday through Friday, except legal holidays.

Dated: May 26, 1981.

Douglas D. Campt,

Director, Registration Division, Office of Pesticide Programs.

BILLING CODE 6560–32–M

[A–3–FRL–1840–8]

Full Delegation of Authority for the Prevention of Significant Deterioration of Air Quality

AGENCY: Environmental Protection Agency.

ACTION: Information notice.

SUMMARY: Section 301 in conjunction with sections 101 and 110 of the Clean Air Act Amendments of 1977 authorizes the Administrator to delegate his authority to implement and enforce the Prevention of Significant Deterioration of Air Quality (PSD) regulations to any State which has submitted adequate implementation and enforcement procedures. The Secretary of Commerce and Resources, Commonwealth of Virginia, submitted to the EPA Region III office a request that EPA relinquish to them its responsibility for implementing and enforcing the PSD program. After a thorough review of the request and available information, the Regional Administrator determined that such delegation is appropriate with the conditions set forth in the letter reproduced below. The rule published elsewhere in this issue of the **Federal Register** institutes an address change for the implementation of the technical and administrative review and enforcement of PSD provisions.

EFFECTIVE DATE: June 3, 1981. The Regional Administrator finds good cause for making this delegation of authority effective immediately in that it is an administrative change and not one of substantive content.

ADDRESSES: Copies of the delegation of authority request and accompanying support documents are available for inspection during normal business hours at the following offices:

U.S. Environmental Protection Agency, Region III, Curtis Building, Tenth Floor, Sixth and Walnut Streets, Philadelphia, Pennsylvania 19106, ATTN: Robert J. Blaszczak (3AH13) (215) 597–8186 or FTS 597–8186;

Virginia State Air Pollution Control Board, Room 1106, Ninth Street Office

Building, Richmond, Virginia 23219, ATTN: William Meyer, Executive Director.

FOR FURTHER INFORMATION CONTACT: Robert J. Blaszczak at (215) 597–8186 or FTS 597–8186 (NMS).

SUPPLEMENTARY INFORMATION: On February 11, 1981, EPA Region III received a letter from the Secretary of Commerce and Resources, which requested full delegation of authority for the implementation and enforcement of the PSD program.

After a thorough review of the request for full PSD program delegation, the Regional Administrator has determined that such delegation is appropriate subject to the conditions set forth in the following official letter to the Secretary of Commerce and Resources. Therefore, pursuant to the authority delegated to him by the Administrator, the Regional Administrator has formally notified the Secretary of Commerce and Resources by the following letter that he relinquishes full PSD regulatory authority to the Commonwealth of Virginia as of the publication date of this notice. The Regional Administrator finds good cause for making this delegation of authority effective immediately in that it is an administrative change and not one of substantive content.

Mr. Maurice B. Rowe
Secretary of Commerce and Resources, Commonwealth of Virginia, Office of the Governor, Richmond, Virginia

Dear Mr. Rowe: Thank you for your February 6, 1981, request for delegation of authority to implement the Prevention of Significant Deterioration (PDS) regulations. The intent of the request and the following delegation is to reduce duplicate PSD permit reviews by our respective agencies and to provide prospective applicants with only one agency to deal with in obtaining a construction permit.

We have reviewed the pertinent laws of the Commonwealth of Virginia and the rules and regulations thereof, and have determined that they provide an adequate and effective procedure for full implementation of PSD.

We have also reviewed the procedures for new source review of the Commonwealth of Virginia and have determined that they provide an adequate and effective procedure for the implementation of all the portions of the PSD program. Therefore, pursuant to 40 CFR 52.21(u), we hereby delegate our authority for all portions of the Federal PSD program, as described in 40 CFR 52.21, as amended August 7, 1980, to the Commonwealth of Virginia as follows:

1. Authority is delegated for all sources located in the Commonwealth of Virginia subject to review for the Prevention of Significant Deterioration. This includes all source categories listed in 40 CFR 52.21 for each pollutant regulated by the Clean Air Act.

2. If at any time there is a conflict between a Commonwealth regulation and a Federal regulation (40 CFR 52.01 and 52.21), the Federal regulation must be applied if it is more stringent than that of the Commonwealth. If the Commonwealth does not have the authority to implement a Federal regulation that is more stringent than the applicable Commonwealth regulation, the pertinent portion of the authority may be revoked.

3. If the Regional Administrator determines that the Commonwealth procedure for implementing all the portions of the PSD program is inadequate, or is not being effectively carried out, this authority may be revoked in whole or in part. Any such revocation shall be effective as of the date specified in a Notice of Revocation to the Virginia State Air Pollution Control Board (hereafter "the Board").

4. The Commonwealth of Virginia will ensure through its interstate intergovernmental cooperation procedures, that all potential source interactions along State boundaries are properly determined.

5. Enforcement of PSD in the Commonwealth of Virginia will be the primary responsibility of the Board. If the Commonwealth determines that such enforcement is not feasible and so notifies EPA, or where the Commonwealth acts in a manner inconsistent with the terms of this granted authority, EPA will exercise its concurrent enforcement authority pursuant to Sections 113 and 167 of the Clean Air Act with respect to sources within the Commonwealth of Virginia subject to PSD requirements. In accordance with 40 CFR 52.21(r) and Sections 113 and 167 of the Clean Air Act, 42 U.S.C. 7413 and 7477, EPA reserves the right to commence an enforcement action against any entity in violation of the Prevention of Significant Air Quality deterioration Regulations should the Commonwealth of Virginia fail to take such an enforcement action or, in the opinion of EPA, fail to pursue a timely or appropriate enforcement action.

6. Acceptance of this delegation of presently promulgated PSD regulations does not commit the Commonwealth of Virginia to request or implement enforcement authority for future standards and requirements.

7. The Commonwealth and EPA will develop a system of communication sufficient to guarantee a program that includes the items described below:

A. Each agency is informed of the current compliance status of subject sources in the Commonwealth of Virginia.

B. The Board shall send a copy of preliminary determinations and public comment notices required under paragraph (q) of 40 CFR 52.21 to the Air and Hazardous Materials Division, EPA Region III, at the same time the notice is being forwarded for publication in the newspaper.

C. The Board will forward to EPA Region III copies of the final PSD permit at the time of issuance.

D. The status of incomplete permit applications will be provided to EPA Region III on an as needed basis.

8. Prior EPA concurrence is to be obtained on any matter involving the interpretation of sections 160–169 of the Clean Air Act or 40 CFR 52.21 to the extent that implementation, review, administration or enforcement of these sections have not been covered by determinations or guidance sent to the Board.

9. Where it is convenient to both the Board and EPA and a benefit to the applicant, any PSD reviews already initiated by EPA prior to this delegation shall be transferred to the Board for completion.

10. Enforcement actions already initiated by EPA prior to this delegation of authority shall be completed by EPA.

11. A notice announcing these actions will be published in the **Federal Register** in the near future. This delegation of authority shall be effective as of the publication date of that notice. The notice will also state, among other things, that effective immediately, all reports required pursuant to the PSD regulations by sources located in the Commonwealth of Virginia will be reviewed and final permit approval action and enforcement will be taken by the Board.

This delegation of authority should not be construed as a transfer of PSD responsibility under section 110(a)(2)(J) of the Clean Air Act. As you are aware, such a transfer involves different procedures and considerations.

There is no requirement that the State notify EPA of its acceptance. Unless EPA receives from the State written notice of objections within 10 days of the date of receipt of this letter, the State will be deemed to have accepted all of the terms as stated herein.

Sincerely yours,
Jack J. Schramm,
Regional Administrator.

Under Executive Order 12291, EPA also must judge whether a regulation is "major" and therefore subject to the requirement of a regulatory impact analysis. This delegation of authority is not "major". This action only approves State actions, and imposes to new requirements of its own. Moreover, under the Clean Air Act, federal inquiry into the economic reasonableness of State SIP changes would serve no practical purpose and could well be improper.

This delegation of authority was submitted to the Office of Management and Budget for review as required by Executive Order 12291.

Effective immediately, all applications and other information pursuant to § 52.21 from sources locating in the Commonwealth of Virginia but not having a PSD permit application currently under review by EPA should be submitted to the State agency at the following address: Division of Compliance , State Air Pollution Control Board, Commonwealth of Virginia, Room 1116, Ninth Street Office Building, Richmond, Virginia 23219.

(42 U.S.C. 7401, 7410, and 7601)

V 46 / 106 / JE 3 81 UMI

Dated: May 12, 1981.

Jack J. Schramm,

Regional Administrator.

Sub-Delegation of Authority to the Enforcement Division

AGENCY: Federal Communications Commission.

ACTION: Order; Subdelegation of Authority from the Acting Bureau Chief, Common Carrier Bureau, to the Chief of the Enforcement Division.

SUMMARY: Document subdelegates to the above-mentioned Division Chief the authority to act on applications which were previously handled at the Bureau level. This action is taken to reduce the amount of time taken to process applications which do not raise novel questions. The document also clarifies the existing delegated authority currently possessed by the Division Chief. Intended effect of this action is to increase productivity in application processing.

DATES: Effective April 18, 1981.

FOR FURTHER INFORMATION CONTACT: Abraham Leib, Common Carrier Bureau, (202) 632-6363.

In the matter of sub-delegation of authority to the Enforcement Division.

Order

Adopted: April 18, 1981.

Released: May 20, 1981.

1. The following procedures relating to sub-delegation of authority are adopted pursuant to delegated authority, 47 CFR 0.91, 0.204, and 0.291. These procedures are intended to facilitate the orderly and expeditious resolution of formal complaints, investigations and other compliance and enforcement activities. The functions of the Enforcement Division are described in the FCC Organizational Manual, at pages 16-13 to 16-14 (October 10, 1979).

2. As required by the Commission's rules, the Common Carrier Bureau (1) will not designate for hearing formal complaints which present novel questions of fact, law or policy which cannot be resolved under outstanding precedents or guidelines; (2) will not impose, reduce or cancel forfeitures pursuant to Section 203 or Section 503(b) of the Communications Act of 1934, as amended, in amounts of $10,000 or more; and (3) will not issue notices of proposed rulemaking, notices of inquiry or reports or orders arising from either of the foregoing. 47 CFR 0.291.

3. All Congressional correspondence and Court actions regarding formal complaints, investigations and other compliance and enforcement activities will receive the highest priority, will be reviewed at the Bureau level, and will be personally approved by the Acting Chief.

4. When assigned from the Bureau level, the Division will conduct special investigations and hearings emanating from compliance investigations or from complaints which relate directly to ongoing investigations.

5. Formal complaints, Section 212 applications (47 U.S.C. 212), letters requesting additional information, temporary authority grants, rule waivers, extensions of time, and hearing designations, where clear precedents or guidelines are available, will be handled at the Division level.

6. Formal complaints and related matters which require some interpretation of outstanding precedents and guidelines will be handled at the Division level, after two days of written notice to the Bureau level.

7. Where the parties to a formal complaint reach a settlement of the dispute, and no novel questions of law or policy are presented by the settlement, a request for dismissal will be handled at the Division level.

8. Petitions for reconsideration of actions taken at the Division level will be handled at the Bureau level, consistent with 47 CFR 1.106(a).

9. This order, which is adopted pursuant to 47 CFR 0.91, 0.204, and 0.291, shall be published in the **Federal Register** and FCC Reports.

Joseph A. Marino,

Acting Chief, Common Carrier Bureau.

BILLING CODE 6712-01-M

FEDERAL MARITIME COMMISSION

[Docket No. 81-35]

Luis A. Ayala Colon, Sucrs., Inc. v. Benedict Shipping International, Inc.; Filing of Complaint and Assignment

Notice is given that a complaint filed by Luis A. Ayala Colon, Sucrs., Inc. against Benedict Shipping International, Inc. was served May 19, 1981. Complainant alleges that respondent has failed and refused to remit to it payment of freight charges for cargo booked for sailing aboard the *M.V. Mereghan V*, in violation of the Shipping Act, 1916.

This proceeding has been assigned to Administrative Law Judge William Beasley Harris. Hearing in this matter, if any is held, shall commence within the time limitations prescribed in 46 CFR 502.61. The hearing shall include oral testimony and cross-examination in the discretion of the presiding officer only upon proper showing that there are genuine issues of material fact that cannot be resolved on the basis of sworn statements, affidavits, depositions, or other documents or that the nature of the matter in issue is such that an oral hearing and cross-examination are necessary for the development of an adequate record.

Francis C. Hurney,

Secretary.

BILLING CODE 6730-01-M

FEDERAL RESERVE SYSTEM

Federal Open Market Committee; Domestic Policy Directive of March 31, 1981

In accordance with § 271.5 of its rules regarding availability of information, there is set forth below the Committee's Domestic Policy Directive issued at its meeting held on March 31, 1981.[1]

The information reviewed at this meeting suggests that real GNP

[1] The Record of Policy Actions of the Committee for the meeting of March 31, 1981, is filed as part of the original document. Copies are available on request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

expanded substantially in the first quarter of 1981, but there were signs of a slowing of the expansion in economic activity during the quarter; prices on the average continued to rise rapidly. While retail sales advanced appreciably over the first two months of the year, industrial production declined in February after three months of diminishing gains, and housing starts dropped from the moderate pace that had prevailed during the preceding six months. Nonfarm payroll employment changed little in February following a large increase in January; the unemployment rate, at 7.3 percent, was essentially unchanged. Over the first two months of 1981, the rise in the index of average hourly earnings was little changed from the rapid pace recorded during 1980.

The weighted average value of the dollar against major foreign currencies rose further following the Committee's meeting in early February to a peak at midmonth but subsequently declined somewhat on balance. Short-term interest rates in continental European countries have risen appreciably since mid-February, absolutely and in relation to interest rates on dollar-denominated assets. The U.S. trade deficit in January and February was at about the average monthly rate of the final quarter of 1980.

M–1A and M–1B, adjusted for the estimated effects of shifts into NOW accounts, changed little over the first two months of the year but expanded substantially in the first half of March. Growth in M–2 accelerated in the course of the quarter, and partial data suggest considerable strength in March, in part because of large flows into money market mutual funds. On balance since early February, short-term market interest rates have fallen substantially while longer-term market rates have risen somewhat.

The Federal Open Market Committee seeks to foster monetary and financial conditions that will help to reduce inflation, encourage economic recovery, and contribute to a sustainable pattern of international transactions. At its meeting in early February, the Committee agreed that these objectives would be furthered by growth of M–1A, M–1B, M–2, and M–3 from the fourth quarter of 1980 to the fourth quarter of 1981 within ranges of 3 to 5½ percent, 3½ to 6 percent, 6 to 9 percent, and 6½ to 9½ percent respectively, abstracting from the impact of introduction of NOW accounts on a nationwide basis. The associated range for bank credit was 6 to 9 percent. These ranges will be reconsidered as conditions warrant.

In the short run the Committee seeks behavior of reserve aggregates consistent with growth in M–1B from March to June at an annual rate of 5½ percent or somewhat less, after allowance for the impact of flows into NOW accounts, and growth in M–2 at an annual rate of about 10½ percent. It is recognized that shifts into NOW accounts will continue to distort measured growth in M–1B to an unpredictable extent, and operational reserve paths will be developed in the light of evaluation of those distortions. If it appears during the period before the next meeting that fluctuations in the federal funds rate, taken over a period of time, within a range of 13 to 18 percent are likely to be inconsistent with the monetary and related reserve paths, the Manager for Domestic Operations is promptly to notify the Chairman, who will then decide whether the situation calls for supplementary instructions from the Committee.

Note.—On May 6, the Committee adopted the following modification of the domestic policy directive adopted on March 31, 1981:

On May 6, the Committee agreed that through the period before the next regular meeting the reserve path should continue to be set on the basis of the short-run objectives for monetary growth established at its meeting on March 31, recognizing that the federal funds rate might continue to exceed the upper end of the range indicated for consultation at the March 31 meeting.

By Order of the Federal Open Market Committee, May 27, 1981.

Murray Altmann,

Secretary.

BILLING CODE 6210–01–M

Golden City Investment Co.; Formation of Bank Holding Company

Golden City Investment Company, Springfield, Missouri, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company by acquiring 88.95 percent of the voting shares of First National Bank of Golden City, Golden City, Missouri. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit views in writing to the Reserve Bank, to be received not later than June 26, 1981. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, May 27, 1981.

D. Michael Manies,

Assistant Secretary of the Board.

BILLING CODE 6210–01–M

Landmark Bancshares Corp.; Acquisition of Bank

Landmark Bancshares Corporation, Clayton, Missouri, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 90 percent or more of the voting shares of Kansas City International Bank and Trust Company, Kansas City, Missouri. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of St. Louis. Any person wishing to comment on the application should submit views in writing to the Reserve Bank to be received not later than June 28, 1981. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, May 28, 1981.

D. Michael Manies,

Assistant Secretary of the Board.

BILLING CODE 6210–01–M

Maryland National Corp.; Proposed Acquisition of Mutual Loan Plan, Inc., and Its Subsidiary, American Industrial Bank, Inc.

Maryland National Corporation, Baltimore, Maryland, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and section 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to acquire voting shares of Mutual Loan Plan, Inc., and its subsidiary, American Industrial Bank, Inc., both located in Colorado Springs, Colorado.

Applicant states that the proposed subsidiary would engage in the activities of operating an industrial bank in a manner authorized by Colorado law, and engaging in the sale as agent of credit life, credit disability, credit accident and health, loan redemption and loan cancellation insurance in connection with extensions of credit by bank and nonbank subsidiaries of Maryland National Corporation. These activities would be performed from offices of Applicant's subsidiary in Colorado Springs, Colorado, and the geographic areas to be served are entire United States. Such activities have been specified by the Board in section 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of section 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices."

Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Richmond.

Any person wishing to comment on the application should submit views in writing to the Reserve Bank to be received not later than June 28, 1981.

Board of Governors of the Federal Reserve System, May 28, 1981.

D. Michael Manies,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

First York Ban Corp.; Proposed Acquisition of First Trust Company of York

First York Ban Corp., York, Nebraska, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and section 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to acquire voting shares of First Trust Company of York, York, Nebraska.

Applicant states that the proposed subsidiary would engage in the activities of a trust company as described in § 225.4(a) of the Board's Regulation Y. These activities would be performed from offices of Applicant's subsidiary in York, Nebraska, and the geographic areas to be served are York County and counties contiguous thereto. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City.

Any person wishing to comment on the application should submit views in writing to the Reserve Bank to be received not later than June 28, 1981.

Board of Governors of the Federal Reserve System, May 28, 1981.

D. Michael Manies,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

GENERAL SERVICES ADMINISTRATION

[E-81-6]

Delegation of Authority to the Secretary of Defense

1. *Purpose.* This delegation authorizes the Secretary of Defense to represent, in conjunction with the Administrator of General Services, the consumer interests of the executive agencies of the Federal Government in proceedings before the Public Utility Commission of Texas involving electric utility rates.

2. *Effective date.* This delegation is effective immediately.

3. *Delegation.*

a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 277, as amended, particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4), and 486(d), authority is delegated to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government before the Public Utility Commission of Texas involving the application of the Texas Power and Light Company for an increase in its electric rates. The authority delegated to the Secretary of Defense shall be exercised concurrently with the Administrator of General Services.

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

d. The Department of Defense shall forward to the General Services Administration copies of its testimony and briefs within 60 days of formal submission.

Dated: May 22, 1981.

Ray Kline,

Acting Administrator of General Services.

[FR Doc. 81-16441 Filed 6-2-81; 8:45 am]

BILLING CODE 6820-AM-M

DEPARTMENT OF THE INTERIOR

DEPARTMENT OF AGRICULTURE

DEPARTMENT OF TRANSPORTATION

Offices of the Secretary

Notice of Uniform Federal Transportation and Utility System Application for Use on Conservation System Unit Lands in Alaska

AGENCY: Department of the Interior.

ACTION: Notice of Uniform Federal Transportation and Utility System Application for use on Conservation System Unit lands in Alaska.

SUMMARY: This notice publishes a consolidated application form for use in applying for Federal approval of transportation or utility systems in the

State of Alaska if any portion of the proposed system is within a Federal conservation system unit, national recreation area or national conservation area. This form is not required to be used until each affected Federal agency has secured the necessary clearance from the Office of Management and Budget as required by the Paperwork Reduction Act (44 U.S.C. 3501 et seq.) for information collection requirements.

EFFECTIVE DATE: May 30, 1981.

ADDRESS: Any questions or suggestions should be sent to: Director (330), Bureau of Land Management, 1800 C Street, NW., Washington, D.C. 202040.

FOR FURTHER INFORMATION CONTACT: Robert E. Mollohan, 202–343–5537 or the above address.

SUPPLEMENTARY INFORMATION: Title XI of the Alaska National Interest Lands Conservation Act, Pub. L. 96–487, 94 Stat. 2371, ("the Act"), specifically Section 1104(b)(1), directs the Secretary of the Interior, the Secretary of Agriculture, and the Secretary of Transportation, in consultation with the heads of other appropriate Federal agencies, jointly to prescribe and publish, within 180 days of enactment (December 2, 1980), a consolidated application form. Such form is to be used for applying for the approval of all proposed transportation or utility systems in Alaska in any portion of the system is proposed to be within any Federal conservation system unit, national recreation area or national conservation area. The form is to be used by all Federal agencies which have jurisdiction to grant any authorization, including any right-of-way, permit, license, lease, or certificate, without which a transportation or utility system cannot, in whole or in part, be established. A "conservation system unit" is any unit in Alaska of the National Park System, National Wildlife Refuge System, National Wild and Scenic Rivers Systems, National Trails System, National Wilderness Preservation System, or a National Forest Monument.

The consolidated application is required to be used for the following types of systems:

1. Canals, ditches, flumes, laterals, pipes, pipelines tunnels, and other systems for the transportation of water.
2. Pipelines and other systems for the transportation of liquids other than water, including oil, natural gas, synthetic liquid and gaseous fuels, and any refined product produced therefrom.
3. Pipelines, slurry and emulsion systems and conveyor belts for the transportation of solid materials.
4. Systems for the transmission and distribution of electric energy.
5. Systems for transmission or reception of radio, television, telephone, telegraph, and other electronic signals, and other means of communication.
6. Improved rights-of-way for snow machines, air cushion vehicles, and all-terrain vehicles.
7. Roads, highways, railroads, tunnels, tramways, airports, landing strips, docks, and other systems of general transportation.

All of the systems listed above include those minimally necessary related structures and facilities, temporary and permanent, along the routes of such system.

Once the consolidated application form is approved by the Office of Management and Budget for use, no action by any Federal agency under applicable law with respect to the approval or disapproval of the authorization of any of the listed transportation or utility systems shall have any force or effect unless this consolidated application form is used.

The applicant will be required to file the consolidated application form simultaneously with each Federal agency having jurisdiction to grant the authorizations neded for the proposed system. Title XI of the Act provides a special procedure, including time limitations for the review and approval or disapproval of these systems. Other applicable law, including existing agency regulations, applies with respect to the authorization and administration of the transportation and utility systems in the same way it applies to non-Title XI applications.

Both regulatory and land managing Federal agencies are included in the consolidated application procedure. After consultation with many affected agencies, the Departments of Interior, Transportation and Agriculture developed the Uniform Federal Transportation and Utility System Application. Departments and independent agencies that participated are as follows: The Departments of Defense, Energy, Commerce and State, the Interstate Commerce Commission, the National Aeronautics and Space Administration, the Federal Communications Commission and the Environmental Protection Agency.

An attempt has been made to solicit only basic information which is required under current applicable law in determining whether to authorize a proposed system. The scope of response to the questions will vary for each applicant, depending on the simplicity or complexity of the project. In many instances, if the proposed form is completed properly, little or no further information will be required in order for the agency to approve or disapprove the system.

However, because of the highly specialized nature of most regulatory agency responsibilities, in some instances, these agencies may require additional information from the applicant. Applicants will also be urged to contact all relevant agencies prior to an application submission to learn of any additional or unique submission requirements which have not been incorporated into the consolidated form.

Comments on the consolidated form were requested in the **Federal Register** of March 12, 1981 (46 FR 16 342). Comments were received from 23 sources.

General Comments

Overall the comments received on the draft application form expressed the opinion that the form was clear, concise, and met the intent of Title XI of the Act. Out of 23 respondents, only one opposed the form in its entirety. By and large, the comments were of an editorial nature, i.e., word or phrase changes which provide for a clearer understanding of what information is being requested. Most of these suggestions have been incorporated into the form.

Specific Comments

One respondent suggested that an additional item entitled "resident of Alaska" be added to the citizenship requirement. The suggestion was not adopted in that there is no requirement of law for this information.

Several respondents made various suggestions relating to the "Project Description" section of the form. Most wanted additional items listed. We did not feel that it was necessary to add these requests to the Project Description section of the form. Most of these suggestions were, however, included in the instructions that accompany the form.

Two respondents asked that the word "exact" be removed from the section of the form pertaining to map requirements. This has been done.

Several respondents requested that an additional statement be included in the section on State or local government approval. An additional statement indicating that the applicant has applied for State or local government approval has been included.

Several respondents commented on item 13 of the form. In line with these comments we have replaced the word "chosen" with the word "rejected."

V 46 / 106 6 JE 3 81 1 UMI

Also, we have broken this item into three parts for clarity.

Four respondents commented on item 15. These comments ranged from eliminating the item to minor word changes. We have removed the phrase "net revenue" and have reworded the instructions for completing this item which are in line with the comments received.

The largest number of comments were directed at items 16 through 18 on the form. Again, these comments ranged from total elimination of the items to minor word changes. Most of the suggested word changes were made and have been incorporated into the form. Other suggestions for clarity were incorporated into the instructions for completing each one of these items. The suggestions for eliminating these items have not been accommodated.

John R. Block,
Secretary of Agriculture.
June 1, 1981.

Andrew L. Lewis,
Secretary of Transportation.
May 29, 1981.

James G. Watt,
Secretary of the Interior.
May 29, 1981.

General Information to Applicant

The Uniform Federal Transportation and Utility System Application form contained in this package is provided for your convenience in applying for a right-of-way, permit, license, lease, or certificate for the use of Federal lands that lie within conservation system units and National Recreation or Conservation Areas as defined in the Alaska National Interest Lands Conservation Act. Conservation system units include the National Park System, National Wildlife Refuge System, National Wild and Scenic Rivers System, National Trails System, National Wilderness Preservation System, National Forest Monuments. Any individual, business, or governmental entity desiring to establish and operate a transportation system over, upon, under, or through any one of these units must apply for this use by completing the application form contained in this package.

Transportation system uses for which this application is to be used are as follows:

1. Canals, ditches, flumes, laterals, pipes, pipelines, tunnels, and other systems for the transportation of water.

2. Pipelines and other systems for the transportation of liquids other than water, including oil, natural gas, synthetic liquid and gaseous fuels, and any refined product produced therefrom.

3. Pipelines, slurry and emulsion systems and conveyor belts for the transportation of solid materials.

4. Systems for the transmission and distribution of electric energy.

5. Systems for transmission or reception of radio, television, telephone, telegraph, and other electronic signals, and other means of communication.

6. Improved rights-of-way for snow machines, air cushion vehicles, and all-terrain vehicles.

7. Roads, highways, railroads, tunnels, tramways, airports, landing strips, docks, and other systems of general transportation.

When filing for any of the above types of transportation systems within any conservation system unit, the applicant is required to file the application contained in this package with each Federal agency on the same day. Federal agencies with whom you must file an application include any agency that must issue a right-of-way, permit, license, lease, or certificate without which the proposed transportation system cannot, in whole or part, be established or operated. For example, if you are filing an application for an airport, you must file with the agency responsible for administering the land and with the Federal Aviation Administration. If you need assistance in determining with which Federal agency(ies) you must file, you should contact any local office of the Bureau of Land Management, Fish and Wildlife Service, Forest Service, or National Park Service.

After you have completed your application, please check to be sure the information you have provided is complete and correct, sign it and return it to all appropriate Federal agencies on the same day.

Thank you for your cooperation.

Steps for Completing the Application Form

We have set up the instructions in this package using 4 steps:

(1) Pre-Application Meeting; (2) General Application Instructions; (3) General Instructions for Supplemental and (4) Filing Instructions. If you follow each step in the order that they are set out and read the line-by-line instructions, your application will generally be found to be complete by the Federal agency(ies) with which you have filed. However, in some instances, the Federal agencies may find it necessary to request additional information from you before application processing can proceed. By carefully following the instructions set out below, requests for additional information can be held to a minimum with the net result being a reduced timeframe for processing an application and issuing the appropriate authorization(s).

[Step 1]—Pre-Application Meeting

You are encouraged to contact any Federal agency office with which you will be required to file an application to establish or operate the proposed project, prior to completing and filing the application. For your convenience, we have provided a listing of agencies and their locations under STEP 4 of these instructions. This early contact, for the purposes of these instructions, is identified as the *Pre-Application Meeting*. The *Pre-Application Meeting* has been integrated into this process primarily for your benefit. The purpose of the meeting is to afford you the opportunity to explain your proposed project to the affected Federal agency(ies). In return, the agency(ies) will provide you with assistance and information in completing the attached application form. In view of the fact that the Federal agencies with which you may end up filing an application with have no pay of knowing what your plans are, it becomes your responsibility to request a *Pre-Application Meeting* with the agency(ies).

It is at this *Pre-Application Meeting* with the Federal agency(ies) that you can acquire specific information to complete each requirement of the application contained in this package. The importance of a *Pre-Application Meeting* cannot be overemphasized. In many instances, you will find it necessary to file the application for the proposed use with two or more Federal agencies. To assist you in determining which Federal agencies you should contact for *Pre-Application Meetings*, the following guidelines are provided:

1. As a minimum you should contact either the Bureau of Land Management, Fish and Wildlife Service, National Park Service, or the U.S. Forest Service. If your proposal crosses land under the administration of only one of these land managing agencies, then only that land managing agency needs to be contacted. However, if your proposal crosses lands under the jurisdiction of two or more of the above mentioned land managing agencies, then you should contact each affected agency.

2. If your proposed project contemplates construction of any kind in navigable waters of the United States or putting structures of any description into or adjacent to these waters, then as a minimum you should contact the land managing agency and either the Coast

Guard or the Corps of Engineers or both. In some instances, and depending upon your project, it will be advisable to contact a representative of the Environmental Protection Agency.

3. Proposed projects involving the installation of air or water navigation aids, you should in addition to contacting the land managing agency, contact the Coast Guard and Federal Aviation Agency. If the navigation aid emits an electronic signal, then the Federal Communications Commission should be contacted along with the other agencies noted above.

4. In the establishment or alteration of any airport runway or taxiway, the Federal Aviation Administration should be contacted in addition to the land managing agency. The Federal Aviation Administration should also be contacted if any construction of a new structure is within a 5 mile radius of an existing airport or if the proposed structure is 200 feet or higher regardless of its proximity to the existing airport.

5. Generally, any project that contemplates transporting water by canals, ditches, flumes, pipeline or tunnels will require you to contact only the land managing agency. However, in some instances involving a water transportation system of if the water system serves the purpose of discharging waste water, then the Environment Protection Agency, Corps of Engineers, or Coast Guard should be contacted.

6. If the proposed project involves a pipeline for transporting substances other than water including any slurry or emulsion, the land managing agency(ies) should be contacted, and in instances where the pipeline will be a common carrier, the Federal Energy Regulatory Commission and the Department of Transportation should be contacted.

7. In the establishment of any type of communication facility, the land managing agency(ies) on whose land the facility will be situated should be contacted along with the Federal Communications Commission.

8. Any improvement or new construction contemplated for general transportation purposes will require you to contact the land managing agency(ies) across whose land the system affects. Depending on the proposed project, its location, and various other factors, you may need to contact other agencies such as the Corps of the Engineers Coast Guard, Federal Aviation Administration, Interstate Commerce Commission, Federal Highway Administration, Environmental Protection Agency, etc.

9. Any system for the transmission and distribution of electrical energy will require contact with the land managing agency(ies) whose land is crossed by the system. In instances where a powerline interconnects an electric utility and a qualifying cogenerator or small power producer, or where powerlines qualify as primary transmission lines leading from hydroelectric facilities to an interconnection point on the Alaskan distribution grid, you should contact the Federal Energy Regulatory Commission.

10. If the proposed project involves a facility that will emit pollutants into the air, water or land, the land managing agency should be contacted along with the Environmental Protection Agency.

11. If the proposed project involves disturbance to marine life or marine mammals or to their habitat you should check with the National Marine Fisheries Service.

[Step 2]—General Application Instructions

In this step, we have listed *Line-by-Line Instruction* for completing the application form contained in this package. At this point, we caution you that if you have not taken the time to thoroughly read the General Instructions and the instructions set out in STEP 1, you should, before proceeding any further, go back and read those instructions. If you need additional space to complete any line in the application, please put the information on a separate sheet of paper and identify it as follows: "Continuation of Line ——, Project Description."

Line-by-Line Instructions

[Line 1]—Give your complete name and address. Some agencies require the names, addresses, and telephone numbers of property owners located adjacent to the proposed project. If you must include this information in your application, identify this information as follows: "Continuation of Line 1, Identification of Adjacent Property Owners."

[Line 2]—If you plan to designate an authorized agent, you must complete this line with the name and address of your designated agent.

[Line 3]—Provide the appropriate telephone number(s).

[Line 4]—You must check at least one block. If you checked "Individual or Federal Agency" you do not have to complete the "Supplemental." If you check any block other than "Individual or Federal Agency," you must complete the entire form including the "Supplemental."

[Line 5]—You must check at least one block. If you checked the block Existing use for which no authorization received," you must provide information relating to the date use began, type of use, structures or facilities constructed, and vegetative or mineral materials removed or used along or within the area of use. This information should be put on a separate sheet of paper and identified as "Continuation of Line 5, Unauthorized Use Information." If you checked the block for "Other," please explain. This information should be put on a separate sheet of paper and identified as "Continuation of Line 5, Other."

[Line 6]—There are some laws which require the applicant to be a citizen of the United States before a Federal agency can permit the use of Federal lands or issue an authorization, thus the reason for this requirement. Check the appropriate block.

[Line 7]—Before you complete this line, we caution you that if you have not discussed your proposed project with the appropriate Federal agency or agencies are suggested under Step 1 of these instructions, you should do so at this time. Many of the affected agencies have very specific and/or unique requirements, particularly the regulatory agencies such as the Environmental Protection Agency, Interstate Commerce Commission, Federal Energy Regulatory Commission, etc. To list each of these, agency-by-agency, on the form or in these instructions, would not lend assistance to you. Therefore, after you have completed your *Pre-Application* consultation with the various agencies, give as a complete description of the proposed project as possible. If additional space is needed, the information should be put on a separate sheet of paper and identified as "Continuation of Line 7, Project Description." Examples of the type of information to be included are type of use—power transmission, transport oil or gas, vehicular transportation, etc.; units or volume of product to be transported—kilowatts, megawatts generated, cubic feet, barrels, gallons, thousands of board feet of timber, acre feet or water, etc.; the interrelationship of the proposed project with similar existing facilities; physical description of proposed facility—diameter of pipeline, all-weather surfaced road and width of running surface, and generating and transmission capacity of power projects; approximate date use will be terminated or construction completed; if the project involves dredging or filling in bodies of water, the volume and type of material is to be noted along with the name of the body of water. In addition, you may be required to furnish cost estimates of the project to some

agencies, and periods of use if the use will be on an interrupted basis. The above examples are not meant to be all-inclusive for a complete project description, but are only examples. Again, you are cautioned that the pre-application meeting described in STEP 1 will assist you in completing this important part of your application.

[Line 8]—Depending upon the proposed project, the mapping requirement may be satisfied with a relatively simply map or plan, or you may be required to submit a map or plan which shows the project in great detail. Generally, as a minimum, you must show the section, township and range within which the project is to be located and indicate the location of the project on the map as accurately as possible. These requirements are to be considered the minimum. Some agencies, depending upon the project, may require additional data; therefore, prior to preparing your map or plan, please check with the appropriate agencies for their specific mapping requirements. In addition, and depending on the type of use and associated structures to be constructed you may have to provide special maps and/or detailed structural or construction drawings. You should also provide, if required, technical data for specific navigational aids for both water and air travel. Again, you are cautioned to check with any affected agency to see if they require any type of special map or drawing for the type of project and facilities you propose.

[Line 9]—You are to check the appropriate box on this line if your proposed project requires State or local government approval. The various Federal agencies may only require you to furnish proof of application with the State or local government, while others may need the final approval document. For example, some Federal agencies require you to file a copy of the application you have filed with the State for water rights before they will process your application for a water pipeline. There are many variations for this requirement among the Federal agencies, therefore, please check with the agency or agencies with which you are filing this application.

[Line 10]—Some agencies require a nonreturnable application fee at the time of filing, while others do not. The amount or method of computing fees are not uniform among the agencies that do require a fee. Therefore, please check with each agency with which you must file this application for a determination of the fee that must accompany the application.

[Line 11]—If your project crosses the Canadian Boundary, the crossing must be shown on the map prepared to comply with Line 6. If your project affects any international waterway, the waterway must be identified on the map with a complete project description to be included in Line 7.

[Line 12]—Depending upon which law your proposed use will be authorized under, you may have to submit data on your technical and/or financial capability to construct, operate, maintain, and terminate the proposed project. Therefore, you should check with the affected agencies, to see if they require information of this type.

[Line 13]—Providing the requested information on alternate routes and modes in as much detail as you can and discussing in your analysis why certain routes or modes were rejected and why it is necessary to cross a conservation system unit, will in many cases assist the agency(ies) in processing your application and reaching a final decision within a shorter timeframe than normal. Your analysis should consider only reasonable alternative routes and modes as they relate to current technology and economics. For example, if your project is for a high voltage electric transmission line, you need not analyze the underground modes as an alternative.

[Line 14]—If you have applied for and received authorizations for similar projects in Alaska, please list these authorizations by their identifying number, date, code, or name. Information contained in these files may be useful in analyzing and processing the application you have just filed.

[Line 15]—The objective of this item is to provide information needed to evaluate the benefits, both tangible economic benefits and intangible public interest benefits, of a proposed transportation system for comparison with the magnitude of its detrimental effects on conservation units. The amount of specific information needed will depend on the nature and size of the transportation system. This item should always begin with a simple statement of the purpose of the system, including indications of the quantities of materials to be transported. In many cases, this will be sufficient, since the importance of the purpose would be obvious. However, this is only an abbreviated approximation of a full analysis of the total public and private costs of the proposed system and its next best alternative system. Major systems will require a full analysis for which additional specific information is needed. For transportation systems which will serve a new commercial enterprise, the expected net revenue of the enterprise will be a measure of the benefits of the transportation system. If there are public benefits in excess of expected revenues, these should be identified. For improved transportation systems to existing enterprises, the saving in transportation cost would be a measure of the economic benefits as well as the public benefits.

[Lines 16 through 18]—Recognizing the fact that some applicants will not have either the expertise or financial resources or both to provide all of the detailed information requested in these lines, you are requested to complete each line to the best of your ability and knowledge. The advantage to you to provide as much of the requested information as possible is that any useful information supplied will assist the Federal agency(ies) in reaching a decision and in all probability speed up the decisionmaking process on your application. In addition, and when providing information requested in these lines, you should use sound judgment in deciding whether certain specifics needs to be addressed depending on what your proposed project is. For example, if your project does not encroach into a stream or other body of water, you need not address this item or simply state that it is not applicable.

[Line 19]—Please check the box with the corresponding initials of the agencies with which you are filing this application. By providing this information the affected Federal agencies will be able to begin their coordinating role shortly after you have filed your application. To identify the initials with the appropriate agency, please go to Step 4 of these instructions.

Upon completing Lines 1 through 19 and prior to submitting your application, be sure you have signed and dated it in the space provided.

[Step 3]—General Instructions for Supplemental

The instructions under this Step apply only to the "Supplemental." Only business or governmental entities excpet for Federal agencies must complete the Supplemental, and then only the appropriate section pertaining to that entity. Regardless of the type of business or governmental entity and if you have any of the required information on file with the agencies and it is still up to date and accurate, check the block entitled "Filed" and note the case number, name, or the appropriate identification code. If any of the required information is not on file with the agency, check the block entitled "Attached" and submit a copy of the required document or information.

Under items "f" and "g" "Private Corporations" a block has been included to mark if you are not filing for an oil and gas pipeline. If, however, you are filing for an oil and gas pipeline, check either the "Attached" or "Filed" and follow the instructions noted in the first paragraph of this Step. The instructions of this paragraph also apply to items "e" under "Public Corporations" and "d" of "Partnership or Other Unincorporated Entity."

[Step 4]—Filing Instructions

Upon completing the application, you must file it with each affected Federal agency from whom you need a right-of-way, permit, license, lease, or certificate to establish and operate your proposed project. For your convenience, we are providing a listing of the participating agencies and their addresses with which you should file you application. In parenthesis following the name of the Federal agency we have included an initial which corresponds to the initials in Line 19 of the application form. Please use these identifying initials for your reference in completing Line 19.

Department of Agriculture

Regional Forester, Forest Service (USFS), Federal Office Building, P.O. Box 1628, Juneau, Alaska 99802; Telephone: (907) 586–7247 (or the appropriate Forest Service office)

3. TELEPHONE *(area code)*

Applicant

Authorized agent

4. As applicant are you?

- ☐ Individual
- ☐ Corporation
- ☐ Partnership
- ☐ State Government State Agency
- ☐ Local Government
- ☐ Federal Agency

5. Specify what application is for:

- ☐ New authorization
- ☐ Renew existing authorization No.
- ☐ Amend existing authorization No.
- ☐ Assign existing authorization No.
- ☐ Existing use for which no authorization received
- ☐ Other *(describe)*

6. If an individual are you a citizen of the United States? ☐ Yes ☐ No

7. Project description *(describe in detail)*: (a) Type of transportation system *(i.e. canal, pipeline, road)*, (b) related structures and facilities, (c) physical specifications *(length, width, grading, etc.)*, (d) term of years needed, (e) time of year of use or operation, (f) volume or amount of product to be transported, (g) duration and timing of construction, and (h) temporary work areas needed for construction. *(Attach additional sheets, if additional space is needed.)*

8. Attach map covering project area and show approximate location on map.

9. State or local government approval: ☐ Attached ☐ Pending/Applied for ☐ Not required

10. Nonreturnable application fee: ☐ Attached ☐ Not required

11. Does project cross International Boundary or affect international waterways? ☐ Yes ☐ No

12. Give statement of your technical and financial capability to construct, operate, and maintain the system for which authorization is being requested.

13a. Describe in detail alternative routes and modes considered.

b. If routes or modes rejected, explain why.

c. Give explanation as to why it is necessary to cross Federal lands.

14. List your previous applications for similar projects which may provide additional information to authorizing agency.

15. Provide statement of need for project, including the economic feasibility. Statement should include items such as: (a) cost of proposed transportation/utility system *(construction, operation, and maintenance)*; (b) estimated cost of next best alternative system, and (c) expected public benefits provided by the system.

BILLING CODE 4310-10-C

V 4 6 / 1 0 6 J E 3 8 1 UMI

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Establishment of Bogue Chitto National Wildlife Refuge

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of establishment of the Bogue Chitto National Wildlife Refuge, and delineation of the project boundary.

SUMMARY: This Notice designates by map the area of land and water in Saint Tammany and Washington Parishes, Louisiana and Pearl River County, Mississippi, which the Secretary of the Interior considers appropriate for the Bogue Chitto National Wildlife Refuge. The Notice also establishes that present and future Fish and Wildlife Service property or interests therein, within the acquisition boundary shown on the accompanying map, are components of Bogue Chitto National Wildlife Refuge. These lands are protected and administered in accordance with the Congressional Acts, Treaties and Executive Orders which provide the legal basis for operation of units of the National Wildlife Refuge System.

EFFECTIVE DATE: June 3, 1981.

FOR FURTHER INFORMATION CONTACT: Walter O. Stieglitz, Acting Regional Director, Fish and Wildlife Service, Richard B. Russell Federal Building, 75 Spring Street, S.W., Atlanta, Georgia 30303, telephone (404) 221-3588 (commercial) or 242-3588 (FTS).

SUPPLEMENTARY INFORMATION: The Act to establish the Bogue Chitto National Wildlife Refuge was enacted by Congress in June 28, 1980 (Public Law 96-288). The Act provided that within one year after enactment, the Secretary would designate approximately forty thousand acres of land and water for the refuge and publish in the **Federal Register** a map depicting the boundaries for the refuge. The Secretary may make minor revisions in the published boundaries for the refuge in order to carry out the purpose of the Act or to facilitate acquisition of property within the refuge. The Act further directed the Secretary to publish a notice in the **Federal Register** to establish Bogue Chitto National Wildlife Refuge whenever sufficient property is acquired that can be effectively managed as a refuge.

Notice is hereby given that, pursuant to the above Act, the project area boundary for the Bogue Chitto National Wildlife Refuge has been depicted on the following map entitled "Bogue Chitto National Wildlife Refuge" and dated March, 1980, and that sufficient property interests have been acquired to constitute an area that can be effectively managed as a unit of the National Wildlife Refuge System. Therefore, the Bogue Chitto National Wildlife Refuge is established effective on date of this notice.

BILLING CODE 4310–31–M

[INT DEIS 81–20]

Bureau of Land Management

Southern Rio Grande Draft Environmental Impact Statement

AGENCY: Bureau of Land Management (BLM), Las Cruces District.

ACTION: Notice of Availability and Public Hearings.

SUMMARY: Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the BLM has prepared a Draft Environmental Impact Statement (DEIS) on a proposed livestock grazing management program for the Southern Rio Grande Planning Area of the Las Cruces District in southwestern New Mexico (Dona Ana, Sierra, Luna, Socorro, and Otero Counties). This program would allocate forage to livestock and big game, determine levels of livestock grazing management, identify needed support facilities, outline a general implementation schedule, list standard operating procedures, and discuss the interrelationships with the other programs in the area.

DATE: Writtten comments on the DEIS should be submitted to the Las Cruces District Office no later than July 24, 1981.

ADDRESS: Comments should be sent to the Las Cruces District Office, Attention Ed Webb, EIS Team Leader, P.O. Box 1420, Las Cruces, New Mexico 88004.

FOR FURTHER INFORMATION CONTRACT: Ed Webb, EIS Team Leader, at the above address. Telephone (505) 524–3603 or FTS 572–0209.

SUPPLEMENTARY INFORMATION: Copies of the DEIS Have been distributed to a mailing list of identified interested parties. A limited number of additional copies are available at the Las Cruces District Office, 1705 N. Valley Drive, P.O. Box 1420, Las Cruces, New Mexico 88004. Public reading copies are available for review at the BLM State Office, Office of Public Affairs, U.S. Federal Building, Santa Fe, New Mexico and public and university libraries in Las Cruces, Alamogordo, Truth or Consequences, Deming, Silver City and Albuquerque, New Mexico and El Paso, Texas. Reviewers should retain the DEIS for future reference, as the final EIS may not reprint the full text of the DEIS. (The DEIS will be incorporated by reference in the final statement.)

Public hearings will be held on July 8 and 9, 1981 to receive oral or written comments on the merits of the proposal and alternatives and the adequacy of the DEIS. On July 8, 1981, a hearing will be held in Las Cruces, New Mexico at the Branigan Memorial Library, 200 E. Picacho beginning at 1:30 p.m. On July 9, 1981, a hearing will be held in Truth or Consequences, New Mexico at the Convention Center, on the corner of Daniels and McAdoo at 1:30 p.m. Oral comments will be limited to 10 minutes, and should be accompanied with a wrtten synopsis of comments. Anyone wanting to register for either of the public hearings to present oral comments should contact Rena Gutierrez at the Las Cruces District Office (phone (505) 524–3603) prior to July 2, 1981.

Dated: May 15, 1981.

Larry L. Woodard,

Associate State Director, New Mexico.

[FR Doc. 81–16436 Filed 6–3–81; 8:45 am]

BILLING CODE 4310–84–M

Rock Springs District Grazing Advisory Board; Meeting

May 26, 1981.

Notice is hereby given in accordance with P.L. 92–463 that a meeting of the Rock Springs District Grazing Advisory Board will be held on July 16, 1981.

The meeting will begin at 9:30 a.m. in the conference room of the Holiday Inn, 1675 Sunset Drive, Rock Springs, Wyoming.

The agenda for the meeting will include: (1) presentation of projects planned for Fiscal Year 1982 for construction with Range Betterment funds, (2) an update on the wild horse program and its impacts on AMP's, (3) the proposed Bureau's Rangeland Improvement policy, (4) a briefing on the Sandy ES AMP implementation, and (5) a reading of written statements and public comment period.

The meeting is open to the public. Interested persons may make oral statements to the Board between 2:30 and 3:00 p.m., or file written statement for the Board's consideration. Anyone wishing to make an oral statement must notify the District Manager, Bureau of Land Management, P.O. Box 1869, Rock Springs, Wyoming 82901 by July 15, 1980. Depending on the number of persons wishing to make oral statements, a per

person time limit may be established by the District Manager.

Summary minutes of the board meeting will be maintained in the District Office and be available for public inspection and reproductions (during regular business hours) within 30 days following the meeting.

Jerry K. Ostrom,

Assistant District Manager.

[FR Doc. 81-16439 Filed 6-2-81; 8:45 am]

BILLING CODE 4310-84-M

[Notice of Realty Action N-29324]

Nevada; Exchange of Public and Private Lands in Douglas and Clark Counties

The following described lands have been determined to be suitable for disposal by exchange under Section 206 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1716:

Mount Diablo Meridian, Nevada

T. 13 S., R. 71 E.,
Sec. 9: Lot 2 (the east 300' north of I-15 highway right-of-way),
Lot 3 (that portion north of the I-15 highway right-of-way), S½, S½, SW¼, NE¼, S½, SW¼, SE¼, NE¼, SE¼, SE¼, SE¼, NW¼, E½, E½, NE¼, SW¼, W½, NE¼, SE¼ (that portion north of I-15 highway right-of-way), NW¼, SE¼ (that portion north of I-15 highway right-of-way).
Comprising 82.5 acres of public land.

In exchange for these lands, the United States will acquire the following described lands from Mr. Donald Kitchin:

Mount Diablo Meridian, Nevada

T. 13 N., R. 19 E.,
Sec. 9: NW¼, NW¼.

Mount Diablo Meridian, Nevada

T. 14 N., R. 19 E.,
Sec. 28: SE¼, NE¼.
Comprising 80.0 acres of private land.

The purpose of this exchange is to acquire non-Federal land within the Toiyabe National Forest and to transfer public lands to other ownership to provide for the expansion of the community of Mesquite, Nevada. Jurisdiction of the non-Federal lands to be acquired within the National Forest would be transferred to the U.S. Forest Service. The proposed exchange is consistent with BLM land use planning for the public lands involved and the Forest Service's on-going program to acquire private holdings within national forests in Nevada. The exchange proposal has been discussed with Clark and Douglas County Government Officials. The public interest will be well served by making the exchange.

The values of the land to be exchanged are approximately equal; full equalization of values will be achieved either by adjusting the acreage to be exchanged or by payment to the United States by Mr. Donald Kitchin of funds in an amount not to exceed 25 percent of the total value of the lands to be transferred out of Federal ownership.

Lands to be transferred from the United States will be subject to the following reservations, terms, and conditions.

1. Oil and gas will be reserved to the United States for the duration of Oil and Gas Lease N-16513.

2. A 60-foot wide easement to Clark County for a road that provides access to the Clark County Sanitary Landfill established under the Recreation and Public Purposes Lease No. N-616.

Further information concerning the exchange, including the environmental assessment and land report, is available for review at the Las Vegas District Office, 4765 W. Vegas Drive, Las Vegas, Nevada 89102.

For a period of 45 days, beginning June 15, 1981, interested parties may submit comments to the State Director, BLM, Nevada State Office (N-943), P.O. Box 12000, Reno, Nevada 89520.

Upon publication of this Notice of Realty Action in the **Federal Register**, the public lands will be segregated from all other forms of appropriation under the public lands, except exchange, and the mining laws but not the mineral leasing lands for a period of two (2) years or upon issuance of patent or other documents of conveyance to such lands, whichever occurs first.

Dated: May 27, 1981.

Kemp Conn,

District Manager, Las Vegas District.

[OR 20231-A]

Oregon; Proposed Continuation of Withdrawal; Correction

In FR Doc. 81-13554, appearing on Page 25355 of the issue of Wednesday, May 6, 1981, change the description for Public Water Reserve No. 84 to read:

"T. 21 S., R. 22 E."

Dated: May 26, 1981.

Champ C. Vaughan, Jr.,

Acting Chief, Branch of Lands and Minerals Operations.

[FR Doc. 81-16561 Filed 6-2-81; 8:45 am]

BILLING CODE 4310-84-M

[OR 6245]

Oregon; Termination of Proposed Withdrawal and Reservation of Land

Notice of application, OR 6245, filed by the Bureau of Land Management, U.S. Department of the Interior, for withdrawal and reservation of land was published as Federal Register Document 70-10856 on Page 13221 of the issue of August 19, 1970. The withdrawal was proposed for an addition to the Hyatt Lake Recreation Area. The applicant agency has cancelled its application in its entirety. The land involved is described as follows:

Willamette Meridian

Revested Oregon and California Railroad Grant Land

T. 39 S., R. 3 E.,
Sec. 3, NE¼ and SE¼S½;
Sec. 11, W½;
Sec. 15, S½NE¼, W½NW¼, and E½SW¼;
Sec. 21, NW¼NE¼ and S½NE¼;
Sec. 22, S½NW¼.

The area described contains approximately 960 acres in Jackson County, Oregon.

Therefore, pursuant to the regulations contained in 43 CFR 2310.2-1(c), such land will be at 10 a.m. on July 9, 1981, relieved of the segregative effect of the above-mentioned application.

Dated: May 26, 1981.

Champ C. Vaughan, Jr.,

Acting Chief, Branch of Lands and Minerals Operations.

BILLING CODE 4310-84-M

Wilderness Decision

The Bureau of Land Management (BLM) has completed the inventory phase of the wilderness review of public lands in the Sand Dune area near St. Anthony, Idaho.

The inventory of the three Sand Dune units was not completed with the Statewide inventory in November 1980, due to an earlier appeal received on the initial inventory decision.

On April 29, 1981, the Interior Board of Land Appeals (IBLA) ruled on the appeal, instructing BLM to continue the inventory through the intensive inventory phase.

Publication of this notice marks the beginning of a 30-day comment period on the proposed decision.

Sand Dunes Intensive Inventory Proposed Decision

Unit		Acres		
Name	Number	Proposed as WSA	Not proposed as WSA	Total
Sand Mountain	35-3	21,340	5,492	26,832
Black Knoll	35-4		7,095	7,095
Big Sandy	35-5		10,735	10,735
Total		21,340	23,322	44,662

The 30-day public comment period begins on June 5, 1981, and will end on July 6, 1981. The following open house will be held for the purpose of exchanging information with the public:

June 11, 1981—Fremont County Courthouse, St. Anthony, Idaho, 7:00–9:00 PM

Written comments should be sent to either of the following offices:

Idaho State Office, Box 042, Federal Building, 550 W. Fort Street, Boise, Idaho 83724

Idaho Falls District Office, 940 Lincoln Road, Idaho Falls, Idaho 83401

To be utilized in the intensive inventory decision, comments should be unit-specific and should relate to the wilderness characteristics of the unit. General statements on characteristics as well as opinions for or against wilderness will be retained for use later in the study phase.

For further information, contact either of the offices listed above.

Dated: May 28, 1981.

R. Buffington,

State Director, Idaho BLM.

BILLING CODE 4310-84-M

National Park Service

Pan-Sun Excursion Boats, Inc.; Intention To Negotiate Concession Contract

Pursuant to provisions of Section 5 of the Act of October 9, 1965, (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that on or before July 6, 1981, the Department of the Interior, through the Regional Director, Southeast Region, National Park Service, proposes to negotiate a concession contract with Pan-Sun Excursion Boats, Inc., authorizing it to continue to provide excursion boat transportation, snack bar, and sundry sales services for the public at Gulf Islands National Seashore, Mississippi, for a period of approximately ten (10) years from the date of contract execution through December 31, 1992.

It has been determined that the proposed issuance of this contract does not have potential for causing significant impacts on the human environment and, therefore, additional environmental documentation is not required.

The foregoing concessioner has performed its obligations to the satisfaction of the Secretary under an existing permit which expires by limitation of time on December 31, 1982, and, therefore, pursuant to the Act of October 9, 1965, as cited above, is entitled to be given preference in the negotiation of a new contract. This provision, in effect, grants Pan-Sun Excursion Boats, Inc., as the present satisfactory concessioner, the right to meet the terms of responsive proposals for the proposed new contract and a preference in the award of the contract, if, thereafter, the proposal of Pan-Sun Excursion Boats, Inc., is substantially equal to others received. In the event a responsive proposal superior to that of Pan-Sun Excursion Boats, Inc., (as determined by the Secretary), is submitted, Pan-Sun Excursion Boats, Inc., will be given the opportunity to meet the terms and conditions of the superior proposal the Secretary considers desirable, and, if it does so, the new contract will be negotiated with Pan-Sun Excursion Boats, Inc. The Secretary will consider and evaluate all proposals received as a result of this notice.

Any proposal, including that of the existing concessioner, must be postmarked or hand delivered on or before the thirtieth (30th) day following publication of this notice to be considered and evaluated.

Interested parties should contact the Regional Director, Southeast Region, National Park Service, 75 Spring Street, SW, Atlanta, Georgia 30303, for information as to the requirements of the proposed contract.

Dated: May 18, 1981.

C. W. Ogle,

Acting Regional Director, Southeast Region.

BILLING CODE 4310-70-M

Pan Isles, Inc.; Intention To Negotiate Concession Contract

Pursuant to the provisions of Section 5 of the Act of October 9, 1965, (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that on or before July 6, 1981, the Department of the Interior, through the Regional Director, Southeast Region, National Park Service, proposes to negotiate a concession contract with Pan Isles, Inc., authorizing it to continue to provide excursion boat transportation services for the public at Gulf Islands National Seashore, Mississippi, for a period of approximately ten (10) years from the date of contract execution through December 31, 1992.

It has been determined that the proposed issuance of this contract does not have potential for causing significant impacts on the human environment and, therefore, additional environmental documentation is not required.

The foregoing concessioner has performed its obligations to the satisfaction of the Secretary under an existing permit which expires by limitation of time on December 31, 1982, and, therefore, pursuant to the Act of October 9, 1965, as cited above, is entitled to be given preference in the negotiation of a new contract. This provision, in effect, grants Pan Isles, Inc., as the present satisfactory concessioner, the right to meet the terms of responsive proposals for the proposed new contract and a preference in the award of the contract, if, thereafter, the proposal of Pan Isles, Inc., is substantially equal to others received. In the event a responsive proposal superior to that of Pan Isles, Inc., (as determined by the Secretary) is submitted, Pan Isles, Inc., will be given the opportunity to meet the terms and conditions of the superior proposal the Secretary considers desirable, and, if it does so, the new contract will be negotiated with Pan Isles, Inc. The Secretary will consider and evaluate all proposals received as a result of this notice.

Any proposal, including that of the existing concessioner must be postmarked or hand delivered on or before the thirtieth (30th) day following publication of this notice to be considered and evaluated.

Interested parties should contact the Regional Director, Southeast Region, National Park Service, 75 Spring Street, S.W., Atlanta, Georgia 30303, for information as to the requirements of the proposed contract.

Dated: May 18, 1981.

BILLING CODE 4310-70-M

Upper Delaware National Scenic and Recreation River; Meeting

AGENCY: National Park Service; Upper Delaware Citizens Advisory Council.

ACTION: Notice of meeting.

SUMMARY: This notice sets forth the date of the forthcoming meeting of the Upper Delaware Citizens Advisory Council.

Notice of this meeting is required under the Federal Advisory Committee Act.

DATE: June 26, 1981, 7:00 p.m.

ADDRESS: Arlington Hotel, Narrowsburg, New York

FOR FURTHER INFORMATION CONTACT: John T. Hutzky, Superintendent, Upper Delaware National Scenic and Recreation River, Drawer C, Narrowsburg, N.Y. 12764, (914/252-3947).

SUPPLEMENTARY INFORMATION: The Advisory Council was established under section 704(f) of the National Parks and Recreation Act of 1978, Pub. L. 95-625, 16 U.S.C. § 1274 note, to encourage maximum public involvement in the development and implementation of the plans and programs authorized by the Act. The Council is to meet and report to the Delaware River Basin Commission, the Secretary of the Interior, and the Governors of New York and Pennsylvania in the preparation of a management plan and on programs which relate to land and water use in the Upper Delaware region. The agenda for the meeting will include (1) implementation of section 704 of Pub. L. 95-625, and (2) new business.

The meeting will be open to the public. Any member of the public may file with the Council a written statement concerning agenda items. The statement should be addressed to the council c/o Upper Delaware National Scenic and Recreation River, Drawer C, Narrowsburg, N.Y. 12764. Minutes of the meeting will be available for inspection four weeks after the meeting at the temporary headquarters of the Upper Delaware National Scenic and Recreational River at the above address.

Dated: May 26, 1981.

Don H. Castleberry,

Acting Regional Director, Mid-Atlantic Region.

Bureau of Reclamation

[INT-DES 81-2]

Washington; Downstream Riverbank Stabilization Program, Grand Coulee Dam; Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, as amended, the Department of the Interior has prepared a draft environmental statement on the proposed Riverbank Stabilization Program on the Columbia River below Grand Coulee Dam in Washington. The proposed program would include those actions necessary to prevent the riverbanks from sliding as a result of the operation of the Third Powerplant at Grand Coulee Dam. Written comments may be submitted to the Regional Director by July 28, 1981.

Copies are available for inspection at the following locations:

Department of the Interior, Office of Environmental Affairs, Room 7622, Bureau of Reclamation, Washington, D.C. 20240, Telephone: (202) 343-4991

Division of Management Support; Library Branch, Engineering and Research Center, Room 450, Building 67, Denver Federal Center, Denver, CO 80225, Telephone: (303) 234-3019

Office of the Regional Director, Bureau of Reclamation, Box 043, 550 West Fort Street, Boise, ID 83724, Telephone: (208) 334-2108

Grand Coulee Project Office, Bureau of Reclamation, P.O. Box 620, Grand Coulee, WA 99133, Telephone: (509) 633-1360

Single copies of the statement may be obtained upon request to the Commissioner, Bureau of Reclamation, or the Regional Director. Copies will also be available for inspection in libraries in the project vicinity.

Dated: May 29, 1981.

Robert N. Broadbent,

Commissioner.

BILLING CODE 4310-09-M

INTERSTATE COMMERCE COMMISSION

Introduction to Uniform Rail Costing; Issuance

AGENCY: Interstate Commerce Commission.

ACTION: Notice of issuance of *Introduction to Uniform Rail Costing System.*

SUMMARY: The Commission's Bureau of Accounts announces the issuance of an *Introduction to the Uniform Rail Costing System: Its Development, Functions and Regulatory Role.* This publication is intended to acquaint the public with the new costing system which will soon replace Rail Form A as the primary regulatory costing tool.

ADDRESS: Copies of the Introduction can be obtained by writing: Room 6331, Interstate Commerce Commission, 12th and Constitution Avenue NW., Washington, D.C. 20423.

FOR FURTHER INFORMATION CONTACT: Walter Vliet, Room 6323, Interstate Commerce Commission, 12th and Constitution Avenue NW., Washington, D.C. 20423, Phone: (202) 275-6175.

SUPPLEMENTARY INFORMATION: The Introduction provides a general overview of the Commission's new costing system for railroads. It describes: (1) the evolution and legislative history of rail costing; (2) the basic costing concepts and alternative approaches to railroad costing; and (3) the basic components and underlying methodology employed in the Uniform Rail Costing System (URCS). It also contains an evaluation of URCS, including how the new system compares with Rail Form A. Finally, the system's role in the regulatory process is explored, as well as non-regulatory uses.

URCS responds to an ever growing need for reliable railroad cost information in both the regulatory area and the private sector. The Railroad Revitalization and Regulatory Reform Act of 1976 and the Staggers Rail Act of 1980 each expanded the costing responsibilities of the Commission. As a result of specific provisions of these acts, cost information is now used to define the scope of the Commission's authority, as well as to provide input for determining the reasonableness of rates charged by railroads.

By decreasing the economic regulation of rail transportation, these acts also increased the utility of rail cost information to railroads and shippers. Since the private sector now has greater freedom to negotiate shipping rates it must also accept greater responsibility for evaluating the reasonableness of these rates. URCS can be an important tool for both railroads and shippers in meeting this responsibility.

A more thorough examination of URCS and the underlying costing methodology will be included in another release, the "1979 Rail Cost Study: Preliminary Report," due to be issued in June 1981. This report is directed primarily toward potential users of URCS, but is written in a manner which allows all interested parties to understand the process employed, and the significance of the results obtained.

Dated: May 28, 1981.

Ronald S. Young,

Director, Bureau of Accounts.

BILLING CODE 7035-01-M

[Section 5a Application No. 23A, etc.]

Middle Atlantic Conference Agreement; et al.; Extension of Time for Filing Agreements

In the matter of Middle Atlantic Conference-Agreement (Section 5a Application No. 23A), New England Motor Rate Bureau, Inc.—Agreement (Section 5a Application No. 25),

Middlewest Motor Freight Bureau—Agreement (Section 5a Application No. 34).

AGENCY: Interstate Commerce Commission.

ACTION: Notice of extension of time for filing agreements.

SUMMARY: The present due date for filing new or amended motor carrier rate bureau agreements is May 26, 1981. The Middle Atlantic Conference (MAC) and the New England Motor Rate Bureau, Inc. (NEMRB) requested that, in view of their pending proposal to consolidate their operations, their filing due date be extended to July 20, 1981. The Middlewest Motor Freight Bureau (MWMFB) also requested an extension of the filing due date until June 10, 1981. We believe that extensions are warranted in both cases. The due date for filing by MAC and NEMRB is being extended until 15 days following the service of a decision in Section 5a Application No. 23A, *Middle Atlantic Conference Petition for Approval of Amendments to Agreement.* The due date for filing by MWMFB is being extended by 15 days.

DATES: Agreements filed by MAC and NEMRB are now due 15 days following the service of a decision in the case cited in the summary. MWMFB's agreement is now due June 10, 1981. Comments by interested parties are due 45 days thereafter.

FOR FURTHER INFORMATION CONTACT: Richard B. Felder or Jane F. Mackall, (202) 275-7656.

Decided: May 22, 1981.

By the Commission, Robert C. Gresham, Acting Chairman.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

Agricultural Cooperatives; Intent To Perform Interstate Transportation for Certain Nonmembers

Dated: May 29, 1981.

The following Notices were filed in accordance with section 10526(a)(5) of the Interstate Commerce Act. These rules provide that agricultural cooperatives intended to perform nonmember, non-exempt, interstate transportation must file the Notice, form BOP.102, with the Commission within 30 days of its annual meeting each year. Any subsequent change concerning officers, directors, and location of transportation records shall require the filing of a supplemental Notice within 30 days of such change. The name and address of the agricultural cooperative, the location of the records, and the name and address of the person to whom inquiries and correspondence should be addressed, are published here for interested persons. Submission of information that could have bearing upon the propriety of a filing should be directed to the Commission's Office of Consumer Protection, Washington, D.C. 20423. The Notices are filed in Ex Parte No. MC-75 (Sub No. 1) and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

BILLING CODE 7035-01-M

[Docket No. AB-6 (Sub-82)]

Burlington Northern Inc.—Abandonment Near Fairview Junction and Great Bend, ND; Findings

Notice is hereby given pursuant to 49 U.S.C. § 10903 that by a decision dated May 27, 1981, the Commission, Review Board Number 1, found that the public convenience and necessity require or permit abandonment by Burlington Northern, Inc. of its line of railroad between Fairview Junction and Great Bend, ND., a total distance of 8.81 miles, subject to the conditions for employee protection provided in *Oregon Short Line R. Co.—Abandonment—Goshen,* 360 I.C.C. 91 (1979). A certificate of abandonment will be issued permitting this abandonment unless within 15 days from the date of this publication the Commission also finds that:

(1) a financially responsible person (or government entity) has offered financial assistance (through subsidy or purchase) to enable the rail service to be continued; and

(2) it is likely that:

(a) if a subsidy, the assistance would cover the difference between the revenues attributable to the line and the avoidable cost of providing rail freight service on the line, together with a reasonable return on the value of the line, or

(b) if a purchase, the assistance would cover the acquisition cost of all or any portion of the line.

Any financial assistance offer must be filed with the Commission and served concurrently on the applicant, with copies to Ms. Ellen Hanson, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this Notice.

If the Commission makes the findings described above, the issuance of an abandonment certificate will be postponed. An offeror may request the Commission to set conditions and amount of compensation within 30 days after an offer is made. If no agreement is reached within 30 days of an offer, and no request is made for the Commission to set conditions or amount of compensation, an abandonment certificate will be issued. Upon notification to the Commission of the execution of a subsidy or purchase agreement, the Commission shall further postpone the issuance of a certificate for such time as the agreement is in effect. Information and procedures regarding financial assistance for continued rail service are contained in 49 U.S.C. 10905 (as amended by the Staggers Rail Act of

1980, Pub. L. 96–448) and 49 C.F.R. 1121.38.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035–01–M

[Docket No. AB–1 (Sub-No. 115F)]

Chicago & North Western Transportation Co.—Abandonment in Oneida and Vilas Counties, WI, and Gogebic County, MI; Findings

Notice is hereby given pursuant to 49 U.S.C 10903 that by a decision decided May 18, 1981, a finding, which is administratively final, was made by the Commission, Review Board Number 3, that the public convenience and necessity permit the abandonment by the Chicago and North Western Transportation Company (C&NW) of the line of railroad extending from milepost 239.9 near Monico, WI, to railroad milepost 292.8 near Watersmeet, MI, in Oneida and Vilas Counties, WI and Gogebic County, MI, a distance of 52.9 miles, subject to the conditions for the protection of employees developed in *Oregon Short Line R. Co.-Abandonment-Goshen,* 360 I.C.C. 91 (1979), and provided that C&NW shall keep in tack all of the right-of-way underlying the track, including all bridges and culverts, for a period of 120 days from the date of issuance of the certificate, to permit any State or local government agency or other interested party to negotiate the acquisition for public use of all or any portion of this line. A certificate of abandonment will be issued to the C&NW based on these findings, unless within 15 days from the date of publication the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued. The offer must be filed with the Commission and served concurrently on the applicant, with copies to Ms. Ellen Hanson, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this notice, and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed. An offer may request the Commission to set conditions and amount of compensation within 30 days after an offer is made. If no agreement is reached within 30 days of an offer, and no request is made on the Commission to set conditions or the amount of compensation a certificate of abandonment will be issued no later than 50 days after the Notice is published. Upon notification to the Commission of the execution of an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such as agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the rail line are contained in 49 U.S.C. 10905 (as amended by the Staggers Rail Act of 1980, Pub. L. 96–448, effective October 1, 1980). All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced decision.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035–01–M

[Volume No. 92]

Motor Carrier Permanent Authority Decisions; Restriction Removals; Decision-Notice

Decided: May 28, 1981.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR 1137. Part 1137 was published in the **Federal Register** of December 31, 1980, at 45 FR 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Restriction Removal Board, Members Sporn, Alspaugh, and Shaffer.

Agatha L. Mergenovich,

Secretary.

MC 989 (Sub-41)X, filed May 12, 1981. Applicant: IDEAL TRUCK LINES, INC., P.O. Box 330, 418 East Holme, Norton, KS 67654. Representative: Ed J. Copenhaver, 6785 East 50th Avenue, Commerce City, CO 80022. Applicant seeks to remove restrictions in its lead and Sub-Nos. 11, 13, 19, 20, 21, 24, 30F, 32F, 36F, 40 and 41 certificates to (A) remove all restrictions in its general commodities authority "except classes A and B explosives," (B) broaden the territorial descriptions of the regular-route authority to authorize service at all intermediate points between points in KS, MO, NE, CO, IA, and WY, and authorize two-way service in place of one-way authority; (C) remove restrictions against the transportation of shipments moving to or from Denver, CO and points in its commercial zone on its regular route between Scottsbluff, NE and Casper, WY in Sub-No. 32, remove the restriction against transportation of traffic originating at or destined to Beloit, KS on its regular route authority in Sub-No. 20, and the restriction against joint or interline service between Omaha and Lincoln, NE and points west of Grand Island, NE in Sub-No. 11; and (D) broaden the territorial description in Sub-No. 19 from the named facilities near Underwood, IA to county-wide authority to serve Pottawattamie County, IA as an off-route point.

MC 15859 (Sub-14)X, filed May 15, 1981. Applicant: THE HINE LINE, P.O. Box 68, Burket, IN 46508. Representative: Michael D. McCormick, Andrew K. Light, 1301 Merchants Plaza, Indianapolis, IN 46204. Applicant seeks to remove restrictions in its lead and Sub-Nos. 5, 6, 10F and 12F certificates to: (1) broaden the commodity description in (a) its lead and Sub-Nos. 5, 6, and 10F from hides, pelts, skins, green salted hides, green hide trimmings, cracklings, grease, casings, tankage, tallow, packing house by-products, sheep pelts, and other packers' offal by-products, to "food and related products," and "leather or leather products," (b) its lead and Sub-No. 6 from tanning extracts, salt, and fertilizer to "chemicals or allied products," and (c) Sub-No. 6 and 12F

from iron and steel fencing and iron and steel articles to "metal products;" (2) expand specific plantsite and city authority to county-wide authority in (a) the lead from (i) Chester and Hallstead, PA, to Susquehanna County, PA, (ii) Norwich, CT, to New London County, CT; and (iii) Elkland and Westfield, PA, to Tioga County, PA, (b) Sub-No. 6 from Sandusky, OH, to Erie County, OH, and (c) Sub-No. 12F from facilities at Weirton, WV and Steubenville, OH, to Hancock County, WV, and Jefferson County, OH; (3) expand one-way to radial authority in (a) the lead (i) between Susquehanna County, PA, Philadelphia, PA, and Wilmington, DE and, New London County, CT, (ii) between Tioga County, PA and Wilmington, DE, (b) Sub-No. 6 (i) between Cincinnati, OH and, points in IN, (ii) between Detroit, MI, and, points in IN, (iii) between Chicago, IL, and, points in IN, (iv) between Toledo, OH, and, points in IN, (v) between Erie County, OH and, points in IN, and (vi) between Chicago, IL, and, points in Darke, Defiance, Mercer, Paulding, Van Wert, and Williams Counties, OH, and (c) in Sub-No. 12F between Hancock County, WV and Jefferson County, OH, and, points in IN, IA, KS, MN, MO, NE, and WI; (6) in Sub-No. 10F remove the restriction against the transportation of shipments originating at or destined to Memphis, TN.

MC 31498 (Sub-3)X, filed May 14, 1981. Applicant: K & T AIR FREIGHT, INC., 16525 Eastland Street, Roseland, MI 48066. Representative: William B. Elmer, 624 Third Street, Traverse City, MI 49684. Applicant seeks to remove restrictions in its Sub-No. 1F certificate to (1) remove all exception from its general commodity authority except classes A and B explosives; (2) eliminate the facilities limitation at Marysville, MI; and (3) replace cities with authority to serve to counties as follows: Marysville with St. Claire County, MI, and Detroit with Wayne, Oakland, Macomb, Monroe, Livingston, and Washtenaw Counties, MI.

MC 37342 (Sub-1)X, filed May 13, 1981. Applicant: HUDSON VALLEY EXPRESS, INC., 94 Broadway, Jersey City, NJ 07306. Representative: Michael R. Werner, P.O. Box 1409, 167 Fairfield Road, Fairfield, NJ 07006. Applicant seeks to remove restrictions from its lead certificate to (1) broaden the commodity description from women's and children's ready-to-wear garments and materials used in the manufacture thereof and wearing apparel and cut or uncut goods, trimmings, buttons, clips clasps and other articles to "wearing apparel and materials, supplies and equipment used in the manufacture, sale and distribution of wearing apparel,"; (2) delete the limitation from the commodity description "only when such articles are used in the manufacture of wearing apparel being transported or to be transported"; (3) expand the off-route territorial scope from Passaic, NJ, and Poughkeepsie, Malboro and Haverstraw, NY to Dutchess, Putnam, Westchester and Ulster Counties, NY and Bergen and Passaic Counties, NJ; and (4) remove off-route point service restrictions at Passaic, NJ to or from New York, NY.

MC 45918 (Sub-3)X, April 1, 1981, previously noticed in the **Federal Register** of April 23, 1981, republished as follows: Appliant: D. SABATELLI, INC., 630 S. Ridley Creek Road, Media, PA 19063. Representative: Anthony J. Sabatelli (same address as above). Applicant seeks to remove restrictions in its lead certificate to: (1) broaden the commodity descriptions from (a) crushed stone and gravel and prepared bituminous road surfacing materials, to "construction and road materials and clay, concrete, glass, and stone products" in the lead; (b) road and building contractors' materials; equipment and supplies, including specific named commodities to "building materials; commodities in bulk; machinery, equipment, and supplies; metal products" in the lead; (2) replace specific point authority with county-wide authority as follows: Glen Mills, and Chester, PA, with Delaware County, PA; that part of NJ within 10 miles of City Hall, Camden, NJ, with Camden, Gloucester and Burlington Counties, NJ; and those parts of New Jersey and Pennsylvania within 25 miles of City Hall, Phildelphia, PA, with Bucks, Montgomery, Chester, Philadelphia, and Delaware Counties, PA, and Gloucester, Salem, Camdem, Burlington, Monmouth, Somerset, Mercer, Atlantic, Middlesex, Ocean, Cumberland and Hunterdon Counties, NJ; and (4) expand its one-way authority to radial authority between Delaware County, PA, and described portions of DE, NJ, Camden, Gloucester and Burlington Counties, NJ. The purpose of this republication is to show expansion to all counties within 10 miles of Camden and 25 miles of Philadelphia by removal of the City Hall limitation and expansion to the appropriate counties from the city limits.

MC 52869 (Sub-101)X, filed May 12, 1981. Applicant: NORTHERN TANK LINE, P.O. Box 970, Miles City, MT 59301. Representative: Michael E. Miller, 502 First National Bank Bldg., Fargo, ND 58126. Applicant seeks to remove restrictions in its Sub-Nos. 43, 47, 54, 58, 59, 67, 69, 77, 78, 82, 83, 85, 91, 96, 97 and 98 certificates (1) to obtain return trip authority in all subs except Sub-No. 82; (2) to expand the commodity descriptions from liquefied petroleum gas, petroleum and petroleum products, or vegetable oils: in bulk, in tank vehicles to "commodities in bulk" in all subs except Sub-No. 82; (3) to remove a less than county-wide territorial restriction in its Sub-No. 54 "except points on U.S. Hwy 71 and U.S. Hwy 52"; (4) remove a restriction against petroleum and petroleum products, and to foreign commerce in its Sub-No. 82; and (5) to remove facilities limitations in Sub-Nos. 58, 77 and 78; and replace those designations and city-wide with county-wide authority: Tioga, ND with Williams county, ND, and Beltrami, MN with Polk County, MN in Sub-No. 43; Tioga with Williams County, ND; Atwater, MN, with Kandiyohi County, MN; Cokato, MN, with Wright County, MN, in Sub-No. 47; Minot, ND, with Ward County, ND in Sub-No. 58; Culbertson, MT with Roosevelt County, MT in Sub-No. 59; Mentor, MN, and points within 5 miles thereof, with Polk and Red Lake Counties, MN in Sub-No. 67; Aberdeen, SD, with Brown County, SD in Sub-No. 77; Jamestown, ND, with Stutsman County, ND in Sub-No. 78; and Casselton, ND with Cass County, ND in Sub-No. 83.

MC 59909 (Sub-17)X, filed May 15, 1981. Applicant: JACOBS TRANSFER INC., 2300 Beaver Road, Landover, MD 20785. Representative: Eric Meierhoefer, Suite 1000, 1029 Vermont Avenue, NW., Washington, DC 20005. Applicant seeks to remove restrictions in its MC–52974 (Sub-No. 10) permit to broaden the territorial description to between points in the US, under continuing contract(s) a named shipper.

MC 106863 (Sub-2)X, filed May 14, 1981. Applicant: BACON MOTOR EXPRESS, INC., P.O. Box 11207, Atlanta, GA 30310. Representative: Warren A. Goff, 2008 Clark Tower, 5100 Poplar Ave., Memphis, TN 38137. Applicant seeks to remove restrictions from its lead permit to (A) amend commodity descriptions from specified food products, display racks, glass jars, printed matter, stationery, labels, twine and glassine bags, gummed tape, corrugated boxes, metal drums and containers, to (1) "food and related products", (2) "miscellaneous products of manufacture", (3) "clay, concrete, glass or stone products", (4) "pulp, paper and related products", (5) "printed matter", (6) "metal products" and (7) "rubber and plastic products", and (B) amend the territorial description to

"between all points in the United States".

MC 106920 (Sub-132)X, filed May 4, 1981. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, OH 45869. Representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 Eleventh St., NE., Washington, D.C. 20001. Applicant seeks to remove restrictions in its Sub-Nos. 86, 87, 94, and 96 certificates to (1) broaden the commodity description from (a) glass products or articles, clay, clay products or clay articles, (b) metal products or articles, (c) plastic products or articles, (d) feldspar and talc, (e) molds and machinery used un the production of glass products or articles, (f) bottle coating systems, and (g) parts and accessories for items a through f in Sub-Nos. 86, 87, and 96 to "concrete, clay, glass or stone products, metal products, rubber and plastic products, ores and minerals and chemicals and related products, machinery, bottle coating systems, and parts and accessories therefor"; from (a) glass, metal, plastic, paper, wax, clay, feldspar, wood products, anti-pollution and biochemical apparatus, products used in radiological research, organic chemistry kits, talc, candles, pottery, chinaware, ceramics, gift items and materials and supplies used in the repair and maintenance of boats, (b) machinery, parts and accessories for commodities named in (a) above, and (b) materials, equipment and supplies used in the manufacture and distribution of commodities in (a) and (b), to "general commodities (except classes A and B explosives)" in its Sub-No. 94; (2) replace named facilities and points as follows: Flat River, MO, with St. Francois County, MO, in Sub-No. 86, Centralia, IL, with Marion County, IL, in Sub-No. 87, and Springfield, KY, with Washington County, KY, in Sub-No. 94; (3) remove facilities limitations in Cumberland, Ocean, Atlantic, Gloucester, Mercer, Salem, Camden and Cape May Counties, NJ, in Sub-No. 94; and (4) remove "in bulk" restrictions in Sub-Nos. 86, 87, 94, and 96.

MC 109818 (Sub-95)X, filed May 13, 1981. Applicant: WENGER TRUCK LINE, INC., 3909 West Rusholme, P.O. Box 3427, Davenport, IA 52808. Representative: Larry D. Knox, 600 Hubbell Building, Des Moines, IA 50309. Applicant seeks to remove restrictions from its Sub-Nos. 27, 30, 34F, 37F, 39F, 46F, 56F, and 57F, certificates to (1) change the commodity descriptions from foodstuffs and nonedible food products and frozen foods to "food and related products and equipment, materials and supplies used in the manufacture, distribution, or sale thereof"; (2) delete the exception of commodities in bulk in all certificates except Sub-Nos. 56F and 57F; (3) delete vehicle restriction in Sub-No. 27; (4) remove the facilities limitations in Sub-Nos. 30, 34F, 37F, 39F, and 56F; (5) delete the "originating at or destined to" restrictions in Sub-Nos. 27, 30, 34F, 37F, 39F, and 56F; and (6) authorize radial authority where only one-way exists between specified points located in the central and eastern portions of the U.S.

MC 111936 (Sub-25)X, filed May 13, 1981. Applicant: MURROW'S TRANSFER, INC., P.O. Box 4095, High Point, NC 27263. Representative: Wilmer B. Hill, 805 McLachlen Bank Building, 666 Eleventh Street, NW., Washington, D.C. 20001. Applicant seeks to remove restrictions in its Sub-No. 15F certificate to (A) broaden the commodity description to "furniture and fixtures" from new furniture, crated and new upholstered furniture (except when in boxes, creates and cartons), damaged or rejected shipments of new, upholstered furniture, crated or uncrated; and (B) authorize radial authority to replace existing one-way service between points in various combinations of eastern States.

MC 121795 (Sub-No. 3)X, filed May 15, 1981. Applicant: LAKESHORE WAREHOUSE, INC., 12010 Toepfer Road, Warren, MI 48089. Representative: William B. Elmer, 624 Third Street, Traverse City, MI 49684. Applicant seeks to remobe restriction in its Sub-No. 1 certificate to: (1) broaden the commodity description from flour to "food and related products"; (2) remove the "in bulk, in tank vehicles" restriction; (3) expand facilities at Detroit, MI to city-wide authority in Detroit, MI; (4) authorize radial authority in place of existing one-way authority to authorize service between Detroit, MI, and MI and OH; and (5) eliminate the "ex-rail" restriction.

MC 123294 (Sub-No. 91)X, filed April 24, 1981. Applicant: WARSAW TRUCKING CO. INC., Sawyer Center, Route 1, Chesterton, IN 46304. Representative: Sterling W. Hygema (same as applicant). Applicant seeks to remove restriction in its lead and Sub-Nos. 6, 7, 9, 10, 13, 15, 19, 20, 21, 23, 24, 26, 27, 28, 30, 31, 34, 35, 36, 38, 40, 42, 44, 45, 46, 51, 63, 64F, 66F, 69F, 70F, 71F, 73F, 77F, 78F, 79F, 80F, 81F, 82F, 83F, 84F, 85F, 87F and 88F certificates to (1) broaden the commodity descriptions to "food and related products" from, for example, poultry feeds, mineral mixtures, stock feeds, meat scraps, animal and poultry tonics, medicines and insecticides, soy flour, foodstuffs and starch, in the lead and Sub-Nos. 21, 30, 31, 36, 40, 77F and 88F: to "textile products" from, for example, brattice cloth, mine vents, jute, and cotton duck, in the lead and Sub-Nos. 7 and 84F; to "lumber and wood products" from doors and windows, in Sub-No 13; to "pulp, paper and related products" from for example, paper, paper products, scrap paper, rags, paper mill products, etc., in the lead and Sub-Nos. 9, 20, 44, 51, 66F, 70F, 73F, 81F, 82F, 83F, and 87F; to "chemicals and related products" from, for example, insecticides, high temperature bounding cement, and feed preservative, in Sub-Nos. 21, 30, 31, 34, 35, 36, and 88F; to "petroleum or coal products" from, for example, coal, coke, asphalt and asphalt filler, in Sub-Nos. 6, 45, 64F, and 69F; to "rubber and plastic products" from, for example, rubber, plastic bottles, plastic products, and ridged pipe, in Sub-Nos. 7, 71F, 73F, 83F, and 84F; to "clay, concrete, glass, or stone products" from, for example, clay, rock wool, mineral wool, insulating materials, and mineral fiber products, in Sub-Nos. 7, 13, 19, 23, 28, 34, 36, 38 and 78F; to "metal products" from, for example, iron castings, rough iron castings, poultry equipment, sheet metal, wire, metal stampings, metal wheels, aluminum ingots, aluminum scrap, non-ferrous metals and feeding equipment, in the lead and Sub-Nos. 6, 7, 10, 15, 24, 26, 35, 42, 46, 63 and 85F; to "machinery" from heavy machinery, in Sub-No. 13; to "waste or scrap materials" from, for examples, meat scraps, scrap paper, rags, aluminum scrap, and non-ferrous scrap, in Sub-Nos. 15, 24, 26, 46, and 63; and to "general commodities (except classes A and B explosives)" from general commodities (with exceptions), in Sub-No. 79F, (2) replace its one-way authority with radial authority between numerous named points throughout the United States, (3) remove the originating at or destined to restrictions in the lead and Sub-Nos. 6, 7, 9, 10, 15, 19, 20, 24, 27, 28, 34, 35, 38, 40, 45, 64F, 66F, 69F, 70F, 71F, 73F, and 78F, (4) remove the "in bulk, in tank, or hopper-type vehicles" restrictions, in Sub-Nos. 6, 19, 20, 21, 27, 28, 31, 35, 36, 45F, 69F, 73F, 78F, and 79F, (5) remove the except size and weight restriction, in Sub-No. 10 and (6) broaden the territorial description by substituting county-wide and city-wide authority for named facilities and city-wide authority as follows: Kosciusko County, In (for Warsaw, IN) on sheets 2, 4, 5, and 6 of the lead and Sub-Nos. 6, 7, 10, 40, 64, 84 and 85; Montgomery County, OH (for Dayton, OH), on sheets 2 and 3 of the lead and Sub-Nos. 51 and 57; Hamilton County, OH (for Cincinnati, OH), sheets 2 and 3 of the lead and Sub-No. 51; LaSalle County, IL

(for LaSalle, IL), sheet 2 of the lead; adams County, IL (for Quincy, IL), sheet 1, 2, 3 and 4 of the lead and Sub-Nos. 9, 21, 31 and 36; Allegheny County, PA (for Pittsburgh and Carnegie, PA), sheet 2 of the lead and Sub-No. 7; Peoria County, IL (for Peoria, IL), sheet 2 of the lead; Isabella County, MI (for Mt. Pleasant, MI), sheet 3 of the lead; Franklin County, OH (for Columbus, OH), sheet 3 of the lead; Allen County, OH (for Lima, OH), sheet 3 of the lead; Marion County, IN (for Indianapolis, IN), sheet 3 and 4 of the lead and Sub-Nos. 9 and 77; McDonough County, IL (for Macomb, IL), sheet 3 of the lead; Licking County, OH (for Greenville, OH), sheet 3 of the lead; Kanawha County, WV (for Belle, WV), sheet 4 of the lead; Butler County, OH (for Hamilton, OH), sheets 2 and 4 of the lead and Sub-No. 1; Milwaukee County, WI (for Milwaukee, WI), sheet 4 of the lead and Sub-No. 9; Racine County, WI (for Racine, WI), sheet 4 for the lead and Sub-No. 9; Rock County, WI (for Beloit, WI) sheet 4 of the lead; Hamilton County, OH (for Lockland, OH), sheet 4 of the lead and Sub-No. 87; Houston County, AL (for Dorhan, AL), in Sub-No. 7; Lee County, AL (for Salma, AL), in Sub-No. 7; Wabash County, IN (for Wabash, IN), in Sub-Nos. 13, 15, 24 and 28; Jefferson County, KY (for Louisville, KY), in Sub-Nos. 9 and 13; Huntington County, IN (for Huntington, IN), in Sub-Nos. 13 and 19; Miami County, OH (for Troy, OH), Champaign County, OH (for Urbana, OH), in Sub-Nos. 20, 44 and 77; Madison County, IN (for Alexandria, IN) in Sub-No. 23; Kosciusko County, IN (for Atwood, IN), in Sub-No. 26; Ottawa County, OH (for Gypsum, OH), in Sub-No. 27; Henry County, IL (for Alpha, IL), in Sub-Nos. 30 and 31; Kane County, IL (for Aurora, IL) and Starke County, OH (for Alliance, OH) in Sub-No. 34; Kalamazoo County, MI (for Kalamazoo, MI), in Sub-Nos. 19, 34 and 73; Wells County, IN (for Bluffton, IN), in Sub-No. 35; Middlesex County, NJ (for South Plainfield, NJ), in Sub-No. 38; Kosciusko County, IN (for Milford, IN), in Sub-No. 42; Lawrence County, IL (for Lawrenceville, IL), in Sub-No. 45; Cuyahoga County, OH (for Cleveland, OH), in Sub-No. 46; Grundy County, IL (for Morris, IL), in Sub-No. 87 and Pike County, IL (for Pittsfield, IL), in Sub-No. 88.

MC 123872 (Sub-127)X, filed May 12, 1981. Applicant: W & L MOTOR LINES, INC., Post Office Box 3467, Hickory, NC 28601. Representative: Timothy C. Miller, Suite 301, 1307 Dolley Madison Blvd., McLean, VA 22101. Applicant seeks to remove restrictions in its Sub-Nos. 104F, 116F and 118 certificates to (1) broaden the commodity descriptions from (a) cellulose wadding and padding, paper products, and extruded plastic foam and film to "textile mill products, pulp, paper, and related products, printed matter, and rubber and plastic products", in Sub-No. 116F, and (b) plastic articles to "rubber and plastic products," in Sub-Nos. 118; (2) eliminate the commodities (A) "in bulk" restriction, in all certificates, (b) "in tank vehicles" restriction, in Sub-No. 104F, and (c) "in vehicles equipped with mechanical refrigeration," in Sub-No. 104F; and (B) authorize county-wide, radial authority to replace existing city-wide, one-way service: between Hartford County, CT (for East Hartford, CT), Grenada County, MS (for Grenada, MS), Caldwell County, NC (for Patterson, NC) and Northumberland and Lancaster Counties, PA (for Paxinos and Lititz, PA), and, the western U.S., in Sub-No. 116F.

MC 125813 (Sub-26)X, filed May 6, 1981. Applicant: CRESSLER TRUCKING, INC., 691 Orrstown Road, Shippensburg, PA 17257. Representative: Lawrence E. Lindeman, 1032 Pennsylvania Building, Pennsylvania Ave. & 13th St., N.W., Washington, DC 20004. Applicant seeks to remove restrictions in its lead and Sub-Nos. 12, 14, 15, 16, 17F, 20F, 21F, 22F, and 23F certificates to (A) broaden the commodity descriptions in the lead from: (1) patterns for metal castings, and containers for pumps to "lumber and wood products", (2) from party novelties, scrap paper containers, decorations, supplies used by florists, and paper to "pulp paper and related products", (3) from operating and installation manuals for pumps, advertising materials, novelties, and materials used by florists to "printed matter", (4) from metal castings, metal plates, metal studs, bucket traps, thermodisc traps, temperature regulators, pressure regulators, machinery materials, and tin cans to "metal products", (5) from pumps, pump parts, air separators, machinery parts, and machinery to "machinery", (6) from party decorations, valves, vacuum breakers, thermostatic traps, float traps, water hammer arrestors, extruded sheet plastics, scrap extruded sheet plastics, artificial wreaths, artificial flowers, and artificial plants to "rubber and plastic products", (7) from expansion joints, elbows and their fittings and connections, vent tees, distribution flow tees, components, accessories and parts of plumbing and drainage systems to "building materials", (8) from soybean oil meal, poultry, agricultural commodities, tomato plants, tomatoes, groceries, fresh fruits and vegetables to "food and related products", (9) from new clothing to "textile mill products", (10) from new furniture to "furniture and fixtures", and (11) from fertilizer, paint, varnish and lacquer to "chemicals and related products"; in its Sub-No. 12, from (1) party novelties to "pulp, paper and related products", (2) from materials used in the distribution of party decorations to "printed matter," (3) from materials used in the manufacture of party novelties to "machinery", and (4) from party decorations to "rubber and plastic products"; in Sub-No. 14 from (1) commodities used in the manufacture of core boxes, and core boxes to "lumber and wood products", and "building materials", (2) from castings and commodities used in the manufacture of castings to "metal products", (3) from pumps to "machinery", (4) from accessories for pumps and parts to "rubber and plastic products", (5) from commodities used in the manufacture of pump accessories to "chemicals and related products", (6) from commodities used in the manufacture of castings and patterns to "ores and minerals", and (7) from commodities used in the manufacture of pump parts to "clay, concrete, glass or stone products;" in Sub-No. 15 from feed and feed ingredients to "food and related products;" in Sub-Nos. 16, 17, 21, and 22 from (1) wooden patterns for rock crushers to "lumber and wood products", (2) rock crusher parts and tools, and scrap steel to "metal products", and (3) rock crushers and defective rock crushers to "machinery;" in Sub-No. 20 from (1) ferrous alloys to "ores and minerals", and (2) foundry supplies to metal products, coal and coal products and clay, concrete, glass or stone products;" in Sub-No. 23 from shaft and clutch couplings to "metal products", and from shafting pulleys and sheaves to "machinery;" (B) enlarge the territorial description by replacing city-wide authority with county-wide authority wherever they appear in each certificate: from Shippensburg, PA to Cumberland and Franklin Counties, PA; from Peru, IN to Miami County, IN; from Indianapolis, IN to Boone, Hendricks, Morgan, Marion, Hamilton, Johnson, Shelby, and Hancock Counties, IN; from Little Falls, NY to Herkimer County, NY; from Oakland, NJ to Bergen County, NJ; from Mechanicsburg, PA to Cumberland County, PA; from Bellevue, Delphos, Fostoria, and Painesville, OH to Erie, Sandusky, Seneca, Allen, Putnam, Van Wert, Hancock, Wood, and Lake Counties, OH; from Decatur, IL to Macon County, IL; from Frankfurt, IN to Clinton County, IN; from Frederick and Hagerstown, MD to Frederick, and Washington Counties, MD; from

Wilmington and Dover, DE to New Castle and Kent Counties, DE and Salem County, NJ; from Jersey City, Camden, and Newark, NJ to Bergen, Hudson, Essex, Union, Camden, Gloucester, and Burlington Counties, NJ, Richmond, Manhattan, and Kings Counties, NY and Philadelphia County, PA; from Binghamton, Buffalo, Rochester, Syracuse, Endicott, Johnson City, Utica, Ithaca, Geneva, and Albany, NY to Broome, Erie, Niagara, Monroe, Onondaga, Madison, Oneida, Herkimer, Tompkins, Seneca, Albany, and Rensselaer Counties, NY; from Chambersburg, PA to Franklin County, PA; from Smithsburg, MD to Washington County, MD; from Bowling Green, OH to Wood County, OH; from Batavia, NY to Genessee County, NY; from Salem, NJ to Salem County, NJ; from Greencastle, Gettysburg, Littlestown, Hanover, and Waynesboro, PA to Franklin, Adams, and York Counties, PA; from Roxbury and Newville, PA to Franklin and Cumberland Counties, PA; from Mount Pulaski, IL to Logan County, IL; from Westpoint, NE to Cuming County, NE; from Atchison, KS to Atchison County, KS and Platte and Buchanan Counties, MO; from Greencastle, PA to Franklin County, PA; from Decatur, and Danville, IL to Macon, and Vermilion, Counties, IL; from Lawrence, KS to Douglas, Jefferson, and Leavenworth Counties, KS; from Carlisle, PA to Cumberland County, PA; from Sheffield, AL to Colbert and Lauderdale Counties, AL; from Milwaukee, WI to Milwaukee, Waukesha, Racine, Washington, and Ozaukee Counties, WI; from Trenton, TN to Gibson County, TN; from Chambersburg, PA to Franklin County, PA; from Atlanta, GA to Fulton, De Kalb, Henry, Clayton, Douglas, and Cobb Counties, GA; from Dallas, TX to Dallas, Tarrant, Kaufman, Rockwall, Collin, and Denton Counties, TX; from San Leandro, CA to Alameda, and Contra Costa, Counties, CA, and from Tulsa, OK to Tulsa, Rogers, Wagoner, Creek, and Osage Counties, OK; (C) replace one-way with round-trip authority between points located throughout the U.S. in each certificate; (D) remove "in bulk" restrictions in Sub-Nos. 12, 14, 15, and 22; (E) remove facilities limitations wherever they appear in each certificate; and (F) delete "originating at or destined to" restrictions wherever they appear in each certificate.

MC 128734 (Sub-7)X, filed May 15, 1981. Applicant: W. B. PRODUCE HAULERS, INC., 525 Cottage Grove, S.W., Grand Rapids, MI 49507. Representative: Martin J. Leavitt, 22375 Haggerty Road, P.O. Box 400, Northville, MI 48167. Applicant seeks to remove restrictions from its Sub-No. 6F permit to expand its territorial description to between points in the U.S. under continuing contract(s) with a named shipper.

MC 134235 (Sub-34)X, filed May 11, 1981. Applicant: KUHNLE BROTHERS, INC., P.O. Box 375, Newbury, OH 44056. Representative: Neal A. Jackson, 1156 15th Street, N.W., Washington, DC 20005. Applicant seeks to remove restrictions in its Sub-Nos. 1, 3, 6F, 8F, 9F, 11F, 14F, 15F, 16F, 18F, 19F, 21F, 25F, 27 and 28F certificate to (A) broaden the commodity description fo (1) "chemicals and related products", from salt, salt products and solar salt in Sub-Nos. 1, 3, 14F, 15F, 19F, 21F and 25F, (2) "commodities in bulk" from salt, in bulk; salt products, in bulk; solar salt, in bulk and rock salt, in bulk, in Sub-Nos. 6F, 8F, 9F, 11F, 16F and 18F, (3) "food and related products" from flour, and pepper in packages when transported in mixed loads with salt and salt products, in Sub-Nos. 3 and 27, and (4) "building materials" from parts for unit drainage systems and materials used in the manufacture of unit drainage systems, in Sub-No. 28F; (B) remove the restriction limiting service to the transportation of specified commodities in (1) pneumatic tank vehicles, in Sub-No. 9F, and (2) tank and hopper-type vehicles, in Sub-No. 16F; (C) eliminate the (1) "packaging" restriction, in Sub-Nos. 3, 15F, 19F and 25F, and (2) "mixed load" restriction, in Sub-No. 3; (D) replace facilities or city-wide service with county-wide authority: (1) Yates County, NY for Milo, NY, in Sub-No. 1, (2) Wayne and Lake Counties, OH, for Rittman and Fairport, OH, in Sub-No. 3, (3) Geauga County, OH for Chardon, OH, in Sub-No. 28, (4) Wyoming and Schuyler Counties, NY for Silver Springs, Watkins Glen and Reading, NY, in Sub-No. 6F, (5) Hudson County, NJ for Jersey City, NJ, in Sub-Nos. 8F and 15F, (6) Middlesex County, NJ for Perth Amboy, NJ, in Sub-No. 14F, (7) Lake County, OH for Fairport Harbor, OH, in Sub-Nos. 11F, 21F and 25F, (8) Wyoming County, NY for Silver Springs, NY, in Sub-Nos. 19F and 25F, and (9) Wayne County, OH for Rittman, OH, in Sub-Nos. 25F; and (E) authorize radial authority to replace existing one-way service between various combinations of cities and counties and eastern States in Sub-Nos. 1, 3, 6F, 8F, 9F, 11F, 14F, 16F, 18F, 19F, 21F, 25F, 27 and 28F.

MC 136635 (Sub-56)X, filed May 13, 1981. Applicant: WHITEFORD TRUCK LINES, INC., 640 W. Ireland Road, South Bend, IN 46680. Representative: Donald W. Smith, P.O. Box 40248, Indianapolis, IN 46240. Applicant seeks to remove restrictions in its Sub-No. 28F certificate to (1) broaden the commodity description to "clay, concrete, glass or stone products" from clay products and clay cat litter; and (2) replace Ochlocknee with Thomas County, GA and change the one-way authority to radial authority between Thomas County, GA, and, points in IL, IN, KY, MI, OH, PA, VA, WV, NY, and WI. Applicant also seeks to remove restrictions in its authority acquired in MC-F-13937 to (1) broaden the commodity descriptions to (a) "clay, concrete, glass or stone products" from clay cat litter; (b) "coal and coal products" from charcoal in containers; and (c) "building materials" from rolling doors, grills and related components and parts; (2) replace the facilities limitation at Columbus, OH with Franklin County and replace Wrens, GA with Jefferson County; (3) remove the AK and HI exception; and (4) change its one-way authorities to radial authorities between (a) Jefferson County, GA, and, Chicago, IL, and points in IN, MI, OH, WV, WI and parts of PA, NY, and IA; (b) Guernesey and Vinton Counties, OH, and Nicholas County, WV, and, points in U.S. on and east of western boundaries of MN, IA MO, AR and LA; and (c) Franklin County, OH, and, points in U.S.

MC 136635 (Sub-57)X, filed May 13, 1981. Applicant: WHITEFORD TRUCK LINES, INC., 640 W. Ireland Road, South Bend, IN 46680. Representative: Donald W. Smith, P.O. Box 40248, Indianapolis, IN 46240. Applicant seeks to remove restrictions in its Sub-Nos. 21F and 35F certificates to (1) change the commodity description (a) from iron articles, steel articles, zinc articles, lead articles, springs and construction materials, supplies and equipment, to "metal articles and construction materials, supplies and equipment" in Sub-No. 21F; and (b) from metals and equipment and supplies used in the manufacture of metals to "metal products and materials, equipment and supplies used in the manufacture and distribution of metal products: (2) eliminate the bulk restriction in each certificate; (3) eliminate the plant site restrictions in each certificate; (4) replace city-wide with county-wide authority as follows: Blue Island with Cook County, IL; Joliet with Will County, IL; Ft. Wayne with Allen County, IN; Kokomo with Howard County, IN; Centerville with Appanoose County, IA; Grand Rapids with Kent County, MI; Lansing with Ingham County, MI; Jackson with Hinds County, MS; Columbus with Franklin County, OH; Toledo with Lucas County, OH; and

Allenport with Washington County, PA; and (4) authorize radial authority between specified points located within the central and eastern portion of the U.S.

MC 141923 (Sub-2)X, filed May 18, 1981. Applicant: WESTERN CONTAINER TRANSPORT, INC., 8101 N.E. 14th Place, Portland, OR 97211. Representative: Russell M. Allen, 1200 Jackson Tower, Portland, OR 97205. Applicant seeks to remove restrictions in its lead certificate and authority acquired in MC–F–13578 to (1) remove all exceptions to its general commodity authority except "Classes A and B explosives", and (2) remove restrictions limiting service to traffic (a) moving in containers and (b) having an immediately or prior or subsequent movement by water.

MC 143846 (Sub-14)X, filed May 13, 1981. Applicant: MISSION TRANSPORT, INC., 50 Van Keuren Avenue, Jersey City, NJ 07306. Representative: Kenneth M. Piken, Queens Office Tower, 95–25 Queens Boulevard, Rego Park, NY 11374. Applicant seeks to remove restrictions from its Sub-Nos. 1, 3F, 8F and 11F permits to (1) expand the commodity description in Sub-No. 11F from printing paper and paper boxes, to "paper and paper products, and materials, equipment and supplies used in the manufacture thereof;" (2) remove restrictions in each permit against bulk commodities and (3) authorize service between points in the U.S., under contract(s) with named shippers.

MC 146229 (Sub-2)X, filed May 15, 1981. Applicant: VIRGIL SCHMIDT, d.b.a. SCHMIDT TRUCKING, 5665 Bordeau Road, Standish, MI 48658. Representative: William B. Elmer, 624 Third Street, Traverse City, MI 49684. Applicant seeks to remove restrictions in its lead and Sub-No. 1F certificates to (1) broaden the commodity description from soybean meal and soybean hulls to "food and related products" in the lead; and pulleys and pulley parts to "metal products, and machinery" in Sub-No. 1F; and (2) change city to county-wide authority from Logansport to Cass County, IN, and Fostoria to Seneca, Hancock and Wood Counties, OH, and authorize radial for one-way authority between Chicago, IL, Cass County, IN, and Seneca, Hancock and Wood Counties, OH, and, points in Roscommon, Ogemaw, Iosco, Clare, Missaukee, Gladwin, Arenac, Bay, and Midland Counties, MI, in the lead.

MC 146696 (Sub-4)X, filed May 15, 1981. Applicant: AGRI BUILDING SYSTEMS, INC., P.O. Box 130, Waukomis, OK 73773. Representative: Michael H. Lennox, P.O. Box 75613, Oklahoma City, OK 73147. Applicant seeks to remove restrictions in its Sub-No. 2F certificate to (1) broaden the commodity description from pre-engineered metal buildings to "metal products"; (2) replace Houston, TX, with Harris, Brazoria, Fort Bend, Montgomery, Chambers, and Walters Counties, TX; Paoli, Moore, Clinton, Waukomis and Ponca City, OK, with Garvin, Cleveland, Custer, Garfield, and Kay Counties, OK; and Emporia, KS, with Lyon County, KS; and (3) replace one-way with radial authority between the points in (2).

MC 147424 (Sub-4)X, filed May 28, 1981. Applicant: FAZE, II, LTD, 303 East Ohio Street, Chicago, IL 60611. Representative: Allan C. Zuckerman, 39 South LaSalle Street, Chicago, IL 60603. Applicant seeks to remove restrictions in its Sub-No. 1 certificate to (1) broaden the commodity description from photographic and video recording equipment and materials, equipment and supplies to "machinery, instruments, and photographic goods," (2) to remove the except commodities in bulk restriction, and (3) to replace existing one-way authority by substituting radial authority between Cook County, IL, and points in IA, IN, KS, KY, MI, MN, MO, OH, NE, ND, SD and WI.

MC 148600 (Sub-12)X, filed May 21, 1981. Applicant: TRANSHIELD TRUCKING, INC., 1000 N. Harvester Road, W. Chicago, IL 60185. Representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 Eleventh Street, NW., Washington, DC 20001. Applicant seeks to remove restrictions in its No. MC–142830 (Sub-Nos. 4, 5 and 6) permits in order to (1)(a) broaden commodity descriptions to "building materials, metal products, waste or scrap materials, and rubber and plastic products" from aluminum building products, aluminum rods and wire, aluminum coil, aluminum fencing, aluminum lineals, and steel and steel products, scrap aluminum, and plastic articles and products in Sub-No. 4; (b) "rubber and plastic products, textile mill products, printed matter, and chemicals and related products" in place plastic products, clothing, greeting and note cards, and cleaning compounds in Sub-No. 5; and (c) to "food and related products" from foodstuffs, and meats, meat products, meat by-products, and articles distributed by meat packing houses in Sub-No. 6; (2) expand the territorial descriptions in each permit to between points in the United States under continuing contract(s) with named shippers; (3) eliminate from each permit the prohibition against transporting commodities in bulk or against serving AK and HI; and (4) eliminate from Sub-No. 6 the prohibition against transporting hides, and foodstuffs.

MC 148293 (Sub-3)X, filed May 28, 1981. Applicant: S & K MOTOR TRANS. INC., 34 Murdock Street, Somerville, MA 02145. Representative: James F. Martin Jr., 8 W. Morse Road, Bellingham, MA 02019. Applicant seeks to remove restrictions in its lead and Sub-No. 1 permits to (1) broaden the commodity descriptions from refined cane sugar to "commodities in bulk, and food and related products" and (2) broaden the territorial descriptions to between points in the United States, under contract(s) with named shippers.

MC 149063 (Sub-1)X, filed May 12, 1981. Applicant: BILL'S TRUCKING, INC., 135 N. State Street, Clairton, PA 15025. Representative: Robert J. Walshak, P.O. Box 552, 191 Wall Road Clairton, PA 15025. Applicant seeks to remove restrictions in its lead certificate to (A) broaden the commodity description from concrete slabs and products used in the manufacture of concrete slabs to "concrete slabs and products used or useful in the manufacturing of concrete slabs" in part (2); (B) eliminate the facilities restrictions, in both parts; and (C) authorize county-wide authority to replace existing city-wide service: Washington County, PA, for Monongahela, PA, in part (2).

MC 149078 (Sub-8)X, filed April 8, 1981, previously noticed in the Federal Register of April 27, 1981, republished as corrected in this issue. Applicant: ROAD WEST, INC., 1315 E. Holt Blvd., Ontario, CA 91761. Representative: Robert Fuller, 13215 E. Penn St. Ste. 310, Whittier, CA. Applicant seeks to remove restrictions in its lead and Sub-Nos. 1F, 2F, 3F, 4F, 5F, and 6F certificates to (1) change the commodity descriptions as follows: from industrial fasteners and auto parts and materials, equipment, and supplies to "transportation equipment and metal products" in its lead; from label stock, and equipment, parts and supplies to "printed matter" in Sub-No. 1F; from auto parts, and equipment, materials and supplies to "transportation equipment" in Sub-No. 2F; from plastic liquid, resin, coal tar, and petroleum and resin compounds to "rubber and plastic products, chemicals and related products and petroleum or coal products" in Sub-No. 4F; to add "building materials" to materials, equipment and supplies used in the manufacture, prefabrication, construction, erection or installation of

buildings, in Sub-No. 5F; and, from paint and paint materials to "chemicals and related products and paint materials", in Sub-No. 6F; (2) to replace authority to serve plantsites or named points with county-wide authority: Hardin County, KY (for plantsite of Elizabethtown, KY) in lead; Fayette and Coweta County, GA (for Peach Tree City, GA), Worcester County, MA (for Fitchburg, MA), Hampden and Hampshire Counties, MA (for Holyoke, MA), Koochiching County, MN (for International Falls, MN), Summit, Medina, Portage, Stark and Wayne Counties, OH (for Akron, OH); Montgomery, Greene, Miami, Warren, and Clark Counties, OH (for Dayton, OH), Butler County, OH (for Hamilton, OH); Lake County, OH (for Painesville, OH), Bucks County, PA (for Quakertown, PA), Oneida County, WI (for Rheinlander, WI), and San Bernardino and Los Angeles Counties, CA (for Cucamonga, CA) in Sub-No. 1F; Des Moines and Lee Counties, IA (for Burlington, IA) in Sub-No 2F; Wayne, Oakland, Macomb, Washtenaw, and Monroe Counties, MI (for Detroit and Warren, MI), Lenawee County, MI (for Morenci, MI), in Sub-No. 3F; Wayne, Oakland, Macomb, Monroe, and Washtenaw Counties, MI (for Detroit, MI) in Sub-No. 4F; Summit and Portage Counties, OH (for Cuyahoga Falls, OH), Wayne County, OH (for West Salem, OH), and Medina County, OH (for Wadsworth, OH) in Sub-No. 5F; Wayne, Oakland, Macomb, Monroe, and Washtenaw Counties, MI (for Detroit, MI), and Kent, Ottowa, Allegan and Barry Counties, MI (for Grand Rapids, MI) in Sub-No. 6F; (3) substitute radial authority in place of one-way authority between points in Lynchburg, VA and IA counties in Sub-No. 2F, part (1); and (4) remove the restriction against the transportation of commodities in bulk or in special equipment in Sub-Nos. 1F, 3F, 4F, and 6F. The purpose of this republication is to include the proposed territorial expansion in applicant's Sub-No. 1 certificate.

MC 150409 (Sub-2)X, filed May 14, 1981. Applicant: MITCH-MOR TRUCKING, INC., Route 1, Becker, MN 55308. Representative: Stephen F. Grinnell, 1600 TCF Tower, Minneapolis, MN 55402. Applicant seeks to broaden the commodity description in its Sub-No. 1F certificate from aluminum die castings to "metal products".

MC 152464 (Sub-2)X, filed May 13, 1981. Applicant: PYRAMID T.O.F.C. SERVICES, INC., Route 2, Box 235A, Carterville, IL 62918. Representative: Ronald N. Cobert, 1730 M Street, N.W. Suite 501, Washington, D.C. 20036. Applicant seeks to remove restrictions in its Sub-No. 1F certificate by (1) broadening the commodity description from general commodities (except household goods as defined by the Commission and classes A and B explosives) to general commodities (except classes A and B explosives) and (2) removing the restriction limiting transportation to traffic having a prior or subsequent movement by rail.

BILLING CODE 7035-01-M

Motor Carrier Temporary Authority Application

The following are notices of filing of applications for temporary authority under Section 10928 of the Interstate Commerce Act and in accordance with the provisions of 49 CFR 1131.3. These rules provide that an original and two (2) copies of protests to an application may be filed with the Regional Office named in the **Federal Register** publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the **Federal Register**. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and the type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the ICC Regional Office to which protests are to be transmitted.

Note.—All applications seek authority to operate as a common carrier over irregular routes except as otherwise noted.

Motor Carriers of Property

Notice No. F-125

The following applications were filed in Region I. Send protests to: Interstate Commerce Commission, Regional Authority Center, 150 Causeway Street, Room 501, Boston, MA 02114.

Secretary.

[FR Doc. 81-16490 Filed 6-2-81; 8:45 am]

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule 251 of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** on December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we fine, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulation. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later became unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OPY–4–162

Decided: May 28, 1981.

By the Commission, Review Board No. 2, Members Carleton, Fisher, and Williams.

MC 22196 (Sub-3), filed May 20, 1981. Applicant: ACE WORLD-WIDE MOVING & STORAGE, INC., 2725 Whynaucht Ct., S.E., Rochester, MN 55901. Representative: Robert J. Gallagher, 1000 Connecticut Avenue, NW., Washington, D.C. 20036. Transporting *shipments weighing 100 pounds or less* if transported in motor vehicle in which no one package exceeds 100 pounds, between points in the U.S.

Volume No. OPY–4–164

Decided: May 28, 1981.

By the Commission, Review Board No. 2, Members Carleton, Fisher, and Williams.

MC 156036, filed May 18, 1981. Applicant: CASCADE WEST MATERIALS, INC., P.O. Box 1586, Lake Oswego, OR 97034. Representative: Peter H. Glade, One SW Columbia, Suite 555, Portland, OR 97258, (503) 227–1681. As a *broker of general commodities* (except household goods), between points in the U.S.

Secretary.

[FR Doc. 81–16487 Filed 6–2–81; 8:45 am]

BILLING CODE 7035–01–M

[Volume No. OPI–160]

Motor Carrier Permanent Authority Decisions; Decision—Notice

Decided: May 26, 1981.

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board No. 1, Members Parker, Chandler and Fortier.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

MC 381 (Sub-28), filed May 20, 1981. Applicant: GENOVA EXPRESS LINES, INC., P.O. Box 136, Williamstown, NJ 08094. Representative: George A. Olsen, P.O. Box 357, Gladstone, NJ 07934, (201) 435–7140. Cobert, 1730 M St., N.W., Suite 501, Washington, DC 20036, (202) 296–2900. Transporting *general commodities* (except classes A and B explosives), between points in the U.S., under continuing contract(s) with E. Rosen Company of Pawtucket, RI.

MC 146820 (Sub-16), filed May 14, 1981. Applicant: B & G TRUCKING, INC., 579 High St., P.O. Box 581, Worthington, OH 43085. Representative: James M. Burtch, Baker & Hostetler, 100 E. Broad St., Columbus, OH 43215. Transporting *general commodities* (except classes A and B explosives), between points in the U.S., under continuing contract(s) with Marco Products, Inc., of Adrian, MI, and Liqui-Box Corporation of Worthington, OH.

MC 146891 (Sub-5), filed May 14, 1981. Applicant: A & G EXPRESS, INC., 4807 Millbrooke Road, Albany, GA 31701. Representative: Sol H. Proctor, 1101 Blackstone Building, Jacksonville, FL 32202. Transporting *general commodities* (except classes A and B explosives), between points in GA, on the one hand, and, on the other, points in the U.S.

MC 149500 (Sub-6), filed May 15, 1981. Applicant: INTERMODAL SERVICES, INC., 11650 Courthouse Blvd., Inver Grove Heights, MN 55075. Representative: James M. Christenson, 4444 IDS Center, 80 South Eighth St., Minneapolis, MN 55402, (612) 339–4546. Transporting *general commodities* (except classes A and B explosives), between points in the U.S., under continuing contract(s) with Intermodal Consolidating Service, Inc., of Bridgewater, NJ, and Allied Trucking Service, Inc., of Inver Grove Heights, MN.

MC 150330 (Sub-3), filed May 18, 1981. Applicant: BELCO, INC., 2101 West Main St., Jacksonville, AR 72076. Representative: Ron Harvey (same address as applicant), (501) 982–6511. Transporting *pulp, paper and related products* and *rubber and plastic products,* between points in the U.S., under continuing contract(s) with Great Plains Bag Corporation of Des Moines, IA.

MC 151231, filed May 18, 1981. Applicant: GLEN M. RICKERT, d.b.a. RICKERT TRUCKING, 2507 Blackstone Ct., Bakersfield, CA 93304. Representative: Earl N. Miles, 3704 Candlewood Dr., Bakersfield, CA 93306, (805) 872–1106. Transporting *building materials* and *paving materials,* between points in the U.S., under continuing contract(s) with (a) San Joaquin Refining Co., Inc., of Bakersfield, CA, and (b) Georgia-Pacific Corporation of Portland, OR.

MC 153021 (Sub-1), filed April 28, 1981. Applicant: DAVID DALE TRANSPORT, INC., 2 Franklin St., West Medway, MA 02053. Representative: Wesley S. Chused, 15 Court Square, Boston, MA 02108, (617) 742–3530. Transporting *food and related products,* between Denver, CO, Atlanta, GA, Boston, MA, Detroit, MI, Minneapolis, MN, Kansas City, MO, Cincinnati and Cleveland, OH, Portland, OR, Philadelphia, PA, and points in Fresno and Merced Counties, CA, Dade County, FL, Morgan County, IL, Hudson County, NJ, Erie County, NY, Mecklenburg County, NC, Shelby and Gibson Counties, TN, Grayson County, TX, and Green, Waupaca, and Dodge Counties, WI, on the one hand, and, on the other, points in the U.S.

MC 153590 (Sub-1), filed May 13, 1981. Applicant: BELCOURT OIL CO., INC., P.O. Box 750, Belcourt, ND 58316. Representative: Francis L. Brunelle (same address as applicant), (701) 477–6155. Transporting *general commodities* (except classes A and B explosives), between points in the U.S., under continuing contract(s) with FMS, Inc., of Washington, DC.

MC 154931 (Sub-1), filed May 18, 1981. Applicant: HARRELL LEASING, INC., P.O. Box 1400, Russellville, AR 72801. Representative: James M. Duckett, 411 Pyramid Life Bldg., Little Rock, AR 72201, (501) 375–3022. Transporting (1) *lumber and wood products,* and (2) *building materials,* between points in Pope, Johnson and Washington Counties, AR, on the one hand, and, on the other, points in LA, CO, NM, AZ, MS, KS, OK, CA, TX, MO, and OR.

MC 155060, filed May 4, 1981. Applicant: COLORADO DELIVERY SERVICE, INC., 1041 Elbert St., Denver, CO 80221. Representative: James A. Beckwith, 1365 Logan St., Suite 100, Denver, CO 80203, (303) 861–4273. Transporting *such commodities* as are dealt in by manufacturers and distributors of home care products and personal care products, between Denver, CO, on the one hand, and, on the other, points in CO.

MC 155130 (Sub-2), filed April 24, 1981. Applicant: B & D TRANSPORT, INC., 11621 Kanis Rd., Little Rock, AR 72211. Representative: Larry Brown (same address as applicant), (501) 225–3688. Transporting *general commodities* between Holly Springs, Fuquay-Varina and Stokesdale, NC, Radcliffe, Aurora, Ellsworth and Lawn Hill, IA, Henry, and Clark, SD, Esmond, IL, Shell Lake, Cumberland, Gillett and Green Valley, WI, Elgin, NE, Benton, Barlow, LaCenter, Oak Ridge, Philpot, Deanefield, Thompsonville, Masonville and Edgoten, KY, Kenwood, Hickory Point, Doddsville, Fox Bluff, Chapmansboro, Ashland City, Scottsboro, Jordonia and Riverside, TN, Edina, Lewistown, Hurdland and Ewing, MO, Crandall, Kaufman, Kemp, Mabank, Reklaw, Mobeetie, Briscoe and Allison, TX, Reydon, Cheyenne, Strong City, Hammon and Butler, OK, on the one hand, and, on the other, points in the U.S.

Note.—The purpose of this application is to substitute motor carrier for abandoned rail carrier service.

MC 156050, filed May 18, 1981. Applicant: 4 B LINES, INC., 71 West Park Ave., Vineland, NJ 08360. Representative: Robert L. Baker, Sixth Floor, United American Bank, Nashville, Tn 37219, (615) 244–8100. Transporting *such commodities* as are dealt in by a catalogue showroom company, between points in the U.S., under continuing contract(s) with Service Merchandise Company, Inc., of Nashville, TN.

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Agency for International Development

[Delegation of Authority No. 141]

Chile; Delegation of Authority With Respect to Administration of A.I.D. Program

Pursuant to the authority delegated to me by IDCA Delegation of Authority No. 1 from the Director of the International Development Cooperation Agency, dated October 1, 1979, I hereby delegate

to the principal diplomatic officer of the United States in Chile, with respect to the administration of the foreign assistance program within Chile, (i) the authorities delegated to Directors of Missions of the Agency for International Development (A.I.D.) in A.I.D. Handbooks, manual orders, regulations (published or otherwise), policy directives, policy determinations, memoranda or other instructions as these may be amended, supplemented or superseded from time to time (except the authorities to issue waivers of A.I.D. policies and regulations and except the authorities to extend terminal dates); and (ii) the authority to sign Project Implementation Letters.

The exercise of the authorities delegated herein shall be subject to the limitations applicable to the exercise of such authorities by A.I.D. Mission Directors.

The authorities delegated herein may be redelegated to the officers at the post principally responsible for A.I.D. activities and may be exercised by persons who are performing the functions of such officers in an "acting" capacity.

This delegation of authority shall be effective upon the departure from post of the A.I.D. Representative or May 31, 1981, whichever shall come first.

Dated: May 10, 1981.

M. Peter McPherson,

Administrator.

BILLING CODE 4710-02-M

INTERNATIONAL TRADE COMMISSION

[TA-203-9]

Certain Mushrooms; Investigation and Hearing

AGENCY: United States International Trade Commission.

ACTION: Following receipt of a request from the U.S. Trade Representative on May 19, 1981, the Commission on May 28, 1981, instituted investigation No. TA-203-9 under section 203(i)(2) of the Trade Act of 1974 (19 U.S.C. 2253(i)(2)) for the purpose of gathering information in order that it might advise the President of its judgment as to the probable economic effect on the domestic industry concerned of the termination of certain of the import relief presently in effect (as specified in the attached letter) with respect to mushrooms, prepared or preserve, provided for in item 144.20 of the Tariff Schedules of the United States (TSUS). Such import relief is provided for in Presidential Proclamation 4801 of October 29, 1980 (45 FR 72617).

EFFECTIVE DATE: May 28, 1981.

FOR FURTHER INFORMATION CONTACT: Tim McCarty (202-724-1753).

SUPPLEMENTARY INFORMATION: *Public hearing ordered.* A public hearing in connection with this investigation will be held in Washington, D.C., at 10 a.m., e.d.t., on Thursday, July 30, 1981, in the Hearing Room, U.S. International Trade Commission Building, 701 E Street, NW. Requests for appearances at the hearing should be received in writing by the Secretary to the Commission at his office in Washington, no later than the close of business Monday, July 13, 1981.

Prehearing procedures. To facilitate the hearing process, it is requested that persons wishing to appear at the hearing submit prehearing briefs enumerating and discussing the issues which they wish to raise at the hearing. Nineteen copies of such prehearing briefs should be submitted to the Secretary to the Commission no later than the close of business Monday, July 20, 1981. Copies of any prehearing briefs submitted will be made available for public inspection in the Office of the Secretary. While submission of prehearing briefs does not prohibit submission of prepared statements in accordance with § 201.12(d) of the Commission's *Rules of Practice and Procedure* (19 CFR 201.12(d)), it would be unnecessary to submit such a statement if a prehearing brief is submitted instead. Oral presentations should, to the extent possible, be limited to issues raised in the prehearing briefs.

A prehearing conference will be held on Wednesday, July 15, 1981, at 10:00 a.m., e.d.t., in Room 117 of the U.S. International Trade Commission Building.

Persons not represented by counsel or public officials who have relevant matters to present may give testimony without regard to the suggested prehearing procedures outlined above.

By order of the Commission.

Issued: May 28, 1981.

Kenneth R. Mason,

Secretary.

The United States Trade Representative,
Washington, May 14, 1981.

Hon. Bill Alberger,
Chairman, U.S. International Trade Commission, Washington, D.C.

Dear Mr. Chairman: On October 29, 1980, President Carter proclaimed import relief for the domestic mushroom industry and increased the duty for 3 years on imports of prepared or preserved mushrooms classified under item 144.20 of the Tariff Schedules of the United States.

Subsequent to this action, the Governments of Canada, West Germany, and Switzerland and the Commission of the European Communities (on behalf of France) requested exemptions from the increased duty for certain of their mushroom products. These governments argue that their products have special characteristics which remove them from competition with mushrooms produced in the United States. The products for which exemptions have been requested include three types:

1. Frozen battered or breaded mushrooms which are currently imported from Canada. They are processed by washing whole, fresh (usually button) mushrooms, dusting them with flour, and dipping them in batter or bread crumbs. The mushrooms are then deep-fried just long enough to set the batter (approximately 25–30 seconds), frozen, and packed in 4-pound containers. The product is used in restaurants and other institutions, where it is served as a side dish.

2. Mushrooms valued at over $1.60 per pound (drained weight) of the following genera: champignon de Paris (*Psalliota*), chanterelle (*Cantharellus*), cepe (*Boletus*), morel (*Morchella*), and mixed mushrooms (*Boletus Luteus, Lactarius Deliciosus, Rozites Caperata, Suillus Grevillei* and *Suillus Granulatus*). Champignon de Paris are cultivated commercially. Chanterelle, cepe, morel, and mixed mushrooms are harvested from their natural environment in forest areas, principally in Europe.

3. Mushrooms valued over $8.50 per pound (drained weight) of the genus chanterelle (*Cantharellus*) which are harvested solely from their natural environment in forest areas.

In addition, on April 8, I received a letter from the Association of Food Distributors requesting that oriental mushrooms also be exempted from the increased duty on canned mushrooms. This request included straw mushrooms (*Volvariella Volvacea*), golden mushrooms (*Flammulina Velutipes*), oyster mushrooms (*Pleurotus Ostreatus*), and summer oyster mushrooms (*Pleurotus Abalon*).

To assist us in making a decision on how to respond to this matter, I am requesting under Section 203(i)(2) of the Trade Act of 1974, as amended, that the Commission advise the President of its judgment concerning the probable economic effect on the domestic mushroom industry of modifying the import relief to exclude the products cited above. The Commission's advice also should include assessments of:

(1) The extent to which these products compete with domestically-produced mushrooms and mushroom products currently benefiting from the relief action;

(2) An estimate of imports of these products which could be expected over the 3-year period of import relief if they are exempted from the increased duties;

(3) The technical and administrative feasibility of identifying such mushrooms for separate Customs treatment; and

(4) The extent to which mushroom exporting countries may use the tariff exemption on each of these products to circumvent the import relief program.

It would be helpful if the Commission's advice could be submitted as soon as possible, but not later than July 31, 1981.

Very truly yours,

William E. Brock.

[Investigation No. TA-203-8]

High-Carbon Ferrochromium; Investigation and Hearing

AGENCY: United States International Trade Commission.

ACTION: Upon its own motion and on the basis of a petition filed on May 15, 1981, on behalf of the Committee of Producers of High-Carbon Ferrochromium (CPHCF), the Commission on May 27, 1981, instituted investigation No. TA-203-8 under sections 203(i)(2) and 203(i)(3) of the Trade Act of 1974 (19 U.S.C. 2253 (i)(2) and (i)(3)) for the purpose of gathering information in order that it might advise the President of its judgment as to the probable economic effect on the industry concerned of the extension, reduction, or termination of import relief presently in effect with respect to ferrochromium, containing over 3 percent by weight of carbon, valued less than 38 cents per pound, provided for in item 606.24 (formerly item 607.31) of the Tariff Schedules of the United States (TSUS). Relief in the form of a temporary duty increase described in item 923.18 of the Appendix to the TSUS is provided against imports in Presidential Proclamation 4608 (issued November 15, 1978, 43 FR 53701). Import relief presently in effect with respect to such merchandise is scheduled to terminate at the close of business on November 15, 1981, unless extended by the President.

EFFECTIVE DATE: May 27, 1981.

FOR FURTHER INFORMATION CONTACT: Woodley Timberlake, Investigator, telephone (202-523-4618), U.S. International Trade Commission, Room 349, 701 E Street, NW., Washington, D.C. 20436.

SUPPLEMENTARY INFORMATION: *Public hearing ordered.* A public hearing in connection with this investigation will be held in Washington, D.C., at 10 a.m., e.d.t., on Wednesday, July 22, 1981, in the Hearing Room, U.S. International Trade Commission Building, 701 E Street, NW. Requests for appearances at the hearing should be received in writing by the Secretary to the Commission at his office in Washington no later than the close of business on Wednesday, July 1, 1981.

Prehearing procedures. To facilitate the hearing process, it is requested that persons wishing to appear at the hearing submit prehearing briefs enumerating and discussing the issues which they wish to raise at the hearing. Nineteen copies of such prehearing briefs should be submitted to the Secretary to the Commission no later than the close of business on Friday, July 10, 1981. Copies of prehearing briefs submitted will be made available for public inspection in the Office of the Secretary. While submission of prehearing briefs does not prohibit submission of prepared statements in accordance with section 201.12(d) of the Commission's *Rules of Practice and Procedure* (19 CFR 201.12(d)), it would be unnecessary to submit such a statement if a prehearing brief is submitted instead. Oral presentations should, to the extent possible, be limited to issues raised in the prehearing briefs.

A prehearing conference will be held on Thursday, July 2, 1981, at 10:00 a.m., e.d.t., in Room 117 of the U.S. International Trade Commission Building.

Persons not represented by counsel or public officials who have relevant matters to present may give testimony without regard to the suggested prehearing procedures outlined above.

Inspection of petition. The petition filed in this case is available for public inspection at the Office of the Secretary, U.S. International Trade Commission.

By order of the Commission.

Issued: May 28, 1981.

Kenneth R. Mason,

Secretary.

BILLING CODE 7020-02-M

[Investigation No. 731-TA-41 (Preliminary)]

Tubeless Tire Valves From the Federal Republic of Germany

Determination

On the basis of the record developed in investigation No. 731-TA-41 (Preliminary), the Commission determines pursuant to section 733(a) of the Tariff Act of 1930, that there is a reasonable indication that an industry in the United States is materially injured or is threatened with material injury [1] by reason of imports from the Federal Republic of Germany of tubeless tire valves suitable for use with passenger automobile and light truck wheels,[2] provided for in item 692.32 of the Tariff Schedules of the United States, which are allegedly sold at less than fair value.

Background

On April 9, 1981, Nylo-Flex Manufacturing Co., Inc., Mobile, Alabama, filed a petition with the U.S. International Trade Commission (the Commission) and the U.S. Department of Commerce (Commerce) alleging that tubeless tire valves from the Federal Republic of Germany (West Germany) are being, or are likely to be, sold in the United States at less than fair value, and that an industry in the United States is materially injured or is threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports of such merchandise.[3] On the same day, the Commission instituted this investigation. Notice of institution of the Commission's investigation was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, D.C., and by publishing the notice in the **Federal Register** on April 15, 1981 (46 FR 22088). A public conference was held in Washington, D.C. on April 30, 1981, at which all interested persons were afforded the opportunity to present information for consideration by the Commission.

---

[1] Chairman Alberger determines that there is a reasonable indication that an industry in the United States is materially injured by reason of such imports.

[2] Light trucks are defined, for purposes of this determination, as trucks having a gross vehicle weight of 10,000 pounds or less.

[3] Nylo-Flex had previously filed a petition with the Commission and Commerce on February 24, 1981. The Commission instituted a preliminary antidumping investigation on March 3, 1981. After Commerce found that certain non-confidential summaries did not comply with its rules, Nylo-Flex withdrew its petition, and the Commission terminated that investigation.

Views of Chairman Alberger and Commissioners Bedell and Stern

On the basis of the record in this investigation, No. 731–TA–41 (Preliminary), we determine that there is a reasonable indication that an industry in the United States is materially injured, or is threatened with material injury,[4] by reason of imports from the Federal Republic of Germany of tubeless tire valves,[5] allegedly sold in the United States at less than fair value.

The imported product and the domestic industry: In general, the domestic industry is defined as consisting of all domestic producers of a like product or those producers whose total output of the like product constitutes a major portion of domestic production of that product.[6] A like product is a product which is like, or in the absence of like, most similar in characteristics and uses with, the imported product which is the subject of the investigation.[7]

Tubeless tire valves may be distinguished in two basic ways, by size and by type. Sizes vary according to length and diameter of the valve. There are two standard valve diameters in several different lengths.

The imported products which are the subject of this investigation are tubeless tire valves of a snap-in type. Domestic manufacturers produce seven models of tubeless tire valves.[8] The model sizes are standard throughout the world. Three imported models have a diameter of base of .453 inches; two models have a diameter of base of .625 inches. The larger diameter is desirable on high pressure tires to prevent blowouts. The size of the diameter of the valve used on a tire is also dependent on the wheels used on a particular automobile; if a wheel has a small diameter opening for the valve, a larger diameter valve may not be used. Thus the smaller diameter models are not substitutable for the larger ones. It is also unlikely that the larger diameter valves would be used on lower pressure tires because they would not be necessary and are generally more expensive. At least 75 percent of the allegedly dumped imports are of two sizes.[9] All model numbers in snap-in original equipment market (OEM) and to the aftermarket. However, neither the West German producer, EHA, nor any of the smaller domestic producers sell to the OEM at the present time, although domestic OEM purchasers contacted did not indicate that anything prevented them from buying from any source, if price and availability were right.[10]

The domestic producers manufacture tubeless tire valves of a clamp-in type as well as the snap-in type. The distinguishing feature between a snap-in valve and a clamp-in valve is the means by which the different valves are attached to the wheel.[11] The clamp-in type is used for decorative purposes, for certain custom wheels, or for high-performance driving.[12] Snap-in and clamp-in valves are not completely substitutable for each other. Clamp-in valves may replace snap-in valves. On the other hand, for high-performance driving, a snap-in valve would not substitute for a clamp-in valve because the snap-in type could not withstand the stresses.

The best information now available to the Commission does not distinguish between either model size or type of valve (i.e., snap-in or clamp-in) in terms of profit and loss or employment data. Thus, if they are indeed separate like products, we have inadequate information to assess injury to each product. In situations such as this, the statute directs the Commission to assess the impact of the alleged LTFV imports on the narrowest group or range of products, which includes a like product, for which the necessary information can be provided.[13] Therefore, our determination in this case is based upon an examination of the impact of these imports on all tubeless tire valve production. For the final determination, the Commission will attempt to gather information by separate product line and will assess any injury as it deems necessary and appropriate at that time.

Reasonable indication of material injury or threat thereof. A reasonable indication of material injury or threat of material injury in this investigation is demonstrated by several facts. The domestic industry has experienced a significant drop in production, capacity utilization, shipments, domestic employment, and financial performance during 1980. Although EHA, the producer that accounts for practically all of the West German tubeless tire valves sold in the United States, argues that the domestic industry's injury has been caused by decline in the domestic automobile market during 1980, we find that a reasonable indication exists that the domestic industry is materially injured, or is threatened with material injury, by reason of the West German imports alleged to be sold at LTFV. The most important indications of a causal link between the evident injury and the alleged dumping are the continued underselling by EHA of particularly price-sensitive products, the continued significant level of alleged LTFV imports, and the existence of confirmed lost sales.[14]

Increased imports from 1978. Imports of tubeless tires valves, while down in 1980 from 1979, were at a higher level than in 1978. Imports of tubeless tire valves from West Germany followed a trend similar to that of U.S. production, increasing in 1979 and declining in 1980 to a level lower than the 1978 level.[15] The level of import penetration increased from 1978 to 1980 for West German imports of tubeless tire valves.

Underselling by imports. Underselling of U.S. tubeless tire valves by imports from West Germany was found throughout the periods analyzed.[16] Imported tubeless tire valves from West Germany have been consistently priced lower than domestic valves for both the TR–413 and TR–418, which constitute the vast majority of the imports. Based on confidential data provided during the investigation, the margins of underselling for the TR–413 and TR–418 models were significant in both 1979 and 1980, although the margin decreased slightly in 1980 due to a somewhat faster rate of imported valve price increases compared to U.S. valve price increases in 1980.[17]

Lost sales. Several U.S. producers alleged that sales of tubeless tire valves imported from West Germany caused them to lose sales. A number of these allegations were confirmed by purchasers who indicated they had switched their sourcing from domestic producers to EHA. Buyers of tubeless tire valves contacted indicated that price was the most important factor in purchasing decisions, with availability a secondary but often crucial factor. Several buyers confirmed purchases of West German valves because of lower prices.[18]

---

[4] Chairman Alberger believes that when he has found a reasonable indication of material injury, the statute does not require analysis of threat of material injury.

[5] The product is provided for in item 692.32 of the Tariff Schedules of the United States.

[6] Section 771(4)(A) of the Tariff Act of 1930.

[7] Section 771(10).

[8] The models produced by the domestic industry are the TR412, TR413, TR414, TR418, TR423, TR418, and TR423. The TR412 and TR414 are not alleged to be sold at less than fair value.

[13] Section 771(4)(D).

[14] Because of the limited number of significant foreign suppliers, only one firm in both Italy and West Germany—import data in this investigation are confidential. Thus our findings with regard to the imports cite only general trends.

[15] *See* Staff Report, p. A–16.

[16] *See* Staff Report, p. A–25.

[17] *See* Staff Report, p. A–25.

[18] *See* Staff Report, p. A–26.

Lower domestic production, capacity utilization, and shipments in 1980 than in 1979 and 1978. U.S. production of tubeless tire valves declined from about 177 million units in 1978 and 1979 to 127 million units in 1980, a decrease of approximately 28 percent. Capacity utilization also fell sharply during the same period, from 78.0 percent in 1978 to 52.3 percent in 1980 while U.S. producers' shipments fell steadily from 173 million units in 1978 to 131 million units in 1980, a decrease of 24 percent.[19] Total U.S. consumption of all valves (domestic and foreign) remained constant from 1978 to 1979 and fell sharply in 1980.[20]

Lower domestic employment in 1980 than in 1978. After increasing slightly between 1978 and 1979, the average number of employees in U.S. establishments producing tubeless tire valves fell from 2,631 in 1978 to 2,193 in 1980, a decrease of 17 percent. Production workers producing tubeless tire valves decreased from 455 in 1978 to 330 in 1980, down more than 27 percent.[21]

Poor financial performance throughout 1978–80. Based on returns from five domestic producers accounting for 95 percent of total U.S. shipments of tubeless tire valves in 1980, the ratio of aggregate net operating profit to net sales declined from 7.2 percent in 1978 to 0.8 percent in 1980. The ratio of net operating profit to book value of total assets for U.S. producers followed the same trend as the ratio of net operating profit to net sales, declining from 18.8 percent to 1.5 percent.[22]

Views of Vice Chairman Michael J. Calhoun

Determination

On the basis of the record in investigation No. 731–TA–41 (Preliminary), I determine that there is a reasonable indication that an industry in the United States is materially injured or threatened with material injury by reason of imports of tubeless tire valves from the Federal Republic of Germany which are allegedly sold at less than fair value.[23]

The Domestic Industry

In general, the domestic industry is defined as consisting of all domestic producers of a like product or those producers whose total output of the like product constitutes a major portion of domestic production of that product.[24] A like product is a product which is like, or in the absence of like, most similar in characteristics and uses with, the imported product which is the subject of the investigation.[25]

The imported article in this investigation is tubeless tire valves from the Federal Republic of Germany. These valves are designed for and used in passenger automobile and light truck wheels. Imported tire valves are sold exclusively in the replacement valve market rather than in the original equipment market. From our preliminary investigation, it appears that, since 1978, six of the seven standard model types are imported from the Federal Republic of Germany; 75 percent of these valves are divided between two model types, the TR–413 and TR–418 models. As well it appears that over 99 percent of the imported valves under investigation here are attached to the wheel by the snap-in method. The remainder, which are samples or special orders, use the clamp-in method of attachment and come in various combinations of lengths and diameters.

However, in this investigation, petitioner has alleged less than fair value sales of tubeless tire valves with respect only to five of the seven models, TR–413, 415, 418, 423 and 425. None of the small amount of imports of the clamp-in valves were alleged by petitioner to have been sold at less than fair value.

There is domestic production for the replacement market of all seven types of snap-in tubeless tire valves for use in passenger automobiles and light trucks which account for approximately 96 percent of production. The remaining four percent of domestic production is of the clamp-in valve type and their volume has been declining over the past three years. Evidence on the record indicates that domestically produced tubeless tire valves are no different from the imported variety of the same model type using the same method of attachment. Indeed, information thus far gathered indicates that price and reliability of supply, rather than quality or particular characteristics, are the primary bases upon which consumers differentiate among valves of the same model type using the same method of attachment produced by different manufacturers.

As a further matter, each domestic producer that sells to the replacement market produces the TR–413 and TR–418 model types and several, if not all, of the other model types. There are no data indicating that any domestic producer specializes in the production of any particular model type of valve.

Since petitioner is alleging injury with respect only to five of the seven snap-in model types, all of which are produced domestically, it is plain that these five model types of tubeless tire valves are like products with the imported article under investigation. But a question remains as to whether the remaining two model types and whether clamp-in tire valves have a sufficiently high coincidence of characteristics and uses with the valves which are being imported to warrant considering them like products as well. As we only have, at this point in the investigation, information enabling us to assess the impact of imports against production of all tire valves, this question of the status of the two remaining model types and the staus of clamp-in valves is moot. But the question of the likeness of all tire valves and the various indicia of the health of their producers are matters for more detailed consideration in our final investigation.

Therefore, taking the best information available in its best light, it is my view, for purposes of this preliminary investigation, that the like product is tubeless tire valve models TR–413, 415, 418, 423 and 425 and that the domestic industry is comprised of all domestic producers who produce the like product and who supply the replacement market.

Material Injury

Material injury is defined as harm which is not inconsequential, immaterial or unimportant.[26] In determining material injury by reason of imports, we are directed to consider, among other things, the volume of imports, the effect of the imports on prices, and the impact of the imports on the domestic industry.[27] The Commission is directed to assess the effect of dumped imports in relation to the U.S. production of a like product if available data permit the separate identification of production in terms of such criteria as production process or the producer's profits.[28] The best available information in this investigation does not distinguish sufficient information to make an assessment of production of the like product. Therefore, my determination is based upon assessment of the impact of imports on production of the narrowest group or range of products which

[19] *See* Staff Report, p. A–10.
[20] *See* Staff Report, p. A–16.
[21] *See* Staff Report, p. A–13.
[22] *See* Staff Report, p. A–14.
[23] Since there are domestic producers of the imported article subject to investigation, the material retardation of the establishment of an industry in the United States is not an issue in this investigation.
[24] Section 771(4)(A) of the Tariff Act of 1930.
[25] Section 771(10).
[26] Section 771(7)(A).
[27] Section 771(7)(B).
[28] Section 771(4)(D).

includes the like product, all tubeless tire valve production in the United States.

In preliminary investigations, our finding is with regard to a reasonable indication of material injury. While there is no statutory guidance as to the meaning of reasonable indication, the legislative history indicates that it is to be considered consistent with the standard under section 201(c)(2) of the Antidumping Act.[29] A reasonable indication of material injury or threat in this investigation is demonstrated by several factors: Import volume has increased both in absolute and relative terms; there has been price undercutting; and the domestic industry has suffered declines in production, capacity, capacity utilization, shipments and financial performance, all of which appear to be associated with the LTFV imports.[30]

Volume of Imports. Imports of tubeless tire valves, while down in 1980 from 1979, were at a higher level than in 1978. Imports of tubeless tire valves from West Germany followed a trend similar to that of U.S. production, increasing in 1979 and declining in 1980 to a level lower than the 1978 level. The level of import penetration increased from 1978 to 1980 for West German imports of tubeless tire valves.

Prices. Underselling of U.S. tubeless tire valves by imports from West Germany was found throughout the periods in question. Imported tubeless tire valves from West Germany have been consistently priced lower than domestic valves for both the TR–413 and TR–418 model types, which constitute the vast majority of the imports. Based on confidential data provided during the investigation, the margins of underselling for the TR–413 and TR–418 models were significant in both 1979 and 1980, although the margin decreased in 1980 due to a somewhat faster rate of imported valve price increases in 1980. This underselling is especially significant since it is my view that this industry is characterized by particular price sensitivity.

Impact on the domestic producers. Several U.S. producers alleged that sales of tubeless tire valves imported from West Germany caused them to lose sales. A number of these allegations were confirmed by purchasers who indicated they had switched their sourcing from domestic producers to imports produced by EHA, a West German company. Buyers of tubeless tire valves who were contacted indicated that price was the most important factor in purchasing decisions, with availability a secondary but often crucial factor. Several buyers confirmed purchases of West German valves because of lower prices.

Furthermore, U.S. production of tubeless tire valves declined from about 177 million units in 1978 and 1979 to 127 million units in 1980, a decrease of approximately 28 percent. Capacity utilization also fell sharply during the same period, from 78.0 percent in 1978 to 52.3 percent in 1980 while U.S. producers' shipments fell steadily from 173 million units in 1978 to 131 million units in 1980, a decrease of 24 percent. Total U.S. consuption of all valves (domestic and foreign) remained constant from 1978 to 1979 and fell sharply in 1980.

In addition, after increasing slightly between 1978 and 1979, the average number of employees in U.S. establishments producing tubeless tire valves fell from 2,631 in 1978 to 2,193 in 1980, a decrease of 17 percent. Production workers producing tubeless tire valves decreased from 455 in 1978 to 330 in 1980, down more than 27 percent.

Moreover, based on returns from five domestic producers accounting for 95 percent of total U.S. shipments of tubeless tire valves in 1980, the ratio of aggregate net operating profit to net sales declined from 7.2 percent in 1978 to 0.8 percent in 1980. The ratio of net operating profit to book value of total assets for U.S. producers followed the same trend as the ratio of net operating profit to net sales, declining from 18.8 percent to 1.5 percent.

As a final matter, with regard to the causal link between these factors and the imports under inquiry here, EHA of West Germany argues that the domestic industry's injury has been caused by a decline in the domestic automobile market during 1980. As well, such other factors as a decline in miles driven and an increase in purchases of tires with extended tread wear have also been noted as contributing to the industry's decline. There can be little doubt that these factors may have contributed to the overall condition of the industry. However, the legislative history specifically cautions the Commission not to weight causes in the way EHA suggests.[31] Nevertheless, the impact of all of these factors cannot be ignored. Thus, rather than reviewing these factors as competing causes, I see these factors as rendering the industry particularly vulnerable at this time to import sold at less than fair value. Viewing these factors in this light is well supported in the legislative history.[32]

Conclusion

On the basis of the best information available, I find that there is a reasonable indication that an industry in the United States is materially injured or threatened with material injury by reason of imports from the Federal Republic of Germany of tubeless tire valves which are allegedly being sold at less than fair value.

By order of the Commission.

Issued: May 26, 1981.

Kenneth R. Mason,

Secretary.

DEPARTMENT OF JUSTICE

United States v. Noranda Aluminum, Inc.; Proposed Consent Decree In Action To Enjoin Discharge of Air Pollutants

In accordance with Departmental Policy, 28 CFR 50.7, 38 FR 19029, notice is hereby given that on May 13, 1981, a proposed consent decree in *United States of America* v. *Noranda Aluminum, Inc.*, Case No. S81–57C, was lodged with the United States District Court for the Eastern District of Missouri. The proposed consent decree will require Noranda Aluminum, Inc., to pay $75,000 in penalties for failure to meet the terms and conditions of State of Missouri Regulation S–V, which applies to its primary aluminum reduction facilities in New Madrid County, Missouri.

The Department of Justice will receive on or before July 6, 1981, written comments related to the proposed judgment. Comments should be addressed to the Assistant Attorney General of the Land and Natural Resources Division, Department of Justice, Washington, D.C. 20530, and refer to *United States* v. *Noranda Aluminum, Inc.*, D.J. Ref. 90–5–2–1–281.

The proposed consent decree may be examined at the Office of the United States Attorney, Rm. 414, U.S. Court and Custom House, 1114 Market Street, St. Louis, Missouri 63101, at the Region VII Office of the Environmental Protection Agency, Enforcement Division, 324 East 11th Street, Kansas City, Missouri 64106, and at the Environmental Enforcement Section, Land and Natural Resources

Division, Department of Justice, Room 1254, 10th and Pennsylvania Avenue NW., Washington, D.C. 20530. A copy of the proposed decree may be obtained in person or by mail from the Environmental Enforcement Section, Land and Natural Resources Division, Department of Justice.

Carol E. Dinkins,

Assistant Attorney General, Land and Natural Resources Division.

BILLING CODE 4410-01-M

Attorney General

[Order No. 945-81]

Departmental Reorganization

By the authority vested in me as Attorney General by 28 U.S.C. §§ 509, 510 and 5 U.S.C. § 301, it is hereby ordered as follows:

1. Senior Management Roles. The management roles of the Deputy Attorney General and the Associate Attorney General are restructured as described:

(a) The Deputy Attorney General advises and assists the Attorney General in formulating and implementing Department policies and programs and in providing overall supervision and direction of all organizational units of the Department. Subject to the general supervision of the Attorney General, he exercises directional authority over the Associate Attorney General and the heads of the following organizational units: The Office of Legislative Affairs; the Office of Public Affairs; the Antitrust Division; the Civil Division; the Civil Rights Division; the Land and Natural Resources Division; the Tax Division; the Justice Management Division; the Office of Justice Assistance, Research and Statistics; the Community Relations Service; the Executive Office for United States Trustees; and the office of each United States Trustee. The Foreign Claims Settlement Commission is under the supervision of the Deputy Attorney General for administrative purposes.

(b) The Associate Attorney General advises and assists the Attorney General and the Deputy Attorney General in formulating and implementing policies and programs of the Department pertaining to criminal matters. He coordinates the program activities of, and has directional authority over the heads of the following organizational units; The Criminal Division; the Drug Enforcement Administration; the Immigration and Naturalization Service; the Executive Office for United States Attorneys; the office of each United States Attorney; the Bureau of Prisons; Federal Prison Industries, Inc.; the Pardon Attorney; the Board of Immigration Appeals; and the United States Marshals Service. The United States Parole Commission is under the supervision of the Associate Attorney General for administrative purposes.

2. *Transfers of Specific Authorities and Functions.* (a) The following specific authority formerly delegated to the Associate Attorney General is rescinded and is delegated to the Deputy Attorney General: Except as delegated to the Associate Attorney General by § 2(c) of this order, the authority to take final action in matters pertaining to:

(i) The employment, separation, and general administration of personnel in the Senior Executive Service, in General Schedule grades GS-16 through GS-18, or the equivalent, and of the attorneys and law student regardless of pay grade in the Department;

(ii) The appointment of special attorneys and special assistants to the Attorney General under 28 U.S.C. § 515(b);

(iii) The appointment of Assistant United States Trustees and the fixing of their compensation, and

(iv) The approval of the appointment by United States Trustees of standing trustees and the fixing of their maximum annual compensation and percentage fees as provided in 28 U.S.C. § 586(e).

The Deputy Attorney General may redelegate the authority to take final actions in matters pertaining to the employment, separation, and general administration of attorneys and law students in pay grades GS-15 and below, to appoint special attorneys and special assistants to the Attorney General pursuant to 20 U.S.C. § 515(b), and to appoint Assistant United States Trustees and fix their compensation to the official in the Office of the Deputy Attorney General responsible for attorney personnel management.

(b) The following specific functions, to the extent formerly performed by the Associate Attorney General, are transferred to the Deputy Attorney General:

(i) Administration of the Attorney General's recuritment programs for honor law graduates and judicial law clerks.

(ii) Coordination of Departmental liaison with the White House and the Executive Office of the President.

(iii) Functions relating to the overall implementation of Part 16 ("Production or Disclosure of Material or Information") of Title 28, Code of Federal Regulations. (iv) Functions relating to the overall implementation of Part 45 ("Standards of Conduct") of Title 28, Code of Federal Regulations, including the granting of exemptions and authorizations.

(c) The following specific authority formerly delegated to the Deputy Attorney General is rescinded and is delegated to the Associate Attorney General: The authority to take final action in matters pertaining to the employment, separation, and general administration of attorneys and law students in pay grades GS-15 and below in organizational units subject to his direction and of Assistant United States Attorneys and other attorneys to assist United States Attorneys when the public interest so requires, and fixing their salaries. The Associate Attorney General may redelegate this authority to the official in the Office of the Deputy Attorney General responsible for attorney personnel management.

(d) The function of establishing and directing the implementation of policy relating to the participation of the United States in the International Criminal Police Organization is transferred from the Deputy Attorney General to the Associate Attorney General.

(e) The function of establishing and implmenting the Department of Justice Equal Opportunity Recruitment Program is transferred from the Associate Attorney General to the Assistant Attorney General for Administration.

3. *Transfers of reporting and approval responsibilities.* All regulations of the Department that require, with respect to a particular matter, that the head of an organizational unit report to or through or obtain the approval, concurrence, or attention of either the Deputy Attorney General or the Associate Attorney General will be construed as amended to the extent necessary to insure consistency with section 1 of this order.

4. *Office of Legal Policy.* The Office of Legal Policy shall be headed by an Assistant Attorney General and shall be subject to the general supervision of the Attorney General and the Deputy Attorney General. The principal responsibilities of the Office shall be to plan, develop, and coordinate the implementation of major policy initiatives of high priority to the Department and to the Administration. In addition, the Assistant Attorney General in charge of the Office of Legal Policy shall:

(a) Examine and study legislation and other policy proposals and coordinate departmental efforts to secure enactment of those of special interest to the Department and the Administration.

(b) Assist the Attorney General and Deputy Attorney General in fulfilling responsibilities of the Federal Legal Council to promote coordination and communication among Federal legal offices with the goal of achieving effective, consistent, and efficient management of legal resources throughout the Federal Government.

(c) Manage and coordinate the discharge of departmental responsibilities related to the Freedom of Information Act (5 U.S.C. § 552) and the Privacy Act (5 U.S.C. § 552a), including coordination and implementation of policy development and compliance within Executive agencies and departmental units relative to the Freedom of Information Act and within departmental units relative to the Privacy Act; and, except as otherwise directed by the Attorney General, act on appeals taken from departmental denials of access to records under the Privacy Act and the Freedom of Information Act.

(d) Advise and assist the Attorney General and Deputy Attorney General regarding the selection and appointment of Federal judges.

(e) Administer the Federal Justice Research Program to facilitate achievement of the goals of the Office; provide departmental policy advice to the Office of Justice Assistance, Research and Statistics relating to research and statistical programs, and advice to the Attorney General concerning general supervision of the National Institute of Justice, the Bureau of Justice Statistics, the Law Enforcement Assistance Administration and the Office of Juvenile Justice and Delinquency Prevention.

(f) Represent the Department on the Administrative Conference of the United States, and, as appropriate, on regulatory reform matters.

(g) Participate, as appropriate, in internal budget hearings of the Department with regard to policy implications of resource allocations and resource implications of major policy initiatives; advise the Assistant Attorney General for Administration with regard to information requirements for departmental policy formulation.

(h) Advise appropriate departmental officials, from time to time, on investigation, litigation, negotiation, penal, or correctional policies to ensure the compatibility of those policies with overall departmental goals.

(i) Through appropriate participation in meetings or conferences with national, state, and local law enforcement and justice system officials, promote the priorities of the Department for the nation's justice system.

(j) Perform such other duties and functions as may be specially assigned by the Attorney General and the Deputy Attorney General. In carrying out its responsibilities under this section, the Office shall have the right to call upon the relevant departmental units for personnel and other assistance.

5. *Other Offices.*

(a) Concurrent with the establishment of the Office of Legal Policy, the Office for Improvements in the Administration of Justice and the Office of Information Law and Policy are abolished. To the extent including in the functional statement set forth in section 4 of this order, the functions of these offices are transferred to the Office of Legal Policy.

(b) The Office of Privacy and Information Appeals is transferred from the Office of the Associate Attorney General to the Office of Legal Policy.

(c) The Office of Small and Disadvantaged Business Utilization is transferred from the Office of the Deputy Attorney General to the Justice Management Division for administrative purposes.

6. *Implementation.* Under the direction of the Deputy Attorney General, The Assistant Attorney General for Administration shall take all steps necessary to implement the reorganization set forth in this order.

7. *Organization Chart.* Appendix I is the official chart of the organization of the Department of Justice.

8. *Supersedure.* This order supersedes all provisions of previous Attorney General orders that are inconsistent with it.

9. *Interpretation.* Interpretations of this order shall be provided by the Deputy Attorney General or his designee. His interpretation is binding unless overruled by the Attorney General.

This order is effective as of May 24, 1981.

Dated: May 28, 1981.

William French Smith,

Attorney General.

NATIONAL SCIENCE FOUNDATION

Advisory Committee for Research; Subcommittee Meeting

In accordance with the Federal Advisory Committee Act, as amended, the National Science Foundation announces the following meeting:

Name: Advisory Committee for Research, Subcommittee on Research at Undergraduate Institutions

Date/Time: June 29, 1981, 9:00 a.m.–5:00 p.m.

Place: Room 1242, National Science Foundation, 1800 G Street, NW., Washington, D.C.

Type of meeting: Open

Contact Person: Dr. Joseph Danek, Program Director, Undergraduate Science Education Program, National Science Foundation, Washington, D.C. 20550, Telephone: (202) 632-4040

Purpose of Subcommittee: To review and evaluate the research equipment proposals submitted to the Undergraduate Science Education Program.

Agenda: To review and evaluate research equipment proposals as part of the selection process for awards.

Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempt from disclosure under section 552b(c)(4) and (6) of Title 5 U.S. Code and the determination to close the meeting was made by the Committee Management Officer pursuant to the provisions of Section 10(d) of P.L. 92-463. The Committee Management Officer has delegated the responsibility to make determinations such as this for meetings governed by the Committee's by-laws.

M. Rebecca Winkler,
Committee Management Officer.

NATIONAL SCIENCE FOUNDATION

Advisory Committee on Special Research Equipment, Biology Subcommittee; Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92–463, as amended, the National Science Foundation announces the following meeting:

Name: Advisory Committee on Special Research Equipment (2-year and 4-year colleges) (Biology Subcommittee)
Date/Time: July 7–8, 1981—9:30 a.m. to 5:00 p.m.
Place: Room 421, National Science Foundation, 1800 G Street NW., Washington, D.C.
Type of meeting: Closed
Contact person: Dr. Howard H. Hines, Program Director, Room 428, National Science Foundation, Washington, D.C. 20550, Telephone (202) 357–9615
Purpose of committee: To evaluate research equipment proposals
Agenda: To review and evaluate research equipment proposals as part of the selection process for awards
Reason for closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act
Authority to close meeting: This determination was made by the Committee Management Officer pursuant to provisions of Section 10(d) of Pub. L. 92–463. The Committee Management Officer was delegated the authority to make such determinations by the Director, NSF on July 6, 1979.

M. Rebecca Winkler,
Committee Management Coordinator.

Subcommittee on Chemical and Process Engineering; Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92–463, as amended, the National Science Foundation announces the following meeting:

Name: Subcommittee on Chemical and Process Engineering of the Advisory Committee for Engineering and Applied Science
Date: Type of meeting: June 29 and 30, 1981—6–29—9:00 am to 12:00 pm, open; 1:30 pm. to 5:00 pm closed; 6–30—9:00 am to 4:00 pm, open
Place: Room 642 National Science Foundation, Washington, D.C. 20550
Contact person: Dr. Marshall M. Lih, Division Director, Chemical and Process Engineering, Room 413, National Science Foundation, Washington, D.C. 20550. Telephone (202) 357–9606
Summary minutes: May be obtained from Dr. Marshall M. Lih, Director, Division of Chemical and Process Engineering, Room 413, National Science Foundation, Washington, D.C. 20550. Telephone (202) 357–9606
Purpose of the subcommittee: To provide directions to Chemical and Process Engineering research.

AGENDA:

Monday, June 29—open—9:00 am to 12:00 am

9:00 am—Introduction by the Division Director and status report
10:00—Questions and answers
10:15—Briefing of Division Programs
11:45—Questions and answers
12:15—Recess

Monday, June 29—closed—1:30 pm to 5:00 pm

1:30 pm—Review and comparison of declined proposals (and supporting documentation) with successful awards under the Chemical and Process Engineering Division, including review of peer review materials and other privileged materials.

Tuesday, June 30—open—9:00 am to 4:00 pm

9:00 am—Oral reports from the subcommittee
9:30—Subcommittee discussion of future directions of programs
10:30—Suboommittee discussion of division-wide concerns
4:00 pm—ADJOURN

M. Rebecca Winkler,
Committee Management Coordinator.
May 29, 1981.

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards, Subcommittee on Waterford Steam Electric Station Unit No. 3; Meeting

The ACRS Subcommittee on Waterford Steam Electric Station Unit No. 3 will hold a meeting on June 18 and 19, 1981 at the Courthouse, St. Charles Parish, River Road, Hahnville, LA 70057. The Subcommittee will review the application of the Louisiana Power and Light Company for a license to operate the Waterford Steam Electric Station Unit No. 3. Notice of this meeting was published May 19.

In accordance with the procedures outlined in the **Federal Register** on October 7, 1980 (45 FR 66535), oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the Designated Federal Employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The entire meeting will be open to public attendance except for those sessions which will be closed to protect proprietary information (Sunshine Act Exemption 4). One or more closed sessions may be necessary to discuss such information. To the extent practicable, these closed sessions will be held so as to minimize inconvenience to members of the public in attendance.

The agenda for subject meeting shall be as follows:

Thursday, June 18, 1981—1:00 p.m. until the conclusion of business Friday, June 19, 1981—8:30 a.m. until the conclusion of business

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, will exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the Louisana Power and Light Company, NRC Staff, their consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant Federal Employee, Mr. David Bessette (telephone 202/634–3267), between 8:15 a.m. and 5:00 p.m., EDT. The Designated Federal Employee for this meeting is Mr. Gary Quittschreiber.

I have determined, in accordance with Subsection 10(d) of the Federal Advisory Committee Act, that it may be necessary to close portions of this meeting to public attendance to protect proprietary information. The authority for such closure is Exemption (4) to the Sunshine Act, 5 U.S.C. 552b(c)(4).

Dated: May 28, 1981.

John C. Hoyle,
Advisory Committee Management Officer.

BILLING CODE 7590–01–M

[Project WM-38]

Anaconda Copper Co.; Negative Declaration in Support of Exemption From Federal Land Ownership Requirement for the Rhode Ranch Project in McMullen County, Texas

The U.S. Nuclear Regulatory Commission (the Commission) is issuing a determination on a request for exemption from the land ownership transfer requirement of the Uranium Mill Tailings Radiation Control Act of 1978 (Pub. L. 95-604) made by the Anaconda Copper Company for their proposed Rhode Ranch project in McMullen County, Texas. This action is being taken under Section 202(a) of Pub. L. 95-604, which authorizes the NRC to grant exemption from land ownership transfer requirements where it finds this will not endanger public health and safety. This action only applies to the federal land ownership requirement. The State of Texas as an Agreement State has the responsibility in licensing the proposed project.

The staff has determined that sufficient grounds exist for dispensing with the government land ownership requirement subject to the conditions stated in the environmental assessment. The case is a unique one where the tailings will be dewatered and returned to the original or zone which is virtually free of any groundwater. More specifically, the tailings will be buried at least 30 and as much as 120 feet below the surface. The closest significant groundwater bearing stratigraphic unit in underlying formations is isolated by a massive clay strata which is a minimum of about 500 feet thick. The formations at the site have high clay content which should preclude infiltration of precipitation, and as an added measure, the tailings will be encapsulated by low permeability liners. The staff has concluded that long term surveillance and monitoring of the disposal site will not be needed to assure stability and isolation of the tailings impoundment.

The determination will take effect July 6, 1981, and during the interim the NRC will accept comments on the proposed action. Written comments concerning the proposed action should be submitted to the Secretary of the Commission, Attention: Docketing and Service Branch, Washington, D.C. 20555.

The environmental assessment and copies of written comments will be available for public inspection and copying at the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C. 20555.

Dated at Silver Spring, Maryland, this 26th day of May, 1981.

For the Nuclear Regulatory Commission.

Ross A. Scarano,

Chief, Uranium Recovery Licensing Branch, Division of Waste Management.

BILLING CODE 7590-01-M

[Docket Nos. 50-329 OM, 50-330 OM; 50-329 OL, 50-330 OL]

May 29, 1981.

Consumers Power Co. (Midland Plant, Units 1 and 2); Evidentiary Hearing

Please take notice that, in accordance with the Licensing Board's Prehearing Conference Order, dated May 5, 1981, as modified during a telephone conference call on May 27, 1981, an evidentiary hearing in this consolidated proceeding will commence at 9:30 a.m. on Tuesday, July 7, 1981, in the Midland County Courthouse Auditorium, 301 W. Main Street, Midland, Michigan 48640. Further sessions of the hearing will be held (to the extent necessary) at the same location on July 8-11, 13-17, August 4-6, 10-14, and 24-28, beginning at 9:00 a.m. (The sessions on Saturdays will conclude by 1:00 p.m.)

Pursuant to the Atomic Energy Act of 1954, as amended (the Act), and the regulations in Title 10, Code of Federal Regulations, Part 50, "Domestic Licensing of Production and Utilization Facilities," Part 51, "Licensing and Regulatory Policy and Procedures for Environmental Protection," and Part 2, "Rules of Practice for Domestic Licensing Proceedings," notice is hereby given that the said evidentiary hearing will be held to consider the application filed under the Act by Consumers Power Co. (Applicant), to possess, use and operate the Midland Project, Units 1 and 2, two pressurized nuclear reactors located on the Applicant's site in Midland County, Michigan. The hearing sessions listed above will consider soils settlement issues, including those arising from the Commission's Order Modifying Construction Permits No. CPPR-81 and No. CPPR-82. The hearing will be conducted by an Atomic Safety and Licensing Board designated by the Chairman of the Atomic Safety and Licensing Board Panel. The Board's membership consists of the following Administrative Judges: Dr. Frederick P. Cowan, Mr. Ralph S. Decker, and Mr. Charles Bechhoefer, Chairman.

In 1977 and 1978, the Applicant submitted information supporting its applications for facility operating licenses. A Notice of Opportunity for Hearing was published on May 4, 1978 (43 FR 19304). Petitions for leave to intervene filed by Mrs. Mary P. Sinclair, and by Mr. Wendell H. Marshall on behalf of Mapleton Intervenors, and a petition by Frank J. Kelley, Attorney General of the State of Michigan, to participate as an "interested State" pursuant to 10 CFR 2.715(c) were subsequently granted and a Notice of Hearing in this "OL Proceeding" was published on October 18, 1978 (43 FR 48089).

Subsequently, on December 6, 1979, the Acting Director of NRC's Office of Nuclear Reactor Regulation, and the Director of NRC's Office of Inspection and Enforcement, jointly issued an Order Modifying Construction Permits No. CPPR-81 and No. CPPR-82. On December 26, 1979, the Applicant filed a Request for Hearing pursuant to Part V of the Order. *See* 10 CFR 2.204. A Notice of Hearing for this "OM Proceeding" was published on March 20, 1980 (45 FR 18214). An Amended Notice of Hearing in the OM Proceeding, inviting participation by persons whose interests may be affected, was published on May 23, 1980 (45 FR 35949). By its Prehearing Conference Order Ruling on Contentions and on Consolidation of Proceedings, dated October 24, 1980, the Licensing Board granted petitions to intervene in the OM Proceeding filed by Ms. Barbara Stamiris and Ms. Sharon K. Warren. (Ms. Warren has since withdrawn from the proceeding.) The Board also granted a motion by the Applicant to consolidate the OM Proceeding with those issues relating to soil conditions and plant fill materials raised in the OL Proceeding.

The issues in the OM Proceeding will consist of those specified in the Modification Order, together with matters put into controversy by the parties to the proceeding and accepted in the Licensing Board's October 24, 1980 Pehearing Conference Order. In accordance with the provisions of 10 CFR 2.760a, the OL hearing will be limited to the consideration of matters put into controversy by the parties to the proceeding and which have been determined by the Board to be issues in the proceeding, together with other issues, if any, where the Board has determined that a serious safety, environmental, or common defense and security matter exists. Depending on the resolution of issues in the OM Proceeding, the Director of Nuclear Reactor Regulation will put into effect, modify, or deny the remedies proposed in the Modification Order. Depending upon resolution of issues in the OL Proceeding, the Director of Nuclear Reactor Regulation, after making the requisite findings, will issue, deny, or appropriately condition the sought operating licenses.

Any person who has not been admitted as a party to this proceeding may request permission to make a limited apearance pursuant to the provisions of 10 CFR 2.715(a). A person making a limited appearance may make an oral or written statement on the record. He or she does not become a party but may state a position and raise questions which he or she would like to have answered, to the extent that the questions are within the purview of matters which may be considered in an operating license proceeding, as specified by 10 CFR 2.104(c), or in an enforcement proceeding under 10 CFR 2.204. Limited appearances will be permitted at this evidentiary hearing, within such limits and on such conditions as may be fixed by the Board. It is presently contemplated that oral limited appearance statements will be taken at the commencement of the hearing on July 7, 1981. To the extent necessary, the Board may establish other dates for such statements. Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, ATTN: Docketing and Service Banch.

For the Atomic Safety and Licensing Board.

Dated at Bethesda, Maryland, this 29th day of May, 1981.

Charles Bechhoefer,

Chairman, Administrative Judge.

[FR Doc. 81-16572 Filed 6-2-81; 8:45 am]

BILLING CODE 7590-01-M

Emergency Core Cooling System; Petition To Suspend All Operating Licenses for Pressurized Water Reactors

Issuance of Director's decision under 10 CFR 2.206. On December 6, 1979, notice was published in the **Federal Register** (44 FR 70241) that by petition dated March 29, 1979, the Environmental Coalition on Nuclear Power, State College, Pennsylvania, had requested that the Nuclear Regulatory Commission (the Commission) suspend all operating licenses for pressurized water reactors. The petition alleges that the safety evaluations performed for these licenses are invalid, because the incident which occurred on March 28, 1979, at Three Mile Island Unit 2, a pressurized water reactor, shows that the evaluations of the Emergency Core Cooling System (ECCS) for all pressurized water reactors cannot demonstrate the performance of the ECCS required by 10 CFR 50.46. The Commission's Director of Nuclear Reactor Regulation has treated this request as a request for action under 10 CFR 2.206. Upon review of the information provided by the Environmental Coalition on Nuclear Power, the Director has determined that the request does not provide an adequate basis to suspend all operating licenses for pressurized water reactors. Accordingly, the request has been *denied.*

Copies of the Director's decision are available for inspection in the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555 and at each Local Public Document Room for all operating pressurized water reactors. A copy of this decision will also be filed with the Secretary for the Commission's review in accordance with 10 CFR 2.206(c) of the Commission's regulations.

As provided in 10 CFR 2.206(c), the decision will constitute the final action of the Commission twenty-five (25) days after the date of issuance, unless the Commission, on its own motion, institutes a review of the decision within that time.

Dated at Bethesda, Maryland this 29th day of May, 1981.

Harold R. Denton,

Director, Office of Nuclear Reactor Regulation.

[FR Doc. 81-16573 Filed 6-2-81; 8:45 am]

BILLING CODE 7590-01-M

[Docket Nos. 50-250 and 50-251]

Florida Power and Light Co.; Issuance of Amendment to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 66 to Facility Operating License No. DPR-31, and Amendment No. 58 to Facility Operating License No. DPR-41 issued to Florida Power and Light Company (the licensee), which revised Technical Specifications for operation of Turkey Point Plant, Unit Nos. 3 and 4 (the facilities) located in Dade County, Florida. The amendments are effective as of the date of issuance.

These amendments revise the Technical Specifications to include a clarification of the term "operable" as it applies to the single failure criterion for safety systems in power reactors and includes an update of the organization chart.

The applications for the amendments comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of these amendments.

For further details with respect to this action, see (1) the applications for amendment dated September 12, 1980 and March 10, 1981, (2) Amendment Nos. 66 and 58 to License Nos. DPR-31 and DPR-41, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Environmental and Urban Affairs Library, Florida International University, Miami, Florida 33199. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 12th day of May, 1981.

For the Nuclear Regulatory Commission.

Steven A. Varga,

Chief, Operating Reactors Branch No. 1, Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 50-321]

Georgia Power Company, et al.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 85 to Facility Operating License No. DPR-57, issued to Georgia Power Company, Oglethorpe Power Corporation, Municipal Electric Authroity of Georgia, and City of Dalton, Georgia, which revised Technical Specifications for operation of the Edwin I. Hatch Nuclear Plant, Unit No. 1 (the facility), located in Appling County, Georgia. The amendment is effective as of its date of issuance.

The amendment revises the Technical Specifications by (1) adding two valves and two flanges to the list of containment isolation valves; and by (2)

changing the setpoint for the Safety Relief Valve tail pipe pressure switches.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4), and environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated May 4, 1981, (2) Amendment No. 85 to License No. DPR-57, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Appling County Public Library, 301 City Hall Drive, Baxley, Georgia 31513. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 26th day of May 1981.

For the Nuclear Regulatory Commission.

Houston Lighting and Power Company, et al. (South Texas Project Units 1 and 2); Continuation of Evidentiary Hearing

May 28, 1981.

Please take notice that the evidentiary hearing in this operating license proceeding, announced by notices published on April 9, 1981 (46 FR 21289) and April 21, 1981 (46 FR 22441), will continue at 9:30 a.m. on Monday, June 22, 1981, in the Bankruptcy Court, 614 E. Houston Street, San Antonio, Texas 78205. The session on June 22 will include an evening session from 7:30-9:00 p.m. Further sessions will be held beginning at 9:00 a.m. on June 23-26, 1981, at the same location. Oral limited appearance statements will be taken (to the extent necessary) at the beginning of the daytime session on June 22, and during the evening session on that same date.

Please take further notice that the evidentiary session previously scheduled to commence at 9:00 a.m. on June 15, 1981 has been rescheduled to commence at 7:00 p.m. on that day. At that session, the Licensing Board will hear oral arguments on any motions requesting the holding of *in camera* hearing sessions. As previously announced, that session (as well as the sessions on June 16-20) will be held at the Joe M. Green, Jr. Auditorium, South Texas College of Law, 1303 San Jacinto Street (fourth floor), Houston, Texas 77002.

Dated at Bethesda, Maryland, this 28th day of May, 1981.

For Atomic Safety and Licensing Board.

Charles Bechhoefer,

Chairman, Administrative Judge.

[FR Doc. 81-16576 Filed 6-2-81; 8:45 am]

BILLING CODE 7590-01-M

[Docket Nos. 50-275 OL 50-323 OL]

Pacific Gas and Electric Co. (Diablo Canyon Nuclear Power Plant, Units 1 and 2); Conference of Counsel

A Conference of Counsel in this matter is scheduled for July 1 and, if necessary, on July 2, 1981, in the 5th floor hearing room of the East West Towers Building, 4350 East West Highway, Bethesda, Md. beginning at 10 a.m.

It was found as a result of a canvass of Counsel that their involvement in the preparation of findings and briefs on the low power issue made such a meeting on June 18, 1981 impossible. The Board believes that the date of Conference as established herein permits the parties ample time to prepare.

At this conference the Board will consider contentions submitted by Joint Intervenors in their motion to reopen dated March 24, 1981. Schedules for possible proceedings on the full power operating license will also be considered.

Therefore on this 27th day of May, 1981 it is ordered that a Conference of Counsel will take place at 10 a.m., July 1 and, if necessary, on July 2, 1981, in the 5th floor hearing room, East West Towers Building, 4350 East West Highway, Bethesda, Maryland.

Issued at Bethesda, Maryland, this 27th day of May, 1981.

For the Atomic Safety and Licensing Board.

John F. Wolf,

Chairman, Administrative Judge.

[FR Doc. 81-16577 Filed 6-2-81; 8:45 am]

BILLING CODE 7590-01-M

[Docket Nos. 50-352 and 50-353]

Philadelphia Electric Co., Limerick Generating Station, Units 1 and 2; Order Extending Construction Completion Dates

Philadelphia Electric Company is the holder of Construction Permits CPPR-106 and CPPR-107 issued by the Commission on June 19, 1974. These permits authorize the construction of the Limerick Generating Station, Units 1 and 2, presently under construction at the Company's site on the Schuylkill River, near Pottstown, in Limerick Township, Montgomery County, Pennsylvania.

On February 23, 1981, Philadelphia Electric Company filed a request pursuant to the Code of Federal Regulations, Title 10, Part 50, Section 50.55(b) for an extension of the construction completion dates for these units.

Philadelphia Electric Company gave as reasons for the schedule change a reduction in their projected construction program by approximately $750 million for the four-year period 1976-1980 and $270 million in the four-year period 1978-1982 due to (1) reductions in electrical sales and peak load growth rates, (2) sluggish economic growth, (3) financial considerations, and (4) high interest rates and tight credit. This action involves no significant hazards consideration. Good cause has been shown for extension of the latest construction completion date for Unit 1 to October 1, 1985 and for Unit 2 to and October 1, 1987. The basis for the extension of these dates is set forth in a staff evaluation, dated April 13, 1981.

The preparation of an environmental impact statement for this particular action is not warranted because there will be no environmental impact attributable to the action authorized by the Order other than that which has already been predicted and described in the Commission's Final Environmental Statement (Construction Permit Stage) for the Limerick Generating Station, Units 1 and 2 published in November 1973. A negative declaration and an environmental impact appraisal have been prepared and are available, as are the above stated documents, for public inspection at the Commission's Public Document Room, 1717 H Street NW.,

Washington, D.C. 20555 and at the Public Library, Pottstown, Pennsylvania.

It is hereby ordered that the earliest and latest completion date for CPPR-106 be extended from:

April 1, 1981 to October 1, 1985 and that the earliest and latest completion date for CPPR-107 be extended from: April 1, 1982 to October 1, 1987.

Date of Issuance: April 24, 1981.

For the Nuclear Regulatory Commission.

Robert L. Tedesco,

Assistant Director for Licensing, Division of Licensing.

[FR Doc. 81-16578 Filed 6-2-81; 8:45 am]

BILLING CODE 7590-01-M

[Docket No. 50-277]

Philadelphia Electric Company, et al; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 79 to Facility Operating License No. DPR-44, issued to Philadelphia Electric Company, Public Service Electric and Gas Company, Delmarva Power and Light Company, and Atlantic City Electric Company, which revised Technical Specifications for operation of the Peach Bottom Atomic Power Station, Unit No. 2 (the facility) located in York County, Pennsylvnia. The amendment is effective as of its date of issuance.

The revised Technical Specifications extend the maximum average planar linear heat generation rate for the Cycle 5 fuel from 30,000 megawatt days per short ton of uranium (MWd/T) to 40,000 MWd/T.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) that an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated September 30, 1980, as supplemented May 14, 1981, (2) Amendment No. 79 to License No. DPR-44, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Government Publications Section, State Library of Pennsylvania, Education Building, Commonwealth and Walnut Streets, Harrisburg, Pennsylvania. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 20th day of May 1981.

For the Nuclear Regulatory Commission.

Regulatory Guide; Issuance and Availability

The Nuclear Regulatory Commission has issued a revision to a guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 1.133, Revision 1, "Loose-Part Detection Program for the Primary Systems of Light-Water-Cooled reactors," describes a method acceptable to the NRC staff for impelmenting the Commission's regulations with respect to detecting a potentially safety-related loose part in light-water-cooled reactors during normal operation.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Copies of active guides may be purchased at the current Government Printing Office price. A subscription service for future guides in specific divisions is available through the Government Printing Office. Information on the subscription service and current prices may be obtained by writing to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Publications Sales Manager.

Screening Committee for Technical Vacancies on the Licensing Board Panel; Meeting

Notice is hereby given in accordance with Section 10 of the Federal Advisory Committee Act that the NRC's Advisory Committee for Technical Members will hold a meeting on June 30 and July 1, 1981. The meeting will begin at 9:00 a.m. and will be held at East West Towers, 4350 East West Highway, Room 415, Bethesda, Maryland 20014.

The Committee will meet in closed session in order to interview and consider the qualifications of candidates to permanent member positions as technical members of the Atomic Safety and Licensing Board Panel.

I have determined in accordance with Subsection 10(d) of Public Law 92-463 that it is necessary to close these meetings in order to protect information, the release of which would represent an unwarranted invasion of personal privacy under 5 U.S.C. 552b(c)(6). Any discussion not involving personal privacy will be inextricably intertwined with discussion of Exemption 6 matters.

For further information, contact Charles J. Fitti, Assistant Executive Secretary, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 (Telephone: 301/492-7816).

Issued at Washington, D.C., this 29th day of May 1981.

John C. Hoyle,

Advisory Committee Management Officer.

BILLING CODE 7590–01–M

[Docket Nos. 50–280 and 50–281]

Virginia Electric and Power Co.; Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 69 to Facility Operating License No. DPR–32 and Amendment No. 69 to Facility Operating License No. DPR–37 issued to Virginia Electric and Power Company (the licensee), which revised Technical Specifications for operation of the Surry Power Station, Unit Nos. 1 and 2, respectively, (the facilities), located in Surry County, Virginia. The amendments are effective within 7 days of the date of issuance.

The amendments consist of changes to the Technical Specifications which revise the Administrative Controls, Section 6. The changes reflect corporate and plant reorganizations including the addition of an Assistant Station Manager, establishment of a Safety Evaluation and Control group to replace the System Nuclear Safety and Operating Committee and the addition of a Shift Technical Advisor.

The applications for the amendments comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since these amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of these amendments.

For further details with respect to this action, see (1) the applications for amendments dated March 31, August 28, and November 14, 1980, as supplemented August 4, 1980 and February 23, 1981, (2) Amendment Nos. 69 and 69 to License Nos. DPR–32 and DPR–37, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Swem Library, College of William and Mary, Williamsburg, Virginia 23185. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

POSTAL SERVICE

International Postal Fees

AGENCY: Postal Service.

ACTION: Final international postal fees.

SUMMARY: Pursuant to its authority under 39 U.S.C. 407, the Postal Service is changing the fees for certain services related to international mail to the levels indicated below. These fee changes are necessary in order to cover increases in the costs of providing these services and are consistent with the provisions of the Universal Postal Convention adopted in Rio de Janeiro which comes into force on July 1, 1981. Although the new fees are to become effective on July 1, 1981, comments on them are solicited, and any proposed changes will be considered and acted upon as appropriate.

EFFECTIVE DATE: July 1, 1981.

ADDRESS: Written comments should be directed to the General Manager, International Mail Classification Division, Rates and Classification Department, U.S. Postal Service, Washington, D.C. 20260. Copies of all written comments will be available for public inspection and photocopying between 9 a.m. and 4 p.m., Monday through Friday, in Room 1640, 475 L'Enfant Plaza West, SW, Washington, D.C.

FOR FURTHER INFORMATION CONTACT: Edward S. Walker, (202) 245–4518.

DEPARTMENT OF THE TREASURY

Fiscal Service

[Dept. Circ. 570, 1980 Rev., Supp. No. 25]

Surety Companies Acceptable on Federal Bonds

A certificate of authority as an acceptable surety on Federal bonds is hereby issued to the following company under Section 6 to 13 of Title 6 of the United States Code. An underwriting limitation of $970,000 has been established for the company.

Name of Company:
ENNIA REINSURANCE COMPANY OF AMERICA
Business Address:
127 John Street
New York, New York 10038
State of Incorporation:
New York

Certificates of authority expire on June 30 each year, unless renewed prior to that date of sooner revoked. The certificates are subject to subsequent annual renewal so long as the companies remain qualified (31 CFR Part 223). A list of qualified companies is published annually as of July 1 in Department Circular 570, with details as to underwriting limitations, areas in which licensed to transact surety business and other information. Federal Bond-approving officers should annotate their reference copies of the Treasury Circular 570, 1980 Revision, at page 44504 to reflect this addition. Copies of the circular, when issued, may be obtained from the Audit Staff, Bureau of Government Financial Operations, Department of the Treasury, Washington, D.C. 20226.

Dated: May 26, 1981.

W. E. Douglas,
Commissioner.

Internal Revenue Service

[Delegation Order No. 156; Rev. 1, Amdt. 2]

Delegation of Authority

AGENCY: Internal Revenue Service, Treasury.

ACTION: Delegation of Authority.

SUMMARY: This Amendment provides delegations of authority regarding the disclosure of return information under IRC 6103(i)(3) to the Federal Officers or employees for administration of Federal criminal laws and the disclosure of the mailing address of a taxpayer under IRC 6103(m)(2) to the officers or employees of an agency in connection with a Federal claim against such taxpayer. The authority to withhold information under IRC 6103(i)(1), (2) and (4) is also delegated. This Amendment reflects the decentralization to field officials of authority previously vested only in National Office officials and Regional Commissioners.

The text of the delegation order appears below.

EFFECTIVE DATE: May 26, 1981.

FOR FURTHER INFORMATION CONTACT: R. L. Rizzo, TX:D, 1111 Constitution Avenue, N.W., Room 1603, Washington, DC 20224, Telephone number 202-566-3908. (Not a Toll-Free telephone number.)

This document does not meet the criteria for significant regulations set forth in pargraph 8 of the Treasury directive appearing in the Federal Register for Wednesday, November 8, 1978.

R. L. Rizzo,
Director, Disclosure Operations Division.

Department of the Treasury

Internal Revenue Service

Date of issue: May 26, 1981.
Effective Date: May 26, 1981.

In the matter of delegation order for authority to disclose returns and return information to Federal officers or employees for administration of nontax federal criminal laws or the Federal Claims Collection Act of 1966

Pursuant to the authority vested in the Commissioner of Internal Revenue by Treasury Department Order No. 150-37, dated March 17, 1955, authority is hereby delegated as follows:

1. The Deputy Commissioner; Assistant Commissioner (Taxpayer Service and Returns Processing); Deputy Assistant Commissioner (Taxpayer Service and Returns Processing); Director, Disclosure Operations Division; Regional Commissioners; District and Service Center Directors; Assistant District and Service Center Directors; Director of International Operations; and Assistant Director of International Operations are authorized:

a. To disclose or, in specific intances, authorize the disclosure of returns or taxpayer return information to officers and employees of a Federal agency pursuant to an *ex parte* order by a Federal district court judge when needed for use in the enforcement of a Federal criminal statute (not involving tax administration), subject to the conditions prescribed in IRC 6103(i)(1) and the Treasury Regulations thereunder. The authority to withhold any return or taxpayer return information, pursuant to IRC 6103(i)(1) or (i)(4), upon a determination that such disclosure would identify a confidential informant or seriously impair any civil or criminal tax investigation is also delegated. This authority may not be redelegated.

b. To disclose or, in specific instances, authorize the disclosure of return information (other than taxpayer return information) to officers and employees of a Federal agency upon written request by the head of such agency, or in the case of the Department of Justice, the Attorney General, the Deputy Attorney General, or an Assistant Attorney General, when needed for use in the enforcement of a Federal criminal statute (not involving tax administration) subject to the conditions prescribed in IRC 6103(i)(2). This authority to withhold return information

(other than taxpayer return information), pursuant to IRC 6103 (i)(2) or (i)(4), upon a determination that such disclosure would identify a confidential informant or seriously impair any civil or criminal tax investigation is also delegated. This authority may not be redelegated.

c. To disclose or, in specific instances, authorize the disclosure in writing of return information (other than taxpayer return information), which may constitute evidence of a violation of Federal Criminal laws, to the extent necessary to apprise the head of the appropriate Federal agency enforcing such laws, subject to the conditions prescribed in IRC 6103(i)(3). The authority to withhold return information (other than taxpayer return information), pursuant to IRC 6103(i)(4), upon a determination that such disclosure would identify a confidential informant or seriously impair a civil or criminal tax investigation is also delegated. This authority may not be redelegated.

d. To disclose or, in specific instances, authorize the disclosure of the mailing address of a taxpayer to officers and employees of an agency when needed in connection with a Federal claim against such taxpayer, upon written request and subject to the conditions prescribed in IRC 6103(m)(2). This authority may not be redelegated.

2. This Amendment amends paragraphs (6) (b), (c), (d), and (f) of Delegation Order No. 156 (Rev. 1), issued July 30, 1979, and printed in the **Federal Register** dated August 1, 1979, Vol. 44, No. 149, Page 45275; and supersedes Delegation Order No. 156 (Rev. 1), Amend. 1, issued June 1, 1980.

William E. Williams,

Acting Commissioner.

BILLING CODE 4830-01-M

VETERANS ADMINISTRATION

Vocational Rehabilitation and Counseling; Policies and Procedures

AGENCY: Veterans Administration.

ACTION: Request for public comments.

SUMMARY: The Veterans Administration is publishing for public comment statements of procedures which have been adopted by the agency in order to implement some of the provisions of the Veterans' Rehabilitation and Education Amendments of 1980. These statements will better acquaint veterans, eligible persons, educational institutions and the public at large with the way these provisions will be implemented.

DATE: Comments must be received on or before July 1, 1981.

ADDRESS: Send written comments to: Administrator of Veterans Affairs (271A), Veterans Administration, 810 Vermont Avenue, NW., Washington, D.C. 20420.

Comments will be available for review at the above address during normal business hours until July 13,1981.

FOR FURTHER INFORMATION CONTACT: Dr. Stephen L. Lemons, Assistant Director for Policy and Program Development, Vocational Rehabilitation and Counseling Service (282), Veterans Administration, 810 Vermont Avenue, NW., Washington, D.C. 20420 (202-389-2026).

SUPPLEMENTARY INFORMATION: This publication contains appendixes to DVB Circular 28-80-3, Vocational Rehabilitation and Counseling Provisions of the Veterans' Rehabilitation and Education Amendments of 1980 (Pub. L. 96-466). The basic circular, DVB Circular 28-80-3, was published for information in the **Federal Register** on January 16, 1981 at page 4016, Volume 46, number 11.

These appendixes to that issue implement additional provisions of Title I, Pub. L. 96-466 having to do with the VA Vocational Rehabilitation program. The issues being published include:

—Adjustment for Increased Subsistence Allowance (Appendix A)
—Extension of Eligibility-Considerations for Vocational Rehabilitation Trainees Prior to April 1, 1981 (Appendix B)
—Changes to the Chapter 31 Payment Procedures for Employment Adjustment Allowance (Formerly Post-Rehabilitation Pay) (Appendix C)
—Chapter 31 Eligibility and Entitlement (Appendix (D)
—Chapter 31 Subsistence Allowances (Appendix E)
—Chapter 31/34 Crossover Training in a Vocational Rehabilitation Program (Appendix F)
—Initial Evaluation (Appendix G)
—Extended Evaluation (Appendix H)
—Individualized Written Rehabilitation Plan (Appendix I)
—Authorization of Supplies under Chapter 31 (Appendix J)
—Incarcerated Veterans in Vocational Rehabilitation Programs (Appendix K)

These issues have been implemented and have been distributed through normal channels to interested persons. Comments received will be used in developing changes to these appendixes.

Additional Comment Information

Interested persons are invited to submit written comments, suggestions, or objections regarding this document to the Administrator of Veterans Affairs (271A), Veterans Administration, 810 Vermont Avenue, NW., Washington, D.C. 20420. All written comments received will be available for public inspection at the above address only between the hours of 8 am and 4:30 pm Monday through Friday (except holidays) until July 13, 1981. Any person visiting the Veterans Administration Central Office in Washington, D.C. for the purpose of inspecting any such comments will be received by the Central Office Veterans Services Unit in room 132. Such visitors to a VA field station will be informed that the records are available for inspection only in Central Office and furnished the above address and room number.

Approved: May 21, 1981.

Rufus H. Wilson

Acting Administrator.

[DVB Circular 28-80-3]

Appendix A—Adjustment for Increased Subsistence Allowance

October 30, 1980.

1. *Purpose.* This appendix provides procedural instructions for implementing those Pub. L. 96-466 provisions which increase the rates of subsistence allowance under 38 U.S.C. ch. 31 whenever automatic computer adjustment of the rates cannot be accomplished.

2. *Automatic Adjustment.* a. *Types of Awards Which Can Be Automatically Adjusted.* The DPC at Hines will effect the October 1, 1980, increase in chapter 31 subsistence allowance automatically and will arrange the issuance of adjustment checks only for those accounts in a running award status. In addition, only accounts being paid at a single standard institutional subsistence rate for the current award period can be adjusted by the computer. Therefore, the following types of accounts cannot be adjusted automatically:

(1) Terminated accounts;
(2) Accounts with withholdings or apportionments;
(3) Suspended accounts;
(4) On-farm training accounts;
(5) Apprenticeship or other OJT (on-the-job training) accounts; and
(6) Accounts with intervening dependency changes.

b. *Identification of Unadjusted Accounts.* Accounts not automatically adjusted will be identified for review by a listing and matching deck of punch cards for each field station except the Manila regional office. The listing will be furnished in triplicate and in file number sequence. Each file number entry will have associated with it the payee number, stub name, dependency code, current or latest rate of payment, combined degree of disability and the reason for nonadjustment. One of seven reasons will be given for the nonadjustment:

(1) Suspended;
(2) Has Futures;
(3) Withholding or Apportioned;
(4) No Match in Table;
(5) No Address;

(6) Terminated, or
(7) Other.

3. *Regional Office Review and Adjustment of Awards.* a. *Match Card Deck With R&E Folder.* The deck of cards furnished each field station will be attached to the appropriate R&E folders and routed to the Adjudication Division for review and any necessary award action. If an R&E folder has been transferred out, the corresponding card will be immediately forwarded to the Adjudication Officer at the office having the R&E folder for review and appropriate rate correction.

b. *Preparation of Rate Change Award Documents.* After reviewing the R&E folder and the nonadjustment reason, an adjudicator will prepare a VA Form 22–1907a, Authorization of Subsistence Allowance Under Chapter 31, if a rate adjustment is in order.

c. *Additional General Procedures.* Several requirements should be followed during this review in addition to existing procedure:

(1) *More Than One Issue May Be Involved.* Although the card sent from the Hines DPC cites only one reason for nonadjustment, more than one factor may have prevented adjustment. For example, a veteran in an OJT program may have an apportionment going to an estranged spouse.

(2) *Annotate Remarks Section.* Each VA Form 22–1907a completed as a result of this adjustment project should contain a note in the remarks section to the effect: "Adjustment based on rate change in Pub. L. 96–466."

(3) *Prior Payment Information.* All documents prepared as part of this review must include prior payment information in item 14 on the award document.

d. *Procedures Unique to Reason for Nonadjustment.* (1) *Withholding or Apportionment* The entire increase in subsistence allowance will be awarded to the veteran unless a claim for apportionment has been made and the evidence of record supports an increased apportionment to the veteran's dependents.

(2) *Withholding or Apportionment (Incarcerated Veterans).* Apportioned awards to dependents of incarcerated veterans convicted of a felony begun prior to October 17, 1980, will continue and may be adjusted based upon the dependent's need in individual cases. Any such apportionment begun or or after October 17, 1980, must be immediately terminated effective the date of last pay under VAR 10132(J)(2) as an administrative error. The dependents affected by any such termination of benefits will be notified by dictated letter of the circumstances of the termination. No appellate rights notification will be furnished.

(3) *Suspended.* The rate adjustment will not be made until award action is being taken to lift the suspense. If the suspense cannot be lifted at the time of the review, a VA Form 3230 with the message "Adjust for 10–1–80 rate change when suspense is lifted" will be flash filed on the left side of the R&E folder.

(4) *No Match in Table (Apprenticeship and Other On-The-Job Training).* If the veteran is being paid the difference between the monthly trainee wage rate and the monthly beginning wage rate of a trained worker, no rate adjustment is required. Care should be taken to correctly adjust those awards in which, as a result of the increase in the statutory rate, the difference in wage rates must begin to be paid since this difference has become lower than the statutory rate.

(5) *No Match in Table (Federal Agency OJT or Work Experience).* Any OJT rate award to a veteran in a nonpay or nominal pay OJT or work experience in a Federal agency must be adjusted to pay institutional rates effective October 1, 1980. These awards may have been adjusted in a separate review initiated in the VR&C (Vocational Rehabilitation and Counseling) Division/Staff. If an unadjusted award in this category is found, the adjudicator will immediately inform the VR&C Division/Staff and establish a local 5-workday diary. Upon receipt of a VA Form 22–1905 authorizing adjustment, the rate change award will be completed.

e. *Notice to Veterans.* No computer-generated award letter will be issued with the adjustment check. Veterans will be notified of the new subsistence rates, however, by a card included with each adjustment check issued. This notice will contain rate tables for the various types of training.

4. Rescission: This circular is rescinded October 1, 1981.

Dorothy L. Starbuck,
Chief, Benefits Director.

[DVB Circular 28–80–3]

Appendix B—Extension of Eligibility Considerations for Vocational Rehabilitation Trainees Prior to April 1, 1981

February 4, 1981.

1. *Purpose.* This issue provides instructions to both Vocational Rehabilitation and Counseling and Adjudication activities for processing chapter 31 benefit cases in which the VA must consider extensions of eligibility beyond the veteran's basic termination date.

2. *Background.* Public Law 96–466, Veterans' Rehabilitation and Education amendments of 1980, extends the basic period of eligibility for chapter 31 benefits from 9 to 12 years effective April 1, 1981. The new law also significantly liberalizes the conditions under which the VA may extend eligibility effective April 1, 1981. In planning or reviewing any chapter 31 training program, it should be noted that any veterans participating in a program of vocational rehabilitation on March 31, 1981, will receive automatic extensions of both eligibility and entitlement sufficient to complete their programs.

3. *Applications and Terminations Prior to April 1, 1981.* a. *Veteran Within 9 Years of RAD (Release From Active Duty).* If an application is received and the veteran's basic 9-year period of eligibility following RAD does not end prior to April 1, 1981, the claim will be processed and counseling will be conducted in the usual manner. If the veteran is eligible for chapter 31 training, the Counseling Psychologist will inform the veteran of the 12-year BTD (basic termination date) and that possibilities exist for extending this new basic date.

b. *Veteran More Than 9 Years But Less Than 13 years From RAD.* If an applicaton is received and the 9-year BTD has passed but the veteran is within 13 years of RAD, the Adjudication Division will review the record for possible extension under current policies (VAR 10041(A) (3) and (4)). The case will be referred to the VR&C activity for counseling and for consideration of an extension of eligibility under the other provisions of VAR 10041. If the veteran fails to meet current criteria for extension, the Counseling Psychologist will fully inform the veteran of the possibility of reconsideration under the provisions of the new law on or after April 1, 1981. Unless the veteran withdraws the application for benefits at this time, the Counseling Psychologist will arrange a counseling appointment for reconsideration of the claim after April 1, 1981. The case will be disposed of as "04—Counseling Suspended—Other." If the application is withdrawn, the case will also be disposed of under "04—Counseling Suspended—Other." In either occurrance, the Adjudication Division will be informed of the disposition for coding and closing out the current claim.

c. *Veteran More Tan 13 Years From RAD.* The requirement of serious service-connected disability in the determination of eligibility for extension under VAR 10041(B) remains unchanged. All claimants' cases where the service-connected disability is 30 percent or more will be referred to the VR&C activity for the scheduling of a counseling appointment. If the veteran is found to be in need and eligible for extension due to serious disability, current procedures will be followed to develop a program which meets the veteran's needs. If found ineligible, the veteran will be informed that changes in the law could lead to a different decision after April 1, 1981. The provisions for scheduling of a counseling appointment and the claim disposition procedures outlined in subparagraph b above will be followed.

d. *Active Chapter 31 Trainees With Termination Dates Prior to April 1, 1981.* (1) The VRS (Vocational Rehabilitation Specialist) will identify and refer each case to the Counseling Psychologist for consideration for extension in the same manner as for new applicants if the termination date occurs before March 31, 1981, and the veteran has not completed his or her program. Counseling Psychologists reviewing these cases should note that all veterans with a service-connected disability rated 50 percent or more will be presumed eligible for extension under VAR 10041(C). The Counseling Psychologist will transfer the case to the Adjudication Division for consideration under VAR 10041(A) (3) and (4) if the record does not contain evidence of a previous Adjudication determination and if an extension under the other provisions of VAR 10041 cannot be made.

(2) If the veteran fails to meet any of the criteria for extension of eligibility, the VRS will place the case in "entitlement expired" status (M28–1, pt. II, par. 5.04d) effective the day following the termination date. If the VRS finds that a running award extends beyond the termination date, the VRS will complete VA Form 22–1905 to authorize termination of subsistence allowance benefits. Upon receipt of VA Form 22–1905, the Adjudication Division will terminate any

such running award, taking an end product 210 for the action.

(3) If the veteran has not completed the program by the termination date, the VRS will review with the veteran the options available. This review will occur in as encouraging an atmosphere as possible and will contain as a minimum:

(a) A discussion of the feasibility of completing the previously developed training plan using other resources;

(b) An explanation of possible eligibility under the provisions of the new law effective April 1, 1981; and

(c) A clear statement that any request for reentrance would require a new determination of eligibility and entitlement under the new provisions of the law.

(4) The veteran's request for reentrance under the new law will be considered an informal claim. The VRS will arrange a counseling appointment and establish a pending 730 end product. No pending issue will be established in the Adjudication Division at this time. A final Adjudication end product 210 will be taken on each reentrance award completed as a result of these reconsiderations after April 1, 1981.

4. *Veterans in Induction Pending, Training or Interrupted status on March 31, 1981.* A veteran in one of the categories listed in subparagraphs a, b and c below on March 31, 1981, will receive extensions of eligibilty and entitlement needed to complete the program without regard to new law requirements for serious employment handicap determinations unless the veteran is later placed in discontinued status. For example, a veteran whose basic termination date is November 15, 1981, but who needs to continue in a rehabilitation program beyond that date will be extended for the time to complete his or her program. Similarly, a veteran who has already received a 4-year eligibility extension and whose extended termination date is July 1, 1981, may have his or her eligibility further extended for the period necessary to complete the program. If a veteran in one of these categories must use more than 48 months of entitlement to complete a program he or she must be authorized the additional months needed. Cases which do not fall in one of these three categories must meet the eligibility requirements effective April 1, 1981. (Section 101(d), Pub. L. 96–466)

a. *Induction Pending.* A veteran in induction pending status shall be considered a vocational rehabilitation participant with established eligibility and may enter the agreed-upon training program.

b. *In Training.* A veteran in receipt of subsistence allowance while in training or leave status shall be continued in his or her vocational rehabilitation program.

c. *Interrupted.* A veteran whose training was interrupted prior to April 1, 1981, but who has an established reentry date shall be continued in vocational rehabilitation.

5. *Rescission:* This circular is rescinded October 1, 1981.

Dorothy L. Starbuck,

Chief Benefits Director.

[DVB Circular 28–80–3]

Appendix C—Changes to the Chapter 31 Payment Procedures for Employment Adjustment Allowance (Formerly Post-Rehabilitation Pay)

February 23, 1981.

1. *Purpose.* This issue clarifies the changes in procedure for processing payments for the 2-month period following successful completion of a vocational rehabilitation training program. These changes stem from the recent enactment of Pub. L. 96–466, "Veterans' Rehabilitation and Education Amendments of 1980." The processing instructions in this issue expand upon the directives given in DVB Circular 28–80–3, Paragraph 5a(3), "Post-Rehabilitation Pay." A change in the concept of rehabilitation has led, however, to replacement of the term "post-rehabilitation pay" by a new title, "employment adjustment allowance," which more accurately reflects the altered purpose of the benefit.

2. *Overview and Background.* a. *Change in Benefit Name.* One of the requirements which the new law emphasizes for the chapter 31 program directs the VA to assist eligible disabled veterans to obtain and maintain employment as an integral part of the process of rehabilitation. Within this concept of comprehensive rehabilitation, the term "post-rehabilitation pay," which equates rehabilitation, with completion of training, would be inconsistent with the new purpose of the program. Therefore, to clearly indicate that the veteran is not rehabilitated when he or she receives this 2-month benefit and to establish the role of the benefit as an aid in the transition into the work environment, the term "post-rehabilitation pay" is changed to "employment adjustment allowance."

b. *Payment Changes.* Effective October 1, 1980, an employment adjustment allowance will be paid over a 2-month period rather than as a lump sum in all cases. The new law also increases the rate of payment of employment adjustment allowances to the full-time rate appropriate for the type of training, regardless of the rate of subsistence allowance received during the final enrollment period. This full-time benefit affects only those trainees completing their programs on or after October 1, 1980.

c. *Recent Field Payment Difficulties.* Field stations have experienced some difficulty in the submission to the Hines DPC Finance activity of VA Form 22–1907a, Authorization of Subsistence Allowance, to award these 2-month payments. The main problem concerns the appropriate type of award (item 4 on the VA Form 22–1907a) to check for these transactions to prevent computer rejection of the awards. Although the Hines Finance activity remains alerted to the possibility it might have to change the type of award to facilitate computer acceptance, regional offices can minimize these Hines Finance reviews and prevent delays in benefit delivery by following the procedures outlined below.

3. *Authorization of Employment Adjustment Allowance by the VRS (Vocational Rehabilitation Specialist).* The VRS will continue to use VA Form 22–1905, Authorization and Certification of Entrance or Reentrance Into Training and Certification of Trainee Status, to authorize payment of the employment adjustment allowance. Pending revision of the VA Form 22–1905, the VRS will check "Rehabilitated" in item 22 on the current form. In addition, in item 25 the VRS will state that payment of a 2-month employment adjustment allowance is authorized and will cite title 38, U.S. Code, section 1508, as the basis for the payment.

4. *Training Completed on or After October 1, 1980.* The type of award entry and consequently certain other entries on the VA Form 22–1907a for an employment adjustment allowance depend upon the time frame in which the award document is prepared. To distinguish between which type of award to check, regional office personnel should pay close attention to the Hines DPC chapter 31 Schedule of Operations when determining the appropriate type of award to prepare. Payment of an employment adjustment allowance which begins on or after October 1, 1980, will be at the appropriate full-time rate regardless of the rate the veteran was receiving at the end of his or her program.

a. *Amended Award.* The Adjudication Division will prepare an amended award if copy 2 of the completed award document can reasonably be expected to reach the Hines DPC before the transmittal receipt date for input into the EOM (end-of-month) cycle in the last month of the veteran's training award (see the last entry in column 2 of exhibit 1). The amended award will begin with Action Code Start of "5H" and will terminate with code "7H." The effective starting date on the first line of the subsistence allowance information will be the first day of the current month and the "None" date will be exactly 2 months after the "NONE" date of the running training award. The responsible adjudicator will annotate the "Remarks" section to the effect: "Award represents 2-month extension for employment adjustment allowance." In addition, the Prior Payment Information (item 14 of the VA Form 22–1907a) will be completed, beginning with the first day of the current month and ending with the "None" date of the previous training award being extended. (For an example of a completed amended award, see exhibit 2 for an institutional award and exhibit 6 for an OJT/apprenticeship award.)

b. *Reopened Award.* The adjudicator will submit a reopened award to pay an employment adjustment allowance if the award document will arrive in the Hines DPC after the transmittal receipt date acceptable for an amended award. The reopened award will begin with Action Code Start "8H" and will terminate with code "7H." The Effective Starting Date on the first line of the subsistence allowance information will be the "None" date of the last training award. Payment will terminate with a "None" date exactly 2 months after the beginning date of the employment adjustment allowance. As on an amended award, the "Remarks" section will be annotated to the effect: "Award represents 2-month extension for employment adjustment allowance." (For an example of a completed reopened award, see exhibit 3.)

c. *Change in Training Program Ending Date.* If the VRS both certifies a change in the ending date of the veteran's training program and authorizes payment of an employment

adjustment allowance, the adjudicator will make both adjustments on the same document, unless the award would exceed four subsistence allowance lines. The adjudicator will classify the award as either an amended or reopened award depending upon the creteria presented in subparagraphs a and b above. A complete description of the intended purposes of the award adjustment will be entered in the "Remarks" section. In addition, Prior Payment Information will be included for all multiple action amended awards. (See exhibit 4 for an example of an amended award which both extends a period of half-time training and pays an employment adjustment allowance.)

5. [*Election of Another VA Education Benefit Following Rehabilitation to Point of Employability.* If a veteran has been rehabilitated to the point of employability, but he or she chooses to begin training under another VA education program rather than receive the full 2-month employment adjustment allowance, he or she may not receive the employment adjustment allowance for any period during which another VA education benefit is being paid. The payment of both an employment assistance allowance and another VA education benefit would amount to double payment of subsistence benefits since subsistence is incorporated in these other benefit allowances.

a. *Choice Between Benefits.* The VRS will clearly explain to each veteran prior to completion of the training portion of the rehabilitation program that an employment adjustment allowance may not be received during any period another VA education benefit is being received. If the veteran enters or proposes to enter another education program during a period he or she would otherwise be entitled to an employment adjustment allowance, he or she may elect to receive either the employment adjustment allowance or the other VA benefits payable based upon the veteran's new training program.

Note: This should not be mistaken for crossover training.

In the event the veteran chooses to receive benefits for the new training, employment adjustment allowance payments will be terminated effective the date the other benefit allowance begins. Both VR&C and Adjudication Division personnel will follow established procedure to amend the chapter 31 award, carefully annotating the authorization and award documents to fully describe the adjustment.

b. *At the time an employment adjustment allowance is awarded, Adjudication personnel will carefully annotate in red ink on the VA Form 22–6564, Claims Folder Flash—Vocational Rehabilitation Trainee, to show the veteran is receiving an employment adjustment allowance and to give the period the veteran is to receive the allowance. This action will flag the claim in case a veteran subsequently attempts to enter another benefit program prior to the end of his or her employment adjustment allowance payment period.*

c. *Duplicate Payments.* If a situation is discovered in which duplicate payments were made, the VRS will notify the veteran in writing that the veteran is entitled to only one of the benefits and will explain the options available. The veteran will be given 30 days to respond with an election of the benefit to be retained. In the event the veteran does not respond, the VRS will authorize termination of the chapter 31 employment adjustment allowance to retroactively eliminate any duplication of benefits.]

6. [*No Entitlement Charge for Employment Adjustment Allowance.* The employment adjustment allowance is considered a freestanding part of the placement services which are in addition to the months of entitlement a veteran may use to reach a vocational rehabilitation objective. Therefore, such allowances will not be counted for any entitlement usage purposes. (38 U.S.C. 1505(b))

Note:—This provision may well be to a veteran's advantage, if he or she is affected by paragraph 5 above, to conserve benefit entitlement by electing the employment adjustment allowance in lieu of another education benefit for the period such election is possible. The VRS should instruct the veteran of this opportunity to conserve entitlement.]

7. *Training Completed Before October 1, 1980.* Preparation of an employment adjustment allowance award when training was completed prior to October 1, 1980, will follow the reopened award procedures with one exception: The award will be paid at the same rate the veteran was receiving in the last month of training, although a legislative rate increase may be included if it occurs during the 2-month period. (See exhibit 5 for an example of such an award.)

[8.] *Status Code Sheet Preparation.* A VA Form 22–4624, Chapter 31 Status Code Sheet, will be prepared for each award of an employment adjustment allowance for input into the St. Paul DPC chapter 31 master record. Regardless of the type of award prepared, each VA Form 22–4624 submitted to show payment of an employment adjustment allowance will be classified as a reentrance action. All items required for a reentrance action will be entered on the form. The Effective Reason will be "60;" the Effective Date will be the date the employment adjustment allowance begins; the End Reason will be "[72];" and the Ending Date will be the last pay date of the employment adjustment allowance.

[9.] *Rescission.* Paragraph 5a(3) of DVB Circular 28–80–3.

Dorothy L. Starbuck,
Chief Benefits Director.

Appendix D—April 7, 1981.

Chapter 31 Eligibility and Entitlement

1. *Purpose.* This appendix informs all concerned staff about the changes in chapter 31 eligibility and entitlement criteria contained in Pub. L. 96–466, Veterans' Rehabilitation and Education Amendments of 1980.

2. *General.* Recent revision of the provisions of law governing the Veterans administration rehabilitation program has substantively altered eligibility and entitlement to services effective April 1, 1981. Traditional approaches in several counseling areas require modification. The new law clearly indicates that under normal circumstances rehabilitation will be accomplished within a basic eligibility period of 12 years. Extensions to the basic 12-year period may be granted, but the reasons for granting such extensions differ from previous regulation. Need determinations produce three basic groups: Veterans without employment handicaps, veterans with employment handicaps and veterans with *serious* employment handicaps. While the new law addresses a holistic approach to rehabilitation which necessitates comprehensive evaluation and planning, the following basic requirements for entitlement must be met: The veteran must have a compensable service-connected disability; there must be a handicap to employment; and the compensable service-connected disability must materially contribute to the limitations which constitute the handicap to employment. The distinction between "employment handicap" and "serious employment handicap" lies in the severity of the disability and the significance of the impairment of the ability to train for, obtain, and retain suitable employment.

3. *Entitlement.* A veteran with other than a dishonorable discharge is entitled to rehabilitation services when two conditions are met: He or she must have established a compensable service-connected condition, or be receiving retired pay in lieu of compensation; and this service-connected condition must have been incurred or aggravated during active service on or after September 16, 1940. A service person hospitalized for a condition likely to be service-connected and awaiting dicharge or release from active duty may also be considered for rehabilitation services. Current procedures for memorandum ratings (M28–1, pt. I, par. 4.04) should be followed. In addition to this disability requirement, the VR&C Division must determine the veteran is in need of rehabilitation based upon an employment handicap.

4. *Eligibility.* The basic period of eligibility has been changed from 9 years to 12 years. The basic period begins on the date of the veteran's unconditional discharge from his or her last period of active military duty and ends on the date 12 years following that date. Extensions to the basic period are provided, with the extensions beginning on the first day following the initial ending date of the basic 12-year period or the date the veteran becomes initially eligible subsequent to that date.

5. *Extensions of Eligibility.* a. *Medical Infeasibility.* If initiating or continuing in a vocational rehabilitation program within the basic period of eligibility was medically infeasible for a veteran, the veteran may request such an extension in writing. The VR&C Division will forward the request along with any relevant materials to the Adjudication Division for the development and rating board determination of the period of infeasibility. The rating board will determine the period or periods of medical infeasibility in the same manner already established for other VA education programs. The ending date of the period of infeasibility shall be the date the veteran was able to resume normal activity. Any period of infeasibility must be for a duration of at least 30 days and no adjustment or extension will be granted for less than 30 days. If the veteran's period of medical infeasibility begins during the basic 12-year period and extends beyond the basic 12-year period, the extension will begin on the first day the veteran was able to resume normal activity and will last for the equivalent time of the determined period of infeasibility which occurred during the basic period.

b. *Upgraded Discharged.* If the nature of the veteran's discharge was a bar to benefits and the effect of his or her discharge is subsequently changed (as stated in section 1503(b)(2) of title 38) to allow benefits, extension for the period the veteran was barred from receiving chapter 31 benefits may be granted. The Adjudication Division will determine the period of extension. The extension will contain the same number of days as the days from the veteran's RAD (release from active duty) to the date of the effect of his or her discharge being changed, but will in no case exceed 12 years.

c. *Date of Rating.* If the service-connected condition is not established as compensable from the date following the date of discharge, but is compensable only from a later date, the veteran is entitled to extension of the basic eligibility period for the period he or she was not eligible for chapter 31 benefits. The Adjudication Division will determine the length of extension (not to exceed 12 years) to equal the number of days from the veteran's RAD to the date the veteran was notified of the disability rating granting initial compensable service-connection.

d. *Serious Employment Handicap.* If the basic 12-year eligibility period has expired, an extension may be provided if it is determined that the veteran has a serious employment handicap and has not previously been rehabilitated or, though previously rehabilitated, the functional limitations of the service-connected condition have substantially increased so that previous training and employment experience can no longer be utilized in suitable employment. Also for consideration in the evaluation of previously attained skills is the question of obsolescence based on how long ago those skills were utilized and how those skills have been affected by economic, industrial or technological changes. An extension for serious employment handicap will be determined by the VR&C Division and will last until the veteran is declared rehabilitated or has reached the maximum feasible independence in daily living.

6. *Need Determinations.* a. *Limitations to Employment.* Need for vocational rehabilitation services will not be presumed to exist solely on the basis that a veteran has a compensable service-connected condition. Although a compensable service-connected condition is a requirement, other criteria, namely the existence of meaningful functional limitations and a lack of suitable employment skills typically attained through formal training or work experience, are also essential. These meaningful functional limitations must be clearly and convincingly established and, once identified, shown how they are occupationally significant. Rating decisions, medical records, and data acquired in the course of evaluation, including specifics about work experience, are among sources of information for developing these limitations. A comprehensive analysis of the veteran's past experiences and current situation is required to adequately consider limitations and, consequently, need. All prior experiences, whether or not directly related to veteran status are to be considered; e.g., education, training and employment prior to military service, military training and assignments, postmilitary employment, education, and training.

b. *Obtaining Information.* Information to analyze the veteran's employability, when not available from current VA records, must be obtained from the veteran or, with his or her authorization, from other sources; e.g., State Department of Vocational Rehabilitation. When prior education or training is known to exist, a transcript or progress record should be obtained and examined. When a record of substantive employment is known, the employer should be contacted to learn of that experience. Resources such as "Selected Characteristics of Occupations Defined in the Dictionary of Occupational Titles" and other D.O.T. volumes will be helpful in relating the veteran's capacities and limitations to aspects of education/training/employment.

c. *Critical Nature of the Need Determination.* Need determinations are not only a critical decision for accountability but are the foundations for action and planning of a rehabilitation program. The need-determining process and the identification of significant functional limitations should be logical, integrated and comprehensive. Determinations should be made as early as possible in the initial evaluation process and be well documented. (For a detailed discussion of the initial evaluation process, see Appendix G to DVB Circular 28–80–3 which describes this process more completely). Although meaningful functional limitations may be found, if the veteran possesses suitable skills and is qualified for employment, need for training would not be found. When the criteria for need are met and meaningful limitations are related to work behavior, there exists a solid base for developing a realistic and reasonably viable rehabilitation program. Clearly developed determinations will show the veteran's impairments toward a vocational adjustment and the employment handicap.

7. *Employment Handicap.* The term "employment handicap" means an

V 46 / 106 JE 3 81 1 UMI

impairment of the veteran's ability to prepare for, obtain, or retain employment consistent with such veteran's abilities, aptitudes, and interests. Three key elements make up the concept of employment handicap:

a. There must be a disability which is service connected;

b. Limitations from the service-connected disability must exist at present; and

c. The effects of the service-connected disability (when considered in relation to other factors, including prior education, training, non-service-connected disabilities) must materially contribute to the veteran's employment handicap.

8. *Employment Handicap Determination.* a. *Types of Determinations.* The counseling psychologist may find:

(1) The veteran has an employment handicap;

(2) The veteran is handicapped in obtaining or retaining employment, but the veteran's service-connected disability does not contribute materially to that handicap; or

(3) The veteran does not have an employment handicap.

b. *Results of Determination.* A veteran, otherwise eligible, who is found to have an employment handicap is in need of VA rehabilitation assistance and entitled to services under the VA vocational rehabilitation program. However, a veteran who has a service-connected disability which does not materially contribute to the employment handicap or who does not have an employment handicap is not entitled to services under the vocational rehabilitation program.

9. *Serious Employment Handicap.* When a veteran is found to have an employment handicap, the counseling psychologist also must make a subsequent determination whether the employment handicap is a serious employment handicap. A determination that the veteran has a serious employment handicap is a condition of the veteran's eligibility for extension beyond the 12-year period of eligibility, and to extension of training beyond 48 months under chapter 31. In addition, the intent of the law is to identify veterans who may need more comprehensive services and to assure that the more comprehensive services are provided.

10. *Serious Employment Handicap Determinations.*

a. *Qualifications for Serious Employment Handicaps.* For purposes of this determination, veternans designated as having a serious employment handicap may include:

(1) All veterans with a combined service-connected disability of 50 percent or more;

(2) Veterans with a neuropsychiatric disability of 30 percent or more; and

(3) Veterans with a combined service-connected disability of 30 to 40 percent if one or more of several conditions are found:

(a) There is a prior history of poor adjustment in training and employment, and special efforts will be needed if the veteran is to be rehabilitated;

(b) The veteran's socioeconomic situation presents special problems and a number of special and supportive services are needed to effect rehabilitation;

(c) A veteran requires extended evaluation to determine the reasonable feasibility of a vocational rehabilitation program;

(4) Veterans with a single service-connected disability rated 10 or 20 percent may be found to have a serious employment handicap only under rare and unusual circumstances. When such a finding is made by the counseling psychologist, the concurrence of the Vocational Rehabilitation Board is required.

b. *Serious Employment Handicap Decision Required.* The counseling psychologist must make a positive or negative finding of serious employment handicap whenever the veteran has an employment handicap. When a positive or negative finding cannot be made by the counseling psychologist, the case will be referred to the Vocational Rehabilitation Board for the determination.

11. *Role of the Counseling Psychologist.* The question of employment handicap which exists at present must arise from the service-connected disability. The consequences of the service-connected disability in terms of employability will in some cases be obvious and in other cases be quite obscured. For example, every veteran who has a below-the-knee amputation has suffered a loss. The loss may be translated into obvious physical terms such as loss of mobility. The loss of a leg may also have had psychological consequences which manifest themselves in depression or passive-aggressive behavior. The counseling psychologist must elicit and document the role which the service-connected disability has played in the veteran's life and adjustment. In many cases, particularly those in which the service-connected disability is more severe, the adverse effect the veteran's service-connected disability in and of itself has on employment adjustment in terms both of preparation for and stability of employment, will be clear.

a. *Low Service-Connected Disability Ratings.* In cases where the service-connected disability is less severe, as in cases rated 10 and 20 percent, the relationship between the service-connected disability and the veteran's current situation may be more difficult to determine. The same process of analyzing the physical and psychological consequences of disability should be followed. Where this information is not definitive, the limitations caused by the service-connected disability must take precedence over other factors, such as skills acquired through prior education, experience, or non-service-connected disability.

b. *Effect of Education or Training on Employment Handicap Considerations.* Previously acquired substantial skills and education serve as the basic means of overcoming the effects of disability Education and training make it possible to work under circumstances in which the effects of disability may be mitigated or overcome and the range of employment options is thereby broadened. For this reason, veterans with a less severe service-connected disability normally will be considered to be qualified for suitable employment through prior training, reasonably developed skills and stable employment.

c. *Extent of Training for the More Seriously Disabled.* If the service-connected disability is more severe, the extent of training and other services needed to compensate for the disability may be more extensive if the individual is to be in a competitive position to qualify for and secure suitable employment. Therefore, training beyond the norm for more severely disabled veterans is a major mechanism for assuring employment. Where more severely disabled veterans do not have such training, their total situation should be carefully analyzed to determine whether problems in obtaining or maintaining employment are related to level of training in the occupation.

12. *Eligibility for Employment Services.* Employment services may be provided to all eligible veterans found to have an employment handicap. They may also be provided without establishing entitlement to other vocational rehabilitation services if the veteran has been a previous participant in a vocational rehabilitation program under either chapter 31 or the Rehabilitation Act of 1973. The criteria for providing these services to such participants will be described in a future appendix to this circular.

13. *Importance of the Need Determination.* The decision whether a veteran is in need of vocational rehabilitation is the single most important decision which a counseling psychologist makes. An incorrect decision may deprive a veteran of services which could improve his or her life or commit the Government to providing costly assistance to persons who do not require such help. Therefore, the facts in the case and the rationale for the decison must be clear, specific and convincing.

Appendix E—Chapter 31 Subsistence Allowances

April 7, 1981.

1. *Purpose.* This issue implements those provisions of Pub. L. 96–466, "Veterans' Rehabilitation and Education Amendments of 1980," which affect the payment of subsistence allowances to chapter 31 participants.

2. *New Program Requirements.* a. *Effective Date of New Law Provisions.* All of the provisions contained in this issue are effective April 1, 1981, unless otherwise noted.

b. *Additional Information.* Certain provisions of the new law governing the chapter 31 program require extensive explanation and description of implementing procedures. These include the payment of employment adjustment allowances (formerly called post-rehabilitation payments) (see app. C), crossover elections of benefit payments at chapter 34 rates while remaining in a chapter 31 program (see app. F), and limitations on the payment of subsistence allowances to veterans incarcerated for conviction of or while awaiting trail for a felony or misdemeanor (see app. K). The new law does not mandate changes to the payment procedures for institutional, farm cooperative, apprenticeship, other on-job, combination or non-farm cooperative training, other than to

increase the rate of allowance which may be paid. Full descriptions of the appropriate procedures for the payment of allowances for these programs can be found in current operational manuals and other directives. The increased rates of payment for these types of training are presented in exhibit 1 of this appendix.

c. *When Subsistence Allowance is Expressly Barred.* Payment of a subsistence allowance is specifically prohibited during certain stages of the rehabilitation program:

(1) The veteran is undergoing initial evaluation to determine his or her eligibility and entitlement to chapter 31 benefits;

(2) The VR&C (Vocational Rehabilitation and Conseling) Division is providing the veteran with only counseling services; or

(3) The veteran is receiving only job placement and postplacement services.

Note.—The prohibition against payment of a subsistence allowance to a veteran in placement or postplacement activities does not extend to the appropriate payment of an employment adjustment allowance.

d. *General Effect of the New Law on Payment Procedures.* Current methods of payment and recordkeeping will continue unless specifically modified for a particular training situation outlined in this issue.

e. *Trainee in Receipt of Temporary 100 Percent Compensation Based on Hospitalization.* The payment of subsistence allowance benefits is now limited while a trainee is hospitalized, or under observation at VA expense for a service-connected condition and he or she is receiving temporary compensation at the 100 percent rate as specified under section 314(j) of title 38, U.S. Code. It should be noted that crossover trainees receiving chapter 34 rates for chapter 31 program training are also limited under this restriction. When a participant in a chapter 31 training program meets the criteria for this limitation, the responsible adjudicator will notify the VRS. The VRS will immediately complete a VA Form 22–1905 to enable the adjudicator to adjust the applicable subsistence allowance or crossover chapter 34 award, so that the adjusted chapter 31 award, when combined with the temporary 100 percent award, effective the date of the increase to the 100 percent compensation rate will pay the veteran the greater of:

(1) The sum of—

(a) The amount of monthly subsistence or other allowance that would otherwise be paid to the veteran for his or her training program, and

(b) The amount of monthly compensation that would be paid to such veteran if the veteran was not receiving compensation at the 100 percent rate as the result of such hospital treatment or observation; or

(2) The amount of monthly compensation payable to the veteran at the 100 percent temporary rate as provided in section 314(j) of title 38, U.S. Code.

Note 1.—The veteran may receive full subsistence or other allowance benefits while convalescing following hospitalization. Care should be taken not to limit benefit payments during this period.

Note 2.—The VRS will carefully weigh the veteran's ability to pursue the ongoing program of rehabilitation while hospitalized when deciding whether to grant leave, to continue the training award at a reduced or zero rate, or to interrupt training pending the results of the hospitalization. The VRS should make every effort to discuss this matter with the veteran prior to authorizing any award adjustment, but in no instance will the VRS delay the authorization long enough to cause an overpayment to be created against the veteran.

f. *Payment of Room and Board in a Specialized Rehabilitation Facility.* If the VRS finds and the veteran agrees that the payment of room and board in a specialized rehabilitation facility in lieu of basic subsistence allowance (excluding additional allowances for dependents) would be to the veteran's advantage, the VRS will authorize the Adjudication Division to reduce the veteran's subsistence allowance to pay only the additional allowances for dependents. The VRS will then arrange for direct voucher payment of the room and board expenses of the veteran. Both the authorization and award documents will be annotated in the "Remarks" sections with the following: "Veteran will receive room and board in lieu of basic subsistence allowance." If the veteran has no dependents, the award will be terminated effective the date payment of room and board begins. A record purpose award will be prepared at the "None" rate for voucher payment purposes effective the date the subsistence allowance terminates and running through the date scheduled for the completion of the training program during which room and board will be paid directly.

g. *Nonpay Federal Work Experience.* If a veteran pursues, as part of his or her vocational rehabilitation program, full-time on-job training or work experience in a Federal agency at nominal pay or without pay, the VRS will authorize and the Adjudication Division will pay full-time subsistence allowance at institutional rates. Formerly such payments had to be made at the on-job/apprenticeship rates. No other change in the current methods of processing award actions in such cases is required. (Effective October 1, 1980.)

h. *Extended Evaluations.* If the VR&C Division cannot determine whether a veteran with a serious employment handicap can be reasonably expected to achieve a vocational goal, the veteran shall be provided with services needed to thoroughly evaluate his or her potential for vocational rehabilitation. A veteran in this new rehabilitation program status can now receive a subsistence allowance.

(1) *Single Institution Rates of Pursuit and Payment.* Extended evaluation shall be paid for full-time, three-quarter time, half-time and quarter-time participation at the institutional rate. (See subpar. (2) for a complete listing of rates payable.) Extended evaluation is the only chapter 31 training type which may be paid on a quarter-time basis. The rehabilitation facility will certify to the VR&C Division the veteran's rate of pursuit in accordance with the facility's customary criteria for participation. The VRS will use the facility's determination of rate of pursuit when authorizing subsistence allowance or other benefit payment.

(2) *Multiple Institution Rates of Pursuit and Payment.* When a veteran is undergoing an extended evaluation involving two or more facilities concurrently, the rate of payment shall be based upon combined attendance as shown in the table below:

Rate of participation and clock hours per month	No dependent	One dependent	Two dependents	Each additional dependent
Full-time (120 or more)	$282	$349	$411	$80
Three-quarter-time (90–119)	212	262	308	22
Half-time(60–89)	141	175	206	15
Quarter-time (30–59)	71	87	103	8

(3) *Less than Quarter-Time Attendance.* A veteran participating in an extended evaluation program at less than a quarter-time rate may not receive a subsistence allowance. The VR&C Division may authorize voucher payment of the direct program expenses for the services provided to the veteran. The VR&C Division will authorize and the Adjudication Division will prepare a no-rate award document to justify these voucher payments.

(4) *Room and Board in Lieu of Basic Subsistence Allowance.* If the VRS finds and the veteran agrees that the payment of room and board in lieu of an award of subsistance allowance for an extended evaluation program in a specialized rehabilitation facility would be to the veteran's advantage, the VRS will authorize the Adjudication Division to reduce the veteran's subsistance allowance effective DLP (date last paid) to pay only the additional amounts for dependents. The dependency portion of a veteran's award is specifically exempted from reduction when the VA pays the veteran's room and board. The VRS will then authorize direct voucher payment of the veteran's room and board expenses. Item 25 on VA Form 22–1905, Authorization and Certification of Entrance or Reentrance into Training and Certification of Trainee Status, and item 12, Remarks, on VA Form 22–1907a, Authorization of Subsistence Allowance, will each contain the annotation "Veteran will receive room and board in lieu of basic subsistence allowance."

(5) *Award Processing.* Both authorization and award documents will be annotated to clearly show the veteran's status as an extended evaluation participant. In coding the VA Form 22–4624, Chapter 31 Status Code Sheet, for a veteran in extended evaluation, the adjudicator will enter under "Type Training" the letter "M." No other change in current processing of award actions is required for participants in an extended evaluation program.

Note.—The extended evaluation program is more fully discussed in appendix H.

i. *Increased Rates of Subsistence Allowance Payable.* The rate of subsistence allowance benefits payable has been increased by approximately 17 percent. These new rates are presented in exhibit 1. (Effective October 1, 1980.)

Dorothy L. Starbuck,

Chief, Benefits Director.

V 46 / 106 / JE 3 81 UMI

Rates Effective October 1, 1980 for Subsistence Allowance Under Chapter 31 (Title 38, U.S.C.)

Type of program	No dependents	One dependent	Two dependents	Additional amount for each dependent over two
Institutional Training: [1]				
Full time	$262	$349	$411	$30
Three-quarter time	212	262	308	23
Half time	141	175	206	15
Unpaid or nominally paid federal work experience: Full time	282	349	411	30
Farm cooperative; apprenticeship; or other on-job training: Full time	246	297	343	22
Combination (Full time only): [2]				
Institutional one-half time or more	282	349	411	30
Institutional less than one-half time	246	297	343	22
Non-farm cooperative (Full time only): [3]				
Institutional phase	282	349	411	30
Business/industrial phase	246	297	343	22

[1] Measurement of rate of pursuit (VAR's 14270–14275).
[2] In a combination course, the veteran receives the appropriate rate based upon whether institutional or business/industrial training predominates.
[3] In a non-farm cooperative course, the veteran alternates full time between institutional and business/industrial training sessions. The veteran is paid the appropriate rate for each phase of training.

[DVB Circular 28–80–3]

Appendix F—Chapter 31/34 Crossover Training in a Vocational Rehabilitation Program

April 7, 1981.

1. *Purpose.* This issue provides instructions for processing a claim when a chapter 31 trainee with remaining chapter 34 eligibility and entitlement elects to receive an educational assistance allowance in lieu of a subsistence allowance and payment of tuition, fees and supplies. Veterans making such elections forfeit several other vocational rehabilitation financial benefits during the period of election, but remain eligible for nearly all other rehabilitation services provided to chapter 31 trainees. (Pub. L. 96–466)

2. *Provisions of the Crossover Election.* Effective April 1, 1981, vocational rehabilitation participants who are eligible for chapter 34 benefits may choose to receive payment at chapter 34 educational assistance rates to the extent of their remaining chapter 34 entitlement (38 U.S.C 1508). A veteran who makes this election remains, nonetheless, classified as a chapter 31, trainee.

a. *Chapter 34 Assistance Available.* A veteran making this election will receive an educational assistance allowance commensurate with his or her rate and type of training. He or she may also receive an education loan if found in need, in accordance with the provisions of sections 1798 and 1799 of title 38, U.S. Code. If tutoring is required, the crossover trainee may receive such assistance under the provisions of section 1692 of title 38, U.S. Code, in the same manner and up to the normal dollar limitations for chapter 34 students.

b. *Chapter 34 Program Requirements Must Be Met.* For a crossover trainee to elect or continue to receive chapter 34 benefits, all the program requirements for a regular chapter 34 course of training must be met:

(1) The program and courses the veteran is pursuing must meet all VA and SAA approval criteria;

(2) The veteran must be within the period of chapter 34 eligibility and have remaining chapter 34 entitlement; and

(3) While training, the veteran must meet all standards of progress and conduct that are imposed upon chapter 34 participants.

Note.—The requirement that a program must meet chapter 34 criteria for approval of a program of education thereby excludes an election for any period of extended evaluation, other periods of evaluation and improvement of rehabilitation potential, independent living, individual programs for the homebound, or individual instructor training. During the periods in which the veteran is involved in such activities, he or she will be entitled to a chapter 31 subsistence allowance to the extent he or she is otherwise eligible.

c. *Chapter 31 Assistance Forfeited During Crossover Period.* Certain benefits normally available to chapter 31 participants are expressly prohibited to trainees while receiving chapter 34 crossover benefits:

(1) Such trainees forfeit receipt of subsistence allowance;

(2) They may not obtain chapter 31 revolving fund loans;

(3) They must pay for direct education expenses, which include tuititon, fees, books, supplies, licensing fees, equipment and other training material for which the VA could have paid by voucher if the veteran had elected to receive subsistence allowance;

(4) They may not be provided individualized tutorial assistance under chapter 31; and

(5) They may not receive an employment adjustment allowance (formerly post-rehabilitation pay) at chapter 34 rates, although this benefit may be paid at subsistence allowance rates as provided in subparagraph e(2) below.

d. *Chapter 31 Services available to Crossover Trainees.* A crossover trainee may receive any service available to vocational rehabilitation program participants except for those financial assistance benefits barred in subparagraph c above. These services are as essential to the accomplishment of the vocational rehabilitation goals of crossover trainees as they are for participants receiving regular chapter 31 award benefits. Among these services, several deserve to be emphasized:

(1) An IWRP (Individualized Written Rehabilitation Plan) will be created for each participant electing chapter 34 benefits as part of a vocational rehabilitation program;

(2) A case manager will work closely with the veteran to develop and carry through with the rehabilitation program; and

(3) Special services not specifically excluded in subparagraph c(3) above may be paid by voucher.

e. *Chapter 31 Services Available Upon Completion of Training*

(1) Trainees who complete their vocational rehabilitation programs in a crossover status will receive the same employment assistance provided other chapter 31 participants.

(2) An employment adjustment allowance will be paid at the full-time subsistence allowance rate appropriate to the type of training even if the veteran completed his or her vocational rehabilitation training program while in a crossover status.

f. *Election Effective Dates.* (1) No election can be made effective prior to April 1, 1981.

(2) The effective date of each election made prior to receipt by the veteran of a subsistence allowance will be the beginning date of the period of training for which a subsistence allowance would normally otherwise have been authorized.

(3) An election made during a period of training for which a veteran has already begun to receive a subsistence allowance will be effective DLP for the subsistence award or the date of the election, whichever is to the veteran's financial advantage.

(4) In contrast to subparagraph (3), however, if a veteran in receipt of a subsistence allowance elects chapter 34 crossover benefits during an interval between training sessions, payment for the interval will be at the chapter 31 rate and the chapter 34 rate will begin effective the starting date of the following period of training.

g. *Vocher Payments of Tuition and Fees Restrict Elections.* A veteran may not elect payment at the chapter 34 rate for any period for which the VA has paid the veteran's tuition and fees.

(1) For a school organized on a term, quarter or semester basis, this will preclude elections during any term, quarter or semester for which the VA has already paid the tuition and fees.

(2) For other institutions whose tuition and fees are postpaid on a recurring basis, elections may be made effective the first day of any month for which the VA has not already paid the tuition and fees.

h. *Reelections.* (1) *Voluntary Reelections.* A veteran in crossover training may reelect to receive a subsistence allowance and thereby give up chapter 34 benefits. For training in a school organized on the basis of regular terms, semesters, etc., veterans should receive educational assistance for at least one term before reelection. If a training facility does not structure its training around regular terms, the veteran may make the reelection anytime but he or she should have been receiving chapter 34 crossover benefits

for 6 months at the time of the reelection. These training duration guidelines may be waived with the concurrence of the responsible VRS (Vocational Rehabilitation Specialist). The close contact each VRS maintains with trainees should minimize arbitrary reelections. On the other hand, a reelection of subsistence allowance must be approved whenever the VRS finds that failure to approve a reelection of subsistence allowance would work to the veteran's financial detriment. Interval payments, when the veteran reelects subsistence allowance during an interval, will be paid at whichever applicable rate affords the veteran the greater advantage unless the veteran declines the higher rate of payment.

(2) *Automatic Discontinuance of Chapter 34 Election.* The election of chapter 34 crossover training will automatically be terminated the day following the last day of approved training in one of six instances:

(a) The veteran makes an unauthorized reduction in training time without VRS approval;

(b) The veteran ceases his or her chapter 34 crossover training without VRS approval;

(c) The veteran changes his or her program objective on the IWRP without VA approval;

(d) The veteran exhausts entitlement to chapter 34 allowance payments;

(e) The veteran reaches his or her chapter 34 delimiting date; or

(f) The veteran completes his or her training program while in a crossover status and is declared rehabilitated to the point of employability.

3. *Vocational Rehabilitation and Counseling Procedures.* a. *Election Rights Presented to Veterans.* VR&C staff should inform eligible applicants of their election rights and the benefit trade-offs available to crossover trainees before they being training. For current trainees or applicants, this notification may be given during a regular supervisory session.

b. *Review of Crossover Requirements.* The VRS will insure that each crossover program elected meets all chapter 34 requirements. If a program does not meet chapter 34 requirements, a veteran may mot receive chapter 34 benefits for that program.

c. *Entitlement Usage Requirements.* The VRS will not extend a crossover program beyond 48 months of combined entitlement used if the veteran has trained under more than one benefit type. to be considered to have trained under chapter 31 for computation of combined entitlement usage, the veteran must actually have received a subsistence allowance. If the veteran has only received chapter 34 benefits, *to include payments made under the crossover election,* the veteran may not exceed 45 months of chapter 34 benefits unless he or she qualifies for one of the extensions to complete a training session normally granted chapter 34 trainees. Beyond these limits, a vocational rehabilitation participant may only receive subsistence allowance and othe standard chapter 31 financial assistance, and then only if the additional benefits are necessary to accomplish the goal of the rehabilitation program. For all crossover cases, the VRS will clearly designate on the VA Form 22–1905 the dates of changes in crossover status The VRS and the Adjudication Division should cooperate in entitlement calculations to insure no involuntary alteration in crossover status which operates to the veteran's disadvantage occurs as a result of entitlement usage. Several examples of entitlement considerations will clarify the issues involved. Note that each of the examples given below assumes an approved program in which combined entitlement used will exceed 48 months.

(1) A veteran uses 46 months of chapter 34 entitlement before induction into a chapter 31 program. Since only 45 months of chapter 34 benefits plus extensions to finish terms already begun can be paid when only chapter 34 benefits have been received, this veteran *may not elect* crossover benefits.

(2) A veteran uses 24 months of chapter 34 entitlement, enters a vocational rehabilitation program and immediately elects chapter 34 crossover benefits. The veteran continues to receive crossover benefits for another 20¾ months, at which time the veteran would have used 44¾ months of chapter 34 entitlement. If the veteran then begins a new semester, he or she can continue to receive crossover benefits until completion of the semester. At that point the election is discontinued automatically and the veteran may receive only subsistence allowance.

(3) The same veteran in subparagraph (2) above uses exactly 45 months of entitlement at the end of a semester. He or she may only receive subsistence allowance for further training, to include the following interval between terms.

(4) A veteran receives 24 months of chapter 31 subsistence allowance and discontinues training under the vocational rehabilitation program. If this veteran reenters the chapter 31 program, he or she may immediately elect crossover benefits up to maximum of 24 months; that is, until 48 months of combined entitlement have been used.

(5) A veteran receives subsistence allowance for 48 months. He or she may not elect crossover benefits.

d. *Preparation of Certifications.* The VRS will use VA Form 22–1905, Authorization and Certification of Entrance or Reentrance Into Training and Certification of Trainee Status, to certify awards for crossover training. The certification will be prepared in the same manner as for a regular subsistence allowance with four exceptions:

(1) No award certified will extend beyond 1 year;

(2) Item 25 will be clearly annotated to show that the award to be prepared will be for a crossover trainee;

(3) A VA Form 3230 will be annotated "Chapter 31/34 Crossover Trainee" and back-filed on the right flap on the training subfolder so as to remain the uppermost document; and

(4) All certification and award documents will also be back-filed in the training subfolder for as long as the trainee is in the crossover status.

e. *VRS Progress Review.* The VRS will review continuation of payment at the chapter 34 rate as necessary, but at least once yearly. This will be done in the course of review of the veteran's progress in achieving the goals of the IWRP. As a result of this review, the VRS will certify either another year in the crossover program or reelection of subsistence allowance depending on the veteran's desires. Moreover, the VRS will counsel the crossover trainee and take the appropriate action whenever any one of several events occurs:

(1) The veteran requests consideration of redevelopment of the IWRP;

(2) The veteran indicates a desire to reelect subsistence allowance;

(3) The veteran makes an unauthorized change in his or her training program, including changes in training time, program objective or discontinuance of training.

Note.—Any such change requires VRS preparation of a VA Form 22–1905 prior to Adjudication Division award adjustment.

(4) The veteran is within 2 months of completing his or her vocational rehabilitation training program and employment assistance counseling has not been previously initiated.

f. *VRS Action When Veteran Makes an Unauthorized Training Program Change.* (1) When the VRS is informed of an unauthorized training program change, and suspension of payment at the chapter 34 rate as the result of the change where appropriate, the VRS will contact the veteran to determine whether the veteran can be continued in the program. The VRS will promptly notify the Adjudication Division of the ultimate outcome of the change review so appropriate award adjustement can be made.

(2) If the veteran has dropped or added courses which change pay status, but not the character of the course, the VRS may approve the change if the reasons are valid and reenter the veteran into the training program.

(3) If the change is to a different program or radically alters the nature of the course, the VRS may approve continuation if the veteran agrees to return to the previously established program and objective. If the veteran does not agree to reenter the same program, the VRS will arrange for complete reevaluation of the program.

(4) If the unauthorized change represents continuation of a pattern indicating abuse of the program, the VRS will discontinue the program for unsatisfactory conduct and failure to cooperate. A VA Form 22–1905 will be prepared discontinuing all chapter 31 benefits. The veteran may then reenter the chapter 31 program only if the reasons for discontinuance are removed and the rehabilitation program which the veteran proposes to pursue (whether the same or revised) is suitable to the veteran's abilities, aptitudes and interests.

g. *Reelection of Discontinuance Notification.* The VRS will notify the Adjudication Division of any reelection of subsistence allowance or discontinuance in the chapter 31 program altogether so that benefit payments can be promptly adjusted. Item 25 of the VA Form 22–1905 will be annotated to the effect: "Terminate crossover chapter 34 award effective (date)." If applicable, a regular subsistence allowance award may be authorized on the same document. The effective and ending dates of subsistence allowance payments will be clearly stated in item 25. At this time all

documents back-filed in the training subfolder as a result of the prior election will be filed down and the VA Form 3230 folder flash will be destroyed.

h. *VR&C Division End Product.* (1) When the VRS processes a chapter 34 crossover certification in the context of and incidental to the induction process, no additional end product will be taken. The "Regular Induction" end product taken will include direct labor allowances for all activities.

(2) When the VRS processes a chapter 34 crossover certification during the course of a supervisory assistance visit, no additional end product will be taken. The "Supervisory Assistance Visit" end product taken will include the certification.

(3) When the VRS processes a chapter 34 crossover certification as an action independent of other activity the "Rehabilitation Certification" end product will be taken.

4. *Adjudication Division Procedures.* a. *Review of Approval Criteria.* Adjudication Division personnel will check each certified crossover program to verify that the veteran's course meets all the chapter 34 approval requirements found in M22–2, part IV, chapter 1. In addition, any chapter 34 award prepared under the crossover provisions must comply with the entitlement usage limitations given in paragraph 3c above. If the Adjudication Division receives a certification document for an enrollment which fails any of these tests, the responsible VRS will be immediately notified so corrective action can be taken with minimum delay in the receipt of the veteran's proper rate of benefits.

b. *Record Purpose Chapter 31 Awards.* For each crossover trainee, an adjudicator will prepare (for voucher payment purposes) a record purpose award on VA Form 22–1907a, Authorization of Subsistence Allowance. Copies 2 and 5 of this document will be destroyed; copies 3 and 4 will be distributed normally; copy 1 will be back-filed in the R&E folder for as long as the veteran is in a crossover status. The "Remarks" section of the award document will be annotated to the effect: "Chapter 31/34 Corssover Trainee; Record Purpose Award, Voucher Payment of Normal Vocational Rehabilitation Training Expenses Prohibited."

C. *Chapter 34 Award Preparation.* The adjudicator who prepares the VA Form 22–1907a award for the R&E folder will also prepare the chapter 34 award.

(1) *Target System* (the preferred input system).

(a) *No Chapter 34 M/R Exists.* Establish the original claim using CEST procedures. Then, process the clain as for an original award, completing the 310 screen, the 304 screen (if appropriate), and one of the Target award screens (see M22–2, pt. IV, ch. 4). On the 310 screen, enter the number of months of chapter 31 training completed in PRIOR VA TRNG. After the award is GAPed (Generated And Printed), annotate the award in red ink with "Chapter 31/34 Crossover Trainee." After the award is authorized, set the File Pull Indicator on the M24 screen. Back-file the award print on the left flap on the claims folder. File the VA Form 22–1905 in the R&E folder.

(b) *Chapter 34 M/R Exists.* Follow procedures for establishing a supplemental pending issue. Complete the award screen as described in M22–2, part IV, chapter 4. Annotate the award, set the File Pull Indicator, back-file the award print, and file down the VA Form 22–1905 as described above. In addition, if not already of record, process a CORR to the M23 screen to enter the chapter 31 training completed in PRIOR VA TRNG. This subparagraph is also for use for adding dependents and processing supplemental enrollment as directed by VA Form 22–1905.

Note.—Remember, when back-filing supplemental awards, place the latest award on top.

(2) *Other Forms of Award Action.* If either VA Form 22–1997 or VA Form 22–1997S is used, follow the procedures for preparing original and supplemental awards described in M22–2, part IV, chapter 4, pertaining to each award type. Remember to enter the number of months of chapter 31 training completed as prior VA training either on the OCR form or by O2V correction and to set the File Pull Indicator. Annotation of the award, back-filing the award print, and filing down the VA Form 22–1905 are the same as for Target processing described above.

d. *File Pull Indicator.* The adjudicator preparing the first crossover award for a veteran will set the File Pull Indicator on the Target System. This indicator will remain set for the duration of crossover training. This notice will reduce the occurrence of unauthorized program changes. Both the claims and R&E folders must be pulled to adjudicate initial or subsequent crossover benefit claims. Upon either achievement of the rehabilitation goal or reelection of subsistence allowance, whichever comes first, the File Pull Indicator will be removed.

e. *Unauthorized Changes in a Crossover Program.* Adjudication Division personnel will promptly notify the responsible VRS of changes which must be made to a crossover award with one exception. Changes based solely upon an increase or decrease in the number of the veteran's dependents need not be reported. These notifications, such as for training time or program objective changes, will assist the VRS in monitoring the veteran's progress toward the established rehabilitation goal and will give the VRS a chance to review the case and to authorize the appropriate changes. No award change referred to the VR&C Division for approval may be accomplished before receipt of the VRS certification, although an award should be suspended if the continued payment of benefits could result in an overpayment. A 30-day control under end product 210 will be established by the Adjudication Division pending receipt of the authorization of the change from the VRS.

f. *Sotisfactory Progress.* A chapter 31/34 crossover trainee must meet all progress standards to which other chapter 34 participants are subject. If a crossover trainee fails to meet these standards, the Adjudication Division will notify the responsible VRS, including in this notice the action which would be taken for a regular chapter 34 trainee and the appropriate effective date. The VRS will either confirm this notice on a VA Form 22–1905 or certificate further corrective action. The adjudication Division will suspend any award if VRS certification might be delayed and a veteran could receive benefits to which he or she would not be entitled.

g. *Veteran Stays in Chapter 34 Training But Discontinues Chapter 31 Program.* If the VR&C Division notifies the Adjudication Division that a crossover trainee will discontinue his or her chapter 31 program altogether, but the veteran wishes to continue to receive chapter 34 benefits for the current training program, the adjudicator responsible for preparing the adjustment will prepare a record purpose termination award on VA Form 22–1907a effective the date certified by the VRS. This document and all documents in the claims and R&E folders back-filed as a result of the crossover election will be filed down. In addition, the current chapter 34 award record in the claims folder will be annotated to the effect: "Chapter 31/34 Crossover Training Terminated as a Result of Chapter 31 Discontinuance Effective (date); Veteran Continuing to Train as Regular Chapter 34 Trainee."

h. *Reelection or Discontinuance Authorized.* When the veteran reelects subsistence allowance or discontinues training altogether and the VRS certifies this change in status, the adjudicator will make any necessary award adjustments and will file down any documents back-filed in the claims and R&E folders as a result of the crossover election.

i. *Adjudication Division End Product.* A single end product 210 will be taken for an award action made under the crossover provision unless the action meets the criteria for an end product with a higher total Adjudication Division work-rate standard. (For example, an end product 130 can be taken for a dependency adjustment.)

Dorothy L. Starbuck,

Chief Benefits Director.

[DVB Circular 28–80–3]

Appendix G—Initial Evaluation

April 7, 1981.

1. *Purpose.* To provide Vocational Rehabilitation and Counseling field staff with information and instructions concerning the process of initial evaluation.

2. *Background.* Under section 1506 of title 38, U.S. Code, enacted by Pub. L. 96–466, any veteran applying for chapter 31 benefits who has a service-connected disability which was incurred on or after September 16, 1940, and is compensable or, but for receipt of retirement pay, would be compensable, and who applies for benefits will be provided with an initial evaluation. Also included are such individuals in a military hospital pending release who have a condition likely to be found to be service-connected.

3. *Purpose of Initial Evaluation.* a. *Issues for Determination.* The purposes of initial evaluation are to:

(1) Determine a veteran's entitlement to and eligibility for a program of vocational rehabilitation;

(2) Determine whether a veteran has an employment handicap and whether it is serious in nature;

(3) Determine whether achievement of a vocational goal is feasible;

(4) Provide a basis for planning a suitable vocational objective.

b. *Extended Evaluation.* In those instances when a determination of reasonable feasibility of a vocational goal cannot be made, but the veteran is found to have a serious employment handicap, a period of extended evaluation will be provided. (For a complete discussion of extended evaluation, see appendix H to DVB Circular 28–80–3.)

4. *Eligibility for Initial Evaluation.* An initial evaluation will be provided any veteran who has a service-connected disability and who applies for vocational rehabilitation benefits, including veterans currently participating in a rehabilitation program under the Rehabilitation Act of 1973, and those veterans who have previously participated in the VA rehabilitation program or a similar program under the Rehabilitation Act of 1973 and may need employment assistance.

5. *Scope of Initial Evaluation.* Initial evaluation includes the review and analysis of all possible information which may be relevant to determining the veteran's need and feasibility for a program of vocational rehabilitation and which provides a basis for sound rehabilitation planning. The process of initial evaluation includes the collection, review, and analysis of: a. the extent and effects of the veteran's service-connected disability; b. the veteran's life history data (work history, education, training, family and community adjustment, and any previous evaluation of the veteran's interests, aptitudes and abilities); c. results of vocational/psychological assessment; d. results of evaluations and reevaluations by the VR&C Medical Consultant, VRB (Vocational Rehabilitation Board) and DM&S personnel; e. results of vocational planning; and f. other related factors. Such information, when not readily available from current VA records or from the veteran, must be obtained, with the veteran's authorization, from other sources. Initial evaluation is comprehensive in nature and rarely will it be accomplished in one session. A sufficient number of sessions will be held to assure that the necessary information is developed.

6. *Responsibility for Initial Evaulation.* The cooperation of the CP (Counseling Psychologist), VRS (Vocational Rehabilitation Specialist) and veteran is essential to accomplishing he purpose of intial evaluation.

a. *VA Responsibilities.* The VA will:

(1) Provide qualified staff and will ensure they have sufficient time to complete the initial evaluation;

(2) Determine as expeditiously as possible the veterans's entitlement, eligibility and feasibility for a vocational rehabilitation program; and

(3) Provide full opportunity for the veteran's participation in and understanding of the purposes and process of intial evaluation.

b. *Veteran Cooperation.* The veteran will be asked to cooperate in all steps necessary to accomplish the inital evaluation.

7. *Duration of Initial Evaluation.* The process of initial evaluation begins after a veteran's service-connected status has been confirmed by the Adjudication Division and the veteran appears for the inital evaluation appointment. The initial evaluation is completed when a veteran's employment handicap and reasonable feasibility are established and all information needed to provide a basis for rehabilitation planning has been collected, reviewed and analyzed. Initial evaluation includes the certification of a veterans' eligibility, feasibility, and severity of employment handicap by the CP as outlined under paragraph 8 c, d, and e.

8. *Initial Evaluation Procedures.* a. *Timely Processing Essential.* Timely referral of cases for initial evaluation is essential. When cases are received from the Adjudication Division, a review of VA Form 22–1944, Eligibility and Counseling Information, will be conducted. An appointment for initial evaluation will be scheduled promptly following procedures in M28–1, part I, paragraph 4.07.

b. *Initial Personal Contact With the Veteran.* In the first fact-to-face session with the veteran, the CP will explain the purpose of initial evaluation, the process involved, responsibilities of the VA and veteran, and elicit support and cooperation for the process. Those procedures currently in effect (M28–1, pt. I, pars. 2.01 through 2.03) also apply to the process of initial evaluation. The CP will collect, review, and analyze the information on record and that information obtained from the veteran and all other sources to establish the veteran's eligibility, seriousness of the employment handicap and determine whether a vocational goal is reasonably feasible.

c. *Determinations of Infeasibility.* Determinations of infeasibility, made with or without an extended evaluation, can only be made with the concurrence of the Vocational Rehabilitation Board. The CP will recommend a finding of infeasibility whenever eligibility and seriousness of the employment handicap have been established, but the evidence indicates that achievement of a vocational goal is not reasonably feasible. The veteran will be informed of the CP's recommendation and the role of the Board in formulating a final determination. The rationale for the recommendation of infeasibility will be clearly and specifically documented in the veteran's file. Current procedures concerning preparation and referral of cases to the VRB will apply (M28–1, pt. I, par. 6.03 c and d). "Vocational Rehabilitation Board Services" end product will be taken for all work activity relating to referral of cases to the Board. An appointment will be scheduled to inform the veteran of the Board's decision. If the Board concurs in the recommendation of infeasibility, the CP will provide the veteran with a thorough and understandable explanation of the decision. The veteran's right of appeal will also be explained. VA Form 28–8871, Certification of Eligibility/Feasibility (see exhibit 1) will be completed and filed in the counseling folder. Followup and review procedures (M28–1, pt. I, par. 6.03e(3)) will apply. "Eligibility Determination" end product will be taken and the case closed.

d. *VRB Determination That Training Is Feasible.* If the VRB determines that achievement of a vocational goal is reasonably feasible, the CP will so inform the veteran and complete VA Form 28–8871. The Certification will be filed in the counseling folder. "Eligibility Determination" end product will be taken. Initial evaluation will continue until all psychological testing and vocational exploration is accomplished and all other activities necessary to provide a basis for planning a vocational goal are completed. The end product for "Initial Evaluation" will be taken. In cases where the VRB is unable to determine the veteran's feasibility, and the veteran has a serious employment handicap a period of extended evaluation will be authorized.

e. *CP Determination That Training Is Feasible.* If the CP can affirm feasibility without the need for extended evaluation or VRB referral the veteran will be informed of the decision. VA Form 28–8871 will be completed and filed in the counseling folder. "Eligibility Determination" end product will be taken. The initial evaluation will continue until all psychological testing and vocational exploration is accomplished and all other activities necessary to provide a basis for planning a vocational goal are completed. The end product for "Initial Evaluation" will be taken. Further information concerning the planning and development of the rehabilitation plan is contained in appendix I (Individualized Written Rehabilitation Plan).

9. *Employment Assistance for Veterans With Prior Vocational Rehabilitation.* Veterans who have filed a claim for vocational rehabilitation or employment assistance are eligible for employment assistance under the following conditions:

a. The veteran has a service-connected disability which was received on or after September 16, 1940 and is compensable or but for payment of retirement pay would be compensable; and

(1) The veteran participated in a bona fide vocational rehabilitation program under chapter 31 (programs of less than 90 days will rarely be considered to be bona fide rehabilitation programs); or

(2) The veteran participated in a bona fide vocational rehabilitation program under the Rehabilitation Act of 1973 (programs of less than 90 days will rarely be considered to be bona fide rehabilitation programs); and

b. The VA determines that the veteran is employable in

(1) Competitive employment or

(2) Sheltered workshop or other special situation at the minimum wage.

10. *The Role of Initial Evaluation in Employment Assistance.* A period of initial evaluation will be provided for veterans who apply for employment assistance under this paragraph. The purpose of the initial evaluation in this situation is to determine whether the veteran is in fact employable and whether placement in competitive employment, sheltered workshop or other special situation at the minimum wage is indicated. "Initial Evaluation" end product will be taken when all activities necessary to develop an employment plan are completed. Procedures involved in formulating an employment assistance plan will be discussed in a separate appendix to this issue.

Dorothy L. Starbuck,
Chief Benefits Director.

Appendix H—Extended Evaluation

April 7, 1981.

1. *Purpose.* Pub. L. 96-466, "Veterans' Rehabilitation and Education Amendments of 1980," provides for extended evaluations for veterans with serious employment handicaps. This issue provides VR&C (Vocational Rehabilitation and Counseling) Division with policy and procedures needed to provide eligible veterans extended evaluations.

2. *Background and Overview.* a. The extended evaluation consists of services needed to determine a veteran's rehabilitation potential to achieve a vocational goal. Specifically, the extended evaluation is to be utilized when, following a finding of eligibility and need for vocational rehabilitation, the CP (counseling psychologist), or in some cases the VRB (Vocational Rehabilitation Board), is unable to determine whether or not the achievement of a vocational goal is reasonably feasible for a veteran with a serious employment handicap. With the increased emphasis on serving the severely handicapped, adequate procedures for the evaluation of functional capacities and limitations are essential to the determination of feasibility and to the sound planning of needed rehabilitation services.

b. The extended evaluation provides for the use of a variety of observational and other assessment techniques over a period of time to facilitate the determination of feasibility for a vocational goal. Veterans who have functional limitations that are multiple, severe, and poorly described may not be thoroughly evaluated as to rehabilitation potential until certain needed services are provided and their effect ascertained. The extended evaluation is a means of insuring that the veteran with a serious employment handicap is not rejected for vocational rehabilitation unless and until the achievement of employability may not be expected.

c. During the course of an extended evaluation, a veteran is provided services necessary to improve potential for participation in a program leading to a vocational goal, services needed to enable the veteran to achieve maximum independence in daily living, and a subsistence allowance. The scope of services which can be approved under an extended evaluation creates the potential for abuse. Such an evaluation may be prescribed only when necessary to determine whether the achievement of a vocational goal is reasonably feasible. When possible, this determination should be made without extended evaluation.

3. *Requirements for Extended Evaluation.* The CP determines the need for an extended evaluation when the following conditions exist:

a. Basic eligibility and need for rehabilition services have been established;

b. The veteran has a serious employment handicap; and

c. The CP or VRB is unable to determine whether the achievement of a vocational goal is reasonably feasible.

4. *Scope of Services.* During a period of extended evaluation, the services that are authorized must be related to the determination of feasibility for a vocational goal. These services are to be identified in an IEEP (Individualized Extended Evaluation Plan). (For a complete discussion of the IEEP, see appendix I to DVB Circular 28-80-3.) Extended evaluation services include the following:

a. An assessment of each veteran's potential to pursue a vocational goal will be provided. The extent of the evaluations may vary greatly from one individual to another. The evaluation may include comprehensive diagnostic services while the veteran is in residence at a rehabilitation facility.

b. Rehabilitation services needed to improve the veteran's vocational rehabilitation potential and enable such veteran to achieve maximum independence in daily living may be provided. The justification for providing these services under extended evaluation is to assess their effect on the individual in terms of employability, and the decision to provide them should be well documented. An indepth analysis of diagnostic data which covers a wide range of conditions related to vocational adjustment will provide a sound basis for providing these services.

5. *Duration of Extended Evaluation:* a. *The Basic Period of Extended Evaluation.* The basic period of extended evaluation may not exceed 12 months. Additional periods of up to 6 months each may be authorized if necessary to determine whether achievement of a vocational goal is reasonably feasible. The feasibility determination is to be made as soon as possible but not later than the end of the extended evaluation period. Reasonable doubt concerning achievement of a vocational goal shall be resolved in favor of determining that such achievement is feasible.

b. *Additional Periods of Extended Evaluation.* (1) Provision of any additional period of extended evaluation beyond the basic 12-month period must be recommended by the CP and approved by the VRB. The VRB may approve an additional period of up to 6 months if this will enable the CP to determine whether achievement of a vocational goal is reasonably feasible during that period.

(2) Any extension that would cause the total extended evaluation to exceed 18 months requires the approval of the VRB and the concurrence of the Director, VR&C Service.

(3) When it is evident during the initial evaluation process that a period of more than 12 months of extended evaluation will be required, the case shall be referred by the CP directly to the VRB.

6. *Monetary Assistance During Extended Evaluations.* a. *Subsistence Payment Rate.* Subsistence allowance will be paid at the institutional rate. Measurement of the rate of pursuit for veterans in extended evaluation will be on the same basis as for other veterans in special rehabilitation facilities; i.e., the rehabilitation facilities' customary criteria for participation.

(1) When a veteran is undergoing an extended evaluation involving two or more facilities concurrently, the rate of payment shall be in accordance with the table below.

Rate of participation and clock hours per month	No dependent	One dependent	Two dependents	Each additional dependent over two
Full time (120 or more)	$282	$349	$411	$30
Three-quarter time (90-119)	212	262	308	23
Half time (60-89)	141	175	206	15
Quarter time (30-59)	71	87	103	8

(2) A veteran may undergo an extended evaluation which is comprised of less than 30 clock hours per month of direct services to the veteran, and though subsistence allowance will not be paid, voucher payments will be made for costs incurred.

(3) If the VRS (Vocational Rehabilitation Specialist) finds that the payment of room and board in a specialized rehabilitation facility, in lieu of basic subsistence allowance (excluding additional allowances for dependents), would be to the veteran's advantage, with consent of the veteran the VRS will authorize the Adjudication Division to reduce the veteran's subsistence allowance to pay only the additional allowances for dependents. The VRS will then arrange for direct voucher payment of the room and board expenses of the veteran. Both the authorization and award documents will contain a comment in their "Remarks" sections to the effect: "Veteran will receive room and board in lieu of basic subsistence allowance."

b. *Travel.* (1) When a suitable facility for extended evaluation is not available within the jurisdiction of the local regional office, policy specified in VAR 10267 and associated procedures in M28-1, Part II, Paragraph 2.05, Interregional Transfers for Rehabilitation Training are in effect. When the nature of a veteran's disability requires special travel accommodations, arrangements should be made for the payment of actual necessary expenses (see MP-1, pt. II, chs. 2 and 3).

(2) A special transportation allowance may be paid to a veteran pursuing extended evaluation who, because of disability, has travel expenses not incurred by persons without a disability. The need for a special transportation allowance shall be determined by the VRS. Payment may be for mileage, driver, parking fee, transportation furnished by the facility for its clients, and other valid expenses. The veteran shall maintain record of such costs. The amount paid for transportation may not exceed the cost paid by VA for similar expenses or charged by the facility to other disabled persons. The maximum amount paid during any 1 month may not exceed one-half of the subsistence allowance for a single veteran at the full-time rate or actual cost, whichever is less.

c. *Incidental Goods and Services.* Tuition, fees, books, supplies, equipment and other incidental goods and services determined to be necessary to accomplish the purpose of the extended evaluation shall be provided for each veteran participating in extended evaluation.

7. *Supervision.* Each veteran in extended evaluation will be assigned a case manager

(see VA Circular 00-79-55 for instructions on case management).

a. Onsite supervisory visits will be made by the VRS as frequently as necessary, but not less than an average of one per month for the first 6 months of the evaluation, and not less than once every 3 months subsequently.

b. Periodic progress reports which are needed to determine the veteran's feasibility for a vocational goal will be arranged by the VRS with the institution, facility or person providing extended evaluation services.

c. The VRS will provide the CP, who will evaluate the information, with all supervisory and progress reports in a timely manner.

8. *Outcome of Extended Evaluation.* The determination of feasibility for a vocational goal will be made by the CP at the earliest possible time but not later than the end of the evaluation or period of extension, as the case may be.

a. When a determination of "feasibility" is made, IWRP (Individualized Written Rehabilitation Plan) development will be undertaken if the veteran is still in need and otherwise eligible. It is important that IWRP development and induction into training be accomplished expeditiously.

b. When a determination of "infeasibility" is made, referral will be made to the VRB for disposition of the case.

9. *Other Considerations.* a. Residential rehabilitation facilities which provide comprehensive rehabilitation services are a logical choice for extended evaluations, especially evaluations which involve services to enhance vocational potential. In selecting such a facility, the VR&C staff should consider facilities which are accredited by the CARF (Commission of Accreditation of Rehabilitation Facilities) or those which are used by State departments of vocational rehabilitation.

b. To the extent possible, a facility which has demonstrated successful experience in the veteran's disability or associated functional limitation(s) should be utilized.

10. *Work Measurement.* The work activities involved in extended evaluation, whether performed by the CP, VRS or clerk, are accounted for by two different EP's (end products).

a. *IEEP Agreement.* This EP includes the work activity by the CP, VRS or clerk involved with developing the planned services to determine whether the achievement of a vocational goal is reasonably feasible for a veteran with a serious employment handicap, when such could not be determined during the initial evaluation process. This activity would include providing or arranging for evaluation services to determine feasibility and to improve the veteran's potential for participation in program services to achieve a vocational goal and independence in daily living. Any counseling during extended evaluation is incidental to this EP, not a separate EP. The EP is taken when the planning and arranging for services is completed and documented on the IEEP. Any further action would be included under appropriate EP; e.g. "Special Induction".

b. *Extended Evaluation Review.* This EP includes all work activity by the CP, VRS or clerk toward the review of the completed extended evaluation in order to make a determination regarding the feasibility of a vocational goal. Any interim review during the extended evaluation period, exclusive of that done during and incidental to a supervisory assistance visit, will be also included in this EP. The EP will be taken when the determination is made and documented.

(1) When feasibility for a vocational goal is affirmed, documentation includes VA Form 28-8871, Certification of Eligibility/Feasibility, as well as the VA Form 22-1902b containing the data to provide a basis for planning the IWRP.

(2) If feasibility is not affirmed, any work activity relating to a referral to the VRB is considered part of the "Vocational Rehabilitation Board Services" EP. VRS activity related to review of extended evaluation in progress is considered part of the "Supervisory Assistance Visit" EP.

Note.—Initial distribution of VA Form 28-8871 will be made to stations sometime in the near future. Additional supplies may be obtained from the Forms and Publications Depot.

Dorothy L. Starbuck,

Chief, Benefits Director.

[DVB Circular 28-80-3]

Appendix I—Individualized Written Rehabilitation Plan

April 7, 1981.

1. *Purpose.* This issue provides VR&C field staff with information and guidelines on the development and implementation of the IWRP (Individualized Written Rehabilitation Plan).

2. *Background.* Existing VR&C policy requires that an individual training program be prepared by the VRS for each veteran prior to or immediately upon inducting the veteran into training (M28-1, pt. II, ch. 3; VAR 10212(A)). The Veterans' Rehabilitation and Education Amendments of 1980 (Pub. L. 96-466) significantly expand the rehabilitation planning and documentation process. Each veteran receiving rehabilitation services will be provided a rehabilitation plan, including those veterans electing to receive an education assistance allowance in lieu of a subsistence allowance. Veterans in a program of extended evaluation will have an IEEP (Individualized Extended Evaluation Plan) developed (see exhibit 1). For veterans in a program of rehabilitation training, an IWRP will be developed (see exhibit 2). Employment assistance services will be outlined on an IEAP (Individualized Employment Assistance Plan) (see exhibit 3). The IEEP and IEAP are specialized variations of the basic IWRP. The development, content and implementation of these plans are essentially the same. VA Forms 28-8872, Rehabilitation Plan, and 28-8872a, Rehabilitation Plan—Continuation Sheet (as necessary), will be used for all plans. Initial distribution will be made shortly.

3. *Definitions.* For the purposes of this issue, IWRP also refers to the IEEP and IEAP, unless otherwise noted. The word "plan" is used as an abbreviated reference to an IWRP, or specialized forms thereof; i.e., IEEP or IEAP. References to "the veteran" also mean the veteran's immediate family, legal guardian, or representative.

4. *Overview of IWRP.* a. *Structure.* In mandating use of the IWRP, Pub. L. 96-466 creates a management by objectives approach to planning, monitoring and evaluating rehabilitation assistance provided to veterans under chapter 31, title 38, U.S. Code. The IWRP is a mechanism designed to structure the rehabilitation planning process and synthesize the results of that process into a meaningful rehabilitation goal. It contains information about the veteran and identifies his or her rehabilitation goal and the objectives leading to the completion of that goal. The IWRP outlines specific services to be provided the veteran, the duration of services and a basis for assessing progress toward the program goal. The IWRP is jointly developed by the veteran and VR&C staff, and the veteran is provided a copy.

b. *Intent.* The IWRP is intended to:

(1) Improve the planning and coordination of the VA's multifaceted rehabilitation services;

(2) Motivate the veteran and expand his or her involvement in the development and management of his or her rehabilitation program; and

(3) Improve the accountability of rehabilitation service delivery.

5. *Scope of IWRP.* The IWRP will be developed to address the individual, fundamental rehabilitation needs of the veteran. IWRP planning will be comprehensive and long range, and will attempt to structure as much of the veteran's rehabilitation program as is feasible. The initial IWRP should be presented to the veteran as a comprehensive plan which will be reviewed and revised as often as necessary as the veteran progresses in his or her program. All of the terms of the plan may be changed and the complete plan may be redeveloped as the need arises. All substantive changes or redevelopments of the plan will be considered as amendments to the original IWRP. The veteran will be provided an opportunity to participate in these changes, and will be provided copies of revised plans.

6. *Content of IWRP.* An IWRP will include, but will not be limited to, the following essential elements: A realistic, achievable long-range goal; intermediate objectives related to achieving that goal; specific services to be provided; time frames for completion of objectives and provision of services; objective evaluation criteria and procedures and a schedule for determining whether such objectives are achieved; progress notes; and a closure statement.

a. *Long-Range Goals.* (1) The goal of the IWRP is the ultimate purpose to which all services are directed. The goal should be realistic, and one the veteran can readily understand, agree with and work toward (see item 7, VA Form 28-8872). The concept of goal as used in the IWRP is similar to the vocational rehabilitation objective used under existing procedures. As such it should reflect the results of the comprehensive evaluation and appraisal processes described in DVB Circular 28-80-3, Appendix G, "Initial

V 46 / 106 / J E 3 8 1 UMI

Evaluation," and Appendix H, "Extended Evaluation."

(2) Vocational goals will be specified in the IWRP and IEAP. At the outset of vocational planning and training it is probable that a final vocational goal cannot be identified, or can only be identified in general terms. Therefore, it may be helpful to identify a series of short-range goals to be systematically pursued or to limit the specifically of the vocational goal to an occupational group, as outlined in "The Dictionary of Occupational Titles," fourth edition.

b. *Intermeditate Objectives.* (1) Goal-directed activity is accomplished through a series of intermediate objectives. Intermediate objectives can be considered statements of expected achievements expressed in measurable behavioral terms. In order to be effective, an intermediate objective should posses the following characteristics:

(a) The activity specified should relate to the achievement of the goal.

(b) The activity specified should be defined in terms of observable behavior which is discrete and capable of being evaluated.

(c) The activity should be written in explicit terms and described outcomes desired upon completion of the objective.

(d) A projected date of completion.

(2) Although intermediate objectives cannot always be attained in sequence, the organization of the objectives should reflect a developmental progression of competencies leading to the agreed-upon goal. This format facilitates the planning process, and structures the activities of the veteran and VA staff in such a way as to enhance the evaluation of the veteran's progress. The intermediate objectives are the cornerstone of the IWRP. Care should be exercised in developing effective objectives to assure the timely and appropriate provisions of rehabilitation assistance (see items 8A, 8B, VA Form 28–8872).

c. *Rehabilation Services.* The IWRP shall specify the major services planned to meet the veteran's rehabilitation needs, and shall include counseling in all cases. These services shall be directed towards the successful accomplishment of the rehabilitation goal and the specific intermediate objectives. Planned services shall be identified as precisely as possible. Each service shall be documented on the plan so that its relationship to a specific intermediate objective is clear and unmistakable. This listing shall include the name, address and phone number of the service provider, and the planned duration of the service (see items 8C–8G, VA Form 28–8872).

d. *Evaluation.* The veteran's progress is reaching his or her program goal through the successful completion of intermediate objectives will be periodically evaluated. Continuation of rehabiltation services will be contingent upon these ongoing evaluations and confirmation of the veteran's ability to benefit from the services planned. The veteran and VR&C staff will jointly develop evaluation criteria, procedures and a schedule for evaluation of each objective. These evalutation components will be used for periodic progress evaluation and the annual review of the plan.

(1) *Criteria.* Evaluation criteria will be developed for each objective, and will explicity identify a level of performance which represents appropriate achievement of the objective (see item 8H, VA Form 28–8872). Sources of evaluation criteria might include: College grade reports; training institution progress reports; medical or psychological reports; specific assessments by the CP or VRS; Vocational Rehabilitation Board reports; self-reports or reports from the veteran's family; special evaluations or consultations; and other sources as appropriate.

(2) *Procedure.* A well-defined procedure for using information and criteria in evaluating a veteran's progress in the program, and in determining whether objectives have been completed, will be developed. The evaluation procedure for each objective should be consistent with the nature of the evaluation criteria established (see items 8I, 9I and 10I, VA Form 28–8872).

(3) *Schedule.* The frequency of evalution for each objective will be established and documented on the IWRP. Evaluations should be scheduled to assure that the veteran is optimally benefitting from services, and allow for timely adjustment of planned services in response to the veteran's changing needs (see items 8J, 9J and 10J, VA Form 28–8872).

e. *Progress Notes.* The veteran's progress in each objective, as assessed in periodic evaluations or the annual review, will be documented in the progress notes section of the plan (see items 8K, 9K and 10K, VA Form 28–8872). These reports should be brief, and should identify potential barriers to completion of the objective and/or the need to adjust the plan. The comprehensive report of supervisory contact will continue to be documented on VA Form 22–1905d, Special Report of Training (M28–1, pt. II, par. 4.03).

f. *Closure Statement.* A closure statement will be prepared by the VRS and documented in item 11 of the IWRP when one of the following three events occurs: The veteran completes the terms of the plan and is declared rehabilitated; the plan must be redeveloped; or the veteran discontinues participation in the rehabilitation program.

(1) If the veteran is declared rehabilitated, a statement outlining the basis of that decision will be completed. This brief statment will identify the veteran's occupation, employer and a description of his or her satisfactory vocational adjustment to the employment.

(2) If the IWRP must be redeveloped or the veteran discontinues training, a brief statement clarifying these actions will be documented on the plan.

7. *Procedures.* a. *IWRP Planning and Development.* (1) An IWRP will be developed for all veterans receiving vocational rehabilitation benefits under chapter 31, title 38, U.S. Code. The IWRP planning and development process is a natural continuation of the intial or extended evaluation. Information developed in the intial and extended evaluation will be synthesized and organized into an individual rehabilitation plan for the veteran. The CP is primarily responsible for the development of the plan. The CP will consult directly with the VRS, and other rehabilitation personnel as appropriate, in developing the tentative terms of the plan. If the CP and VRS are unable to agree on the terms of the plans, the CP will expeditiously request a review of the proposed plan by the VR&C Officer, who will resolve the disagreement and assure that development of an appropriate plan continues. If it is anticipated that the veteran will be provided rehabilitation services through another regional office, appropriate VR&C staff from that office will be consulted in developing the terms of the plan. The DM&S case manager will be consulted, as appropriate in those instances in which the veteran is receiving services through DM&S which directly affect rehabilitation, or it is anticipated that such services will be needed and documented on the plan. In this instance, a copy of the completed plan and all subsequent redevelopments of the plan, will be forwarded to the DM&S case manager by the DVB case manager.

(2) The CP, VRS, or both, will review the tentative terms of the plan with the veteran. The veteran's maximum cooperation will be solicited in negotiating and agreeing on the final terms of the plan. When all substantive terms of the plan have been developed, agreed upon, and documented, the CP, VRS and vetern will sign the plan. The IWRP is not complete until the VR&C staff and the veteran indicate their mutual understanding and acceptance of the terms of the plan by signing it. The veteran will be provided a copy of the completed plan.

(3) Veterans actively participating in a program of vocational rehabilitation on March 31, 1981, will have a rehabilitation plan developed during their rehabilitation program, but no later than 60 days prior to the completion of the formal vocational rehabilitation training. Opportune times for developing a plan are when the veteran is referred to the counseling psychologist to consider a change of program goal, or whenever the veteran is experiencing unsatisfactory progress in his or her rehabilitation program. Vetrans reentering training from interrupted status will have a rehabilitation plan developed prior to reentering active training, or as soon as possible thereafter.

b. *IWRP Implementation.* The VRS is primarily responsible for implementing the IWRP and continually monitoring the veteran's progress through the program after the plan is executed. The basic procedures for providing assistance to the veteran and supervising the rehabilitation program described in M28–1, part II, chapter 4, are applicable. The VRS will assure that the terms of the paln are implemented in a timely manner. In addition to arranging and coordinating the delivery of the rehabilitation services cutlined in the plan, the VRS will periodically evaluate the veteran's progress in the program using the criteria and evaluation procedures agreed upon in the plan. For a discussion of special procedures for implementing the IEEP, see Appendix H, "Extended Evaluation."

c. *Revising the IWRP.* (1) All changes to the plan will be sufficiently documented. When the change is a minor adjustment to the plan (i.e., changing a scheduled evaluation), the VRS will take appropriate action, notify the veteran of the necessary change, and document it on the plan. Substantive changes to the plan (e.g., revising a number of objectives or services) will be accomplished by the VRS and the veteran and will require amending the plan.

(2) A change in the plan goal requires that the plan be redeveloped. The VRS will refer the case to the counseling psychologist and cooperate in redeveloping the plan, as appropriate. The basic procedures used in developing the initial plan will be followed in redeveloping it. The veteran will be provided a copy of all amendments to the plan, or the plan as redeveloped.

8. *Performance Review.* a. *Process.* The plan and the veteran's progress toward his or her program goal will be reviewed and evaluated periodically by the VRS. Reviews and evaluations will consider all information concerning the veteran's progress in the program, and will follow the evaluation procedures and schedule outlined for each objective. At least once every 12 months the VRS will, with the veteran's participation review all of the terms of the plan and the veteran's progress in the program. On the basis of these reviews, the VRS will determine whether the plan should be redeveloped, amended or retained in its present form.

b. *Documentation.* The results of periodic evaluations and the annual review will be documented on the plan. Periodic evaluations of a veteran's progress in an intermediate objective will be documented in the Progress Notes section of the plan under the objective. The outcome of the annual review will be recorded in the Closure Statement section of the plan. If, after completing the annual review, it is determined that the terms of the plan will not change, this decision will be documented and initialed by the veteran and the VRS. Changes to the plan as a result of the annual review will be accomplished following procedures outlined in paragraph 7c of this issue.

9. *Rights of Review.* In any case in which a veteran does not agree to the plan as initially developed or amended its redevelopment or the denial to redevelop it, he or she may submit a written statement setting forth objections to the plan and requesting a review of the plan as proposed. The veteran will be informed of the opportunity for a review prior to agreeing to the plan, its redevelopment or denial to redevelop the plan. The veteran's case manager will, upon receipt of the veteran's statement, prepare the case for referral to the VR&C Officer who will review the veteran's statement, the plan as developed or redeveloped, and, if applicable, the denial to redevelop the plan. The VR&C Officer will make a decision within 90 days after the veteran's statement is received in the VA. If the VR&C Officer is also the case manager responsible for the plan, the case will be prepared for referral to Central Office for the review. In those cases when the veterans does not agree with the decision, he or she will be provided VA Form 1-8, Certification of Appeal.

10. *Work Measurement.* Several different EP's (end products) apply to direct labor work activities relating to the plan in this issue. The initial development of the IWRP (par. 7a(2)) would be reflected in the "IWRP or IEAP Agreement" end product, respectively. The redevelopment of the plan (par. 7c) is reflected in the "IWRP Redevelopment" end product. This end product is also used in cases in which the IEEP or IEAP must be redeveloped. The activities in paragraph 9 of this issue are reflected in the "VRB Services" or "Appellate Services" end products, as appropriate.

Dorothy L. Starbuck,

Chief, Benefits Director.

[DVB Circular 28–80–3]

Appendix J—Authorization of Supplies Under Chapter 31

April 7, 1981.

1. *Purpose.* Public Law 96–466, "Veterans' Rehabilitation and Education Amendments of 1980", has broaden the scope of services for which supplies are provided under the Vocational Rehabilitation program. This appendix describes the policies and procedures to be used for authorization of supplies when providing the broadened scope of services.

2. *Definition.* The term "supplies" includes books, tools, equipment, special equipment, initial stocks, and supplies which the VA determines are necessary for the veteran's rehabilitation program.

3. *Relationship Between This Issue and Other Issues.* Other appendixes to this circular cover chapter 31 services and activities in greater detail and describe the requirements and conditions under which particular services may be furnished. VA personnel should review these other issues with regard to the specific provisions described herein concerning supplies which may be furnished during employment or other periods. The authorization of supplies for incarcerated veterans is subject to special restrictions and considerations. The VRS should review appendix K to DVB Circular 28–80–3 and appendix D to DVB Circular 22–80–39.

4. *Requirement for Authorization of Supplies.* Supplies may only be authorized during periods which have been specifically approved by the Veterans Administration. For the present, VA Form 22–1905, Authorization and Certification of Entance or Reentrance Into Training and Certification of Trainee Status, will be used as the basic document for authorizing assistance under chapter 31. The Adjudication Division will in turn prepare a VA Form 22–1907a, Authorization of Subsistence Allowance.The VA Form 22–1907a will serve as the basis for the Finance activity to reimburse vendors for supplies, fees, and other services and assistance provided during the period. The periods during which such reimbursement may be made include extended evaluation, rehabilitation to the point of employability, and employment assistance.

5. *General Policy in Furnishing Supplies During Periods of Rehabilitation.* a. *Furnishing Necessary Supplies.* A veteran will be furnished the supplies necessary to accomplish the goals of the program during the period of any rehabilitation program in which he or she is engaged. For example, a veteran training in school as an auto mechanic will be furnished the supplies necessary to pursue and successfully complete his or her course. If following completion of the course additional supplies are needed for the veteran to begin employment, they will be furnished when the specific requirements of the employer are known.

b. *Arrangements for Furnishing Supplies Through the Supply Service.* When arrangements to furnish supplies cannot be made with an educational institution or through an employer during the period of employment assistance, supplies will be procured through the sevicing Chief, Supply Service. Prior approval and authorization of the VRS is necessary when arrangements for issuance of standard required books and supplies have not been made with the educational institution. This includes authorization of special equipment, on-job training, employment assistance and any supplies for independent living services not furnished under other programs administered by the VA.

6. *Determining Supplies Needed During a Period of Rehabilitation.* The VA will authorize only those supplies which are:

a. Required by similarly circumstanced nonveterans in the same training or employment situation, or

b. Required as special equipment by the veteran to compensate for or mitigate the effects of disability. This equipment will enable the veteran to function more independently and thereby lessen dependence on others for assistance.

7. *Employment Assistance.* Beginning April 1, 1981, supplies needed to obtain or maintain employment will be furnished to veterans during the period in which employment assistance is being furnished under one of two sets of circumstances:

a. The veterans are receiving employment assistance following rehabilitation to the point of employability; and

b. The veterans are eligible for employment assistance on the basis of prior participation in the VA vocational rehabilitation program or a similar program under the Rehabilitation Act of 1973. (38 U.S.C 1517)

8. *Extended Evaluation.* The same policies and procedures will be followed in authorizing supplies during extended evaluation as followed in furnishing supplies to veterans in on-job training. Supplies needed during extended evaluation are more likely to consist of special equipment or other supplies for which prior approval by the VA is required than books and standard supplies. For sound working relationships with facilities, it is important that the VRS explain fully VA policies with respect to supplies to facilities newly participating in the chapter 31 program.

9. *Authorization of Supplies Limited for Veterans Who Elect Payment at the Chapter 34 Rate.* A veteran who has elected payment at the chapter 34 rate may not be authorized supplies under chapter 31 during the period of training. Following completion of training, supplies may be authorized on the same basis as for other veterans who need assistance in obtaining and maintaining employment.

10. *Methods of Furnishing Supplies.* Current procedures in M28–1, part II, chapter 8, and DVB Circular 22–78–13, appendix B, are continued except for the period of employment services. During the period of employment assistance, supplies may be furnished in the same manner as for on-job training. Arrangements may also be made for the employer to furnish ordinary tools and supplies required to begin employment. Supplies may be authorized by the VRS when the employer has hired the veteran. The veteran should be in possession of all supplies needed to begin employment no later than the day the job starts.

11. *Ordinary Supplies Which May be Furnished During Employment Assistance.* A veteran being furnished employment assistance may be furnished ordinary books, tools and equipment which the employer requires similarly circumstanced nonveterans to have upon beginning employment. The supplies may be in addition to those furnished during training or in certain cases may replace supplies previously issued. For example, if the veteran has trained as a woodworker using handtools and the employer requires other workers to have power tools, the VRS should authorize the required power tools.

12. *Special Equipment.* The purposes for which special equipment may be authorized and the periods during which special equipment may be authorized have both been broadened. In addition to the period of rehabilitation to the point of employability, special equipment may be authorized during extended evaluation and employment assistance, and in provision of independent living services. Special equipment includes a wide range of equipment, aids, and assistive devices. However, these may be broken down into some broad categories:

a. *Modification or Adaptation of Equipment Primarily for Educational or Vocational Purposes.* This category includes typewriters with keyboards designed for persons who have lost an arm or use of an arm, calculators with speech capability for blinded persons, modification of desks, tables to accommodate needs of disabled persons, etc.

b. *Sensory Aids and Prostheses.* These aids include articles ranging from glasses and hearing aids to wheelchairs and such sophisticated equipment as a closed-circuit TV system to amplify reading materials for veterans with severe visual impairments.

c. *Access to Training and Employment.* A third category is adaptive equipment to improve the veteran's ability to gain access to training and employment. This includes adaptive equipment for automobiles and supplies furnished in modifying a veteran's home to make possible either training or self-employment or both.

Note.—Since special equipment by its very nature is specific to the individual, prior approval by the VA is always required. A second important point is that most veterans are eligible for most, if not all, of the items needed under other benefits provided service-disabled veterans and these other benefits should be primary sources for obtaining such equipment. This is particularly true in pertinent areas of sensory aids, prostheses, adaptive equipment and modification of the veteran's residence.

d. *Modification of School or Training Establishment or Worksite.* Modification of places other than the veteran's place of residence requires an understanding of the responsibility of schools and businesses to make reasonable accommodations to the needs of disabled persons. Under regulations implementing sections 501 through 504 of the Rehabilitation Act of 1973, there are specific provisions for affirmative action for disabled persons in education and employment. VR&C staff will need to familiarize themselves with

these requirements before considering the VA's role in this area. Studies in progress suggest that a great deal can be done which requires little or no expenditure to accommodate the needs of disabled persons through thoughtful consideration and analysis of the worksite. Pending further instruction, the VA's role will be limited to providing or arranging for technical advice and analysis.

13. *Coordination With Other Services in Securing Special Equipment.* Since many service-disabled veterans are eligible for special equipment under other provisions of law, the vocational rehabilitation specialist must work closely with staff in other services, particularly the VAMC Prosthetics and regional office Adjudication and Loan Guaranty. It has been long-standing policy that medical care and treatment, including provision of sensory aids and prostheses needed by the veteran to overcome or mitigate the effects of the disability, are to be provided through the Department of Medicine and Surgery. This policy is continued. The VRS will work closely with the Prosthetics Representative or other responsible staff at the VA medical center in arranging for necessary help. If it is determined by DM&S that the veteran is ineligible and the item cannot be furnished, the item will be authorized under chapter 31 in the same manner as for other items which are authorized on an individual basis and needed to accomplish purposes of vocational rehabilitation. The same policy is applicable to adaptive equipment for automobile and for modification of the home for training and employment purposes. The veteran's eligibility for adaptive equipment and modification of the home must be determined. Authorization of such assistance may be considered under chapter 31 if the veteran is found ineligible for such assistance under other provisions of law. Any modification of the place of residence is limited under chapter 31 to changes necessary to install other supplies which have been authorized.

14. *Amount Which May be Authorized for Special Equipment.* a. The VRS is authorized to approve the furnishing of special equipment for a trainee when the total anticipated cost of such equipment for a school year or a calendar year (in the case of other-than-school training and employment) does not exceed $750. Such authorization actions by the VRS will be subject to supervisory review on the same basis as other VRS work responsibilities.

b. When the projected cost of special equipment for a trainee for a school or calendar year is more than $750 but does not exceed $2,500, approval by the VR&C Officer is required.

c. Anticipated expenditures in excess of $2,500 per school or calendar year for special equipment require approval by the Director of the regional office.

d. When approval of the VR&C Officer or the Director is required, the VRS will submit a list of the required items on VA Form 22–1905m, with a brief statement explaining the need for the items specified.

e. If expenditures in excess of those anticipated during the school or calendar year must be made, bringing the total in excess of the limits specified above, approval at the designated next higher level of authority is required.

15. *Nonduplication of Supplies Previously Furnished.* In most cases, veterans are furnished most if not all of the supplies needed to begin employment while in training for the field in which they will be seeking employment. Therefore, care must be taken to assure that items issued for employment do not duplicate supplies already furnished during training. However, the VRS may authorize replacement of articles which were lost or damaged during the period of training. Once supplies needed to begin employment have been issued, the veteran will ordinarily be expected to replace tools and equipment which become worn or broken, or to acquire additional supplies out of earnings in the same manner as other employees. If the veteran loses the job, the VRS may authorize supplies needed to work for another employer.

16. *Furnishing Supplies for Employment in a Field for Which the Veteran has not Trained.* Ordinarily, supplies will only be furnished to help a veteran secure employment in the occupation for which the veteran has trained, unless the Individualized Written Rehabilitation Plan (see app. I) specifically states that supplies will be furnished for employment in other fields.

17. *Additional Provisions for Furnishing Supplies.* The law provides additional conditions under which supplies may be authorized. Pending development of VA regulations, no action is to be taken on authorizing supplies to carry out these programs and services:

a. *Incentive Payments to Employers.* A program will be established under which incentive payments may be made to employers to establish opportunities for on-job training or facilitate adjustment during the initial period of employment following rehabilitation to the point of employability.

b. *Expenses for Homebound and Self-Employed.* The most severely disabled veterans requiring homebound training, self-employment, or both, may be provided with licenses, fees, essential equipment, supplies, and minimum stocks of materials determined necessary for such a veteran to begin employment.

c. *Business Supplies Which State Rehabilitation Program Does Not Provide.* A severely disabled veteran may have trained under a State rehabilitation program with the objective of self-employment in a small business enterprise. He or she may be furnished supplementary equipment and initial stocks and supplies by the VA or assistance in acquiring them if they are not available through the State rehabilitation program or other source.

Dorothy L. Starbuck,

Chief, Benefits Director.

[DVB Circular 28–80–3]

Appendix K—Incarcerated Veterans in Vocational Rehabilitation Programs

April 7, 1981.

1. *Purpose.* Public Law 96–466 imposes considerable restrictions on the financial benefits which the VA can pay to incarcerated veterans, as well as to some veterans in halfway houses and work-release programs. Field personnel must act to avoid erroneous payments of benefits in these cases. This appendix defines the procedures which must be followed by regional office personnel to process claims by chapter 31 veterans affected by these new constraints.

2. *New Provisions.* a. Effective October 1, 1980, veterans incarcerated in a Federal, State or local penal institution for conviction of a felony may not receive subsistence allowances. (38 U.S.C. 1508(g)(1))

b. Effective October 1, 1980, veterans participating in a work-release program or residing in a halfway house as a result of conviction of a felony may not receive subsistence allowance if any government agency other than the VA is paying all the veteran's living expenses. (38 U.S.C. 1508(g)(2))

c. Effective October 1, 1980, all veterans who are incarcerated in a Federal, State or local prison for either a felony (unconvicted) or a misdemeanor (whether convicted or not) may not receive any subsistence allowance if a non-VA government agency pays all the veteran's tuition and fees or if no charges for tuition and fees are made. (Veterans residing in a halfway house or participating in a work-release program are not affected by this provision of the law because they are considered not to be "incarcerated.") (38 U.S.C. 1780(a)(6))

d. Effective October 1, 1980, the tuition and fees will continue to be paid by voucher in all cases in the same manner as though the veteran is not incarcerated. (The VA will pay for that portion of the tuition and fees which are not specifically paid or forgiven by another source.) Voucher payments for other education expenses the veteran incurs will also be paid in accordance with existing policy. (38 U.S.C. 1780(a)(6))

e. Effective October 17, 1980, no new apportionment may be made to the dependent of a veteran incarcerated for conviction of a felony or to the dependent or a convicted felon in a halfway house or work-release program if the felon's living expenses are all being met by a government agency other than VA. This bar does not apply to apportionments which began on October 16, 1980, or earlier. (Public Law 96–466, section 101(c))

3. *VR&C Division Procedures.* a. *Identification of Felons in the Active Caseload.* The VR&C Division in each regional office will identify all chapter 31 participants who as the result of conviction for a felony meet one of the following criteria:

(1) They are incarcerated in a penal institution; or

(2) They are residing in a halfway house or are assigned to a work-release program and all of their living expenses are being defrayed by some level of government.

b. *Incarcerated Trainees for Whom Tuition and Fees Are Paid or for Whom There Are No Tuition and Fees.* The VR&C Division will also single out records of trainees who meet both of the following criteria:

(1) The trainees are incarcerated in a penal institution for a misdemeanor, whether or not convicted (this category includes all persons

incarcerated but not convicted of a felony); and

(2) They are having part or all of their tuition and fees paid by a government agency other than the VA or they are not required to pay any tuition or fees.

c. *Development.* Any required development for either the nature of a conviction or the level of non-VA tuition and fee assistance will be accomplished by dictated letter. This letter will clearly define the infomation required as well as the reasons the VA needs the information. The March 1981 revision of VA Form 21–4193, Notice to Veterans Administration of Veteran or Beneficiary Incarcerated in Penal Institution (see exhibit 7), may be used in conjunction with the dictated letter when information is requested regarding the nature of a conviction.

d. *Suspension of Beneftis Pending Development.* (1) *Nature of Conviction Doubtful or Other Reduction Required.* If a subsistence allowance award is running and development must be undertaken which would delay resolution of whether the veteran has been convicted of a felony, the VRS (Vocational Rehabilitation Specialist) will immediately prepare a VA Form 22–1905, Authorization and Certification of Entrance or Reentrance Into Training and Certification of Trainee Status, to authorize the Adjudication Division to suspend the subsistence allowance award.

(2) *Unresolved Extent of Tuition and Fee Payment.* Similarly, if a subsistence award is running and development is required to establish the extent of tuition and fees which an incarcerated veteran is actually obligated to pay, the VRS will authorize the Adjudication Division to suspend the award pending final adjustment only if it appears the VA has paid more tuition and fees than the veteran is entitled to and offset against the running award may be required.

(3) *Apportioned Awards When Nature of Conviction Doubtful.* Apportioned awards to Dependents of incarcerated veterans will also be suspended for development of the nature of the veteran's conviction if the apportionment was begun on or after October 17, 1980.

e. *Adjustment of Subsistence Allowance Awards.* (1) *Termination for Felony Convictions.* Once it is determined a veteran falls into one of the categories in subparagraphs a and b above, the VRS will, if a subsistence award is running or suspended, authorize termination of that award effective DLP (date last paid) with one exception: If it can be established that the claimant clearly knew prior to DLP that he or she was not entitled to subsistence allowance benefits as a result of enactment of Public Law 96–466, the award will be terminated effective the date the veteran became aware of the lack of entitlement to receive the allowance. The basic presumption to be overcome, however, will be that the veteran does not have prior knowledge of the law. Benefit of the doubt will be given to the veteran.

Note.—No special local procedures will be established to develop for such knowledge in the cases discovered during the initial review required by subparagraphs a and b above.

(2) *Incarcerated Veterans (Other Than Convicted Felons)—All of Tuition and Fees Paid.* If a veteran is in prison for a misdemeanor (convicted or unconvicted) or for a felony charge (unconvicted) and if either a non-VA government agency pays all the tuition and fees for a course or no tuition and fees are charged, then the veteran may not receive subsistence allowance. Any awards found in a running status for such veterans will be terminated DLP unless the veteran's prior knowledge of nonentitlement can be established as described in subparagraph e(1) above.

(3) *Termination of Apportionments.* Apportionments begun on or after October 17, 1980, which granted benefits to the dependents of a convicted felon incarcerated in a penal institution, or to the dependents of a convicted felon residing in a halfway house or participating in a work-release program whose living expenses are all met by some level of government, must also be terminated effective the same date as the veteran's award.

(4) *Apportionment Begun Prior to October 17, 1980.* Since apportionments to incarcerated convicted felons' dependents, or to the dependents of veterans residing in halfway houses or participating in work-release programs, begun prior to the date of enactment of Public Law 96–466 are protected from termination, the VRS must carefully insure that such apportionments are not improperly stopped. This protection will continue until the veteran either completes the program or discontinues training. Such apportionments may be adjusted at any time to reflect changes either in the dependents' financial situation or in the veteran's award. For any required adjustments to these protected apportionments, the VRS will annotate item 25 of the VA Form 22–1905 to the effect: "Protected apportionment to dependents of an incarcerated felon."

(5) *Full Annotation in Item 25 of VA Form 22–1905.* When preparing a VA Form 22–1905 to authorize a change to a veteran's subsistence allowance award under the provisions of this appendix, the VRS will fully explain in item 25 the adjustment required and the reasons for the adjustment. (See exhibits 3, 4 and 5 for examples of completed VA Forms 22–1905.)

f. *Voucher Payments of Tuition and Fees.* (1) Voucher payment of tuition and fees may be made to defray these expenses for incarcerated, work-release or halfway house veterans, just as for other veterans. (See VA Procurement Regulations, pt. 8–15, sec. 5001.1) Therefore, the VRS will ascertain the portion of the tuition and fees incurred for the veteran's vocational rehabilitation program which is being paid by a non-VA agency (either governmental or nongovernmental) and will document such payments in the training subfolder. Voucher payment will be authorized only for those tuition and fees which a non-VA agency or program does not pay. Reduction will be made for any tuition and fees which a non-VA governmental program normally makes to similarly circumstanced nonveterans.

(2) *Record Purpose Awards.* If voucher payment of all or part of the tuition and fees will be made, but no subsistence allowance can be paid, the VRS will authorize the Adjudication Division to prepare a record purpose award, as described in DVB Manual M28–2, paragraph 3.07, to justify the voucher payment.

g. *Voucher Payment of Training Expenses Other Than Tuition and Fees.* The VRS will request voucher payment for supplies, books, etc., using normal procedures. However, the VRS will route the request for voucher payment with a VA Form 22–1905 through the Adjudication Division to authorize preparation of a record purpose award prior to Finance activity action on the voucher request if two conditions are met:

(1) A regular subsistence award cannot be made for the period covered by the voucher payment; and

(2) A record purpose award has not yet been completed for the period for which payment will be made.

h. *Employment Adjustment Allowance.* The restrictions in this appendix on the payment of subsistence allowances do not affect the award of an employment adjustment allowance. However, the intent of an employment adjustment allowance as an aid in the transition from training to employment prevents payment of this benefit to the veteran prior to release from prison or until the veteran is providing for at least some of his or her own living expenses while residing in a halfway house or particating in a work-release program. The VRS will carefully control such cases to insure payment at the proper time to best assist the trainee to accomplish the objective of an employment adjustment allowance.

i. *Interaction With Veterans, Schools and Institutions.* VR&C personnel are expected to keep concerned veterans, schools and institutions fully informed of the changes required by this appendix which affect their programs. The small number of cases per station and the normal close contact maintained by VR&C personnel with trainees, schools and institutions indicate these detailed explanations should impose minimal increases in the Division workload.

4. *Adjudication Activity Procedures.* a. *Award Adjustments.* The Adjudication Division will process under current procedures any adjustments to running and suspended awards required by this change in law. All award copies will clearly show in the "Remarks" section the veteran's status; e.g., "Incarcerated Felon;" or "Felon in halfway house; government agency paying all living expenses."

(1) *Initial Review Terminations.* Awards, to include apportionments, which must be terminated as a result of this initial review will be stopped DLP unless the veteran clearly knew prior to DLP that he or she was not entitled to a subsistence allowance. If prior knowledge is established, the award will be terminated the date the veteran became aware of the nonentitlement. The responsibility for determining the date of such prior knowledge lies with the VR&C Division. Awards terminated in the initial review will be annoted "Terminated per DVB Cir. 28–80–3, Appendix K."

(2) *Initial Review Reductions.* Awards which must be reduced as a result of this initial review will be reduced to the maximum extent possible to prevent the

overpayment of VA benefits during the current award period. No accounts receivable will be created as a result of reduction during the initial review unless prior knowledge is a factor. (See subpar. (1) above.)

(3) *Check Intercept.* Every effort should be taken to intercept checks mailed to veterans who as a result of the provisions of this appendix are not entitled to the benefit payments released.

b. *Record Purpose Awards.* The VRS may request preparation of a record purpose award to justify voucher payment of tuition, supplies, etc., when a subsistence allowance award cannot be made. The adjudicator will prepare such a record purpose award in accordance with DVB Manual M28–2, paragraph 3.07. In item 10B of the VA Form 22–1907a, Authorization of Subsistence Allowance, "NONE" will be entered as the rate for all award lines and item 12, "Remarks," will be annotated to the effect: "Incarcerated veteran; record purpose award for voucher payment purposes only." (For a sample of a completed VA Form 22–1907a, see exhibit 6.)

5. *Processing Assistance.* If field personnel run into difficulties not covered by this issue when processing a claim from a veteran affected by the provisions of this appendix who wants to train or who is in a vocational rehabilitation program, they may obtain assistance from Central Office at FTS 389–2887.

6. *Reporting Requirements.* The VR&C Officer in each regional office should prepare a one-time report on implementation of this issue to reach the Field Director (282) by COB June 1, 1981. The format for this report is shown in exhibit 1. Reports Control Symbol 28–4–S is assigned to this report. Negative reports are required.

Dorothy L. Starbuck,

Chief Benefits Director.

Exhibit 1—Incarcerated Chapter 31 Veterans (RCS 28–4–S)

Incarcerated Chapter 31 Trainees (total)
- Convicted of a Felony
- Convicted of a Misdemeanor
- The Nature of Conviction is Not Yet Determined at Report Time

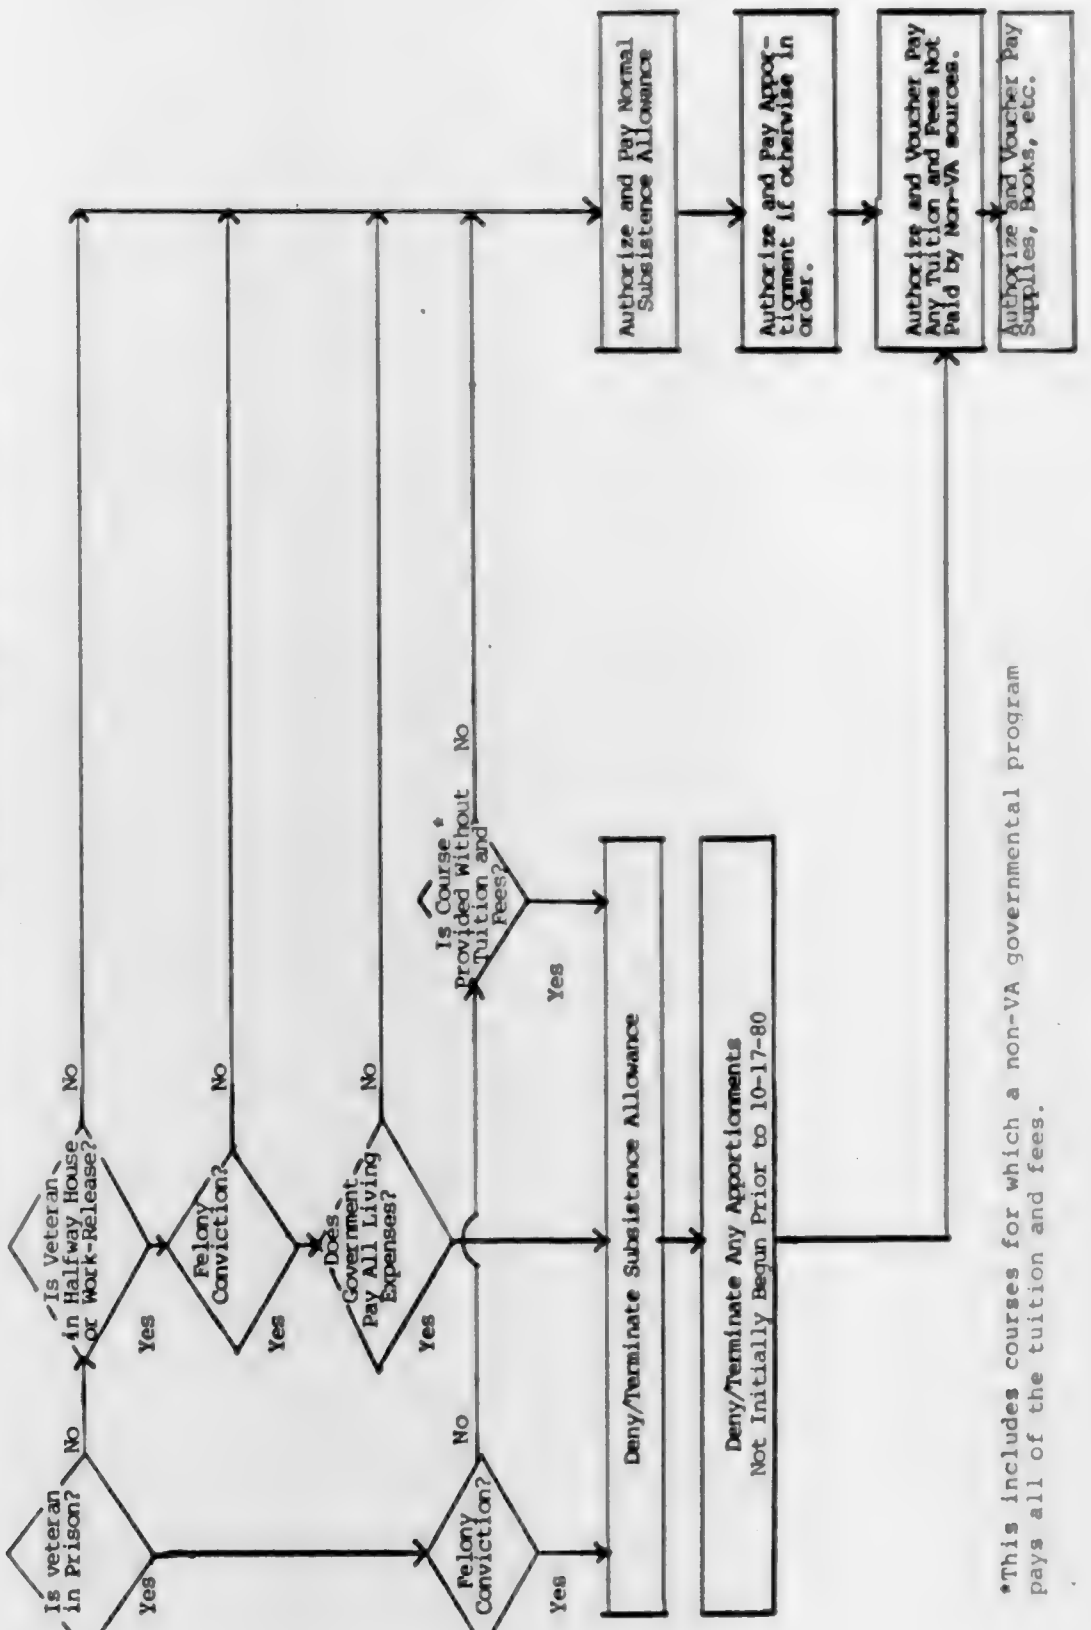
Apportionments to the Dependents of Incarcerated Veterans (total)
- Running Apportionments to Dependents of Incarcerated Felons Begun Prior to 10–17–80
- Apportionments to Dependents of Incarcerated Felons Found Erroneously Begun On or After 10–17–80

Apportionments to Dependents of Veterans in Halfway Houses or Work-Release Programs (total)
- Apportionments to Dependents When Veteran is Providing for Part or All of His/Her Own Living Expenses
- Apportionments to Dependents When Veteran's Living Expenses Are All Paid by a Government Agency, but the Apportionment Was Begun Prior to 10–17–80
- Erroneous Apportionments to Dependents When Veteran's Living Expenses Are All Paid by a Government Agency and the Apportionment Was Begun On or After 10–17–80

BILLING CODE 8320–01–M

V. 46 / 106 JUN 3 1981

Exhibit 2



*This includes courses for which a non-VA governmental program pays all of the tuition and fees.

Medical Facilities Improvement Project; Veterans Administration Medical Center, Birmingham, Ala.; Finding of no Significant Impact

The Veterans Administration (VA) has assessed the potential impacts that may occur as a result of the construction of a Medical Facilities Improvement Project at the VA Medical Center in Birmingham, Alabama.

The project consists of five components: Ambulatory Care Improvements, Clinical Services Renovation, Ward Modernization, Education, Education and Research Facilities, and Administration. Some of these components, Ambulatory Care and Clinical Service, would be located in new construction adjacent to the south side of the hospital along Eighth Avenue in a multi-level addition. Another addition on the east side would have new space for ward modernization. Education and Research Facilities would be based in a bridge configuration spanning Eighteenth Street and the Administration Services would be completed in existing interior space.

There will be increased demand for parking as a result of this action and as the VA health care delivery program continues to grow at the VAMC Birmingham location. The VA is now actively involved in planning for increased ridesharing programs which will help mitigate this impact. However, due to the urban nature of this facility and the lack of sufficient parking spaces, parking will continue to be a problem, as it is today.

The temporary or short-term impacts associated with the implementation of this project include construction impacts such as dust, fumes, noise, traffic, and visual appearance. Mitigating actions will be implemented to reduce or eliminate these construction impacts by applying the VA's Environmental Protection Construction Specifications. These specifications will require the contractor to take appropriate actions to control the potential problem areas. The project will comply with the required Federal, State, and local codes and regulations.

The significance of the identified impacts has been evaluated relative to the considerations of both context and intensity, as defined by the Council on Environmental Quality (40 CFR 1508.27).

This Environmental Assessment has been performed in accordance with the requirements of the National Environmental Policy Act Regulations, §§ 1501.3 and 1508.9, Title 40, Code of Federal Regulations. A "Finding of No Significant Impact" has been reached based on the information presented in this assessment.

The assessment is being placed for public examination at the Veterans Administration, Washington, D.C. Persons wishing to examine a copy of the document may do so at the following office: Mr. Willard Sitler, P.E., Director, Office of Environmental Affairs (003A), Room 950, Veterans Administration, 1425 K Street, N.W., Washington, D.C., (202–389–2526). Questions or requests for single copies of the Environmental Assessment may be addressed to: Director, Environmental Affairs Office (003A), 810 Vermont Avenue, N.W., Washington, D.C. 20420.

Dated: May 27, 1981.

Rufus H. Wilson,

Acting Administrator.

[FR Doc. 81-16479 Filed 6-2-81; 8:45 am]

BILLING CODE 8320-01-M

Data Processing Center, Hines, Ill.; Emergency Generators; Finding of no Significant Impact

The Veterans Administration (VA) has assessed the potential impact that might occur as a result of the development of the Emergency Generator project at the Data Processing Center (DPC), Hines, Illinois.

The project involves the construction of a relatively small building (2500 gross square feet) to house new emergency generators. The generators will provide emergency power for the computer room and the associated air conditioning equipment with the DPC. There were no alternatives considered as the DPC must have the emergency power source for its operations and this power source is most efficiently located adjacent to the source of demand at the DPC. A no action alternative would leave the DPC vulnerable to shut-down in the event of an emergency.

The only long term potential impact associated with this project would be in the operation of the generators on a routine maintenance schedule or in the event of an emergency. The generator units have operational characteristics that include noise, engine emissions and vibrations. These conditions will be mitigated to the greatest extent possible through appropriate location, design and engineering.

Short term impacts associated with the development of the project are related to the temporary impacts of the construction of the facility. These potential impacts include fugitive dust, engine emissions, noise, erosion/sedimentation and visual impacts. The VA's Environmental Protection Specifications will be applied to the project which will mitigate, to the greatest extent possible, the problem areas. Proper mufflering and maintenance of equipment, operation during permitted hours and noise buffering and proper engineering of exposed soil and material stockpiles are some of the components of the environmental protection plan.

There are no significant environmental issues unresolved at this time.

The significance of the identified impacts has been evaluated relative to the considerations of both context and intensity, as defined by the Council on Environmental Quality (40 CFR 1508.27).

This Environmental Assessment has been performed in accordance with the requirement of the National Environmental Policy Act Regulations, Sections 1501.3 and 1508.9, Title 40, Code of Federal Regulations. A "Finding of No Significant Impact" has been reached based on the information presented in this assessment.

The assessment is being placed for public examination at the Veterans Administration, Washington, D.C. Persons wishing to examine a copy of the document may do so at the following office: Mr. Willard Sitler, P. E., Director, Office of Environmental Affairs (003A), Room 950, Veterans Administration, 1425 K Street, NW., Washington, D.C., (202–389–2526). Questions or requests for single copies of the Environmental Assessment may be addressed to: Director, Environmental Affairs Office (003A), 810 Vermont Avenue, NW., Washington, D.C. 20420.

Dated: May 21, 1981.

Rufus H. Wilson,

Acting Administrator.

3

FEDERAL DEPOSIT INSURANCE CORPORATION

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 2:30 p.m. on Monday, June 8, 1981, the Federal Deposit Insurance Corporation's Board of Directors will meet in closed session, by vote of the Board of Directors pursuant to sections 552b (c)(2), (c)(4), (c)(6), (c)(8), (c)(9), (A)(ii), (c)(9)(B), and (c)(10) of Title 5, United States Code, to consider the following matters:

Application for consent to acquire assets and and assume liabilities and establish a branch:

American Pacific State Bank, Los Angeles (P.O. Sun Valley), California, for consent to acquire a portion of the assets of and assume the liability to pay a portion of the deposits made in the Granada Hills Branch of Manufacturers Bank, Los Angeles, California, and to establish the Granada Hills Branch of Manufacturers Bank as a branch of American Pacific State Bank.

Request for rescission of a condition imposed in granting consent to establish a branch:

Hood Canal State Bank, Mason County (P.O. Shelton), Washington.

Recommendations regarding the liquidation of a bank's assets acquired by the Corporation in its capacity as receiver, liquidator, or liquidating agent of those assets:

Case No. 44,801–L—East Gadsden Bank, Gadsden, Alabama

Case No. 44,814–L—American City Bank & Trust Company, National Association, Milwaukee, Wisconsin

Case No. 44,815–L—The Hamilton National Bank of Chattanooga, Chattanooga, Tennessee

Memorandum and Resolution re: South Texas Bank, Houston, Texas

Recommendations with respect to the initiation, termination, or conduct of administrative enforcement proceedings (cease-and-desist proceedings, termination-of-insurance proceedings, suspension or removal proceedings, or assessment of civil money penalties) against certain insured banks or officers, directors, employees, agents or other persons participating in the conduct of the affairs thereof:

Names of persons and names and locations of Banks authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b (c)(6), (c)(8), and (c)(9)(A)(ii)).

Personnel actions regarding appointments, promotions, administrative pay increases, reassignments, retirements, separations, removals, etc.:

Names of employees authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(2) and (c)(6) of the "Government in the Sunshine Act" (5 U.S.C. 552b (c)(2) and (c)(6)).

The meeting will be held in the Board Room on the sixth floor of the FDIC Building located at 550, 17th Street, N.W., Washington, D.C.

Requests for information concerning the meeting may be directed to Mr. Hoyle L. Robinson, Executive Secretary of the Corporation, at (202) 389–4425.

Dated: June 1, 1981.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

METRIC BOARD.—Research Committee.

TIME AND DATE: 9 a.m. to 5 p.m., Tuesday, June 9, 1981 (closed session); 10 a.m. to 1 p.m., Wednesday, June 10, 1981 (open session).

PLACE: United States Metric Board, 1600 Wilson Blvd., Suite 400, Arlington, Virginia 22209.

STATUS: Portions of the meeting will be open to the public and portions of the meeting will be closed to the public.

MATTERS TO BE CONSIDERED: Two briefings on Research Activities: (1) Detailed report of three research projects and their preliminary findings will be made. This portion of the meeting will be held all day Tuesday, June 9, 1981. This portion will be closed under exemption 5 U.S.C. 552(c)(9)(B) because premature release of this information would have a significant adverse impact on the successful completion of the three projects under review by the Committee, (2) Discussions and priority rankings of the FY 83 Research Call. This portion of the meeting will be held at the Wednesday, June 10, 1981 session and is open to the public.

CONTACT PERSON FOR FURTHER INFORMATION:
C. Edward McEvoy, Director of Research (703) 235–2583.

Louis F. Polk,
Chairman, United States Metric Board.

NUCLEAR REGULATORY COMMISSION.

DATE: Thursday, June 4, 1981.

PLACE: Commissioners conference room, 1717 H Street, N.W., Washington, D.C.

STATUS: Open/closed.

MATTERS TO BE CONSIDERED: (10 a.m.)—

1. Discussion and Possible Vote on Full-Power License for Sequoyah—2 (approximately 1½ hours, public meeting).
2. Affirmation/Discussion Session (public meeting). Affirmation and/or Discussion and Vote:
   a. GPU Federal Tort Claim—Draft Decision.
   b. Commission Review of ALAB–603, St. Lucie (delayed from May 28).
   c. Motion for a Stay of Certain Aspects of Final Rule on Fire Prot. for Oper. Nuclear Power Plants (delayed from May 28).
   d. Memo re Conflict of Interest Exemption for P. Shewmon.
   e. Potential Litigation over Possible *in Camera* Hearings in Houston Lighting & Power Co.

1:30 p.m.

1. Briefing on McGuire Operating License (tentative) (approximately 1½ hours, public meeting).
2. Discussion of McGuire Operating License (tentative) (approximately 1½ hours, closed meeting).

ADDITIONAL INFORMATION: By votes of 4–0 on May 28, 1981, the Commission determined pursuant to 5 U.S.C. 552b(e)(1) and § 9.107(a) of the Commission's Rules, that Commission business required that affirmation of Madden FOIA Appeal, held that day, be held on less than one week's notice to the public and that Discussion of Response to Duke Power's Request for a Waiver, Exception or Exemption from the Full Provisions of Appendix B to 10 CFR Part 2 (Closed Meeting), held that day, be held on less than one week's notice to the public.

Affirmations of Amendments to 10 CFR 19 to Establish Staff Authority to Call Meetings with Licensees, Revised TMI–1 Restart Order, Financial Protection for TMI Units 1 and 2 and Proposed Response to Honicker Petition, scheduled for May 28, 1981, were cancelled.

AUTOMATIC TELEPHONE ANSWERING SERVICE FOR SCHEDULE UPDATE: (202) 634–1498. Those planning to attend a meeting should reverify the status on the day of the meeting.

CONTACT PERSON FOR MORE INFORMATION: Walter Magee (202) 634–1410.

Dated: May 28, 1981.

Walter Magee,
Office of the Secretary.

NUCLEAR REGULATORY COMMISSION.

DATE: Week of June 1, 1981 (revised).

PLACE: Commissioners' conference room, 1717 H Street, N.W., Washington, D.C.

STATUS: Open/closed.

MATTERS TO BE CONSIDERED: *Tuesday, June 2—*

10 a.m.

1. Briefing on 10 CFR 60, Disposal of High-Level Radioactive Wastes in Geologic Respositories: Technical Criteria (public meeting, as announced).

2 p.m.

1. Discussion of Revised Licensing Procedures (approximately 1½ hours, public meeting, as announced).
2. Time Reserved for Discussion of Management-Organization and Internal Personnel Matters (closed meeting, as announced).

Thursday, June 4—

10 a.m.

1. Discussion and Possible Vote on Full-Power License for Sequoyah-2 (public meeting, as announced).

2. p.m.

1. Discussion of Need for Power Rule (approximately 1½ hours, public meeting, previously announced for June 3.
2. Affirmation/Discussion Session (public meeting, as announced, but time changed).

Affirmation and/or Discussion and Vote:

a. GPU Federal Tort Claim—Draft Decision.
b. Commission Review of ALAB–603, St. Lucie.
c. Motion for a Stay of Certain Aspects of Final Rule on Fire Protection for Operating Nuclear Power Plants.
d. Memo re Conflict of Interest Exemption for P. Shewmon.
e. Potential Litigation over Possible *in Camera* Hearings in Houston Lighting & Power Co.

ADDITIONAL INFORMATION: Briefing on McGuire Operating License (public meeting) and Discussion of McGuire Operating License (closed meeting), scheduled for 6/4, have been cancelled.

AUTOMATIC TELEPHONE ANSWERING SERVICE FOR SCHEDULE UPDATE: (202) 634–1498. Those planning to attend a meeting should reverify the status on the day of the meeting.

CONTACT PERSON FOR MORE INFORMATION: Walter Magee (202) 634–1410.

Dated: May 29, 1981.

Walter Magee,
Office of the Secretary.

Model Comprehensive Programs for High-Risk Youth; Response to Public Comment and Notice of Issuance of Program Announcement

DEPARTMENT OF JUSTICE

Office of Juvenile Justice and Delinquency Prevention

"Model Comprehensive Programs for High-Risk Youth"; Response to Public Comment and Notice of Issuance of OJJDP Program Announcement

AGENCY: Office of Juvenile Justice and Delinquency Prevention (OJJDP).

ACTION: Notice of Issuance and Response to Public Comment.

SUMMARY: Notice is hereby given that the Office of Juvenile Justice and Delinquency Prevention, pursuant to the Juvenile Justice and Delinquency Prevention Act of 1974, as amended, 42 U.S.C. 5601, et seq., is issuing an addition to the National Priority Program and Discretionary Program Announcement, published in the **Federal Register** on February 15, 1980. It will not in any way impact upon the programs or regulations presently set out in that announcement or affect the eligibility of those individuals applying for previously announced programs.

This announcement does not require a Regulatory Impact Analysis under § 3d of Executive Order 12291, or a regulatory flexibility analysis under the Regulatory Flexibility Act, P.L. 354.

SUPPLEMENTARY INFORMATION: The Office of Juvenile Justice and Delinquency Prevention (OJJDP), published in the **Federal Register** on January 9, 1981, a draft Program Announcement for a Program to Develop and Support Model Comprehensive Programs for High-Risk Youths. This notice sets forth the final program guideline and Appendix F of this notice summarizes the public comments received pertaining to the draft announcement and details the changes made. Funds for this program came from the Office of Juvenile Justice and Delinquency Prevention; the Office of Youth Programs of the Employment and Training Administration, U.S. Department of Labor; and the Department of Health and Human Services. OJJDP funds for this project have already been obligated. DOL and HHS funds will be used to support the action projects.

FOR FURTHER INFORMATION CONTACT: Mr. William Modzeleski, Office of Juvenile Justice and Delinquency Prevention, 633 Indiana Avenue, N.W., Washington, D.C. 20531, (202) 724–7751.

I. Executive Summary

These guidelines are the first step in developing a national demonstration to encourage comprehensive service programs for "high-risk youths." In this case, the term "high-risk youths" (described more precisely in a later section) refers generally to those young people who are usually the hardest to reach and the hardest to serve well, in part, because of their numerous needs and problems.

A key idea of this demonstration is to find new ways to deliver comprehensive multi-purpose programming for young people for whom single-purpose programs are simply not sufficient. The demonstration seeks to answer questions about the potential value of more comprehensive projects, as well as ways to implement them effectively.

The national demonstration will be conducted in the following way: (1) groups interested in applying for funds will submit concept papers for comprehensive programs that meet the needs of the high-risk youths they intend to serve; (2) in June/July, Act Together will select between 15–30 concept papers to be developed as full proposals; and (3) in September/October, Act Together will recommend funding for approximately 15 projects to the federal agencies that support this demonstration.

These guidelines constitute only the procedures for entering the first stage of the process, namely the submission of concept papers. While a variety of agencies and organizations are eligible to submit concept papers and to qualify for grant consideration, only those organizations which can demonstrate a very clear commitment, current capacity, staff capability, recent experience, and other concrete factors bearing upon effectiveness will have a realistic chance of having their concept paper selected. Interested organizations should look first at the "Desired Characteristics of Sponsoring Agencies" (section V.A. in this document) involving current organizational capacity, recent demonstrated interests, staff background, etc., before deciding whether to submit a concept paper. For those who decide to submit a concept paper, a cover page, a typed, double-spaced narrative of no more than 10 pages, supporting information, and tentative budget figures must be completed.

The background, objectives, and procedures of this demonstration effort are described in subsequent sections of these guidelines. Certain features of the process are, however, important to note from the outset:

1. This is a demonstration effort supported by several agencies of the federal government. The immediate purpose is to pool resources to encourage the development of model cost-effective comprehensive youth programs, to reduce redtape, and to avoid duplication of services. The ultimate goal is to test whether and how comprehensive programs better serve the needs of high-risk young people. Another goal is to encourage greater local initiative in the use of all possible resources for comprehensive youth service programs.

2. The demonstration is being implemented and coordinated by the

intermediary corporation, Act Together, Inc., which is working in a unique partnership with the federal agencies and the private sector.

3. The procedure for submitting concept papers is designed as the first step in a process which will lead to demonstration grants.

4. The concept paper should anticipate the fact that a demonstration grant for a comprehensive program will cover no more than one-half of the costs of operating that program.

5. Project operators who receive demonstration grants will be expected to work with Act Together to make information available about their program for the purpose of assessment and review. The information will be for the purpose of helping other program operators around the country learn from the experience of each project's successes and failures.

6. A key objective of this competition and demonstration is to serve youths with problems whose needs cannot be met by existing, often fragmented, programs at the local level. This process seeks to avoid the counterproductive and expensive situation in which a young person must have a certain label or stigma alienating himself or herself from society-at-large in order to qualify for service support.

7. Another key objective of the entire process is to simplify the reporting requirements for grantees, and to determine the extent to which such simplification aids the provision of comprehensive services.

8. Organizations submitting concept papers will need to document previously proven effectiveness and local credibility in reaching and serving the proposed population, in harnessing local resources, and in operating projects efficiently and responsibly.

9. No funds will be available to maintain currently on-going projects in their present form. Before an on-going project will be considered for a demonstration grant, it must show that a number of new services will be delivered to high-risk youths, and/or that additional new sub-group(s) of high-risk youths will be served, or that the on-going project will be broadened in such a way as to make it of potential value for national replication.

10. The process is designed to encourage the development of comprehensive projects which will (a) become self-sustaining and outlive the demonstration, and (b) provide services which will bring participants to a point of substantially greater self-sufficiency.

If the model programs prove effective, this demonstration can show that opportunities for the development of a productive and self-sufficient lifestyle can be created for even those young people whose opportunities are currently most constricted; that federal support agencies and local service agencies can "act together" to insure that enough of the right services are available; that the needs of the whole person can be addressed; and that administrative obstacles to serving high-risk yongsters can be overcome.

II. Questions and Answers

1. What is the definition of "youth"?

For the purposes of this grant competition, the term "youth" refers to an individual 14 through 21 years old. Nothing, however, in this definition shall serve to restrict the applicability of state or local laws, ordinances, regulation, etc.

2. Why, in this competition, is the federal government focusing only on comprehensive programs for high-risk youth?

The federal government recognizes that this population has multiple problems and is particularly hard to reach and hard to serve. This is an attempt by the government to spur coordination of available resources at the federal, state, and local levels, and to develop comprehensive, multi-service programs which meet the diverse needs of these young people.

3. Why is the federal government funding only demonstration projects?

Though much has been accomplished in the past decade, much more still needs to be learned about serving high-risk youths. The targeting of this money will help determine what services this population most needs and how these services can best be provided. It is hoped that the knowledge gained from these demonstration programs will be used to improve federal policy, to bring about greater cooperation among federal agencies serving young people and to improve coordination of existing regulations and audit requirements affecting youth-serving agencies. These models can also provide the impetus to local agencies to utilize more effectively funds available from all sources, including private organizations and state and local government.

4. Must programs focus exclusively on high-risk youths, or may other young people be included?

These programs must focus on high-risk populations. Programs must focus on multiple (i.e., more than one) problems of this population (e.g., ex-offenders, high school drop-outs, or drug abusers). Programs are desired which serve young people based on their needs as opposed to their categorical label.

5. What is meant by comprehensive programs?

Comprehensive programs include services from a range of different categories including employment and training services, and other services such as residential and shelter services, health services, mental health and drug abuse-related services, personal development services, recreational programs and educational activities.

6. How will this competition for grants be conducted?

The competition will take place in two phases. First, interested organizations are being asked to submit concept papers outlining their plans for coordinating and improving services to high-risk youths in their community. These guidelines outline the conditions and requirements for the submission of concept papers. The second phase of the competition will be among those groups whose concept papers are selected (up to 30). Each of these organizations will be asked to prepare a full proposal. It is expected that approximately half of those submitting full proposals will be selected for demonstration grants.

Act Together, Inc., will provide additional information and guidelines for full proposal development after concept papers have been selected for the second phase of the competition.

7. Who may submit concept papers?

The competition is open to existing public or private youth-serving agencies that meet all requirements stated below. These include, but are not limited to, juvenile justice projects, public schools, alternative schools, youth advocacy programs, state and local government agencies, community development agencies, and community-based organizations.

In order for an agency to be eligible it (1) must be already providing a minimum of three categories of services to high-risk youths; (2) must be receiving funds from a minimum of two sources, from the following four key categories of funding (federal, state, local governmental, private) and (3) must have an exemplary administrative record. To qualify as a funding category, a minimum of 10% of the program budget must be provided by an agency or agencies in that category.

In order to provide an opportunity for agencies which have done considerable planning for the provision of services to high-risk youths but which have not as yet started direct delivery of those services, consideration will be given to concept papers from such agencies. These agencies must have been in the process of planning a coordinated youth services program for a period of six

months or more. They must also have received previous funding designed specifically for developing a coordinated youth service program. Persons associated with the agency must have demonstrated their effectiveness in serving high-risk youths in other capacities. In addition, these agencies must show that a demonstration grant will be instrumental in launching the direct service program.

If a concept paper is selected from an agency which has planned but not yet delivered services that agency must be able to meet all requirements expected of any service agency funded under this demonstration once it receives funds.

This competition is for the purpose of funding comprehensive youth service programs which *deliver direct services* to high-risk youths. It is not for funding networking or collaboration agencies which do not themselves deliver direct services.

8. Will some organizations have a better chance of being selected for the competition?

Yes. Reviewers of concept papers will be using several important criteria. Among these will be: a promising approach to the coordination of comprehensive services; a demonstrated understanding of the needs of the population these organizations propose to serve; a good track record; knowledge of existing local resources; and the potential to serve as national models for replication. More specific information on criteria for selection is provided in Appendix D.

9. How much funding will the government provide for these demonstration programs?

The federal government will provide *no more than one-half of the high-risk youth service portion of the program budget* for the implementation of each demonstration project.

It is anticipated that a majority of grant awards will be for up to $150,000, although a few grants can be made for up to $350,000. No consideration will be given to an organization anticipating awards of over $350,000. Grants made in the $150,000 to $350,000 range must show adequate justification and must be able to demonstrate they will be able to continue the program. Act Together will atttempt to assure that grants are made to institutions which can carry on the program after the demonstration period is completed. It is interested in stimulating community funds and resources for the program to the greatest degree possible.

Demonstrations will be funded for one 15-month period only. This is consistent with OJJDP's continuation policy.

It is possible that a large influx of funds into a local program can actually cause long-term damage to that program.

10. What will the concept paper include?

The concept paper should consist of a cover page, a narrative on the proposed program (not more than 10 typewritten pages, double-spaced), supporting information and budget planning figures. These are described in detail later in this document.

11. Should an intent to submit a concept paper be mailed to Act Together?

Yes. In order to aid the reviewing process, Act Together would like each potential applicant to complete and mail the statement in Appendix E. This form should be in the offices of Act Together within two weeks of the publication date of these guidelines.

12. How long will the selection process take?

Concept papers are due on July 5, 1981. A decision on which concept papers will be selected to compete for demonstration grants will take approximately one month.

13. What happens after an organization is selected to submit a full proposal?

All organizations whose concept papers are chosen for full proposal development will be invited to a technical assistance workshop where proposal requirements will be outlined carefully. The final proposal will be expected to describe the actual implementation of the project. In addition, it must demonstrate that necessary community linkages have been established. The final proposal will also have to show that a high level of coordination among the necessary agencies has already taken place.

14. Can these demonstration funds be used to pay wages to participants who are involved in a work experience?

No. However, programs are encouraged to offer paid work experiences and to seek funds for this purpose from local sources, such as CETA and private organizations.

15. What laws and regulations will apply if several federal agencies are providing the funds?

Existing federal laws must, of course, provide the basis for granting federal funds to worthy projects. The legal and regulatory basis for providing the funds under this demonstration allow for more coordination with less administrative burden.

It is important to note that the participating federal agencies and Act Together are jointly pledged to reduce the amount of bureaucratic red tape involved. Act Together will play an active role in clarifying procedures for the programs and will work with federal agencies to simplify these procedures.

16. For how long a period will the demonstration grants be funded?

Demonstration grants will be funded for 15 months.

17. Must an assessment plan be included in the concept paper?

No. Interested agencies must be aware, however, that if their concept paper is chosen for full proposal development they must cooperate with Act Together in developing an appropriate plan for assessing the effectiveness of the program. Proposals should contain a capability statement indicating the experience and ability of the agency to cooperate with an assessment.

18. Whom do I contact for additional information?

Questions should be referred to: Act Together, Inc., 1511 K Street, N.W., Suite #805, Washington D.C. 20005.

The telephone number is 202/833-2395.

III. Purpose and Objectives of the New Federal Initiatives

During the past two decades, the number of programs offering services to high-risk youths has increased dramatically. Almost without exception these programs have grown out of the recognition of a service gap.

In the federal arena, separate youth programs have been legislatively created and funded to deal with individual facets of the overall problem. This situation has proliferated to the point that there are over 50 separate federal programs that relate to youth. Each program has its own regulations, funding procedures, eligibility requirements, and often encourage widely diverse and sometimes conflicting solutions to similar problems.

While the "Block Grant" approach proposed by the current Administration will overcome many of the serious problems caused by the multiplicity and categorical nature of the present system, it cannot be expected to overcome them all. High-risk youths have problems which extend beyond the social services system. Therefore when dealing with the population it is necessary to develop projects which obtain funding from more than one source, i.e., labor and education. Secondly, because of the historical nature of categorical funding most agencies serving high-risk youths have little experience in comprehensive programming. Therefore, it becomes difficult to increase the efficiency of youth programming regardless of what

is done at the federal level unless the local youth-serving agencies are given assistance in the replication of model programs.

The expressed purpose of this demonstration is to develop and implement comprehensive multi-service projects which can provide models for those agencies/organizations serving high-risk youths. These models will encourage local youth-serving agencies to develop effective comprehensive programs which not only address the varied needs of the target population, but also effectively utilize funds available from all sources, including private organizations and state and local government. This demonstration recognizes the fact that federal dollars are not the only source of revenue for programs serving high-risk youths, that there should not be overreliance on federal funding, and that only through effective management and the maximum utilization of all resources will a program be able to continue to serve the community.

This new initiative is designed to find ways to coordinate services to meet the multiple needs of high-risk youths. A major objective, then, is not just to fund programs which will provide an interesting package of services to young people, but rather to fund programs which enable policy-makers to determine whether a comprehensive approach can be more effective and under which circumstances. The demonstration program grant is intended to give programs the support and resources to consolidate appropriate linkages and to cement the working relationships that will eliminate the gaps in the local delivery system.

Act Together will promote the flow of information from the local level to the federal agencies involved, consult with local program developers in the design and implementation of their programs, and help local program operators draw out the policy implications of their program experiences. It will support the local community to find cost-effective programs to serve this important population.

IV. Background and Program Description

A. *Origins of Act Together*

The creation of Act Together, Inc., and the launching of this new national demonstration, had their origins with the creation of a Federal Executive Branch Interagency Working Group on Youth in the Spring of 1979. The Working Group was composed of officials from the Office of Juvenile Justice and Delinquency Prevention (OJJDP), the Department of Agriculture, the (then) Department of Health, Education and Welfare (presently HHS), and the Department of Labor. To date these agencies have provided the funds for this demonstration: OJJDP, DOL and HHS.

The interagency group was organized because there was great concern that federal programs serving "troubled" or "high-risk" youths were not sufficiently coordinated, and that information about successful program initiatives or models was not being disseminated adequately. It was felt that greater coordination among federal agencies, and a corresponding increase in cooperation among agencies at the local level, could result in greatly increased cost and program effectiveness, and a sharp reduction in the paperwork which local youth-serving agencies are required to prepare.

Deliberations of the Working Group focused on several key areas of concern:

1. developing cost-effective models for national replication;
2. promoting greater coordination among local agencies;
3. improving the management ability of local youth service agencies, especially their management of integrated services; and
4. coordinating youth-related research, development, and evaluation activities.

To achieve greater coordination among youth services, the Working Group approved the creation of a new, national intermediary organization. This organization would assist in identifying, nationwide, promising approaches for coordinating youth services and would work closely with the federal agencies in achieving its goals of streamlining youth policies, regulations, and programs.

With financial support from the Edna McConnell Clark Foundation, a private task-force was established to create the new intermediary in cooperation with the government agencies. This joint private/public initiative led to the creation of Act Together, Inc., an independent, private, not-for-profit organization governed by a Board of Directors made up of persons distinguished for their contributions to the youth field. Act Together subsequently entered into a Cooperative Agreement with the lead agency of the Working Group. The Agreement calls for Act Together to assist the federal agencies to carry out the demonstration described herein.

B. *Role of Act Together*

Act Together has the general responsibility to work with federal, state and local agencies in identifying programs and strategies with the potential to serve as national models, to document and publicize the performance record of comprehensive programs, to provide technical assistance, and to work with the Federal Coordinating Council in making recommendations for improving youth policies and administrative practices.

The Coordinating Council on Juvenile Justice and Delinquency Prevention is established under Section 206 of the Juvenile Justice and Delinquency Prevention Act of 1974, as amended. Its purpose is to coordinate all federal juvenile delinquency programs and to make recommendations annually to the President and the Congress with respect to the coordination of overall policy, and the development of objectives and priorities for national programs designed to served troubled youth.

This demonstration is also intended to provide valuable data and experience to federal agencies and to Act Together, and will be used to shed light on the more important barriers to the development of coordinated youth services for high-risk populations.

Act Together's technical assistance to grantees will focus to the greatest extent on practical and high-priority matters: how to enhance the cooperation and contributions of state and local resource agencies, how to reach out to others who may be interested in adapting program elements, how to reduce administrative problems, how to support state and local public officials in their efforts to improve youth services, and how to document program activities in a way that would be of interest to others. Act Together as a resource will actively help funded projects define the barriers to comprehensive service delivery and work toward the resolution of these problems.

With regard to the competition itself, the role of Act Together is to:

1. assist in the preparation and dissemination of these guidelines.
2. receive and provide for a thorough and proper review of all concept papers.
3. recommend applicants for demonstration grants to the federal agencies;
4. receive and review all full proposals resulting from the concept paper phase of the competition for demonstration grants;
5. ascertain the local credibility of statements in full proposals prior to final selection of grantees;
6. provide the recipients for these grants with technical assistance and project monitoring during the operations; and
7. develop and implement a program of learning and replication activities based on the demonstration projects.

C. *Target Population*

The young people served by this demonstration have been characterized as high-risk because the failure to provide a comprehensive approach to their needs now can result in the risk of long-term dependency, unproductive behavior, and costlier investments later. For the purposes of this grant competition, the term young person or youth refers to individuals 14 through 21 years old.

High-risk young people are those critically in need of basic academic skills, new vocational opportunities, mental health services, crisis counseling, and other support services tied together in some meaningful whole. They are the young people who may be alienated from or cynical about schools, employers, families, and even traditional human services agencies. They may be making a dangerous living on the "streets." They may already be involved in the juvenile justice system, or "abusers" of drugs or alcohol. They may live in the inner city, or in a remote rural area, isolated in either instance from any real opportunity.

Even where institutions reach out to assist the poor, the disadvantaged, and the disaffected, for some reason or other those young people are not reached.

Some categories of "high-risk" youths are easier to identify than others: teenage parents whose prospects for future success and survival are already much poorer than their counterparts; youths who have serious behavioral problems; young urban dwellers from various minority groups, many of whose members drop out or are forced out of school prior to graduation; youthful offenders; or Hispanic youth whose past education has been consistently interrupted by the movement of migrant streams.

These young people may be status offenders, may have been rejected by their families or the institutions within their community. Some may have a long history of incarceration, a transient family life, or may be from a family with a long history on the public assistance rolls. They might also have limited English-speaking ability, or read below even a sixth grade level. They may have been deprived of both educational and economic opportunities and access to agencies which commonly provide services to young people. They need, especially, programs which provide them with re-entry points into the service system and which help prevent them from dropping off or dropping out again. (It is expected that the target population groups selected for this demonstration will have two, three, or more of the characteristics like those mentioned in this section.)

V. Essential Elements of Comprehensive Programs

A. *Desired Characteristics of Sponsoring Agencies*

One of Act Together's major objectives is to support existing agencies which have already proven their ability to obtain multiple funding bases, which are already serving various high-risk youths effectively, and which can meet an ambitious start-up timetable for an expanded or improved program. However, agencies which are not currently providing services but which show evidence of a long-standing commitment to and planning for a comprehensive youth-service delivery program are eligible to submit concept papers as mentioned previously. In reviewing concept papers, Act Together will be looking for some of the following key characteristics:

1. Documented evidence of existing local service gaps and/or barriers to coordination at the local level;

2. Accurate data on the specific needs of the population which the sponsoring agency proposes to serve;

3. Evidence of previous staff experience and commitment in managing grants and developing effective linkages among community resources;

4. Evidence of ability to attract funds from a variety of federal, state, local, governmental and private sources to support programs for young people who are hard to reach and hard to serve;

5. Proven effectiveness of "entrepreneurial" ability in getting many local component programs to work together;

6. An ability to manage and operate youth programs in accord with good management accounting and auditing procedures;

7. The ability to make a small staff and limited resources go far in terms of services to high-risk youths—and to avoid cumbersome bureaucracy; and

8. An innovative and promising design for coordinating youth services which are based on local needs rather than a theoretical model.

In order to experiment with the effectiveness of a variety of public and private agencies as leaders in local coordination efforts, several kinds of agencies will be eligible to participate. These include, but are not limited to, juvenile justice projects, public schools, alternative schools, youth advocacy programs, community development agencies, community-based organizations, and state and local agencies. Agencies or organizations which are responsible only for the coordination of services and collaboration among different agencies are eligible only if they propose to provide direct services according to the criteria contained in these guidelines.

In every instance, the agency submitting a concept paper must be able to demonstrate a capacity for effective service; for careful management and budgeting practices; for immediate credibility in the community to be served; for attracting resources, cooperation, and support from the schools, the courts, the CETA prime sponsor, and other local agencies; and for a continuing concern with the needs of neglected populations. Locally credible agencies proposing to provide new or expanded services to groups previously shut out from such services will have an advantage.

An important characteristic of a successful applicant agency will be the capacity and commitment to participate in an appropriate assessment effort. Act Together will collaborate with the grantee in formulating the nature of their assessment effort.

B. *Desired Characteristics of Comprehensive Programs*

The agencies selected to develop full proposals must ultimately demonstrate that their comprehensive programs will represent a significant advance over the current state of fragmented youth programming at the local level and have the potential of advancing the ~~state~~ of the art. A concept paper will be expected to show:

1. Capacity to develop comprehensive services tailored to the individual needs of high-risk youths, to include a variety of youths with divergent needs;

2. Specific ideas about what innovative approaches can be undertaken to integrate existing local service more efficiently;

3. An understanding of how to pull together a variety of funding sources (e.g., employment and training, special education, foster care, mental health, health, juvenile justice, etc). to produce projects which are long-lasting and comprehensive rather than short-term and limited;

4. A serious commitment to design or redesign projects for maximum adaptability to other places, and to maintain the kind of documentation and on-going self-analysis deemed necessary to facilitate the replication of successful ideas;

5. Goals for the young people to be served which demonstrate thoughtful commitment to building their self-sufficiency and their capacity for independent living;

6. A willingness to combine innovative ideas and the practices from other exemplary programs with what local agencies already know how to do well, in order to create valuable improvements in current practice;

7. The specific ways in which the action agency plans to work with other agencies and people in order to insure the accessibility of services to high-risk youths; and

8. That the program is a recognized resource for referrals from institutions in the community serving high-risk youths.

9. That the agency has addressed employment and training services for high-risk youths.

C. *Mobilization of Additional Resources*

All model projects will be expected to mobilize a considerable proportion of additional resources through linkages with other local programs, and the creative marshalling of public and private funding sources. Act Together will recommend grants which request a maxmium of one out of every two project dollars. Each project must be designed to obtain the maximum possible support from local, state, federal, and private sources. The requirement that at least one-half of the funds be from sources other than this competition requires also that these funds be applied directly to the service program being proposed. However, the project dollars from other sources need not be "new" dollars. For example, funds used to meet this minimum one-half requirement may be applied from an ongoing program to the operation of a more comprehensive program for high-risk youths.

D. *The Development of an Explicit Replication Strategy*

Agencies submitting concept papers should be aware that those receiving a demonstration grant will be expected to cooperate with Act Together in communicating to other youth program operators throughout the country about what they have learned in their demonstration.

VI. Requirements for the Concept Papers

Describe, as succinctly and specifically as possible, the nature of the problem(s) your program will address. This would include a description of the target populations your program would serve, the dimensions of the community to be served, the particular gap(s) or weakness(es) in present (local) service delivery, and the main barriers to delivering adequate services.

A. *Explanation of Local Rationale for a Comprehensive Program*

This is an important statement, which should justify why a more comprehensive strategy is needed in your local area and explaining what you mean by a comprehensive program for the populations you propose to serve. Discuss how the delivery of services could be improved for the target populations, and how the current barriers to delivering services can be overcome.

B. *Description of your Approach to Combining and Coordinating Local Resources to Provide Comprehensive Services*

This section should describe how you propose to involve others in such a way that implementation of a comprehensive program could begin in the fall of 1981. The information you provide here should demonstrate a knowledge of possible funding sources and service providers of complementary service, and your thoughts regarding your strategy for obtaining additional monies and influence. You should describe the programs of those with whom you intend to work in the design and implementation of a comprehensive youth service project. Describe the potential value and impact of the services you hope to provide.

C. *Statement of Organizational Capacity*

This is a statement of your organization's ability to manage the program based on the expertise of staff members and the recent administrative record of your organization. Describe your experience in managing grants, developing effective linkages among community resources, and successfully serving high-risk youths. State specifically the resources which other agencies have already been willing to pledge to the effort, and what additional commitments you have obtained. Organizations should also include descriptions of the experience and training of key staff personnel.

D. *Supporting Documentation*

Suggested items are outlined in Appendices B and C. Appendix A is suggested format for a cover page. A statement of financial management capability should be attached.

VII. Evaluation and Selection of Concept Papers for Further Development

All concept papers will be evaluated by experienced outside reviewers, Act Together staff, the Board of Directors of Act Together, Inc., and representatives of the federal agencies which are cooperating in this initiative. The reviewing criteria to evaluate these applications are included in Appendix D.

After the concept papers are submitted, they will be read and evaluated by federal staff, outside reviewers and Act Together staff. The top 50 to 60 concept papers will be forwarded to the Board of Directors. The Board will recommend from 15 to 30 concept papers for full proposal development. The federal agencies must approve these decisions. This procedure is designed to take approximately four weeks. It is planned that the award of demonstration grants from the competition funding the selected concept papers can coincide with the start of the new federal fiscal year.

In the course of reviewing concept papers, a variety of factors will be considered in order to arrive at a funding mix of projects that will facilitate analysis and replication, both of which are major purposes of this demonstration. Such factors, for example, might include geographic distribution, target population, service emphasis, and funding sources.

The criteria by which concept papers will be judged should be clear from the areas of emphasis in these guidelines and especially from the weighted scores of various categories listed in Appendix D. The potential capacity of the organization to deliver improved services to hard to serve youth, the creation of a program that is replicable, and the capacity to marshall local resources and support are three of the most important criteria, and these three qualities need to be demonstrated in as convincing a manner as possible. The capacity of project staff both to deal with the target population and to manage grants will count heavily. A clear and precise understanding of the population to be served is important, as are the potential effectiveness and ambitiousness of the combination of services to be provided.

VIII. Competition Conditions for Submitting a Concept Paper

1. *Narrative and Supporting Documentation*—The narrative description of the program should not exceed 10 pages, typed and double-spaced. Along with this description each submitting agency should provide supporting information following the suggested outline in Appendix B and must also provide planning and budgetary figures for the items listed in Appendix C.

2. *Attachments*—If you wish, you may include brief background material to support or document aspects of your concept paper. Reading the attachments, however, should not be necessary for understanding the proposed project. Each attachment should be designated clearly (Attachment 1, Attachment 2,

etc.) and all the attachments should total no more than six sheets of paper.

3. *Signatory*—The original cover page should bear the signature of the Board Chairperson, Director or other authorized representatives of the organization which is submitting the concept paper.

4. *Number of Copies*—One (1) original and four (4) copies of the concept paper, (cover page, narrative, supporting information, budgetary planning figures, and attachments, if any) must be submitted.

5. *Deadline and Mailing Address*—To be considered for the competition, a concept paper must be submitted using one of the following methods:

a. The concept paper can be brought to the offices of Act Together by 5:00 p.m. July 5, 1981. NO CONCEPT PAPERS WILL BE ACCEPTED AFTER 5:00 p.m. The offices of Act Together are located at: 1511 K Street, NW., Suite #805, Washington, D.C. 20005.

b. A concept paper also may be mailed to Act Together. If this procedure is followed, the submission must bear a postmark indicating that it was mailed before midnight July 5, 1981. A postage meter mark is not acceptable. Applications should be mailed to: Act Together, Inc., 1511 K Street, NW., Suite #805, Washington, D.C. 20005.

As soon as the submission is received, Act Together will send an acknowlegment. All submitting agencies will be notified by mail of final decisions.

Submissions MADE AFTER THE DEADLINE WILL BE DEEMED INELIGIBLE AND RETURNED TO THE SENDER. If further information is needed, write or call Act Together (202/833–2395).

IX. Intent to Submit a Concept Paper

Act Together requests that all submitting agencies complete and mail a statement of their intent to participate in the competition (Appendix E). This form should be in the offices of Act Together by July 5, 1981. This will help in planning for the review process of concept papers.

Appendix A—Suggested Format for Cover Page

Concept Paper for National Demonstration of Model Comprehensive Programs for High-Risk Youths

Concept Paper for National Demonstration of Model Comprehensive Programs for High-Risk Youths

Name and Address and Telephone Number of Organization submitting concept paper.

_____

_____

All current funding sources and categories (federal, state, local governmental, private) for high-risk youth activities in your organization.

_____

_____

Types of services currently provided for high-risk youths.

_____

_____

Types of high-risk youths currently served by comprehensive programs.

Appendix B—Suggested Format for Supporting Information

Please address all items listed below. Include as an addition to the narrative. Be as brief as possible. Use the space provided. Not to exceed three pages.

1. Whom your program will serve (e.g., demographic characteristics, type of high-risk, numbers, sex).

2. Sources in the community which are currently referring high-risk youths to your agency; new referral sources which would be included in your demonstration.

3. Identification of the major services your program will provide. (Asterisk the services that would be new.)

4. Local services which are needed or which require improvement (in order of priority); your approach to integrate these services into a comprehensive program.

5. The most serious barriers in providing priority services (as you listed above) for high-risk youths; your plan to overcome those barriers.

6. Institutions that you will draw together during the demonstration period. Most important commitments you have obtained from them which will be used during the demonstration period.

7. Changes you hope to see in the young people who go through your program.

8. Plans to continue the comprehensive program after the demonstration period has been completed.

9. Qualities and experience of the Executive Director which will contribute to the program's success.

10. Use of current sources of funds in the demonstration and other sources of funds you would seek to attract to your program.

11. Innovative operations of your agency that you would see as valuable for replication.

12. Description of the capacity of your organization to collaborate and coordinate with Act Together in the implementation of an assessment design. (Do not describe a design.)

13. Documentation of your program's credibility in the community and capacity to deal with high-risk youths. (List, e.g., evaluations, continued and/or new funding, media coverage, awards.)

APPENDIX C—Estimated Budget Items for Demonstration Grant Suggested Format

It is understood that these are estimates. Full budget development will be expected for agencies who are invited to develop their concept papers into full proposals. Nevertheless, it is vital to include estimated category figures, staffing patterns and the projected total to determine the appropriate financial category.

(Provide information on these and any other applicable categories) Specify the number of months to which the budget is applicable.

Appendix D—Concept Paper Reviewing Criteria

Total = 100 (Weightings in Parentheses)

1. Does the organization offer convincing evidence that it can achieve a substantial improvement in terms of providing coordinated services to high-risk youths in the target area? (15)

(Only programs including an employment and training component will be eligible to receive full weighting in this category.)

2. Does the concept paper demonstrate that the organization has the potential to develop program ideas worth replicating? (15)

3. Does the project show the current staff capacity and administrative ability established commitment, and proven effectiveness to be a model? (15)

4. Does the organization demonstrate the ability and experience to serve high-risk youths? (15)

5. Is there indication that the program will be able to harness local/state or other resources to become self-supporting? Is there evidence of understanding and success in current local support for the agency? (10)

6. Is the target population clearly defined and does the program proposed show a

sophisticated understanding of the population it proposes to serve? (10)

7. Does the organization show evidence that it has the capacity and community acceptance necessary to build the linkages and network necessary for a comprehensive program? Does the program record integrate such linkages? (10)

8. Will there be involvement at the level of staff, board, consultants, advisory groups, etc., of individuals from the same community as the high-risk youths? (5)

9. Is there evidence that the target population will respond to the proposed services and view them as useful and meaningful? (5)

APPENDIX E—Intent to Submit a Concept Paper

If your agency is planning to submit a concept paper, please complete the portion below the dotted line and mail to:
Act Together, Inc., 1511 K Street, N.W., Suite #805, Washington, D.C. 20005

This will enable Act Together to estimate how many papers will be received and plan accurately for the review process. This statement of intent should be in the offices of Act Together by ————. Thank you.

Yes. We plan to submit a concept paper for selection in the search for demonstration models of comprehensive programs for high-risk youths.

Appendix F—Summary of Comments Received and Changes Made to Draft Announcement of Model Comprehensive Programs for High-Risk Youths

The Draft Guidelines for the Model Comprehensive Programs for High-Risk Youths published in the January 9, 1981, **Federal Register**, were responded to by 13 different organizations including the Board of Directors of "Act Together," the Intermediary formed to implement this demonstration program. An analysis of the comments indicates that most respondents were supportive of the guideline. The following is a summary of the comments received and OJJDP's responses to the comments.

A. *Match*

Comment: OJJDP should pay 100% of federal cost. Funds for future years should be provided on a declining basis.

Response: OJJDP is not requiring that the particular project component being funded with federal funds be matched. What it is requesting is that the entire program receive at least half of its funds from other sources. What we are attempting to demonstrate is that sources other than the federal government could and should be utilized to develop and implement comprehensive programming for high-risk youths.

B. *Eligibility*

Comment: Three concerns were raised on this issue. The first dealt with the eligibility of organizations which have been planning to develop comprehensive programs, the second dealt with the eligibility of consortiums or networks, and the third dealt with strengthening the eligibility criteria to ensure only programs which have had some experience in this area were eligible. There was a general reluctance to open eligibility up to agencies who did not have a past track record in this area.

Response: OJJDP concurs that organizations which have actively been planning the development of comprehensive programs be eligible for this competition providing they can demonstrate they meet the requirements of a direct service provider once funds are obtained.

OJJDP views this as a demonstration program designed, among other things, to test the utility of comprehensive non-categorical programming. The intent of the program is to have one organization responsible for total service provision. Although we recognize that a few critical services may have to be obtained from other organizations, the responsibility for the total delivery of services must be provided by the funded service agency. Consortiums of networks will be eligible only if they fulfill all eligibility requirements.

Eligibility has been tightened somewhat to ensure that programs are truly comprehensive, i.e., providing a minimum of three categories of service. The draft guideline required an applicant to provide more than one category of service. The final guideline requires that a minimum of three categories of service be provided.

C. *Evaluation*

Comment: The guidelines should stress evaluation as part of the project.

Response: As OJJDP is initially requesting concept papers, the primary focus will be on programmatic issues such as design, conceptual framework, target population, etc. The final applications will have a heavy emphasis on assessment of program effectiveness.

D. *Target Population*

Comment: Two divergent points of view were presented on this issue. One called for the expansion of the target population and the other called for tightening of the target population.

Response: Upon review of the target population OJJDP has decided to maintain the existing criteria. It is recognized that the criteria is rather broad, however, this was done deliberately to ensure that no population within wide parameters categorized and documented as "high-risk" is excluded.

E. *Period of Award*

Comment: We were encouraged to increase funding for all aspects of this program. A three to four year cycle was recommended.

Response: Because of the nature of the program and the varied funding sources, no promise of funding beyond the initial award could be made.

F. *Focus of Program*

Comment: It was questioned as to whether the focus was the linking of programs or the development of comprehensive projects.

Response: The primary focus of the program is the development of comprehensive programs. OJJDP encourages the linkage with other programs to ensure maximum utilization of all resources and the rendering of services not capable of being provided efficiently by the host program.

G. *Criteria*

Comment: Geographical distribution and economic factors were recommended as selection criteria.

Response: OJJDP intends to utilize geographical distribution as a criteria in its final selection. However, this factor will be utilized only to avoid funding more than two projects in one state. Economic factors will also be used as a criteria for selection. This is not a sole criteria and therefore, will be viewed along with other criteria.

H. *Restriction on Use of Funds*

Comment: One respondent felt the restriction against using project funds to pay wages was unrealistic.

Response: OJJDP placed this restriction on the grant because of the limited amount of funds available and correspondingly the rather costly nature of paying wages. If a program was permitted to pay wages for an employment type program, little else could be done. This restriction does not preclude an agency from utilizing other funds for this activity.

I. *Concept Paper*

Comment: OJJDP was encouraged to utilize concept papers rather than full applications in its selection process.

Response: OJJDP concurs in this recommendation and in order to save time and reduce costly application development procedures will ask that interested applicants submit a brief concept paper.

J. *Elimination of Two-Phase Process*

Comment: OJJDP originally proposed a two-step procedure. The first would be for Planning and Coordination grants and the second would be for the Action grants. Only those receiving Planning and Coordination grants would be eligible to compete for the Action grants. Because of the time consuming nature of this type of process, OJJDP was asked to consider the development of a quicker, less burdensome procedure.

Response: OJJDP concurs that the original procedure was rather burdensome and therefore has adopted a procedure whereby interested applicants would be asked to submit a short concept paper related to their proposed program. Approximately 15–30 applicants who submitted concept papers would be asked to develop complete applications. *One* grant for planning, coordination and service delivery would be provided to applicants based upon a competitive process.

Part IV

Department of Energy

Office of Conservation and Renewable Energy

Industrial Energy Conservation Program; Corporate Identification and Proposed Exempt Corporations and Adequate Reporting Programs

DEPARTMENT OF ENERGY

Office of Conservation and Renewable Energy

Industrial Energy Conservation Program; Identification of Corporations for Purposes of Industrial Energy Efficiency Improvement and Recovered Materials Utilization Reporting

AGENCY: Department of Energy.

ACTION: Notice of corporate identification.

SUMMARY: The Department of Energy (DOE) is identifying corporations which consumed at least one trillion British thermal units (Btu's) of energy in calendar year 1980 in any of the major energy-consuming industries, as required by DOE's regulations at 10 CFR 445.15(b) which implements Section 373(b) of the Energy Policy and Conservation Act, as amended by the National Energy Conservation Policy Act.

Section 445.12 of these regulations required certain corporations which consumed at least one trillion Btu's of energy in calendar year 1980 in any of the 20 major energy-consuming industries identified by DOE to file a certified statement to that effect with DOE. The deadline to file this report with DOE was February 28, 1981. Based on the reports filed in response to this information and reports filed previously, DOE identifies the corporations listed in the appendix to this notice.

Identified corporations are subject to reporting requirements imposed by statute. Were it not for this legal requirement, DOE would not publish this notice or require such reporting.

The Administration has proposed to Congress to prohibit DOE from expending any funds to carry out this reporting program during Fiscal Year 1982. Notwithstanding this Administration proposal, the identified corporations are required to meet the reporting requirement of 10 CFR Part 445—Subpart C for Calendar Year 1980.

A corporation may file a request with DOE to modify its identification on the grounds of technical or clerical error as provided in 10 CFR § 445.16.

FOR FURTHER INFORMATION CONTACT:

Tyler E. Williams, Jr., Office of Industrial Programs, CE–122.1, U.S. Department of Energy, 1000 Independence Avenue, SW, Washington, D.C. 20585, (202) 252–2371.

Pamela M. Pelcovits, Office of General Counsel, GC–33, U.S. Department of Energy, 1000 Independence Avenue, SW, Washington, D.C. 20585, (202) 252–1325.

Issued in Washington, D.C., May 28, 1981.

Joseph J. Tribble,

Assistant Secretary, Conservation and Renewable Energy.

[FR Doc. 81–16543 Filed 6–2–81; 8:45 am]

BILLING CODE 6450–01–M

[Docket No. CAS–RM–80–304]

Industrial Energy Conservation Program; Proposed Exempt Corporations and Adequate Reporting Programs

AGENCY: Department of Energy.

ACTION: Notice of proposed exempt corporations and adequate reporting programs.

SUMMARY: The Department of Energy (DOE) is proposing to exempt certain corporations from the requirement of filing corporate reporting forms directly with DOE and to determine as adequate certain industrial reporting programs for sponsor reporting, pursuant to Section 376(g)(1) of the Energy Policy and Conservation Act and DOE's regulations set forth at 10 CFR 445.37. The proposed exempt corporations and the respective sponsors of proposed adequate reporting programs are listed alphabetically by industry in the appendix to this notice.

DOE will receive written comments with respect to this proposed list.

The requirement to issue this list is imposed by statute. While the exemption procedure reduces the reporting burden on affected corporations, DOE would not require corporate reports directly or through sponsors, were it not for the legal requirement to do so. The Administration has proposed to Congress to prohibit DOE from expending any funds to carry out this reporting program for Fiscal Year 1982. Notwithstanding this Administration proposal, exempt corporations are required to meet the appropriate reporting requirements of 10 CFR Part 445—Subpart C for Calendar Year 1980.

DATE: Written comments must be received by July 6, 1981.

ADDRESS: Comments should be addressed to: Carol A. Snipes, U.S. Department of Energy, Office of Conservation and Renewable Energy, Mail Station 6B–025, 1000 Independence Avenue SW., Washington, D.C. 20585.

FOR FURTHER INFORMATION CONTACT:

Tyler E. Williams, Jr., Office of Industrial Programs, CE–122.1, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, D.C. 20585, (202) 252–2371.

Pamela M. Pelcovits, Office of General Counsel, GC–33, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, D.C. 20585, (202) 252–1325.

SUPPLEMENTARY INFORMATION: The Department of Energy (DOE) has issued Part 445 of Chapter II of Title 10 of the Code of Federal Regulations (10 CFR Part 445; 45 FR 10194; February 14, 1980) which sets out the requirements of DOE's Industrial Energy Conservation Program, required by Part E of Title III of the Energy Policy and Conservation Act (Pub. L. 94–163) (EPCA), as amended by the National Energy Conservation Policy Act (Pub. L. 95–619) (NECPA).

DOE has today issued a list of identified corporations as required by 10 CFR 445.15(b). Identified corporations are required to meet the applicable reporting requirements set forth in Subpart C of Part 445.

Subpart D of Part 445 sets forth the criteria and procedures for an identified corporation to be exempt from filing directly with DOE the corporate reporting form required by § 445.22 through participation in the adequate reporting program of a sponsor. A sponsor files an aggregated report, based on reports from its participants, with DOE pursuant to § 445.23. The requirements for a request to be an exempt corporation are provided in § 445.34, and the requirements for a request to be a sponsor with an adequate reporting program are provided in § 445.35. The deadline for filing such requests with DOE for reports on energy consumption in calendar year 1980 was February 28, 1981.

Based on the requests received by DOE, DOE has made a preliminary determination in accordance with § 445.37 of DOE's regulations and Section 376(g)(1) of the EPCA and proposes to exempt certain corporations from the reporting requirements of § 445.22(c)(1) and to determine as adequate certain industrial reporting programs. The appendix to this *Notice* sets forth sponsors of adequate reporting programs alphabetically by 2-digit SIC industry. Following each sponsor are the names of those corporations that DOE proposed to exempt from direct reporting requirements through their full participation in that sponsor's reporting program.

Parentheses with the word "partial" follow any corporation which will be reporting other than its total energy data in any particular 2-digit SIC code through the program sponsor under

V4610
6
JE3
81
UMI

which it is listed. This signifies that the corporation will be reporting only part of its data for that SIC code through that sponsor and may be reporting the rest of its efficiency data through another sponsor or sponsors or directly to DOE.

Comments on this proposal should be submitted to the address indicated in the "ADDRESS" section above on or before July 6, 1981. Five copies of all written comments should be provided. Envelopes should be identified: "Attn: Docket No. CAS-RM-80-304."

After considering any comments, DOE will exempt corporations and determine the adequacy of the reporting programs in which they participate and publish a list of corporations and sponsors of reporting programs in the Federal Register pursuant to § 445037.

Issued in Washington, D.C., May 28, 1981.

Joseph J. Tribble,

Assistant Secretary, Conservation and Renewable Energy.

Department of Housing and Urban Development

Office of Assistant Secretary for Community Planning and Development

Community Development Block Grants: Subpart F—Small Cities Program

V 46 / 106 JE 3 81 UMI

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Community Planning and Development

24 CFR Part 570

[Docket No. R-81-870]

Community Development Block Grants: Subpart F—Small Cities Program

AGENCY: Assistant Secretary for Community Planning and Development, HUD.

ACTION: Final rule.

SUMMARY: The Department is amending its regulations which cover Community development block grants as they relate to the Small Cities Program. Special procedures applicable only to Puerto Rico are being added to the Small Cities Program regulations. This rule incorporates portions of Subpart F—Small Cities Program and adds new provisions that deal with factors unique to Puerto Rico.

EFFECTIVE DATE: July 14, 1981.

FOR FURTHER INFORMATION CONTACT: Helen Duncan, Small Cities Division, Office of Community Planning and Development, Department of Housing and Urban Development, Washington, D.C. 20410, telephone number 202-755-6322. (This is not a toll free number.)

SUPPLEMENTARY INFORMATION: This revision to Subpart F was published as a proposed rule in the **Federal Register** on November 3, 1980 (45 FR 72691), and interested persons were invited to participate in the making of the final rule by providing written comments by January 2, 1981. HUD received three comments in response to the proposed rule; and considered each comment in developing this final rule. One response was generally supportive of the proposed rule. The remaining comments will be discussed in this preamble. The word "municipio" has been substituted wherever the phrase "units of general local government" has been used, recognizing the municipio as the unique eligible unit of general local government in the Commonwealth of Puerto Rico.

Factors unique to the municipios in the Commonwealth of Puerto Rico, such as the relatively large amount of funds provided, large percentage of population below the poverty level, large number of economically depressed areas, and the fact that there are only approximately 72 municipios eligible for funding under the Small Cities Program, make a competitive system unnecessary. Therefore, HUD has determined that a formula method of distributing funds to eligible municipios under the Small Cities Program in the Commonwealth of Puerto Rico to be a logical and equitable system. A major advantage will be a more simplified application process which will save considerable staff time for eligible applicants and HUD staff. Additionally, municipios will have a predictable level of community development funding, subject to their own performance.

Since funds will be distributed to municipios in predictable amounts, eligible applicants will submit only one application annually. A preapplication will no longer be required. Application submission dates will be established by HUD.

Applicants will be notified of submission dates and amounts for which they may apply. The requirement that clearinghouses must have advance notification of intent to apply for a Federal grant will be satisfied by HUD.

The Housing and Community Development Act of 1974 as amended in 1977, provides in Section 106 that in making Small Cities grants ". . . the Secretary shall establish for each participating unit of general local government an annual grant at an amount meaningful to the size of the unit and the program identified. . . ." HUD complies with this requirement in that the basic grant amount to be invited is computed and coupled with the provision to adjust the grant amount to ensure that the grant amount will be sufficient to produce meaningful projects.

Section 106 continues by saying that ". . . the Secretary shall consider such things as . . ." and lists eleven considerations. In determining the basic amounts and making the adjustments described in this rule, HUD has directly taken into account five of the eleven considerations. Additionally, in reviewing the application submitted, HUD will consider whether an applicant has ignored the needs for economic development or has ignored the need to deal with serious threats to health and safety. This review will directly or indirectly address five of the remaining six considerations. This is discussed in detail under General Comments.

Many of the changes made to Subpart F in § 570.436 are for the purpose of eliminating references to preapplications and to single purpose and comprehensive grants, which are not applicable to the Small Cities Program in the Commonwealth.

General Comments in Response to the Proposed Rule

One commentor felt that HUD should identify the issues taken directly into account in determining basic grants amounts and adjustments, and the remaining issues indirectly addressed in the application review.

The issues directly addressed in grant determination are:

Issues To Be Addressed and Section of Regulations That Addresses Issues

Grant amount meaningful to size of unit—§ 570.436(c)(2)(i)
Prior and present funding levels—§ 570.436(c)(2) (i), (iii), (iv), (v)
Past performance in community development activities—§ 570.436(c)(2) (iv), (v)
Age of housing stock and extent of poverty—§ 570.436(c)(1)(i) (B), (C)
Capacity to carry out the program—§ 570.436(c)(3)(iv), § 570.436(g)(3)(ii)(J)

The issues indirectly addressed in the review process are:

Engaging in economic redevelopment activities—§ 570.436(g)(5)(ii)(B)
Potential for increased employment as a result of community development activities—§ 570.436(g)(5)(ii)(B)
Physical and economic deterioration within the unit—§ 570.436(g)(5)(ii)(D), § 570.436(c)(1) (B), (C)
Extent to which program activity is necessary to alleviate serious threat to health and safety—§ 570.436(g)(5)(ii)(B)
Regional Center of Economic Development and Activity*
Impact of unit's growth of national policy or direct Federal program decisions*

Section 570.436(b) lists those portions of 24 CFR 570 Subpart F that apply to this section.

Section 570.436(c) establishes the method of determining the basic grant amount for each municipio. It further details the steps to be followed in making adjustments to the basic grant amount for each municipio. A minimum grant amount sufficient to ensure a meaningful program will be established. Following determination of basic grant amounts for each municipio, those municipios that would not receive the minimum grant amount will have their grants adjusted upward to the minimum. Those amounts added to the amount set aside for application by the Commonwealth would be deducted from the total amount of funds available. Each remaining municipio's basic grant would then be reduced proportionally to compensate for the adjustment. Further adjustments in grant amounts for each

*While not limited to considerations of the implication of National policies or Centers of Regional growth, the municipios and particularly the Commonwealth can and should consider such issues in choosing projects to include in their applications.

municipio may be made at the discretion of HUD, based on past performance in administering prior grants and the capacity to effectively and efficiently administer the basic grant amount.

One commentor raised concerns relative to taking into account available data pertaining to physical and economic deterioriation and unemployment prior to submission of an application while admitting that such data is limited and somewhat unreliable. HUD agrees that available data on physical and economic deterioration and unemployment is not uniformly available and that attempts to take such factors into account prior to application submission would in effect require at least a limited form of competition. Such a competition, HUD believes, would complicate the process and reduce the simplicity that this regulation is designed to accomplish.

One commentor felt that the amount of funds set aside for the Commonwealth of Puerto Rico should be spelled out. However, HUD feels that it is appropriate to make the judgment on direct funding to the Commonwealth based on past experience and needs to be addressed.

Section 570.436(d) incorporates 24 CFR 570.302 into this section, which is the entitlement program's method for determining program benefits to low- and moderate-income persons, and which will be used for the Small Cities Program in Puerto Rico.

§ 570.436(e) details the application requirements. Municipios will submit every third year, beginning with its first application on or after October 1, 1980, a summary of its three year community development and housing plan, a comprehensive strategy, a three year project summary, and a Housing Assistance Plan. A project summary, cost summary, maps, annual housing action program, assurances, and any clearinghouse comments with the applicant's explanation of inconsistencies, if any, with areawide plans, shall be submitted annually.

One commentor said it was not clear if an economic development activity should be included in the three year project summary or when such activities are proposed in the current annual application. All projects proposed for the three year period must be included in the three year project summary, and in the appropriate annual application.

One commentor said that the economic development strategy which must include evidence of financial commitment or interest by a developer, or in the absence of such commitment, feasibility studies by the applicant, unnecessarily limits the flexibility and usefulness of the stretegy and places a heavy burden on the applicant. HUD agrees that the proposed language is ambiguous and has revised the language. HUD does not intend to specify minimum requirements for justification of economic development activities as part of the Comprehensive Strategy, but rather wants applicants to consider relevant factors in establishing a Comprehensive Strategy. HUD does, however, expect applicants to indicate as part of the Project Summary, § 570.436(e)(2), the information that it has to expect that an economic development project is likely to be successful.

One commentor suggested that the degree and complexity of a CDBG program being undertaken by an applicant should be considered in evaluating performance. It is HUD's intent that those factors should be considered, and has included that in the rule.

Application forms with instructions will be furnished by HUD. Because of the new approach to funding, applicants will not be required to submit the form dealing with title VI of the Civil Rights Act of 1964. HUD should have sufficient information based on annual submissions and past performance to make the necessary Title VI finding.

A performance assessment report will be required annually, and will be used as a factor in judging the applicant's performance in carrying out its community development program.

§ 570.436(f) provides for program amendments.

One commentor recommended that the entitlement regulation regarding CDBG amendments at § 570.312(a) be substituted for § 570.436(f), since § 570.312(a) contains specific thresholds which remove the uncertainty regarding program amendments. HUD feels that the entitlement regulation at § 570.312(a) is unnecessarily complex for the Small Cities Program. Further, the Small Cities Program rule is familiar to the Small Cities Program user.

§ 570.436(g) details the actions taken by HUD in reviewing and approving an application, and details the conditions under which HUD will conditionally approve, or disapprove an application.

One commentor expressed concern with the procedure that review of an application include assessment of the coordination of housing assistance and community development activities, with the implication that every applicant must include housing assistance. No such implication is intended, nor is it appropriate. It is the intent of the regulations that each community will develop a program which prioritizes programs to meet its need.

Further concern was expressed with criteria for disapproval of an application, § 570.436(g)(5), with the question of whose experience is the determining factor in whether a proposed activity will alleviate the conditions they were designed to affect. HUD's Area Office Manager would ultimately make the necessary judgment for disapproval under § 570.436(g)(5). HUD, however, has no intention of using this authority in any but the most extreme cases. For example, in a particular municipio, if for two years homes have been designated for rehabilitation and yet through experience are found to be so deteriorated as to make rehabilitation impossible, and yet the municipio continues to designate seriously deteriorated homes for rehabilitation, the Area Manager would have the authority, after consultation with the municipio, to disapprove the application.

Similarly, with regard to an applicant not addressing serious economic development needs or serious threats to health and safety, HUD will continue to respect local choice regarding priority needs to be addressed. The plainly inappropriate judgment with regard to not addressing serious economic development or public health and safety needs would only be made in cases in which no serious needs were being addressed. The regulations are clarified to that effect.

The commentor also pointed out that § 570.436(g)(5)(D) requires the applicant to address ". . . areas of significant concentration of deteriorated housing and blight. . . ." Faulty construction, building materials, dilapidated condition, etc., could make them infeasible and uneconomical to rehabilitate, but the applicant risks disapproval of the application by failure to address the condition. Again, no such implication is intended, nor is it appropriate. It is the intent of the regulations that each community will develop a program which prioritizes programs to meet its locally determined needs. The regulations are clarified to that effect.

§ 570.436(h) contains the provisions for Citizen Participation that are applicable to the Commonwealth of Puerto Rico under this new approach.

§ 570.436(i) contains the OMB Circular No. A-95 procedures that apply to the Commonwealth of Puerto Rico.

The Department has determined that an environmental impact statement is not required with respect to this rule. A copy of the Finding of No Significant

Impact is available for inspection in the Office of the Rules Docket clerk, Room 5218, 451 Seventh Street, S.W., Washington, D.C. 20410.

The Small Cities Program is listed in the Catalog of Federal Domestic Assistance under the number 14.219, *Community Development Block Grants/Small Cities Program.* OMB Circular A-95 applies to the Small Cities Program.

Pursuant to § 605(b) of the Regulatory Flexibility Act, the undersigned hereby certifies that this rule does not have a significant economic impact on a substantial number of small entities.

I. 24 CFR Part 570, Subpart F is amended in the table of contents by adding § 570.436 to read as follows:

* * * * *

Subpart F—Small Cities Program

* * * * *

Sec.

570.436 Special procedures applicable to the Commonwealth of Puerto Rico.

* * * * *

II. Part 570, Subpart F is amended by adding § 570.436 to read as follows:

§ 570.436 Special procedures applicable to the Commonwealth of Puerto Rico.

(a) *General.* This section shall apply to the Small Cities Program in the Commonwealth of Puerto Rico.

(b) *Scope and Applicability.* (1) *Applicable regulations.* 24 CFR 570.420 (a), and (c) shall apply to this section.

(2) *Program Objectives.* The Small Cities Program in Puerto Rico provides grants to municipios and to the Commonwealth in both metropolitan and nonmetropolitan areas to undertake the same community development activities as may be funded under the entitlement program. The application must be consistent with one or more of the following purposes: (i) Support realistic and attainable strategies for expanding low- and moderate-income housing opportunities;

(ii) Promote expansion of housing choice for low- and moderate-income persons outside areas of minority and low- and moderate-income concentrations or in revitalizing neighborhoods;

(iii) Promote more rational land use;

(iv) Provide increased economic opportunities for low- and moderate-income persons;

(v) Correct deficiencies in public facilities which affect the public health or safety, especially of low- and moderate-income persons.

(3) *Program Design.* The program as a whole must principally benefit low- and moderate-income persons and directly impact on the applicant's needs. All activities contained within such program must either benefit low- and moderate-income persons, or aid in the prevention or elimination of slums or blight, or meet other community development needs having a particular urgency.

(c) *Grant Amount.* (1) *Basic Grant Amount.* A basic grant amount shall be determined for each eligible municipios based on a ratio of the total amounts available each for metropolitan and nonmetropolitan areas to the average of the following ratios for each eligible municipio:

(i) *Metropolitan.*

(A) The population of the eligible municipio and the population of all eligible municipios in the metropolitan areas of the Commonwealth;

(B) The extent of poverty in the eligible municipio and the extent of poverty in all eligible municipios in the metropolitan areas of the Commonwealth; and

(C) The extent of housing overcrowding in the eligible municipio and the extent of housing overcrowding in all the eligible municipios in the metropolitan areas of the Commonwealth.

In determining the average of ratios under this paragaph, the ratio involving the extent of poverty shall be counted twice and each of the other ratios shall be counted once $(0.25+0.50+0.25=1.00)$.

(ii) *Nonmetropolitan.* Nonmetropolitan funds shall be allocated according to the formula in paragraph (c)(1)(i) of this section, except that the ratio shall compare population, poverty, and housing overcrowding in nonmetropolitan areas and nonmetropolitan eligible municipios.

(2) *Adjustments.* The following adjustments may be made in determining the amounts for which applicant shall be invited to apply:

(i) A minimum grant amount shall be established for municipios which shall be sufficient to ensure meaningful projects;

(ii) A set aside, in an amount to be determined by HUD, may be established for the Commonwealth;

(iii) An adjustment may be made for any applicant approved for multiyear funding prior to Fiscal Year 1981, at a level exceeding its basic grant amount.

(iv) An application from an applicant having received a prior Community Development Block Grant may be invited for less than the basic grant amount where past performance is judged by the HUD to be below acceptable levels based on considerations of factors in paragraph (c)(3)(iv) of this section.

(v) An application from an applicant having received a prior Community Development Block Grant may be invited for more than the basic grant amount where past performance is judged by the Area Office to be superior based on considerations of factors in paragraph (c)(3)(iv) of this section.

(3) *Amount of invitation.* In determining the amount for which each eligible municipio shall be invited to submit an application, the following steps will occur:

(i) The amount necessary to bring each municipio up to the minimum grant amount as determined in paragraph (c)(2)(i) of this section shall be calculated and set aside along with any amount set aside for the Commonwealth. This shall be done separately for metropolitan and nonmetropolitan areas;

(ii) Any community with approved multiyear funding for Fiscal Years 1981 and/or 1982 at a funding level exceeding their basic grant amounts, may be funded at the approved level for those years;

(iii) Each municipio basic grant amount, as determined in accordance with paragraph (c)(1) of this section, will be reduced on a pro rata basis so that the total of adjusted basic grant amounts, which includes the minimum grant amount described in paragraph (c)(2)(i) of this section, any adjustments necessary to meet multiyear commitments described in paragraph (c)(2)(iii) of this section and the amount for the Commonwealth described in paragraph (c)(2)(ii) of this section, will equal the total metropolitan and nonmetropolitan allocations, respectively;

(iv) Past performance adjustments may then be made for each municipio and for the Commonwealth in accordance with paragraph (c)(2)(iv) or (c)(2)(v) of this section. Any increase in grant amounts for superior performance cannot exceed the decrease in grant amounts for performance below acceptable levels. Past performance adjustments may be made, considering:

(A) Capacity to effectively and efficiently utilize the grant amount;

(B) Rate of drawdown

(C) Rate of obligation of funds

(D) Performance under the Housing Assistance Plan

(E) Compliance with other program requirements based on monitoring visits and audits.

(v) Each eligible municipio and the Commonwealth shall be invited to submit an application for the amount determined by the preceding steps. Applicants shall be advised no less than 45 days in advance of date for

submission of applications, of amounts of grants to be provided.

(d) *Program benefit to low- and moderate-income persons.* Program benefits to low- and moderate-income persons shall be determined in accordance with § 570.302 of Subpart D.

(e) *Application requirements.*

(1) *Community Development and Housing Plan Summary.* Each applicant shall submit in a form prescribed by HUD, a summary of its three year community development and housing plan. This document shall be submitted every third year as part of the annual application for funds, beginning with the first application submitted on or after October 1, 1980. It shall summarize the applicant's community development and housing needs, describe a comprehensive strategy for meeting those needs, and specify both short- and long-term objectives to be met by the strategy. The community development and housing plan summary shall include:

(i) *A narrative summary* of the applicant's community development and housing needs, particularly those of low- and moderate-income households and any special needs of identifiable segments of the total group of lower income persons. The narrative shall include a brief description of the major needs for neighborhood revitalization, for community facilities and public improvements, for housing and for economic development needs.

(ii) *Comprehensive strategy.* The applicant shall describe how it proposes to meet its identified community development and housing needs, particularly those of low- and moderate-income households residing in or expected to reside in the community and any special needs of identifiable segments of the lower income population. The provision of all improved community facilities and public improvements, including supporting health, social and similar services where necessary or appropriate, shall be described in a manner that fully ensures opportunity for participation by, and benefits to the handicapped. The strategy shall include the following components:

(A) *Communitywide component* which describes the development strategy of the applicant, the major objectives the applicant seeks to accomplish, the priorities it has established, and the factors it has taken into account in selecting areas for treatment and designing programs to meet identified needs.

(B) *Neighborhood revitalization* shall include the strategy for maintaining and preserving viable neighborhoods and for upgrading neighborhoods affected by blight and deterioration. The strategy shall emphasize the actions to be taken that will improve conditions for low- and moderate-income persons residing in or expected to reside in the community.

(C) *Housing.* (*1*) Describe a communitywide strategy to improve housing conditions and to meet the housing assistance needs that have been identified. The strategy shall include a Housing Assistance Plan (HAP) as described in § 570.437. It shall include: the strategy for any programs to be carried out on a communitywide basis, such as provision of rehabilitation financing for low- and moderate-income persons or elimination of detrimental conditions; regulatory and other actions proposed to foster housing maintenance and improvements; strategy for increasing the choice of housing opportunities for low- and moderate-income persons, including members of minority groups and female-headed households, efforts to achieve expanded housing opportunities and actions to affirmatively further fair housing; and any community facilities and improvements to be provided in furtherance of the applicant's housing strategy and to assure accomplishment of goals for assisted housing.

(*2*) When displacement or other hardships to low- and moderate-income persons will result from Community Development Block Grant funded acquisition, demolition, code enforcement, and rehabilitation, the strategy shall describe what steps will be taken to minimize involuntary displacement and to enable displaced persons to remain in the same neighborhood if they prefer.

(iii) *Economic development.* A description of the applicant's strategy for economic development is required from applicants that propose block grant funded economic development activities. The strategy shall include a description of:

(*A*) *Major needs* for economic development in the locality.

(*B*) *The activities proposed* to further economic development and to attract private investment, including the coordination of block grant funded activities with other local actions, and a timetable for provision of other Federal and State resources.

(*C*) *The number and types of permanent jobs* expected to result from economic development projects, particularly jobs for unemployed or underemployed population groups and low- and moderate-income persons, and the types and extent of any job training which will be provided to them.

(*D*) *Evidence of financial commitments or interest by developers* in new or expanded employment facilities, or feasibility studies, or other documents evidencing the marketability of new or expanded employment facilities.

(2) *Project Summary.* All applicants shall, after consideration of appropriate environmental factors pursuant to 24 CFR 58, describe the project that will be undertaken which includes:

(i) A description of the project which states its purpose, location, and the sequence of activities;

(ii) Whether the project or activity principally benefits low- and moderate-income persons, aids in the prevention or elimination of slums and blight, or meets other community development needs having a particular urgency;

(iii) A description of the activities which comprise each project, and their estimated costs and timing;

(iv) The amounts and sources of other public funds and private investments anticipated to be provided;

(v) Anticipated accomplishments.

(3) *Three year project summary.* In addition to the project summary required under paragraph (e)(2) of this section, applicants shall also submit a three year project summary. It shall consist of a tabular summary of the projects proposed to be carried out with block grant funds during the next three years to implement the applicant's comprehensive strategy, grouped by location, the anticipated timing, the goals to be accomplished, the population benefitting, and the estimated block grant and other funds to be provided, and indicating whether the activity principally benefits low- and moderate-income persons, aids in the prevention or elimination of slums and blight, or meets other community development needs having a particular urgency.

(4) *Cost summary.* Each applicant shall submit a cost summary annually on a form prescribed by HUD.

(5) *Housing Assistance Plan.* Each applicant shall submit a Housing Assistance Plan in accordance with § 570.437.

(6) *Certifications of assurances.* The certifications of assurance required by § 570.307 of Subpart D shall be submitted by all applicants except that in lieu of § 570.307(d) the applicant shall certify that it:

(i) Has prepared and followed a written citizen participation plan that meets the requirements of (h);

(ii) Has provided citizens with an opportunity to participate in the development of the Housing Assistance Plan;

(iii) Has provided adequate notices of public hearings as required by the written plan;

(iv) Has held hearings on the proposed application before adoption of a resolution or similar action by the local governing body authorizing the filing of the application;

(v) Will provide for citizen participation when considering amendments to the Community Development Program and the Housing Assistance Plan; and

(vi) Will provide for citizen participation in the planning, implementation and assessment of the Community Development Program including the development of the report on performance and the submission of views to the HUD Area Office.

(7) *Map requirements.* Maps must be submitted which include the following information identified by census tract (or enumeration district):

(i) Location of areas with concentrations of low- and moderate-income persons;

(ii) Locations of the proposed activities described in the program schedule and, if applicable, the three year project summary, including boundaries of areas in which activities will be concentrated and service areas of activities where appropriate;

(iii) The median income of the municipio in which the proposed activities are to be undertaken;

(iv) General locations of proposed new or rehabilitated housing assistance;

(v) The location of areas with concentrations of substandard and deteriorated housing.

Maps should be clearly legible and all required maps submitted shall be of the same scale and cover the same areas. The applicant may submit supplementary maps of a different scale, at its discretion, where this will increase clarity. More than one type of information may be combined on one map if the information is clearly legible when combined.

(8) *Threshold requirements.* Notwithstanding the provisions of paragraph (c) of this section, HUD shall review the progress of each eligible applicant based on the performance assessment report, taking into consideration the size of the block grant and the degree and complexity of the program. If the progress is so inadequate as to indicate that the eligible applicant does not have the capacity to effectively handle a new grant, or a portion thereof, in addition to the grant currently under contract, that applicant shall not be invited to submit an application for current year funding. Also, if the applicant's performance under its HAP does not meet the standards provided at 24 CFR 570.909(e)(2)(i) and (ii), it will not be invited to submit an application for current year funding.

(9) *Performance assessment report.* Performance assessment reports shall be submitted to HUD at a time prescribed by the Area Office, but sufficiently in advance of application submission dates so that performance adjustments can be considered based on the information submitted in the report, along with other information available to HUD.

(10) *Application submission dates.* HUD shall establish deadlines for submission of applications by letter of notification to eligible applicants. This notification will be provided at least 45 days prior to the date by which the applicant must submit the completed application to HUD.

(f) *Program Amendments.*

(1) HUD may consider amendments if they are necessitated by actions beyond the control of the applicant. Recipients shall request prior HUD approval for all program amendments involving new activities or alteration of existing activities that will significantly change the scope, location, or objectives of the approved activities or beneficiaries.

(2) *Housing Assistance Plan amendments.* (i) Grant recipients shall request prior HUD approval of Housing Assistance Plan amendments when the recipient proposes to take an action which would:

(A) increase any three-year goal for a household type or housing type by more than the limitations allowed in 24 CFR Part 891, Subpart B, *Applications for Housing Assistance in areas with Housing Assistance Plan;*

(B) decrease any three-year goal; or

(C) revise the general location for assisted housing.

(ii) Changes not listed in paragraph (f)(2)(i) do not require prior HUD approval, but must be reported to HUD in the grantee's performance assessment report described in § 570.906, *Performance report.*

(3) *A–95 and citizen participation requirements.* Whenever an amendment requires HUD approval, the requirements of this Subpart for A–95 review and citizen participation must be met. The recipient shall provide the A–95 clearinghouse with thirty days in which to review and comment on the proposed amendment prior to its submission to HUD.

(g) *HUD review and actions on applications.* (1) *Applications.* Only applications from communities that have been invited to apply are accepted for review, and then only if:

(i) The application has been received before the deadline that has been established by the Area Manager, unless the Area Manager decides that an extension of the deadline is warranted;

(ii) The application requirements are complete;

(iii) The funds requested do not exceed the amount of the invitation by HUD;

(iv) Any conditions that were established at the time of invitation are satisfied; and

(v) The application is submitted to the clearinghouse prior to or concurrently with submission to HUD. The applicant shall indicate in its application the date it was submitted to the clearinghouse.

(2) *Review and notification.* While HUD is not required to review discretionary applications within 75 days, it will try to do so. Following the review, HUD promptly notifies the applicant of the actions taken with regard to its application.

(3) *Scope of review.* (i) HUD will normally base its review upon the applicant's assurances, statements of facts and data, and other information. The Secretary reserves the right, however, to consider relevant evidence which challenges the assurances, and information submitted by the applicant, and to require additional information or assurances from the applicant as warranted by such evidence.

(ii) The review will include, but need not be limited to, the following matters contained in the application and the performance assessment report, or derived from monitoring:

(A) Eligibility of proposed activities;

(B) That the program identified in the application has a reasonable cost relationship to the amount of the grant;

(C) Program benefit to low- and moderate-income persons in accordance with the provisions of § 570.302;

(D) Housing Assistance Plan conformity to the requirements of § 570.437;

(E) Coordination of housing assistance and community development activities;

(F) Consistency of the needs stated in the plan with generally available data;

(G) Appropriateness of proposed plans and programs to meeting the applicant's needs and objectives;

(H) Compliance with previous contract conditions or other corrective and remedial actions required by HUD;

(I) Experience regarding the effectiveness of the proposed activities in meeting the community development needs in the locality;

(J) Applicant's capacity to carry out the program proposed as evidenced by its previous performance record; and

(K) Compliance with the requirements of this Part and other applicable laws and regulations.

(4) *Criteria for conditional approval.* HUD may make a conditional approval in which case the grant will be approved but the obligation and utilization of funds for affected activities will be restricted. The reason for the conditional approval and the actions necessary to remove the condition shall be specified. Failure to satisfy the condition may result in a reduction or termination of the grant. Conditional approval may be made:

(i) Where local environmental reviews under § 570.603 have not yet been completed;

(ii) The requirements of § 570.607 regarding the provision of public services and flood or drainage facilities have not yet been satisfied;

(iii) Pending site and neighborhood standards approval for proposed housing projects, if applicable;

(iv) Where there is substantial evidence that there had been, or there will be, a lack of substantial progress, nonconformance, noncompliance, or a lack of continuing capacity, as described in § 570.909. In such case, the reason for the conditional approval and the actions necessary to remove the condition shall be specified. Failure to satisfy the condition may result in a reduction in the annual grant amount pursuant to § 570.910(b)(10).

(5) *Criteria for disapproval of an application.* HUD may disapprove an application if:

(i) On the basis of significant facts and data generally available and pertaining to community and housing needs and objectives, HUD determines that the applicant's description of such needs and objectives is plainly inconsistent with such facts and data. The data to be considered may be published data accessible to both the applicant and HUD such as census data; or other data available to both the applicant and HUD, such as recent local, areawide or Commonwealth comprehensive planning data;

(ii) On the basis of the application, or other available information, HUD determines that the activities to be undertaken are plainly inappropriate to meeting the needs and objectives identified by the applicant. The following are examples of situations in which activities may be determined to be "plainly inappropriate" to meeting the identified needs of the applicant:

(A) Experience over a period of time has demonstrated that the types of activities proposed have not been or are unlikely to be effective in alleviating the conditions they were designed to affect;

(B) The applicant has identified serious economic development needs or serious threats to health and safety; activities are eligible which could address the needs with the likelihood of substantial positive results, and yet the applicant neither proposes such activities, nor proposes to address any other serious need;

(C) The application does not meet the requirements of § 570.302(b)(2) with respect to the extent of funding proposed to principally benefit low- and moderate-income persons;

(D) The applicant has identified areas containing significant concentrations of deteriorated housing and blight and neither proposes to undertake a program of activities in any such areas, nor proposes addressing any other serious need;

(E) Proposed activities will have a detrimental effect on low- and moderate-income persons or members of minority groups, and adequate measures to mitigate those effects are not proposed;

(F) Actions essential to accomplish housing assistance goals, including supportive community development activities, are not proposed;

(G) Housing goals, locations, and strategy do not meet the criteria of § 570.437;

(H) The proposed program does not reflect previous requirements of HUD for corrective or remedial actions, or activities proposed have previously been the basis of such requirements.

(iii) HUD determines that the application does not comply with the requirements of this Part with specific regard to the primary purposes of principally benefitting persons of low and moderate income, or aiding in the prevention or elimination of slums or blight, or meeting other community development needs having a particular urgency, or with other applicable laws, or the application proposes activities which are ineligible under Subpart C of this Part;

(iv) Conditions established at the time of invitation have not been fully met;

(v) There is new evidence of a lack of performance or capacity of a recipient to carry out the proposed activities;

(vi) Performance under the HAP is inadequate.

(6) *Previous audit findings and outstanding monetary obligations.* HUD shall not invite an application from any applicant that has an outstanding audit finding for any HUD program, or has an outstanding monetary obligation to HUD. However, the Regional Administrator may provide waivers to this prohibition, but in no instance shall a waiver be provided when funds are due HUD, unless a satisfactory arrangement for repayment of the debt has been made.

(h) *Citizen participation requirements.* (1) *General.* Each applicant shall provide citizens with an adequate opportunity for meaningful involvement on a continuing basis and for participation in the planning, implementation and assessment of the program. The applicant shall provide adequate information to citizens, hold public hearings at the initial stage of the planning process to obtain views and proposals of citizens, and provide citizens an opportunity to comment on the applicant's community development performance. Nothing in these requirements, however, shall be construed to restrict the responsibility and authority of the applicant for the development of the application and the execution of its Community Development Plan.

(2) *Written Citizen Participation Plan.* To achieve these goals, each applicant shall prepare and follow a written citizen participation plan that serves as a citizens' guide to interacting with the block grant program in a meaningful way. Citizens shall be involved in the development of, and any changes to the plan. The plan shall remain in effect until all activities assisted under this Subpart are completed or until it is superseded by a new plan. The plan must provide procedures that meet the following requirements:

(i) Provide a process of citizen participation at the communitywide level with regard to the overall application, the Community Development Program, and the assessment of performance where applicable.

(ii) Solicit and respond in a timely manner, to views and proposals of citizens, particularly low and moderate income persons, members of minority groups, and residents of blighted areas where activities are proposed. Written responses shall be made to written proposals.

(iii) Provide technical assistance to facilitate citizen participation, where requested. The level and type of technical assistance shall be determined by the applicant.

(iv) Provide adequate notices of public hearings and the availability of the report on assessment of performance, where applicable, in a timely manner and in such a way as to make them accessible and understandable to all citizens, including non-English speaking persons. The plan must state the number of days prior to a hearing that a notice will be published.

(v) Schedule hearings to obtain citizen views and to respond to citizen proposals at times and locations which permit broad participation, particularly by low- and moderate-income persons, members of minority groups, handicapped persons, and residents of blighted neighborhoods and project areas.

(vi) A public hearing shall be held during the planning process and a public hearing shall be held prior to the submission of the application to the Area Office. Additionally, a minimum of one separate hearing shall be held to provide citizens an opportunity to assess performance under previous grants prior to submission of the performance assessment report to HUD;

(vii) Conduct at least one public hearing during the grant closeout process, prior to submission to HUD of the assessment of performance report, if such a report has not been made and a hearing has not been held concerning performance in the last 12 months.

(viii) Provide full public access to program records and information and make affirmative efforts to get adequate information to citizens, especially persons of low and moderate income and residents of blighted neighborhoods and project areas. The citizen participation plan shall identify the information that will be made available to the public by the applicant.

(ix) Conduct a minimum of two public hearings on any amendment requiring HUD approval. A public hearing shall be held to consider the merits of the amendment in its formative stages and a public hearing shall be held on the amendment when it is ready for submission. Citizens, particularly affected citizens, shall also be involved in amendments not requiring prior HUD approval, budget revisions, and changes to the Community Development Program and the Housing Assistance Plan. The methods by which citizens will be involved shall be described in the plan.

(x) Involve citizens in planning, implementing and assessing the Community Development Program and performance. The methods by which citizens and citizen organizations will be given the opportunity to assess and submit comments on the applicant's community development performance shall be described in the plan.

(xi) Advise citizens of the bases and process to be used to submit objections to HUD to the approval of an application.

(xii) Ensure low- and moderate-income persons and minorities substantial representation on any advisory committee.

(xiii) Provide bilingual opportunities at public hearings, when necessary.

(xiv) Provide written responses to written complaints generally within 15 working days.

(3) *Requirements for citizen participation in the application process*—(i) The objective of citizen participation is to provide for meaningful citizen input in the decision making process during the consideration of priorities and of options associated with the development and submission of the application. The applicant shall assure that the following citizen participation requirements have occurred:

(A) Developed and made available to the public a written Citizen Participation Plan at the beginning of the application stage that meets the requirements of paragraph (2). The procedures outlined in this plan were followed during the planning and development of the application prior of its submission to the HUD Area Office.

(B) Provided the public with the following information:

(*1*) Amount of funds that may be applied for by the applicant for community development.

(*2*) Range of activities that may be undertaken with these funds, the kind of activities previously funded if any, and the progress made with respect to those activities.

(*3*) The processes to be followed in soliciting and responding to the views and proposals of citizens in a timely manner.

(*4*) A summary of other important program requirements.

(ii) The applicant shall provide certifications of assurance as prescribed in § 570.436(e)(6).

(4) *Post Approval Stage.* The applicant shall assure citizen participation when considering subsequent amendments to the Community Development Program and the Housing Assistance Plan in accordance with the requirements at (h)(2)(ix), and during closeout in accordance with (h)(2)(vii).

(5) *Assessment of performance.* A copy of each written citizen comment or complaint on the grantee's community development performance, the grantee's assessment of the comment or complaint, and the grantee's description of any actions taken and any written response made to the comment or complaint, if any, shall be submitted to HUD with the report on assessment of performance.

(6) *Consideration of objections to applications—(i) Notice of Submission of application.* The applicant shall at the time of submission to HUD, publish a notice in a newspaper of general circulation stating that the application has been submitted to HUD and is available to interested parties upon request, and describing the conditions whereby citizens may submit objections to approval of applications by HUD, as described below.

(ii) *Citizen objections to applications.* Persons wishing to object to approval of an application by HUD may make such objection known to the appropriate HUD Area Office. HUD will consider objections made only on the following grounds:

(A) The applicant's description of needs and objectives is plainly inconsistent with available facts and data.

(B) The activities to be undertaken are plainly inappropriate to meeting the needs and objectives identified by the applicant.

(C) The application does not comply with the requirements of this Subpart or other applicable law.

(D) The application proposes activities which are otherwise ineligible under this Part.

Such objections should include both an identification of the requirements not met and, in the case of objections made on the grounds that the description of needs and objectives is plainly inconsistent with significant, generally available facts and data, the data upon which the persons rely. Although HUD will consider objections submitted at any time, such objections should be submitted within 30 days of the publication of the notice that the application has been submitted to HUD in accordance with paragraph (6)(1) of this section. HUD will not approve an application until at least 45 days after receipt of the application.

(7) *Citizen comment to HUD.* Persons may comment to the Area Office at any time concerning the applicant's failure to comply with the citizen participation requirements contained in this section.

(i) *Modified OMB Circular No. A–95 procedures.* (1) *General.* (i) Applicants for grants under the Small Cities Program must comply with all of the procedures set forth in Part I of OMB Circular No. A–95 except as modified below. These procedures also require that program amendments which must receive HUD approval shall be submitted to the clearinghouse for a thirty day review and comment period prior to submission to HUD pursuant to 24 CFR 52.101(g).

(ii) All applicants are urged to contact their A–95 clearinghouse for forms and instructions which the clearinghouse has developed to facilitate its review, and to

consult with the clearinghouse during development of the application.

(iii) The clearinghouse will be of assistance to the applicant and to HUD if its review addresses the subject matter of comments and recommendations in item 5, Part I, Attachment A of OMB Circular No. A–95, with emphasis on consistency with Commonwealth, areawide and local plans, and compliance with environmental and civil rights law.

(2) *Clearinghouse notification.* The A–95 requirement that the clearinghouse be notified of an applicant's intent to apply for Federal assistance will be satisfied by HUD. Each fiscal year HUD will advise the clearinghouse, with a copy to the applicant, of those communities invited to apply for grants under this section. This notification will be provided at least 60 days prior to the date by which the applicant must submit the completed application to HUD. Upon receipt of its copy of the HUD notification to the clearinghouse, the applicant shall make arrangements with the clearinghouse regarding early transmittal of information describing the contents of the application.

(3) *A–95 procedures for applications.* (i) Applications for grants shall be submitted to the areawide A–95 clearinghouse prior to or concurrent with the submission of the application to HUD. The clearinghouse shall have 45 days from receipt of the application in which to conduct its review and provide a response to the applicant with a copy to HUD. The clearinghouse must clearly identify the applicant and the activity or program to which the comments are addressed. Applicants are urged to provide applications to the clearinghouse prior to submission to HUD whenever possible.

(ii) HUD shall take no final action on the application until comments have been received or until 45 days after the application filing deadline. If the A–95 review comments contain any findings of inconsistency with Commonwealth, areawide, or local plans, significant adverse urban impacts, noncompliance with environmental laws, or failure to provide equal opportunity, the applicant must consider these findings and state what action it plans to take as a result of these findings and the reasons therefor. Further, HUD shall make no decision on the application until all adverse clearinghouse findings are resolved.

(Title I, Housing and Community Development Act of 1974 (42 U.S.C. 5301 et seq.); Title I, Housing and Community Development Act of 1977 (Pub. L. 95.123); and Sec. 7(d) Department of Housing and Urban Development Act (42 U.S.C. 3535(d)))

Issued at Washington, D.C., May 7, 1981.

Donald G. Dodge,

Acting General Deputy, Assistant Secretary for Community Planning & Development.

Department of the Interior

Fish and Wildlife Service

Receipt of Application for Endangered Species Permit

U.S. DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Endangered Species Permit; Receipt of Application

APPLICANT: Patuxent Wildlife Research Center, U.S. Fish and Wildlife Service, Laurel, Maryland.

SPECIES: California condor (*Gymnogyps californianus*).

FILE NO.: PRT 2-8045.

PURPOSE: Recovery of the species through captive propagation, radio telemetry, and other scientific research techniques.

LONG RANGE OBJECTIVE: To establish a secure and self-sustaining wild population of California condors.

SUMMARY OF PROPOSED PROJECT: The initial recovery effort will extend over a three-year period (up to summer 1984) and will include but will not necessarily be limited to (1) Taking nine condors from the wild to establish a captive breeding population, (2) to radio-tag 12 free-flying condors and an unlimited number of pre-flight immatures, (3) to visit active and inactive nests to salvage parts, weigh and measure young birds and to remove sharp rocks from nest sites, (4) take blood samples from adult birds for various tests, and (5) take other samples of body parts (e.g., feathers) for various tests and examinations. All activities will be closely coordinated with the California Department of Fish and Game (CDF&G).

DURATION OF PROPOSED STUDY: Through the year 2015.

KEY PERSONNEL INVOLVED IN THE STUDY: See Appendix to this notice.

Outline of California Condor Endangered Species Permit Application

I. Trapping and Handling Procedures

A. *Trapping:* Condors will be captured using cannon or rocket nets at baited trap sites. These capture methods were chosen after an evaluation of the relative merits of several trapping methods (i.e., cannon net, rocket net, walk-in trap, and clap trap) was performed on African vultures, turkey vultures, black vultures, and Andean condors in the wild. The cannon/rocket net method has an excellent record of safety.

B. *Handling:* Each trapping operation will involve at least 4 experienced bird handlers, including a veterinarian well supplied with appropriate medical equipment. No more than 3 condors will be captured during each trapping, and only 2 condors will be captured during the first trapping operation to ensure safe handling and to document the effectiveness of the trapping method. Trappings may be photographed or filmed for record-keeping purposes. Precautions will be taken to handle birds carefully and to minimize stress. Trapped birds will be held one hour or less; however, birds which are candidates for the captive breeding program may be held 1–2 days pending determination of sex.

C. *Sexing and Tissue Sampling:* The sex of all birds captured will be determined by chromosomal analysis of blood and feathers. The sexing procedure is to be performed at the San Diego Zoo.

D. *Tissue Samples:* 1. From each trapped bird, and from Topa-topa (an adult bird already in captivity), a 17cc blood sample will be drawn from a wing or neck vein for (1) heavy metal and organochlorine compound analysis (5cc for each), (2) parasite, pathogen, and DNA studies (5cc), (3) enzyme polymorphism studies (0.5cc), and (4) sexing purposes (1.5cc). The enzyme polymorphism studies are expected to give important information as to the degree of inbreeding in the wild population and may provide guidance for selection and pairing of birds for captive breeding to maximize outbreeding. The organochlorine, heavy metal, parasite, and pathogen studies will reveal current exposure to environmental stresses. The DNA hybridization studies will provide guidance to which species is/are taxonomically closest to the California condor. This will enable various tests (e.g., drug tolerance) to be conducted on surrogate species prior to using the test or procedure on California condors. The 17cc blood sample represents only 0.2% of adult condor body weight and presents no threat to the animal.

2. From each California condor trapped from the wild 3 developing feathers will be plucked for use in feather pulp sexing. Two grams of feather material from up to 20 contour feathers will be taken for heavy metal analysis.

E. *Other Examinations:* Each trapped California condor will be weighed, measured, and photographed in detail and undergo the following additional procedures: (1) tracheal and cloacal swabs for culturing bacteria and viruses, (2) checks for external parasites and molt, and (3) fecal samples (if available) for indications of parasite burdens.

II. Radio Telemetry Program

A. *Objective:* To radio-tag 12 adult or subadult free-flying condors, and to radio-tag an unlimited number of pre-flight immatures at nest sites.

B. *Schedule:* Trapping will begin in September 1981. Initially only two condors will be trapped to determine, over a one month period, if the radio equipment produces any adverse effects on the birds. If no adverse problems arise, 4 more birds will be radioed to make a total of six birds for the 1981–82 trapping season. Known breeding birds will not be trapped after February 1 of any year to preclude disturbance during the breeding season. During the 1982–83 and 1983–84 trapping seasons, 4 and 2 condors, respectively, will be trapped and radioed. In addition, between June 1982 and January 1983, one pre-flight immature condor will be radioed at a nest site. This should generally involve only one visit to the nest; however, an initial brief visit may be made to determine the age of the bird. Any pre-flight immature condor found after January 1983 may be radioed. If the numbers of condors scheduled for telemetry are not radioed during the scheduled seasons, the deficiency will be made up in following years. Changes in the number of birds to be radioed in any particular season may be made with consent of the CDF&G. Throughout the duration of the recovery effort, all phases of the radio telemetry program will be coordinated closely with the CDF&G.

C. *Materials:* Wing-mounted solar-powered transmitters, weighing about 60 grams each and known to last 3–4 years or more, appear to be the best design for the birds and for this long-term study. The overall weight of the radio packages for each bird is about 120 grams which represents approximately 1.3% of body weight, well below the 4% body weight limit usually recommended in avian telemetry. No detrimental effects of similar patagial radio tags have been noted on numerous turkey vultures and black vultures tagged and monitored by other scientists. These tags have been tested on wild and captive Andean condors and have shown no signs of associated tissue damage or impairment of behavior.

Monitoring of radioed California condors will be from ground vehicles and a small airplane. In addition, an array of 10–12 mountain-top radio receivers with directional antennae will be established to provide automatic, unmanned coverage of essentially all of the condor range. This system is expected to plot gross movements of the birds except when they descend into canyons, and will be partially operational sometime in 1982. Regular mapping of bird movements will allow identification of important flyways, feeding areas, roosting areas, and nest

V 46 / 106
J E 3 8 1
UMI

sites, and will provide a means to find injured or dead animals.

III. Entry into Nest Sites

A. *Inactive Nests:* Entry into inactive nests will be made to collect addled condor eggs, eggshells, and feathers, and to remove sharp rocks and other debris which may cause egg breakage if the nest site is used by breeding birds. Eggshells and feathers will be collected and analyzed for organochlorines and heavy metals, respectively.

B. *Active Nests:* Entry into active nests will be to (1) remove potential egg-breakage objects, (2) attach radio-transmitters to pre-flight immature condors, and (3) examine and measure pre-flight birds to determine whether growth-rate or parasite problems exists. Pre-flight birds are partially feathered and are large enough for safe attachment of radio equipment but are not so large as to pose a risk of pre-mature fledging or difficult capture.

Beginning 20 days after hatching, growth data will be collected monthly from nestlings and pre-flight birds beginning with the 1984 breeding season.

IV. Formation of a Captive Population

A. *Objective:* To take four males and four females from the wild, and one bird of the opposite sex to the one adult (Topa-topa) now in captivity to provide a captive breeding stock of 5 pairs.

B. *Schedule:* During the first trapping season (September, 1981–May, 1982), 3 reproductively inactive free-flying condors (i.e. potential breeders) will be taken from the wild. At least one will be of a sex opposite to that of Topa-topa for pairing purposes.

Determination of reproductive status of adults will be made through radio-telemetry; adults will be considered reproductively inactive if they remain unpaired during the normal courtship and egg-laying period (through the end of March).

Four and two reproductively inactive wild condors will be taken during the second (September, 1982–May, 1983) and third (September, 1983–May, 1984) trapping seasons, respectively. Breeding adults, eggs, or nestlings, will be taken in the event of a drastic population decline and only upon agreement with CDF&G.

If the number of condors approved for captive propagation is not taken during the scheduled period, the deficiency will be made up during remaining trapping seasons. Injured or sick birds salvaged from the wild may also become part of the captive breeding group.

The CDF&G will be consulted closely in all phases of the captive breeding project, including work to be done after the initial 3 year period (i.e. after the 1983–84 season) and will be provided with monthly, mid-year, and annual reports.

C. *Breeding Facilities:* Captured condors will be held, cared for, and bred at new facilities to be built at the 1,800 acre San Diego Wild Animal Park. Husbandry procedures will be similar to those used at the Patuxent Wildlife Research Center (PWRC) for Andean condors.

The park is directly associated with the San Diego Zoo which has a modern propagation center, full curatorial staff, veterinary hospital, and research section. The San Diego Zoo has had extensive experience with captive propagation of Andean condors.

The facilities will be patterned after the Andean condor complex at the PWRC which measures about 12m x 12m x 5m for each pair of birds. The pens have roosting and nesting compartments and perches, and are covered with 5 x 10cm welded wire. Condors will be fed a standard diet of such items as livestock, big game, rabbits, mice, rats, guinea pigs, and other similar foods. Birds will be given regular physical examinations and medical treatment as required.

Transport of captured condors from the field to the breeding facility will be by air or car with individual fiberglass sky-kennels (70 x 64 x 91cm) floored with indoor-outdoor carpet. A veterinarian will be in attendance during transport (5 hrs. by car, 2.5 hrs. by air).

V. Justification

Twelve pages of the application text are devoted to describing the research and recovery effort. Despite over 40 years of research and management efforts of its behalf, the California condor has shown continued decline and is now so reduced in numbers that it is virtually certain to become extinct unless fundamentally new approaches to recovery are initiated. There is an urgent need for expanded research to elucidate factors responsible for the population's decline and initiation of captive-breeding efforts as a safeguard against extinction. The plan outlined in the application is supported by the U.S. Congress (through a budget add-on specifically for the California condor), National Audubon Society, U.S. Forest Service, U.S. Bureau of Land Management and California Department of Fish and Game.

VI. Other Pertinent Information

A. The application contains 9 appendices:

Appendix 1—Reports on trips to Southern Africa and Peru to evaluate trapping techniques.
Appendix 2—Emergency procedures for aiding a California condor that is injured or threatened with injury or death.
Appendix 3—Cooperative Agreements, contracts, proposals and letters of intent of cooperators.
Appendix 4—Names, addresses, and qualifications of key personnel (see appendix of this notice).
Appendix 5—Documentation of the 1980 accidental death of a nestling wild California condor and recommended procedures for avoiding or decreasing such mortalities.
Appendix 6—Phase I. Initial plan of research for recovery of the California condor.
Appendix 7—Past, current, and proposed activities involving California condor habitat.
Appendix 8—Captive progpagation of condors and cranes at the Patuxent Wildlife Research Center.
Appendix 9—Study of the Andean condor at the Patuxent Wildlife Research Center.

B. The application is submitted as part of a cooperative agreement entitled "National Audubon Society—U.S. Fish and Wildlife Service, California Fish and Game Department, U.S. Forest Service, and U.S. Bureau of Land Management Cooperative California Condor Conservation Program." The objectives of this agreement are (1) to implement the California Condor Recovery Plan, (2) to cooperate on field research in behalf of the California Condor Conservation Program, (3) to cooperate on public information and education, and (4) to provide for ongoing reviews of the recovery program with the assistance of the American Ornithologist's Union.

C. California Condor Recovery Plan: This permit application is the initial step to satisfy the overall objective of the California Condor Recovery Plan which is "to stop the decline of the species and increase the population to a secure level."

D. An Environmental Impact Assessement (EIA) has been completed in draft by the USFWS Office of Endangered Species to satisfy the National Environmental Policy Act (NEPA). The final EIA will be completed by July, 1981. Copies of the draft EIA are available from the Office of Endangered Species USFWS, Washington, D.C. 20240, and the Sacramento USFWS Area Office, (address listed below).

Documents and other information submitted with this application are available to the public during normal business hours at the following location:

(1) Federal Wildlife Permit Office, USFWS, Room 605, 1000 N. Glebe Road, Arlington, VA, or by writing Director,

USFWS, FWPO, P.O. Box 3654, Arlington, VA 22203; (2) Area Office, USFWS, Room E–2740, Federal Bldg., 7800 Cottage Way, Sacramento, CA 95825; (3) California Condor Research Center, 87 North Chestnut, Ventura, CA 93001; (4) Region 1, USFWS, Suite 1692, Lloyd 500 Bldg., 500 NE Multnomah St., Portland, OR 97232; (5) Region 2, USFWS, P.O. Box 1306, Albuquerque, NM 87103; (6) Region 3, USFWS, Federal Bldg., Fort Snelling, Twin Cities, MN 55111; (7) Region 4, USFWS, P.O. Box 95067, Atlanta, GA 30347; (8) Region 5, USFWS, Suite 700, One Gateway Center, Newton Corner, MA 02158; (9) Region 6, USFWS, Box 25486, Denver Federal Center, Denver, CO 80225, and Region 7, USFWS, 1101 E. Tudor Rd., Anchorage, AK 99057.

Interested persons may comment on this application and on the environmental assessment by writing: Director, USFWS, FWPO, P.O. Box 3654, Arlington, VA 22203 within 45 days after date of publication. Please refer to file number PRT 2–8045 when submitting comments.

Dated: May 20, 1981.

Larry LaRochelle,

Acting Chief, Branch of Permits, Federal Wildlife Permit Office.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR NOTICE 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/SECRETARY	USDA/ASCS		DOT/SECRETARY	USDA/ASCS
DOT/COAST GUARD	USDA/FNS		DOT/COAST GUARD	USDA/FNS
DOT/FAA	USDA/FSQS		DOT/FAA	USDA/FSQS
DOT/FHWA	USDA/REA		DOT/FHWA	USDA/REA
DOT/FRA	MSPB/OPM		DOT/FRA	MSPB/OPM
DOT/NHTSA	LABOR		DOT/NHTSA	LABOR
DOT/RSPA	HHS/FDA		DOT/RSPA	HHS/FDA
DOT/SLSDC			DOT/SLSDC	
DOT/UMTA			DOT/UMTA	
CSA			CSA	

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.
Comments on this program are still invited.
Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

REMINDERS

The "reminders" below identify documents that appeared in issues of the **Federal Register** 15 days or more ago. Inclusion or exclusion from this list has no legal significance.

Deadlines for Comments on Proposed Rules for the Week of June 7 through June 13, 1981

ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

26487 5–13–81 / Separation of functions in agency proceedings: draft recommendations; comments by 6–12–81

AGRICULTURE DEPARTMENT

Animal and Plant Health Inspection Service—

21143 4–9–81 / Gypsy moth regulated areas list; final rule; comments by 6–8–81

21148 4–9–81 / Pink bollworm regulated areas list; final rule; comments by 6–8–81

Rural Electrification Administration—

21367 4–10–81 / Electric and telephone borrowers; Telecommunications program (Bulletin 345–3); acceptance of standards, specifications equipment contract forms, etc.; comments by 6–9–81

CIVIL AERONAUTICS BOARD

21185 4–7–81 / Air carriers; amendment of fuel cost, and consumption reporting provisions; comments by 6–8–81

COMMERCE DEPARTMENT

National Oceanic and Atmospheric Administration—

27147 5–18–81 / Fishery management plan for Atlantic Sea Scallops, (Placopecten magellanicus prepared by New England Fishery Management Council; comments by 6–11–81

23958 4–29–81 / Mid-Atlantic Fishery Management Council, Fishery Management Plan; comments by 6–8–81

COMMODITY FUTURES TRADING COMMISSION

20679 4–7–81 / Proficiency examinations for associated persons; delegation of authority; comments by 6–8–81

CONSUMER PRODUCT SAFETY COMMISSION

26262 5–11–81 / Chain saws and their components and replacement parts; proceeding to develop a consumer product safety standard; comments by 6–10–81

ENERGY DEPARTMENT

Conservation and Renewable Energy, Office of the Assistant Secretary—

25466 5–7–81 / Residential energy efficiency program; compliance with the Regulatory Flexibility Act; comments by 6–8–81

Federal Energy Regulatory Commission—

26353 5–12–81 / Request for a declaratory order from the Commonwealth of Massachusetts clarifying the method of calculation of avoided cost of an all requirements utility; comments by 6–11–81

ENVIRONMENTAL PROTECTION AGENCY

1165 1–5–81 / Air pollutants, hazardous; national emission standards for benzene fugitive emissions; comments by 6–8–81

[Comment period extended at 46 FR 9960, 1–29–81]

26506 5–13–81 / Air quality control regions, criteria and control techniques; attainment status designations: Ohio; comments by 6–12–81

25485 5–7–81 / Air quality revision of the Virginia State Implementation Plan; comments by 6–8–81

26074 5–11–81 / Approval and promulgation of State Implementation plans; Arkansas submission of volatile organic compound (VOC) regulation for Set II Control Technique Guideline Sources; comments by 6–10–81

26504 5–13–81 / Approval and promulgation of State plans for designated facilities and pollutants; Idaho; comments by 6–12–81

26504 5–13–81 / Designation of areas for air quality planning purposes; attainment status designations: Minnesota; comments by 6–12–81

20698 4–7–81 / Lead-in-gasoline test procedure; comments by 6–8–81

26355 5–12–81 / Massachusetts; designations of areas for air quality planning purposes; redesignation of attainment areas—primary and secondary sulfur dioxide standards; comments by 6–11–81

21769 4–14–81 / Performance of new stationary sources: Coal preparation plants, review of standards; comments by 6–15–81

26499 5–13–81 / Revision of the Pennsylvania State Implementation plan; comments by 6–12–81

26075 5–11–81 / State and Federal Administrative Enforcement of Implementation Plan requirements after statutory deadlines; administrative order issued by New Jersey Department of Environmental Protection to Owens-Illinois, Inc.; comments by 6–10–81

21396 4–10–81 / Water pollution, pulp, paper, paperboard and builders paper and roofing felt, point source categories effluent limitations guidelines, pretreatment standards, and new source performance standards; comment period extended to 6–9–81

[*See also* 46 FR 1430, 1–6–81, and 46 FR 15287, 3–5–81]

FEDERAL COMMUNICATIONS COMMISSION

22215 4–16–81 / Amendments to registration standards; comments by 6–12–81

17233 3–18–81 / Automation of the use of measurement data for AM broadcast stations; reply comments extended to 6–8–81

[*See also* 45 FR 82973, 12–17–80]

23498 4–27–81 / FM broadcast station in Brownsville, Edinburg, Harlingen, Raymondville, Rio Grande City, Texas; changes in table of assignments; comments by 6–9–81

23496 4–27–81 / FM broadcast station in Gurdon, Arkansas; changes in table of assignments; comments by 6–9–81

28681 5–28–81 / FM broadcast station; Maine; reply comments by 6–12–81

23497 4–27–81 / FM broadcast station in Milan, Georgia; changes in table of assignments; comments by 6–9–81

22910 4–22–81 / FM broadcast stations in Mountain Home and Marshall, Ark., and Thayer, Mo.; reply comments extended to 6–11–81

[*See also* 46 FR 15298, 3–5–81]

23774 4–28–81 / FM broadcast station; Weed, Calif.; change in table of assignments; comments by 6–9–81

FEDERAL LABOR RELATIONS AUTHORITY

26488 5–13–81 / Case processing; representation, unfair labor practice, negotiability, and arbitration cases and procedural requirements for parties in cases before authority; comments by 6–12–81

FEDERAL TRADE COMMISSION

21019 4–8–81 / Children's advertising, proposed termination of proceeding; comments by 6–8–81

HEALTH AND HUMAN SERVICES DEPARTMENT

Food and Drug Administration—

25602 5–8–81 / Antibiotic drugs; bacampicillin hydrochloride certification; comments by 6–8–81

25604 5–8–81 / Antibiotic drugs; sterile cefotaxime sodium certification; comments by 6–8–81

25607 5–8–81 / Antibiotic drugs certification; corrections and technical changes; comments by 6–8–81

[*See also* 39 FR 18922, 5–30–74]

INTERIOR DEPARTMENT

Mines Bureau—

25653 5–8–81 / Helium, sales and rental of containers from the Bureau of Mines; comments by 6–10–81

National Park Service—

23389 4–24–81 / Integral vistas associated with visibility protection for Federal class I areas, identification; guideline availability and preliminary list; reopening of comment period; comments by 6–8–81

[*See also* 46 FR 3046, 1–15–81]

Surface Mining Reclamation and Enforcement Office—

20688 4–7–81 / Abandoned mine land reclamation program; comments by 6–8–81

22902 4–22–81 / Interim and permanent regulatory modifications; comments by 6–8–81

INTERSTATE COMMERCE COMMISSION

22911 4–22–81 / Practices of motor common carriers of passengers—checked baggage prohibitions and liability exemptions; comments by 6–8–81

LABOR DEPARTMENT

Employment and Training Administration—

27462 5–19–81 / Comprehensive Employment and Training Act; Amendments to Title VII and Public service employment base average annual wage provisions; comments by 6–8–81

[*See also* 46 FR 25645, 5–8–81]

Occupational Safety and Health Administration—

23740 4–28–81 / Access to employee exposure and medical records; construction industry; administrative stay; comments by 6–12–81

PERSONNEL MANAGEMENT OFFICE

21355 4–10–81 / Life insurance, Federal employees; basic and optional plans, correction; participation requirement for continuation of life insurance during receipt of workers' compensation; comments by 6–9–81

TRANSPORTATION DEPARTMENT

National Highway Traffic Safety Administration—

21634 4–13–81 / Installation of a single center, high-mounted stoplamp on passenger cars, in addition to the stoplamp presently required; comments by 6–10–81

[*See also* 46 FR 2132; 1–8–81]

TREASURY DEPARTMENT

Alcohol, Tobacco and Firearms Bureau—

21197 4–9–81 / Consideration of establishment of a viticultural area in Mendocino County, Calif.; comments by 6–8–81

21194 4–9–81 / Consideration of establishment of a viticultural area in San Luis Obispo County, Calif.; comments by 6–8–81

21623 4–13–81 / Designation of a viticultural area in Amador County, Calif. to be known as "Shenandoah Valley," comments by 6–12–81

Customs Service—

21194 4–9–81 / Amendments to "country of origin" determination provisions; comments by 6–8–81

Internal Revenue Service—

26660 5–14–81 / Proposed excise tax regulations under the Crude Oil Windfall Profit Tax Act of 1980; comments by 6–8–81

VETERANS ADMINISTRATION

26499 5–13–81 / Veterans education; Advance payment of educational assistance allowance; comments by 6–12–81

Deadlines for Comments on Proposed Rules for the Week of Jue 14 through June 20, 1981

AGRICULTURE DEPARTMENT

Agricultural Marketing Service—

26786 5–15–81 / Dried prunes in Calif.; specification changes; comments by 6–15–81

Animal and Plant Health Inspection Service—

22197 4–16–81 / Quarantine of California to control Mediterranean fruit fly; comments by 6–15–81

V46/106 JE3 81 UMI

Food Safety and Quality Service–

22383 4–17–81 / Revision of shell egg standards and grades; comments by 6–16–81

26787 5–15–81 / U.S. standards for grades of mixed nuts in the shell; comments by 6–15–81

Rural Electrification Administration—

22383 4–17–81 / Public information; REA bulletins specification for filled telephone cable; comments by 6–16–81

COMMERCE DEPARTMENT

National Oceanic and Atmospheric Administration—

23957 4–29–81 / Atlantic butterfish fishery, initial approval and availability of plan amendment; comments by 6–15–81

26658 5–14–81 / Proposed clarification of term "directly affecting the coastal zone"; comments by 6–15–81

ENERGY DEPARTMENT

Federal Energy Regulatory Commission—

27963-27966 5–22–81 / High-cost gas produced from right formations (4 documents); comments by 6–17–81

24585 5–1–81 / Natural gas; sales and transportation by interstate pipelines and distributors; comments by 6–15–81

ENVIRONMENTAL PROTECTION AGENCY

27129 5–18–81 / Approval and promulgation of State Implementation Plans; Utah's Total Suspended Particulates and lead; comments by 6–17–81

27131 5–18–81 / Designation of areas for air quality planning purposes; Alabama; proposed redesignation of Marion, Lamar, and Fayette Counties; comments by 6–17–81

6-4-81
Vol. 46 No. 107
Pages 29921-30072

federal register

Thursday
June 4, 1981

Highlights

29921 **Renewal of Trade Agreements with Romania and Hungary** Presidential determination

29953 **Social Security** HHS/SSA proposes to reduce from 12 months to 6 months the maximum retroactivity of all applications for certain non-disability benefits.

29985 **Student Aid** ED announces special allowance rates for quarter ending March 31, 1981 for the Guaranteed Student Loan Program.

29964 **Child Support Enforcement** HHS/Office of Child Support proposes to expand Federal financial participation in the costs of cooperative agreements with courts and law enforcement officials.

29955 **Minority and Women-Owned Businesses** Interior/GS proposes to rescind rule on nondiscrimination in Outer Continental Shelf leasing activities.

29967, 29968 **Hazardous Materials Transportation** DOT/RSPA proposes to simplify, and clarify requirements for transportation of wet electric storage batteries. RSPA also proposes to authorize use of nonspecification cargo tanks for transportation of liquified petroleum gas in intrastate commerce under certain conditions. (2 documents)

Highlights

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $75.00 per year, or $45.00 for six months, payable in advance. The charge for individual copies is $1.00 for each issue, or $1.00 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

29928 **Consumer Protection** CPSC modifies policy on associations between its staff and voluntary standards development groups.

29923 **Aliens** Justice/INS codifies practice of invalidating a visa petition after the beneficiary becomes a lawful permanent alien.

29995 **Federally-Owned Inventions** GSA announces availability of draft regulations on licensing

The President

Presidential Determination No. 81–9 of June 2, 1981

Renewal of Trade Agreements with Romania and Hungary—Findings and Determinations under Subsection 405(b)(1) of the Trade Act of 1974

Memorandum for the United States Trade Representative

Pursuant to my authority under the Trade Act of 1974 (Public Law 93–618, January 3, 1975; 88 Stat. 1978), I find, pursuant to subsection 405(b)(1) of that Act, that a satisfactory balance of concessions in trade and services has been maintained during the lives of the Agreements on Trade Relations between the United States and the Socialist Republic of Romania and the Hungarian People's Republic. I further determine that actual or foreseeable reductions in United States tariffs and non-tariff barriers to trade resulting from multilateral negotiations have been satisfactorily reciprocated by the Socialist Republic of Romania and by the Hungarian People's Republic.

These findings and determinations shall be published in the **Federal Register**.

Rules and Regulations

Federal Register
Vol. 46, No. 107
Thursday, June 4, 1981

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 907

[Navel Orange Reg. 525]

Navel Oranges Grown in Arizona and Designated Part of California; Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of fresh California-Arizona navel oranges that may be shipped to market during the period June 5, 1981–June 11, 1981. Such action is needed to provide for orderly marketing of fresh navel oranges for this period due to the marketing situation confronting the orange industry.

EFFECTIVE DATE: June 5, 1981.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, 202–447–5975.

SUPPLEMENTARY INFORMATION: *Findings.* This rule has been reviewed under USDA procedures and Executive Order 12291 and has been classified "not significant," and is not a major rule. This regulation is issued under the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of navel oranges grown in Arizona and designated part of California. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). This action is based upon the recommendations and information submitted by the Navel Orange Administrative Committee and upon other available information. It is hereby found that this action will tend to effectuate the declared policy of the act.

This action is consistent with the marketing policy for 1980–81. The marketing policy was recommended by the committee following discussion at a public meeting on October 14, 1980. A regulatory impact analysis on the marketing policy is available from William J. Doyle, Acting Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone, 202–447–5975.

The committee met again publicly on June 2, 1981, at Los Angeles, California, to consider the current and prospective conditions of supply and demand and recommended a quantity of navels deemed advisable to be handled during the specified week. The committee reports the demand for navel oranges is good.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the **Federal Register** (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared policy of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary to effectuate the declared policy of the act to make this regulatory provision effective as specified, and handlers have been apprised of such provisions and the effective time.

Forms required for operation under this part are subject to clearance by the Office of Management and Budget and are in the process of review.

1. Section 907.825 is added as follows:

§ 907.825 Navel Orange Regulation 525.

The quantities of navel oranges grown in Arizona and California which may be handled during the period June 5, 1981, through June 11, 1981, are established as follows:

(1) District 1: 1,000,000 cartons;
(2) District 2: Unlimited cartons;
(3) District 3: Unlimited cartons;
(4) District 4: Unlimited cartons.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: June 3, 1981

D. S. Kuryloski
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

BILLING CODE 3410-02-M

DEPARTMENT OF JUSTICE

Immigration and Naturalization Service

8 CFR Part 204

Petition To Classify Alien as Immediate Relative of a United States Citizen or as a Preference Immigrant; Multiple Use of Petition Prohibited

AGENCY: Immigration and Naturalization Service, Justice.

ACTION: Final rule.

SUMMARY: This rule codifies Service practice for invalidating a visa petition after the beneficiary becomes a lawful permanent resident alien. The petition thereafter cannot be used to support a priority date or subsequent status classification through attempted multiple use.

EFFECTIVE DATE: July 6, 1981.

FOR FURTHER INFORMATION CONTACT: For general information: Stanley J. Kieszkiel, Acting Instructions Officer, Immigration and Naturalization Service, 425 I Street, NW, Washington, D.C. 20536. Telephone, (202) 633–3048.

For specific information: Bert C. Rizzo, Immigration Examiner, Immigration and Naturalization Service, 425 I Street, NW, Washington, D.C. 20536. Telephone, (202) 633–3946.

SUPPLEMENTARY INFORMATION: It is the Service's practice to consider any visa petition invalid after it has been used to support a beneficiary's adjustment of status to that of a lawful permanent resident alien. This practice applies to acquiring lawful permanent residence under both sections 222 and 245 of the Act. Petition to classify Status of Alien Relative for Issuance of Immigrant Visa, Form I–130, and Petition to Classify Preference Status of Alien on Basis of Profession or Occupation, Form I–140 are within the ambit of this practice. The reaffirmation or reinstatement referred to in paragraph (c) of 8 CFR 204.4, relating to a subsequent petition by the same petitioner for the same

beneficiary, applies only when the beneficiary's status has not been adjusted previously to that of a lawful permanent resident alien.

Compliance with the provisions of 5 CFR Part 553 as to notice of proposed rule making is unnecessary because the amendment merely codifies long standing policy and practice and is not newly restrictive in nature.

Accordingly, Chapter 1 of Title 8 Code of Federal Regulations is amended as follows:

PART 204—PETITION TO CLASSIFY ALIEN AS IMMEDIATE RELATIVE OF A UNITED STATES CITIZEN OR AS A PREFERENCE IMMIGRANT

Section 204.4 is amended by adding paragraph (f) to read as follows:

§ 204.4 Validity of Approved Petitions

* * * * *

(f) *Exception to Revalidation.*

Any petition approved under Section 204(b) of the Act ceases to convey a priority date or visa classification, and cannot be restored after it has been used by a beneficiary to obtain either an adjustment of status to lawful permanent residence or admission as an immigrant to lawful residence based upon a consular immigrant visa.

(Secs. 103 and 204; 8 U.S.C. 1103 and 1154)

Certification

In accordance with 5 U.S.C. 605(b), this rule will not have a significant economic impact on a substantial number of small entities nor is it a major rule as defined in E.O. 12291 because the rule merely codifies long standing Service policy and practice.

Dated: March 4, 1981.

David Crosland,

Acting Commissioner of Immigration and Naturalization.

[FR Doc. 81-16654 Filed 6-3-81; 8:45 am]

BILLING CODE 4410-10-M

OFFICE OF THE FEDERAL INSPECTOR FOR THE ALASKA NATURAL GAS TRANSPORTATION SYSTEM

10 CFR Parts 1500, 1502 and 1534

Certification to Office of Advocacy Regarding the Regulatory Flexibility Act

AGENCY: Office of the Federal Inspector for the Alaska Natural Gas Transportation System.

ACTION: Notice of Certification that Final Rules Do Not Have a Significant Economic Impact on a Substantial Number of Small Entities.

SUMMARY: Take notice that on May 22, 1981, the Federal Inspector certified that two rules, published by the Office of the Federal Inspector (OFI) on April 16, 1981, on OFI functions, powers and duties and its organization (46 FR 22328) and on enforcement procedures for ANGTS equal opportunity regulations (46 FR 22334) have no significant economic impact on a substantial number of small entities. This certification, to the Office of Advocacy at the Small Business Administration, is rendered pursuant to the Regulatory Flexibility Act (RFA), Pub. L. 96-354, 5 U.S.C. 605(b).

FOR FURTHER INFORMATION CONTACT: Mr. Ned Hengerer, General Counsel, Office of the Federal Inspector, ANGTS, Room 3407, Post Office Building, 1200 Pennsylvania Ave., NW, Washington, D.C. 20044 (202) 275-1144.

The first (final) rule, 10 CFR Parts 1500 and 1502, represents a pro forma statement of OFI functions, powers, and duties and OFI organization. With no proposed rulemaking preceding the final rule, it is outside the scope of the RFA. Section 4, 5 U.S.C. 601. Moreover, because it merely describes the OFI, the final rule imposes no economic impact, whether on small or large entities.

The second (final) rule, 10 CFR Part 1534, establishes enforcement procedures for the ANGTS equal opportunity regulations, which the OFI is required to enforce. Because the proposed rulemaking was published before January 1, 1981, this final rule is likewise outside the scope of the RFA. Nevertheless, if significant economic impact results (a questionable assumption), it will not fall on a substantial number of small entities. The primary entities subject to this final rule are the three companies sponsoring ANGTS, the largest privately-financed construction project in U.S. history: By definition, they are not small business entities. The secondary entities subject to this final rule are the major suppliers of goods and services for this construction. Most of them are also large companies. Finally, the intended beneficiaries of this final rule include minority and female business enterprises, most of which are "small business entities" under the RFA. 5 U.S.C. 601(3).

Dated: May 22, 1981.

John T. Rhett,

Federal Inspector.

[FR Doc. 81-16070 Filed 6-3-81; 8:45 am]

BILLING CODE 6820-AW-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 81-SO-30; Amdt. 39-4127]

Airworthiness Directives; Lockheed Model 382 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new Airworthiness Directive (AD) which requires inspection and repair, if necessary, of the left and right Buttock Line 20.00 Longeron Splice Joints at Fuselage Station 597.00 on certain Lockheed Model 382 series airplanes. The AD is needed to determine if an out-of-tolerance condition exists which can result in a negative margin of safety and possible failure of the longeron at the critical loading condition.

DATE: Effective June 5, 1981. Compliance required during the next "B" or "C" inspection/check, whichever occurs first, after the effective date of the AD, unless already accomplished.

ADDRESSES: The applicable service bulletin may be obtained from the Lockheed-Georgia Company, Marietta, Georgia 30063.

A copy of the service bulletin is also contained in the Rules Docket, Room 275, Engineering and Manufacturing Branch, FAA, Southern Region, 3400 Norman Berry Drive, East Point, Georgia.

FOR FURTHER INFORMATION CONTACT: Jack Bentley, Aerospace Engineer, Engineering and Manufacturing Branch, FAA, Southern Region, P.O. Box 20636, Atlanta, Georgia 30320, telephone (404) 763-7407.

SUPPLEMENTARY INFORMATION: It has been determined that during production assembly of Lockheed Model 382 series airplanes center fuselage, the Buttock Line 20.00 Longeron Splice Angles at Fuselage Station 597.00 on some airplanes were inadvertently located higher or lower than required. This condition caused the center line of the bolts in the longeron splices to be shifted from their designed locations. The out-of-tolerance misalignment can result in a negative margin of safety and possible failure of the longeron at the critical loading condition. Since this condition is likely to exist on or develop on other airplanes of the same type design, an Airworthiness Directive is being issued which requires inspection and repair, if necessary, of the right and

left Buttock Line 20.00 Longeron Splice Joints located in the center fuselage just below the upper skin panel and slightly aft of the center wing rear beam at Fuselage Station 597.00. If out-of-tolerance misalignment conditions are found to exist, operating restrictions for pressurization, ramp cargo load and maximum operating airspeed are required until repairs are accomplished.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new Airworthiness Directive (AD):

Lockheed: Applies to Model 382 series airplanes, Serial Numbers 3940 and 4101 through 4871 except 4834, 4839, 4850, and 4853, certificated in all categories.

Compliance required during the next "B" or "C" inspection/check, whichever occurs first after the effective date of this AD, unless already accomplished. To prevent possible failure of the longerons, accomplish the following:

a. Inspect the center fuselage upper longeron splice bolts, immediately aft of fuselage station 597.00, along buttock line 20.00, on each side of the airplane, for correct installation, and determine the condition category of the airplane in accordance with Lockheed-Georgia Company Service Bulletin No. A382–53–29, Revision 1, dated April 24, 1981, or later FAA approved revision.

b. If an out-of-tolerance condition is found to exist, accomplish one of the following:

1. Based on the condition category, placard the airplane in accordance with Lockheed-Georgia Company Service Bulletin No. A382–53–29, Revision 1, dated April 24, 1981, or later FAA approved revision, and incorporate Airplane Flight Manual (AFM) Supplement No. 382–11, dated February 18, 1981. The AFM Supplement may be obtained from the Lockheed-Georgia Company, Marietta, Georgia 30063. If repairs are accomplished in accordance with b.2., placards and AFM Supplement may be discarded.

2. Repair the airplane in accordance with Lockheed-Georgia Company Service Bulletin No. A382–53–29, Revision 1, dated April 24, 1981, or later FAA approved revision, or an alternate method of compliance, approved by the Chief, Engineering and Manufacturing Branch, Southern Region.

c. An alternate method of compliance may be approved by the Chief, Engineering and Manufacturing Branch, Southern Region.

d. Special flight permits may be issued in accordance with FAR 21.197 and 121.199 to operate airplanes to a base in order to comply with the requirements of this AD.

This amendment becomes effective June 5, 1981.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89)

Note.—The FAA has determined that this regulation is an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it, when filed, may be obtained by contacting the person identified under the caption "For Further Information Contact."

Issued in East Point, Georgia, on May 26, 1981.

George R. LaCaille,

Acting Director, Southern Region.

[FR Doc. 81-16016 Filed 6-3-81; 8:45 am]

BILLING CODE 4910-13-M

---

14 CFR Part 39

[Docket No. 81-CE-9-AD; Amdt. 39-4126]

Airworthiness Directives; Beech Models 65-88, 65-90, 65-A90, B90, C90, E90, 100, A100, and B100 Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new Airworthiness Directive (AD) which supersedes AD 77–23–07, Amendment 39–3082, and applies to the same 1137 Beech Models 65–88, 65–90, 65–A90, B90, C90, E90, 100, A100 and B100 airplanes. It requires repetitive visual inspections of cast acrylic cabin and cockpit side windows and "on condition" replacements with stretched acrylic windows. This action is needed because cast acrylic windows have failed despite compliance with AD 77–23–07.

DATE: Effective date June 11, 1981.

COMPLIANCE: As prescribed in the body of the AD.

ADDRESSES: Beechcraft Service Instructions No. 0711–110, Revision III, applicable to this AD, may be obtained from Beechcraft Aviation and Aero Centers or Beech Aircraft Corporation, Commercial Service Department, 9709 East Central, Wichita, Kansas 67201. A copy of the instructions is contained in the Rules Docket, Room 916, 800 Independence Avenue, SW., Washington, D.C. 20591, and Office of Regional Counsel, Room 1558, 601 East 12th Street, Kansas City, Missouri 64106.

FOR FURTHER INFORMATION CONTACT: Ross R. Spencer, Aerospace Engineer, Aircraft Certification Program, Room 238, Terminal Building 2299, Mid-Continent Airport, Wichita, Kansas 67209; Telephone (316) 942–4219.

SUPPLEMENTARY INFORMATION: The FAA has determined that a cast acrylic window failed so as to cause decompression of 17 airplanes which had reportedly or presumably been inspected in accordance with AD 77–23–07. During two of these failures, window fragments hit and slightly injured the occupant who was seated next to the window when it failed. The FAA has determined that inspection criteria and inspection intervals of AD 77–23–07 are inadequate. More stringent and more frequent inspections are required by the following new AD. As before, required inspections may be discontinued for an airplane when the Aircraft Maintenance Record clearly shows that each cast acrylic cabin and cockpit side window in the airplane has been replaced with a stretched acrylic window. Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new Airworthiness Directive.

Beech: Applies to the following models and serial numbers of airplanes certificated in any category unless the Aircraft Maintenance Record clearly shows that each cast acrylic window has been replaced with a stretched acrylic window of the Beech Part Number specified in Paragraph C of this AD.

Models	Serial numbers
65–88	LP–1 through LP–26, LP–28 and LP–30 through LP–47.
65–90, 65–A90, B90 and C90.	LJ–1 through LJ–660.
E90	LW–1 through LW–178.
100 and A100	B–1 through B–226.
B100	BE–1 through BE–6.

COMPLIANCE: Required as indicated unless already accomplished. To

prevent decompression and possible injury caused by failure of a cast acrylic window, accomplish the following in accordance with Revision III of Beechcraft Service Instructions Number 0711–110, hereinafter called said instructions:

(A) Visually inspect each cast acrylic window in accordance with said instructions at the following times:

1. Initially, within 50 hours time-in-service after the effective date of this AD, and

2. Repetitively, within each 50 hours time-in-service for each window previously found to have mild star crazing as defined by said instructions, and

3. Repetitively, within each 300 hours time-in-service for a window previously found to be free of all defects defined by said instructions, and

4. Within 50 hours time-in-service after any stripping and repainting in the area of the window, and

5. No later than 1 year after the last previous inspection.

(B) Polish away each minor scratch in accordance with said instructions. Inspect in accordance with Paragraph A of this AD after this polishing is accomplished.

(C) Prior to next flight after each required inspection, replace each window that is found to have any crack, fissure, stress craze, or scratch not polished away per Paragraph, B, above. Use procedures in said instructions to install a stretched acrylic window of a Beech Part Number specified below.

Window	Beech part number
Round, cabin area	50–420013–1053.
Oval, baggage area	50–440014–837 or –838.
Cockpit, side, standard	50–420066–317 or –318.
Cockpit, side, oversize	50–420066–353 or –354.

(D) Make an appropriate entry in the Aircraft Maintenance Record which, along with previous entries, clearly shows each location at which a stretched acrylic window has been installed.

(E) Compliance specified in Paragraphs A, B and C of this AD is not required if the pressurization system is deactivated as follows, and the aircraft is operated in accordance with this limitation:

1. Secure the "Test/Dump" switch in the "Dump" position, and

2. Fabricate a placard, "Cabin Pressurization Prohibited" of 3/16-inch or larger letters and install it on the control panel adjacent to pressurization system controls, and

3. Insert a copy of this AD in the "Limitations" section of the airplane flight manual.

4. Make an appropriate entry in the Aircraft Maintenance Record showing compliance with this paragraph. The provisions of this paragraph may be accomplished by the holder of at least a private pilot certificate issued under Part 61 of the Federal Aviation Regulations on any airplane owned or operated by that person, provided the airplane is not used in air carrier service.

(F) Aircraft may be flown unpressurized to a location where the inspections/repairs required by this AD can be performed.

(G) Any equivalent method of compliance with this AD must be approved by the Chief, Aircraft Certification Program, Federal Aviation Administration, Room 238, Terminal Building 2299, Wichita, Kansas 67209; Telephone (316) 942–4285.

This AD supersedes AD 77–23–07, Amendment 39–3082.

This Amendment becomes effective June 11, 1981.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Beech Aircraft Corporation, 9709 East Central, Wichita, Kansas 67201. These documents may also be examined at FAA, Central Region Office, 601 East 12th Street, Kansas City, Missouri 64106, and at FAA Headquarters, 800 Independence Avenue, SW., Washington, D.C. A historical file on this AD which includes the incorporated material in full is maintained by the FAA at its headquarters in Washington, D.C., and at the Central Region in Kansas City, Missouri.

(Secs. 313(a), 601 and 603 of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1354(a), 1421 and 1423); Sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)); Sec. 11.89 of the Federal Aviation Regulations (14 CFR Sec. 11.89))

Note.—The FAA has determined that this regulation is an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it, when filed, may be obtained by contacting the person identified under the caption "For Further Information Contact."

This rule is a final order of the Administrator under the Federal Aviation Act of 1958, as amended. As such, it is subject to review only by the courts of appeals of the United States, or the United States Court of Appeals of the District of Columbia.

Issued in Kansas City, Missouri, on May 26, 1981.

James O. Robinson,

Acting Director, Central Region.

BILLING CODE 4910–13–M

---

14 CFR Part 39

[Docket No. 81–NE–08; Amdt. 39–4124]

Airworthiness Directives; Sikorsky S–62 Helicopters

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: On March 16, 1981, an emergency airworthiness directive (AD), No. T81–06–53, was issued requiring a daily visual inspection, a periodic dye penetrant inspection, and the removal of defective rotor brake discs. This is required to prevent operation with cracked rotor brake discs. The AD is now being published in the **Federal Register** as an amendment to the Federal Aviation Regulations.

DATES: Effective June 4, 1981. Compliance schedule—As prescribed in text of AD.

ADDRESSES: To obtain copies of the Alert Service Bulletin, referenced in the AD, contact Manager, Technical Services, Commercial Customer Service, Sikorsky Aircraft Division, North Main Street, Stratford, Connecticut 06602. A copy of the Alert Service Bulletin is contained in the Rules Docket, Office of the Regional Counsel, New England Region, 12 New England Executive Park, Burlington, Massachusetts 01803.

FOR FURTHER INFORMATION CONTACT: Bernard Schaffer, Systems Section, ANE–213, Engineering and Manufacturing Branch, Flight Standards Division, Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Massachusetts 01803, telephone: (617) 273–7332.

SUPPLEMENTARY INFORMATION: The emergency airworthiness directive was adopted and made effective to all known United States operators of Sikorsky S–62 helicopters on March 16, 1981. It was required as the result of an in-flight failure of a rotor brake disc.

This condition still exists, and this AD is now being published in the **Federal Register** as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations.

Since a situation exists that requires immediate adoption of the regulation, it is found that notice and public

procedure hereon are impracticable, and good cause exists for making this amendment effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new AD:

SIKORSKY AIRCRAFT DIVISION: Applies to S–62 Series helicopters, certificated in all categories, equipped with P/N S6235–20213 (Goodyear 9430301) rotor brake disc.

Compliance required as indicated, unless previously accomplished:

A. To prevent operation with cracked rotor brake discs, accomplish the following:

(1) Prior to the next flight and prior to the first flight of each day thereafter, visually inspect the rotor brake disc for cracks in accordance with Paragraph E(1) of Sikorsky Alert Service Bulletin 62B35–12.

(2) Within the next 10 flight hours, and every 120 flight hours thereafter, do a detailed inspection of the rotor brake disc installation and a dye penetrant inspection of the rotor brake disc for possible cracks, in accordance with Paragraph E(2) of Sikorsky Alert Service Bulletin 62B35–12.

(3) If crack indications exist, replace the disc in accordance with the applicable Sikorsky S–62 Maintenance Manual, and resume inspections per Paragraphs A(1) and A(2) above.

B. To prevent grounding of helicopters due to nonavailability of serviceable rotor brake discs, the rotor brake system may be temporarily deactivated as follows:

(1) Remove rotor brake cylinder (with bracket) and disc from main gearbox per applicable Sikorsky S–62 Maintenance Manual. Cap and clamp lines.

(2) Placard cockpit to indicate that rotor brake system is not operational.

(3) Rotor brake systems may be reactivated, as soon as serviceable discs are available, by reinstalling cylinder, bracket, and disc in accordance with the applicable Sikorsky S–62 Maintenance Manual. Remove placard from cockpit, and resume inspections per Paragraphs A(1) and A(2) above.

C. Report within 24 hours any discrepancies found to the Chief, Engineering and Manufacturing Branch, Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Massachusetts 01803.

D. Upon request of the operator, an equivalent means of compliance with the requirements of this AD may be approved by the Chief, Engineering and Manufacturing Branch, FAA, New England Region.

Reporting approved by the Office of Management and Budget under OMB No. 04–R0174.

Note.—Sikorsky Alert Service Bulletin No. 62B35–12, dated March 12, 1981, applies to this AD.

The manufacturer's Alert Service Bulletin and Maintenance Manual identified and described in this directive are incorporated herein and made a part thereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Manager, Technical Services, Commercial Customer Service, Sikorsky Aircraft Division, North Main Street, Stratford, Connecticut 06602. These documents may also be examined at Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Massachusetts 01803 and FAA Headquarters, 800 Independence Avenue, S.W., Washington, D.C. 20591.

This amendment becomes effective June 4, 1981, except for recipients of the Emergency AD, dated March 16, 1981, for whom it became effective upon receipt.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89)

The FAA has determined that this regulation is an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it, when filed, may be obtained by contacting the person identified under the caption "For Further Information Contact."

This rule is a final order of the Administrator under the Federal Aviation Act of 1958, as amended. As such, it is subject to review only by the courts of appeals of the United States, or the United States Court of Appeals of the District of Columbia.

Issued in Burlington, Massachusetts, May 22, 1981.

Robert E. Whittington,

Director, New England Region.

[FR Doc. 81–16822 Filed 6–3–81; 8:45 am]

BILLING CODE 4910–13–M

14 CFR Part 71

[Airspace Docket No. 81–SO–25]

Designation of Federal Airways, Area Low Routes, Controlled Airspace, and Reporting Points; Redesignation of Control Zone, Greenville, South Carolina

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment redesignates the Greenville, South Carolina, control zone, from part-time with regular hours to part-time with irregular hours and corrects the airport name to Greenville Downtown Airport. This redesignation provides the capability of making minor changes in the effective control zone hours by issuance of a Notice to Airmen.

EFFECTIVE DATE: 0901 GMT, August 6, 1981.

FOR FURTHER INFORMATION CONTACT: Eleanor J. Williams, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone: (404) 763–7646.

SUPPLEMENTARY INFORMATION:

History

In Subpart F, § 71.171 (46 FR 455), Part 71 of the Federal Aviation Regulations (14 CFR Part 71) the Greenville, South Carolina, control zone is designated as part-time, 0700 to 2300 hours, local time, daily. This conforms with the present Greenville Downtown Airport Traffic Control Tower (ATCT) hours of operation.

Due to declining aircraft activity, on July 1, 1981, the ATCT hours of operation will be reduced to 0700 to 2200 hours, local time, daily. Since weather observations and two-way radio communications are provided by the ATCT, it is necessary to change the effective hours of the control zone to coincide with those of the ATCT. The capability of changing the effective hours of the control zone by a Notice to Airmen is provided by this amendment when minor variations in time are anticipated to conform with seasonal trends in aircraft activity.

Since the aforementioned action will have minimal impact upon the user, it is found that notice and public procedure hereon are impracticable and contrary to the public interest.

The Rule

This amendment to Part 71 of the Federal Aviation Regulations redesignates the Greenville, South

Carolina, control zone from part-time with regular hours to part-time with irregular hours and corrects the airport name in the control zone description.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, § 71.171, Subpart F, of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) (46 FR 455) is further amended, effective 0901 GMT, August 6, 1981, as follows:

Greenville, S.C.

"• • • Greenville Municipal Downtown Airport • • •" is deleted and "• • • Greenville Downtown Airport • • •" is substituted therefor; and "• • • effective from 0700 to 2300 hours, local time, daily • • •" is deleted and "• • • This control zone is effective during the specific dates and times established in advance by Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory • • •" is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a major rule under Executive Order 12291; (2) is not a significant rule under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal; and (4) will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

This action involves only a small alteration of navigable airspace and air traffic control procedures over a limited area.

Issued in East Point, Georgia, on May 26, 1981.

George R. LaCaille,

Acting Director, Southern Region.

James B. Lansing Sound, Inc.; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Modifying order.

SUMMARY: This order, among other things, reopens the proceeding and modifies the order issued by the Commission on August 24, 1970, 77 F.T.C. 1165, 35 FR 15807, by replacing Paragraph I(2) of the original order with one containing additional language which permits the firm to establish lawful, reasonable and non-discriminatory minimum standards for its dealers, and to withhold its products from dealers who fail to maintain those standards.

DATES: Final order issued Aug. 24, 1970. Modifying order issued May 20, 1981.[1]

FOR FURTHER INFORMATION CONTACT: FTC/CC, Elliot Feinberg, Washington, D.C. 20580, (202) 376-2863.

SUPPLEMENTARY INFORMATION: In the Matter of James B. Lansing Sound, Inc. The prohibited trade practices and/or corrective actions, as codified under 16 CFR Part 13, and appearing in 35 FR 15807, remain unchanged.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45)

The Reopening and Modification of Order is as follows:

By petition of April 10, 1981, respondent James B. Lansing Sound, Inc. ("JBL") requests that Paragraph I(2) of the Commission's order issued against JBL on August 24, 1970 be modified so that the order would no longer prohibit JBL from establishing performance standards for sellers of its loudspeakers. Pursuant to section 2.51 of the Commission's Rules of Practice the petition was placed on the public record for comment. Attorneys for Best Products Co., Inc. filed the only comment requesting that the Commission deny JBL's petition.

JBL had previously petitioned the Commission to modify the consent order; the Commission denied this petition by order dated August 29, 1978. The Commission found that although there had been a change of law since the order was issued the petition had made an inadequate showing of the need for the requested relief.

Upon consideration of JBL's petition and supporting materials and the public comment, the Commission now finds that JBL has a very small market share and that JBL would likely suffer significant competitive injury unless the order is modified. Further the Commission notes that the proposed modification relates only to a nonprice vertical restraint that the Commission's complaint had not alleged to be a reinforcing mechanism for resale price fixing. For these reasons the Commission has determined that the order should be modified.

Accordingly, it is ordered, That the proceeding be, and it hereby is, reopened.

It is further ordered, That the order to cease and desist be, and it hereby is, modified by substituting the following for Paragraph I(2).

2. Preventing or prohibiting any independent dealer or distributor from reselling his products to any person or group of persons, business or class of businesses, except as expressly provided herein. This order shall not prohibit James B. Lansing Sound, Inc. from establishing lawful, reasonable, and non-discriminatory minimum standards for its dealers, including standards that relate to promotion and store display, demonstration, inventory levels, service and repair, volume requirements and financial stability; nor shall this order prohibit respondent from requiring its dealers who sell JBL products for resale to make such sales only to dealers who maintain such minimum standards.

By direction of the Commission.
Commissioner Pertschuk did not participate.
Commissioner Bailey voted in the negative.

Carol M. Thomas,

Secretary.

[1] Filed as part of the original document.

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Parts 1031 and 1032

Voluntary Standards Activities; Modification of Policy

AGENCY: Consumer Product Safety Commission.

ACTION: Final rule.

SUMMARY: The Commission is issuing modifications to its policy concerning association with voluntary standards development groups. These modifications deal primarily with procedural matters such as the frequency of staff reports on voluntary standards, meetings with voluntary standards development groups and terms used to describe the levels of involvement with voluntary standards groups.

EFFECTIVE DATE: These modification take effect July 6, 1981.

FOR FURTHER INFORMATION CONTACT: Bert Simson, Director, Office of Program Management, Consumer Product Safety

Commission, Washington, D.C. 20207, (301) 492–6554.

SUPPLEMENTARY INFORMATION:

Commission policy statements concerning voluntary safety standards and involvement of Commission staff with voluntary standards development groups reflect the Commission's belief that voluntary standards can significantly contribute to the Commission's goal of reducing hazards associated with consumer products. In 1978, the Commission published guidelines and requirements at 16 CFR 1031 entitled Employee Membership and Participation in Voluntary Standards Organizations, which set forth the criteria for staff involvement with voluntary standards groups. A Commission statement of policy and procedure at 16 CFR 1032, entitled Commission Involvement in Voluntary Standards Activities, describes the extent and form of Commission involvement in these activities and how these affect Commission programs.

The Commission has had considered experience with voluntary standards efforts and groups since these statements became effective and believes that some modifications would make the program more effective and efficient. Consequently, on November 19, 1980 (45 FR 76447), the Commission proposed the following:

(1) Program managers may occasionally attend meetings of voluntary standards development groups with which Commission staff may be involved for the purpose of providing guidance based on program needs; (2) to avoid confusion, the descriptions of levels of Commission staff involvement with voluntary standards development groups is changed, although the extent of substantive involvement is unchanged; (3) preparation of staff reports to the Commission on staff involvement with voluntary standards development is changed from quarterly to semiannually because experience shows that semiannual reports would be sufficiently informative.

The Commission received comments from four persons on these proposed revisions. A summary of the proposed revisions, the rationale underlying the proposed revisions and a discussion of the comments received follows.

(1) Occasional attendance of program managers at meetings.

Current regulations provide that program managers are among Commission employees who may not take part in voluntary standards development efforts unless the Commission permits such participation on a case-by-case basis. The Commission was concerned that a conflict of interest could occur if program managers, responsible for making recommendations to the Commission about voluntary standards, were to take part in those activities. Such conflicts, however, have not, in fact, materialized. This may be due, in part, to the fact that there is no inconsistency between the two functions and, in part, due to the higher levels of review to which recommendations of program managers are subject. These higher levels of review will not be specifically referred to in the modifications issued below.

This change is warranted by the Commission's experience over the past several years with the attendance of program managers at occasional meetings of voluntary standards development groups, in which Commission technical staff members have been involved. Occasional attendance by program managers has helped focus deliberations of voluntary standards groups and speed up the development process. By the nature of their work, program managers deal with multidisciplinary coordination of the staff's technical skills within current Commission projects. Thus, at critical junctures in the development of voluntary standards, program managers are in a position to communicate Commission policy on all aspects of a project and to assess whether timely progress within the context of Commission policy is taking place.

Based on this experience, the Commission proposed modifying § 1031.5(b)(4) by providing that: "with advance approval by the Executive Director, to be provided on a case-by-case basis, program managers may occasionally, not regularly, attend meetings of voluntary standards development groups in order to provide the program context for the voluntary standards development efforts with which Commission technical employees may be involved." Further, the Commission proposed that § 1031.5(i), as set forth below, provide that any recommendations made by a program manager concerning voluntary standards be reviewed by higher level Commission employees.

There were two comments on this section. One commenter suggested that one senior staff manager should be responsible for deciding which activities should be initiated and attended and that Program Managers should regularly attend meetings of voluntary standards organizations.

The Commission believes that when there is CPSC involvement in a voluntary standards effort, technical staff, as opposed to program managers, should attend most of the meetings of voluntary standards development groups since most of the deliberations are of a technical nature. Program Managers should concentrate their efforts on meetings where Commission policy and work progress are discussed. With regard to the suggestion that one senior manager make decisions about initiating and attending voluntary standards meetings, it is now the practice for senior management to make such decisions, except for the decision to "participate" in a voluntary standards activity, which can only be made by the Commission. The decision to "monitor" a voluntary standards activity can be made only by the Executive Director. Once those decisions are made, however, and there is an ongoing voluntary standard monitoring or participation activity, decisions about who should attend which meetings are made by the appropriate Program Managers in conjunction with the Director of the Office of Program Management (OPM) and the Executive Director.

(2) Terms to describe levels of CPSC staff involvement with voluntary standards development groups.

In the past, the Commission has used three terms to describe Commission involvement in voluntary standards activities. In ascending order of involvement, these are liaison, monitoring and participating. Liaison has been used to describe a minimal form of involvement which consisted of providing voluntary standards groups with Commission materials and maintaining some contact with them. Monitoring was used to describe closer contact, including attendance at meetings and staff review of meeting minutes and draft voluntary standards. Participation involved regular attendance of CPSC staff, as nonvoting members, at voluntary standards development meetings and active involvement of staff in technical committee deliberations. In addition to the expenditure of staff time, participation sometimes involves the expenditure of resources for research, engineering support or information and education programs for certain voluntary standards efforts. The initial decision to participate in a voluntary standard development effort always required a vote of the Commission. Liaison and monitoring could be undertaken upon approval of the Executive Director.

Experience has shown that the critical factor distinguishing the levels of

Commission involvement in voluntary standards activities is the expenditure of staff time and resources. There is a distinction then between participation (which involves significant Commission resources) and the two other levels, monitoring and liaison (which do not). There is no real distinction between liaison and monitoring. Because the terms are so closely related and do not by themselves differentiate the extent of staff involvement, the Commission proposed that these two terms be combined under one term. Accordingly, the Commission proposed to modify section 1032.2(b) to combine present descriptions of liaison and monitoring into one term, monitoring. The term participation is unchanged and the decision to participate in a voluntary standards effort still requires Commission approval; the decision to monitor can be made by the Executive Director.

One commenter suggested changing the terms "monitoring" to "participating" and "participating" to "supporting" because he believes that these terms accurately describe the Commission's voluntary standards activities.

Based on staff experience in the area, the Commission believes that the critical change that needs to be made is to reduce the descriptive levels of the Commission's involvement in the voluntary standards from three to two, because descriptions of additional levels are not meaningful. The important distinction that needs to be made is between the level that involves significant staff time or expenditure of resources and the level that does not. Reducing the number of terms to two makes that distinction more precise. Rather than introducing a new term to describe either of the two levels, staff believes that using terms with which the public is already familiar will result in greater understanding of the change. Moreover, introduction of a new term, "supporting," as suggested, could be misleading since the Commission is always supportive of voluntary efforts to increase the safety of products.

The Commission therefore modifies section 1032.2, as proposed and set forth below.

(3) Frequency of reports on voluntary standards activities.

The Commission proposed revising section 1032.2(c) to require semiannual rather than quarterly reports on voluntary standards activities. Experience has shown that quarterly reports are not needed to keep the Commission abreast of voluntary standards activities. The Commission is informed about the voluntary standards efforts in which the staff is participating actively within the context of ongoing hazard programs; quarterly reporting on other efforts tends to be repetitive and provides little new or useful information. Twice-yearly reports can keep the Commission adequately informed.

Two commenters believe that the reports should continue to be prepared quarterly. One commenter states that semi-annual reporting "may be contrary to the recommendations being developed by the Department of Commerce in implementing the provision of OMB Circular A–119 regarding the establishment of a central register of all voluntary standards activities in which Federal agencies are involved." Whether the recommendations for the implementation of OMB A–119 will call for quarterly reporting is not known, but since the Commission has found that semi-annual reports are sufficient to keep the agency informed about voluntary standards activities, it believes that such reports will be adequate for the purposes of the Department of Commerce. Accordingly, the Commission concludes that section 1032.2(b) should be revised as proposed and set forth below.

There were other comments filed on the subject of voluntary standards generally rather than on the three revisions to the policy being proposed. One commenter questioned statements in the "Supplementary Information" section of the **Federal Register** notice of November 19, 1980, which described the way the Commission's Division of Voluntary Standards was formerly organized. The commenter believes the statement "formerly a discrete staff unit dealt with voluntary standards development activities as such, rather than regarding such activities as integral parts of ongoing Commission programs" is inaccurate and unfair. What that statement intended to convey was that until recently, voluntary standards activities were supervised by a manager within the Office of Program Management who coordinated such activities across hazard program lines. These responsibilities are now shared by seven program managers, each responsible for a particular hazard area. Voluntary standards now stand alongside mandatory standards activities as integral parts of ongoing Commission hazard programs.

Several commenters suggested that the Commission follow more closely OMB Circular A–119. OMB Circular A–119, entitled "Federal Participation in the Development and use of Voluntary Standards," was issued on January 17, 1980. The Circular seeks to establish a policy of relying on voluntary standards with respect to Federal procurement, whenever feasible, and encourages the participation of federal agencies in voluntary standards bodies which conduct their activities in accordance with specified due process and other criteria. The Circular also seeks to facilitate the coordination of federal agency participation in voluntary standards. As an independent federal agency, the Commission is not bound by the provisions of OMB Circular A–119. CPSC has, nonetheless, commented extensively on the Circular and agrees with its purpose. Consistent with its own mandate, the Commission will continue to adhere to the principles the Circular intends to further and believes its policy with regard to voluntary standards is consistent with the spirit and intent expressed in A–119.

There were several other comments concerning the importance of participation and representation of federal agencies on voluntary standards generating committees and the general comment that the Commission's proposed revisions evidence a reduction of interest in voluntary safety standards. The Commission concludes that these proposed revisions demonstrate a continuing commitment to a program that will efficiently and effectively further the use of voluntary standards whenever they can aid the Commission in its effort to reduce unreasonable risk of injury and death from consumer projects.

Conclusion

After considering the four comments, and the opinion of the Commission's staff on the proposed revisions to the voluntary standards policy, the Commission finds that the proposed revisions are in the public interest and will further the work of the Commission with voluntary standards development groups. Therefore, under the Consumer Product Safety Act, 15 U.S.C. 2051 et seq., the Commission amends Part 1031 and Part 1032 of Title 16, Chapter II, Subchapter A, as follows:

1. Section 1031.5 is amended by revising paragraphs (b)(4) and (i) to read as follows:

§ 1031.5 Participation criteria.

(a) * * *

(b) * * *

(4) Programs Managers in the Office of Program Management except that: with advance approval of the Executive Director, to be provided on a case-by-case basis, program managers may occasionally, not regularly, attend

meetings of voluntary standards development groups in order to provide the program context for the voluntary standard development efforts with which Commission technical employees may be involved.

* * * * *

(i) Commission employees who monitor or participate in the development of a voluntary standard, and who later participate in an official capacity in the evaluation of that standard, shall describe clearly in their evaluation of that standard the extent of their involvement in its development. Any evaluation or recommendation shall be reviewed by higher-level commission employees.

* * * * *

2. Section 1032.2(b) is amended by changing the word "three" to "two" in the third sentence, by revising and combining paragraphs (b)(1) and (b)(2) into paragraph (b)(1), and by renumbering paragraph (b)(3) as (b)(2) as follows:

§ 1032.2 Extent and form of Commission involvement in the development of voluntary standards.

* * * * *

(b) [Amended]

* * * * *

(1) Monitoring. Monitoring involves maintaining an awareness of the voluntary standards development process through oral or written inquiries, receiving and reviewing minutes of meetings and copies of draft standards, and attending meetings for the purpose of observing and commenting during the standards development process. For example, monitoring involves responding to requests from voluntary standards organizations, standards development committees, trade associations and consumer organizations, by providing information concerning the risks of injury associated with particular products, NEISS data, summaries and analyses of in-depth investigation reports; discussing Commission goals and objectives with regard to voluntary standards and improved consumer product safety; responding to requests for information concerning Commission programs; and initiating contacts with voluntary standards organizations to discuss cooperative voluntary standards activities.

(2) Participating. * * *

* * * * *

3. Section 1032.3 is amended by revising paragraphs (a) and (c) to read as follows:

§ 1032.3 Determination of Commission involvement in voluntary standards activities; summary of activities.

(a) The Executive Director shall approve Commission activities that are within the definition of "monitoring."

* * * * *

(c) The Office of Program Management is responsible for preparing a semiannual summary of such activities for the Commission. The summary shall set forth, among other things, voluntary standards meetings attended, dates of the meeting, staff members in attendance, location of the meetings, the status of the CPSC involvement, and the extent to which each of the criteria set out in section 1032.5 for staff participation is being met for each proceeding.

Dated: May 29, 1981.

DEPARTMENT OF JUSTICE

Office of the Attorney General

28 CFR, Part 0

[Order No. 947-81]

Delegation of the Attorney General's Authority

AGENCY: Department of Justice.

ACTION: Final rule.

SUMMARY: This order delegates to the Assistant Attorney General in charge of the Land and Natural Resources Division authority to approve conveyances made or accepted by the Secretary of the Interior on behalf of the United States pursuant to authority granted in the Act of June 4, 1934, 48 Stat. 836. The effect of this delegation is to reassign to the Assistant Attorney General, Land and Natural Resources Division, the approval authority granted to the Attorney General by the Act of June 4, 1934, 48 Stat. 836. This delegation will provide efficient and effective management and coordination of the Department's authority under the Act of June 4, 1934, 48 Stat. 836.

EFFECTIVE DATE: May 26, 1981.

FOR FURTHER INFORMATION CONTACT: James T. Draude, Trial Attorney, General Litigation Section, Land and Natural Resources Division, Department of Justice, Washington, D.C. 20530 (202/633-3796).

SUPPLEMENTARY INFORMATION: This order deals with agency management; therefore, it is not required to be, and has not been, published in proposed form for comment under 5 U.S.C. § 553(b); it is not a rule within the meaning of, or subject to, the Regulatory Flexibility Act, 5 U.S.C. § 601, *et seq.;* and it is not a rule within the meaning of, or subject to, Executive Order No. 12291 ("Federal Regulation").

Accordingly, by virtue of the authority vested in me as Attorney General by 5 U.S.C. § 301 and 28 U.S.C. § 510, Part 0 of Title 28, Code of Federal Regulations, is hereby amended by adding a new § 0.69a to read as follows:

§ 0.69a Delegation respecting approval of conveyances

The Assistant Attorney General in charge of the Land and Natural Resources Division, and such members of his staff as he may specifically designate in writing, are authorized to exercise the power and authority vested in the Attorney General by the Act of June 4, 1934, 48 Stat. 836, with respect to approving the making or acceptance of conveyances by the Secretary of the Interior on behalf of the United States.

Dated: May 26, 1981.

William French Smith,

Attorney General.

[Order No. 946-81]

Procurement Matters; Editorial Amendment

AGENCY: Department of Justice.

ACTION: Final rule.

SUMMARY: This order sets forth the functions of the Contract Review

Committee, which was created by an internal order on January 16, 1981. The procurement authority previously conferred upon the Assistant Attorney General for Administration and the bureaus will be limited to the extent that certain procurement activities will be subject to the review of the Committee.

EFFECTIVE DATE: May 26, 1981.

FOR FURTHER INFORMATION CONTACT: William L. Vann, Executive Secretary, Contract Review Committee, Office of Personnel and Administration, Justice Management Division, Department of Justice, Washington, D.C. 20530 ((202) 724–7837).

SUPPLEMENTARY INFORMATION: This rule pertains to agency management and contracts. It is not a rule within the meaning of or subject to the requirements of either Executive Order No. 12291 ("Federal Regulation") or the Regulatory Flexibility Act, 5 U.S.C. § 601 *et seq.*

By virtue of the authority vested in me as Attorney General by 28 U.S.C. 509 and 510, and 5 U.S.C. 301, § 0.139 of Title 28 of the Code of Federal Regulations is revised as follows:

§ 0.139 Procurement matters.

The following shall control as to procurement matters:

(a) Except as to those matters designated by the Assistant Attorney General for Administration, to whom the responsibility for control of expenditures is assigned by Subpart O, the Director of the Federal Bureau of Investigation, the Director of the Bureau of Prisons, the Commissioner of the Federal Prison Industries, the Commissioner of the Immigration and Naturalization Service, the Administrator of the Drug Enforcement Administration, the Director of the Office of Justice Assistance, Research and Statistics and the Director of the U.S. Marshals Service are, as to their respective jurisdictions, authorized to exercise the authority vested in the Attorney General by law with respect to procurement matters. The Department of Justice Contract Review Committee will review contracts, prior to award, as specified in paragraph (b) of this section, except that contracts of the Federal Bureau of Investigation shall be reviewed within that Bureau.

(b) The Department of Justice Contract Review Committee is established for the purpose of providing a review of proposed contract awards to ensure compliance with procurement statutes, established regulations, and Department of Justice procurement policies and procedures. Contract review shall be limited to:

(1) Noncompetitive sole-source contracts and modifications or amendments to contracts, including such contracts pertaining to automatic data processing equipment, supplies, services or maintenance, which exceed $50,000.

(2) Formal contracts, regardless of contract type, exceeding $100,000 and contract modifications or amendments to existing formal contracts which cause the total contract costs to exceed $100,000.

(3) Other unusual or difficult contracts that are of a potentially controversial nature as identified by either the procurement office supporting the organizational component or the Contract Review Committee based on information which has come to the Committee's attention.

(c) The Assistant Attorney General for Administration is authorized to postaudit and correct any procurement transactions throughout the Department entered into pursuant to the delegation of authority set forth in paragraph (a) of this section, and to inspect at any time the procurement operations of the Federal Bureau of Investigation, the Bureau of Prisons, the Federal Prison Industries, the Immigration and Naturalization Service, the Drug Enforcement Administration and the U.S. Marshals Service.

Dated: May 26, 1981.

William French Smith,

Attorney General.

[FR Doc. 81–16003 Filed 6–3–81; 8:45 am]

BILLING CODE 4410–01–M

DEPARTMENT OF THE INTERIOR

Geological Survey

30 CFR Part 250

Royalty on Unprocessed Gas; Rule Intent

AGENCY: U.S. Geological Survey, Interior.

ACTION: Clarification of the intent of the revised 30 CFR 250.66, in part, and related Notice to Lessees and Operators (NTL).

SUMMARY: The qualifying remarks issued herein are a further interpretation of the intent of the revised 30 CFR 250.66, in part, and its companion NTL as related to royalty on injected gas or liquids.

FOR FURTHER INFORMATION CONTACT: Price McDonald, Branch of Offshore Field Operations, Conservation Division, U.S. Geological Survey, Mail Stop 640, Reston, Virginia 22092, Telephone (703) 860–6831.

SUPPLEMENTARY INFORMATION: Principal author: Price McDonald, Branch of Offshore Field Operations, Conservation Division, U.S. Geological Survey, Mail Stop 640, Reston, Virginia 22092, Telephone (703) 860–6831. In the **Federal Register** issue of April 2, 1981 (Vol. 46, No. 63, page 19935), an erratum notice served to change the regulation 30 CFR 250.66 such that the second sentence would read as follows:

> Royalty is not due on gas or liquids produced from, and reinjected to, a reservoir within the same lease or unit until such time as they are finally produced from a reservoir.

In the **Federal Register** issue of April 17, 1981 (Vol. 46, No. 74, page 22468), a Final Revision to Notice to Lessees and Operators (NTL) provided supplementary information to point out through a discussion on custody transfer that the NTL in effect should be read and interpreted the same as the regulation. The summary statement read as follows:

> This revision is being made to eliminate language that now permits gas and liquids that are to be used for reinjection to be used for such purposes outside a lease or unit area.

The above changes were brought about by questions involving different royalty rates within a field, following the revision of the regulation 30 CFR 250.66 and the issuance of a companion NTL, published in the **Federal Register** December 11, 1980 (Vol. 45, No. 240, pages 81562–63 and 81669–71).

Since the April 1981 changes and discussion, additional questions have arisen regarding interpretation. These late questions have centered about the matter of using produced gas and/or associated liquids for improved recovery purposes by producing and injecting on contiguous leases without unitizing. In such cases, the usual question has been "could the royalty payment on the produced gas or associated liquids be delayed until ultimately produced for sale?"

The answer is "yes" with certain qualifications, as follows:

(1) The injection project must be approved by the appropriate Deputy Conservation Manager with due consideration to adequate and proper measurement facilities.

(2) Production and injection of gas and/or associated liquids must be within the same field as defined by the Deputy Conservation Manager.

(3) The project, when crossing lease or unit lines, must have a common operator with full control and responsibility for operations.

(4) The project reservoirs, when involving multiple OCS leases with different royalty rates, must be unitized.

(5) The project reservoirs, when involving state leases, must be unitized.

The above remarks are set forth to further interpret the regulation 30 CFR 250.66, in part, and its companion NTL, as issued and in effect currently. The intent of the regulation and NTL is to cause royalty to be due when produced, for gas and/or associated liquids that are to be used for injection purposes outside a lease or unit area, when the above qualifications are not met.

Dated: May 29, 1981.

Robert L. Rioux,

Deputy Division Chief, Offshore Minerals Regulation Conservation Division.

Coast Guard

33 CFR Part 25

[CGD 80-033]

Claims Regulations

Correction

In FR Doc. 81-14567, appearing in the issue of Monday, May 18, 1981 at page 27107, make the following changes:

1. On page 27109 in the table of contents to Part 25, in Subpart B the 2d entry now reading "25.203 Claims not payable." should be changed to read "25.205 Claims not payable."
2. The entries in Subpart C of the table of contents should be changed to read "25.301" and "25.303".
3. In § 25.105 under the paragraph beginning "*Claim*", the third line now reading "the payment of a certain sum of money," should be changed to read "the payment of a sum certain of money,".

BILLING CODE 1505-01-M

33 CFR Part 165

[CGD 8-81-801]

Safety Zone; Mississippi River Gulf Outlet

AGENCY: Coast Guard, DOT.

ACTION: Interim final rule.

SUMMARY: The Coast Guard is amending its Safety Zone Regulations, 33 CFR 165, by establishing a safety zone in the Mississippi River Gulf Outlet (MRGO), The Michoud Slip, and the Inner Harbor Navigation Canal (IHNC). As the number and size of the vessels utilizing the MRGO increases, so does the need to coordinate their movements to minimize the possibility of environmental or economic harm befalling the Port of New Orleans as a result of a collision. This Safety Zone is being established to prevent larger vessels from having dangerous meeting situations between the seaward entrance and LT 62 of the MRGO. These regulations are published as interim final rules instead of proposed rules due to the hazardous condition currently existing in the MRGO.

DATE: Effective date: June 4, 1981.

COMMENT DATE: Comments must be received by July 20, 1981.

ADDRESS: Comments shall be submitted to the Captain of the Port, U.S. Coast Guard, 4640 Urquhart Street, New Orleans, Louisiana 70117. The comments will be available for inspection or copying at the Captain of the Port Office, Room A-104. Normal working hours are between 7:00 a.m. and 3:30 p.m., Monday through Friday, except holidays. Comments may be hand delivered to this address.

FOR FURTHER INFORMATION CONTACT: LCDR G. J. E. Thornton, Port Safety Officer or LTJG M. R. Beskeen, Waterways Safety Officer, c/o U.S. Coast Guard, Captain of the Port, 4640 Urquhart Street, New Orleans, Louisiana 70117, Telephone (504) 589-7108.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this rulemaking by submitting written views, data or arguments. Persons submitting comments should include their names, addresses, identify the notice (CGD 8-81-801) and the specific section of the interim rule to which their comments apply, and give the reasons for each comment. Receipt of comments will be acknowledged if a stamped, self-addressed post card or envelope is enclosed. The rules may be changed in light of comments received. All comments received before the expiration of the comment period will be considered before final action is taken. No public hearing is planned, but one may be held if a written request for a hearing is received and it is determined that the opportunity to make oral presentations will aid the rulemaking process.

DRAFTING INFORMATION: The principal persons involved in the drafting of this rulemaking are LCDR G. J. E. Thornton, Port Safety Officer and LTJG M. R. Beskeen, Waterways Safety Officer, U.S. Coast Guard, Captain of the Port, 4640 Urquhart Street, New Orleans, Louisiana 70117, Tel. (504) 589-7108. The project attorney is LCDR R. A. Brunell, c/o Commander, Eighth Coast Guard District (d1), Hale Boggs Federal Building, 500 Camp Street, New Orleans, Louisiana 70130, Tel. (504) 589-6188.

DISCUSSION OF RULE: The MRGO was authorized by PL 455 and approved March 1956, as a feature of the project "Mississippi River, Baton Rouge to Gulf of Mexico". It consists of a ship channel 36 feet deep and 500 feet wide, extending approximately 76 miles in a land cut and open water from the junction of the IHNC and the Gulf Intracoastal Waterway (GIWW) in New Orleans to the 38-foot contour in the Gulf of Mexico. Jetties for the reduction of shoaling, a turning basin, and a lock and connecting channel with the Mississippi River are salient features of the project.

From the junction of the GIWW and the IHNC, the channel follows the GIWW to the vicinity of LA Highway 47 (Paris Road) bridge, from whence it proceeds in a generally southeasterly direction along the south shore of Lake Borgne through the marshes, across Chandeleur Sound between Breton and Grand Gosier Island, to the 38-foot contour in the Gulf of Mexico. In the open waters of the Gulf, the channel dimensions increase to 38 feet by 600 feet.

The physical makeup of the Port of New Orleans along the Mississippi River consists primarily of general cargo wharves and transit sheds with minimum room for expansion. The shift to intermodal cargo handling has generated heavy demands for land intensive container facilities. Expansion can best be accommodated on the land area serviced by the MRGO.

Traffic on the MRGO has grown rapidly. In 1979 there were 1,572 ship passages, which amounts to a 108% increase over 1970 figures. The growth in both absolute ship traffic and tonnage can be attributed to the combined capabilities of the New Orleans Bulk Terminal, the France Road Container Terminal, new roll-on, roll-off facilities and private terminals. The Public Bulk Terminal is scheduled to begin handling significant amounts of coal, thus attracting ever larger bulk carriers. The increase in the number of transits does not necessarily impact adversely on navigation in the MRGO. However due to the increasing size of some of these vessels with drafts approaching the controlling depth of the MRGO, encounters between these larger vessels in the lower MRGO below the jetties

have become hazardous. The area of the open water channel below the jetties is affected by the frequent and variable cross-currents. These currents are created by the current circulation patterns of Breton Sound, and make it dangerous for larger vessels to meet or overtake other vessels in this portion of the waterway.

This section of the MRGO is linked to the wetlands by numerous bayous, canals, inlets and tidal influence and comprises some of the best private and commercial fishing areas in the Gulf of Mexico. A collision and resulting chemical spill here could have widespread and irreversible effects on the delicate balance of this ecosystem, which in turn would adversely affect the commercial fishing industry. Additionally, any collision which results in blocking the MRGO would have immediate adverse economic impact on the Port of New Orleans. With the exception of smaller vessels able to use the IHNC Lock, blockage of the MRGO cuts off all shipping to the terminals in the IHNC. As the trade in the MRGO accounts for 30% of the total for the Port, any closure would have severe economic implications. The purpose of this Safety Zone is to establish single lane traffic between vessels, including tows, over 600 feet in length, or over 80 feet in beam, or with draft of over 30 feet in the open part of the MRGO between Lighted Buoy 1 (LLNR 2014) and Light 62 (LLNR 2068). It is necessary to include the entire MRGO and IHNC and the Michoud Slip in this Safety Zone because once a vessel departs its berth (outbound) or enters the channel (inbound) there is no authorized anchorage or safe mooring between the Gulf of Mexico and the IHNC. Transit of the Safety Zone by these specified large vessels will be coordinated by the New Orleans Vessel Traffic Service (VTS).

Vessels, including tows, exceeding any of the above size constraints and intending to transit the lower MRGO between Light 62 and Lighted Buoy 1 must first obtain permission to transit this Safety Zone. Contact with VTS to obtain authorization for movement shall be made two hours prior to the time the vessel is otherwise ready to transit. This requirement also applies to vessels arriving from sea.

Both inbound and outbound vessels shall reconfirm their authorization to enter or move within the Safety Zone with the VTS immediately prior to beginning their movement in the Safety Zone to ensure that no meeting or overtaking situation between specified large vessels will occur in the MRGO below Light 62. The specified large vessels shall also be required to notify VTS immediately upon passing several progress points within the Safety Zone to provide the necessary information upon which to base subsequent entry or movement decisions in order to minimize delays while ensuring the integrity of the intent of the Safety Zone.

The two hour advance request for authorization of entry into or movement within the Safety Zone shall be made to VTS via Channel 12 VHF-FM (156.600 MHz) or by telephone (504) 589-2772 or 589-2773. The required reconfirmation of movement or entry authorization, immediately prior to actual movement or entry, shall be made to VTS via Channel 12 VHF-FM. During transit the inbound specified large vessels shall notify VTS immediately upon passing MRGO Lighted Buoy 1, MRGO Light 33 (LLNR 2046.50) and MRGO Light 62 via Channel 12 VHF-FM. During the transit outbound, vessels shall notify VTS immediately upon getting underway and upon passing the junction of the MRGO & the GIWW (Mile 60.0 MRGO), MRGO Light 62, MRGO Light 33, and MRGO Lighted Buoy 1 via Channel 12 VHF-FM. Vessels which do not meet any of the size constraints or which do not intend to transit the MRGO between Lighted Buoy 1 and Light 62 are not required to obtain permission to enter or move within this Safety Zone at this time. However, the Captain of the Port may require other vessels to comply with these provisions if deemed necessary to maintain the intent of this Safety Zone. These regulations are published as interim final rules instead of proposed rules due to the hazardous condition currently existing in the MRGO. The delays associated with the rulemaking process are unacceptable with this Safety Zone. These regulations are effective upon publication and are subject to revision upon termination of the comment period.

INTERIM RULE: In consideration of the foregoing, the Coast Guard amends Part 165 of Title 33 Code of Federal Regulations by adding a new § 165.801 Mississippi River Gulf Outlet to read as follows:

§ 165.801 Mississippi River Gulf Outlet.

(a) The area enclosed by the following boundary is a Safety Zone—The Mississippi River Gulf outlet from Lighted Buoy 1 (LLNR 2014) northwesterly to its junction with the Gulf Intracoastal Waterway and then westerly to, and including, the Inner Harbor Navigation Canal and easterly to and including the Michoud Slip.

(b) Vessels over 600 feet in length, or over 80 feet in beam, or with a draft in excess of 30 feet, and intending to transit that portion of the Safety Zone from its seaward entrance at Lighted Buoy 1 to the jetty at Light 62 (LLNR 2068) must receive permission to enter or move within the Safety Zone. Vessels meeting this criteria will not meet or overtake each other in this seaward portion of the safety zone.

(c) All vessels meeting the criteria of paragraph (b) of this section shall notify New Orleans Vessel Traffic Service (VTS) two hours prior to intended entry into or movement within the Safety Zone to obtain permission to enter. VTS can be contacted via Channel 12 VHF-FM (156.600 MHz) or by telephone (504) 589-2772 or 589-2773. Inbound vessels meeting the criteria of paragraph (b) shall notify New Orleans VTS immediately prior to entry into the Safety Zone, and upon passing MRGO Lighted Buoy 1, MRGO Light 33 (LLNR 2046.50), and MRGO Light 62 on Channel 12 VHF-FM. Outbound vessels meeting the criteria of paragraph (b) shall notify New Orleans VTS immediately prior to movement, immediately upon getting underway, and as the vessel passes the junction of the Mississippi River-Gulf Outlet and the Gulf Intercoastal Waterway (Mile 60.0 MRGO), MRGO Light 62, MRGO Light 33 and MRGO Lighted Buoy 1 on Channel 12 VHF-FM.

(d) Movement within this Safety Zone is normally unrestricted for vessels that do not meet the criteria of paragraph (b) of this section. The Captain of the Port may require other vessels within this defined zone to comply with the general regulations governing safety zones as contained in 33 CFR 165.20 whenever necessary for the protection of vessels, structures and water and shore areas.

(86 Stat. 427 (33 U.S.C. 1224); 49 CFR 1.46(n)(4))

Dated: April 8, 1981.

R. J. Clements,

Captain, U.S. Coast Guard, Captain of the Port, New Orleans, La.

BILLING CODE 4910-14-M

DEPARTMENT OF DEFENSE

Corps of Engineers, Department of the Army

33 CFR Part 204

Danger Zone Regulations; Vieques Island, Puerto Rico

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Final rule.

SUMMARY: The Department of the Army is amending the regulations which establish a danger zone in the Caribbean Sea and Vieques Sound in the vicinity of Eastern Vieques with respect only to the identity of the enforcing agency. This amendment reflects a change in agency organization.

EFFECTIVE DATE: July 6, 1981.

ADDRESS: HQDA, DAEN–CWO–N, Washington, D.C. 20314.

FOR FURTHER INFORMATION CONTACT: Mr. Ralph T. Eppard, (202) 272–0200 or write Office of the Chief of Engineers, ATTN: DAEN–CWO–N, Washington, D.C. 20314.

SUPPLEMENTARY INFORMATION: Regulations were promulgated by the Department of the Army under 33 CFR Part 204.234 on June 24, 1974, establishing a danger zone in the waters around the eastern end of Vieques Island, Puerto Rico. Paragraph (b)(2) of the regulations which authorize the Commander, Caribbean Sea Frontier to enforce these regulations is changed to designate the Commander, U.S. Naval Forces Caribbean as the enforcing agency. The Department of the Army has determined that Notice of Proposed Rulemaking and public procedures thereto are unnecessary and impracticable since the amendment reflects only an agency's organizational change and will have no significant impact on the public. Accordingly, 33 CFR 204.234(b)(2) is amended as set forth below:

Note.—This regulation is issued with respect to a military function of the Defense Department and provisions of E.O. 12291 do not apply.

The Department of the Army has also determined that this proposed rule will not have a significant economic impact on a substantial number of entities and thus does not require the preparation of a regulatory flexibility analysis.

§ 204.234 Caribbean Sea and Vieques Sound in vicinity of Eastern Vieques, bombing and gunnery target area.

* * * * *

(b) Regulations.

* * * * *

(2) The regulations will be enforced by the Commander, U.S. Naval Forces Caribbean, U.S. Naval Station, Roosevelt Roads, Puerto Rico, and such agencies and subordinate commands as he/she may designate.

Dated: May 11, 1981.

Robert K. Dawson,

Deputy Assistant Secretary of the Army (Civil Works).

BILLING CODE 3710–92–M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 123

[SW–9–FRL 1836–6]

Hazardous Waste Management Programs: Phase I Interim Authorization for California

AGENCY: Environmental Protection Agency, Region IX.

ACTION: Final rule; approval of State program.

SUMMARY: The State of California has applied for interim authorization of its hazardous waste program under Subtitle C of the Resource Conservation and Recovery Act and EPA guidelines for the approval of State hazardous waste programs (40 CFR Part 123). EPA has determined that the State's program meets all applicable statutory and regulatory requirements and is granting Phase I interim authorization to California to operate a hazardous waste program in lieu of Phase I of the Federal hazardous waste program in its jurisdiction.

EFFECTIVE DATE: June 4, 1981.

FOR FURTHER INFORMATION CONTACT: Paul D. Blais, Hazardous Materials Branch, U.S. EPA, Region IX, 215 Fremont Street, San Francisco, California 94105; (415) 556–5455.

SUPPLEMENTARY INFORMATION:

I. Background

In 1972, the California Legislature passed the Hazardous Waste Control Act which authorized the State Department of Health Services (DOHS) to develop and implement a hazardous waste management program. The State adopted its first hazardous waste regulations in 1974. The State's legislation was subsequently strengthened and expanded through legislative initiatives in 1978 and 1980.

Program elements, including a computerized manifest system, a permitting program, and a compliance monitoring and enforcement program, have been operating for several years. The State has demonstrated a continuing commitment to improve its hazardous waste program, and has devoted adequate resources to implement its program. This development of the State's hazardous waste program has led to my determination that California's program meets all EPA requirements for Phase I interim authorization.

The State of California submitted a draft application for Phase I interim authorization on July 30, 1980. In our comments to the State we identified three major problem areas, namely: (1) possible deficiencies in the State's coverage of the universe of hazardous waste covered under RCRA; (2) deficiencies in the State's ability to implement and enforce technical facility standards substantially equivalent to 40 CFR 265; and (3) deficiencies in the State's manifest system.

In addition to the three major problem areas, we indicated to the State that there were several areas which could not be reviewed by EPA because the material was incomplete or omitted. The areas where review was delayed for lack of information were the Attorney General's Statement and the Program Description.

The State submitted its final application on October 31, 1980. The application demonstrated that the first major problem area regarding the universe of hazardous waste, had been remedied. This was accomplished by the passage of legislation (AB 2691) which redefined "handling," "processing," and "waste."

The second problem area, concerning interim status standards for facilities, was also resolved by the State. By means of recently passed legislation (AG 3132), the State has issued interim status permits to all treatment, storage and disposal facilities which had submitted complete Part A permit applications to Region IX. We have determined that each interim status permit contains conditions which are substantially equivalent to the RCRA interim status standards.

The third problem area, concerning deficiencies in the State's manifest system, has also been resolved. On October 5, 1980, the State adopted a new California Hazardous Waste Manifest which meets all the EPA and DOT requirements. The State also elaborated in its Program Description that it would use computer cross-matching procedures to verify that interstate shipments went only to approved facilities in other States; to verify that all international shipments arrived at their destination; and to follow up on shipments which appeared not to have been properly delivered.

One additional issue emerged during EPA's review of the Attorney General's Statement contained in the State's final application. This was the question of the State's ability to share program information with EPA upon request without restrictions as required by 40 CFR 123.132. On December 4, 1980, the Attorney General's office submitted a letter to clarify several items contained in his Statement dated October 31,1980.

In this clarification it was stated that the regulations in 40 CFR Part 2 provide restrictions on dissemination of State program information consistent with California's Health and Safety Code Section 25173, and therefore, the State had the authority to share confidential information with EPA without restriction.

II. Response to Public Comments

On November 7, 1980, (45 FR 73977) a notice was published in the **Federal Register** inviting the public to offer comments on the California application for Phase I interim authorization at a public hearing to be conducted by Region IX on December 9, 1980. This notice also invited the public to submit written comments on the California application by December 9, 1980.

The public hearing was held on December 9, 1980. Seven presentations were made at this hearing. As a result of several complaints from the public at the public hearing about the unavailability of a complete application at the Department of Health Services offices in Berkeley and Los Angeles, Region IX extended the public comment period ten days until December 19, 1980. During the public comment period, Region IX received twenty written comments on the California application. All comments received by Region IX were reviewed and considered in reaching a decision on the California application for interim authorization.

Of the 27 public comments received by Region IX, six completely endorsed the approval of the State program, six opposed authorization of the State program because it regulated tannery waste not covered by the Federal program, ten endorsed authorization but with reservations because aspects of the State's program are more stringent than the Federal program, three complained about the unavailability of the State's application during the comment period, one complained about government regulation in general and one comment addressed the status of the State's permit program. The subject matter of the comments ranged from very general to specific. This summary is presented generally in the order of subjects which received the most comments first and those receiving the fewest comments last.

Comment: Ten commenters expressed reservations in endorsing authorization of the California program because various aspects of the State program are more stringent than the Federal requirements. Most of these comments stated that the use of two toxicity extraction procedure tests and the use of both the EPA and California hazardous waste lists were confusing, burdensome, and expensive.

Some commenters also were concerned that the draft California Assessment Manual (CAM) would be considered by EPA as part of the State's interim authorization application. Since the CAM had not yet gone through State rulemaking procedures but was referred to in the application, they felt this was inappropriate.

Response: EPA is required to grant Phase I interim authorization to any State hazardous waste management programs which meet the minimum requirements of EPA regulations. Regulations specifically outline interim authorization requirements for Phase I interim authorization in 40 CFR 123, Subpart F. During interim authorization nothing in 40 CFR 123 precludes a State from adopting or enforcing requirements which are more stringent or more extensive than those required under this Part (see 40 CFR 123.1(k)1).

EPA has determined that the State's definitions and lists of hazardous and extremely hazardous wastes meet the minimum requirement that they cover a universe of waste nearly identical to that which is controlled by the Federal program under 40 CFR Part 261. The draft CAM was not critical to EPA's decision on substantial equivalence. EPA views the CAM as a tool used by the State to further define hazardous wastes pursuant to State regulations. The CAM will be desirable to provide the State a mechanism for adding other wastes to its listings to maintain an equivalent universe of waste. EPA will review the final version of the CAM when the State seeks final authorization. At that time, EPA will be required to determine that the State's listing and CAM are fully equivalent to the Federal program's listing and characteristics.

Comment: Six commenters criticized the State program for not delisting chromium-containing waste from the leather tanning industry as EPA had recently done.

Response: See discussion of the previous issue for authority of the State under RCRA to establish more stringent program requirements.

Comment: Six commenters stated that California's Hazardous Waste program was substantially equivalent to the Federal program under RCRA and the regulations published in 40 CFR 123, Subpart F, and recommended that EPA should grant the State Phase I interim authorization.

Response: EPA agrees with this determination.

Comment: Three commenters complained about the unavailability of a complete application at the State's offices in Berkeley and Los Angeles on the date indicated in the Public Notice, and requested an extension of the public comment period.

Response: EPA extended the public comment period ten days to accommodate the request for additional time to review the State's application. Two brief letters of support were received during the extended period.

Comment: One commenter raised several questions about the status of the State's permit program. The commenter questioned whether the State could impose interim status standards substantially equivalent to 40 CFR 265, whether the State had met the requirements of 40 CFR 123.124(g)(3), and whether the State's permitting procedures would qualify for Phase II interim authorization.

Response: California issued interim status permits to all treatment, storage, and disposal facilities for which Region IX received a complete Part A permit application. The State also met the requirements of 123.124(g)(3) by appending to its final application the fourth quarter FY 80 grant report on the status of its permit program. A copy of this quarterly report was sent directly to the commenter. Finally, EPA agrees with the commenter that questions remain regarding the adequacy of the State's permit program to qualify for Phase II interim authorization. However, EPA has determined that the State program does meet all the requirements for Phase I interim authorization. Consequently, the issues raised by the commenter do not apply to the State's ability to qualify for Phase I authorization which is presently at issue. The commenter's points are well taken and will be considered when California applies for Phase II interim authorization, or for final authorization at some future time.

III. Decision

EPA has reviewed the State of California's complete application for Phase I interim authorization and has determined that the State program is "substantially equivalent" to the Phase I Federal program as defined in 40 CFR 123. In accordance with Section 3006(c) of RCRA, the State of California is hereby granted interim authorization to operate a hazardous waste program in lieu of Phase I of the Federal hazardous waste program. The practical effect of this decision is that generators, transporters, and owners and operators of hazardous waste management facilities in California will be subject to the State of California hazardous waste program in lieu of the Federal hazardous waste program (40 CFR Parts 260–263

and 265) and will not again be subject to Phase I of the Federal Program unless 1) the State fails to obtain final authorization by the deadline specified in 3006(c) of RCRA and implementing regulations or 2) authorization is withdrawn for cause by EPA.

IV. Compliance with Executive Order 12291

Under Executive Order 12291, EPA must prepare a Regulatory Impact Analysis on "major regulations." A "major regulation" is defined as "any regulation that is likely to result in:

(1) An annual effect on the economy of $100 million or more;

(2) A major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or

(3) Significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets."

EPA's decision to approve California's Phase I Hazardous Waste Program is not a major regulation because its effect is to suspend the applicability of certain Federal regulations in the State of California. In the absence of this decision, persons handling hazardous waste in California would have to comply with Parts 261–263 and 265 of Title 40 of the Code of Federal Regulations in addition to all California hazardous waste management regulations. For this reason it is virtually inconceivable that this regulation would result in the significant impacts that characterize a "major regulation".

This regulation was submitted to the Office of Managment and Budget (OMB) for review as required by Executive Order 12291. Any comments from OMB to EPA and any EPA response to those comments are available for public inspection in room 2711, U.S. Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460, and are available for viewing from 9:00 a.m. to 4:00 p.m., Monday through Friday, excluding holidays.

V. Authority

This notice is issued under the authority of Sections 2002(a), 3006, and 7004(b) of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act of 1976, as amended 42 USC §§ 6912(a), 6926, 6974(b).

Dated: March 23, 1981.

Louise P. Giersch,

Acting Regional Administrator.

BILLING CODE 6560-38-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

43 CFR Public Land Order 5951

Alaska; Modification of Withdrawals and Classification of Lands for Selection by the State of Alaska

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: The purpose of this public land order is to modify and amend several public land orders and to classify lands as suitable for selection by the State of Alaska under either the Alaska Statehood Act or § 906(b) of the Alaska National Interest Lands Conservation Act.

EFFECTIVE DATE: May 29, 1981.

FOR FURTHER INFORMATION CONTACT:

Beaumont C. McClure, Washington, D.C., 202–343–6511 or

Robert W. Arndorfer, Alaska State Office, 907–271–5055

Pursuant to the authority vested in the Secretary by § 204(a) of the Act of October 21, 1976, 43 U.S.C. 1714(a), and by § 17(d)(1) of the Alaska Native Claims Settlement Act, 43 U.S.C. 1616(d)(1), it is ordered as follows:

1. The following listed public land orders, which withdrew lands from State selection pursuant to the authority vested in the President and delegated to the Secretary in Executive Order No. 10355, are hereby modified and amended to the extent necessary to permit selection by the State of Alaska under either the Alaska Statehood Act, 72 Stat. 339, or § 906(b) of the Alaska National Interest Lands Conservation Act, 94 Stat. 2437, to the extent that such orders include the following described lands and to the extent that such lands are outside the National Petroleum Reserve in Alaska, the Noatak National Preserve, the Gates of the Arctic National Park, and those lands described in Public Land Order No. 5860, dated May 4, 1981, 46 FR 25619–25620.

Affected Public Land Orders

Public Land Order No. 5169, dated March 9, 1972, 37 FR 5572–5573; as amended by Public Land Order No. 5396, dated September 14, 1973 38 FR 26376–26377.

Public Land Order No. 5179, dated March 9, 1972, 37 FR 5579–5583; as amended by Public Land Order No. 5250, dated September 12, 1972, 37 FR 18730–18733.

Public Land Order No. 5180, dated March 9, 1972, 37 FR 5583–5584; as amended by Public Land Order No. 5418, dated March 25, 1974, 39 FR 11547–11548.

Containing an aggregate of approximately 392,000 acres.

2. Pursuant to the authority vested in the Secretary by § 17(d)(1) of the Alaska Native Claims Settlement Act, the lands described in paragraph 1 of this order are hereby classified as suitable for State selection and are hereby opened to such selection.

3. As provided in § 6(g) of the Alaska Statehood Act, the State of Alaska is provided a preference right of selection for the lands described herein until 10:00 a.m. Alaska Daylight time on October 5, 1981. After this time and date, the lands will be open to selection by the State and other forms of appropriation only to the extent specifically provided by statute, regulation, court decree, contract, or public land order.

4. This order and classification are intended to apply only to those lands described in paragraph 1 and which are outside the National Petroleum Reserve in Alaska, the Noatak National Preserve, the Gates of the Arctic National Park, and those lands described by Public Land Order No. 5860, dated May 4, 1981, 46 FR 25619–25620.

5. Prior to the tentative approval for patent of any of the lands selected by said State of Alaska that are classified by this order, the lands shall be subject to administration by the Secretary of the Interior under applicable laws and regulations, and his authority to make contracts and to grant leases, licenses, permits, rights-of-way, or easements, in accordance with § 906(k) of the Alaska National Interest Lands Conservation Act, shall not be impaired by this order and classification. Applications for leases under the mineral leasing laws will be rejected until this order is modified or the lands are appropriately classified to permit mineral leasing.

James G. Watt,

Secretary of the Interior.

May 29, 1981.

43 CFR Public Land Order 5947

[OR 20521]

Oregon; Revocation of Executive Order No. 5451

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order revokes an Executive Order which withdrew 40 acres of public land as a lookout station. This action will restore the land to operation of the public land laws generally, including the mining laws.

EFFECTIVE DATE: July 3, 1981.

FOR FURTHER INFORMATION CONTACT: Champ C. Vaughan, Jr., Oregon State Office, 503–231–6905.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. Executive Order No. 5451 of September 25, 1930, which withdrew the following described public land for use by the Bureau of Land Management as a lookout station, is hereby revoked:

Willamette Meridian

T. 37 S., R. 12 E.,
Sec. 28, SW¼SW¼.

The area described contains 40 acres in Klamath County.

2. At 10 a.m. on July 3, 1981, the land shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on July 3, 1981, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

3. At 10 a.m. on July 3, 1981, the land will be open to nonmetalliferous mineral location under the United States mining laws. The land has been and continues to be open to metalliferous mineral location under the United States mining laws and to applications and offers under the mineral leasing laws.

Inquiries concerning the land should be addressed to the State Director, Bureau of Land Management, P.O. Box 2965, Portland, Oregon 97208.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

May 28, 1981.

43 CFR Public Land Order 5948

[OR 20238]

Oregon; Revocation of Public Water Reserve No. 101

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order revokes an Executive Order affecting 599.50 acres of land withdrawn as a public water reserve. This action will restore 40 acres of the land to such forms of disposition as may by law be made of national forest lands. The balance, containing 559.50 acres, remains segregated from the public land laws generally, including the mining laws, for the Hart Mountain National Antelope Refuge.

EFFECTIVE DATE: July 3, 1981.

FOR FURTHER INFORMATION CONTACT: Champ C. Vaughan, Jr., Oregon State Office, 503–231–6905.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. The Executive Order of February 8, 1926, which withdrew the following described lands for public water reserve purposes is hereby revoked in its entirety:

Willamette Meridian

Public Water Reserve No. 101

T. 37 S., R. 25 E.,
Sec. 12, NE¼NE¼.
T. 36 S., R. 26 E.,
Sec. 6, lot 7.
T. 37 S., R. 26 E.,
Sec. 28, SW¼;
Sec. 32, E½.

Fremont National Forest

T. 40 S., R. 16 E.,
Sec. 15, SW¼NW¼.

The area described aggregates 599.50 acres in Lake County.

2. At 10 a.m. on July 3, 1981, the land in T. 40 S., R. 16 E., will be open to such forms of disposition as may by law be made of national forest lands.

3. The above described lands, except as described in paragraph 2, are withdrawn as part of the Hart Mountain National Antelope Refuge and remain segregated from operation of the public land laws generally, including the United States mining laws.

Inquiries concerning the lands should be addressed to the State Director, Bureau of Land Management, P.O. Box 2965, Portland, Oregon 97208.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

May 28, 1981.

BILLING CODE 4310-84-M

43 CFR Public Land Order 5950

[W-31206]

Wyoming; Partial Revocation of Public Water Reserve

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order partially revokes a public water reserve and restores the lands to the operation of the public land laws generally, including the mining laws.

EFFECTIVE DATE: July 3, 1981.

FOR FURTHER INFORMATION CONTACT: W. Scott Gilmer, Wyoming State Office, 307–778–2220, extension 2336.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. The Executive Order of April 17, 1926, creating Public Water Reserve No. 107, as construed by Interpretation No. 217 of May 14, 1935, is hereby revoked insofar as it affects the following described lands:

Sixth Principal Meridian, Wyoming

T. 35 N., R. 110 W.,
Sec. 5, E½NW¼ (lot 3, SE¼NW¼);
Sec. 8, W½SE¼.
T. 33 N., R. 112 W.,
Sec. 1, SW¼SE¼;
Sec. 12, NW¼NE¼.

The area described contains 239.04 acres in Sublette County.

2. At 10 a.m. on July 3, 1981, the lands shall be open to the operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on July 3, 1981, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

3. The lands will be open to location for nonmetalliferous minerals at 10 a.m. on July 3, 1981. They have been open to applications and offers under the mineral leasing laws and to location under the United States mining laws for metalliferous minerals.

Inquiries concerning the lands should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, P.O. Box 1828, Cheyenne, Wyoming 82001.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

May 28, 1981.

43 CFR Public Land Order 5946

[I–14560]

Idaho; Partial Revocation of Reclamation Withdrawal

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order will partially revoke a Secretarial order which withdrew lands in the Boise Valley Reclamation Project. The lands are embraced in allowed homestead entries.

EFFECTIVE DATE: June 4, 1981.

FOR FURTHER INFORMATION CONTACT: Larry R. Lievsay, Idaho State Office, 208–334–1735.

By virtue of the authority contained in Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. Secretarial Order of December 22, 1903, which withdrew lands for the Boise Valley Reclamation Project, is hereby revoked insofar as it affects the following described lands:

Boise Meridian

T. 5 N., R. 5 W.,
Sec. 31, SE¼NW¼, NE¼NW¼.

The area described contains 80 acres in Canyon County.

2. The lands are embraced in allowed entries under the homestead laws.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

May 28, 1981.

43 CFR Public Land Order 5945

[OR 20933 (Wash.)]

Washington; Withdrawing Public Lands for use of the Department of the Army for Dam and Reservoir Purposes

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order withdraws 400.27 acres of public land for uses in support of the additional hydroelectric generating units constructed at Chief Joseph Dam.

EFFECTIVE DATE: June 4, 1981.

FOR FURTHER INFORMATION CONTACT: Champ C. Vaughan, Jr., Oregon State Office, 503–321–6905.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is hereby ordered as follows:

1. Subject to valid existing rights, the following described public lands which are under the jurisdiction of the Secretary of the Interior, are hereby withdrawn from settlement, sale, location, or entry, under the general land laws, including the mining laws, 30 U.S.C. Ch. 2, but not from leasing under the mineral leasing laws, and reserved for use of the Corps of Engineers, U.S. Department of the Army, in connection with the Chief Joseph Dam Additional Units Project.

Willamette Meridian

T. 29 N., R. 28 E.,
Sec. 9, SW¼SW¼;
Sec. 30, Lot 2.
T. 30 N., R. 28 E.,
Sec. 25, NW¼NE¼;
Sec. 35, SW¼SE¼.
T. 30 N., R. 27 E.,
Sec. 28, SE¼SE¼;
Sec. 29, NE¼NW¼;
Sec. 34, SW¼NW¼ and NE¼SW¼.
T. 30 N., R. 28 E.,
Sec. 9, SE¼SE¼;
Sec. 14, NE¼SW¼.

The areas described aggregate 400.27 acres in Douglas County, Washington.

2. The lands in Sec. 25, T. 30 N., R. 28 E.; Sec. 29, T. 30 N., R. 27 E.; and Sec. 9, T. 30 N., R. 28 E., are also withdrawn for Power Site Reserve 129 by Executive Order of July 2, 1910.

3. Management of grazing, wildlife habitat and mitigation areas, recreation, fire protection, public access, cultural resources, and realty actions on the withdrawn lands will be under terms and conditions that have been agreed upon between the Corps of Engineers and the Bureau of Land Management and which may be revised by consent of both parties.

4. This withdrawal shall remain in effect for a period of 20 years from the date of this order.

Dated: May 26, 1981.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

BILLING CODE 4310–84–M

43 CFR Public Land Order 5949

[OR 22118 (WASH)]

Washington; Revocation of Executive Order

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order revokes an Executive Order which withdrew 8.17 acres of land for public purposes. This action permits restoration of the land to operation of the mining laws provided appropriate rules and regulations are issued to allow mineral location on lands conveyed pursuant to the Recreation and Public Purposes Act.

EFFECTIVE DATE: June 4, 1981.

FOR FURTHER INFORMATION CONTACT: Champ C. Vaughan, Jr., Oregon State Office, 503–231–6905.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. The Executive Order of May 9, 1898, which withdrew the following described lands for public purposes is hereby revoked:

Williamette Meridian

T. 41 N., R. 3 W.,
Sec. 33, Lot 6.

The area described contains 8.17 acres in Whatcom County, Washington.

2. The surface estate of the land has been conveyed from United States ownership pursuant to the Recreation and Public Purposes Act of June 14, 1926, as amended (43 U.S.C. 869; 869–4); therefore, unless and until appropriate rules and regulations are issued, the land will not be open to location under the United States mining laws. The land has been and continues to be open to applications and offers under the mineral leasing laws.

Inquiries concerning the lands should be addressed to the State Director, Bureau of Land Management, P. O. Box 2965, Portland, Oregon 97208.

Dated: May 28, 1981.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

BILLING CODE 4310-84-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 64

[Docket No. FEMA 6069]

Suspension of Community Eligibility Under the National Flood Insurance Program

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Final rule.

SUMMARY: This rule lists communities where the sale of flood insurance, as authorized under the National Flood Insurance Program (NFIP), will be suspended because of noncompliance with the flood plain management requirements of the program.

EFFECTIVE DATES: The third date ("Susp.") listed in the fifth column.

FOR FURTHER INFORMATION CONTACT: Mr. Gary Johnson, National Flood Insurance Program, (202) 755–5581 or EDS Toll Free Line 800–638–6620 for the Continental U.S. (except Maryland); 800–638–6831 for Alaska, Hawaii, Puerto Rico, and the Virgin Islands; and 800–492–6605 for Maryland, Room 5270, 451 Seventh Street SW., Washington, DC 20410.

SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP), enables property owners to purchase flood insurance at rates made reasonable through a Federal subsidy. In return, communities agree to adopt and administer local flood plain management measures aimed at protecting lives and new construction from future flooding. Section 1315 of the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4022) prohibits flood insurance coverage as authorized under the National Flood Insurance Program (42 U.S.C. 4001–4128) unless an appropriate public body shall have adopted adequate flood plain management measures with effective enforcement measures. The communities listed in this notice no longer meet that statutory requirement for compliance with program regulations (44 CFR Part 59 et seq.). Accordingly, the communities are suspended on the effective date in the fifth column, so that as of that date subsidized flood insurance is no longer available in the community.

In addition, the Federal Insurance Administrator has identified the special flood hazard areas in these communities by publishing a Flood Hazard Boundary Map. The date of the flood map, if one has been published, is indicated in the sixth column of the table. Section 202(a) of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), as amended, provides that no direct Federal financial assistance (except assistance pursuant to the Disaster Relief Act of 1974 not in connection with a flood) may legally be provided for construction or acquisition of buildings in the identified special flood hazard area of communities not participating in the NFIP, with respect to which a year has elasped since identification of the community as having flood prone areas, as shown on the Office of Federal Insurance and Hazard Mitigation's initial flood insurance map of the community. This prohibition against certain types of Federal assistance becomes effective for the communities listed on the date shown in the last column.

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

The Catalog of Domestic Assistance Number for this program is 83.100 "Flood Insurance." This program is subject to procedures set out in OMB Circular A–95.

In each entry, a complete chronology of effective dates appears for each listed community.

Section 64.6 is amended by adding in alphabetical sequence new entries to the table.

§ 64.6 List of eligible communities.

State and county	Location	Community No.	Effective dates of authorization/cancellation of sale of flood insurance in community	Special flood hazard area identified	Date[1]

BILLING CODE 6718-03-M

44 CFR Part 64

[Docket No. FEMA 6068]

List of Communities Eligible for the Sale of Insurance Under the National Flood Insurance Program

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Final rule.

SUMMARY: This rule lists communities participating in the National Flood Insurance Program (NFIP). These communities have applied to the program and have agreed to enact certain flood plain management measures. The communities' participation in the program authorizes the sale of flood insurance to owners of property located in the communities listed.

EFFECTIVE DATES: The date listed in the fifth column of the table.

ADDRESSES: Flood insurance policies for property located in the communities listed can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurance Program (NFIP) at: P.O. Box 34294, Bethesda, Maryland 20034, Phone: (800) 638–6620.

FOR FURTHER INFORMATION CONTACT: Mr. Gary Johnson, National Flood Insurance Program (202) 755–5581 or EDS Toll Free Line 800–638–6620 for Continental U.S. (except Maryland); 800–638–6831 for Alaska, Hawaii, Puerto Rico, and the Virgin Islands; and 800–492–6605 for Maryland, Room 5270, 451 Seventh Street, SW., Washington, DC 20410.

SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP), enables property owners to purchase flood insurance at rates made reasonable through a Federal subsidy. In return, communities agree to adopt and administer local flood plain management measures aimed at protecting lives and new construction from future flooding. Since the communities on the attached list have recently entered the NFIP, subsidized flood insurance is now available for property in the community.

In addition, the Federal Insurance Administrator has identified the special flood hazard areas in some of these communities by publishing a Flood Hazard Boundary Map. The date of the flood map, if one has been published, is indicated in the sixth column of the table. In the communities listed where a flood map has been published, Section 102 of the Flood Disaster Protection Act of 1973, as amended, requires the purchase of flood insurance as a condition of Federal or federally related financial assistance for acquisition or

construction of buildings in the special flood hazard area shown on the map.

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553 (b) are impracticable and unnecessary.

The Catalog of Domestic Assistance Number for this program is 83.100 "Flood Insurance." This program is subject to procedures set out in OMB Circular A-95.

In each entry, a complete chronology of effective dates appears for each listed community. The entry reads as follows:

Section 64.6 is amended by adding in alphabetical sequence new entries to the table.

§ 64.6 List of eligible communities.

National Highway Traffic Safety Administration

49 CFR Part 531

[Docket No. LVM 77-02; Notice 5]

Passenger Automobile Average Fuel Economy Standards; Exemption From Average Fuel Economy Standards

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Final decision to grant exemption from average fuel economy standards and to establish alternative standards.

SUMMARY: This notice exempts Rolls-Royce Motors, Ltd. (Rolls-Royce) from the generally applicable average fuel economy standards of 19.0 miles per gallon (mpg) and 20.0 mpg for 1979 and 1980 model year passenger automobiles, respectively, and establishes alternative standards. The alternative standards are 10.8 mpg in the 1979 model year and 11.1 mpg in the 1980 model year.

DATES: The exemptions and alternative standards set forth in this notice apply in the 1979 and 1980 model years.

FOR FURTHER INFORMATION CONTACT: Robert Mercure, Office of Automotive Fuel Economy Standards, National Highway Traffic Safety Administration, 400 Seventh Street, S.W., Washington, D.C. 20590 (202–755–9384).

SUPPLEMENTARY INFORMATION: The National Highway Traffic Safety Administration (NHTSA) is exempting Rolls-Royce from the generally applicable average fuel economy standards for the 1979 and 1980 model years and establishing alternative standards applicable to that company in those model years. This exemption is issued under the authority of section 502(c) of the Motor Vehicle Information and Cost Savings Act, as amended (the Act) (15 U.S.C. 2002(c)). Section 502(c) provides that a manufacturer of passenger automobiles that manufactures fewer than 10,000 vehicles annually may be exempted from the generally applicable average fuel economy standard for a particular model year if that standard is greater than the manufacturer's maximum feasible average fuel economy and if the NHTSA establishes an alternative standard applicable to that manufacturer at the low volume manufacturer's maximum feasible average fuel economy. In determining the manufacturer's maximum feasible average fuel economy, section 502(e) of the Act (15 U.S.C. 2002(e)) requires the NHTSA to consider:

(1) Technological feasibility;
(2) Economic practicability;
(3) The effect of other Federal motor vehicle standards on fuel economy; and
(4) The need of the Nation to conserve energy.

This final rule was preceded by a notice announcing the NHTSA's proposed decision to grant an exemption to Rolls-Royce for the 1979 and 1980 model years (45 FR 67108; October 9, 1980). NHTSA received two comments on that proposed decision.

The first comment was submitted by Rolls-Royce, in response to an invitation in the proposed decision for the company to explain why it could not have improved the fuel economy of its 1980 cars certified to the 49-state emission standards. Specifically, Rolls-Royce used fuel injection and a 3-way catalyst on its 1980 California vehicles, which resulted in improved fuel economy for those vehicles compared with the 1979 California vehicles. NHTSA did not have sufficient information to determine whether it would have been feasible to have also made this change to the 1980 49-state models. Lacking sufficient information, the agency raised the issue in the proposed decision, and invited Rolls-Royce to provide specific information to show that the change would not have been feasible. If the company did not provide the information, NHTSA would then consider deciding that the change was feasible.

In response, Rolls-Royce stated that fuel injection and 3-way catalysts were new technologies to the company, and that it was necessary to have a limited run with the new technologies to give the company experience with manufacturing them before including the technologies on all their vehicles. Additionally, Rolls-Royce stated that the 1980 California vehicles were certified at a low enough emissions level that the certification can be carried over for the 1981 and 1982 California and 49-state emissions standards. By not having to retest for compliance with those standards, the company will save an estimated $50,000 in each of the two model years.

The company also argued that it has decided to produce only one model type for emissions purposes—one that complies with both the 49-state and California emissions standards—beginning in the 1981 model year. By so doing, Rolls-Royce will join all the other low volume manufacturers except Checker Motors in producing a vehicle that complies with both sets of emissions standards. This is important for marketing flexibility, so that the low volume manufacturer can sell its cars in California or the other 49 states depending on the actual demand. When the company produces two models (49-state and California), it must forecast how many of each to make. It cannot sell 49-state vehicles in California, or vice-versa, when actual demand differs from forecasted demand. Such a decision by Rolls-Royce is not unreasonable.

Rolls-Royce argued that use of fuel injection and a 3-way catalyst on its 1980 49-state vehicles would have required additional and different development work for the company to optimize the fuel consumption and emissions to the less-stringent 49-state standards. This development would have been useful only for that one model year, since the company was not planning to certify vehicles to these less stringent standards in the foreseeable future, as explained above. Given the company's limited engineering staff, it decided to devote all of its efforts to achieving emissions levels in its 1980 California vehicles that would satisfy the 1981 and 1982 California and 49-state requirements, instead of splitting its effort between that and achieving optimal settings for its 49-state vehicles, which would be used only for the 1980 model year. Rolls-Royce also argued that it was erroneous for the agency to imply that the use of fuel injection with a 3-way catalyst was responsible for the fuel economy improvement on its 1980 California vehicles. NHTSA recognizes that the fuel rich mixtures required for efficient operation of the 3-way catalyst would be above the level required for minimum fuel consumption, and that any potential fuel economy improvements would depend on the specific vehicle involved and the stringency of the applicable emissions standards. However, without resolving this latter argument, NHTSA concludes that it would not have been economically practicable for Rolls-Royce to have incorporated fuel injection and the 3-way catalyst on its 1980 49-state vehicles. This decision is based on the newness of the technology to the company, marketing considerations, the staff and resources available to the company, and the fact that the company is certifying only one model type in 1981 and subsequent model years.

The other comment was submitted two weeks after the comment period had closed. This comment criticized the timing of the agency's proposal, and the procedure used to reach a final decision on the feasibility of Rolls-Royce using

fuel injection and 3-way catalysts on its 1980 49-state vehicles. The comment argued that the agency should have set the proposed alternative standard at the level Rolls-Royce would have achieved had it used fuel injection and the 3-way catalyst, and then lowered the standard only if Rolls-Royce was able to show that it could not have used the technology. This suggestion appears to be a distinction without a difference, because following either it or the procedure chosen by the agency required the manufacturer to demonstrate that it could not have used the item of technology, or the maximum feasible average fuel economy for the manufacturer would be calculated as if the manufacturer had used the item. The agency notes that by raising the point in the proposed decision, there was sufficient notice and opportunity to comment (as required by the Administrative Procedure Act) to permit the final decision to include the use of fuel injection when calculating the manufacturer's maximum feasible average fuel economy.

This comment also raised two substantive objectives to the proposed decision. First, the comment stated, "NHTSA has concluded that Rolls-Royce was justified in foregoing any engine improvements because Rolls-Royce said doing so might well have increased NO_x emissions (45 FR at 67111)." This objection is a misstatement of the proposal, in which NHTSA said that a reduction in engine size without an accompanying weight reduction for the vehicle might well have increased NO_x emissions. This is because emissions of oxides of nitrogen increase with increased engine loading due to the higher operating temperatures. Increased engine loading can occur with either the substitution of a smaller engine or the use of a lower axle ratio on the same engine. Rolls-Royce reported no net fuel economy gain from reducing engine size, after retuning the engine to control the higher NO_x emissions. Further, the agency considered other engine improvements, such as alternative engines, but determined they were not technologically feasible, with no mention of NO_x emissions.

The second objection was that the rear axle ratio used by Rolls-Royce could have been reduced. However, the agency set forth the reasons that this reduction would not be technologically feasible and economically practicable at 45 FR 67112, and the commenter did not explain why it considered the proposed finding to be erroneous or less than maximum feasible. Accordingly, the agency reaffirms its finding.

After analyzing the public comments received on the proposed decision, NHTSA believes that the fuel economy levels proposed therein represent Rolls-Royce maximum feasible average fuel economy for the 1979 and 1980 model years. Therefore, based on its conclusions that it was not technologically feasible and economically practicable for Rolls-Royce to improve the fuel economy of its 1979 and 1980 model year automobiles above an average of 10.8 mpg and 11.1 mpg, respectively, that other Federal automobile standards did not affect achievable fuel economy beyond the extent considered in this analysis, and that the national effort to conserve energy will be negligibly affected by the granting of the requested exemptions and establishment of alternative standards, NHTSA concludes that the maximum feasible average fuel economy for Rolls-Royce in the 1979 and 1980 model years was 10.8 and 11.1 mpg, respectively. Therefore, the agency is exempting Rolls-Royce from the generally applicable standards and is establishing alternative standards of 10.8 mpg for the 1979 model year and 11.1 mpg for the 1980 model year.

In consideration of the foregoing, 49 CFR Part 531 is amended by revising § 531.5(b)(2) to read as follows:

§ 531.5 Fuel economy standards.

BILLING CODE 4910–59–M

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1056

[Ex Parte No. MC–19 (Sub-No. 36)]

Practices of Motor Common Carriers of Household Goods; Revision of Operational Regulations

AGENCY: Interstate Commerce Commission.

ACTION: Final operational rules: Deferral of effective date in 49 CFR 1056.2.

SUMMARY: By Decision served and published on March 11, 1981, 46 FR 16200, the Commission adopted revised operational regulations to be applicable to motor common carriers of household goods effective June 9, 1981.

Included in the regulations adopted is a requirement that carriers provide to each prospective individual shipper an informational publication, *Your Rights and Responsibilities When You Move*, form OCP–100. This requirement is contained in 49 CFR 1056.2(a)(1).

There is to be included in the OCP–100 publication a post card type questionnaire to be used by consumers to advise the Commission of certain data concerning their move. The questionnaire is identified as *Moving Service Questionnaire*, form OCP–100–A. The requirement for the inclusion of this questionnaire is deferred until January 1, 1982.

DATE: The requirement for Moving Service Questionnaire, form OCP–100–A, to be included in form OCP–100, Your Rights and Responsibilities When You Move, is deferred until January 1, 1982. This decision is effective on May 27, 1981.

FOR FURTHER INFORMATION CONTACT: Ray G. Atherton, Jr., (202) 275–7844 or W. F. Sibbald, Jr. (202) 275–7148.

SUPPLEMENTARY INFORMATION: Due to the information gathering purpose of the questionnaire approval must be obtained from the Office of Management and Budget (OMB) before the form may be put into use. For reasons not within the control of the Commission application for approval of the form was not made until May 1, 1981, and as of this date said application is pending a final decision.

The motor carriers which are responsible for the distribution of the publication, form OCP–100, are required to provide the publication at their own expense. Within recent days inquiries have been received from carriers and commercial printers regarding the pending OMB approval, and the OMB

forms number which must be printed on the form OCP–100–A questionnaire, and it is evident that further delay will seriously hinder the good-faith efforts of the industry to comply with 49 CFR 1056.2(a)(1) on the June 9, 1981, effective date.

To resolve this issue it has been decided to suspend the requirement that the *Moving Service Questionnaire*, form OCP–100–A, be included in and as part of the publication, *Your rights and Responsibilities When You Move*, form OCP–100, until January 1, 1982. This period of suspension will enable the carriers to purchase the OCP–100 publication in economical quantities and will allow for the orderly transition to the use of a publication which includes the questionnaire. This change of date will not interfere with the commission's collection of data on a calendar year basis. The requirement for the inclusion of the questionnaire, is, therefore, suspended until January 1, 1982.

All form OCP–100 publications printed and distributed during the suspension period and without the questionnaire included should be amended by placing in an appropriate footnote a statement to read:

The Moving Service Questionnaire is not required to be included in booklets distributed prior to January 1, 1982.

This action will not significantly affect either the quality of the human environment or conservation of energy resources.

Decided: May 26, 1981.

By The Commission, Acting Chairman Alexis.

Agatha L. Mergenovich,

Secretary.

Proposed Rules

Federal Register
Vol. 46, No. 107
Thursday, June 4, 1981

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 80-GL-51]

Proposed Alteration of Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The nature of this federal action is to designate additional controlled airspace near Baudette, Minnesota, to accommodate a VOR Runway 30 instrument approach procedure into the Baudette International Airport, Baudette, Minnesota, which was established on the basis of a request from the local airport officials to provide that airport with an additional instrument approach procedure. The intended effect of this action is to insure segregation of the aircraft using this approach procedure in instrument weather conditions from other aircraft operating under visual weather conditions.

DATE: Comments must be received on or before July 10, 1981.

ADDRESS: Send comments on the proposal to FAA Office of Regional Counsel, AGL-7, Attention: Rules Docket Clerk, Docket No. 80-GL-51, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

FOR FURTHER INFORMATION CONTACT: Edward R. Heaps, Airspace and Procedures Branch, Air Traffic Division, AGL-530, FAA, Great Lakes Region, 2300 East Devon Avenue, Des Plaines, Illinois 60018, Telephone (312) 694-7360.

SUPPLEMENTARY INFORMATION: The floor of the controlled airspace will be lowered from 1200 feet above surface to 700 feet for a distance of approximately 2.5 nautical miles beyond that now depicted. The development of the proposed procedure requires that the FAA alter the designated airspace to insure that the procedure will be contained within controlled airspace. The minimum descent altitudes for this procedure may be established below the floor of the 700 foot controlled airspace. In addition, aeronautical maps and charts will reflect the area of the instrument procedure which will enable other aircraft to circumnavigate the area in order to comply with applicable visual flight rule requirements.

Comments Invited

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Regional Counsel, AGL-7, Great Lakes Region, Rules Docket No. 80-GL-51, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before July 10, 1981, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

Availability of NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, S.W., Washington, D.C. 20591, or by calling (202) 426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

The Proposal

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to alter the transition area airspace near Baudette, Minnesota. Subpart G of Part 71 was republished in the **Federal Register** on January 2, 1981 (46 FR 540).

The Proposed Amendment

Accordingly, the FAA proposes to amend § 71.181 of Part 71 of the Federal Aviation Regulations as follows:

In § 71.181 (46 FR 540) the following transition area is amended to read:

Baudette, Minnesota

That airspace extending upward from 700 feet above the surface within a 6.5 mile radius of the Baudette International Airport, Baudette, Minnesota, (latitude 48°43'15"N, longitude 94°36'00"W); within 3 miles each side of the 107° bearing from Baudette International Airport extending from the 6.5 mile radius to 8 miles east of the airport; within 3 miles each side of the 307° bearing from Baudette International Airport extending from the 6.5 mile radius to 8.5 miles west of the airport excluding that portion outside of the United States.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); Sec. 11.61 of the Federal Aviation Regulations (14 CFR 11.61))

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal; (4) is appropriate to have a comment period of less than 45 days; and (5) at promulgation, will not have a significant economic impact on a substantial number of small entities under the critieria of the Regulatory Flexibility Act.

Issued in Des Plaines, Illinois, on May 19, 1981.

Frederick M. Isaac,

Chief, Airports Division, Director, Great Lakes Region.

[FR Doc. 81-16618 Filed 6-3-81; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 71

[Airspace Docket No. 81-GL-1]

Proposed Designation of Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The nature of this Federal action is to designate controlled airspace near Phillips, Wisconsin, in order to accommodate a new instrument approach into Price County Airport, Phillips, Wisconsin, which was established on the basis of a request from the local Airport officials to provide that facility with instrument approach capability. The intended effect of this action is to insure segregation of the aircraft using this approach procedure in instrument weather conditions from other aircraft operating under visual conditions.

DATE: Comments must be received on or before July 10, 1981.

ADDRESS: Send comments on the proposal to FAA Office of Regional Counsel, AGL-7, Attention: Rules Docket Clerk, Docket No. 81-GL-1, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

FOR FURTHER INFORMATION CONTACT: Edward R. Heaps, Airspace and Procedures Branch, Air Traffic Division, AGL-530, FAA, Great Lakes Region, 2300 East Devon Avenue, Des Plaines, Illinois 60018, Telephone (312) 694-7360.

SUPPLEMENTARY INFORMATION: The floor of the controlled airspace in this area will be lowered from 1200' above ground to 700' above ground. The development of the proposed instrument procedure requires that the FAA lower the floor of the controlled airspace to insure that the procedure will be contained within controlled airspace. The minimum descent altitude for this procedure may be established below the floor of the 700-foot controlled airspace. In addition, aeronautical maps and charts will reflect the area of the instrument procedure which will enable other aircraft to circumnavigate the area in order to comply with applicable visual flight rule requirements.

Comments Invited

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Regional Counsel, AGL-7, Great Lakes Region, Rules Docket No. 81-GL-1, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before July 10, 1981, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

Availability of NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue SW., Washington, D.C. 20591, or by calling (202) 426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

The Proposal

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to establish a 700-foot controlled airspace transition area near Phillips, Wisconsin. Subpart G of Part 71 was republished in the **Federal Register** on January 2, 1981, (46 FR 540).

The Proposed Amendment

Accordingly, the FAA proposes to amend § 71.181 of Part 71 of the Federal Aviation Regulations as follows:

In § 71.181 (46 FR 540) the following transition area is added:

Phillips, Wisconsin

That airspace extending upward from 700' above the surface within a 6.5 mile radius of Price County NDB (latitude 45°42'11" N, longitude 90°24'45" W) and 3 miles either side of the 063° bearing of the Price County NDB from 6.5 miles to 8.5 miles.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); Sec. 11.61 of the Federal Aviation Regulations (14 CFR 11.61))

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal; (4) is appropriate to have a comment period of less than 45 days; and (5) at promulgation, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Des Plaines, Illinois, on May 19, 1981.

Frederick M. Isaac,

Chief, Airports Division, Director, Great Lakes Region.

[FR Doc. 81-16619 Filed 6-3-81; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 71

[Airspace Docket No. 81-GL-5]

Proposed Designation of Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The nature of this Federal action is to designate controlled airspace near Wheaton, Minnesota, in order to accommodate a new instrument approach into Wheaton Municipal Airport, Wheaton, Minnesota, which was established on the basis of a request from the local Airport officials to provide that facility with instrument approach capability. The intended effect of this action is to insure segregation of the aircraft using this approach procedure in instrument weather conditions from other aircraft operating under visual conditions.

DATE: Comments must be received on or before July 10, 1981.

ADDRESS: Send comments on the proposal to FAA Office of Regional Counsel, AGL-7, Attention: Rules Docket Clerk, Docket No. 81-GL-5, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

FOR FURTHER INFORMATION CONTACT: Edward R. Heaps, Airspace and Procedures Branch, Air Traffic Division, AGL-530, FAA, Great Lakes Region, 2300 East Devon Avenue, Des Plaines, Illinois 60018, Telephone (312) 694-7360.

SUPPLEMENTARY INFORMATION: The floor of the controlled airspace in this area will be lowered from 1200' above ground to 700' above ground, except for a small portion of airspace in South Dakota which will be lowered from 3400' to 700' AGL. The development of the proposed instrument procedure requires that the FAA lower the floor of the controlled airspace to insure that the procedure will be contained within controlled airspace. The minimum descent altitude for this procedure may be established below the floor of the 700-foot controlled airspace. In addition, aeronautical maps and charts will reflect the area of the instrument procedure which will enable other aircraft to circumnavigate the area in order to comply with applicable visual flight rule requirements.

Comments Invited

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Regional Counsel, AGL-7, Great Lakes Region, Rules Docket No. 81-GL-5, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before July 10, 1981, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

Availability of NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue SW., Washington, D.C. 20591, or by calling (202) 426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

The Proposal

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to establish a 700-foot controlled airspace transition area near Wheaton, Minnesota. Subpart G of Part 71 was republished in the **Federal Register** on January 2, 1981, (46 FR 540).

The Proposed Amendment

Accordingly, the FAA proposes to amend § 71.181 of Part 71 of the Federal Aviation Regulations as follows:

In § 71.181 (46 FR 540) the following transition area is added:

Wheaton, Minnesota

That airspace extending upward from 700' above the surface within a 6.5-mile radius of the Wheaton Municipal Airport (latitude 45°47'00" N, longitude 96°32'45" W) at Wheaton, Minnesota, and 3 miles either side of the 152° bearing of the Wheaton NDB from 6.5 miles 8.5 miles.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); Sec. 11.61 of the Federal Aviation Regulations (14 CFR 11.61))

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal; (4) is appropriate to have a comment period of less than 45 days; and (5) at promulgation, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Des Plaines, Illinois, on May 19, 1981.

Frederick M. Isaac,

Chief, Airports Division, Director, Great Lakes Region.

14 CFR Part 71

[Airspace Docket No. 81-AWE-10]

Proposed Alteration to Transition Area, Ely, Nevada

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to alter the transition area for the Ely Airport-Yelland Field, Ely, Nevada in order to provide additional controlled airspace for aircraft executing an instrument approach procedure to the Ely Airport-Yelland Field Airport utilizing the Ely, Nevada VORTAC.

DATE: Comments must be received on or before June 25, 1981.

ADDRESSES: Send comments on the proposal in triplicate to Director, Federal Aviation Administration, Attn: Chief, Airspace and Procedures Branch, AWE-530, 15000 Aviation Boulevard, Lawndale, California 90261. A public docket will be available for examination in the Office of the Regional Counsel, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261; telephone: (213) 536-6270.

FOR FURTHER INFORMATION CONTACT: Thomas W. Binczak, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261; telephone: (213) 536-6182.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons may participate in the proposed rulemaking by submitting such written data or arguments as they may desire. Communications should be addressed to Docket Number [illegible] in triplicate to the Chief, [illegible] Procedures Branch, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261. All communications received on or before June 25, 1981, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments received will be available both before and after the closing date for comments in the Rules Docket for examination by interested persons.

Availability of NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Chief, Airspace and Procedures Branch, AWE-530, 15000 Aviation Boulevard, Lawndale, California 90261, or by calling (213) 536-6180. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

The Proposal

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to alter the transition area at Ely, Nevada. This action will provide controlled airspace for aircraft utilizing IFR procedures to and from Ely Airport-Yelland Field.

The Proposed Amendment

Accordingly, the Federal Aviation Administration proposes to amend Subpart G, § 71.181 (46 FR 540) of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) by redescribing the transition area as follows:

§ 71.181 Ely, Nevada.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Ely, Nevada VOR, within 5 miles northeast and 9.5 miles southwest of the Ely VOR 303° radial, extending from the VOR to 18.5 miles northwest; within 3.5 miles each side of the Ely VOR 014° radial, extending from the VOR to 14.5 miles northeast; and that airspace extending upward from 1200 feet above the surface within a 22-mile radius of the Ely VOR; within 7 miles northwest and 10 miles southwest of the Ely VOR 335° radial, extending from the 22-mile radius area to 38 miles northwest of the Ely VOR; and within 5 miles east and 7.5 miles west of the Ely VOR 014° radial, extending from the 22-mile radius area to 24.5 miles north of the Ely VOR.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65)

The FAA has determined that this document involves a regulation which is not significant under Executive Order 12044, as implemented by DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). Since this regulatory action involves an established body of technical requirements for which frequent and routine amendments are necessary to keep them operationally current and promote safe flight operations, the anticipated impact is so minimal that this action does not warrant preparation of a regulatory evaluation.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal; and (4) will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Los Angeles, California on May 21, 1981.

John D. Mattson,

Director, Western Region.

[FR Doc. 81-16821 Filed 6-3-81; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 71

[Airspace Docket No. 81-GL-6]

Proposed Designation of Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The nature of this Federal action is to designate controlled airspace near Red Wing, Minnesota, in order to accommodate a new instrument approach into Red Wing Municipal Airport, Red Wing, Minnesota, which was established on the basis of a request from the local Airport officials to provide that facility with instrument approach capability. The intended effect of this action is to insure segregation of the aircraft using this approach procedure in instrument weather conditions from other aircraft operating under visual conditions.

DATE: Comments must be received on or before July 10, 1981.

ADDRESS: Send comments on the proposal to FAA Office of Regional Counsel, AGL-7, Attention: Rules Docket Clerk, Docket No. 81-GL-6, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

FOR FURTHER INFORMATION CONTACT: Edward R. Heaps, Airspace and Procedures Branch, Air Traffic Division, AGL-530, FAA, Great Lakes Region, 2300 East Devon Avenue, Des Plaines, Illinois 60018, Telephone (312) 694-7360.

SUPPLEMENTARY INFORMATION: The floor of the controlled airspace in this area will be lowered from 1200' above ground to 700' above ground. The development of the proposed instrument procedure requires that the FAA lower the floor of the controlled airspace to insure that the procedure will be contained within controlled airspace. The minimum descent altitude for this procedure may be established below the floor of the 700-foot controlled airspace. In addition, aeronautical maps and charts will reflect the area of the instrument procedure which will enable other aircraft to circumnavigate the area in order to comply with applicable visual flight rule requirements.

Comments Invited

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Regional Counsel, AGL-7, Great Lakes Region, Rules Docket No. 81-GL-6, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before July 10, 1981, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

Availability of NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, S.W., Washington, D.C. 20591, or by calling (202) 426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

The Proposal

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to establish a 700-foot controlled airspace transition area near Red Wing, Minnesota. Subpart G of Part 71 was republished in the **Federal Register** on January 2, 1981, (46 FR 540).

The Proposed Amendment

Accordingly, the FAA proposes to amend § 71.181 of Part 71 of the Federal Aviation Regulations as follows:

In § 71.181 (46 FR 540) the following transition area is added:

Red Wing, Minnesota

That airspace extending upward from 700' above the surface within a 6.5-mile radius of the Red Wing Municipal Airport (latitude 44°35'23" N, Longitude 092°29'07" W) at Red Wing, Minnesota, and within 3 miles either side of the 275° bearing of the Red Wing NDB extending from 6.5 miles to 8.5 miles.

This amendment is proposed under the authority of Section 307(a), Federal

Aviation Act of 1958 (49 U.S.C. 1348(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); Sec. 11.61 of the Federal Aviation Regulations (14 CFR 11.61).

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal; (4) is appropriate to have a comment period of less than 45 days; and (5) at promulgation, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Des Plaines, Illinois, on May 19, 1981.

Frederick M. Isaac,

Acting Director, Great Lakes Region.

[FR Doc. 81-16048 Filed 6-3-81; 8:45 am]

BILLING CODE 4910-13-M

---

14 CFR Part 71

[Airspace Docket No. 81-GL-4]

Proposed Designation of Transition Area

AGENCY: Federal Aviation Administration (FAA) DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The nature of this Federal action is to designate controlled airspace near Owatonna, Minnesota, in order to accommodate a revised instrument approach procedure into the Owatonna Municipal Airport, Owatonna, Minnesota. The intended effect of this action is to insure segregation of the aircraft using this approach procedure in instrument weather conditions from other aircraft operating under visual conditions.

DATE: Comments must be received on or before July 10, 1981.

ADDRESS: Send comments on the proposal to FAA Office of Regional Counsel, AGL-7, Attention: Rules Docket Clerk, Docket No. 81-GL-4, 2300 East Devon Avenue, Des Plaines, Illinois 60018

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

FOR FURTHER INFORMATION CONTACT: Edward R. Heaps, Airspace and Procedures Branch, Air Traffic Division, AGL-530, FAA, Great Lakes Region, 2300 East Devon Avenue, Des Plaines, Illinois 60018, Telephone (312) 694-7360.

SUPPLEMENTARY INFORMATION: The floor of the controlled airspace in this area will be lowered from 1200' above ground to 700' above ground. The development of the proposed instrument procedure requires that the FAA lower the floor of the controlled airspace to insure that the procedure will be contained within controlled airspace. The minimum descent altitude for this procedure may be established below the floor of the 700-foot controlled airspace. In addition, aeronautical maps and charts will reflect the area of the instrument procedure which will enable other aircraft to circumnavigate the area in order to comply with applicable visual flight rule requirements.

Comments Invited

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Regional Counsel, AGL-7, Great Lakes Region, Rules Docket No. 81-GL-4, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before July 10, 1981, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

Availability of NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, S.W., Washington, D.C. 20591, or by calling (202) 426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

The Proposal

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to establish a 700-foot controlled airspace transition area near Owatonna, Minnesota. Subpart G of Part 71 was republished in the **Federal Register** on January 2, 1981, (46 FR 540).

The Proposed Amendment

Accordingly, the FAA proposes to amend § 71.181 of Part 71 of the Federal Aviation Regulations as follows:

In § 71.181 (46 FR 540) the following transition area is added:

Owatonna, Minnesota

That airspace extending upward from 700' above the surface within a 7-mile radius of Owatonna Municipal Airport (latitude 44°07'15"N, longitude 093°15'16"W) and within 2 miles each side of the 316° bearing from the Owatonna Municipal Airport from the 7-mile radius to 8 miles northwest of the airport excluding the portion within the Faribault, Minnesota, transition area.

This amendment is proposed under the authority of Section 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); Sec. 11.6 of the Federal Aviation Regulations (14 CFR 11.61).

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal; (4) is appropriate to have a comment period of less than 45 days; and (5) at promulgation, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Des Plaines, Illinois, on May 19, 1981.

Frederick M. Isaac,

Acting Director, Great Lakes Region.

Correction

In FR Doc. 81-15439 appearing at page 27721 in the issue of Thursday, May 21, 1981, please make the following correction:

On page 27721, under the column "DATES:", the fifth line, the telephone

number which reads "(202) 634–700" should be corrected to read "(202) 634–7700", and the word "by" should be added following the telephone number and before the word "June" which is the first word of the sixth line.

BILLING CODE 1505-01-M

COMMODITY FUTURES TRADING COMMISSION

17 CFR Ch. I

Regulatory Flexibility Act; Plan for the Periodic Review of Rules

AGENCY: Commodity Futures Trading Commission.

ACTION: Publication of a Plan for the Periodic Review of Commission Rules.

SUMMARY: The Commodity Futures Trading Commission, in accordance with the Regulatory Flexibility Act, is publishing a plan for the periodic review of rules which have or will have a significant economic impact on a substantial number of small entities. Under the plan, a year of review will be scheduled for rules affecting each major category of entity regulated by the Commission. The substantive rules of the Commission relating to that category will be reviewed within that year's time. The first of the scheduled reviews will commence five years hence.

FOR FURTHER INFORMATION CONTACT: Nancy Yanofsky, Office of the General Counsel, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581, Telephone: (202) 254–5716.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act, Pub. L. 96–354, 94 Stat. 1164, 5 U.S.C. § 601 *et seq.*, ("RFA"), requires each agency to consider the effect on small entities of the substantive rules it promulgates. In this regard, Section 610 of the RFA, 5 U.S.C. Section 610, provides in part:

> Within one hundred and eighty days after the effective date of this chapter, each agency shall publish in the Federal Register a plan for the periodic review of the rules issued by the agency which have or will have a significant economic impact upon a substantial number of small entities. Such plan may be amended by the agency at any time by publishing the revision in the Federal Register. The purpose of the review shall be to determine whether such rules should be continued without change, or should be amended or rescinded, consistent with the stated objectives of applicable statutes, to minimize any significant economic impact of the rules upon a substantial number of such small entities. The plan shall provide for the review of all such agency rules existing on the effective date of this chapter within ten years of that date and for the review of such rules adopted after the effective date of this chapter within ten years of the publication of such rules as the final rule. . . .

Accordingly, the Commission has prepared a plan for review of those of its rules which may have significant economic impact on small entities regulated by the Commission.

The rules of the Commission are set forth in a number of Parts which constitute Chapter I of Title 17 of the Code of Federal Regulations. Those rules which set forth substantive requirements for entities regulated by the Commission are set forth in separate Parts, each generally concerning a particular category of affected entities. For example, the regulations set forth in Parts 1, 17 and 155 of the Commission's rules generally deal with requirements imposed on futures Commission merchants ("FCMs"), while Part 4 of the Commission's rules concerns commodity pool operators ("CPOs") and commodity trading advisors ("CTAs"). Parts 8, 16 and 100 generally deal with contract markets, and Parts 18 and 19 generally concern large traders.[1] Thus, it appears appropriate that the Commission conduct its review of substantive rules in accordance with their existing organization, and that all Parts primarily relating to one of the major categories of entities regulated by the Commission—contract markets, floor brokers, FCMs, CPOs, CTAs and large traders—be reviewed together. The Commission believes it is feasible to complete review of those rules relating to each of the categories of regulated entities within a year's time.[2]

In establishing this plan for review of its rules, the Commission notes that it has taken into account the fact that many of the rules in chapter 1 were adopted by the Commission since it commenced operation in April 1975 and thus have been in existence for less than six years. Further, some major aspects of its rules applicable to regulated entities have recently undergone major revision. Thus, minimum financial requirements for FCMs have recently been revised, and additional revisions have been proposed.[3] Further, a complete revision of Part 4 of the Commission's rules, concerning requirements imposed on CPOs and CTAs, has recently been adopted.[4] Consequently the Commission does not believe it necessary to undertake review of its rules, for purposes of the RFA, during the next five years, and believes that it would be most appropriate to undertake much of its review toward the end of the ten-year period prescribed by the RFA.[5]

The RFA requires that the review of all rules existing on January 1, 1981 be completed by January 1, 1991.[6] The RFA further requires that:

> Each year, each agency shall publish in the **Federal Register** a list of the rules which have a significant economic impact on a substantial number of small entities, which are to be reviewed pursuant to this section during the succeeding twelve months. The list shall include a brief description of each rule and the need for and legal basis of such rule and shall invite public comment upon the rule.

5 U.S.C. § 610(c).

The Commission believes that it may most effectively implement this

---

[1] Several of the rules in Part I concern contract markets (*e.g.*, Rules 1.41–1.45, 1.50–1.54, 1.60), or traders (*e.g.*, Rules 1.47–1.48), rather than FCMs, and some rules in Part I apply to all persons regulated by the Commission (*e.g.*, Rule 1.31 concerning general record-keeping requirements), or to all FCMs and contract market members (*e.g.*, Rule 1.35(a)). Those rules which apply primarily to contract markets and their members, large traders or entities other than FCMs will be reviewed together with the rules concerning that entity. The more general rules applying to all FCMs and others will be reviewed together with all rules applying to FCMs. Similar considerations apply to Parts 15, 21, 155 and 166. In this connection, Section 605(c) of the RFA, 5 U.S.C. § 605(c), provides that "in order to avoid duplicative action, an agency may consider a series of closely-related rules as one rule for the purposes of section . . . 610 of this Title."

[2] The Commission notes that it has proposed its own definitions of "small entities" for purposes of the RFA. 46 FR 23940 (April 29, 1981). The Commission proposes that designated contract markets and registered FCMs and CPOs not be considered small entities. In addition, those business concerns which are large traders in commodity futures would not be considered small entities for purposes of the Commission's large trader reporting requirements. If the proposed definitions are adopted, many of the Commission rules listed at the end of this release as scheduled for review will not in fact require review. If, however, the task of review proves to require more extensive analysis of all rules applicable to a particular category of regulated entity, and the task proves too great to be accomplished within a year, the Commission notes that the RFA permits the extension of the completion date by one year at a time for a total of not more than five years. 5 U.S.C. § 610.

[3] See Minimum financial Reporting Requirements, 45 FR 79416, 79498 (Dec. 1, 1980); Extension of Comment Period, 46 FR 16691 (March 13, 1981).

[4] See 46 FR 28004 (May 8, 1981).

[5] The RFA provides that in reviewing rules, one factor to be considered is "the length of time since the rule has been evaluated or the degree to which technology, economic conditions, or other factors have changed in the area affected by the rule." 5 U.S.C. Section 610(b)(5).

[6] In this regard, the Commission notes that, since it plans to review such rules in the context of the category of regulated entity to which it applies, it expects that rules promulgated since January 1, 1981 will be reviewed at the same time as the other rules concerning that category. If, however, that proves unfeasible because the new rule is promulgated shortly before the review period for that category or because the rule represents a major revision in itself, a separate date for review will be established in accordance with 5 U.S.C. Section 610(a).

requirement by completing its annual review for the preceding year, and commencing review of those rules scheduled for the next twelve months, at the time it publishes its regulatory flexibility agenda in October of each year.[7] In this way, it will be able at the same time to publish in the agenda any contemplated rule revisions resulting from the previous year's review of existing rules. Therefore, the Commission proposes to commence and complete its annual reviews by November 1 of each year, in accordance with the following schedule:[8]

Subject	Commission rules	Review period
Rules primarily related to FCMs	Parts 1 (except Rules 1.35(c)–(h), 1.38–1.39, 1.41–1.45, 1.47–1.54, 1.60), 17, 21, 155 (except Rule 155.2) and 166, and Rule 15.05	November 1985–October 1986
Rules primarily related to CPOs and CTAs	Part 4	November 1986–October 1987
Registration rules[9]	Part 3	November 1987–October 1988
Rules primarily related to large traders	Parts 15 (except Rule 15.05), 18, 19 and 150, and Rules 1.47–1.48	November 1988–October 1989
Rules primarily related to contract markets and floor brokers	Parts 7, 8, 16, 20, 100 and 180, and Rules 1.35(c)–(h), 1.38–1.39, 1.41–1.45, 1.50–154, 1.60 and 155.2	November 1989–October 1990

[9] The Commission has recently designated a new Part 3 of its rules, and consolidated in that Part most of its procedures for registration with the Commission. Thus, procedures for the registration of FCMs, associated persons of FCMS, CPOs and CTAs will be set forth in Part 3, replacing present Rules 1.7–1.10(a)(1), 1.10a–1.11, and 1.13–1.15. Part 3 will not, however, be effective until July 1, 1982. See Revision of Registration regulations, Final Rules, Designation of New Part, 45 FR 80485 (Dec. 5, 1980), deferral of effective date, 46 FR 24941 (May 4, 1981). Consequently, review of this Part has been scheduled to occur after review of the other rules relating to FCM, CPOs and CTAs.

Issued in Washington, D.C., on May 28, 1981, by the Commission.

Jane K. Stuckey,

Secretary of the Commission.

Social Security Administration

20 CFR Part 404

Federal Old-Age, Survivors, and Disability Insurance; Decreased; Retroactivity of Benefit Applications

AGENCY: Social Security Administration, HHS.

ACTION: Notice of decision to develop regulations.

SUMMARY: The Social Security Administration plans to revise its regulations on applications to reflect a 1980 change in the law which reduces from 12 months to 6 months the maximum retroactivity of all applications for social security insurance benefits that are not based on the worker's disability or the disability of a widow or widower. The applications affected are those for old-age benefits, widow's and widower's benefits not based on disability, wife's, husband's, and child's benefits based on the earnings record of a person not entitled to disability benefits, and mother's, father's, and parent's benefits. This change is required by section 1011 of the Omnibus Reconciliation Act of 1980 (Pub. L. 96-499) and affects applications filed after February 1981. The revision will change 20 CFR 404.621(a), 404.622, and 404.603(b). HHS has determined that the proposed amendment to the regulations does not meet the criteria in Executive Order 12291 for a major regulation.

FOR FURTHER INFORMATION CONTACT: Linda Freud, 1121 West High Rise Building, 6401 Security Boulevard, Baltimore, Maryland 21235, telephone (301) 594-2539.

Dated: May 4, 1981.

Herbert R. Doggette, Jr.,

Acting Commissioner of Social Security.

BILLING CODE 4110-07-M

---

[7] The RFA requires that a regulatory flexibility agenda, describing those rules which an agency expects to propose or promulgate which are likely to have a significant economic impact on a substantial number of small entities, be published in October and April of each year. 5 U.S.C. section 602(a).

[8] The following Parts of the Commission rules are not included in the plan for review, for the reasons stated:

—Parts 2, 9, 10, 11, 12, 13, 14, 140, 145, 146 and 147 relate solely to agency organization, procedure and practice and therefore are not rules requiring regulatory flexibility analysis within the meaning of the RFA. See 5 U.S.C. section 601(2).

—Part 30 sets forth a general rule on fraud in connection with commodity transactions, and has no significant economic impact on a substantial number of small entities.

—Part 31 sets forth rules establishing a temporary moratorium on "leverage transactions," and regulates those few leverage firms who are exempt from the moratorium. The few businesses engaged in these transactions do not constitute "a substantial number of small entities."

—Part 32 covers commodity option transactions and provides in section 32.11 for a ban on most commodity options, except for "trade options" and "dealer options." The Commission does not have rules specifically regulating transactions in trade options. The few businesses engaged in "dealer option" transactions with the public do not constitute "a substantial number of small entities." See Proposed Reissuance of and Amendments to Regulations Permitting the Grant, Offer and Sale of Options on Physical Commodities, 46 FR 23469, 23477 (April 27, 1981).

—Part 170 sets forth standards governing Commission review of applications for registration as a futures association under Section 17 of the Act. Such an association, if registered, would constitute a self-regulatory organization for various entities regulated by the Commission, and would not in itself be a small entity.

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 162

[CGD 79–120]

Regulated Navigation Areas—Chesapeake Bay Entrance

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

SUMMARY: The Coast Guard is proposing to remove § 162.50 of its regulations which covers navigation in Thimble Shoal Channel, Chesapeake Bay. This removal is necessary to resolve a conflict over the size of the draft of vessels allowed to navigate the Thimble Shoal Channel. In § 162.50, vessels must have a draft of 20 feet or more. In § 128.501(c)(4) the requirement is that vessels using the channel for navigation must have a draft not less than 25 feet. The conflict between these two regulations has caused much confusion. The removal of the 20 foot limitation as stated in § 162.50 should eliminate this confusion.

DATE: Comments may be received on or before July 20, 1981.

ADDRESSES: Comments may be mailed to Commandant (G–CMC/24) (CGD 79–120), U.S Coast Guard, Washington, DC 20593. Comments may be delivered to and will be available for inspection or copying at the Marine Safety Council (G–CMC/24), Room 2418, U.S. Coast Guard Headquarters, 2100 Second Street, SW., Washington, DC, between 7:00 a.m. and 5:00 p.m., Monday through Thursday, except holidays.

FOR FURTHER INFORMATION CONTACT: Ensign Edward G. LeBlanc, Office of Marine Environment and Systems (G–WWM–2), Room 1608, U.S. Coast Guard Headquarters, 2100 Second Street, SW., Washington, DC 20593, (202) 426–4958 between 7:00 a.m. and 4:30 p.m., Monday through Thursday, except holidays.

SUPPLEMENTARY INFORMATION: The public is invited to participate in this proposed rulemaking by submitting written views, data, or arguments. Comments should include the name and address of the person submitting them, identify this notice (CGD 79–120) and the specific section of the proposal to which each comment applies, and give the reasons for the comments. If acknowledgment is desired, a stamped addressed post card should be enclosed. All comments received before the expiration of the comment period will be considered before final action is taken on this proposal. No public hearing is planned, but one may be held at a time and place to be set in a later notice in the **Federal Register** if requested in writing by an interested person raising a genuine issue and desiring to comment orally at a public hearing.

Drafting Information

The principal persons involved in the drafting of this proposal are: Ensign Edward G. LeBlanc, Project Manager, Office of Marine Environment and Systems, and Lieutenant George J. Jordan, Project Counsel, Office of the Chief Counsel.

Discussion of the Proposed Regulation

In 1948 the Corps of Engineers (COE) promulgated regulations for the Thimble Shoals Channel at the entrance to Chesapeake Bay (33 CFR 207.140). These regulations limited use of the main channel to vessels with drafts of 20 feet or more. Other vessels would have to use the auxiliary channels which are immediately adjacent to the main channel. These regulations included an exemption for passenger-carrying vessels and certain emergency uses.

In 1974 the Coast Guard established a regulated navigation area to protect the Chesapeake Bay Bridge-Tunnel (CBBT) under the authority of the Ports and Waterways Safety Act of 1972 (33 U.S.C. 1221). These regulations increased the draft limitation to 25 feet and removed the exemption for passenger-carrying vessels.

The preamble to the notice of proposed rulemaking (38 FR 34779, Dec. 18, 1973) stated that the Corps of Engineers would revoke their regulation after the regulated navigation area was established. However, this revocation was never done.

Enforcement responsibility for certain Inland Waterways Navigation Regulations was transferred from the U.S. Army Corps of Engineers to the Coast Guard on September 29, 1977 (42 FR 51758). At the time of the transfer, only minor changes, such as changing the term "District Engineer" to either "District Commander" or "Captain of the Port" as appropriate, were made to make the regulations compatible with Coast Guard operations. During this transfer 33 CFR 207.140 was inadvertently transferred to the Coast Guard and redesignated 33 CFR 162.50.

Because the regulations in Part 128 and Part 162 are inconsistent concerning draft limitations, confusion has occurred between vessels navigating Thimble Shoal Channel. The Coast Guard therefore proposes to reconcile these differences by deleting § 162.50.

When the Coast Guard proposed adopting a 25 foot draft restriction in 39 FR 32132, September 5, 1974, only one comment was received concerning the draft limitation and that comment dealt with the conditions when shallow draft vessels would be permitted to use the main channel. Since authorization to use the main channel by shallow draft vessels can be obtained from the COTP under § 128.501(c)(9)(i), this comment was not acted upon.

The Coast Guard's basis of concern is that shallow draft vessels are now frequently transiting the channel, creating a potentially hazardous situation with larger, less maneuverable vessels. The inconsistency of draft limitation requirements between the two sections will be eliminated, with the 20 foot limitation now contained in § 162.50(a) being deleted and the 25 foot limitation in § 128.501(c)(4) becoming effective for all vessels.

Because the provisions of § 162.50 (b) and (c) are also provided for in § 128.501 (c)(1) and (c)(8) respectively, § 162.50 will be deleted in its entirety to avoid redundancy.

Evaluation

The proposal regulations have been evaluated under Executive Order 12291 and the Coast Guard has determined that this proposal is not a major regulation. The proposed regulations have also been evaluated under the Department of Transportation Order 2100.5, "Policies and Procedures for Simplification, Analysis and Review of Regulations," dated May 22, 1980 and have been determined to be nonsignificant. The reason for this determination is that this amendment is primarily editorial, the impact is minimal, and the only requirement on vessels with 20–25 foot drafts is that they use the immediately adjacent channels instead of the main channel. The impact is considered so minimal that a draft evaluation is not required.

For these reasons, pursuant to section 605(b) of the Regulatory Flexibility Act (94 Stat. 1164, Pub. L. 96–354, September 19, 1980), it is certified that the proposed amendments will not have a significant economic impact on a substantial number of small entities.

In consideration of the above, it is proposed that Title 33 of the Code of Federal Regulations be amended as follows:

PART 162—INLAND WATERWAYS NAVIGATION REGULATIONS

§ 162.50 [Removed]

1. By removing § 162.50.

Dated: April 21, 1981.

GENERAL SERVICES ADMINISTRATION

41 CFR Part 101-4

Licensing of Federally Owned Inventions

AGENCY: General Services Administration.

ACTION: Notice of availability and request for comment on draft regulation.

SUMMARY: Public Law 96-517 provided a statutory basis for the licensing of federally owned inventions. The statute provided further that implementing regulations be prescribed by the General Services Administration. A draft of such regulations has been developed by the Patent Subcommittee of the Interagency Procurement Policy Committee, GSA. When published the regulation will replace the regulations currently prescribed in 41 CFR 101-4.1 of the Code of Federal Regulations (i.e., the Federal Property Management Regulations).

Since the statute becomes effective July 1, 1981, it will be necessary for us to publish the regulation initially in its present form and prior to the receipt of comments in order to satisfy the statute. After the receipt of comments, we will revise the regulation, as appropriate.

DATE: Comments should be submitted on or before July 31, 1981.

ADDRESS: Interested parties may obtain copies of the draft regulation and submit comments to the Federal Procurement Regulations Directorate (VR), GSA, Room 1107, Crystal Square Bldg. 5, Washington, D.C. 20406.

FOR FURTHER INFORMATION CONTACT: Philip G. Read, Director, Federal Procurement Regulations Directorate, telephone 703-557-8947.

Dated: June 1, 1981.

William B. Ferguson,

Acting Assistant Administrator for Acquisition Policy.

BILLING CODE 6820-61-M

DEPARTMENT OF THE INTERIOR

Geological Survey

43 CFR Part 35

Nondiscrimination Against Minority and Women-Owned Business Enterprises in Outer Continental Shelf Leasing Activities

AGENCY: U.S. Geological Survey, Department of the Interior.

ACTION: Notice of proposed rulemaking.

SUMMARY: On December 3, 1980, the Department of the Interior published in the **Federal Register** a notice of final rulemaking concerning 43 CFR Part 35, relating to Nondiscrimination Against Minority and Women-owned Business Enterprises in Outer Continental Shelf Leasing Activities. The effective date of the rule was January 2, 1981. Upon request of the Office of Management and Budget (OMB), the reporting and recordkeeping requirements of the regulations were suspended on February 26, 1981. The Department of the Interior now proposes to rescind the final rule.

DATE: Comments on this proposal to rescind the rule must be received on or before July 6, 1981.

ADDRESSES: Comments may be mailed to: David A. Schuenke, Chief, Branch of Offshore Rules and Procedures, Conservation Division, U.S. Geological Survey, National Center, Mail Stop 640, Reston, Virginia 22092.

FOR FURTHER INFORMATION CONTACT: David A. Schuenke, (703) 860-7395, (FTS) 928-7395.

SUPPLEMENTARY INFORMATION: In the legislative history of the 1978 amendments to the OCS Lands Act, Congress expressed concern that existing Federal equal employment and procurement programs might not be applicable to OCS activities. In Section 604 of the Act, Congress required the Department to take such affirmative action as it deemed necessary to prohibit unlawful employment practices and to assure that no person is excluded from participation in OCS activities on the basis of unlawful discrimination. The law authorizes the Department to promulgate such rules as are necessary to implement affirmative action.

Following the notice of final rulemaking, the Department received from industry numerous comments and petitions for reconsideration of the necessity for the rule. The Secretary believes there is merit in the legal arguments presented in the petitions for reconsideration of the regulations. The comments from industry evidence a history of voluntary commitments and programs that support equal opportunity for the socially and economically disadvantaged. The comments indicated that reports and records of such activities are already provided to other Federal Agencies and, therefore, would be available to the Department if needed. Furthermore, there has been no showing of unlawful discriminate practices on the OCS to necessitate regulatory requirements.

The Secretary has reconsidered the rule and determined that existing programs and Federal regulatory requirements are sufficient to meet his affirmative action responsibilities. Therefore, it is proposed to rescind 43 CFR Part 35.

PART 43 [REMOVED]

Environmental Impact Analysis, Regulatory Analysis, and Small Entity Flexibility Analysis.

The Department of the Interior has determined that proposed rescission of these regulations, 43 CFR Part 35, does

not constitute a major Federal action significantly affecting the quality of the human environment and, therefore, preparation of an Environmental Impact Statement is not required. The Department has determined that the proposed rescission is not a major action and does not require the preparation of a Regulatory Impact Analysis under Executive Order 12291. The Department has also determined that rescission of the rule will not have a significant economic impact on a substantial number of small entities, thus a small entity flexibility analysis is not required.

May 7, 1981.

Perry Pendley

Deputy Assistant Secretary of the Interior.

[FR Doc. 81-16624 Filed 6-3-81; 8:45 am]

BILLING CODE 4310-31-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 67

[Docket No. FEMA-5843]

National Flood Insurance Program; Proposed Flood Elevation Determinations; Correction

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule; correction.

SUMMARY: This document corrects a Notice of Proposed Determinations of base (100-year) flood elevations for selected locations in the Township of Delaware, Hunterdon County, New Jersey, previously published at 45 FR 42701 on June 25, 1981.

EFFECTIVE DATE: June 4, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, Federal Emergency Management Agency, Federal Insurance Administration, National Flood Insurance Program, 9202) 755–5585, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the correction to the Notice of Proposed Determinations of base (100-year) flood elevations for selected locations in the Township of Delaware, Hunterdon County, New Jersey, previously published at 45 FR 42701 on June 25, 1981, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448)), 42 U.S.C. 4001–4128, and 44 CFR 67.4(a).

In order for the following locations to be correctly identified with the corresponding Flood Insurance Study (profile) and Flood Insurance Rate Map for Brookville Creek, Wickecheoke Creek, and Third Neshanic River in the Township of Delaware, New Jersey, the descriptions should be amended to read as follows.

Source of flooding	Location	Elevation in feet national geodetic vertical datum
Brookville Creek.	700' upstream of Stone Dam (broken).	*152
Wickecheoke Creek.	1,600' above Lower Creek Road.	*135
	3,600' upstream of Lower Creek Road.	*149
Third Neshanic River.	Approximately 400' upstream of downstream crossing of Brion Road.	*220

National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator

Issued: May 20, 1981.

Richard W. Krimm,

Acting Administrator, Federal Insurance Administration.

[FR Doc. 81-16530 Filed 6-3-81; 8:45 am]

BILLING CODE 6718-03-M

44 CFR Part 67

[Docket No. FEMA-6073]

National Flood Insurance Program; Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the nation. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: See table below.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, National Flood Insurance Program, (202) 426–1460 or Toll Free Line (800) 424–8872 (In Alaska and Hawaii call Toll Free Line (800) 424–9080), Federal Emergency Management Agency, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for selected locations in the nation, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448)), 42 U.S.C. 4001–4128, and 44 CFR Part 67.4(a).

These elevations, together with the flood plain management measures required by section 60.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State or Regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

V46/107 JE4 81 UMI

The proposed base (100-year) flood elevations for selected locations are:

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of Child Support Enforcement

45 CFR Part 304

Federal Financial Participation in Costs of Cooperative Agreements With Courts and Law Enforcement Officials

AGENCY: Office of Child Support Enforcement (OCSE), Department of Health and Human Services.

ACTION: Notice of proposed rulemaking.

SUMMARY: The child support enforcement program in many States relies heavily on the cooperation of courts for the processing of child support cases. Some courts have experienced marked increases in the volume of such cases as a direct result of the IV–D program. To compensate courts for this increased activity, title IV–D of the Social Security Act permits Federal matching for IV–D related court costs by means of cooperative agreements between courts and IV–D agencies. In addition, title IV–D permits child support agencies to enter into similar cooperative arrangements with certain law enforcement officials to provide for the prosecution of child support cases.

Section 404 of Pub. L. 96–265, the Social Security Disability Amendments of 1980, amended Section 455 of the Social Security Act effective July 1, 1980 to expand the availability of Federal financial participation (FFP) in court costs. This statute for the first time permits FFP in certain costs incurred by courts in connection with the actual judicial decision making process. These proposed regulations implement the new statutory provisions. In addition, OCSE proposes several changes in the language of the existing regulations at 45 CFR 304.21 to provide greater clarity for users of the regulations. No substantive changes are proposed with respect to agreements with law enforcement officials.

DATE: Consideration will be given to written comments and suggestions received by August 3, 1981.

ADDRESS: Address comments to: Director, Office of Child Support Enforcement, Department of Health and Human Services, Suite 900, 6110 Executive Blvd., Rockville, Maryland 20852, ATTN: Policy Branch. Agencies and organizations are requested to submit comments in duplicate. The comments will be available for public inspection Monday through Friday, 8:30 a.m. to 5:00 p.m., in Room 1010 of the Department's offices at the address above.

FOR FURTHER INFORMATION CONTACT: Eileen Brooks, Policy Branch, OCSE, telephone (301) 443–5350.

SUPPLEMENTARY INFORMATION:

Background

Federal policy governing the financing of prosecutorial law enforcement officials under agreements with IV–D agencies has undergone little change since the inception of the IV–D program. However, the policy with respect to courts has been gradually liberalized to permit increased Federal financial participation.

Original Federal policy under title IV–D provided FFP only in costs of compensation of certain court employees performing IV–D functions. FFP in all the administrative costs in support of these individuals and all other ordinary administrative costs of the judiciary system was prohibited under this early policy.

An expanded level of FFP in court costs was established by a final rule published by OCSE July 31, 1978 (43 FR 33249). It was later applied retroactively to July 1, 1975 under an amendment published October 3, 1979 (44 FR 56939). This expanded FFP is provided for in existing regulations at 45 CFR 304.21.

These regulations prohibit FFP in "any costs incurred by a court in making judicial determinations," including both personnel and administrative court costs associated with the judicial determination process. Under these regulations, however, FFP is available in the costs of compensation of non-judicial staff and in certain administrative costs, such as office space, furnishings, supplies, computers, etc., incurred in providing child support enforcement services under the IV–D program. Costs of compensation of court referees and court masters are also eligible for FFP, but only if the referee or master does not make the actual judicial determination or sign the court order.

The Department has historically distinguished the costs of making judicial determinations from the costs of performing other child support functions, such as collection and enforcement, under cooperative agreements with courts. It has been our position that funding the costs of judicial decision making could raise questions concerning the impartiality of the judicial process. Thus, while OCSE policy has permitted FFP in certain costs incurred by courts in providing IV–D services in the interest of encouraging expansion and improvement of the child support enforcement program, it has not permitted FFP in any personnel or other administrative costs incurred in the course of the judicial determination process.

New Statutory Provisions

Effective July 1, 1980, Section 404(a) of Pub. L. 96–265 expands the availability of FFP in IV–D related court activities. Personnel and administrative costs incurred in making judicial determinations with respect to cases receiving child support enforcement services under a State's IV–D plan are now eligible for FFP under the amended statute, with the exception of "expenditures for, or in connection with, judges and other individuals making judicial determinations." Further, Section 404 also provides that FFP in these newly eligible costs is available only in costs above the calendar year 1978 level. The latter provision is discussed in greater detail below under the heading, "Maintenance of Effort Provision."

New Expenditures for Which FFP Is Available

Section 404(a) of Pub. L. 96–265 permits FFP in the costs of support staff and administration of court activities related to judicial determinations with respect to cases receiving services under the IV–D State plan. Under Section 404 the costs of judicial support staff such as bailiff, stenographer and court recorder, which were previously ineligible because they are costs related to judicial determinations, are now eligible for Federal matching. In addition, administrative costs of courts attributable to judicial determinations, with the exception of those administrative costs directly related to the judicial decision maker, are now eligible for FFP under the Child Support Enforcement program. We propose to define these eligible administrative costs to include office space, equipment, furnishings, travel and supplies incurred on behalf of judicial support staff performing IV–D functions under a cooperative agreement.

Under the provisions of Pub. L. 96–265, the prohibition against FFP in costs directly associated with judges and other officials who make judicial decisions remains in effect. Thus, these proposed regulations at 45 CFR 304.21(b) specify that court costs which remain *ineligible* for FFP are those associated with compensation of judges and other individuals who make judicial determinations, as well as the costs of personal office space, equipment, furnishings, travel, training and supplies incurred on behalf of such persons.

Maintenance of Effort Provision

Section 404(a) of Pub. L. 96–265 provides that "the aggregate amount of the expenditures" for which reimbursement is claimed under this statute must be "reduced (but not below zero) by the total amount of [such] expenditures * * * which were made by the State for the 12-month period beginning January 1, 1978." This provision insures that the Federal role with respect to the newly eligible court costs is one of encouraging increased court time for cases receiving IV–D services through State and local courts under cooperative agreements, rather than matching expenses which have been financed solely by State and local governments before Federal assistance was available.

Although the statute quoted above refers to 1978 expenditures "made by the State," OCSE proposes to interpret the statutory maintenance of effort provision as applying to each cooperative agreement under which FFP is claimed. We believe this is the most practical interpretation of this requirement because it will necessitate that expenditure totals be accumulated only one time, generally at the local level. A statewide expenditure total would require that aggregate court costs for all cooperative agreements be maintained by the State in addition to costs for each individual agreement. Only when the aggregate Statewide costs were exceeded would any of the costs of making judicial determinations be eligible for FFP. Under a Statewide application of the maintenance of effort clause, the impact of courts that refuse to participate in the expansion of IV–D activities permitted by the new statute would be to increase the 1978 base year "deductible" expenditures without adding to the eligible expenditures for the current period. This would be burdensome on the those courts interested in participating. Accumulating costs on the State level could thus frustrate the intent of Congress by discouraging increased court participation in the adjudication of IV–D cases in those courts that are willing to increase their expenditures. We believe that applying the maintenance of effort requirements by agreement rather than Statewide is therefore more advantageous to interested courts, in addition to being more practical.

For the above reasons, then, we propose at 45 CFR 304.21(c) that for each cooperative agreement, the State or local jurisdiction must spend up to its calendar year 1978 level of expenditures for the activities eligible under Section 404 of Pub. L. 96–265 before it can receive FFP in expenditures for IV–D judicial determinations above this level. This rule would apply both to agreement covering individual courts and those covering multiple courts. The administration of this provision would require that 1978 expenditures for applicable eligible items be reconstructed for each cooperative agreement.

Reconstruction of 1978 Costs

According to Section 404(a), the 1978 costs which must be subtracted from claims for FFP in the newly covered court activities are those "attributable to the performance of services which are directly related to, and clearly identifiable with, the operation of [the IV–D State] plan." Thus, the 1978 base period expenditures which are reconstructed by courts in order to make claims for FFP under Section 404 should include only expenditures incurred on behalf of cases receiving services under the IV–D State plan. Cases receiving services under the IV–D State plan during the 1978 base period are those for which either (a) an assignment under 45 CFR 232.11 was in effect, or (b) an application for services under 45 CFR 302.33 had been made. Expenditures for other types of child support cases must

not be included in the reported calendar year 1978 costs.

Section 404(a) specifies that the 1978 base period expenditures which are used to reduce the amount of Federal reimbursement for the newly eligible costs must be the "total amount" of such costs which were incurred in 1978. OCSE interprets this to apply even if claims filed under an agreement do not include all the costs for which reimbursement is available under Section 404. Therefore, we propose that the 1978 base period expenditure figure for each agreement must include *all* the costs incurred in calendar year 1978 for the activities now eligible under Section 404, regardless of whether all such costs are currently claimed for reimbursement under the agreement.

Determination of 1978 base period expenditures may prove to be administratively difficult for courts which did not keep records according to IV–D case costs in 1978 and are now required to reconstruct these costs in retrospect. In recognition of this potential difficulty, which is unavoidable under the requirements of the statute, OCSE has instructed its regional offices to assist States in developing acceptable methods of reconstructing 1978 costs incurred on behalf of IV–D cases. The regulations at § 304.21(e) specify that the method used to reconstruct 1978 costs must conform to OCSE instructions and, as required, must be approved by the regional office. Specific instructions on documentation required to support claims for FFP under cooperative agreements are contained in OCSE–AT–77–3, dated January 28, 1977. The acceptable methods for documenting costs in OCSE–AT–77–3 are: daily time records, predetermined fixed rates negotiated with the IV–D agency, sampling techniques, and other alternative methods the IV–D agency may propose. OCSE proposes at § 304.21(e) that any method used to reconstruct 1978 costs must receive prior approval by the regional office.

State Agency Requirement

In order both to provide a record of the 1978 expenditure levels required by the statute and to encourage State oversight with regard to the new expenditure items, OCSE proposes at § 304.21(d) to require State IV–D agencies to submit a 1978 expenditure figure to the Regional Office for each cooperative agreement under which FFP is claimed for costs associated with judicial decisions. This requirement would apply both to existing and to new cooperative agreements. The 1978 figures must be calculated according to an approved methodology, as noted above. Again, this rule would apply by agreement, not necessarily by court, so that only one 1978 expenditure figure would be submitted for each agreement, regardless of the number of courts under that agreement.

OMB Review

The Department is required to submit to the Office of Management and Budget for review and approval the proposed amendment to 45 CFR 304.21 because of its impact on recordkeeping and reporting requirements. The Department will submit this section to OMB.

Interim Instructions

Section 404 of Pub. L. 96–265 was effective July 1, 1980. Because of the short time between enactment of the statute and its effective date, OCSE issued an Action Transmittal (OCSE–AT–80–14, dated August 29, 1980) to establish interim procedures for FFP in the newly eligible court costs, pending the development of regulations for this purpose. A subsequent Action Transmittal (OCSE–AT–80–17, dated December 5, 1980) revised certain instructions contained in the earlier Action Transmittal. The instructions contained in these Action Transmittals are generally consistent with these proposed regulations, and will be effective until final regulations are published.

For the reasons discussed in the preamble, OCSE proposes to revise 45 CFR 304.21 to read as follows:

§ 304.21 Federal financial participation in the costs of cooperative agreements with courts and law enforcement officials.

(a) *General.* Subject to the conditions and limitations specified in this Part, Federal financial participation (FFP) at the 75 percent rate is available in the costs of cooperative agreements with appropriate courts and law enforcement officials in accordance with the requirements of § 302.34 of this chapter. "Law enforcement officials" means district attorneys, attorneys general, and similar public attorneys and prosecutors and their staff. When performed under written agreement, costs of the following activities are subject to reimbursement:

(1) The activities, including administration of such activities, specified in § 304.20(b)(2)–(8) of this chapter;

(2) Reasonable and essential short term training of court and law enforcement staff assigned on a full or part time basis to child support enforcement functions under the cooperative agreement.

(b) *Limitations.* Federal financial participation is not available in:

(1) Service of process and court filing fees unless the court or the law enforcement agency would normally be required to pay the cost of such fees;

(2) Costs of compensation (salary and fringe benefits) of judges or other individuals who make judicial decisions.

(3) Costs of travel or training incurred by judges or other officials who make judicial determinations.

(4) Office related costs, such as office space, equipment, furnishings and supplies, incurred for judges or other officials who make judicial determinations.

(c) *Special conditions pertaining to costs of judicial determinations.* FFP in the costs of judicial determinations incurred by courts under cooperative agreements is subject to the following conditions:

(1) Administrative and personnel costs incurred by courts as part of the judicial determination process are eligible for FFP in that portion of the costs which in any calendar year exceeds the total amount of expenditures incurred in making judicial determinations on behalf of cases receiving services under the IV–D State plan during calendar year 1978, with the exception of the limitations specified in paragraph (b) of this section.

(2) Claims for FFP in expenditures incurred under paragraph (c)(1) of this section with respect to a particular cooperative agreement will be paid only after such expenditures within the calendar year exceed the level of calendar year 1978 expenditures.

(d) *State agency requirement.* For each cooperative agreement under which FFP in costs associated with judicial determinations is claimed, the State IV–D agency shall submit to the Regional Office the lump sum total of all calendar year 1978 costs related to judicial determinations incurred on behalf of cases receiving services under the IV–D State plan, except those costs specified in paragraphs (b)(2) through (4) of this section.

(e) *Methods of determining costs.* The method of calculating eligible expenditures incurred by courts and law enforcement officials under cooperative agreements must conform to OCSE instructions to account for specific costs incurred on behalf of cases receiving services under the IV–D State plan. The method used to reconstruct 1978 expenditures under the requirements of paragraphs (c) and (d) of this section must be approved by the Regional Office, in accordance with OCSE instructions.

(f) *When agreements take effect.* FFP is available in IV–D costs incurred as of

the first day of the calendar quarter in which a cooperative agreement or amendment is signed by parties sufficient to create a contractual arrangement under State law.

Note.—The Office of Child Support Enforcement has determined that this document is not a major rule as described by Executive Order 12291 because it does not meet any of the criteria set forth in Section 1 of the Executive Order.

BILLING CODE 4110-07-M

DEPARTMENT OF TRANSPORTATION

Research and Special Programs Administration

49 CFR Parts 171 and 173

[Docket No. HM-166-I; Notice No. 81-2]

Transportation of Liquefied Petroleum Gas In Interstate Commerce

AGENCY: Materials Transportation Bureau, Research and Special Programs Administration, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Materials Transportation Bureau (MTB) proposes to amend Part 173 of 49 CFR to authorize the use of nonspecification cargo tanks for the transportation of liquefied petroleum gas (LPG) in intrastate commerce under certain conditions. This action is necessary because individual States have adopted the Department's Hazardous Materials Regulations which require the use of DOT Specification MC-330 or MC-331 cargo tanks. The intended effect of this action is to allow continued use of nonspecification cargo tanks for the transportation of LPG in intrastate commerce until they are taken out of service and replaced with new tanks that meet DOT requirements.

DATE: Comments must be received by June 16, 1981.

ADDRESS: Send comments to: Dockets Branch, Materials Transportation Bureau, U.S. Department of Transportation, Washington, D.C. 20590. Comments should identify the docket and be submitted in five copies. The Dockets Branch is located in Room 8426 of the Nassif Building, 400 Seventh Street, S.W., Washington, D.C. Public dockets may be reviewed between the hours of 8:30 a.m. and 5:00 p.m. Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Darrell L. Raines, Chief, Exemptions and Regulations Termination Branch, Office of Hazardous Materials Regulation, Materials Transportation Bureau, 400 7th Street, S.W., Washington, D.C. 20590. (202) 472-2726.

SUPPLEMENTARY INFORMATION: Since passage of the Hazardous Materials Transportation Act (HMTA) of 1974 (49 U.S.C. 1801 et. seq.) the MTB has encouraged the adoption of the Hazardous Materials Transportation Regulations (49 CFR Parts 170 to 179) by the States in order to promote uniformity in safety regulation throughout the nation. Certain areas of transportation safety demand a strong, predominant Federal role. In the HMTA's Declaration of Policy and in the Senate Committee language reporting out what became section 112 of the HMTA, Congress indicated a desire for uniform national standards in the field of hazardous materials transportation and, with the HMTA, gave the Department of Transportation the authority to promulgate those standards. Although the HMTA has not totally precluded State or local action in this area, it is the MTB's opinion that, to the extent possible, Congress intended to make such State or local action unnecessary.

It has come to the attention of the MTB that the adoption by individual States of the Hazardous Materials Transportation Regulations has created an anomalous situation in certain States for certain cargo tank owners and operators. DOT regulations require cargo tanks for LPG to be constructed in compliance with either DOT Specification MC-330 or MC-331. However, a number of cargo tanks not subject to DOT regulations (nor ICC regulations prior to 1967) have been constructed and used in intrastate commerce for many years. While they were manufactured in accordance with certain consensus standards and were otherwise qualified for use, they do not meet the standards now required in DOT regulations. The result of a State's adoption and enforcement of DOT regulations is to immediately require that all cargo tanks in that jurisdiction comply with DOT specifications without provision for an adequate transition period.

MTB also has been advised of a difficulty encountered by a carrier based in Nevada. For a number of years, this carrier operated only small cargo tank trucks (commonly referred to as "bobtails") in intrastate commerce. Due to a change in business conditions, it became necessary for the carrier to acquire a cargo tank semitrailer (meeting DOT requirements) for carriage of LGP from California to its base in Nevada. Upon entering interstate operations, all of the carrier's operation, including operation of the small cargo tanks, came under DOT jurisdiction. The MTB believes that appropriate relief should be provided to remedy a situation that may not be uncommon and believes the conditions proposed in this NPRM, in association with allowing use of non DOT specification cargo tanks, assure an adequate level of safety for the transportation of LPG in small cargo tanks during the transition period.

This proposal is limited in its applicability to intrastate commerce, including a cargo tank operated by a motor carrier that may operate other motor vehicles in interstate commerce.

The proposed revision would allow the continued use of a cargo tank for transportation of LP gas that is not marked according to Specification MC-330 or MC-331, provided it (1) is marked and conforms to the edition of the ASME Code in effect when it was manufactured; (2) has a minimum design pressure of 250 psig; (3) has a capacity of 3500 gallons or less; (4) was manufactured prior to January 1, 1981; (5) conforms to NFPA Pamphlet 58; (6) has been inspected and tested in accordance with § 173.33 as specified for Specification MC-330 or MC-331; and (7) it is operated in conformance with the regulations except the specification requirements.

The procedure proposed in this NPRM will allow the continued safe use of cargo tanks constructed in conformance with the ASME Code when a State upgrades its regulatory program by adopting the Hazardous Materials Transportation Regulations, as well as allowing continued use of such tanks for local shipments by interstate carriers. MTB has been advised by industry representatives that all new tanks are being manufactured in compliance with DOT specifications; therefore, new construction after January 1, 1981, is not covered by this NPRM.

It is also proposed to update the reference in § 171.7(d)(6) to Pamphlet 58 of the National Fire Protection Association since this is the edition currently available from that organization.

The MTB has determined that this proposed regulation will not, if promulgated, have a significant economic impact on a substantial number of small entities.

If this proposed regulation is not adopted, there will be a serious economic hardship on small LPG carriers because their nonspecification cargo tanks will no longer be authorized for transportation of LP gas in several States. New DOT specification tanks would have to be purchased and delivery to LPG customers would be severely disrupted.

In consideration of the foregoing, 49 CFR Part 171 and 173 would be amended to read as follows:

PART 171—GENERAL INFORMATION, REGULATIONS, AND DEFINITIONS

1. In § 171.7, paragraph (d)(6) would be revised to read:

§ 171.7 Matter incorporated by reference.

* * * * *

(d) * * *

(6) NFPA Pamphlet No. 58 is titled, "Standard for the Storage and Handling of Liquefied Petroleum Gases," 1979 edition.

* * * * *

2. In § 173.315, Note 2 following the table and paragraph (k) would be revised to read:

§ 173.315 Compressed gases in cargo tanks and portable tank containers.

* * * * *

Note 1.—* * *

Note 2.—See § 173.32 for authority to use other portable tanks and for manifolding cargo tanks, see § 173.301(d).

* * * * *

(k) A nonspecification cargo tank meeting, and marked in conformance with the edition of the ASME Code in effect when it was fabricated may be used for the transportation of liquefied petroleum gas if it—

(1) Has a minimum design pressure of 250 psig;

(2) Has a capacity of 3,500 gallons or less;

(3) Was manufactured prior to January 1, 1981, as verified by its ASME certificate;

(4) Conforms to NFPA Pamphlet 58;

(5) Has been inspected and tested in accordance with § 173.33 as specified for Specification MC–330 or MC–331;

(6) Is operated exclusively in intrastate commerce, including its operation by a motor carrier otherwise engaged in interstate commerce; and

(7) Is operated in conformance with the other requirements of this subchapter (e.g. Part 172).

* * * * *

(49 U.S.C. 1803, 1804, 1808; (49 CFR 1.53, App. A to Part 1, and paragraph (a)(4) of Appendix A to Part 106))

Note.—The Materials Transportation Bureau has determined that this proposed regulation is not a major rule under the terms of Executive Order 12291 and does not require a Regulatory Impact Analysis, nor does it require an environmental impact statement under the National Environmental Policy Act (49 U.S.C. 4321 et seq.). A regulatory evaluation and an environmental assessment are available for review in the Docket. I certify that this proposed regulation, if published as a final rule, will not have a significant economic impact on a substantial number of small entities.

Issued in Washington, D.C. on May 5, 1981.

Alan I. Roberts,

Associate Director for Office of Hazardous Regulation, Materials Transportation Bureau.

49 CFR Parts 172, 173, 175

[Docket No. HM–173; Notice No. 81–4]

Requirements for Transportation of Wet Electric Storage Batteries

AGENCY: Materials Transportation Bureau (MTB), Research and Special Programs Administration, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to simplify, clarify and otherwise improve those requirements of the Hazardous Materials Regulations that pertain to the transportation of wet electric storage batteries ("wet cell batteries"). Specifically, it proposes (1) a revision of requirements applicable to the air transport of wheelchairs equipped with wet cell batteries, in order to enhance air transport safety and facilitate the travel of handicapped persons who use wheelchairs; (2) new test criteria which effectively define the term "nonspillable" as applied to wet cell batteries; and (3) new shipping names to distinguish between acid and alkaline corrosive battery fluids in order to aid emergency response efforts and to simplify shipping names and make them consistent with international shipping descriptions.

DATE: Comments must be received by August 3, 1981.

ADDRESS: Comments must be addressed to the Dockets Branch, Materials Transportation Bureau, U.S. Department of Transportation, Washington, D.C. 20590. Comments should identify the docket (Docket HM–173) and be submitted in five copies. The Dockets Branch is located in room 8426 of the Nassif Building, 400 Seventh Street, S.W., Washington, D.C. Public dockets may be reviewed between the hours 8:30 a.m. to 5 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Edward T. Mazzullo, Standards Division, Office of Hazardous Materials Regulation, Materials Transportation Bureau, Department of Transportation, 400 Seventh Street, S.W., Washington, D.C. 20590, (202) 426–2075.

SUPPLEMENTARY INFORMATION: On February 28, 1980, the MTB published a notice (Docket HM–173; Notice 80–4) in the **Federal Register** (45 FR 13153) which announced two public meetings and requested public comment concerning the need for revising those Hazardous Materials Regulations (HMR) which are applicable to the transportation of wet electric storage batteries. Of particular concern was the development of standards for the safe transport on passenger-carrying aircraft of wheelchairs equipped with wet cell batteries. Proposals contained in this notice of proposed rulemaking are based on written comments received by the MTB, public input received at the two informal meetings (one on April 3, 1980, in Washington, DC, and the other on April 16, 1980, in Denver, Colorado) in response to Notice 80–4, and on the MTB's own rulemaking initiative. Specific proposals and background information are discussed by subject area in the following paragraphs.

I. Air transport of wheelchairs equipped with wet electric storage batteries (§§ 173.250, 175.10)

The HMR generally prohibit the carriage of wet cell batteries on passenger-carrying aircraft but there are two exceptions, in §§ 173.250(a) and 173.260(d), which permit their carriage when installed in self-propelled vehicles. Unfortunately, the provisions of these exceptions are not well known, are subject to misunderstanding and are considered inadequate with regard to achieving an acceptable level of safety. Inadequacies include lack of requirements with regard to packaging, hazard identification and carrier handling and operating procedures for battery equipped wheelchairs. Based on comments submitted in response to Notice 80–4, there is a need to prescribe requirements for securing batteries to wheelchairs, protecting them from short circuits, deactivating the wheelchairs and, in certain circumstances, for removing and packaging batteries separate from the wheelchairs. There also is a need for carrier operating requirements with regard to stowing wheelchairs in cargo compartments, stowing batteries away from other

incompatible hazardous materials, and notifying pilots as to the locations of wheelchairs on aircraft. Interested persons should refer to Notice 80–4 for a more detailed discussion of some of the problems and issues involved in the transportation on passenger-carrying aircraft of wheelchairs equipped with wet cell batteries.

There are several alternatives pertaining to the transport of wheelchairs which were discussed in Notice 80–4, but which have not been proposed herein because, based on comments received, they do not appear feasible. Briefly, they are:

1. *Battery housings.* Housings for batteries which are integral to wheelchairs, impervious to battery fluid and leaktight do not appear to be generally available at present.

2. *Nonspillable batteries.* It does not appear feasible, in terms of cost and energy efficiency, to require the use of nonspillable batteries at the present time. The MTB notes, however, that at least one battery manufacturer is in the process of marketing a nonspillable, gel-type, battery which may prove to be competitive with currently used "spillable" lead acid batteries.

3. *Additional packaging.* For batteries which remain installed in wheelchairs during transport, it may not be cost effective, or necessary from a safety standpoint, to prescribe packaging requirements. It would appear that if batteries are secured to wheelchairs and the wheelchairs are in turn secured upright in aircraft cargo compartments, then the risk of spillage of battery fluid is minimal. Under the stated conditions, adequate handling procedures may be all that are required in order to achieve an acceptable level of safety. Risks could be reduced further by use of spill-resistant vent caps, absorbent materials, taping fill caps or other means but these alternatives could be left to the discretion of shippers and carriers.

4. *Hazard Identification.* There does not appear to be a need, from a safety standpoint, to describe shipments involving wheelchairs on shipping papers. Further, due to the readily identifiable nature of a battery equipped wheelchair, requirements pertaining to hazard warning labels, orientation markings and shipping name markings appear necessary only in certain instances.

Several changes have been proposed in this notice to eliminate present misunderstandings and to achieve an improved level of safety regarding the transport of wheelchairs equipped with wet cell batteries. A new entry, "Battery, *electric storage,* wet, acid *or* alkaline, with wheelchair" would be added to the Hazardous Materials Table in § 172.101. Columns 5(a) and 5(b) would both reference §§ 173.250 and 175.10 as applicable sections for both packagings and exceptions. A "No limit" reference in column 6(a) would clarify that the units are permitted on passenger-carrying aircraft.

Section 173.250 would be revised for clarity. For other than transport on passenger-carrying aircraft, wet cell battery equipped wheelchairs would continue to be shipped subject to the minimal requirements of § 173.250 pertaining to securement and protection against short circuits. For transport on passenger-carrying aircraft, § 173.250 would reference § 175.10 as the applicable packaging section.

New requirements would be added in § 175.10 for transporting wheelchairs equipped with wet cell batteries on passenger-carrying aircraft. Wheelchairs equipped with nonspillable batteries would be transported subject only to requirements that the batteries be protected against short circuits and either be securely attached to the wheelchairs or be removed and boxed. This proposal represents a departure from requirements currently applicable to wheelchairs equipped with nonspillable batteries only to the extent that the batteries would not need to be boxed (or housed) if securely attached to wheelchairs.

For other than nonspillable batteries, it is proposed to permit batteries to be removed from wheelchairs to facilitate their shipment, but only on aircraft whose cargo compartment configurations cannot accommodate the upright loading or stowage of wheelchairs with batteries installed. In order to achieve an adequate level of safety, the batteries would be packaged in leaktight containers which have been rendered "tilt proof" either by securing them to pallets or by securing them upright in the cargo compartment using positive means of securement such as restraining straps. When so shipped, the outside containers would be marked to indicate upright orientation and with the shipping name "Battery, wet, acid *or* alkaline, with wheelchair" and would be labeled with CORROSIVE hazard warning labels. Use of absorbent material would be required as an inside packaging material. This proposal represents a relaxation of existing requirements which forbid the transport on passenger-carrying aircraft of "spillable" batteries, other than when such batteries remain installed in self-propelled vehicles. The change is believed necessary to facilitate the shipment of battery equipped wheelchairs in those situations where cargo compartment configurations do not permit upright loading and storage.

New provisions in § 175.33 would be added with regard to notifying the pilot-in-command, orally or in writing, as to the location on aircraft of any wheelchair equipped with batteries (other than nonspillable batteries). This is similar to existing provisions for other hazardous materials which require written notification to the pilot. Provisions in §§ 175.78 and 175.79 would forbid the stowage of batteries in a position which might allow contact with flammable solids, oxidizing materials or organic peroxides and would require that batteries be secured upright in cargo compartments. For aircraft cargo compartment configurations that can accommodate upright loading and storage, new handling procedures, contained in § 175.10, would require that bateries remain installed in the wheelchairs, be securely attached to them and be protected against short circuits. Batteries would be disconnected from drive motors to prevent accidental activation of wheelchairs during shipment. Wheelchairs would be secured upright in cargo compartments by appropriate means. So as not to alter air carrier baggage handling procedures or require costly modifications to cargo compartments, the proposed provisions would not prescribe the means by which wheelchairs would be secured upright.

It is intended that these proposed changes will clarify requirements applicable to wheelchairs equipped with wet cell batteries and will enhance the safety of transporting them. In turn, the changes should facilitate the mobility of wheelchair users in reducing the reluctance of certain air carriers and pilots to transport these items and by permitting wheelchairs to be carried in a manner which is not presently permitted (i.e., with batteries removed) on certain aircraft.

II. Defining "nonspillable" batteries (§§ 173.260(d), 175.10)

Electric storage batteries, which contain electrolyte or corrosive battery fluid and are "of the nonspillable type", are excepted by § 173.260(d) from all other regulatory requirements (such as packaging, labeling and description requirements) when the batteries are securely boxed and protected against short circuits. It has become apparent through reports of incidents, requests for interpretations and comments submitted to the MTB that there is a need to define the term "nonspillable" as that term is used in § 173.260.

In Notice 80–4 the MTB requested public comment pertaining to defining a nonspillable wet cell battery in terms of appropriate regulatory standards. The MTB suggested criteria for two tests, one involving vibration and the other involving altitude (pressure differentials). Commenters to the notice were generally supportive of the MTB's suggested criteria. It would appear that these tests are a reasonable reflection of the demands imposed on batteries under conditions normally incident to transportation. Therefore, the tests are proposed to be added in § 173.260(d) as defining criteria for nonspillable batteries essentially in the form suggested in Notice 80–4, but with some editorial revision for the purpose of clarification.

III. General revision of regulations applicable to wet electric storage batteries (§§ 172.101, 173.250)

A revision of proper shipping names in § 172.101 is proposed in order to distinguish, between acid and alkaline battery fluid for emergency response purposes and to simpify certain shipping names. For example, "Electrolyte (acid) battery fluid (*not over 47% acid*)" would become "Battery fluid, acid", and the terms "electric storage" would become optional in describing batteries. All shipping names for batteries and battery fluid would be located in one section of the Hazardous Materials Table. A new proper shipping name "Battery, *electric storage*, dry (*containing* potassium hydroxide, dry, *solid, flake, bead or granular*)" would be added to accommodate dry batteries containing dry potassium hydroxide, classed corrosive material. New shipping names would be added for batteries shipped with wheelchairs and for nonspillable batteries, in order to clarify requirements for those items. In addition, § 173.250 has been revised for clarity and to reference new provisions applicable to wheelchairs equipped with wet cell batteries.

These proposals do not represent the termination of MTB's review of regulations applicable to batteries. Additional changes, both substantive and editorial, may be proposed at a future date after the MTB completes its review.

In consideration of the foregoing, 49 CFR Parts 172, 173 and 175 would be amended as follows:

PART 172—HAZARDOUS MATERIALS TABLES AND HAZARDOUS MATERIALS COMMUNICATIONS REGULATIONS

1. The Hazardous Materials Table in § 172.101 would be amended as follows:

§ 172.101 Hazardous materials table.

(1)	(2) Hazardous materials descriptions and proper	(3) Hazard class	(3)(a) Identification	(4) Label(s) required	(5) Packaging:	(b)	(6) Maximum net quantity in one package	(a)	(b)	(7) Water shipments

PART 173—SHIPPERS—GENERAL REQUIREMENTS FOR SHIPMENTS AND PACKAGINGS

2. In § 173.250, paragraph (a) would be revised, paragraph (b) would be redesignated paragraph (d), and new paragraphs (b) and (c) would be added, as follows:

§ 173.250 Automobiles, other self-propelled vehicles, engines or other mechanical apparatus.

(a) Except as provided in paragraph (b) of this section, automobiles and other self-propelled vehicles equipped with wet electric storage batteries are excepted from all other requirements of this subchapter when shipped as prescribed in subparagraphs (1) or (2) of this paragraph, unless other hazardous materials are transported on the self-propelled vehicles, in which instance the regulations covering these other materials apply.

(1) When batteries are removed from the self-propelled vehicles and loaded in the transport vehicle therewith, the batteries must be so loaded, blocked and braced as to prevent short circuits, spillage of batery fluid or movement within the transport vehicle.

(2) When batteries are installed in self-propelled vehicles they must be completely protected against short circuits and so secured that spillage of battery fluid will not occur under conditions normal to transportation.

(b) For transportation by passenger-carrying aircraft, wheelchairs equipped with wet electric storage batteries must be shipped as prescribed in § 175.10 of this subchapter.

(c) When wet electric storage batteries or batteries packed in containers with battery fluid are shipped as part of carload or truckload shipments of automobile parts or assembly materials, they are subject to no other requirements of this subchapter when the batteries and battery fluid are boxed or crated and so loaded, blocked and braced as to prevent short circuits of the batteries, spillage of battery fluid and movement of the materials in the transport vehicle under conditions normal to transportation. When other hazardous materials are included in the shipments, the regulations covering these other materials apply.

* * * * *

3. In § 173.260, paragraph (d) would be revised to read as follows:

§ 173.260 Electric storage batteries, wet.

* * * * *

(d) Nonspillable wet electric storage batteries capable of withstanding the tests prescribed in (1) and (2) of this paragraph without leakage of battery fluid are excepted from all other requirements of this subchapter when protected against short circuits and securely packaged so as to withstand conditions normal to transportation.

(1) *Vibration test.* Battery is rigidly clamped to the platform of a vibration machine and a simple harmonic motion having an amplitude of 0.03 inches (0.06 inches maximum total excursion) is applied. The frequency is varied at the rate of one cycle per second per minute betwen the limits of 10 to 55 cycles per second. The entire range of frequencies and return is traversed in 95±5 minutes for each mounting position (direction of vibration) of the battery. The battery must be vibrated in three mutually perpendicular directions, one of which must be with the terminal face of the battery inverted, for equal time periods.

(2) *Pressure differential test.* Following the vibration test, the battery is stored for six hours at 78°F. ± 7°F. under an external partial pressure of 2 pounds per square inch absolute. The battery must be tested in three mutually perpendicular positions, one of which must be with the terminal face of the battery inverted, for at least six hours in each position.

* * * * *

PART 175—CARRIAGE BY AIRCRAFT

4. In § 175.10, paragraph (b) would be added to read as follows:

§ 175.10 Exceptions.

* * * * *

(b) Wheelchairs equipped with wet electric storage batteries may be carried in cargo compartments on passenger-carrying aircraft when transported in accordance with the provisions of (1), (2) and (3) of this paragraph. Shipments are subject to no other requirements of this subchapter except those requirements in §§ 175.33, 175.78 and 175.79 which are applicable to batteries.

(1) Wheelchairs equipped with batteries of a nonspillable type, as defined in § 173.260(d) of this subchapter, may be transported subject to no other requirements of this subchapter provided the batteries are:

(i) Protected against short circuits, and

(ii) Securely attached to the wheelchairs or removed and boxed.

(2) For carriage on aircraft in cargo compartments which can accommodate upright loading and stowage of wheelchairs, the wheelchairs must be transported as follows:

(i) Batteries must remain installed on wheelchairs, be securely attached to them, and terminals must be protected against short circuits;

(ii) Wheelchairs must be deactivated by removing connections at battery terminals or by otherwise disconnecting the power source, and

(iii) Wheelchairs must be secured upright in cargo compartments.

(3) For carriage on aircraft in cargo compartments which cannot accommodate upright loading or storage of wheelchairs, batteries may be removed from wheelchairs and carried in strong outside containers, as follows:

(i) Outside containers must be leaktight, impervious to battery fluid, and rendered tilt proof by securing to pallets or by securing in cargo compartments using restraining straps, brackets, or holders;

(ii) Batteries must be protected against short circuits, secured upright in the outside containers and surrounded by absorbent material sufficient to absorb their total liquid contents, and

(iii) Outside containers must be marked to indicate proper orientation, be marked "Battery, wet, with wheelchair", and be labeled with CORROSIVE labels (§ 172.442 of this subchapter).

Note.—It is recommended that batteries which are not nonspillable be fitted with spill resistant vent caps when feasible.

4. In § 175.33, paragraph (b) would be added to read as follows:

§ 175.33 Notification of pilot-in-command.

* * * * *

(b) When wheelchairs equipped with wet electric storage batteries, other than nonspillable batteries, are transported under the provisions of § 175.10(b)(2) or (b)(3) of this subchapter, the pilot-in-command shall be notified before takeoff as to their location in the aircraft.

5. In § 175.78, paragraph (a) would be revised to read as follows:

§ 175.78 Stowage compatibility of cargo.

(a) No person may stow a package, or a wet electric storage battery other than a nonspillable battery, containing a corrosive material on an aircraft next to or in a position that will allow contact with a package of flammable solids, oxidizing materials, or organic peroxides.

* * * * *

6. § 175.79 would be revised to read as follows:

§ 175.79 Orientation of cargo.

(a) A package, or a wet electric storage battery other than a nonspillable battery, containing hazardous materials and marked "THIS SIDE UP", "THIS END UP", or with arrows to indicate proper orientation, must be loaded and stored aboard an aircraft in accordance with such markings and secured in a

manner that will prevent any movement that would change the orientation of the package or battery.

(b) A package, or a wet electric storage battery other than a nonspillable battery, containing liquid hazardous material and not marked as indicated in paragraph (a) of this section must be loaded and stored with closures up and secured as prescribed in paragraph (a) of this section.

(49 U.S.C. 1803, 1804, 1808; 49 CFR 1.53, App. A to Part 1, and paragraph (a)(4) of App. A Part 106.)

Note.—The Materials Transportation Bureau has determined that this document will not result in a "major rule" under the terms of Executive Order 12291 and DOT procedures (44 FR 11034) nor require an environmental impact statement under the National Environmental Policy Act (49 U.S.C. 4321 et. seq.). Based on limited information available concerning size and nature of entities likely to be affected by this proposal, I certify that this proposal will not, if promulgated, have a significant economic impact on a substantial number of small entities. This proposal will not affect not-for-profit enterprises or small governmental jurisdictions. Small businesses potentially affected include air carriers and storage battery manufacturers and shippers. The economic impact on such small entities will be minimal. A regulatory evaluation and environmental assessment are available for review in the Docket.

Issued in Washington, D.C., on May 29, 1981.

Alan I. Roberts,

Associate Director for Hazardous Materials Regulation, Materials Transportation Bureau.

49 CFR Parts 172, 173 and 178

[Docket HM-139-D; Notice 81-3]

Conversion of Individual Exemptions Into Regulation of General Applicability

AGENCY: Materials Transportation Bureau (MTB), Research and Special Programs Administration, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Materials Transportation Bureau is considering amending the regulations governing the transportation of hazardous materials to incorporate therein a number of changes based on existing exemptions which have been granted to individual applicants allowing them to perform particular functions in a manner that varies from that specified by the regulations.

Adoption of these exemptions as rules of general applicability would provide wider access to the benefits of transportation innovations recognized as effective and safe. In addition, these proposed changes would eliminate the need for recordkeeping by the exemption holder(s); eliminate the need for marking the exemption number on the package and shipping paper(s), and, eliminate the need for MTB to receive, review, docket, evaluate, and issue a renewal of the exemption every two years.

DATE: Comments must be received on or before July 20, 1981.

ADDRESS: Send comments to: Dockets Branch, Materials Transportation Bureau, U.S. Department of Transportation, Washington, D.C. 20590. Comments should identify the docket and be submitted in five copies. The Dockets Branch is located in Room 8426 of the Nassif Building, 400 Seventh Street, SW., Washington, D.C. Public dockets may be reviewed between the hours of 8:30 a.m. and 5:00 p.m. Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Darrell L. Raines, Chief, Exemptions and Regulations Termination Branch, Office of Hazardous Materials Regulation, Materials Transportation Bureau, 400 Seventh Street, SW, Washington, D.C. 20590. (202-472-2726).

SUPPLEMENTARY INFORMATION: Each of the proposed amendments described in the following table is founded upon either: (1) Actual shipping experience gained under an exemption, or (2) the data and analysis supplied in the application for an exemption. In each case the resulting level of safety being afforded the public is considered at least equal to the level of safety provided by the current regulations.

These proposals would not significantly affect the cost of regulatory enforcement, nor would additional costs be imposed on the private sector, consumer, or Federal, State or local governments, since these proposals would merely authorize the general use of shipping alternatives previously available to only a few users under exemptions. The safety record of shipments under the identified exemptions demonstrates that significant environmental impacts would not result from any of the proposals. Adoption of an amendment derived from an existing exemption would obviate the need for that exemption and effectively terminate it. Upon such termination, the holder of the exemption and parties thereto would be individually notified. Adoption of an amendment derived from an application for exemption should provide the relief sought, in which event the exemption request would be denied and the applicant so notified. In the event the Bureau decides not to adopt any of these proposals, each pertinent application would be evaluated and acted upon in accordance with the applicable provisions of the exemption procedures in 49 CFR Part 107, Subpart B. Consequently, persons commenting on the proposals may wish to address both the proposed amendment and the exemption application.

Each mode of transportation for which a particular exemption is authorized or requested is indicated in the "Nature of Exemption or Application" portion of the table below as follows: 1—Motor vehicle, 2—Rail freight, 3—Cargo vessel, 4—Cargo aircraft only, 5—Passenger-carrying aircraft.

The MTB has determined that this proposed regulation will not, if promulgated, have a significant economic impact on a substantial number of small entities.

This proposal will not affect not-for-profit enterprises, or small governmental jurisdictions.

Exemption No.	Applicant holder	Regulation affected	Nature of exemption of application	Proposed amendment
DOT-E 5520	Pennwalt Corp., Amchem Products.	§ 173.245(a), § 173.256(a). See E-8444 for proposed change to § 173.256.	Authorizes shipments of Compound, cleaning liquid; Compound cleaning liquid (containing hydrofluoric acid); Compound, lacquer, paint or varnish removing, liquid; Compound, rust preventing, and Compound, rust removing in a DOT Specification 57 steel portable tank. Tanks constructed of material other than stainless steel must have a polyethylene liner. (Modes 1, 2, 3).	To add paragraph (38) to § 173.245 to read as follows: (38) Specification 57 (§ 178.253 of this subchapter). Metal portable tank. Authorized only for Acetic acid, glacial; Compound, cleaning liquid; Compound, lacquer, paint, *or* varnish removing, liquid; Compound, rust preventing *or* Compound, rust removing; and Phosphoric acid not exceeding 85 percent strength. Tanks constructed of a material other than stainless steel must have a polyethylene liner impervious to the solution.
DOT-E 6616	Fenwal Inc	§§ 173.301(k), 178.51-2, 178.51-10, 178.51-12, 178.51-13, 178.51-19.	To manufacture mark and sell a non-DOT specification spherical, steel pressure vessel manufactured in compliance with DOT Specification 4BA with certain exceptions for the shipment of certain hazardous and non-hazardous materials pressurized with nitrogen not to exceed 360 psig at 70° F. (Modes 1, 2, 3, 4, 5).	To revise paragraph § 173.301(k) by adding 4BA spherical type cylinders and by revising §§ 178.51-2, 178.51-10, 178.51-12, 178.51-13, and 178.51-19 to read: (k) *Outside packagings.* Specification 2P, 2Q, 3E, 3HT, 4BA spherical type, 4D, 4DA, 4DS, 9 [1], 39, 40 [1] and 41 [1] must be shipped in strong outside packagings or securely mounted on pallets to provide protection for the cylinders and any attachments to the cylinders. * * * **§ 178.51-2 Type, size, and service pressure.** (a) *Type.* Cylinders may be spherical or cylinderical in shape. Closures made by the spinning process are not authorized. (1) Spherical type cylinders must be made from two seamless hemispheres joined by the welding of one circumferential seam. (2) Cylindrical type cylinders must be of welded or brazed construction. (b) *Size.* The capacity of the cylinder must be 1,000 pounds water capacity or less. (c) *Service pressure.* The service pressure must be at least 225 and not over 500 pounds per square inch gauge. * * * **§ 178.51-10 Wall thickness.** (a) * * * (b) Cylinders that are cylindrical in shape must have the wall stress calculated by the formula: $S=[P(1.3D^2+0.4d^2)]/(D^2-d^2)$ Where: S = Wall stress in pounds per square inch; P = minimum test pressure prescribed for water jacket test; D = outside diameter in inches; d = inside diameter in inches. (c) Cylinders that are spherical in shape must have the wall stress calculated by the formula: $S=PD/4tE$ where: S = wall stress in pounds per square inch; P = test pressure prescribed for water jacket test, i.e., at least 2 times service pressure, in pounds per square inch; D = outside diameter in inches; t = minimum wall thickness in inches; E = 0.85 (provides 85 percent weld efficiency factor which must be applied in the girth weld area and heat affected zones which zone shall extend a distance of 6 times wall thickness from center line of weld); E = 1.0 (for all other areas). (d) For cylinders with wall thickness less than 0.100 inch, the ratio of tangential length to outside diameter shall not exceed 4.0. * * * **§ 178.51-12 Openings in cylinders.** (a) Any opening must be placed on other than a cylindrical surface. (b) Each opening in a spherical type cylinder must be provided with a fitting, boss, or pad of weldable steel securely attached to the container by fusion welding. (c) Each opening in a cylindrical type cylinder must be provided with a fitting, boss, or pad, securely attached to container by brazing or by welding or by threads. If threads are used, they must comply with the following: (1) Threads must be clean-cut, even, without checks and tapped to gauge. (2) Taper threads to be of length not less than as specified for American Standard taper pipe threads. (3) Straight threads, having at least 4 engaged threads, to have tight fit and calculated shear strength at least 10 times the test pressure of the cylinder; gaskets required, adequate to prevent leakage. * * * **§ 178.51-13 Pressure relief devices and protection for valves, safety devices, and other connections, if applied.** (a) Must be as required by the Department of Transportation's regulations that apply (see §§ 173.34(d), 173.124(a), 173.301(g), and 173.301(k) of this chapter. * * *

V 46 / 107 JE4 81 UMI

Exemption No.	Applicant holder	Regulation affected	Nature of exemption of application	Proposed amendment
(a) * * *				**§ 178.51-19 Marking.** (b) * * * (c) Location of markings. Markings may be stamped plainly and permanently in the following locations on the cylinder: (1) Cylindrical type cylinder. (i) On shoulders and top heads not less than 0.087 inch thick. (ii) On side wall adjacent to top head for side walls not less than 0.090 inch thick. (iii) On a cylindrical portion of the shell which extends beyond the recessed bottom of the cylinder constituting an integral and nonpressure part of the cylinder. (iv) On a plate attached to the top of the cylinder or permanent part thereof; sufficient space must be left on the plate to provide for stamping at least six retest dates; the plate must be at least 1/16 inch thick and must be attached by welding, or by brazing at a temperature of at least 1100° F., throughout all edges of the plate. * * *
DOT-E 6798	Allied Chemical Koppers Co.	§ 173.164(a)	Authorizes shipments of Chromic acid, solid in a DOT Specification 56 steel portable tank. Referenced exemption also authorizes the use of a non-specification portable tank "Invert-A-Bin." This proposed change would not eliminate the need for DOT-E 6798 for the non-specification tanks. (Modes 1 and 2).	To add paragraph (7) to § 173.164 to read as follows: (7) Specification 56 (§ 178.252 of this subchapter). Steel portable tank.
DOT-E 6809	H. J. Baker & Bros., Inc.,	§ 173.182(b)(6)(ii)	Authorizes shipments of Potassium nitrate in the same type of bag as authorized for ammonium nitrate (no organic coating) and ammonium nitrate fertilizer. (Modes 1 and 3).	To amend the last sentence of paragraph (b)(6)(ii) in § 173.182 to read as follows: (ii) * * * Authorized only for ammonium nitrate (no organic coating), ammonium nitrate fertilizer, and potassium nitrate; or * * *
DOT-E 7423	Dow Chemical, Reade Mfg. Co. Inc., Rossborough Mfg. Co., NL Industries, Inc., Armco, Inc.	§§ 172.101, 173.154, 173.220(b)(2), 176.76(g)(5).	Authorizes shipments of Magnesium powder, magnesium aluminum alloy powder, and magnesium salt coated granules, water reactive, in DOT Specification 56 aluminum portable tanks. For Magnesium, salt coated granules the MTB proposes to add a new Table entry in § 172.101 which would authorize the same packaging as prescribed for Calcium carbide. (Modes 1, 2 and 3).	To amend column (2) of the Table entry in § 172.101 for Magnesium metal (*powdered, pellets, turnings, or ribbons*) by adding Magnesium-aluminum powder at the end of the present entry. Also, magnesium aluminum powder would be added at the end of the heading in § 173.220 and included in the introductory text of § 173.220(b) and § 173.220(b)(2). Magnesium, granules, coated, would be added to the heading in § 173.178 and to the Table in § 172.101 to read as follows:

Section 172.101 Hazardous Materials Table

(1)* +/ E/A/W/	(2) Hazardous materials descriptions and proper shipping names	(3) Hazard class	(3A) Identification number	(4) Label(s) required (if not excepted)	(5) Packaging		(6) Maximum net quantity in one package		(7) Water shipments		
					(a) Exceptions	(b) Specific requirements	(a) Passenger carrying aircraft or railcar	(b) Cargo only aircraft	(a) Cargo vessel	(b) Passenger vessel	(c) Other requirements
	(Add)										
	Magnesium granules, coated, *partical size not less than 149 microns*	Flammable solid	UN2950	Flammable solid and Dangerous when set.	None	§ 173.178	25 pounds	100 pounds	1,2	1,2	Segregation same as for flammable solids labeled Dangerous when wet.
	Calcium silicon (*powder*)	Flammable solid	UN1406	Flammable solid and Dangerous when wet.	§ 173.153	§ 173.178	Forbidden	25 pounds	1,2	4	Segregation same as for flammable solids labeled Dangerous when wet.

8616-N	Hyman Drum & Barrel Corp.			
8617-N	Western N.Y. Barrel & Drum,. Co. Inc.			
DOT-E 7822	E.I. DuPont	§ 173.365	Authorizes shipments of p-nitrobenzyl bromide (Alpha-Bromo-4-Nitro-toluene) a Poison B, Solid, n.o.s., in DOT Specification 56 portable tanks with non-sifting closures in truckload lots. (Mode 1).	To revise paragraph (a)(11) of § 173.375 to read as follows (11) Specification 56(§ 178.252 of this subchapter) Metal portable tank with sift-proof closures. Authorized only for p-nitrobenzyl bromide.
DOT-E 7658	Spectro Industries Inc	§ 173.505(b)	Authorizes the shipment of Consumer commodities, ORM-D by private and contract motor carriers in a corrugated fiberboard tray covered by a heat shrinkable polyethylene film. HM-139C on July 10, 1980 made a change to §§ 172.101 and 173.505(b) based on an exemption request (8276-N) which also eliminated the need for E-7658 except for shipments by contract carriers. (Mode 1).	To revise § 173.505(b) to read: (b) Strong outside packagings as specified in § 173.1200 of this subchapter are not required for materials classed as ORM-D when utilized in cases, carts or similar overpacks and when shipped by a private or contract motor carrier from a distribution center to a retail outlet.
DOT-E 7869	Oxy Metal Industries Corp.	§ 173.245	Authorizes shipments of Compound, rust preventing (contained nitric acid, 19% maximum) and phosphoric acid (40% maximum) in DOT Specification 57 portable tanks, fabricated of Type 316 stainless steel. (Mode 1).	See proposed change for E-5520 above.
DOT-E 8087	Union Carbide	§ 173.154	Authorizes shipments of a Water reactive solid, n.o.s. identified as a catalyst M-1 material, classed as a flammable solid and silver oxide classed as an oxidizing material in a DOT Spec. 56 portable tank. (Mode 1).	To revise paragraph (a)(5) of § 173.154 to read as follows: (5) Specification 56 (§ 178.252 of this subchapter). Metal portable tank. Authorized only for silver oxide.
DOT-E 8121	Republic Steel Corp	§ 173.245(a)	Authorizes shipments of Compound, cleaning liquid (containing 50% maximum phosphonc acid) and a nonhazardous material in DOT Spec. 57 portable tanks haveing a sump bottom outlet. (Mode 1).	See proposed changes for E 5520 above.
DOT-E 8136	Eastman Kodak Co	§§ 173.245, 173.277	Authorizes shipments of 15% sodium hypochlorite solution, acetic acid glacial, or phosphoric acid solution in DOT Spec. 57 portable tanks made of 316 stainless steel. (Phosphonic solution not to exceed 85% strength.) (Mode 1).	To revise paragraph (c) of § 173.277 to read as follows: (c) Specification 57 (§ 178.253 of this subchapter). Stainless steel portable tank.
DOT-E 8146	Thiokol Corp. Rocket Research Co.	§ 173.375	Authorizes shipments of Sodium azide, powder in DOT Specification 56 stainless steel portable tanks and a non-DOT specification collapsible flexible container described as Super Sack. This proposed change pertains only to the Specifications 56 portable tank. No part of the tank or fittings that come in contact with the azide may have copper, lead or mercury other metals known to react with sodium azide. Tanks may be equipped with a bottom clean out plug. Top loading and unloading only. (Modes 1 and 2).	To add paragraph (3) to § 173.375(a) to read as follows: (3) Specification 56 (§ 178.252 of this subchapter). Stainless steel portable tank designed for top loading and unloading only. Tanks may be equipped with a bottom clean out plug. No part of the tank or fittings that come in contact with the sodium azide may contain any metal such as copper, lead, silver or mercury which can form explosive azide compounds. Each transport vehicle must be loaded by the consignor and unloaded by the consignee or by persons trained by the consignor. Not authorized for transportation by water.
DOT-E 8332	Drew Chemical	§ 173.276	Authorizes shipments of Hydrazine, aqueous solution, rust preventing compound and liquid cleaning compounds in steel or stainless steel DOT Specification 57 portable tanks having a maximum capacity of 420 gallons and designed to carry commodities having a specific gravity of 1.65 maximum.. Hydrazine must be transported in stainless steel tanks only. (Modes 1,2).	To add paragraph (12) to §173.276(a) to read as follows: (12) Specification 57 (§ 178.253 of this subchapter). Stainless steel portable tank. Authorized for hydrazine, aqueous solution only.
DOT-E 8338	Dow Chemical Co.	§ 173.357(b)(3)	Authorizes the shipment of Chloropicrin mixture (*containing no compressed gas or Poison A liquid*) in DOT Specification 17C steel drums of 55-gallon capacity. (Modes 1,2,3)	To amend § 173.357(b)(3) by increasing the capacity of the Specification 17C drum from 30 gallons to 55 gallons.

Exemption No.	Applicant holder	Regulation affected	Nature of exemption of application	Proposed amendment
DOT-E 8347	Fabricated Metals Inc.	§§ 173.119(b), 173.128(a)(3), 173.132(a)(2).	Authorizes shipments of corrosion inhibitor C-156, emulsion, breaker E-9, silicone antifoam liquid SAG-5310, methanol and combustible liquids in DOT Specification 57 steel or stainless portable tanks having a design pressure of not less than 9 psig and a capacity between 260 and 520 gallons. (Mode 3).	To revise paragraph (6) of § 173.119(b) to read as follows: (6) Specification 57 (§ 178.253 of this subchapter). Steel portable tank. Also, authorized for transportation by water when having a minimum design pressure of 9 psig and equipped in accordance with § 178.253-4, but no device may open at less than 5 psig. Authorized for liquids with flash points above 20°F. and a vapor pressure not over 16 psia at 100°F. To revise paragraph (3) of § 173.128(a) to read as follows: (3) Specification 52,[1] or 57 (§ 178.253 of this subchapter). Metal portable tank. Not authorized for transportation by water except as prescribed in § 173.119(b)(6) of this subchapter. To revise paragraph (2) of § 173.132(a) to read as follows: (2) Specification 52,[1] or 57 (§ 178.253 of this subchapter). Metal portable tank. Not authorized for transportation by water except as prescribed in § 173.119(b)(6) of this subchapter.
DOT-E 8351	DuBois Chemical Co	§ 173.245	Authorizes shipments of solutions containing sodium or potassium hydroxide or solutions containing phosphoric acid in DOT Specification 57 stainless steel portable tanks having a capacity of 330 gallons. (Mode 1).	See proposed change for E-6520.
DOT-E 8434	Union Carbide	§§ 173.154, 173.178	Authorizes shipments of calcium silicon powder as a water reactive solid, n.o.s. in packaging precribed in 49 CFR § 173.178. (Modes 1 and 2).	To add Calcium silicon powder to the Table in § 172.101 and to the heading in § 173.178.
8613-N	Chemical Express Co.	§ 173.131(a)(2)	Requested an exemption to lower the flash point of road asphalt, or tar, liquid, from 73°F. to 50°F. (Mode 1).	To revise paragraph (a)(20 of § 173.131 to read as follows: (2) In cargo tanks that are at least equivalent in design and construction to Specification MC-306 (§§ 178.340, 178.341 of this subchapter) except for the requirments of §§ 178.340-10, 178.341-3, 178.341-4, and 178.341-5.
DOT-E 8384	Oakite Products, Inc.	§ 173.256	Authorizes shipments of Compounds, cleaning, liquid containing not more than 20 percent hydrofluoric acid in DOT Specification 57 steel portable tanks of not more than 330-gallon capacity having a polyethylene liner. Bottom discharge outlets, piping and venting devices are prohibited. (Mode 1).	To revise § 173.256 by adding paragraph (b) to read as follows: (b) Compounds, cleaning, liquid containing not more than 20 percent hydrofluoric acid, by weight, may also be shipped in specification containers as follows:
DOT-E 8444	DuBois Chemical	§ 173.256		(1) Specification 57 (§ 178.253 of this subchapter). Metal portable tank. Tanks constructed of a material other than stainless steel must have a polyethylene liner impervious to the solution.

(49 U.S.C. 1803, 1804, 1808; (49 CFR 1.53, App. A to Part 1, and paragraph (a)(4) of Appendix A to Part 106))

Note.—The Materials Transportation Bureau has determined that this proposed regulation is not a major rule under the terms of Executive Order 12291 and does not require a Regulatory Impact Analysis, nor does it require an environmental impact statement under the National Environmental Policy Act (49 U.S.C. 4321 et seq.). A regulatory evaluation and an environmental assessment are available for review in the Docket. I certify that this proposed regulation if published as a final rule, will not have a signifcant economic impact on a substantial number of small entities.

Issued in Washington, D.C. on May 29, 1981.

Alan I. Roberts,

Associate Director for Office of Hazardous Materials Regulation, Materials Transportation Bureau.

Federal Register
Vol. 46, No. 107
Thursday, June 4, 1981

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Forest Service

Intermountain Region, Caribou National Forest Grazing Advisory Board Committee; Meeting

The Caribou National Forest Grazing Advisory Board Committee will meet at 9:00 a.m., July 9, 1981, at the parking lot of the community swimming pool in Lava Hot Springs, Idaho. After a short meeting, a tour of the Pebble-Toponce area on the Pocatello Ranger District will follow.

The purpose of this meeting and field trip is to secure recommendations for use of range betterment funds and grazing allotment plans.

The meeting will be open to the public. Persons who wish to attend should notify Frank G. Beitia, Caribou Supervisor's Office, telephone 208–236–6705. Written statements will be filed with the Board before or after the meeting.

The Board has established the following rule for public participation: Non-livestock owners are asked to withhold comments until the close of business and then submit their comments to the Chairman of the Board.

Dated: May 27, 1981.

Frank G. Beitia,

Acting Forest Supervisor.

DEPARTMENT OF COMMERCE

International Trade Administration

Ferrochrome From South Africa; Final Results of Administrative Review of Countervailing Duty Order

AGENCY: International Trade Administration, Department of Commerce.

ACTION: Notice of Final Results of Administrative Review of Countervailing Duty Order.

SUMMARY: On April 27, 1981, the Department of Commerce published in the **Federal Register** a notice of "Preliminary Results of Administrative Review of Countervailing Duty Order" with respect to ferrochrome from South Africa. The notice stated that the Department had preliminarily determined that this merchandise did not benefit from a net subsidy from January 1, 1981 through April 10, 1981. Interested parties were given an opportunity to present written or oral comments. The Department did not receive any comments. Therefore, the Department determines that ferrochrome from South Africa did not benefit from a net subsidy for that period.

EFFECTIVE DATE: June 4, 1981.

FOR FURTHER INFORMATION CONTACT: Joseph A. Black, Office of Compliance, Room 2803, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230 (202–377–1774).

SUPPLEMENTARY INFORMATION:

Procedural Background

On April 9, 1981 a notice of "Countervailing Duty Order" was published in the **Federal Register** (46 FR 21155). The Order, which was effective March 11, 1981, stated that, based on an order of the Court of International Trade, the Department of Commerce ("the Department") had detemined that exports of ferrochrome from the Republic of South Africa were provided bounties or grants within the meaning of section 303 of the Tariff Act of 1930 (19 U.S.C. 1303) ("the Tariff Act"). Accordingly, imports of ferrochrome into the United States from the Republic of South Africa were subject to countervailing duties. The Department suspended liquidation and required a cash deposit of estimated countervailing duties of 4 percent of the f.o.b. invoice price of the merchandise. The Order included a notice of intent to conduct an administrative review of this Order as required by the court and by section 751 of the Tariff Act. On April 27, 1981 the Department published a notice of the preliminary results of that review (46 FR 23512).

Scope of Review

The ferrochrome covered by this review is currently classifiable under item numbers 606.22, 606.24 and 923.18 of the Tariff Schedules of the United States. The program cited by our Order as constituting a bounty or grant is the charging by South African Railways and Harbours of preferential railroad freight rates upon shipments of ferrochrome for export from the Republic of South Africa. This review covers the period January 1, 1981, the effective date of South African Railways' suspension of its freight rate differential for ferrochrome shipments, through April 10, 1981, the date the Department began its verification process.

Analysis of Program

The Department received official inforamtion from the Republic of South Africa that South African Railways and Harbours had terminated the railroad freight rate differential between shipments of ferrochrome destined for foreign and domestic markets. This termination was made effective January 1, 1981. This information has been verified by a review of the official documents of South African Railways and Harbours.

Final Results of the Review

As a result of this review, we determine that ferrochrome from the Republic of South Africa has not benefitted from a bounty or grant (net subsidy) for the period under consideration. Therefore, the Department will instruct Customs officers to liquidate all unliquidated entries of this merchandise exported on or after January 1, 1981 and entered, or withdrawn from warehouse, for consumption on or after March 11, 1981 through April 10, 1981 without regard to countervailing duties. Further, we will instruct the Customs Service not to require the deposit of estimated countervailing duties on shipments of such merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of the notice of final results of this review. The suspension of liquidation shall remain in effect for entries entered on or after April 11, 1981, until the publication of the final results of the next administrative review.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and § 355.41 of the Commerce Regulations (19 CFR 355.41).

B. Waring Partridge, III,

Acting Deputy Assistant Secretary for Import Administration.

June 2, 1981.

BILLING CODE 3510-25-M

National Oceanic and Atmospheric Administration

Fishermen's Contingency Fund

AGENCY: National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notification of claims pursuant to Title IV of the Outer Continental Shelf Lands Act Amendments of 1978 (Title IV). Notification 3–81.

SUMMARY: 50 CFR 296.8 requires that the Chief, Financial Services Division (FSD), publish in the **Federal Register** a notice of claims received under the Title IV Program. Any interested person may, on or before July 6, 1981, submit to the Chief, FSD, National Marine Fisheries Service (NMFS), evidence concerning the claim or a request to be admitted as a party to any hearing concerning the claim.

IMPORTANT DATE: Any evidence concerningany claim described in this Notice, and any request to be admitted as a party to any hearing concerning any such claim, must be submitted, in writing, to the Chief, FSD, on or before July 6, 1981.

ADDRESS: Send evidence and any request to be admitted as a party to any hearing to: Mr. Michael L. Grable, Chief, Financial Services Division, Attention: Kathryn Hensley, National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Washington, D.C. 20235 (telephone 202 634–4688).

SUPPLEMENTARY INFORMATION: Title IV establishes a Fishermen's Contingency Fund (FCF) to compensate fishermen for eligible claims for actual and consequential damages, including lost profits, due to damages to, or loss of fishing vessels or fishing gear by items associated with oil and gas exploration, development, or production on the Outer Continental Shelf (OCS). Title IV regulations require the publication in the **Federal Register** of a notice of each claim submitted (see 50 CFR 296.8(a)(l)(iii)). Each **Federal Register** notice published shall contain the following information: (a) a brief statement of the nature and dollar amount of the claim, and the location where the damage or loss occurred; (b) a statement that the Chief, FSD, may seek a proposed settlement agreement under 50 CFR 296.8(c); and (c) a statement that an interested person or any other person may, on or before July 6, 1981 submit to the Chief, FSD, any evidence concerning either the claim or a proposed settlement agreement.

50 CFR 296.8(a)(3)(i) provides that any interested person may submit evidence at any hearing concerning a claim in accordance with 50 CFR 296.10(d), or on any proposed settlement under 50 CFR 296.8(c). Any person who intends to submit evidence must notify the Chief, FSD, NMFS, in writing, describing specifically the evidence to be submitted on or before July 6, 1981.

Any interested person may request to be admitted as a party to any hearing which is conducted concerning the claim. Such request must be filed with the Chief, FSD, in writing, not later than 30 days after publication of the notice of claim in the **Federal Register** Such request will be ruled on by the Administrative Law Judge (ALJ).

50 CFR 296.8(c) provides that the Chief, FSD, may contact a claimant and negotiate a proposed settlement of the claim. If the claimant agrees to a proposed settlement, the Chief, FSD, will, no sooner than 30 days after publication of the notice of the claim in the **Federal Register,** forward the proposed settlement agreement to the General Counsel, NOAA. The Chief, FSD, may also forward to the General Counsel, NOAA, an agency recommendation concerning the claim. Such recommendation may be, among other things, to: (i) approve the claim, (ii) approve a proposed settlement of the claim, or (iii) deny the claim.

If the recommendation is to deny the claim, the General Counsel, NOAA, will promptly refer it to the ALJ for adjudication. If the recommendation is to approve the claim or for a proposed settlement, the General Counsel will publish a notice of the recommendation in the **Federal Register.** Not sooner than 15 days after that notice is published, the General Counsel will send to the ALJ the claim, the Agency recommendation, any request by an interested person to submit evidence or to be admitted as a party to any hearing, and any request that an oral hearing be conducted concerning the claim. The ALJ will then adjudicate the case.

The following claim published in **Federal Register** notification 4–80 (FR Doc. 8027667 at page 58180) in error is hereby corrected: FCF–29–80 Locational coordinate should be 28°42.9'N 92°10.8'W instead of 27°20.2'W 97°09.9'W.

The following claims have been received.

Claim No.	Nature of loss and location	Amount
FCF–75–79	On 8/26/79 claimant lost a 65' net, shark gear, plastic false tail, easy line, and 1 day fishing time while trawling for shrimp at the following coordinated: 28°33.5' N 90°36.0' W.	[1] $1,789.01 [2] 1,596.00 [3] 13.87
	Total	3,398.88
FCF–03–79	On 9/2/80 claimant lost 3 40' nets, tickler chains, lazy lines, 2-pair 9' x 40' doors, sled, set of 7/16 x 50 fathom bridles, and 5 days fishing time while trawling for shrimp at the following coordinates: 29°03.9' N 93°43.1' W.	[1] $4,224.00 [2] 7,850.00 [3] 204.00
	Total	12,278.00
FCF–05–81	On 10/20/80 claimant lost nets, bridles, dummy doors, pair of 8' x 40'' doors, chain, rope, floats, leads and 4 days fishing time while trawling for shrimp at the following coordinates: 27°33.1' N 96°51.1' W.	[1] $6,422.96 [2] 3,335.00 [3] 172.00
	Total	9,929.96
FCF–09–81	On 10/26/80 claimant lost a trawl board, dummy board, tickler chain, nuts shackles, thimbles, nets, and 5 days fishing time while trawling for shrimp at the following coordinates: 29°16.4' N 94°29.8' W.	[1] $1,444.46 [2] 5,000.00 [3] 0
	Total	6,444.46
FCF–10–81	On 8/18/80 claimant lost a net, bag, cables, chain shaffing gear, and 5½ hours fishing time while trawling for shrimp at the following coordinates: 29°04.0' N 93°29.7' W.	[1] $1,245.93 [2] 500.00 [3] 0
	Total	1,745.93
FCF–16–81	On 11/10/79 claimant lost 2 35' nets, 2 tickler chains, shackles, lazy line, bag ties, sled, legs and 1 pair 8' x 40' doors while trawling for shrimp at the following coordinates: 28°40.3' N 91°25.8' W.	[1] $3,256.83 [2] 0 [3] 0
	Total	3,256.83

[1] Gear loss.
[2] Economic loss.
[3] Consequential loss.

Anyone wishing to submit evidence concerning any of these claims, or to become a party to any hearing, must contact, in writing, Mr. Michael L. Grable, Chief, Financial Services Division, National Marine Fisheries Service, Washington, D.C. 20235, on or before July 6, 1981 (telephone (202) 634–4688).

Dated: May 28, 1981.

Robert K. Crowell

Deputy Executive Director, National Marine Fisheries Service.

BILLING CODE 3510-22-M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Import Restraint Level for Certain Cotton Textile Products From Pakistan; Announcement of an Increase

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Increasing the consultation level for other cotton apparel products in category 359, produced or manufactured in Pakistan and exported during the eighteen-month period which began on January 1, 1981.

(A detailed description of the textile categories in terms of TSUSA numbers was published in the **Federal Register** on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), and May 5, 1981 (46 FR 25121)).

SUMMARY: Under the terms of the Bilateral Cotton Textile Agreement of January 4 and 9, 1978, as amended, between the Governments of the United States and Pakistan, agreement has been reached to increase the consultation level for cotton textile products in Category 359 from 400,109 pounds to 1,052,283 pounds during the agreement period which began on January 1, 1981 and extends through June 30, 1982.

EFFECTIVE DATE: May 29, 1981.

FOR FURTHER INFORMATION CONTACT: Carl Ruths, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377-4212).

SUPPLEMENTARY INFORMATION: On December 24, 1980 there was published in the **Federal Register** (45 FR 85140) a letter dated December 19, 1980 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, which established levels of restraint for certain specified categories of cotton textile products, including Category 359, produced or manufactured in Pakistan and exported to the United States during the eighteen-month period which began on January 1, 1981 and extending through June 30, 1982. In accordance with the terms of the bilateral agreement the United States Government has agreed to increase the consultation level for textile products in Category 359 to 1,052,283 pounds. In the letter published below the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs to increase the level to the designated amount.

Paul T. O'Day,

Chairman, Committee for the Implementation of Textile Agreements.

Commissioner of Customs,
Department of the Treasury,
Washington, D.C. 20229.

Dear Mr. Commissioner: This directive amends, but does not cancel, the directive issued to you on December 19, 1980 by the Chairman, Committee for the Implementation of Textile Agreements, concerning imports into the United States of certain cotton textile products, produced or manufactured in Pakistan.

Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977; pursuant to the Bilateral Cotton Textile Agreement of January 4 and 9, 1978, as amended, between the Governments of the United States and Pakistan, and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed to prohibit, effective on May 29, 1981, and for the eighteen-month period beginning on January 1, 1981 and extending through June 30, 1982, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Category 359, produced or manufactured in Pakistan, not to exceed the adjusted eighteen-month level of restraint of 1,052,283 pounds.

The actions taken with respect to the Government of Pakistan and with respect to imports of cotton textile products from Pakistan have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the **Federal Register.**

Sincerely,

Paul T. O'Day,

Chairman, Committee for the Implementation of Textile Agreements.

The System Notices being amended do not fall within the criteria of Subsection 552a(o) of Title 5 of the United States Code.

M. S. Healy,

OSD Federal Register Liaison Officer, Washington Headquarters Services, Department of Defense.

June 1, 1981.

DELETIONS

A0228.03DAMH

System name:

Historical Inquiry Files (44 FR 73785), December 17, 1979.

Reason:

Records are contained in proposed amended system notice A0228.01DAMH, Army History Files, appearing in this **Federal Register.**

A0228.aDAMH

System name:

Historical Photographic Files (44 FR 73786), December 17, 1979.

Reason:

Records are contained in proposed amended system notice A0228.01DAMH, Army History Files, appearing in this **Federal Register**.

A0701.bAMC

System name:

Retirement Services Control Reference Paper Files (44 FR 73851), December 17, 1979.

Reason:

Information in this system of records is covered by system notice A0725.01cDAPC, Personnel Actions—Personal Affairs.

A0726.04aDAAG

System name:

Casualty Case Files (44 FR 73906), December 17, 1979.

Reason:

Information in this record system which may be subject to the Privacy Act is covered in A0726.06 being amended in this **Federal Register**.

A0726.04bDAAG

System name:

Report of Casualty (44 FR 73906), December 17, 1979.

Reason:

Information in this system is not subject to the Privacy Act.

AMENDMENTS

A0228.01DAMH

System name:

Historian's Background Material (44 FR 73785), December 17, 1979.

Changes:

System name:

Delete entry and substitute therefor: "Army History Files".

Categories of individuals covered by the system:

Delete entry and substitute therefor: "Military and civilian personnel associated with the Army; individuals who seek information concerning US Army activities."

Categories of records in the system:

Delete entry and substitute therefor: "Biographical resumes and personal working files of US Army personnel; personal papers donated by individuals for historical research; photographs of Army personages; requests for historical documents regarding US Army activities, and responses thereto."

Authority for maintenance of the system:

Add: "Title 5 U.S.C., Section 301."

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Change period to semi-colon and add: "* * * to assist in preparing official studies of the US Army and events pertaining thereto."

Storage:

After "tapes", insert "and photographs".

Retention and disposal:

Add: "* * * Some are retired to the Washington National Records Center when no longer needed in historical offices; others are transferred to the Military History Research Collection at Carlisle Barracks, PA for preservation."

Notification procedure:

Delete entry and substitute therefor: "Individuals wishing to inquire whether this system of records contains information about them should contact the SYSMANAGER."

Record access procedures:

Delete entry and substitute therefor: "Individuals may request access to their records by contacting the SYSMANAGER, furnishing their full name, social security number, and signature."

Contesting record procedures:

After "determinations", delete remainder of entry and add the following: "* * * are contained in Army Regulation 340–21 (32 CFR Part 505)."

Record source categories:

Delete entry and substitute therefor: "From the individual, his/her Army record, photographs, official Army documents, public records."

System exempted from certain provisions of the act:

Delete entry and substitute therefor: "Portions of this system which fall within the 5 U.S.C. 552a(k)(1) are exempted from subsection (d) of the act."

A0726.06DAAG

System name:

Casualty Information System (CIS) (44 FR 73907), December 17, 1979.

Changes:

System location:

Delete entry and substitute therefor: "The Adjutant General's Office, Headquarters, Department of the Army, Casualty and Memorial Affairs Directorate, Casualty Services Division, Washington, DC 20310."

Categories of individuals covered by the system:

After "procedures", delete period and add: "* * * specified in Army Regulation 600–10."

Categories of records in the system:

Delete entry and substitute therefor: "Computer data base contains information on casualties since 1961, including name, social security number, date of birth, branch of service, organization, duty, Military Occupational Specialty, rank, sex, race, religion, home of record, and other pertinent information related to one's casualty status."

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Delete entry and substitute therefor: "Information from the historical statistical record is used to provide monthly statistics to Army and Defense components of the type, number, place and cause of death of Army members and to respond to public inquiries."

Notification procedure:

Delete entry and substitute therefor: "Information may be obtained from the SYSMANAGER at the address given, or by telephoning Area Code 703, 325–7990."

Contesting record procedures:

After "determinations", delete remainder and add the following: "* * * are contained in Army Regulation 340–21 (32 CFR Part 505)."

Record source categories:

Delete information following "* * * field commands."

A0228.01DAMH

SYSTEM NAME:

Army History Files.

SYSTEM LOCATION:

U.S. Army Center of Military History, Headquarters, Department of the Army, Washington, DC 20310.

Decentralized segments exist at historical offices at HQDA staff and field operating agencies, major commands, and the USA Military

Historical Research Collection, Carlisle Barracks, PA 17013.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Military and civilian personnel associated with the Army; individuals who seek information concerning U.S. Army activities.

CATEGORIES OF RECORDS IN THE SYSTEM:

Biographical resumés and personal working files of U.S. Army personnel; personal papers donated by individuals for historical research; photographs of Army personages; requests for historical documents regarding U.S. Army activities; and responses thereto.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012; Title 5 U.S.C., Section 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To provide information of a general nature concerning U.S. Army history in response to inquiries; to assist in preparing official studies of the U.S. Army and events pertaining thereto.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records, tapes, and photographs in file folders.

RETRIEVABILITY:

By individual's name.

SAFEGUARDS:

Records are maintained in secured areas accessible only to persons having need for the information in the performance of official duties.

RETENTION AND DISPOSAL:

Historical material and photographs are retained in historical reference collections permanently. Some are retired to the Washington National Records Center when no longer needed in historical offices; others are transferred to the Military History Research Collection at Carlisle Barracks, PA for preservation.

SYSTEM MANAGER(S) AND ADDRESS:

Chief of Military History, Headquarters, Department of the Army, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Individuals wishing to inquire whether this system of records contains information about them should contact the SYSMANAGER.

RECORD ACCESS PROCEDURES:

Individuals may request access to their records by contacting the SYSMANAGER, furnishing their full name, social security number, and signature.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual, his/her Army record, photographs, official Army documents, public records.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Portions of this system which fall within 5 U.S.C. 552a(k)(1) are exempted from subsection (d) of the act.

A0726.06DAAG

SYSTEM NAME:

Casualty Information System (CIS).

SYSTEM LOCATION:

The Adjutant General's Office, Headquarters, Department of the Army, Casualty and Memorial Affairs Directorate, Casualty Services Division, Washington, DC 20310.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All Army personnel reported as casualties in accordance with casualty notification procedures specified in Army Regulation 600–10.

CATEGORIES OF RECORDS IN THE SYSTEM:

Computer data base contains information on casualties since 1961, including name, social security number (SSN), date of birth, branch of service, organization, duty Military Occupational Specialty, rank, sex, race, religion, home of record, and other pertinent information related to one's casualty status.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information from the historical statistical record is used to provide monthly statistics to Army and Defense components of the type, number, place and cause of death of Army members and to respond to public inquiries.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tapes, computer printouts, and punch cards.

RETRIEVABILITY:

By name, SSN.

SAFEGUARDS:

All information is restricted to a secure area in buildings which employ security guards. Computer printouts and magnetic tapes and files are protected by password known only to properly screened personnel possessing special authorization for access.

RETENTION AND DISPOSAL:

Records are permanent.

SYSTEM MANAGER(S) AND ADDRESS:

The Adjutant General's Office, Headquarters, Department of the Army (ATTN: DAAG–PEC), Washington, DC 20310.

NOTIFICATION PROCEDURE:

Information may be obtained from the SYSMANAGER at the address given, or by telephoning Area Code 703, 325–7990.

RECORD ACCESS PROCEDURES:

Written requests should contain the individual's name, current address and telephone number and should identify the person who is the subject of the inquiry by name, rank and SSN. Personal visits may be made to the Casualty Services Division, Office of the Adjutant General at Hoffman Building I, 2461 Eisenhower Avenue, Alexandria, VA 22331. For personal visits, individual should provide acceptable identification such as military identification card, valid driver's license, or social security card.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulations 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From casualty reports received from Army field commands.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

BILLING CODE 3710-08-M

Defense Intelligence Agency

Privacy Act of 1974; Amendment of a System Notice

AGENCY: Defense Intelligence Agency.

ACTION: Amendment of a system notice.

SUMMARY: The Defense Intelligence Agency proposes to amend the notice for one of its system of records subject to the Privacy Act by making certain minor administrative changes to more clearly reflect the contents of the system and the manner in which it is retained. The specific changes to the system are set forth below followed by the amended system notice in its entirety.

DATE: This action shall be effective on July 6, 1981, unless comments are received which result in contrary determination.

ADDRESSES: Comments should be sent to the System manager identified in the notice below.

FOR FURTHER INFORMATION CONTACT: Mrs. Helen E. Shufford, Chief, Administrative Management Branch (RTS–IC) Defense Intelligence Agency, Room B–112, Cafritz Building, Washington, D.C. 20301, telephone (202) 695–1040.

SUPPLEMENTARY INFORMATION: The Defense Intelligence Agency inventory of system of records notices as prescribed by the Privacy Act, Title 5, United States Code, Section 552a (Pub. L. 93–579; 88 Stat. 1896, et seq.) has been published at:

(FR Doc. 81–897 (46 FR 6460), January 21, 1981)

These changes do not require an altered system report under the provision of subsection 552a(o), of Title 5 of the United States Code.

M. S. Healy,

OSD Federal Register Liaison Officer, Washington, Headquarters Services Department of Defense.

June 1, 1981.

Changes

LDIA 0819

System Name:

DIA Financial Management.

Changes

Categories of Records in the System:

Delete the first sentence.

Routine Uses of Records Maintained in System, Including Categories of Users and the Purposes of Such Uses:

Delete the third and fourth sentences and insert.

"Information will be disclosed to the current employer of civilian employees who have left the agency with the exception of the Departments of State and Air Force."

Record Source Categories:

Delete the words "Finance Office" and insert "and Air Force Finance Offices"

LDIA 0819

SYSTEM NAME:

DIA Financial Management.

SYSTEM LOCATION:

Defense Intelligence Agency, Washington, D.C. 20301.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current and former civilian and military employees of DIA.

CATEGORIES OF RECORDS IN THE SYSTEM:

Documents supporting claims of indebtedness to the United States Government. Applications for the waiver of erroneous payment or indebtedness. Correspondence from civilian employees related to financial transactions.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Pursuant to the authority contained in the National Security Act of 1947, 10 U.S.C. 133d, the Secretary of Defense issued Department of Defense Directive 5105.21 creating the Defense Intelligence Agency as a separate agency of the Department of Defense under his direction and therein charged the Agency's Director with the responsibility for the maintenance of necessary and appropriate records.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

Information is used to determine eligibility for waiver of erroneous payment and remission of indebtedness. To support claims of the United States Government for the collection of erroneous payments made. To process employee's claims of payroll problems. Information will be disclosed to the current employer of civilian employees who have left the agency with the exception of the Departments of State and Air Force.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSAL OF RECORDS IN THE SYSTEM.

STORAGE:

Manual in paper files and cards.

RETRIEVABILITY:

By name.

SAFEGUARDS:

Records are maintained in a building protected by security guards and are stored in vaults, safes or locked cabinets and are accessible only to authorized personnel who are properly screened, cleared and trained in the protection of privacy information.

RETENTION AND DISPOSAL:

Records are cut off each fiscal year and held for 2 years and then retired to the Washington National Records Center. They are destroyed when 10 years old. Temporary records are destroyed in 4 years of 2 years after a General Accounting Office audit.

SYSTEM MANAGER(S) AND ADDRESS:

Comptroller, Defense Intelligence Agency, Washington, D.C. 20301.

NOTIFICATION PROCEDURE:

To obtain information as to whether this system of records contains information pertaining to yourself, you must submit a written request to: CAO (PA 1974), Defense Intelligence Agency, Washington, D.C. 20301. You must include in your request: your full name, current address, telephone number and social security account number and date of birth. Requests can be mailed to address indicated above or personally delivered to room 3E–223, Pentagon, Washington, D.C.

RECORDS ACCESS PROCEDURES:

All requests for copies of records pertaining to yourself must be in writing. You must include in your requests: your full name, current address, telephone number and social security account number and date of birth. Also, you should state that whatever cost is involved is acceptable or acceptable up to a specified limit. Requests can be mailed to: CAO (PA 1974), Defense Intelligence Agency, Washington, D.C. 20301, or personally delivered to room 3E–223, Pentagon, Washington, D.C.

CONTESTING RECORD PROCEDURES:

An individual who disagrees with the Agency's initial determination, with respect to his or her request, may file a request for administration review of that determination. Requests are to be in writing and made within 30 days of the date of notification of the initial determination. The requester shall provide a statement setting forth the reasons for his or her disagreement with the initial determination and provide such additional material to support his or her appeal. Requests can be mailed

to: CAO (PA 1974), Defense Intelligence Agency, Washington, D.C. 20301, or personally delivered to room 3E–223, Pentagon, Washington, D.C.

RECORD SOURCE CATEGORIES:

Data is supplied from a number of sources including the individual concerned, the U.S. Army and Air Force Finance Offices and Agency officials.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

[FR Doc. 81–16661 Filed 6–3–81; 8:45 am]

BILLING CODE 3810–70–M

DEPARTMENT OF EDUCATION

Guaranteed Student Loan Program; Special Allowance Rates for Quarter Ending March 31, 1981

The Secretary announces that for the three-month period ending March 31, 1981, except with respect to loans to which Section 438(b)(2)(D) of the Higher Education Act applies, a special allowance at an *annual rate* of 11 and ⅝ percent will be paid to holders of eligible Guaranteed Student Loan Program Loans having an applicable annual interest rate of 7 percent and a special allowance at an *annual rate* of 9 and ⅝ percent will be paid to holders of eligible Guaranteed Student Loan Program Loans having an applicable annual interest rate of 9 percent.

The two special allowance rates were computed under the statutory formula of section 438(b) of the Higher Education Act of 1965, as amended by the Education Amendments of 1980 (Pub. L. 96–374, October 3, 1980). Under this formula, the quarterly special allowance rates are computed by determining the average of the bond equivalent rates of the 91-day Treasury bills auctioned during this three-month period (15.03 percent), by subtracting from this average either 3.5 percent for 7 percent loans (11.53) or 5.5 percent for 9 percent loans (9.53), by rounding the remainders upward to the nearest one-eighth of 1 percent (11⅝ percent and 9⅝ percent, respectively), and by dividing the resultant percents by four (2.90625 percent and 2.40625 percent, respectively).

Thus, the special allowance to be paid for this period will be 2.90625 percent for loans with an applicable annual interest rate of 7 percent, and 2.40625 percent for loans with an applicable annual interest rate of 9 percent, computed on the average unpaid principal balance (not including unearned interest added to principal) of all eligible loans held by lenders.

(20 U.S.C. 1087–1(b))

(Catalog of Federal Domestic Assistance No. 84.032, Guaranteed Student Loan Program)

Dated: May 29, 1981.

T. H. Bell,

Secretary of Education.

[FR Doc. 81–16658 Filed 6–3–81; 8:45 am]

BILLING CODE 4000–01–M

DEPARTMENT OF ENERGY

Economic Regulatory Administration

[ERA Case No. 52970–9039–01, 02, 03, 04–82; Docket No. ERA–FC–81–012]

Tucson Electric Power Company; Public Hearing

AGENCY: Economic Regulatory Administration, DOE.

ACTION: Notice of hearing; correction.

SUMMARY: This document corrects a notice of May 26, 1981 (46 FR 28210).

Under the section entitled Supplementary Information, appearing on page 28211, column one, the third paragraph, second sentence is corrected to read as follows: "Presentations were made by, among others, ERA, TEP, the Southwest Gas Corporation and the Sierra Club, Grand Canyon Chapter." In the same section, column two, paragraph three, the second sentence is corrected to read as follows: "Following the publication of the NOIP and the Notice of Availability of the Tentative Staff Analysis, ERA received requests for a public hearing from Southern Arizonans for Fair Energy Rates, the Phoenix Building and Construction Trades Council and the Southern Arizona Building and Construction Trades Council* * *" Fourth paragraph, same column, the first sentence is corrected to read as follows: "At the public hearing, ERA will provide interested persons an opportunity to present oral or written data, views and arguments on the pending prohibition order proceedings."

Robert L. Davies,

Director, Office of Fuels Conversion, Economic Regulatory Administration.

May 29, 1981.

[FR Doc. 81–16628 Filed 6–3–81; 8:45 am]

BILLING CODE 6450–01–M

Conduct of Employees; Waiver Pursuant to Section 602(c) of the Department of Energy Organization Act (Pub. L. 95–91)

Section 602(c) of the Department of Energy Organization Act (Pub. L. 95–91) authorizes the Secretary of Energy to waive the divestiture requirements of section 602(a) of the Act for "supervisory employees" (as defined in section 601(a) of the Act) of the Department who have official relationships with, or financial interests in, "energy concerns" (as defined in section 601(b) of the Act).

Walter R. Pettiss, who has been appointed Administrative Assistant and Chief of Staff to the Secretary of Energy, has an offical relationship with, and the following other interests in, Milliken and Company. Mr. Pettiss has been granted a leave of absence by the company from April 13, 1981, to April 10, 1982. In addition, he has vested interests in the Milliken Salaried Employees Pension Plan and both vested and non-vested interests in the Milliken Salaried Employees Savings and Supplemental Retirement Plan. Milliken has been determined to be an energy concern within the meaning of section 601(b)(2) of the Department of Energy Organization Act.

It has been established to my satisfaction that Mr. Pettiss has vested interests, within the meaning of section 602(c) of the Department of Energy Organization Act, in the Milliken Salaried Employees Pension Plan and the Milliken Salaried Employees Savings and Supplemental Retirement Plan; and that requiring divestiture of his aforementioned employment relationship to Milliken and Company or of his non-vested interests in the Milliken Salaried Employees Savings and Supplemental Retirement Plan would impose exceptional hardship on him within the meaning of section 602(c) of the Act with respect to such relationship and interests for the period April 13, 1981 to April 10, 1982.

Mr. Pettiss' official duties as Administrative Assistant and Chief of Staff to the Secretary of Energy would require little, if any, involvement on his part in particular matters that could have a direct and predictable effect on Milliken and Company or his interests therein. Nevertheless, he will be directed not to participate personally and substantially, as a Government employee, in any particular matter the outcome of which could have a direct and predictable effect on the company or his interests in the company, unless the Secretary and the counselor agree that the financial interest in the particular matter is not so substantial as to be deemed likely to affect the integrity of the services which the Government may expect of him.

Dated: May 27, 1981.

James B. Edwards,

Secretary.

BILLING CODE 6450-01-M

ENVIRONMENTAL PROTECTION AGENCY

[RD-FRL 1845-2]

Ambient Air Monitoring Reference and Equivalent Methods; Amendment to Reference Methods for NO_2

Notice is hereby given that EPA, in accordance with 40 CFR Part 53 (40 FR 7049, 41 FR 11255, 41 FR 52694), has approved additional options to two reference methods, designation numbers RFNA-0677-021 (42 FR 37434) and RFNA-0280-042 (45 FR 9100). The options, for both of the methods, allow the use of a permeation distillation dryer in the ozone generation air stream. While the method identification numbers remain the same, the method descriptions are amended to read as follows:

(1) RFNA-0677-021, "Monitor Labs Model 8440E Nitrogen Oxides Analyzer," operated on a 0-0.5 ppm range (position 2 of range switch), with a time constant setting of 20 seconds, and with or without any of the following options:

TF Sample Particulate Filter With TFE Filter Element
V Zero/Span Valves
FM Flowmeters
DO Status Outputs
R Rack Mount
018A Ozone Dry Air
018B Ozone Dry Air—No Drierite

(2) RFNA-0280-042, "Monitor Labs Model 8840 Nitrogen Oxides Analyzer," operated on a range or either 0-0.5 ppm or 0-1.0 ppm, with an internal time constant setting of 60 seconds, a TFE sample filter installed on the sample inlet line, and with or without any of the following options:

02 Flowmeter
03A Rack Ears
03B Slides
05A Zero/Span Valves
05B Valve/Relay
06 Status
07A Input Power Transformer 100 VAC, 50/60 Hz
07B Input Power Transformer 220/240 VAC, 50 Hz
08A Pump Pac Assembly with 09A (115 VAC)
08B Pump Pac Assembly with 09B (100 VAC)
08C Pump Pac Assembly with 09C (220/240 VAC)
08D Rack Mount Panel Assembly
09A Pump 115 VAC 50/60 Hz
09B Pump 100 VAC 50/60 Hz
09C Pump 220/240 VAC 50 Hz
011A Recorder Output 1 Volt
011B Recorder Output 100 MV
011C Recorder Output 10 MV
012A DAS Output 1 Volt
012B DAS Output 100 MV
012C DAS Output 10 MV
013A Ozone Dry Air
013B Ozone Dry Air—No Drierite

These methods are available from Monitor Labs, Incorporated, 10180 Scripps Ranch Boulevard, San Diego, California 92131.

These changes are made in accordance with 40 CFR 53.14, based on additional information submitted by the applicant subsequent to the original designations (42 FR 37434, July 21, 1977, and 45 FR 9100, February 11, 1980). As designated reference methods, these methods are acceptable for use by States and other control agencies for purposes which require use of reference or equivalent monitoring methods.

Additional information concerning the use of these designated methods may be obtained from the original Notices of Designation (42 FR 37434 and 45 FR 9100) or by writing to: Director, Environmental Monitoring Systems Laboratory, Department E (MD-77), U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711. Technical questions concerning the method should be directed to the manufacturer.

Courtney Riordan,

Acting Assistant Administrator for Research and Development.

[FR Doc. 81-16633 Filed 6-3-81; 8:45 am]

BILLING CODE 6560-35-M

[RD-FRL 1845-3]

Ambient Air Monitoring Reference and Equivalent Methods; Designation of Ambient Air Monitoring Equivalent Method for Lead

Notice is hereby given that EPA, in accordance with 40 CFR Part 53 (40 FR 7049, 41 FR 11255, 44 FR 37916), has designated another equivalent method for the determination of lead in suspended particulate matter collected from ambient air. The new designated method is:

EQL-0581-052, "Determination of Lead Concentration in Ambient Particulate Matter by Wavelength Dispersive X-Ray Fluorescence Spectrometry."

A notice of receipt of application for this method appeared in the **Federal Register**, Volume 46, January 19, 1981, page 5064.

This method has been tested by the applicant (California Department of Health Service, Air and Industrial Hygiene Laboratory) in accordance with the test procedures prescribed in 40 CFR Part 53. After reviewing the results of these tests and other information submitted by the applicant, EPA had determined, in accordance with Part 53, that this method should be designated as an equivalent method. The information submitted by the applicant will be kept on file at EPA's Environmental Monitoring Systems Laboratory, Research Triangle Park, North Carolina, and will be available for inspection to the extent consistent with 40 CFR Part 2 (EPA's regulations implementing the Freedom of Information Act).

This method uses the sampling procedure specified in the reference method for the determination of lead in suspended particulate matter collected from ambient air (43 FR 46258). The lead content of the sample is measured by wavelength-dispersive X-ray fluorescence spectrometry using the lead Lb line at 0.0983 nm or the lead La line at 0.1175 nm. For optimum sensitivity to lead, the X-ray fluorescence spectrometer should be equipped with the following: (1) vacuum optical path; (2) pulse height analyzer or other means of energy discrimination; (3) LiF 200 analyzing crystal; (4) X-ray tube with a tungsten, molybdenum, or other suitable target. Technical questions concerning the method should be directed to the California Department of Health Services, Air and Industrial Hygiene Laboratory, 2151 Berkeley Way, Berkeley, California 94704.

As a designated equivalent method, this method is acceptable for use by States and other control agencies for purposes of 40 CFR Part 58, Ambient Air Quality Surveillance (44 FR 27571, May 10, 1979). For such use, the method must be used in strict accordance with the procedures and specifications provided in the method description. States or other agencies using X-ray fluorescence spectrometric methods that employ procedures and specifications significantly different from those in this method must seek approval for their particular method under the provisions of § 2.8 of Appendix C to 40 CFR Part 58 (Modifications of Methods by Users) or may seek designation of such methods as equivalent methods under the provisions of 40 CFR Part 53.

Additional information concerning this action may be obtained by writing to Director, Environmental Monitoring Systems Laboratory, Department E (MD-77), U.S. Environmental Protection

Agency, Research Triangle Park, North Carolina 27711.

Courtney Riordan,

Acting Assistant Administrator for Research and Development.

BILLING CODE 6560-35-M

[RD-FRC 1845-1]

Ambient Air Monitoring Reference and Equivalent Methods; Receipt of Application for an Equivalent Method Determination

Notice is hereby given that on April 27, 1981, the Environmental Protection Agency received an application from Monitor Labs, Incorporated to determine if its Model 8810 Photometric Ozone Analyzer should be designated by the Administrator of the EPA as an equivalent method under 40 CFR Part 53 (40 FR 7044, 41 FR 11255). If, after appropriate technical study, the Administrator determines that this method should be so designated, notice thereof will be given in a subsequent issue of the **Federal Register.**

BILLING CODE 6560-35-M

FEDERAL MARITIME COMMISSION

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for review and approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement and the justification offered therefor at the Washington office of the Federal Maritime Commission, 1100 L Street, NW, Room 10427; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, Chicago, Illinois, and San Juan, Puerto Rico. Interested parties may submit comments on the agreement, including request for hearing, to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before June 24, 1981. Comments should include facts and arguments concerning the approval, modification, or disapproval of the proposed agreement. Comments shall discuss with particularity allegations that the agreement is unjustly discriminatory or unfair as between carriers, shippers, exporters, importers, or ports, or between exporters from the United States and their foreign competitors, or operates to the detriment of the commerce of the United States, or is contrary to the public interest, or is in violation of the Act.

A copy of any comments should also be forwarded to the party filing the agreement and the statement should indicate that this has been done.

AGREEMENT NO. 10422.

FILING PARTY: Seymour H. Kligler, Esquire, Brauner, Baron, Rosenzweig, Kligler, Sparber & Bauman, 120 Broadway, New York, New York 10271.

SUMMARY: Agreement No. 10422, among Korea Shipping Corporation (KSC), Neptune Orient Lines, Ltd. (NOL), and Orient Overseas Container Line, Inc. (OOCL), provides for a cooperative arrangement whereby the parties will exchange space on vessels operated by each other. The scope of the agreement will include trade between ports and points in the United States (excluding Alaska and all commonwealths, territories and possessions of the United States but including Hawaii and Puerto Rico) and ports and points in the Republic of Korea, China, Hong Kong, Japan (including Okinawa), Thailand, Malaysia, Republic of Singapore, Indonesia, Republic of the Philippines, and, by transshipment, only, the Arabian Gulf and Australia. The parties will operate two services: (a) between ports in Hawaii and on the Pacific Coast of the United States and ports in the Far East and Southeast Asia ("Pacific Service"); and (b) between ports on the Atlantic and Gulf coasts of the United States and Puerto Rico and ports in the Far East and Southeast Asia ("Atlantic Service"). Vessels in the Atlantic Service may call at ports in California. The services will be operated either by direct shipment or transshipment, except that transportation to and from the Arabian Gulf and Australia will be by transshipment only. The parties will operate 18 vessels in the trade. KSC will operate 5 vessels, NOL will operate 5 vessels and OOCL will operate 8 vessels. Each of the vessels will have a capacity between 1,500 and 2,300 TEUs. No more than 8 vessels nor less than 7 vessels will be operated in the Pacific Service and the balance will be operated in the Atlantic Service. The parties agree to exchange space on vessels operated by each of them for space on vessels operated by others. The parties will receive in exchange the same number of TEUs as they make available on vessels operated by it to the other parties. No party may receive in exchange an amount of space in excess of the total amount of space on all vessels operated by it in the trade. Each party will be responsible for the utilization of its allocation. Any space which is not utilized by any party may be chartered or sub-chartered to any other party and such party will compensate the party from whom the space was chartered or sub-chartered. The value of the space allocated will be determined by the parties. Except as provided in the Agreement, no party will directly or indirectly conduct or operate any container liner service in the trade. Each party will take steps to become a party to each conference or other rate making agreement in the trade provided 75 percent of the containerized cargo moving in any trade to which any such conference or rate agreement is applicable is moving on vessels operated by conference/rate agreement members. Each party will retain absolute and complete independence in voting as a party to such conference or rate agreement. Except as may be required by any conference or rate agreements, any party may charge such rate for the transportation of container cargo as it sees fit. Each party will control on its own the following: cargo solicitation; payment of claims; collection of freight and other charges; utilization and allocation of space; supply; rental and movement of containers; preparation of documents; and appointment of agents and sub-agents. The parties will cooperate with each other to rationale sailings in each of the services and arrange advertising and sailing schedules so as to avoid conflicting dates. The parties will jointly negotiate and enter into leases, licenses, or assignments of terminal facilities and jointly contract for stevedoring and other terminal services. Each party requiring containers or other equipment agrees that it will lease or sub-lease such containers or equipment from any other party having a surplus. The parties will assist each other in positioning such containers and equipment where required at rates and terms to be agreed upon. The parties may enter into agreements which do not conflict with the terms of this agreement. The agreement provides for its termination on the fifth anniversary of the effective date. Upon becoming effective, Agreement No. 10422 is intended to supersede Agreement No. 10186, as amended. Agreement No. 10422 replaces Agreement No. 10409, a tripartite agreement between KSC, OOCL and NOL, withdrawn prior to Commission consideration.

By Order of the Federal Maritime Commission.

Dated: May 29, 1981.

Joseph C. Polking,

Acting Secretary,

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service

Health Education Assistance Loan Program; "Maximum Interest Rates for Quarter Ending June 30, 1981"; Correction

IN FR Doc. 81-13550 (46 FR 25352) published in the issue of Wednesday, May 6, 1981, the fourth and fifth statements, third column, item 1, page 25352 reads "However, the regulatory formula also provides that the annual rate of the variable interest rate for a 3-month period shall be reduced to the highest one-eighth of 1 percent. This would result in an average annual rate not in excess of 12 percent for the 12-month period concluded by those 3 months."

These statements should read "However, the regulatory formula also provides that the annual rate of the variable interest rate for a 3-month period shall be reduced to the highest one-eighth of 1 percent which would result in an average annual rate not in excess of 12 percent for the 12-month period concluded by those 3 months."

Dated: May 27, 1981.

BILLING CODE 4110-84-M

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

Irrigation Operation and Maintenance Charges; Water Charges and Related Information on the Flathead Irrigation Project, Montana

This notice of operation and maintenance rates and related information is published under the authority delegated by the Secretary of the Interior to the Assistant Secretary—Indian Affairs in 209 DM8 and redelegated by the Assistant Secretary—Indian Affairs to the Area Directors in 10 BIAM 3, and by authority delegated to the Project Engineer and to the Superintendents by the Area Director in 10 BIAM 7.0 §§ 2.70–2.75. The authority to issue regulations is vested in the Secretary of the Interior by 5 U.S.C. 301 and Section 463 and 465 of the Revised Statutes (25 U.S.C. 2 and 9), and also under 25 CFR 191.1(e).

Pursuant to final rule published on June 14, 1977, in 42 FR 30361, this notice sets forth changes to the operation and maintenance charges and related information applicable to the Flathead Irrigation Project, St. Ignatius, Montana. These charges were proposed pursuant to the authority contained in the Acts of August 1, 1914, and March 7, 1928, (38 Stat. 583, 25 U.S.C. 385; 45 Stat. 210, 25 U.S.C. 387).

Interested persons were given 30 days in which to submit written comments, views or arguments regarding the proposed rates and related provision. One comment was received during the 30 day period which did not justify any changes and in effect was mostly a request for information.

In compliance with the above, the operation and maintenance charges for the lands under the Flathead Irrigation Project, Montana, for the season of 1981 and 1982 and subsequent years until further notice, are hereby fixed as follows:

For the season of 1981 for lands not included in an Irrigation District but including lands held in trust for Indians, the rate per acre for the various divisions are as follows:

	Per acre
Jocko	$7.93
Mission Valley	8.11
Camas	6.96

For the season of 1982 for lands included in an Irrigation District, the Project charge per acre is as follows:

	Per acre
Jocko Valley Irrigation District	$7.45
Mission Irrigation District	6.00
Flathead Irrigation District	5.72

E. M. Axtell,

Project Engineer, Flathead Irrigation Project.

BILLING CODE 4310-84-M

Notice of Receipt and Approval of Petition for Reassumption of Jurisdiction Over Indian Child Custody Proceedings by the Penobscot Indian Nation

Correction

In FR Doc. 81-14915 appearing on page 27397 in the issue of Tuesday, May 19, 1981; third column, the last line of "EFFECTIVE DATE" should have read: "on July 17, 1981."

BILLING CODE 1505-01-M

Bureau of Land Management

[CA-9071]

California; Order Providing for Opening of Land

By virtue of the authority contained in Section 24 of the Act of June 10, 1920, 41 Stat. 1075, as amended, 16 U.S.C. 818 (1970), and in accordance with the authority delegated to me by the State Director, California, State Office, Bureau of Land Management, dated January 13, 1977 (42 FR 3901), as amended, and pursuant to the determination of the Federal Energy Regulatory Commission, it is ordered as follows:

1. By order dated May 11, 1981, the Federal Energy Regulatory Commission vacated the land withdrawals in their entirety for transmission line projects No. 782 and 1154 affecting portions of the following described lands. These lands are located within the Modoc National Forest, the Mission Indian Reservation, vacant public lands located in Modoc and San Diego Counties, California and privately owned lands not subject to disposition under the public land laws:

San Bernardino Meridian

Power Project No. 782

T. 8 S., R. 2 W.,
Sec. 34.
T. 9 S., R. 2 W.,
Sec. 2;
Sec. 13;
Sec. 24;
Sec. 25.

Mount Diablo Meridian

Power Project No. 1154

T. 43 N., R. 13 E.,
Sec. 13;
Sec. 23;
Sec. 24.
T. 43 N., R. 14 E.,
Sec. 13;
Sec. 18.
T. 42 N., R. 15 E.,
Sec. 2 thru 4.
T. 43 N., R. 15 E.,
Sec. 28;
Sec. 29;
Sec. 33.
T. 42 N., R. 16 E.,
Sec. 6.

2. Of the lands described in Paragraph 1, the following is National Forest land and lies within the boundaries of the Modoc National Forest. That portion of said land lying within the boundaries of PP 1154 shall at 10:00 a.m. on July 8, 1981, be open to such disposition as may be made of National Forest land.

Modoc National Forest Mount Diablo Meridian

Power Project No. 1154

T. 43 N., R. 14 E.,
Sec. 13, S½SE¼.
T. 42 N., R. 15 E.,
Sec. 2, Lots 15, 23, and 24;
Sec. 3, Lots 13, 14, 18, and 19;
Sec. 4, Lot 17.
T. 43 N., R. 15 E.,
Sec. 28, SW¼;
Sec. 29, Lot 4 and S½SE¼;
Sec. 33, NE¼NW¼.

3. Of the lands listed in Paragraph 1, the following lie within the boundaries of the Mission Indian Reservation. That portion of said land lying within the boundaries of Power Project 782, shall at 10:00 a.m. on July 8, 1981, be relieved of the segregative effect of power project.

Mission Indian Reservation San Bernardino Meridian

Power Project No. 782

BILLING CODE 4310–84–M

Colorado: Craig District Advisory Council; Field Tours

In accordance with Pub. L. 94–579, notice is hereby given that there will be a series of field tours by the Craig District Advisory Council according to the following schedule:

July 10–11, 1981—White River Resource Area
August 14–15, 1981—Kremmling Resource Area
September 11, 1981—Little Snake Resource Area

The purpose of the tours is to acquaint the council members with the resource management problems encountered by BLM in the field and to observe the progress of various District projects on-the-ground.

The public is welcome to accompany the Advisory Council on the field tours. However, the public must provide their own transportation and lunch. Anyone interested in attending the tours should notify the District Manager, Bureau of Land Management, P.O. Box 248, Craig, Colorado 81626, by July 1, 1981.

The White River Resource Area tour will depart from the Resource Area Office on East Highway 13 in Meeker, Colorado, at 9:00 a.m., July 10, 1981. The Kremmling Resource Area tour will depart from the Kremmling Resource Area Office on East Highway 40 in Kremmling, Colorado, at 9:30 a.m., August 14, 1981. The Little Snake Resource Area tour will depart from the Craig District Office on East Highway 40 in Craig, Colorado, at 9:00 a.m. on September 11, 1981.

Dated: May 27, 1981.

Lee Carie,

District Manager.

BILLING CODE 4310–84–M

Lakeview District-Warner Lakes Resource Area; Invitation To Comment

In accordance with 43 CFR 1601.3, Notice is hereby given that the Bureau of Land Management, Lakeview District, is progressing with land use planning in Harney County. The Lakeview District completed Step II of the Management Framework Plan (M.F.P.) in 1980 and the Grazing Environmental Impact Statement (E.I.S.) is currently under review in draft form. The MFP amendment being prepared will carry out the requirements of the Federal Land Policy and Management Act of 1976 (FLPMA) with specific regard to section 603, Bureau of Land Management Wilderness Study, on portions of the Warner Lakes Resource Area.

The first phase of wilderness review, an intensive inventory, has been completed. The collected data will now be used to evaluate the capabilities and limitations of the land for resource use and development in three Wilderness Study Areas (W.S.A.s). The units involved are contained in both the Lakeview and Burns BLM Districts and this effort is timed to coordinate with planning efforts under way in the Andrews Resource Area of the Burns District. Management recommendations will affect approximately 215,300 acres of public land in units 1–146 A and 1–146 B Hawksie-Walksie, inventoried by the Lakeview District, and 2–84 Basque Hills, inventoried by the Burns District.

BLM resource specialists in range, recreation, wildlife, minerals and cultural resources, together with socio-economic specialists will comprise an inter-disciplinary team developing this plan.

General types of issues anticipated include: allocation of vegetation for use by livestock, wildlife, watershed protection, water quality, ORV activities and other recreation uses, Wilderness and Areas of Critical Environmental Concern.

The plan and ensuing E.I.S. will provide the basis for resource allocations and will define and guide subsequent management decisions within the Warner Lakes Resources Area.

Specific notices of meetings and opportunities for public participation will be announced in the future. Those who desire to discuss the BLM planning and environmental assessment efforts and the available information may do so by contacting the District Manager, Bureau of Land Management, P.O. Box 151, Lakeview, Oregon 97630, (503) 947–2177.

Malcolm T. Shrode,

Acting District Manager.

BILLING CODE 4310–84–M

Medford District Advisory Council; Meeting

Notice is hereby given in accordance with 43 CFR Part 1780 that a meeting of the Medford District Advisory Council will be held on Friday, July 10. The Meeting will begin at 9 AM and will end at 12 noon in the Oregon Room of the Bureau of Land Management Office at 3040 Biddle Road, Medford, Oregon.

The agenda for the meeting will include:

1. General announcements of BLM Medford District activities.
2. A review of the 1982 annual work plan and budget, including a status report on 1981 timber receipts.
3. A review of the 1982 timber sale plan.
4. A status report on the amending of Medford's two management framework plans to include grazing wilderness, and areas of critical environmental concern.
5. Plans for future meetings.

The meeting is open to the public and news media. Interested persons may make oral statements to the Council between 11:30 AM and 12 noon or file written statements for the Council's consideration. Anyone wishing to make an oral statement must notify the Public Information Officer, Bureau of Land Management, 3040 Biddle Road, Medford, Oregon 97501, telephone 503/776–4198, by close of business July 7. Depending on the number of persons wishing to make oral statements, a per person time limit may be established by the District Manager.

Summary of minutes of the Council meeting will be maintained at the District Office and be available for public inspection and reproduction at the cost of duplication.

Hugh R. Shera,

District Manager.

May 20, 1981.

BILLING CODE 4310–84–M

Native Allotments Act of May 17, 1906; Land Described in Native Allotment Applications That May Be Valuable for Minerals; Decision

May 27, 1981.

Section 905(a)(3) of the Alaska National Interest Lands Conservation Act of December 2, 1980, provides that allotment applications will not be legislatively approved if they describe land which the Secretary determines may be valuable for minerals. The deadline for such determinations is June 1, 1981.

Pursuant to the authority delegated to me, I hereby determine on behalf of the Secretary that the following Native Allotment applications describe land that may be valuable for minerals, excluding coal, oil and gas.

The applicants have been or will be notified of this decision.

BILLING CODE 4310–84–M

[OR 24747]

Noncompetitive Sale of Public Land in Malheur County, Oregon; Realty Action

The following described land has been identified as suitable for disposal by sale under Sec. 203 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2743, 2750; 43 U.S.C. 1713, at not less than fair market value:

Willamette Meridian, Oregon

T. 21 S., R. 38 E.,
Sec. 21, NW¼NE¼SW¼NW¼ and NW¼SW¼NW¼.

Containing 12.5 acres.

The land is being sold noncompetitively to John W. Wharton who currently occupies the land without authorization. Mr. Wharton and his

family have occupied the land since approximately 1920 and have attempted to secure title under the Desert Land Act of 1877 and the Color-of-Title Act of 1928. Applications under these authorities have been previously rejected; however, the 9th District Court of Appeals ordered June 11, 1975, that the Whartons be allowed another opportunity to apply under the Desert Land Act. This application was also rejected by decision of the Assistant Secretary of the Interior dated August 8, 1980; however the decision specified that the land described above could be sold to Mr. Wharton at fair market value.

The direct sale will protect the equity investment in the improvements on the land and eliminate the hardship if Mr. Wharton were compelled to remove or otherwise dispose of the improvements. The land is difficult and uneconomic to manage as a part of the public lands. The sale is consistent with the Bureau of Land Management's planning for the land and with local planning and zoning. Resolution of this unauthorized occupancy through sale is in the public interest.

The terms and conditions applicable to this sale are:

1. A right-of-way for ditches or canals will be reserved to the United States (43 U.S.C. 945).

2. All minerals in the land will be reserved to the United States (43 U.S.C. 1719).

3. The patent, when issued, will contain a restrictive convenant pursuant to Executive Order 11988 of May 25, 1977, that the land lying below 2955 feet in elevation will be used only for farming or ranching and not for dwellings or buildings because of flood hazard potential.

4. A Certificate of Water Right dated February 1, 1912, will go with the property if sold to Mr. Wharton, but would be reserved to the United States in any conveyance to another party if Mr. Wharton declines to purchase the land.

Detailed information concerning the sale is available for review at the Oregon State Office, Bureau of Land Management, 729 N.E. Oregon Street, P.O. Box 2965, Portland, Oregon 97208.

On or before July 20, 1981, interested parties may submit comments to the State Director, Bureau of Land Management, at the above address. Any adverse comments will be evaluated by the State Director who may vacate or modify this reality action and issue a final determination. In absence of any action by the State Director, this realty action will become the final determination.

Dated: May 26, 1981.

Champ C. Vaughan, Jr.,

Acting Chief, Branch of Lands and Minerals Operations.

BILLING CODE 4310-84-M

Worland District Advisory Council; Meeting

May 29, 1981.

Notice is hereby given, in accordance with Pub. L. 94-579 and 43 CFR Part 1780, that a meeting of the Worland District Advisory Council will be held on Wednesday, August 12, 1981 at 9:00 a.m. at the Bureau of Land Management Office Annex, 1701 Robertson Avenue, Worland, Wyoming 82401.

The agenda for the meeting will include: a workshop resolving conflict within the Management Framework Plan for the Grass Creek Resource Area, and any discussion in response to public statements presented at the meeting.

The meeting is open to the public. Interested persons may make oral statements to the Council between 1:00 and 1:30 p.m., or file written statements for the Council's consideration. Anyone wishing to make an oral statement must notify the District Manager at the above address on or before Tuesday, August 11, 1981. Written statements must be received by close of business on August 11, 1981. Depending on the number of persons wishing to make an oral statement, a per person time limit may be established.

Summary minutes of the meeting will be maintained in the District Office and be available for public inspection and reproduction, during regular business hours, within 30 days following the meeting.

John A. Kwiatkowski,

District Manager.

BILLING CODE 4310-84-M

Prohibited Acts in Rogue National Wild and Scenic River Area

Pursuant to 43 CFR 8351.2-1, the following is prohibited on the lands and water surface within the Rogue River component of the National Wild and Scenic Rivers System administered by the Bureau of Land Management (BLM) which are described in Exibit A of this Order. The Order shall remain in effect until further notice.

1. Boating

Going onto or being upon the Rogue River between Grave Creek and the Siskiyou National Forest Boundary at Marial using and type of floatable craft or object without: (1) A four agency Rogue Wild and Scenic River management group permit (of which BLM is a signatory), or (2) a joint BLM/US Forest Service (USFS) permit, or (3) an individual BLM permit for such use. The provisions of this paragraph shall not be applicable to persons engaged in non-commercial boating trips on the River from the day after Labor Day to the Friday preceding Memorial Day.

2. Boat Launching

Using any of the Lands described in Exhibit A located between Grave Creek and the Siskiyou National Forest boundary at Marial for the purpose of entering or going upon the Rogue River with any type of floatable craft or object without: (1) A four agency Rogue Wild and Scenic River management group permit (of which BLM is signatory), or (2) a joint BLM/Forest Service permit, or (3) an individual BLM permit for such use. The provisions of this paragraph shall not be applicable to persons engaged in non-commercial boating trips on the River from the day after Labor Day to the Friday preceding Memorial Day.

3. Operation of Motorized Boats

Operation of any motorized boat on the Rogue River between Grave Creek and the Siskiyou National Forest boundary at Marial between May 15 and November 15. The provisions of this paragraph shall not be applicable to persons having a valid BLM permit for such use.

4. Camping

a. Camping for a period longer than 14 consecutive days, or as posted.

b. Camping in any area posted as closed to that use.

c. Occupying any portion of a developed or undeveloped recreation site for other than recreation purposes.

d. Occupying between 10 p.m. and 6 a.m. a place designated for day use only.

5. Building, Maintaining, Attending or Using a Fire

a. Carelessly or negligently throwing or placing any burning substance, or any other substance or thing which may cause a fire, or firework or explosive, into any place where it might start a fire; causing timber, slash, brush, or grass to burn except as authorized by BLM permit; leaving a fire without completely extinguishing it; allowing a fire to escape from control; or building, attending, maintaining or using a campfire without adequately removing all flammable material from around the campfire, which could allow its escape.

b. Failing to observe state fire closure regulations or notices issued by the Oregon State Department of Forestry.

6. Improper Disposal of Trash or Human Waste

a. Placing in or near a river, stream, or other water any substance which does or may contribute to polluting such river, stream, or other water.

b. Failing to dispose of all trash or human waste either by removing it from the area or by depositing it into receptacles or at places provided for such purposes. Human waste may also be buried six to eight inches deep in the soil, away from campsites and water.

c. Leaving in a trash container or dump, any trash brought as such from private property.

7. Disorderly Conduct

a. Engaging in fighting, or in threatening, abusive, indecent, or offensive behavior.

b. Making unreasonable noise.

c. Being nude where a person may be observed by the general public. No person under the age of 10 years shall be considered nude under this paragraph.

8. Other Acts

a. Violation of the terms of any written permission or permit issued by the BLM which authorizes an act or omission otherwise prohibited by the Order.

b. Operating motorized vehicles off roads within BLM Wild and Recreational Sections of the Rogue National Wild and Scenic River corridor; except for the following four areas which are open to day use vehicle parking on the gravel bar, from the day after Labor Day to the Friday preceding Memorial Day. These four limited access points are the gravel bar fishing areas at Rand Recreation Site, Rocky Riffle Recreation Site, Griffin Park Group Recreation Site and Applegate Recreation Site.

c. Discharging a firearm or any other implement capable of taking human life, causing injury, or damaging property: (1) from the Friday preceding Memorial Day through Labor Day from the lands or waters between Grave Creek and the Siskiyou National Forest boundary at Marial, or (2) at any time within 150 yards of a residence, building, developed or undeveloped recreation site, or occupied area, or (3) at any time across or on any public road; or across or on any trail of body of water whereby any person or property is exposed to injury or damage as a result of such discharge.

d. Constructing, placing, or maintaining any kind of road, trail, fence enclosure, communication equipment, building or other structure of improvement without a BLM permit.

e. Damaging, disturbing, or removing any timber or other vegetation or forest product, except as authorized by a BLM permit, or timber sale contract. The provisions of this paragraph shall not be applicable to the use by campers of reasonable amounts of dead and down timber for campfires.

f. Defacing, disturbing, or removing any natural feature or any property of the United States.

g. Entering any structure owned or controlled by the United States when such structure is not designated open to the public.

h. Digging in, disturbing, or removing any archaeological, paleontological or historical site, or removing, disturbing, injuring or destroying any archaeological, paleontological, or historical object, without a BLM permit.

i. Digging, scraping, disturbing, or removing natural land features for the purpose of mineral prospecting or mining. The provisions of this paragraph shall not be applicable to: (1) valid existing mining rights, (2) to recreational gold panning that does not require digging, dredging, or sluicing, or (3) to the use in accordance with State law and regulations of up to a three inch diameter motorized suction dredge in the river channel between the mouth of the Applegate River and Grave Creek.

j. Using or possessing a bicycle, motorized vehicle, or saddle, pack or draft animal on the Rogue River Trail from the trailhead at Grave Creek to the Siskiyou National Forest boundary at Marial, or the Rainie Falls Trail from the trailhead at Grave Creek to Rainie Falls.

k. Operation or use of any aircraft within 1,000 feet of the water surface, from the Friday preceding Memorial Day through Labor Day, between Grave Creek and the Siskiyou National Forest boundary at Marial. The provisions of this paragraph shall not be applicable to the operation and use of aircraft by persons forced to land due to circumstances beyond their control and by persons with a BLM permit for such use.

l. Failing to exhibit required permits and identification when requested by a BLM Authorized Officer or representative.

m. Selling or offering for sale any merchandise or conducting any kind of business enterprise without a BLM permit.

n. Threatening, resisting, intimidating, or interfering with any BLM official or employee engaged in or on account of the performance of his or her official duties in the administration of the National Wild and Scenic Rogue River.

The provisions of paragraphs 1, 2, 3, 4, and 8 b, c, j, and k shall not be applicable to any Federal, State or local officer or member of any organized rescue or fire fighting force in the performance of an official duty.

Done at Medford, Oregon, this 29th day of May, 1981.

Wayne A. Boden,

Medford District Manager, Bureau of Land Management.

Violation of these prohibitions is punishable by a fine of not more than $500 or imprisonment for not more than 6 months, or both. Title 16 U.S.C. Section 1281(c) and Title 16 U.S.C. Section 3.

Exhibit A

The lands and water surface administered by the Bureau of Land Management to which this order applies are as follows:

1. Lands administered by the Bureau of Land Management between the mouth of the Applegate River and Grave Creek (Recreational Section of the Rogue National Wild and Scenic River):

Williamette Meridian

T. 34 S., R. 7W.,
- Sec. 6, lots 4, 5, 6, and 7;
- Sec. 18, lot 4, SW¼SE¼SW¼;
- Sec. 19, lots 2 and 4, W½E½NW¼, plus that property describd in those deeds recorded in the Josephine County Deed Records in Vol. 314 page 978 and Vol. 312 page 1122;
- Sec. 30, lot 1 including a portion of M. S. No. 734, Robert Dean Placer Mining Claim;
- Sec. 31, lot 4 SE¼SW¼, W½SW¼SE¼.

T. 34 S., R. 8W.,
- Sec. 1, lots 8, 9, 10, 11, 12, and 13, SE¼SE¼SW¼, SE¼NW¼SE¼;
- Sec. 11, SE¼SE¼SE¼;
- Sec. 12, lots 1, 2, 3, 4, 5, 6, 7, and 8, NW¼NE¼NE¼, SE¼SW¼NW¼, E½NW¼SW¼, NW¼NW¼SE¼;
- Sec. 13, lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, and 13, NE¼NW¼SW¼, M. S. No. 796 Grubstake;
- Sec. 14, E½NE¼NE¼;
- Sec. 24, lots 1, 3, 4, 5, and 8, plus that property described in those deeds recorded in the Josephine County Deed Records in Vol. 321 page 1348, Vol. 321 page 1346, Vol. 320 page 1669, and Vol. 321 page 2000;
- Sec. 25, lots 1, 2, 3, 6, 8, and 9, SE¼NE¼NW¼, SE¼SW¼, portion of M. S. No. 734 Robert Dean Placer claim;
- Sec. 36, lots 2 and 12, plus that property described in those deeds recorded in the Josephine County Deed Records in Vol. 317 page 968, Vol. 322 page 19, and Vol. 330 page 1098.

T. 35 S., R. 7 W.,
- Sec. 3, S½SW¼SW¼;
- Sec. 4, lots 5, 6, 7, 8, and 9, S½NW¼SE¼, plus that property described in that deed recorded in the Josephine County Deed Records in Vol. 316 page 382;

Sec. 5, lots 5, 6, 7, 8, 9, 10, 11, and 12, SW¼NW¼, NE¼SW¼;
Sec. 6, lots 1, 2, 3, 4, 6, and 12, SE¼NW¼, plus that property described in that deed recorded in the Josephine County Deed Records in Vol. 317 page 1465;
Sec. 9, lots 1 and 2, N½NW¼NE¼;
Sec. 10, lots 1, 4, 5, 6, 7, and 8, all those portions of land in lots 2 and 3, and the SE¼NE¼ lying south and west of the Marlin-Galice Road, N½SW¼NW¼, SE¼SW¼NW¼, NE¼NE¼SW¼, E½NW¼NE¼SW¼, NE¼SW¼SE¼, N½SE¼SE¼, SE¼SE¼SE¼;
Sec. 11, that property described in those deeds recorded in the Josephine County Deed Records in Vol. 308 page 725, Vol. 309 page 865, Vol. 308 page 1272, Vol. 308 page 1270, Vol. 308 page 1274, and a portion of that property described in Vol. 323 page 975;
Sec. 14, that property described in those deeds recorded in the Josephine County Deed Records in Vol. 323 page 427, Vol. 321 page 1300, Vol. 324 page 1464, Vol. 307 page 1100, and a portion of that property described in Vol. 323 page 975;
Sec. 15, NE¼NE¼NE¼;
Sec. 23, lots 3 and 7, E½NE¼NW¼, E½W½NE¼NW¼, plus that property described in those deeds recorded in the Josephine County Deed Records in Vol. 329 page 1313, Vol. 330 page 181, Vol. 329 page 1836, Vol. 340 page 2020, Vol. 332 page 192, Vol. 335 page 726, Vol. 331 page 1066, Vol. 321 page 1298, and a portion of those properities described in Vol. 319, page 48 and Vol. 287 page 726;
Sec. 24, lots 1 and 2, NE¼SW¼, plus that property described in those deeds recorded in the Josephine County Deed Records in Vol. 336 page 1578, Vol. 336 page 2007, and a portion of that property described in Vol. 319 page 48 and Vol. 287 page 726;
Sec. 25, lots 1, 3, and 4, N½NE¼NW¼, SW¼NE¼NW¼, plus that property described in those deeds recorded in the Josephine County Deed Records in Vol. 307 page 1103, Vol. 333 page 1391, Vol. 313 page 370, and a portion of those properties described in Vol. 336 page 196, Vol. 333 page 2047, Vol. 330 page 192, Vol. 326 page 1963 (correction deed in Vol. 330 page 514), and Vol. 330 page 194;
Sec. 26, lot 3, plus that property described in those deeds recorded in the Josephine County Deed Records in Vol. 314 page 1567, Vol. 318 page 1874, Vol. 320 page 781, Vol. 330 page 190, and a portion of those properties described in Vol. 336 page 196, Vol. 333 page 2047, Vol. 330 page 194, Vol. 326 page 1963 (correction deed in Vol. 330 page 514), Vol. 330 page 192, and Vol. 298 page 85;
Sec. 35, lot 1, an island lying in portions of the S½NE¼ and the N½SE¼, plus that property described in those deeds recorded in the Josephine County Deed Records in Vol. 313 page 1220, Vol. 327 page 1356, Vol. 319 page 1478, Vol. 285 page 557, and a portion of that property described in Vol. 278 page 734;
Sec. 36, lots 1 and 2, plus that property described in those deeds recorded in the Josephine County Deed Records in Vol. 326 page 1711, Vol. 283 page 449, Vol. 328 page 1200, and a portion of those properties described in Vol. 326 page 1963 (correction deed in Vol. 330 page 514), and Vol. 289 page 973.

T. 35 S., R. 8 W.,
Sec. 1, lots 1, 2, 3, 4, excluding M. S. No. 865 Genevieve Placer, 5, and 8, E½NW¼SW¼, N½NW¼SE¼, SW¼NW¼SE¼, plus an island lying on the S½SW¼.

T. 36 S., R. 6 W.,
Sec. 18, a portion of the property described in that deed recorded in the Josephine County Deed Records in Vol. 324 page 1458;
Sec. 19, a portion of that property described in that deed recorded in the Josephine County Deed Records in Vol. 324 page 1458.

T. 36 S., R. 7 W.,
Sec. 1, that property described in those deeds recorded in the Josephine County Deed Records in Vol. 326 page 1707 and Vol. 323 page 438;
Sec. 2, lots 8, 9, and 10, plus that property described in those deeds recorded in the Josephine County Deed Records in Vol. 283 page 607, Vol. 319 page 1487, Vol. 314 page 352, Vol. 281 page 147, Vol. 322 page 1584, Vol. 305 page 388, and Vol. 326 page 1201;
Sec. 11, lots 5, 6, 7, and 8, plus that property described in those deeds recorded in the Josephine County Deed Records in Vol. 316 page 1291, Vol. 333 page 152, Vol. 316 page 287, and a portion of that property described in Vol. 312 page 1124;
Sec. 12, lots 1 and 2, W½SW¼;
Sec. 13, a portion of that property described in that deed recorded in the Josephine County Deed Records in Vol. 324 page 1458;
Sec. 14, that property described in those deeds recorded in the Josephine County Deed Records in Vol. 316 page 1967, Vol. 308 page 610, Vol. 313 page 372, Vol. 327 page 1358, Vol. 306 page 643, and a portion of that property described in Vol. 312 page 1124.

2. Lands administered by the Bureau of Land Management between Grave Creek and the Siskiyou National Forest boundary at Marial (Wild Section of the Rogue National Wild and Scenic River).

BILLING CODE 4310-84-M

INTERSTATE COMMERCE COMMISSION

Decision-Notice; Finance Applications

The following applications, filed on or after July 3, 1980, seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control of motor carriers pursuant to 49 U.S.C. 11343 or 11344. Also, applications directly related to these motor finance applications (such as conversions, gateway eliminations, and securities issuances) may be involved.

The applications are governed by Special Rule 240 of the Commission's Rules of Practice (49 CFR 1100.240). See Ex Parte 55 (Sub-No. 44), *Rules Governing Applications Filed by Motor Carriers Under 49 U.S.C. 11344 and 11349*, 363 I.C.C. 740 (1981). These rules provide among other things, that opposition to the granting of an application must be filed with the Commission in the form of verified statements within 45 days after the date of notice of filing of the application is published in the **Federal Register**. Failure seasonably to oppose will be construed as a waiver of opposition and participation in the proceeding. If the protest includes a request for oral hearing, the request shall meet the requirements of Rule 242 of the special rules and shall include the certification required.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.241. A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00, in accordance with 49 CFR 1100.241(d).

Amendments to the request for authority will not be accepted after the date of this publication. However, the Commission may modify the operating authority involved in the application to conform to the Commission's policy of simplifying grants of operating authority.

We find, with the exception of those applications involving impediments (e.g., jurisdictional problems, unresolved fitness questions, questions involving possible unlawful control, or improper divisions of operating rights) that each applicant has demonstrated, in accordance with the applicable provisions of 49 U.S.C. 11301, 11302, 11343, 11344, and 11349, and with the Commission's rules and regulations, that the proposed transaction should be authorized as stated below. Except where specifically noted this decision is neither a major Federal action significantly affecting the quality of the human environment nor does it appear to qualify as a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests as to the finance application *or* to any application directly related thereto filed within 45 days of publication (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (unless the application involves impediments) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. To the extent that the authority sought below may duplicate an applicant's existing authority, the duplication shall not be construed as conferring more than a single operating right.

Applicant(s) must comply with all conditions set forth in the grant or grants of authority within the time period specified in the notice of effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

Dated: May 27, 1981.

By the Commission, Krock, Joyce, and Dowell.

MC-F-14452F, filed July 25, 1980 (supplemental publication) (previously published in the **Federal Register** on August 28, 1980). CLARK TRANSFER, INC. (Clark) (P.O. Box 190, Burlington, NJ 08016)—PURCHASE—UNTCO, INC. (UNTCO) (850 N. Luzerne Street, Philadelphia, PA 19124) Representatives: David A. Sutherland, 1150 Connecticut Avenue, NW, Suite 400, Washington, DC 20036 and Francis W. McInerny, 1000 Sixteenth Street, NW, Washington, DC 20036. The purpose of the supplemental publication is to include in the scope of authority being acquired by Clark the authority issued to Untco in permit No. MC-148605 (Sub-No. 2F) on December 19, 1980 and in certificate No. MC-107615 (Sub-No. 11F) on February 19, 1981. The permit authorizes transportation, as a motor contract carrier, over irregular routes, of general commodities (except commodities in bulk), between points in Connecticut, Delaware, Maryland, New Jersey, Pennsylvania, Virginia, West Virginia, Nassau, Suffolk, and Westchester Counties, NY; New York, NY; and the District of Columbia. The certificate in No. MC-107615 (Sub-No. 11F) authorizes transportation as a motor common carrier, over irregular routes, of printed matter, (1) from North Bergen, NJ and Harrisonburg and Lancaster, PA to points in Virginia, (2) from Luray, VA to points in Pennsylvania, Wilmington, DE, Baltimore, MD, Newark, NJ and New York, NY; and (3) from East Greenville, PA to points in Delaware, Maryland (except Baltimore), New Jersey, Virginia, West Virginia, and in Rockland, Suffolk and Westchester Counties, NY which are not within the New York, NY commercial zone. Authority sought for purchase by GREY GOOSE CORPORATION LIMITED, 10572 101st Street, Edmonton, Alberta, Canada T5H 2R8, of the stock of CONCORD COACH LINES LTD., 5006 47th Avenue, Lloydminister, Alberta, Canada 59V OW3, and control by Laidlaw Transportation Limited, P.O. Box 3020 Stn. "B", Hamilton, Ontario, Canada L6L7X7 and in turn by M. G. DeGroote, P.O. Box 3020 Stn. "B", Hamilton, Ontario, Canada L6L 7X7. Representative: Jeremy Kahn, Kahn and Kahn, 1511 K Street, N.W., Washington, DC 20005. Concord Coach holds a certificate in MC-14335 authorizing transportation of passengers in round trip operations beginning and ending at ports of entry on the United States-Canada boundary line in Montana and North Dakota, and extending to points in the United States, restricted to traffic beginning and ending at points in the Provinces of Alberta and Saskatchewan. Grey Goose Corporation holds no Interstate Commission authority. Laidlaw Transportation Limited controls Laidlaw Transport Limited and Boss-Linco Lines, Inc. both motor carriers of property and Grey Goose Bus Lines (Manitoba) Limited and Travelways Tours Ltd., both motor carriers of passengers conducting operations beginning and ending at points in Canada and extending to points in the United States. (Hearing site: Washington, D.C.)

BILLING CODE 7035-01-M

Motor Carriers; Decision-Notice

As indicated by the findings below, the Commission has approved the following applications filed under 49 U.S.C. 10924, 10926, 10931 and 10932.

We find:

Each transaction is exempt from section 11343 (formerly Section 5) of the

Interstate Commerce Act, and complies with the appropriate transfer rules.

This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

Petitions seeking reconsideration must be filed within 20 days from the date of this publication. Replies must be filed within 20 days after the final date for filing petitions for reconsiderations; any interested person may file and serve a reply upon the parties to the proceeding. Petitions which do not comply with the relevant transfer rules at 49 C.F.R. 1132.4 may be rejected.

If petitions for reconsideration are not timely filed, and applicants satisfy the conditions, if any, which have been imposed, the application is granted and they will receive an effective notice. The notice will indicate that consummation of the transfer will be presumed to occur on the 20th day following service of the notice, unless either applicant has advised the Commission that the transfer will not be consummated or that an extension of time for consummation is needed. The notice will also recite the compliance requirements which must be met before the transferee may commence operations.

Applicants must comply with any conditions set forth in the following decision-notices within 30 days after publication, or within any approved extension period. Otherwise, the decision-notice shall have no further effect.

By the Commission, Review Board Number 3, Members Krock, Joyce, and Dowell.

MC–FC 78671. By decision of May 19, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 C.F.R. 1132, Review Board Number 3 approved the transfer to Remy Moving & Storage Corp. of Certificate No. MC–143641 issued March 16, 1978 to Robert J. Corduck and Jeanne L. Corduck d.b.a. as East Coast Movers authorizing the transportation over irregular routes of *Household goods,* between Fall River, MA and points within 10 miles thereof, on the one hand, and, on the other, points in NH, VT, MA, RI, CT, NY, NJ, PA, and VA.. Between Cambridge, MA and points in MA within 20 miles thereof, on the one hand, and, on the other, points in ME, NH, MA, RI, CT, and NY. *Household goods,* as defined by the Commission, between Falmouth, MA and points in MA within 50 miles thereof, on the one hand, and, on the other, points in CT, DE, ME, MD, MA, NH, NJ, NY, PA, RI, VT, and the District of Columbia. Between points in that part of Barnstable County, MA and east of a line beginning at Cape Cod Bay and extending south through Barnstable, MA to the Nantucket Sound, and north of a line beginning at Barnstable and extending east through Yarmouth, MA to the Atlantic Ocean, including the points named, on the one hand, and, on the other, points in CT, RI, and MD. *Used furniture,* uncrated between Provincetown, MA and New York, NY.

By decision of January 20, 1981, old Review Board Number 3 granted the application in No. MC–434 (Sub-No. 3). It was published in the **Federal Register** at 46 FR 11720 (February 10, 1981) and is directly related to No. MC–FC 78671. The grant was unopposed. Representative: Robert J. Gallagher, Esq., 1000 Connecticut Avenue N.W., Suite 1112, Washington, D.C. 20036.

Motor Carriers; Decision-Notice

As indicated by the findings below, the Commission has approved the following applications filed under 49 U.S.C. 10924, 10926, 10931 and 10932.

We find:

Each transaction is exempt from section 11343 (formerly section 5) of the Interstate Commerce Act, and complies with the appropriate transfer rules.

This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

Petitions seeking reconsideration must be filed within 20 days from the date of this publication. Replies must be filed within 20 days after the final date for filing petitions for reconsiderations; any interested person may file and serve a reply upon the parties to the proceeding. Petitions which do not comply with the relevant transfer rules at 49 CFR 1132.4 may be rejected.

If petitions for reconsideration are not timely filed, and applicants satisfy the conditions, if any, which have been imposed, the application is granted and they will receive an effective notice. The notice will indicate that consummation of the transfer will be presumed to occur on the 20th day following service of the notice, unless either applicant has advised the Commission that the transfer will not be consummated or that an extension of time for consummation is needed. The notice will also recite the compliance requirements which must be met before the transferee may commence operations.

Applicants must comply with any conditions set forth in the following decision-notices within 30 days after publication, or within any approved extension period. Otherwise, the decision-notice shall have no further effect.

By the Commission, Review Board Number 5, Members Krock, Taylor, and Williams.

MC–FC–78991. By decision of February 18, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 5 approved the transfer to T. D. MURPHY, d.b.a. MOVE FILM EXPRESS OF MESA, AZ of a portion of Certificate No. MC–121335 (Sub-No. 2) issued November 30, 1978, to FILM TRANSPORT CO., OF CAL., INC., OF LOS ANGELES, CA authorizing the transportation of *Films and articles associated with the exhibition of motion pictures,* between Los Angeles on the one hand, and, on the other, points in Arizona on and south of a line beginning at the junction of Interstate Hwy. 10 and the Arizona-California State line, then along Interstate Hwy. 10 to junction U.S. Hwy. 60, then over U.S. Hwy. 60 to junction U.S. Hwy. 70 at Globe, AZ, then over U.S. Hwy. 70 to its intersection with the Arizona-New Mexico State line. Representative: Theodore W. Russell, attorney at law, 1545 Wilshire Blvd., Los Angeles, CA 90017.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035–01–M

[Volume No. OPY 5–76]

Motor Carriers; Permanent Authority Decisions; Decision-Notice

Decided: May 29, 1981.

The following applications, filed on or after February 9, 1981, are governed by Special Rule 251 of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** on December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to

comply with the appropriate statutes and Commission regulations. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulation. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later become unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board No. 3, Members Krock, Joyce, and Dowell.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

MC 142629 (Sub-4), filed May 13, 1981. Applicant: ED HOPSON PRODUCE COMPANY, INC., P.O. Box 3287, Oxford, AL 36203. Representative: John W. Cooper, P.O. Box 56, Mentone, AL 35984, 205–634–4885. Transporting, for or on behalf of the United States Government, *general commodities* (except used household goods, hazardous or secret materials, and sensitive weapons and munitions), between points in the U.S.

MC 154989 (Sub-1), filed May 19, 1981. Applicant: JAMES N. ALLEN, INC., 308 Leasure Way, New Bethlehem, PA 16242. Representative: James N. Allen (same address as applicant), (814) 275–4064. Transporting *general commodities*, between Gerald, OH, Alum Rock, Blairs, Brightwood, Coverdale, Foxburg, Jefferson, Jewell, Kahles Siding, Library, Library Junction, McMurray, Parkers Landing, Ritts, St. Petersburg and Turkey, PA, on the one hand, and, on the other, points in the U.S.

Note.—The purpose of this application is to substitute motor carrier service for complete abandonment of rail carrier service.

MC 156038, filed May 15, 1981. Applicant: MERLE D. SHEFFIELD, d.b.a. SHEFFIELD & GARDNER TRUCKING, P.O. Box 3469, Logan, UT 84321. Representative: Irene Warr, 311 S. State St., Suite 280 Salt Lake City, UT 84111, (801) 531–1300. Transporting *food and other edible products and by-products intended for human consumption* (except alcoholic beverages and drugs), *agriculture limestone and fertilizers, and other soil conditioners*, by the owner of the motor vehicle, between points in the U.S.

[Volume No. OP5–94]

Motor Carriers; Permanent Authority Decisions; Decision-Notice

Decided: May 29, 1981.

The following applications, filed on or after July 3, 1980, are governed by Special Rule 247 of the Commission's Rules of Practice, see 49 CFR 1100.247. Special Rule 247 was published in the **Federal Register** of July 3, 1980, at 45 FR 45539. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.247(B). A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient interest in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board No. 3, Members Krock, Joyce, and Dowell.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

MC 121718 (Sub-5F), filed December 2, 1980, previously noticed (Republication) in the **Federal Register** issue of December 23, 1981. Applicant: MURPHY BONDED WAREHOUSE, INC., 4002 Mansfield Road, Shreveport, LA 71103. Representative: Edward A. Winter, 235 Rosewood Drive, Metairie, LA 70005. Transporting *General commodities* (except those of unusual value classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), from points in AR in and south of Sevier, Howard, Pike, Clark, Dallas, Calhoun, Bradley, and Ashley Counties, and those points in Texas in and east of Red River, Hopkins, Rains, Van Zandt, Henderson, Cherokee, Angelina, and Jasper Counties, to Shreveport, LA.

Note.—Purpose of republication to modify the authority as above.

MC 147028 (Sub-3), filed January 12, 1981, previously noticed in **Federal Register** issue of February 3, 1981. Applicant: MICHAEL L. GINEVRA, d.b.a. MICHAEL L. GINEVRA TRUCKING, 304 Kings Crown, San Antonio, TX 78233. Representative: Greg P. Stefflre, 261 South Figueroa, Los Angeles, CA 90012, (213) 485–1081. Transporting *general commodities* (except classes A and B explosives), between points in the U.S., under continuing contract(s) with Reikes Crisa Corp., of Omaha, NE.

Note.—This republication changes the commodity description of the previous notice.

BILLING CODE 7035–01–M

[Volume No. 93]

Motor Carriers; Permanent Authority Decisions; Restriction Removals, Decision-Notice

Decided: June 1, 1981.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR Part 1137. Part 1137 was published in the **Federal Register** of December 31, 1980, at 45 FR 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restiction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Restriction Removal Board, Members Sporn, Alspaugh, and Shaffer.

Agatha L. Mergenovich,

Secretary.

MC 1041 (Sub-4)X, filed May 21, 1981. Applicant: B.N. CORKUM TRANSPORTATION COMPANY, a corporation, 326 Ballardvale Street, P.O. Box 429, Wilmington, MA 01887. Representative: Frank J. Weiner, 15 Court Square, Boston, MA 02108. Applicant seeks to remove restrictions in its lead and Sub-Nos. 1F, 2F, and 3F certificates to (1) broaden the commodity descriptions from wood pulp, finished paper and paper and paper products, to "pulp, paper, and related products" in the lead and Sub-No. 2; remove all exceptions from its general commodity authority except classes A and B explosives in the lead; (2) broaden cities to counties in Sub-Nos. 1 and 2, Andover, Lawrence and Wilmington, MA, with Essex and Middlesex Counties, MA; in Sub-No. 2, Winslow and Westbrook, ME, with Kennebec, and Cumberland Counties, ME; in Sub-No. 3, replace a facility at Saylesville, RI, with Providence County, RI; (3) delete "in bulk" restrictions in all referenced authority; (4) authorize radial service in lieu of existing one-way authority between the above counties and points in five New England States in Sub-Nos. 1, 2, and 3; and (5) authorize service to all intermediate points along a described regular route in the lead.

MC 85970 (Sub-54)X, filed May 13, 1981. Applicant: SARTRAIN TRUCK LINE, INC., 1625 Hornbrook St., Dyersburg, TN 38024. Representative: Warren A. Goff, 2008 Clark Tower, 5100 Poplar Ave., Memphis, TN 38137. Applicant seeks to remove restrictions in its Sub-No. 28 certificate to (1) broaden the commodity description by removing exceptions from general commodities (except classes A and B explosives), and (2) authorize service to all intermediate points on its regular route (4a) between Dyersburg and Nashville, TN.

MC 65668 (Sub-1)X, filed May 14, 1981. Applicant: P. J. CASEY & SON, INC., 40 Industrial Drive, Canton, MA 02021. Representative: Frank J. Weiner, 15 Court Square, Boston, MA 02108. Applicant seeks to remove the restrictions in its lead certificate to (1) broaden the commodity description to "furniture and fixtures, lumber and wood products, rubber and plastic products, clay, concrete, glass or stone products, metal products, and machinery" from kitchen fixtures (2) replace Boston, MA, with Suffolk, Norfolk, Middlesex, Essex, and Plymouth Counties, MA; and (3) authorize radial in lieu of one-way authority.

MC 106485 (Sub-24)X, filed May 13, 1981. Applicant: LEWIS TRUCK LINES, INC., P.O. Box 642, Lisbon, ND 58054. Representative: Michael E. Miller, 502 First National Bank Bldg., Fargo, ND 58126. Applicant seeks to remove restrictions in its lead and Sub-Nos. 1, 7, 10, 12, 13, 15, 20F, E1, and 23 certificates to (1) broaden its commodity descriptions from general commodities (with exceptions), to "general commodities (except classes A and B explosives)", in all of the above sub-numbers; (2) authorize service at all intermediate points where service is limited to specified intermediate points or no intermediate point service: in the lead, between Lisbon, ND, and Moorehead, MN; between Ellendale, ND, and Aberdeen, SD; between Hecla, SD, and Aberdeen, SD; between South St. Paul, MN, and Edgeley, ND; and between Lisbon, ND, and Moorehead, MN; in Sub-No. 7, between Aberdeen, SD, and Jamestown, ND; in Sub-No. 12, between Enderlin, ND, and junction ND Hwy. 32 and unnumbered highway south of Enderlin; in Sub-No. 15, between Fargo, ND, and Sisseton, SD; and between St. Paul, MN, and Sisseton, SD; in Sub-No. 20, between Mobridge, SD, and Mandan, ND; and in Sub-No. 23, between Leola, SD, and Aberdeen, SD; (3) replace terminal sites and/or cities with county-wide authority: in Sub-No. 10, off-route point terminal site located on MN Hwy. 49 in Eagan Township, Dakota County, MN, with Dakota

County, MN; and on irregular routes in Sub-Nos. 13 and El, Fargo, ND, and Cass County, ND; Moorehead, MN, with Clay County, MN; and Sisseton, New Effington, Hammer, Claire City, and Rosholt, SD, with Roberts County, SD; and (4) change one-way to radial authority between Sisseton, SD, and points within 35 miles thereof, and, South St. Paul, MN, in Sub-No. 13.

MC 111401 (Sub-621)X, filed May 11, 1981. Applicant: GROENDYKE TRANSPORT, INC., 2510 Rock Island Blvd., P.O. Box 632, Enid, OK 73701. Representative: Alvin J. Meiklejohn, Jr., 1600 Lincoln Center, 1660 Lincoln Street, Denver, CO 80264. Applicant seeks to remove restrictions in its Sub-Nos. 284, 430, 443, 449, 463, 473, 480, 481, 499, 505, 511F, 520F, 521F, 529F, 535F, 539F, 542F, 549F and 581F certificates to (A) broaden the commodity descriptions to (1) "commodities in bulk" from chemicals and/or liquid chemicals, in Sub-No. 284, 430 part (3) 443, 449, 480, 499 part (4) 520F part (3), 521F, 529F, part (1) and 539F; petroleum products in Sub-Nos. 430 part (2), 521F, 542F part (3) and 549F; flour, in Sub-No. 463; sulphuric acid, in Sub-No. 473; anyhdrous ammonia, nitrogen fertilizer solutions and urea liquor, in Sub-No. 481; sodium bichromate solutions, toxaphene solutions and creosote oil, in Sub-No. 499; alumia, slurry and antifreeze, in Sub-No. 505; lubricating oil, in Sub-Nos. 511F and 542F; natural latex and liquid fertilizer solutions, in Sub-No. 520F; phosphorus trichloride, in Sub-No. 529F part (2); chrome sulphate and soybean oil, in Sub-No. 542F; and tallow, in Sub-No. 581F, (2) "food and related products" from meats, meat products and meat by-products and articles distributed by meat packinghouses as described in Sections A and C of Appendix I to the *Descriptions* case, in Sub-No. 535F, and, (3) "chemicals and related products" from urea, in Sub-No. 430 part (1); (B) remove the restriction prohibiting the transportation of specified commodities, in Sub-Nos. 430, 449, 473 part (2), 480, 521F and 535F; (C) remove the "foreign commerce" restriction, in Sub-No. 499 part (4); (D) remove the "originating at and/or destined to" restriction, in Sub-Nos. 443, 511F, 535F and 581F; (E) remove the "in bulk" and/or "in tank vehicles" restriction, in all certificates; (F) remove the restrictions prohibiting service to (a) AK and HI, in Sub-Nos. 449, 473 part (2) and 539F, (b) the origin State of LA, in Sub-Nos. 539F, and 449; (G) change plantsite or city-wide authority to county-wide authority: Garyville, LA to St. John The Baptist Parish, LA, in Sub-Nos. 284 and 449; Lawrence, KS to Douglas County, KS, Crossett, AR to Ashley County, AR, and Columbus, OH to Franklin County, OH, in Sub-No. 430; Enid, OK to Garfield County, OK, in Sub-No. 463; Borger, TX to Hutchinson County, TX and Norman, OK to Cleveland County, OK, in Sub-No. 473; Odessa, TX to Ector County, TX, in Sub-No. 480; Woodward, OK to Woodward County, OK, in Sub-No. 481; Corpus Christi, TX to Nueces County, TX, Los Fresnos, TX to Cameron County, TX, Altus, TX to Jackson County, TX, Lone Star, TX to Morris County, TX, Bossier City, LA to Bossier Parish, LA and Pascagoula, MS to Jackson County, MS, in Sub-No. 499; Bauxite, AR to Saline County, AR and Abbeville, LA to Vermillion Parish, LA, in Sub-No. 505; Houston, TX to Harris County, TX, Blair, NE to Washington County, NE and Arab, AL to Marshall County, AL, in Sub-No. 520F; Pensacola, FL to Escambia County, FL, and Le Moyne, AL to Mobile County, AL, in Sub-No. 529F; Dodge City, KS to Ford County, KS, in Sub-No. 535; Lake Charles, LA to Calcasieu Parish, LA, in Sub-No. 539F; Amarillo, TX to Potter County, TX, in Sub-No. 542; Wichita, KS to Sedgwick County, KS, Tulsa, OK to Tulsa County, OK and Princeton, LA to Bossier Parish, LA, in Sub-No. 542; and Oklahoma City, OK to Oklahoma County, OK, in Sub-No. 549; (H) authorize radial authority to replace existing one-way service between points in various combinations of States throughout the U.S. and (G) remove the restriction against tacking the authority with other authority held by the carrier in Sub-No. 284.

Note.—Applicant's ability will be governed by 49 CFR 1042.10(b).

MC 115840 (Sub-126)X, filed May 7, 1981. Applicant: COLONIAL FAST FREIGHT LINES, INC., McBride Lane, P.O. Box 22168, Knoxville, TN 37922. Representative: Chester G. Groebel (same as above). Applicant seeks to remove restrictions in its lead and Sub-Nos. 17, 54, 61, 73, 76, 90, 100G (Parts 4, 17 and 23) and 114 certificate and E–letter notices 9 (Parts 1, 2 and 3), 11, 12, 73 (Parts 1 and 2), 109, and 119 (Part 3) to (1) broaden the commodity descriptions to (a) "metal products and commodities the transportation of which because of size or weight require the use of special equipment," from iron and steel mill products and commodities the transportation of which because of their size or weight require the use of special equipment and related machinery parts and related contractor's materials and supplies when their transportation is incidental to the transportation of commodities which by reason of size of weight require the use of special equipment, in its lead certificate; (b) "building materials as described in App. VII 61 MCC 209, through 229 of the *Descriptions* case," from insulating materials and mineral wool, loose or in packages, in Sub-No. 17; cast, reinforced and prestressed concrete and concrete products, in Sub-No. 54; bituminous fiber conduit, in Sub-No. 61; plastic pipe, plastic fittings, connections, valves, hydrant, extrusions, and gaskets (except commodities in bulk) and materials, equipment and supplies used in the manufacture of the above commodities, in Sub-No. 76; plastic pipe, plastic molding, plastic valves, plastic fittings, plastic siding and accessories and materials used in the installation thereof (except commodities in bulk), in Sub-No. 90; such fibre pipe and fibre pipe fittings, iron and steel, and iron and steel articles (except in bulk) as are used in the operation, production, processing or transportation of iron and steel articles, cranes, sand hoppers, elevators, conveyors, dust collectors, and meter boxes, in Sub-No. 100G (Part 4); and, cast, reinforced in prestressed concrete, and concrete products the transportation of which because of size or weight require the use of special equipment, in E-letter notice 11, (c) "agricultural machinery implements and parts as described in App. VI 61 MCC 209 of the *Descriptions* case," from farm tractors and related machinery, tools, parts and supplies, moving in connection therewith, in Sub-No. 73; iron and steel farm implements (except commodities which because of their size or weight require the use of special equipment), in E-letter notice 9 (Parts 1, 2, and 3); farm implements encompassed in iron and steel mill products and farm implements the transportation of which because of their size or weight require the use of special equipment and related machinery parts and related contractors' materials and supplies composed of farm implements, when their transportation is incidental to the transportation of the above commodities when by reason of size or weight require the use of special equipment, in E-letter notice 12; pipe, fittings, iron castings, accessories, sand hoppers, conveyors, dust collectors and meter boxes which are used in the agricultural, water treatment, food processing and institutional supply industries, in E-letter notice 73 (Parts 1 and 2); and farm tractors and related machinery, tools, parts and supplies moving in connection therewith (restricted to commodities which are transported on trailers), in E-letter notice 109(d) "machinery and building materials, as described in App. VI 61 MCC 209 of the *Descriptions*

case," from such iron and steel articles and contractors' equipment, materials and supplies (except cement and commodities in bulk), used in the operation, production, processing or transportation of iron and steel articles, cranes, sand hoppers, elevators, conveyors, dust collectors, and meter boxes, in Sub-No. 100G (Part 17 and (e) "metal products" from such valves, hydrants, fittings, components, parts and accessories (except in bulk), as are used in the operations, production, processing or transportation of iron and steel articles, cranes, sand hoppers, elevators, conveyors, dust collectors and meter boxes, in Sub-No. 100G (Part 23); zinc slabs, dust, oxide, residue, dross and skimmings, lead sheet and metallic cadmium, and materials, equipment and supplies used in the manufacture and distribution of the foregoing commodities, in Sub-No. 114; and aluminum pipe, aluminum valves, and aluminum hydrants which because of size or weight require the use of special equipment, and aluminum fittings, and aluminum gaskets (except in bulk), when their tansportation is incidental to the transportation of commodities named above, in E-letter notice 119 (Part 3); (2) remove plantsite restrictions (a) at Marietta and Atlanta, GA, in Sub-No. 54 and E-letter notice 11; (b) in Jefferson County, AL, in Sub-No. 61; (c) Rockaway, NJ, in Sub-No. 76; and (d) Williamsport, MD, in Sub-No. 90; (3) broaden the city-wide service to county-wide authority (a) Jefferson and Shelby Counties, AL, from Birmingham, AL, and points within 10 miles thereof, in its lead certificate and E-letter notice 12; (b) Jefferson County, AL, from Birmingham and Leeds, AL, in Sub-No. 17; (c) Cobb, DeKalb, Clayton, and Fulton Counties, GA, from Marietta and Atlanta, GA, in Sub-Nos. 54 and E-letter notice 11; (d) St. Charles, Orleans, Plaquemines and St. Bernard Counties, LA, from new Orleans, LA, in Sub-No. 73, and, E-letter notices 9 (Part 1) and 109; (e) Morris County, NJ, from Rockaway, NJ, in Sub-No. 76; (f) Washington County, MD, from Williamsport, MD, in Sub-No. 90; (g) Beaver County, PA, from Josephtown, PA, in Sub-No. 114; (h) Adams County, MS, from Natchez, MS, in E-letter notice 9 (Part 2); and, (I) Warren County, MS, from Vicksburg, MS, in E-letter notice 9 (Part 3); (4) remove the restriction prohibiting service to points in AK, and HI, in Sub-No. 76; and (5) authorize radial authority to replace existing one-way service between points in various combinations of southeastern States and points in the U.S., in Sub-Nos. 17, 54, 61, 73, 76, 90, 100G (Parts 4, 17 and 23), and, E-letter notices 9 (Parts 1, 2 and 3), 11, 12, 73 (Parts 1 and 2) and 109.

MC 117786 (Sub-134)X, filed May 11, 1981. Applicant: RILEY WHITTLE, INC., P.O. Box 19038, Phoenix, AZ 85005. Representative: A. Michael Bernstein, 1441 E. Thomas Rd., Phoenix, AZ 85014. Applicant seeks to remove restrictions in its Sub-Nos. 22, 23, 27, 31, 41, 48, 49, 57, 61, 63, 64, 68, 69, 73, 75, 82, 84, 86, 90, 96, 97, 101, 103, 104, 107, 109, 110, and 111 certificates to (A) broaden the Commodity description in Sub-Nos. 23 from alcoholic beverages, to "food and related products" in Sub-No. 27, from nuts, bolts, and steel articles, to "metal products"; in Sub-No. 41, from (1) paper labels and tags, and (2) materials, equipment and supplies used in the printing and distribution of paper labels and tags, to "pulp, paper and related products"; in Sub-No. 49, from canned seafood and pet food, to "food and related products" in Sub-No. 57, from store display racks or stands, fibreboard, paperboard and paper and parts of the named commodities, knocked down or folded flat, to "store display racks, fibreboard, and pulp, paper and related products"; in Sub-No. 63, from (1) such merchandise as is dealt in by wholesale, retail, chain grocery and feed business houses, and (2) materials, ingredients and supplies used in the manufacture, distribution, and sale of the products in (1) above, to "(1) such merchandise as is dealt in by wholesale, retail, chain, grocery, and feed stores, and (2) supplies used in the manufacture, distribution and sale of the products in (1) above"; in Sub-No. 69, alcoholic beverages, to "food and related products" in Sub-No. 75, (1) paint, paint ingredients, putty, caulking and glazing compounds, adhesive cement and glue, and (2) such commodities as are used in the manufacture, production, and distribution thereof, to "paint, paint ingredients, adhesives, and related items, and (2) such commodities as are used in the manufacture and distribution of items in (1) above"; in Sub-No. 82, from frozen foods, to "food and related products"; in Sub-No. 84, paper and paper forms and products and commodities used in the manufacturing and distribution of paper and paper forms, to "pulp, paper and related products"; in Sub-No. 86, alcoholic beverages, in Sub-No. 104, alcoholic beverages, and in Sub-No. 107, alcoholic liquors and wines, to "food and related products"; and (B) broaden the territorial scope by (a) replacing one-way authority with radial authority in Sub-Nos. 22, 23, 27, 31, 41, 48, 49, 57, 61, 64, 68, 69, 73, 82, 84, 86, 96, 97, 101, 103, 104, and 110; (b) replacing named cities and terminal sites with counties: in Sub-No. 23, Franklin County, KY (Frankfort, KY) and Denver County, CO (Denver, CO); in Sub-No. 27, Los Angeles County, CA (Los Angles, CA), Maricopa County, AZ (Phoenix, AZ), Dallas County, TX (Dallas, TX); in Sub-No. 31, Oak Lawn County, IL (Bridgeview, IL); in Sub-No. 41, Montgomery County, OH (Dayton, OH); in Sub-No. 48, Coington County, KY (Ludlow, KY); in Sub-No. 49, San Diego County, CA (San Diego, CA); in Sub-No. 57, Montgomery County, OH (Dayton, OH); in Sub-No. 61, Franklin County, OH (Columbus, OH); in Sub-No. 63, Denver County, CO (Denver, CO)); in Sub-No. 64, Lawrence County, AL (Courtland, AL) and Harris County, TX (Pasadena, TX); in Sub-No. 69, Moore County, TN (Lynchburg, TN); in Sub-No. 75, Montgomery County, OH (Dayton, OH), Miami County, OH (Tipp City, OH), Cook County, IL (Alsip, IL), Dade County, FL (Miami, FL), Dallas County, TX (Dallas, TX), Los Angeles County, CA (La Mirada) and Santa Clara County, CA (San Jose, CA); in Sub-No. 84, Franklin County, OH (Columbus, OH) and Dallas County, TX (Dallas, TX); in Sub-No. 96, Washoe County, NV (Reno, NV), Alameda County, CA (Oakland, CA), Solano County, CA (Fairfield, CA), Harris County, TX (Houston, TX), Los Angeles County, CA (Los Angeles); in Sub-No. 101, Maricopa County, AZ (Phoenix, AZ); in Sub-No. 103, Montgomery County, OH (Dayton, OH); in Sub-No. 104, Denver County, CO (Denver, CO); in Sub-No. 107, Jefferson County, KY (Louisville, KY), Franklin County, KY (Frankfort, KY); Armstrong County, PA (Schenely, PA), and Coffee County, TN (Tullahoma, TN); in Sub-No. 109, El Paso County, CO (Colorado Springs, CO); and in Sub-No. 111, Hancock County, IA (Britt, IA), Cerro Gordo County, IA (Mason City, IA), Martin County, MN (Fairmont, MN), Eau Claire County, WI (Eau Claire, WI), Green County, WI (Monroe, WI), and Columbia County, WI (Portage, WI), (c) removing facility limitations, in Sub-No. 22, Cincinnati, OH; in Sub-No. 27, Los Angeles, CA, Phoenix, AZ; in Sub-No. 41, Dayton, OH; in Sub-No. 48, Ludlow, KY; in Sub-No. 61, Chicago, IL, Columbus, OH, Los Angeles, CA; Oakland, CA; in Sub-No. 63, Denver, CO; in Sub-No. 64, Courtland, AL, Pasadena, TX; in Sub-No. 73, Cincinnati, OH; in Sub-No. 75, Dayton, Tipp City, OH, Alsip IL, Baltimore, MD, Boston, MA, Atlanta, GA, Miami, FL, Dallas, TX, LaMirada, San Jose, CA; in Sub-No. 96, Reno, NV, Oakland, Fairfield, CA, Houston, TX, Los Angeles, CA, Kansas City, MO; in Sub-No. 97, Florence, KY; in

Sub-No. 104, Denver, CO; in Sub-No. 109, Colorado Springs, CO, in Sub-No. 110, Phoenix, AZ; in Sub-No. 111, Britt, IA, Mason City, IA, Fairmont MN, Kansas City, MO, Eau Claire, Monroe, Portage, WI, (c) removing "except in bulk" from Sub-Nos. 22, 64, and 111; removing "except frozen commodities and commodities in bulk" from Sub-No. 61; removing "except in bulk in tank vehicles" from Sub-No. 104; removing "except commodities in bulk and chemicals in containers" from Sub-No. 90; removing "except AK and HI from Sub-No. 110 and Sub-No. 75; removing "except hides" from (6) of Sub-No. 111.

MC 126310 (Sub-1)X, filed May 15, 1981. Applicant: MUIR TRUCKING SERVICE, INC., P.O. Box 368, Ivanhoe, CA 93235. Representative: Earl N. Miles, 3704 Candlewood Dr., Bakersfield, CA 93306. Applicant seeks to remove restrictions in its lead permit to (1) broaden the commodity description from iron and steel pipe to "metal products" and broaden the territory description to between points in the U.S. under continuing contract(s) with a named shipper.

MC 129788 (Sub-20)X, filed May 22, 1981. Applicant: NASS TRUCK LINES, INC., P.O. Box H, Wenona, IL 61377. Representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 Eleventh Street NW., Washington, DC 20001. Applicant seeks to remove restrictions in its Sub-No. 16F certificate to broaden the commodity description in part (1) from glass and glass products, to "clay, concrete, glass, or stone products" in connection with its operations between La Salle County, IL, and, MI, WI, IN, KY, MO and OH.

MC 134441 (Sub-8)X, filed May 18, 1981. Applicant: DESERT COASTAL TRANSPORT, INC., 3015 E. G Street, Ontario, CA 91764. Representative: Phil B. Hammond, 3003 N. Central, Suite 2201, Phoenix, AZ 85012. Applicant seeks to remove restrictions in its Sub-Nos. 1 and 7F certificates to (1) broaden the commodity descriptions to (a) "farm products" from seed, in Sub-No. 1 (part 1); (b) "food and related products" from bananas, Sub-No. 1 (part 7), frozen berries, in Sub-No. 1 (part 9), bananas in mixed loads with fresh fruits and vegetables, and fresh fruits and vegetables when moving at the same time and in the same vehicle with bananas, in Sub-No. 1 (part 10), and bananas when moving in mixed loads with fresh fruits and vegetables, in Sub-No. 7F; (c) "chemicals and related products and pulp, paper and related products" from fertilizer and waxed paper, in Sub-No. 1 (part 2); (d) "machinery and supplies, farm products, and containers," from farm machinery, agriculture commodities, bagging and ties for baling cotton, and empty containers for farm produce, in Sub-No. 1 (part 4); and (e) "chemicals and related products, lumber and wood products, and furniture or fixtures" from insecticides, fertilizer, lumber, and uncrated furniture, in Sub-No. 1 (part 5); (2) remove the restriction against traffic having a prior movement by water, in Sub-No. 7F; (3) change its one-way authorities to radial authorities between named points in CA and AZ; (4) replace cities with county-wide authority as follows: Los Angeles and Los Angeles Harbor with Ventura, Los Angeles and Orange Counties, CA, Arlington, Blythe, Berkeley, Downey, Norwalk, Santa Clara, Long Beach and Wilmington with Riverside, Alameda, Los Angeles, and Santa Clara Counties, CA, and Tucson and Phoenix with Pima and Maricopa Counties, AZ, in Sub-No. 1; and Port Hueneme with Ventura County, CA, in Sub-No. 7F; and (5) expand Yuma, AZ and 25 or 50 miles of Yuma, AZ to Yuma County, AZ, and Brawley, CA and 25 miles of Brawley, CA to Imperial County, CA, in Sub-No. 1.

MC 136635 (Sub-58)X, filed May 13, 1981. Applicant: WHITEFORD TRUCK LINES, INC., 640 W. Ireland Road, South Bend, IN 46680. Representative: Donald W. Smith, P.O. Box 40248, Indianapolis, IN 46240. Applicant seeks to remove restrictions in its Sub-Nos. 13F and 34F certificates to (1) broaden the commodity descriptions from automotive parts and materials used in the manufacture of motor vehicles (except commodities in bulk), to "transportation equipment and materials, equipment and supplies used in the manufacture and distribution of transportation equipment" in both authorities; (2) replace facilities and city-wide authority with county-wide authority: facilities at (a) South Bend, IN with St. Joseph County, IN, in Sub-No. 13F, and (b) Indianapolis, IN, with Marion County, IN, in Sub-No. 34F.

MC 139294 (Sub-8)X, filed May 26, 1981. Applicant: H.T.L., INC., P.O. Box 122, Fairfield, AL 35064. Representative: Robert E. Tate, P.O. Box 517, Evergreen, AL 36401. Applicant seeks to remove restrictions in its Sub-No. 5F certificate to (1) broaden the commodity descriptions from steel and steel products, equipment, materials, and supplies to "metal products"; (2) delete an "except commodities in bulk" restrictions; (3) delete facilities restrictions and broaden cities to county-wide authority: Gadsden and Fairfield, AL, with Etowah and Jefferson Counties, AL; and (4) authorize radial service in place of one-way authority between the counties named above and points in AL, AR, FL, GA, KY, LA, MS, MO, NC, OK, SC, TN, TX, VA and WV.

MC 141249 (Sub-6)X, filed May 22, 1981. Applicant: MALCOLM POWELL, d.b.a. POWELL TRUCKING, Route 1, Lumber City, GA 31549. Representative: Sol H. Proctor, 1101 Blackstone Building, Jacksonville, FL 32202. Applicant seeks to remove restrictions from its MC 141330 Sub-No. 1 permit to (1) broaden the commodity description from lumber to "building materials," and (2) broaden the territorial description to between points in the U.S., under continuing contract(s) with a named shipper.

MC 144502 (Sub-2)X, filed May 22, 1981. Applicant: INTERMODAL FREIGHT SYSTEMS, INC., 144 Pennsylvania Avenue, P.O. Box 423, Kearny, NJ 07032. Representative: Eugene M. Malkin, Suite 1832, 2 World Trade Center, New York, NY 10048. Applicant seeks to remove restrictions in its Sub-No. 1F certificate to (1) broaden its commodity description from general commodities (with exceptions) to "general commodities (except classes A and B explosives)"; (2) remove the exception against service to AK and HI; and (3) remove the restriction requiring a prior or subsequent movement by rail.

MC 146090 (Sub-3)X, filed May 19, 1981. Applicant: WESTERN MOTOR EXPRESS d.b.a. WESTERN TRANSPORT, 7843 Chatfield Street, Whittier, CA 90606. Representative: Robert Fuller, 13215 E. Penn St., Ste. 310, Whittier, CA 90602. Applicant seeks to remove restrictions in its Sub-No. 2F certificate to (1) broaden the commodity description from wrought steel pipe, the transportation of which, because of size or weight, requires the use of special equipment, to "those commodities which because of their size or weight require the use of special handling or equipment"; (2) replace one way with radial authority; and remove the facilities limitations at Los Angeles County, CA to authorize service (a) between Los Angeles County, CA, and points in Los Angeles, San Bernardino and Riverside Counties, CA, and (b) between points in Los Angeles, San Bernardino and Riverside Counties, CA and points in Arizona.

MC 147452 (Sub-9)X, filed May 26, 1981. Applicant: W.D.W. TRUCKING, INC., 2620 S.W. 66th Terrace, Miramar, FL 33023. Representative: E. Stephen Heisley, 805 McLachlen Bank Building,

666 Eleventh Street, NW., Washington, D.C. 20001. Applicant seeks to remove restrictions in its MC–145692F permit to (1) broaden the commodity description from aluminum articles and building materials, and materials, equipment and supplies used in their manufacture and distribution to "metal products and building materials;" (2) to remove the commodities in bulk limitation, and (3) to broaden the territorial description to between points in the U.S. under continuing contract(s) with a named shipper.

MC 148150F (Sub-1)X, filed May 14, 1981. Applicant: BROTHERS TRUCKING, INC., R.D. No. 2, Manchester, PA 17345. Representative: J. Bruce Walter, P.O. Box 1146, Harrisburg, PA 17108. Applicant seeks to remove restrictions from its lead certificate to (1) remove the size and weight restriction for its iron and steel authority; (2) remove the originating at or destined to restriction; and (3) replace York, PA, with York County, PA, in its radial authority between York and numerous States.

MC 149397 (Sub-1)X, filed May 19, 1981. Applicant: HELEN REAGAN d.b.a. SOUTHEAST TRUCKING COMPANY, 8418 Tallmadge Road, R.D. No. 6, Ravenna, OH 44266. Representative: William P. Jackson, Jr., P.O. Box 1240, Arlington, VA 22210. Applicant seeks to remove restrictions in its lead certificate to (1) broaden its commodity descriptions: in part (1), to "building materials", from dock levelers; in part (3), to "metal products", from reinforcing wire and reinforcing wire fabric; in parts (4), to "machinery", from equipment used in the manufacture of concrete pipe; replace facilities with county-wide authority: in part (1), facilities at or near Clare, MI, and Cudahy, WI, with Clare County, MI, and Milwaukee County, WI; in parts (2), (3) and (4), facilities at or near Mogardore, OH, with Summit County, OH; in parts (3) and (4), facilities at or near Palmyra, Uhrichsville, and Newton, OH, Portage, MI, and Croydon and Oakdale, PA, with Portage, Tuscarawas, and Hamilton Counties, OH, Kalamazoo County, MI, Croydon, PA, and Allegany County, PA; in part (3) facilities at or near Relay, MD, with Baltimore County, MD; and in part (5), Palmyra Township, OH, with Portage County, OH; and (3) change its one-way to radial authority between the above-named points, and points in States in the eastern half of U.S.

Correction

In FR Doc 81–11844, at page 22669, in the issue of Monday, April 20, 1981, on page 22677, the first column, last paragraph, in the first line, correct "MC–15183 (Sub-2)X" to read "MC–151813 (Sub-2)X".

BILLING CODE 1505–01–M

[Docket No. AB 19 (Sub-49F)]

Baltimore & Ohio Railroad Co. and Buffalo, Rochester & Pittsburgh Railway—Abandonment in the City of Rochester, Monroe County, NY; Notice of Findings

Notice is hereby given pursuant to 49 U.S.C. 10903 that by a certificate and decision decided May 19, 1981, a finding, was made by the Commission, Review Board Number 3, stating that the present and future public convenience and necessity permit the abandonment by the Baltimore and Ohio Railroad Company and the Buffalo, Rochester and Pittsburgh Railway Company of segment of their line known as the Rochester Belt Line between railroad valuation stations 364 + 17 (milepost 6.89) and 461 + 59.4 (milepost 8.74) a distance of 1.85 miles, located in the City of Rochester, Monroe County, NY, subject to the conditions for the protection of employees discussed in *Oregon Short Line R. Co.—Abandonment—Goshen*, 360 I.C.C. 91 (1979).

A certificate of public convenience and necessity (served with the decision) will be issued to the Baltimore and Ohio Railroad Company and the Buffalo, Rochester and Pittsburgh Railway Company based on the above-described finding of abandonment 30 days after publication of this notice. However, issuance will be delayed if: (1) an appeal is filed and considered; or (2) within 15 days from the date of publication the Commission further finds that:

(a) a financially responsible person (including a government entity) has offered financial assistance (in the form or a rail service continuation payment) to enable the rail service involved to be continued. The offer must be filed with the Commission and served concurrently on the applicant, with copies to Ms. Ellen Hanson, Room 5417 Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this Notice; and

(b) it is likely that such proffered assistance would: (i) cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(ii) cover the acquisition cost of all or any portion of such line of railroad.

An offer may request the Commission to set conditions and amount of compensation within 30 days after an offer is made. If no agreement is reached within 30 days of an offer, and no request is made on the Commission to set conditions or amount of compensation, a certificate of abandonment will be issued no later than 50 days after notice is published. Upon notification to the Commission of the execution of an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extension or modifications) is in effect. Information and procedure regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in 49 U.S.C. 10905 (as amended by the Staggers Rail Act of 1980, Pub. L. 96–448 effective October 1, 1980). All interested persons are advised to follow the instructions continued therein as well as the instructions contained in the above-referenced decision.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 4410-09-M

Proposed Consent Decree in Action To Enjoin Discharge of Water Pollutants by the City of Spearfish, South Dakota

In accordance with Departmental policy, 28 CFR 50.7, 38 FR 19029, notice is hereby given that on May 20, 1981, a proposed consent decree in *Butte-Lawrence Water Quality Association, Inc., et al.* v. *City of Spearfish, et al.*, C.A. No. 79-5015; *United States* v. *City of Spearfish, et al.*, C.A. No. 79-5024 (D.S.D.) was lodged with the United States District Court for the District of South Dakota. The proposed consent decree establishes a schedule of compliance for construction of an advanced secondary sewage treatment facility by the City of Spearfish, South Dakota under an EPA grant which will eliminate the illegal discharge of pollutants from the present lagoon treatment facility. In addition, the proposed decree requires the payment of stipulated penalties for violation of certain of its provisions in the amount of $500.00 per day.

The proposed consent decree may be examined at the office of the United States Attorney, 317 Federal Building & U.S. Courthouse, 515 Ninth Street, Rapid City, South Dakota 57701; and at the Pollution Control Section, Land and Natural Resources Division of the Department of Justice, Room 2644, Ninth and Pennsylvania Avenue, NW., Washington, D.C. 20530. A copy of the proposed decree may be obtained in person or by mail from the Pollution Control Section, Land and Natural Resources Division of the Department of Justice. The Department of Justice will receive comments relating to the proposed consent decree for a period of thirty (30) days from the date of this notice. Comments should be directed to the Assistant Attorney General for the Land and Natural Resources Division of the Department of Justice, Ninth and Pennsylvania Avenue, NW., Washington, D.C. 20530 and should refer to *Butte-Lawrence Water Quality Association, Inc., et al.* v. *City of Spearfish, et al.*, C.A. No. 79-5015; *United States* v. *City of Spearfish, et al.*, C.A. No. 79-5024 (D.S.D.) DOJ Reference #90-5-1-4-85.

Carol E. Dinkins,

Assistant Attorney General, Land and Natural Resources Division.

BILLING CODE 4410-01-M

Proposed Consent Decree in Action To Require Compliance by the City of Erie, Pennsylvania Wastewater Treatment Plant With Its NPDES Permit and the Clean Water Act

In accordance with Departmental policy, 28 CFR 50.7, 38 FR 19029, notice is hereby given that on May 15, 1981, a proposed consent decree in *United States* v. *The Erie Sewer Authority, the City of Erie, the Commonwealth of Pennsylvania, and Hammermill Paper Company* (W.D.Pa., No. 78-136) was lodged with the United States District Court for the Western District of Pennsylvania. The proposed consent decree settles a lawsuit field by the United States on behalf of the Environmental Protection Agency ("EPA") against the Erie Sewer Authority and the City of Erie which alleged violations of its NPDES discharge permit and the Clean Water Act by the Erie wastewater treatment plant. The Commonwealth of Pennsylvania was joined as a defendant pursuant to Section 309(e) of the Clean Water Act which requires that a state be a party to any action filed against a municipality under the Act.

Under the terms of the proposed consent decree, the Erie Sewer Authority ("Authority") and the City of Erie ("City") have agreed to meet the terms of the NPDES permit by mid-1982, at the earliest, 1984 at the latest, depending on the effect of various control measures to be taken. They have agreed to install four new dissolved air flotation thickeners, to study and make recommendations concerning the feasibility of chemical treatment, the effect of projected increases in loading from the principal industrial contributor, Hammermill Paper Company, and the sludge handling and disposal process. The parties have agreed to implement those recommendations which are approved by EPA. In addition, the City agrees to calibrate its monitoring meters and to take other measures to insure that those meters are in consistent operating condition. Further, the City and Authority have agreed to enforce the terms of a flow and loading agreement between them and Hammermill Paper Company in the event that exceedances result in noncompliance with the NPDES permit.

The proposed decree provides stipulated penalties for failure to comply with many of its requirements, the penalties to be paid into a trust fund to be used solely for projects which exceed the requirements of law. Upon entry of this proposed decree by the Court, the City and Authority will receive one-half of the balance of their secondary treatment grant which had been withheld by EPA, the rest to be refunded once certain steps required unde the proposed decree have been accomplished.

The proposed decree does not settle the lawsuit filed by the United States against the Hammermill Paper Company in this same action. That lawsuit is the subject of a separate settlement which is currently under review by the Department of Justice.

The proposed consent decree may be examined at the Clerk's office, United States District Court for the Western District of Pennsylvania, United States Courthouse, Sixth and State Streets, Erie, Pennsylvania 16501 and at the Environmental Enforcement Section, Land and Natural Resources Division of the Department of Justice, Room 1252, Ninth and Pennsylvania Avenue, N.W., Washington, D.C. 20530. A copy of the proposed decree may be obtained in person or by mail from the Environmental Enforcement Section, Land and Natural Resources Division of the Department of Justice. There is a copying charge of $2.40 reflecting a rate of $.10 per page for the 24-page decree. Checks should be made payable to the Treasurer of the United States.

The Department of Justice will receive written comments relating to the proposed consent decree for a period of thirty (30) days from the date of this notice. Comments should be addressed to the Assistant Attorney General, Land and Natural Resources Division, Department of Justice, Washington, D.C. 20530, and should refer to *United States* v. *The Erie Sewer Authority, et al.*, D.J. Ref. 90-5-1-1-609.

Carol E. Dinkins,

Assistant Attorney General, Land and Natural Resources Division.

BILLING CODE 4410-01-M

Antitrust Division

United States v. Halifax Hospital Medical Center, et al.; Comments on Proposed Judgment

Pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. 16, the following written comments on the proposed judgment filed with the United States District Court for the Middle

District of Florida in *United States v. Halifax Hospital Medical Center, et al.* Civil Action No. 78–554–Orl–CIV–Y, were received by the Department of Justice and are published herewith, together with Justice's response to the comments.

Joseph H. Widmar,

Director of Operations, Antitrust Division.

In the matter of United States of America, Plaintiff, v. *Halifax Hospital Medical Center; Volusia County Medical Society, Inc.,* Defendants.

Civil Action No. 78–554–Orl–CIV–Y, plaintiff's response to comments on the proposed final judgment.

The plaintiff has received three comments on the proposed Final Judgement as to defendant Halifax Hospital Medical Center which relate to portions of Paragraph V. Copies of these comments are attached; these letters and this response will be promptly published in the **Federal Register** as required by 15 U.S.C. 16(d).

A. Response to Comments by Robert E. Nord, Esq.

By letter dated April 16, 1981, Robert E. Nord, Esq. objected to the underlined portion of Paragraph V of the proposed decree:

Defendant Center is enjoined and restrained from establishing or maintaining a professional procurement committee or any other committee, and from adopting or engaging in any policy, practice or procedure, whose purpose or foreseeable effect is to discourage and physician from seeking medical staff privileges at the Center, or to exclude any physician from the center's medical staff:

(1) because such physician is affiliated, or proposes to affiliate, with an HMO; or

(2) *because of any purported lack of need for additional physicians in such physician's area of specialization;*

provided, however, that nothing in this paragraph V shall prevent the Center from entering into contracts with one or more physicians or physician practice groups providing for the exclusive provision at the Center of medical specialties which are principally hospital-based.

Mr. Nord characterizes the provision in question as one with anticompetitive ramifications. However, he does not set forth his reasoning in reaching this conclusion. Rather he contends that quality-of-care requires that hospitals have the option of restricting the number of physicians in certain areas of medical specialization.

In the government antitrust suits, the provisions of a proposed Final Judgement relate to a specific factual context. In this case the government contended that the defendant discouraged non-local physicians from making applications for medical staff privileges by establishing a so-called procurement committee. Based on a telephone survey of the already-privileged physicians in a prospective applicant's medical specialty, the committee sent letters to prospective applicants stating that there was "no professional need" in the community for additional physicians in their specialty. Although we contend this practice was set up in response to a perceived threat that the local health maintenance organization (HMO) was recruiting non-local physicians, the government's evidence would show that this practice also affected various physicians who had no intention to affiliate with the HMO. The commentator's suggestion, therefore, that any anticompetitive conduct could be met by merely enjoining the hospital's exclusionary practices directed at HMO physicians is inconsistent with the facts the government would have attempted to prove at trial.

The decree prohibits the hospital from using two criteria—affiliation with HMOs or purported lack of need for another physician in a particular specialty—as grounds for discouraging or denying staff privileges. It does not prohibit the hospital from setting objective standards relating to physician qualifications or quality of medical care. In our view, this decree would not prevent the defendant from limiting the use of certain of its facilities provided that it had ascertained by objective standards (and not those prohibited by this injunction) that there was reason to believe that the quality of health are of its patients was or would be affected if such actions were not taken and if the solution adopted directly addressed the quality of care question and was applied objectively and non-discriminatorily.

The standard by which the Court must determine the public interest is whether the provisions are consistent with the allegations in the complaint and the enforcement of the antitrust laws. *United States v. Associated Milk Producers, Inc.,* 394 F. Supp. 29 (WD Mo. 1975), *aff'd* 534 F.2d 113 (8th Cir.); *U.S. v. Gillette Co.,* 406 F. Supp. 713 (D. Mass. 1975); *U.S. V. Morgan Drive Away, Inc.,* 1976–1 Trade Cases ¶60,949 (D.D.C. 1976). The provision at issue is consistent with the allegations in the complaint and with the evidence underlying those allegations. The provision's inclusion in this matter will have no effect on enforcement of the antitrust laws in other factual contexts.

B. Response to Comments by James E. Pohlman, Esq.

Mr. Pohlman objects in his letter, dated May 8, 1981, to a different portion of Paragraph V. His concern is with the limiting proviso which states:

provided, however, that nothing in this Paragraph V shall prevent the Center from entering into contracts with one or more physicians or physician practice groups providing for the exclusive provision at the Center of medical specialties which are principally hospital-based.

The argument advanced by Mr. Pohlman is based on his mistaken interpretation that this provision constitutes "judicial authorization" for, and unconditionally condones, exclusive contracts between hospitals and physicians. The decree neither condones nor condemns such practices. The proviso merely excludes them from coverage by the decree. Without such a provision, any and all exclusive contracts would have fallen within the injunctive provisions of subparagraph (2). Exclusive contracts are not *per se* illegal and should any exclusive contract unreasonably restrict competition it would, of course, still be subject to antitrust challenge. Since this practice was not involved in the lawsuit, it was appropriately excluded from the decree's injunctive provisions.

The standard for the public interest determination, whether the provisions are consistent with the allegations and the enforcement of the antitrust laws, *supra,* is met with respect to Mr. Pohlman's concerns. The proviso is not inconsistent with the allegations and its inclusion is a necessary limitation on the preceding subparagraph (2).

C. Response to Comments by Rickart F. Pfizenmayer, Esq.

Mr. Pfizenmayer challenges the limiting proviso in Paragraph V as vague and as unnecessarily endorsing the practice of exclusive contracts between hospitals and physicians. He urges that at a minimum the proviso be redrafted to expressly exclude anesthesiologists and that the Department solicit the views of the Federal Trade Commission as to the antitrust merits of exclusive contracts.

The government submits, as in the preceding response, that the proviso excludes from coverage of the decree an issue which was not within the scope of the lawsuit. With respect to the inclusion or exclusion of given medical specialties, we suggest that general

terminology is desirable since the practice, irrespective of who are parties to any such contracts, is not before the court.

Conclusion

The plaintiff respectfully submits that entry of the proposed decree is in the public interest.

Dated: May 21, 1981.

Respectfully submitted,

Terrence F. McDonald, Esq.,

Attorney, Antitrust Division, U.S. Department of Justice, Washington, D.C. 20530, Tel: (202) 633–3082.

Certificate of Service

I, Terrence F. McDonald, Esq., counsel for the plaintiff, United States of America, certify that a copy of Plaintiff's Response to Comments on the Proposed Final Judgment have been served on the 22nd of May, 1981 by hand on counsel for the defendant, Owen M. Johnson, Jr., and by first class mail, postage prepaid on William Crotty, Esq., counsel for the defendant, Post Office Box 5488, Daytona Beach, Florida 32018.

Terrence F. McDonald,

Attorney, U.S. Department of Justice, Washington, D.C. 20530.

April 16, 1981.

Re: *U.S. vs. Halifax Hospital Medical Center.*

Mr. John W. Poole, Jr.,
Chief, Special Litigation Section, Antitrust Division, U.S. Department of Justice, 10th & Pennsylvania Avenue, N.W., Room 7218, Washington, D.C. 20530.

Dear Mr. Poole: I have reviewed with interest the proposed Consent Decree in *U.S. vs. Halifax Hospital Medical Center*, and note, with particular interest, that portion of the Decree which would foreclose the right of the hospital to restrict the number of physicians holding privileges at the hospital to perform certain procedures by reason of the fact that there are already sufficient physicians with privileges in a particular area to satisfy needs. I seriously question whether any provision of this nature is necessary to the proposed Decree, and object to its inclusion because of its anticompetitive ramifications.

There are two major drawbacks to the particular provisions in the consent decree to which I refer:

1. It apparently limits the hospital's ability to assure that the individual physician seeking staff privileges to perform certain procedures actually has the opportunity to perform a particular number of surgical procedures of a defined character in order to maintain his professional proficiency. Unless the physician performs a particular procedure a certain number of times each month, or each year, that physician can no longer legitimately hold himself out as being professionally competent to perform that procedure.

2. The hospital may not control the manner in which professional responsibility for patient care is managed. I have personally represented a large hospital (800-bed) which had to halt the performance of cardiac surgery because of a high mortality rate. Two different physician groups included several physicians who had privileges to perform cardiac surgery; the professional background, board certification, training and skill of the physicians was well established. Nevertheless, the hospital determined that by diffusing responsibility for post-operative patient care among the different groups of physicians, the quality of the care—and indeed the very lives of patients—was adversely effected. In other words, proper health care—particularly in the context of surgery—requires a continual service by the physician most interested in the patient.

I have been involved with several antitrust suits involving organizations and institutions involved in the field of health care, and recognize that it is important to protect the competitive opportunities of physicians and others practicing in the context of health maintenance organizations, particularly where organized resistance by individual providers of health care is encountered. Nevertheless, the particular provision in the Consent Decree would restrict the hospital's opportunity to consider and apply important criteria in granting hospital staff privileges to individual physician applicants. I do not believe that it is necessary to the Decree which is being entered, and it represents a superficial understanding of some of the unique characteristics of the health care "industry". The legitimate need to avoid concerted anticompetitive conduct by the hospital can be adequately met by enjoining it from using the existing needs of the hospital for certain medical specialists for the primary purpose of excluding from the medical staff physicians practicing with HMO's.

I understand that you will provide a copy of these comments to the Court. Please advise me if that understanding is in error.

Very truly yours,

Robert E. Nord.

May 8, 1981.

Re: *United States v. Halifax Hospital Medical Center, et al.;* Civil Action No. 78–554–Orl–CIV–Y.

Mr. John W. Poole, Jr.,
Chief, Special Litigation Section, Antitrust Division, U.S. Department of Justice, 10th & Pennsylvania Avenue, N.W., Room 7218, Washington, D.C. 20530.

Dear Mr. Poole: We have reviewed in the **Federal Register** of March 18, 1981, the proposed Final Judgment as to Defendant, Halifax Hospital Medical Center in the above-captioned case. On behalf of our client, the Ohio Society of Anesthesiologists ("OSA"), and pursuant to 15 U.S.C. § 16(b), we are submitting the following comments. We understand that you will file a copy of these comments with the court.

The main concern of the OSA is with Section V of the Final Judgment which enjoins the defendant from discouraging any physician from seeking staff privilege, either because the physician is affiliated with a health maintenance organization ("HMO"), or because of an alleged lack of need for physicians in any given specialty. The conclusion of this section contains the following provision:

provided, however, that nothing in this paragraph V shall prevent the Center from entering into contracts with one or more physicians or physician practice groups providing for the exclusive provision at the Center of medical specialties which are principally hospital-based.

We question the advisability of these language reasons.

First, this explicit authorization of exclusive contracts in unnecessary under the facts before the court. The gravamen of the complaint in this case was that the defendants had conspired to impair the ability of an HMO to operate in the area. The conduct challenged by the government related to specific acts of discrimination against HMO's and their members. Thus, while these specific acts may be enjoined, it is unneccessary to give a judicial authorization for exclusive contracts between hospitals and physicians.

Second, by unconditionally condoning exclusive contracts between hospitals and physicians, the above-quoted section would circumvent established precedents dealing with the analysis of exclusive contracts. Federal antitrust law traditionally has analyzed exclusive arrangements on a case-by-case basis under the rule of reason. *See, e.g., Tampa Electric Company v. Nashville Coal Company,* 365 U.S. 320 (1961). Under the state and federal decisions dealing with exclusive contracts between physicians and hospitals, moreover, courts consistently have examined all relevant factors concerning the challenged arrangement. *Hyde v. J. Jefferson Parish Hospital District No. 2,* (Case No. 78–750, E.D. La., decided January 26, 1981); *Radiology Prof. Corp. v. Trinidad,* 195 Colo. 253, 577 p.2d 748 (1978) (and cases cited therein). The cited passage from the proposed Final Judgment does not recognize the need for such a case-by-case analysis.

We hope that these comments have been helpful. If you would wish any additional information or would have any questions concerning these comments, please contact us.

Very truly yours,

James E. Pohlman.

May 18, 1981.

Re: United States v. Halifax Hospital Medical Center—Proposed Final Consent Judgment, 46 Fed. Reg. 17314 (March 18, 1981).

John W. Poole, Jr.,
Chief, Special Litigation Section, Antitrust Division, U.S. Department of Justice, 10th & Pennsylvania Avenue, N.W., Room 7218, Washington, D.C. 20530.

Dear Mr. Poole: This firm acts as counsel to The American Society of Anesthesiologists ("ASA"), a national medical organization composed of approximately 17,500 physicians engaged in the practice of anesthesiology. On behalf of ASA, we object to the inclusion in the Final Judgment in *United States v. Halifax Hospital Medical Center,* Civil Action No. 78–554–Orl–CIV–Y, of the proviso to Paragraph V which states:

* * * that nothing in this paragraph V shall prevent the Center from entering into contracts with one or more physicians or physician practice groups providing for the exclusive provision at the Center of medical specialties which are principally hospital-based.

That proviso is vague, is unnecessary to securing relief for the conduct which is the subject of the complaint, and, without full consideration of the pertinent facts or of the issues raised, gives unconditional Justice Department and Court sanction to exclusive arrangements between hospitals and certain favored medical specialists which are both anticompetitive and detrimental to quality patient care.

* * * * *

In the first instance, it is not clear which medical specialties are "medical specialties which are principally hospital-based" and thus covered by the proviso. Some medical specialties, such as pathology and radiology, are usually in some form of employment or agency relationship with the hospital and are frequently characterized as "hospital-based." So characterizing and including anesthesiologists is inappropriate and lacks any substantial basis in fact. It is, of course, true that most of the medical services of anesthesiologists are performed within the physical confines of a hospital. However, with only minor percentage exception, anesthesiologists perform their services as independent medical professionals, and are compensated for these services on the basis of a fee charged to the individual patient. They are no more "hospital-based" than, for example, are surgeons, invasive cardiologists and obstetricians, who are part of the medical care team with which the anesthestiologist is most frequently involved and who similarly perform most of their services in a hospital. At a minimum, therefore, the proviso should be redrafted to clarify which specialists are covered and to exclude anesthesiologists.

Definitional deficiencies aside, the proviso sanctioning exclusive arrangements is a gratuitous license which goes beyond the issues raised by the complaint and is unnecessary to a settlement of those issues. The complaint is directed at activities of the Defendant Center and of the local county medical society alleged to have impaired the ability of a local health maintenance organization to compete in health care delivery. Included among these activities were discouraging non-local physicians contemplating affiliation with the HMO from locating in the county and denial of staff appointments to physicians contemplating affiliation with the HMO. The exclusive contracts excepted by the proviso from the operation of Paragraph V's prohibitions against denying physicians medical staff privileges must have nothing to do with the existence of the HMO and the affiliation of individual physicians with the HMO. If they did, presumably the Department of Justice would not have agreed to the proviso since to do so would have permitted a vestige of discrimination against HMO-affiliated physicians to remain uncorrected. The proviso thus goes beyond the issues raised in the complaint.

One can speculate that the proviso was justified by the Defendant Center as a clarification of Paragraph V's prohibition against denying a physician medical staff privileges "because of any purported lack of need for additional physicians in such physician's area of specialization." However, it is indeed ironic, if not anomalous, that a proposed consent decree which purports to eliminate anticompetitive restrictions on medical staff privileges permits a particular exclusionary practice without any analysis of the anticompetitive impact of such practice. This is expecially troubling since the apparent purpose could be achieved in a less anticompetitive manner more clearly related to the gravamen of the complaint. Quite simply, the part of the prohibition of Paragraph V in question could be dropped entirely since the prohibition against denying a physicians staff privileges "because such physician is affiliated, or proposes to affiliate, with an HMO" is sufficiently broad to cover any activity based on the improper discrimination. Alternatively, if it is deemed appropriate specifically to address the possible claim that additional physicians are not needed, that prohibition could be rephrased to prohibit the exclusion of any physician from the Center's medical staff:

because of any purported lack of need for additional physicians in such physician's area of specialization *where the purpose or foreseeable effect of exclusion on such basis is to deny the physician medical staff privileges because he is affiliated, or proposes to affiliate, with an HMO.* (change underlined)

This approach at least leaves open for future determination in light of the pertinent facts the question of whether exclusion from the medical staff on grounds other than HMO affiliation is a violation of the antitrust laws.

If that issue must be addressed with respect to exclusive contracts, it is submitted that the proviso is ill-conceived and ill-advised as a matter of substantive antitrust law and policy. What could be more anticompetitive than an agreement which *insures* that there will be no competition in the provision of anesthesiology services at a hospital? A monopoly is created by an agreement foreclosing otherwise qualified physicians from practicing their specialty in a hospital simply because another physician or practice group is favored by the hospital administration and the physicians seeking to practice in the hospital are unable, or unwilling, to enter into a financial arrangement with the physician or group having the exclusive contract. Further, such an arrangement in effect ties the provision of anesthesia services to the provision of hospital surgical facilities—a patient undergoing surgery or another procedure requiring anesthesia services is compelled to purchase those services from a single source. What opportunities that may have existed for competition among anesthesiologists by virtue of surgeon selection or patient request are thus eliminated.

In any event competition among anesthesiologists is restrained. Anesthesiologists are not like other physicians who have the privilege of admitting patients. The exclusion of those other physicians from the staff of a particular hospital does not eliminate competition so long as those physicians have privileges in some other hospital. They can compete with physicians having exclusive arrangements at one hospital by simply admitting their patients to another hospital. Anesthesiologists on the other hand usually are, and can be, retained only after a patient is admitted to the hospital. The existence of an exclusive contract in that hospital thus necessarily forecloses competition among anesthesiologists with respect to any actual or prospective patient in the hospital.

The scenario may vary—the physician seeking the opportunity to practice may have just completed his training and be entering private practice for the first time; he may be an experienced physician new to the community; or he may even be a physician who has been practicing in the hospital but who has left, or been forced out of, the group having the exclusive contract, or who has had his staff privileges terminated because of a newly created exclusive arrangement. Whatever the case, the effect is the same. The physician is denied the opportunity to practice. More importantly, patients are denied access to an alternative source of the medical service they need, which alternative may be less expensive, or higher quality, or both.

It is sometimes said that such exclusive arrangements are desirable, or perhaps even necessary, in order to assure quality service to patients on an efficient basis. In this vein it is asserted that such arrangements permit standardization of procedures, improved efficiency and personnel morale, better scheduling and availability of services, better supervision and training of physicians, technique specialization, facilitation of the exchange of information, and the enhancement of full utilization of expensive equipment. Even if valid, these justifications are insufficient as a matter of antitrust law. The United States Supreme Court has made it plain that the purpose of antitrust analysis is to assess a challenged restraint's impact on competitive conditions and that alleged public health, safety and welfare justifications for conduct which suppresses or destroys competition are not cognizable under the antitrust laws. *National Society of Professional Engineers* v. *United States*, 435 U.S. 679 (1978).

Even if admissible on some "market necessity" theory, as to anesthesiology these justifications do not have an inevitable basis in fact. In many hospitals throughout the country, the anesthesiology service is staffed by individual physicians and practice groups which have no financial relationship with the hospital or among themselves. The necessary organization of the service and scheduling of coverage are achieved through a departmental administration or through cooperation between the surgeons and the anesthesiologists with which they have established working relationships. Evidently, the anesthesia service in these hospitals operates satisfactorily since they have not found it necessary to impose an exclusive arrangement on the anesthesiology staff.

ASA agrees with this judgment and strongly opposes exclusive contracts in anesthesiology. It has found that exclusive contracts can lead to under-utilization of operating room time, create disincentives for providing optimal anesthesia care, and permit a hospital to abuse its responsibility to evaluate the qualifications of physicians seeking staff privileges. For these reasons, it is ASA's position that where a hospital's other clinical departments have open staffs, the anesthesiology staff should be open to any qualified anesthesiologist willing to share in the responsibilities for providing necessary anesthesia service. This position is embodied in Paragraph VI of the ASA Statement of Policy adopted by the ASA House of Delegates last October. A copy of the Statement of Policy if attached for reference.

It will be noted that this position is not an ethical constraint and that ASA is committed to a policy of competition among anesthesiologists. As part of a settlement of a Federal Trade Commission investigation of provisions in ASA's ethical documents relating to contract practice, ASA agreed to (and did) adopt the policy that and anesthesiologist is free to choose whatever arrangement he prefers for compensation of his professional services. It further agreed not to "coerce" anesthesiologists into practicing only on a fee-for-service basis. In this connection, it is certainly fair to ask why, if it is not proper for ASA to dictate that anesthesiologists structure their compensation arrangements in a manner believed by it to be in the best interests of quality patient care, it is not similarly improper for a hospital in the exercise of its monopoly power and in concert with others to force anesthesiologists to have a particular financial relationship with the hospital or another physician because its administration believes such an arrangement to be in the best interests of quality patient care. The fostering of a truly competitive market for anesthesiology services, not to mention simple equity, would require that coercion from another element of the market equation be avoided as well.

Finally, it is worth noting in passing that we are aware that the staff of the Federal Trade Commission has for some time been conducting an investigation into exclusive contracts for the provision of medical services. We do not know what the staff's position is, but it does not appear that there has been any consultation between the Department of Justice and the FTC on the proposed proviso. As the antitrust enforcement agency which has perhaps been the most aggressive in pursuing alleged anticompetitive activities in the health care industry, the FTC's views are certainly pertinent. We would hope that the FTC will comment on the proviso in question. If it does not, its views ought to be solicited by the Justice Department or the Court if it is determined that the subject of exclusive contracts must be addressed in this Final Judgement.

ASA strongly urges that these comments be given the most serious consideration. We understand that they will be submitted to the Court. If we can provide any additional information or can amplify these comments, we would be pleased to do so.

Sincerely,

Rickard F. Pfizenmayer.

[FR Doc. 81-16586 Filed 6-3-81; 8:45 am]

BILLING CODE 4410-01-M

NATIONAL TRANSPORTATION SAFETY BOARD

[N-AR 81-23]

Recommendations, Responses; Availability

Following investigation of the engine flameout occurring last March 25 on Bell 206L-1 helicopter, N 1077N, the Board on May 22 issued these "Class II, Priority Action" recommendations to the Federal Aviation Administration:

Issue an Airworthiness Directive to require that those Allison 250-C28 and -C30 engines identified by the manufacturer as having the PN 6899243, Revision A, splined adapters installed be removed from service. (A-81-59)

Review and evaluate the manufacturing processes and quality assurance procedures for these splined adapters to ensure product integrity and safety. (A-81-60)

Recent Responses from the Federal Aviation Administration—

A-76-31 through -44 (May 1).—Current status of recommendations, reported initially at 41 FR 15953, Apr. 8, 1976:

A-76-31: FAA is continuing research to determine magnitude of windspeed component changes during thunderstorms, expects to improve information on wind shear conditions using terminal area Next Generation Radar (NEXRAD), and may issue proposed rule on requirements for airborne wind shear systems.

A-76-32: FAA is implementing a Low-Level Wind Shear Alert System (LLWSAS) to detect the horizontal wind shear caused by thunderstorm gust fronts and strong cold fronts near airports; NEXRAD may help to detect, classify, and track thunderstorms; programs are underway to develop means to transmit hazardous weather information to the cockpit.

A-76-33: FAA has invested substantial R&D resources in developing sensors to detect variations in wind components, is increasing instrument landing systems (ILS's) at air carrier service airports, and is implementing the Microwave Landing System where an ILS is impractical. FAA's flight service station automation program will enhance transmittal of a hazardous weather information to the cockpit.

A-76-34: Too many variables are involved to require inclusion of the wind shear pentration capability of an airplane as an operational limitation in the operations manual, but FAA is preparing an advisory circular on installation and use of airborne equipment.

A-76-35: FAA is installing LLWSAS to provide comparison of windspeed and direction, sensed at remote locations on the airport, relative to those values sensed at center field locations.

A-76-36: FAA has 18 Air Route Traffic Control Centers (ARTCC's) with commissioned Center Weather Service Units (CWSU) and plans to install and test auto dial conference call capabilities in the CWSU at the Indianapolis ARTCC; plans use of FSS automation system components to disseminate weather information to FSS's and CWSU's; an operational test/evaluation of the Color Weather Radar System at Cleveland ARTCC is scheduled for completion by year's end.

A-76-37 through -41: FAA notes previous closing by official Board action.

A-76-42: FAA is developing equipment and procedures to permit transition from instrument to visual references during final segments of instrument approach, is implementing autoland by publication of procedures and certification of aircraft facilities and aircrews for Category III operations, is expanding implementation of ILS's to provide that service to a wider user group, and has underway installation of additional Visual Approach Slope Indicator systems (VASI) at some precision and nonprecision approach runways. FAA has amended 14 CFR Parts 91 and 121 to clarify criteria for commencing and continuing instrument approaches and instrument landing procedures and minimums. Joint FAA/NASA program to determine benefits to safety during transition attributable to a head-up display are expected in 1981. Approval of a head-up display for use on a supplemental basis has been completed on recently certificated DC-9-80.

A-76-43: A 4-year study shows that many problems involved in wind shear encounters may be avoided.

A-76-44: FAA believes the LLWSAS satisfied intent of this recommendation, which called for program to produce accurate and timely forecasts of wind shear in the terminal area.

A-76-80 and -81 (May 11).—Responds to Board letter of Sept. 22, 1980, commenting on response of Sept. 8, 1976. FAA issued, Feb. 4, 1980, Amendment 25-51 revising 14 CFR 25.785 to upgrade safety requirements for flight attendant seats, and Amendment 121-155 revising 14 CFR 121.311 to retroactively apply § 25.785 flight attendant seat requirements to airplanes in air carrier operations. FAA is revising TSO-C39a, Aircraft Seats and Berths, to include specific dimensional and energy absorption requirements for flight attendant seats, and TSO-C22 to include requirements for shoulder harness installations. (Ref. 41 FR 41767, Sept. 23, 1976)

A-78-23 through -26 (May 15).—Supplements June 27, 1978, response. FAA has completed analysis of helicopter pilot workload and is now on a helicopter accident analysis program to classify accidents caused by pilot factors. FFA/NASA program will determine optimum/advanced helicopter display and integrated control systems in helicopter design. FAA is developing a human factors program to improve the man/machine interface of controllers and pilots. (Ref. 43 FR 324676, July 27, 1978)

A-80-101 through -104 (May 11).—Responds to Board comments of Mar. 26, 1981, on response dated Dec. 15, 1980. To collect weather and airport information from remote locations FAA will provide HF transceivers as needed, until they can be replaced with more reliable "meteor burst" or satellite communications. FAA is reexamining future inspector staffing requirements in Alaska, including potential location assignment of domiciled inspectors. FAA continues to test "meteor burst" technology; a third collection site was installed at Togiak, Alaska. "Slow scan" and "live scan" television observations tested at two Alaskan locations: The one at Unakleet was not successful due to lack of contrast in the terrain, and FAA plans to expand the test to include programed stops in the equipment for better orientation; the test at Valdez was highly successful because of excellent terrain contrast, and three additional sites are now funded for further testing. (Ref. 46 FR 2224, Jan. 8, 1981)

Other Recent Responses—

I-80-2, from the Federal Railroad Administration, May 5.—To develop guidelines for handling tank cars containing pressurized liquefied gases, FRA will determine and characterize the range of damage types which tank car heads and shells sustain through reviews of past accidents, visits to railroad repair shops, and direct observations at accident sites. (Ref. 45 FR 71870, Oct. 30, 1980)

P-79-32, from the Lone Star Gas Company, May. 12.—All service lines will be installed and existing service lines will be replaced as needed up to the point of measurement. Lone Star is implementing its revised policy by filing for franchise amendments and is supporting an amendment to the reauthorization bill for the State Plumbing Board to clarify the right of the company to work on customer-owned service lines without a master plumber's license. (Ref. 45 FR 43290, June 26, 1980); Board letter of Sept. 29, 1980)

R-76-23, from the Federal Railroad Administration, May 6.—Amtrak has informed FRA that retrofitting of coupler assemblies was completed June 19, 1980, including installation of direct coupling of turnbuckles and elimination of the hook and link coupling arrangement. (Ref. 45 FR 3414, Jan. 17, 1980; Board letter of Feb. 5, 1980)

R-80-54, from the Federal Railroad Administration, May 14.—FRA does not intend to amend 49 CFR 221.15(c)3. FRA is informed that Southeastern Pennsylvania Transportation Authority plans to implement a retrofit program for installation of colored rear-end marking devices on their equipment, which may result in discontinuance of use of rear headlights as marking devices. (Ref. 46 FR 11075, Feb. 5, 1981)

R-81-30, from the Amalgamated Transit Union, May 4.—ATU agrees to assist and cooperate with UMTA to bring about emergency response training or rail rapid transit employees (Ref. 46 FR 17684, Mar. 19, 1981)

Note.—Copies of Board recommendation letters, responses and related correspondence are available without charge. All requests must be in writing, identified by recommendation number. Address requests to: Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594.

BILLING CODE 4910-58-M

NUCLEAR REGULATORY COMMISSION

[Byproduct Material License No. 12-13568-01; EA 81-32]

Isotope Measurements Laboratories, Inc.; Order to Show Cause

I

Isotope Measurements Laboratories, Incorporated, 3304 Commercial Avenue, Northbrook, Illinois (the "Licensee") is the holder of Byproduct Material License No. 12-13568-01 (the "license") issued by the Nuclear Regulatory Commission (the "Commission"). The license authorizes the licensee to possess byproduct material incident to the receipt, storage and delivery to specificlly licensed recipients. The license was issued on February 24, 1970, and is due to expire on February 28, 1985.

II

The findings of a Commission investigation conducted during the period June 30, 1980 through January 6, 1981 revealed that the licensee was receiving byproduct material from client hospitals who were not authorized to manufacture and distribute radiopharmaceuticals, and was distributing these materials to other of the licensee's client hospitals in Indiana and Southern and Central Illinois. This practice continued after the Commission had denied on April 27, 1979, a request by the licensee for authorization to elute radiopharmaceuticals and distribute these eluates to other of the licensee's client hospitals. This denial was based on the fact that the licensee did not submit the necessary information required by 10 CFR 32.72 for a specific license to manufacture and distribute radiopharmaceuticals for medical use under group licenses. This unauthorized distribution further continued in some areas after representatives of the licensee attended an enforcement conference conducted by Commission representatives with several of the licensee's client hospitals on June 20, 1980, at which the unauthorized distribution practices were discussed. Furthermore, the licensee continued this practice at two hospitals in Central and Southern Illinois after receipt of an Immediate Action Letter dated August 8, 1980, which confirmed the Commission's understanding that the licensee would cease the unauthorized practices at all locations.

From the foregoing, it is apparent that the licensee has engaged in a practice of chronic noncompliance with the Commission's requirements including the continuation of an unauthorized practice after the April 27, 1979 license amendment denial, and the failure to comply fully with the commitments confirmed in the August 8, 1980 Immediate Action Letter.

III

In view of the foregoing and pursuant to Sections 81, 161(b) and 186 of the Atomic Energy Act of 1954, as amended, and the regulations in 10 CFR Parts 2, 20, 30, 32 and 35, it is hereby Ordered that:

The licensee show cause in the manner hereinafter provided why all activities under Byproduct Material License No. 12-13568-01 should not be suspended.

IV

The licensee may show cause within thirty days of the date of this Order by filing a written answer under oath or affirmation which sets forth the matters of fact and law on which the licensee relies. Any answer which the licensee intends to satisfy the show cause requirement shall include plans and procedures for conducting future activities in compliance with Commission requirements. Specifically, those plans and procedures should demonstrate that sufficient controls have been implemented to assure that: (1) employees engaged in operations under the license are trained to perform such operations in accordance with Commission requirements; and (2) effective management systems exist to assure the conduct of IML's licensed

activities in accordance with Commission requirements. The licensee may answer, as provided in 10 CFR 2.202(d), by consenting to the entry of an order in substantially the form proposed in this Order to Show Cause. Upon failure of the licensee to file an answer within the specified time, the Director, Office of Inspection and Enforcement, may issue without further notice an order suspending licensed activities.

V

The licensee or any other person who has an interest affected by this Order may request a hearing within thirty days of the date of this Order. Any answer to this Order or any request for hearing shall be submitted to the Director, Office of Inspection and Enforcement, U.S.N.R.C., Washington, DC 20555. A copy shall also be sent to the Executive Legal Director at the same address. If a person other than the licensee requests a hearing, that person shall describe specifically, in accordance with 10 CFR 2.714(a)(2), the person's interest and the manner in which that interest is affected by this Order.

If a hearing is requested by the licensee or other person who has an interest affected by this Order, the Commission will issue an order designating the time and place of any hearing. If a hearing is held, the issue to be considered at such hearing shall be:

Whether, on the basis of the matters set forth in section II of this Order, Byproduct Material License No. 12-13568-01 should be suspended.

Dated at Bethesda, Maryland this 28th day of May 1981.

For the Nuclear Regulatory Commission.

Victor Stello, Jr.,

Director, Office of Inspection and Enforcement.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 22072; (70-6579)]

American Electric Power Company, Inc.; Proposal by Holding Company To Act as Surety for a Subsidiary

May 29, 1981.

American Electric Power Company, Inc. ("AEP"), 2 Broadway, New York, New York 10004, a registered holding company, has filed a declaration with this Commission pursuant to sections 12(b) and 12(f) of the Public Utility Holding Company Act of 1935 ("Act") and Rule 45 promulgated thereunder.

AEP proposes to act as surety for Wheeling Electric Company ("Wheeling"), a public utility subsidiary of AEP, in connection with Wheeling's plan to place increased electric rates into effect subject to refund. Pursuant to an order of the Public Service Commission of West Virginia, Wheeling may place such rates into effect commencing June 27, 1981, pending completion of an investigation by the West Virginia Commission with respect to the rate increase. The amount of the bond is estimated at $4,700,000, equal to the estimated additional annual revenue that the increased rates will provide. AEP will charge no fee to Wheeling for acting as surety.

The declaration and any amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by June 22, 1981, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and serve a copy on the declarant at the address specified above. Proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in this matter. After said date the declaration, as filed or as it may be amended, may be permitted to become effective.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Release No. 22073; (70-5943)]

American Electric Power Co., Inc.; Proposed Issuance and Sale of Common Stock Pursuant to Dividend Reinvestment and Stock Purchase Plan

May 29, 1981.

American Electric Power Company, Inc. ("AEP"), 180 East Broad Street, Columbus, Ohio 43215, a registered holding company, has filed with this Commission a post-effective amendment to its declaration in this proceeding pursuant to sections 6(a) and (7) of the Public Utility Holding Company Act of 935 ("Act") and Rule 50(a)(5) promulgated thereunder.

By orders dated February 8, 1977, April 19, 1978, March 29, 1979, August 8, 1979, and May 1, 1980 (HCAR Nos. 19879, 20506, 20979, 21180, and 21544), AEP was authorized to issue and sell, from time to time through June 30 1981, up to 12,000,000 shares of its authorized but unissued common stock, $6.50 par value, pursuant to its Dividend Reinvestment and Stock Purchase Plan ("Plan';'). Through May 8, 1981, a total of 9,893,348 shares had been issued and sold, leaving a balance of 2,106,652 shares available for issuance and sale.

AEP now proposes to issue and sell, from time to time through June 30, 1982, up to an additional 7,000,000 shares of its authorized unissued common stock, plus the unsold balance of the shares of common stock heretofore authorized by the Commission for issuance, pursuant to the Plan. The price of shares purchased with reinvested cash dividends is 95% of the average of the daily high and low sales prices of AEP's common stock on the New York Stock Exchange for the five trading days ending on the day of purchase.

The amended declaration and any further amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by June 26, 1981, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and serve a copy on the declarant at the address specified above. Proof of service (by affidavit or, in case of an attorney at law, by

certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will not notifed of any hearing, if ordered, and will recieve a copy of any notice or order issued in this matter. After said date, the delcaration, as now amended or as it may be further amended, may be permitted to become effective.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Release No. 22070; (70-6126)]

American Electric Power Co., Inc.; Proposed Issuance and Sale of Common Stock to Trustee for System Employees Savings Plan

May 29, 1981.

American Electric Power Company, Inc. ("AEP"), 180 East Broad Street, Columbus, Ohio 43215, a registered holding company, has filed with this Commission a post-effective amendment to its declaration in this proceeding pursuant to Sections 6(a) and 7 of the Public Utility Holding Company Act of 1935 ("Act") and Rule 50(a)(5) promulgated thereunder.

By orders dated April 25, 1978, April 27, 1979, and June 24, 1980 (HCAR Nos. 20516, 21022, and 21639), AEP was authorized to issue and sell, from time to time through June 30, 1981, up to 1,500,000 shares of its authorized unissued common stock, $6.50 par value, to Bankers Trust Company, the Trustee for the AEP System Employees Savings Plan ("Savings Plan"). Through May 15, 1981, a total of 1,081,400 of such shares had been sold to the Trustee for a total price fo $20,671,975, leaving a balance of 418,600 shares.

AEP now proposes to issue and sell to the Savings Plan Trustee, from time to time through June 30, 1982, up to an additional 300,000 shares of its authorized unissued common stock, plus the unsold balance of the shares of common stock heretofore authorized by the Commission for issuance, to said Trustee. The pricie to the Trustee of such shares on any date of sale will be the average of the high and low sales price of AEP's common stock on the New York Stock Exchange on such date, but in no event less than the par value thereof.

The amended declaration and any further amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by June 26, 1981, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and serve a copy on the declarant at the address specified above. Proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in this matter. After said date, the declaration, as now amended or as it may be further amended, may be permitted to become effective.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

Midwest Stock Exchange, Inc.; Applications for Unlisted Trading Privileges and of Opportunity for Hearing

May 28, 1981.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the following stocks:

Amsouth Bancorporation, Common Stock, $1 Par Value (File No. 7-5933)
Louisiana General Services Inc., Common Stock, $1 Par Value (File No. 7-5934)
Mitel Corporation, Common Stock, No Par Value (File No. 7-5935)
Nortek Incorporated, Common Stock, $1 Par Value (File No. 7-5936)
Santa Anita Operating Company/Santa Anita Realty Enterprises Incorporated, Paired Certificates, Common Stock, $.10 Par Value (File No. 7-5937)
Engelhard Corporation, Common Stock, $1 Par Value (File No. 7-5938)

These securities are listed and registered on one or more other national securities exchanges and are reported in the consolidated transaction reporting system.

Interested persons are invited to submit on or before June 18, 1981 written data, views and arguments concerning the above-referenced applications. Persons desiring to make written comments should file three copies thereof with the Secretary of the Securities and Exchange Commission, Washington, D.C. 20549. Following this opportunity for hearing, the Commission will approve the applications if it finds, based upon all the information available to it, that the extensions of unlisted trading privileges pursuant to such applications are consistent with the maintenance of fair and orderly markets and the protection of investors.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Release No. 17830; File No. SR-NASD-81-7]

National Association of Securities Dealers, Inc.; Order Approving Proposed Rule Change

June 1, 1981.

On April 27, 1981, the National Association of Securities Dealers, Inc. (the "NASD" 1735 K Street, NW., Washington, D.C. 20006, filed with the Commission, pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1) (the "Act") and Rule 19b-4 thereunder, copies of a proposed rule change which amends Article I, Schedule C, Parts I and II of the NASD By-Laws concerning the registration requirements for principals and representatives. Parts I and II were adopted as interim measures pending Commission approval of proposed Rule 15b7-1 and would expire on May 31, 1981. The proposal deletes the May 31, 1981, expiration date for Parts I and II, thereby extending indefinitely the applicability of these provisions. The NASD has requested that this proposed rule change receive accelerated approval pursuant to Section 19(b)(2) of the Act.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act Release No. 17796, May 11, 1981) and by publication in the **Federal Register** (46 FR 27590 (1981)). No written statements with respect to the proposed rule change were filed with the Commission.

The Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication for the notice of filing thereof, since deletion of the May 31, 1981, expiration date for Parts I and II will ensure continuous qualification and

registration of persons associated with NASD members pending Commission action on proposed Rule 15b7–1. The NASD expects to submit conforming amendments to Schedule C upon Commission approval of proposed Rule 157b–1 or an amended version thereof.

It is therefore ordered, pursuant to section 19(b)(2) of the Act, that the above-mentioned proposed rule change be, and it hereby is, approved.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010–01–M

[Release No. 11799; (811–110)]

Trusteed Income Estates Certificates Original Series; Proposal To Terminate Registration

May 29, 1981.

Notice is hereby given that the Commission proposes, pursuant to Section 8(f) of the Investment Company Act of 1940 ("Act"), to declare by order on its own motion that Trusteed Income Estates Certificates Original Series ("Trust"), 919 18th Street NW., Washington, D.C. 20006, registered under the Act as a unit investment trust, has ceased to be an investment company as defined by the Act.

Information contained in the files of the Commission indicates that the Trust was organized as a common law trust in the state of New Jersey by trust agreement dated April 1, 1933. The Trust filed Form N–8A, Notification of Registration, with the Commission on November 1, 1940. According to its Form N–8A, the Trust last offered its securites to the public on February 26, 1938. Commission records indicate that the Trust is presently inactive and has no reported assets.

Section 8(f) of the Act provides, in pertinent part, that whenever the Commission, on its own motion or upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order and upon the taking effect of that order the registration of that investment company shall cease to be in effect.

Notice is further given that any interested person may, not later than June 23, 1981, at 5:30 p.m., submit to the Commission in writing, a request for a hearing on the proposal accompanied by a statement as to the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon the Trust at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the proposal herein will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponenments thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A Fitzsimmons,

Secretary.

[FR Doc. 81–16677 Filed 6–3–81; 8:45 am]

BILLING CODE 8010–01–M

[Release No. 17819; SR–BSE–81–4]

Boston Stock Exchange, Inc.; Order Approving Proposed Rule Change

On April 16, 1981, the Boston Stock Exchange, Inc. One Boston Place, Boston, Massachusetts 02108 filed with the Commission, pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78(s)(b)(1) ("Act") and Rule 19b–4 thereunder, copies of a proposed rule change to amend Chapter II, Section 16 of its Rules relating to short selling by broker-dealers to permit a broker-dealer, under certain specified circumstances, to effect short sales of a security at a price equal to the price associated with that broker-dealer's most recent communicated offer for that security.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by issuance of a Commission Release (Securities Exchange Act Release No. 17737, April 20, 1981) and by publication in the **Federal Register** (46 FR 23361, April 24, 1981). No comments were received with respect to the proposed rule filing.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange and, in particular, the requirements of Section 6 and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the above-mentioned proposed rule change be, and it hereby is, approved.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

Dated: May 27, 1981.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010–01–M

[Release No. 11797; 812–4809]

Banque Francaise du Commerce Exterieur and BFCE U.S. Finance Corp.; Application for an Order Exempting Applicants From All Provisions of the Act

May 28, 1981.

Notice is hereby given that Banque Francaise du Commerce Esterieur ("BFCE") and BFCE U.S. Finance Corporation, c/o Peter H. Darrow, Esq., Cleary, Gottlieb, Steen & Hamilton, One State Street Plaza, New York, NY 10004 ("BFCE U.S. Finance") (together, "Applicants") filed an application on January 21, 1981, and an amendment thereto on May 8, 1981, for an order of the Commission pursuant to Section 6(c) of the Investment Company Act of 1940 ("Act") exempting Applicants from all provisions of the Act. All interested persons are referred to the application on file with the Commission for a statement of respresentations contained therein, which are summarized below.

Business of Applicants

Applicants state that BFCE was established in 1947 pursuant to French Decree dated June 1, 1946, for the purpose of facilitating the financing of French foreign trade, and that its primary activity is to carry out the program of government export financing. According to the Applicants, BFCE is the only financial institution in France empowered to perform this specialized function. Its principal office is located at 21, Boulevard Haussmann, 75009 Paris, France.

BFCE provides government financing in francs for medium- and long-term credits extended to French exporters or foreign purchasers in connection with the export of French goods and services, by refinancing the major part of the medium-term portion of these credits

which are provided by French banks and the entire amount of the long-term portion of the credits provided by those banks to French exporters and by directly financing the long-term portion of credits to foreign purchasers of French exports. Except for certain short-term credits, governmental financing of export credits is subject to the issuance of disaster and political risk insurance. BFCE also refinances certain expenses of French exporters not covered by foreign purchaser's advance or progress payments and it guarantees, for the Treasury Division of the Ministry of the Economy ("Treasury"), foreign investment by French individuals and companies against certain political risks.

The application states that BFCE obtains the funds for its governmental export financing from refinancing operations with the Banque de France (in the case of medium-term refinancing), from loans granted by the Treasury, from bank loans, from money market operations and from the sale of its debt securities on various capital markets. The application further states that more than 97% of BFCE's outstanding long-term indebtedness in the form of debt securities, bank loans and loans from the Treasury has been incurred to fund its long-term government export financing; that the funds obtained for this purpose from loans and the sale of those securities are segregated from BFCE's other funds; and that all of BFCE's borrowings to fund its governmental financing operations are guaranteed by the Republic of France ("Republic"). Applicants affirm that the government guaranteed borrowings have included two public offerings in the United States registered under the Securities Act of 1933 (the "1933 Act").

Applicants represent that any difference between the cost of funds raised for government export finance activity through bank loans and debt issues and the interest income derived from the sued of those funds is, after commissions to BFCE at rates fixed by the Treasury, for the account of the Treasury. Applicants assert that BFCE's government export financing operations accounted for approximately 68% of its assets at December 31, 1977, 67% at December 31, 1978, and 67.1% at December 31, 1979 (based on its published French financial statements).

Applicants acknowledge that, in addition to government export financing, BFCE engages in all the financing and other activities normally engaged in by French commercial banks, with particular specialization in matters involving international commerce, expecially imports, exports and foreign investments. According to the application, in the commercial banking area, BFCE's most important activities are the receipt of deposits and the extension of credit. The application states that at December 31, 1979, loans (including interbank loans) not part of BFCE's government financing program amounted to $8,308 million or 72.5% of its assets not attributable to government export financing, and deposits and money market borrowings secured by bills of $5,306 million and $3,394 million, respectively, represented 75.9% of liabilities not attributable to government export financing. (All dollar amounts are computed based upon the conversion rate from French francs as of December 31, 1979.)

Applicants state that like all major European banks (as well as many foreign merchant banking subsidiaries of American banks) BFCE engages in various types of investment banking activities outside the United States and that these activities accounted in 1979 for less than 0.5% of BFCE's operating income. According to the application, in conjunction with its foreign trade financing activities, BFCE provides French companies with technical advice with respect to foreign trade, particularly financing methods. BFCE has made investments in French and foreign companies which promote French foreign trade and which provide specialized financial services to French importers and exporters and has also made quity investments in, and in some cases is represented on the boards of directors of, various French and foreign financial institutions and consortium banks.

The application states that BFCE U.S. Finance was formed on January 15, 1981, to serve as a financing vehicle for BFCE, and that all of the outstanding shares of capital stock of BFCE U.S. Finance will be owned by BFCE. The application also states that since it is intended that the sole business of BFCE U.S. Finance will be the provision of funds to BFCE, virtually all of its assets will consist of amounts receivable from BFCE. The principal office of BFCE U.S. Finance will be 306 South State Street, Dover, Delaware.

Regulation of BFCE

Applicants allege that BFCE is subject to extensive government regulation in France, both as a financial institution empowered to engage in governmental export financing activities and as a commercial banking institution. The application states that the share capital of BFCE may be held only by certain public agencies of the Republic and certain financial institutions in which the Republic has a controlling interest, and, furthermore, that any change in shareholders must be approved by government decree and any change in the amount of the share capital of BFCE or in the distribution thereof among its shareholders must be authorized by the Minister of the Economy.

The application states that all of the members of the board of directors of BFCE are appointed for a five-year term by government decree, and the two highest ranking executive officers, the chairman of the board and the general manager, are appointed by the Minister of the Economy upon the board's recommendation. In addition, two special representatives of the government, appointed by the Ministers of the Economy and the Budget, are entitled to attend all board and committee meetings and have veto power over any board decisions, subject to appeal to the Minister of the Economy.

With respect to BFCE's commercial banking activities, the application states that BFCE is subject to the same panoply of corporate and banking regulations as other French banks and French branches of foreign banks, as principally administered, often on a cooperative basis, by the Conseil National du Credit, Commission de Control des Banques, and Association Francaise des Banques. These regulations include restrictions relating to liquidity, assets and loan coverage, reporting requirements and exchange control regulations. In addition, the application represents that commercial banking operations in France are significantly affected by monetary policies established by the Ministry of the Economy and implemented by the Conseil National du Credit and the Banque de France. The application states that BFCE, as a foreign bank with a branch in New York, is subject to certain of the regulatory and reporting requirements of the Federal Reserve Board pursuant to the International Banking Act of 1978.

Proposed Commercial Paper and Future Offerings

Applicants propose that BFCE U.S. Finance issue and sell in the United States short-term negotiable promissory notes of the type generally referred to as commercial paper (the "Notes"), the proceeds of which (except for amounts needed to repay maturing securities of BFCE U.S. Finance) will be made available to BFCE in the form of loans or deposits for use in its non-governmental finance-related banking activities. The application states that payment of the

Notes will be unconditionally guaranteed by BFCE, but will not be guaranteed by the Republic. The application also states that under current French law, interest payments on commercial paper issued by French banks could be subject to a French withholding tax, and, that accordingly, it is proposed that BFCE U.S. Finance issue the commercial paper. Applicants aver that should there be a change regarding the imposition of the withholding tax, BFCE may also issue the Notes directly.

According to Applicants, the Notes will be in mimimum denominations of $100,000, and the Notes and guarantees thereof will rank *pari passu* among themselves. Applicants state that the Notes will be sold through one or more major dealers experienced in the marketing of commercial paper to the types of investors that ordinarily participate in the United States commercial paper market and will not be advertised or otherwise offered for sale to the general public. Applicants undertake to ensure, as an express condition of any order granting their application, that each dealer in the Notes will provide each offeree prior to any sale of Notes to that offeree with a memorandum which describes the business of BFCE and BFCE U.S. Finance and contains the financial statements contained in BFCE's most recently filed Form 18–K or, if and when BFCE shall cease to be required to file that annual report, BFCE's most recent publicly available official financial statements examined by its statutory auditors in accordance with generally accepted accounting standards in France. Applicants state that the financial statements will include or be accompanied by a paragraph highlighting the material differences between French accounting standards applicable to French banks and generally accepted accounting principles employed by United States banks. Applicants represent that the memorandum will be updated as promptly as practicable to reflect material adverse changes in BFCE's business and financial status and will be at least as comprehensive as those customarily used in offering commercial paper in the United States.

The application avers that the characteristics of the Notes will qualify them for exemption from registration under Section 3(a)(3) of the 1933 Act. Applicants represent that they will not issue and sell the Notes until they have received an opinion of special legal counsel in the United States to the effect that, under the circumstances of the proposed offering, the Notes would be entitled to the exemption afforded by Section 3(a)(3) of the 1933 Act. Applicants further represent that, prior to issuance, the Notes will have received one of the three highest investment grade ratings from at least one nationally recognized statistical rating organization and that their United States counsel will certify to the Commission, if requested, that such a rating has been received.

Applicants state that Morgan Guaranty Trust Company of New York will be appointed authorized agent to issue the Notes from time to time, and that Applicants will appoint Morgan Guaranty Trust Company of New York, the manager of BFCE's New York branch, the Commission or a corporate entity which normally acts in that capacity to accept any process which may be served in any state or federal action by the holder of any Note against Applicants based on the Notes or the guarantees relating thereto. Applicants state that they will expressly accept the jurisdiction of any state or federal court in the city and state of New York in respect of any action, and will also be subject to suit in any other court in the United States which would have jurisdiction because of the manner of the offering of the Notes or otherwise.

Applicants state that they or either of them may, from time to time, offer other debt securities for sale in the United States. According to the application, any such securities issued by BFCE US Finance would be unconditionally guaranteed by BFCE. In connection with any such offering, Applicants undertake (1) to ensure that offerees will be provided prior to any sale of the securities with disclosure documents no less comprehensive than is customary for offerings of similar debt securities in the United States, (2) to cause the appointment of an agent to accept any process which may be served on them in any action based on the securities offering, (3) to obtain an opinion of special legal counsel in the United States as to compliance with, or availability of exemption from, the 1933 Act, and (4) to accept expressly the jurisdiction of any state or federal court in the city or state of New York in connection with any action based on the securities offering and will also be subject to suit in any other court in the United States which would have jurisdiction. Applicants further undertake that all future issues of securities offered for sale in the United States by BFCE or BFCE US Finance shall have received prior to issuance one of the three highest investment grades from at least one nationally recognized statistical rating organization.

Requested Relief Under the Act

Section 3(a)(3) of the Act defines "investment company" to include any issuer which is engaged or proposes to engage in the business of investing, reinvesting, owning, holding, or trading in securities, and owns or proposes to acquire investment securities having a value exceeding 40 per centum of the value of that issuer's total assets (exclusive of government securities and cash items) on an unconsolidated basis. BFCE states that while it believes that it is not an "investment company" within the meaning of the Act, it recognizes that some uncertainty exists concerning whether at least some foreign commercial banks and export banks are "investment companies" under the Act. Accordingly, Applicants state, they are making this application under Section 6(c) of the Act which provides in part that the Commission, by order upon application, may conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from any provision or provisions of the Act, if and to the extent that an exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicants assert that approval of this application would be appropriate in the public interest. They believe that if they were deemed to be investment companies they effectively would be precluded from access to the United States commercial paper market, a major financing source, to their competitive disadvantage in comparison with many of the large United States banks which are BFCE's competitors in much of its commercial lending activities. Applicants also submit that an exemption would be consistent with the protection of investors and the purposes and policies fairly intended by the Act. They assert that like commercial banks subject to examination and supervision by United States banking authorities, BFCE is subject to extensive regulation by French banking authorities and, further, that it is indirectly substantially owned by the Republic which has a decisive role in appointing its directors. Applicants note that BFCE on May 27,

1975, received a no-action response from the staff of the Commission with respect to BFCE's contention that it need not register as an "investment company" under the Act (public availability date: June 26, 1975). Applicants state that as a result of changed circumstances they believe BFCE can no longer rely upon the no-action position taken by the Commission's staff in connection with its 1975 public offering. Applicants allege that the rationale for granting a Section 6(c) exemption to BFCE extends to BFCE US Finance as well because of the close relationship of the two companies, because the sole business of BFCE US Finance will be to operate as a financing vehicle for BFCE, and because the obligations of BFCE US Finance will be guaranteed unconditionally by BFCE. Thus, Applicants aver that the purchase of the Notes will be equivalent to purchasing obligations of BFCE.

Notice is further given That any interested person may, not later than June 22, 1981, at 5:30 p.m., submit to the Commission in writing, a request for a hearing on the application accompanied by a statement as to the nature of his or her interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he or she may request that he or she be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicants at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010–01–M

[Release No. 34–17821; File No. SR–CBOE–80–25]

Chicago Board Options Exchange, Inc.; Self-Regulatory Organizations

Comments requested on or before June 25, 1981.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on May 11, 1981, the Chicago Board Options Exchange, Incorporated filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Text of the Proposed Amendment

The following text amends the proposed Interpretations and Policies to Rule 8.1 set forth in File No. SR–CBOE–80–25, filed on October 14, 1980. Deletions from and additions to the text of the originally proposed Interpretations and Policies are indicated respectively by brackets and italics. The proposed change to Rule 6.24 also set forth in File No. SR–CBOE–80–25 is not affected by this filing.

Rule 8.1. No change.

* * * Interpretations and Policies:

0.1 Options transactions effected on the Exchange which result from orders transmitted from off the floor of the Exchange by a Market-Maker shall be deemed to be initiated on the floor of the Exchange and shall count as Market-Maker transactions for the purposes of this Chapter and Rule 3.1 provided that (a) such orders result in closing transactions or (b) at the time such orders are transmitted to the floor of the Exchange the Market-Maker is temporarily absent from the Exchange floor and such orders result in options transactions which *either* provide a [bona fide] *permitted* hedge of, *or were reasonably anticipated by the Market-Maker at the time such orders were transmitted to provide a permitted hedge of,* open options positions then carried by the Market-Maker in a Market-Maker account *which were acquired in transactions initiated on the floor of the Exchange.*

.02 For the purposes of Interpretation .01, [a bona fide hedge shall occur when an adverse change in the market price of the initial options position would be reasonably anticipated to be offset by a countervailing change in the market price of the subsequent options position, provided that such subsequent position is in respect of the same underlying security as the intitial options position.] *an options transaction provides a permitted hedge when the position acquired in the transaction offsets an options position previously opened in the Market-Maker's account in a transaction initiated on the floor of the Exchange which is "in or at the money" and which is not offset by an underlying security position or by another options position in the account, for an equal or greater number of shares of the same underlying security, which is "in the money." "In or at the money," with respect to a call option, indicates that the current market price of the underlying security is not more than one standard exercise interval below the exercise price of the option, and, with respect to a put option, that the current market price of the underlying security is not more than one standard exercise interval above the exercise price of the option. "In the money," with respect to a call option, indicates that the current market price of the underlying security is not below the exercise price of the option, and, with respect to a put option, that the current market price of the underlying security is not above the exercise price of the option.*

.03 For the purposes of Interpretation .01, a Market-Maker may effect [bona fide] *permitted* hedge transactions using off-floor orders on no more than 30 business days per calendar year while temporarily absent from the Exchange floor. Each Market-Maker shall be responsible for determining the number of days on which off-floor [bona fide] *permitted* hedge transactions have been executed by him during a calendar year.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Amendment

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change.

Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

This Amendment Number Four changes the text of the original filing in three ways. These changes were made as a result of informal suggestions from the staff of the Board of Governors of the Federal Reserve System. First, the amendment makes clear that Market-Makers can use off-floor orders to hedge only those options positions acquired in transactions initiated on the trading floor of the Exchange. Second, it includes as a permitted hedge resulting

from orders transmitted from off the floor, those options transactions that reasonably were anticipated by a Market-Maker to provide a permitted hedge at the time the orders were transmitted. Third, the amendment replaces the subjective definition of a permitted hedge with an objective definition.

Under amended Interpretation .02, an options transaction would provide a permitted hedge when the position acquired in the transaction offsets an options position previously opened in the Market-Maker's account which is "in or at the money" and which is not offset by an underlying security position or by another options position in the account which is "in the money" for an equal or greater number of shares of the same underlying security. The definitions of "in the money" and "in or at the money" options positions are identical to those contained in Section 220.4(g) of Regulation T of the Federal Reserve Board as amended effective August 11, 1980. Accordingly, permitted hedges under the proposed rule change would correspond with "permitted offset positions" in Section 220.4(g) of Regulation T.

In amending Section 220.4(g), the Federal Reserve Board determined to allow preferential credit treatment to underlying stock transactions that hedge options positions in a Market-Maker's account, since such transactions aid the Market-Maker in performing his obligations to make a market in options. Similarly, by limiting the proposed rule change to options transactions which close out or hedge (or which were reasonably anticipated to hedge) previously opened options positions, the Exchange believes that a Market-Maker's use of off-floor orders would be restricted to situations in which such orders would support the Market-Maker's on-floor market-making obligations.

The proposed rule change also would permit a Market-Maker to effect options transactions using off-floor orders, even though such transactions would not qualify as permitted hedges of positions in the Market-Maker's account as of the end of the day, during which the transactions were effected, if the transactions were reasonably anticipated by the Market-Maker at the time such orders were transmitted to provide a permitted hedge of such positions. This provision would apply to a transaction only if (i) the Market-Maker in fact anticipated that the transaction would provide a permitted hedge and (ii) such anticipation was reasonable in view of the Market-Maker's options positions and the price of the underlying security at the time the off-floor order was transmitted.

This provision is needed because the definition of permitted hedge in Interpretation .02 requires that the options positions being hedged be "in or at the money;" that is, within one standard exercise price interval of being "in the money." Under that definition, an options position could move from being within one standard exercise price interval of being "in the money" to being outside of such interval during the day of the transaction, depending upon market price movements of the underlying stock. A Market-Maker could thus effect an options transaction through an off-floor order, reasonably believing at the time that it would provide a permitted hedge of an options position then carried in his account, only to discover later that the transaction did not provide a permitted hedge due to a price movement in the underlying stock. In that event, without the "reasonably anticipated" provision, the transaction would not qualify as a "Market-Maker transaction." Therefore, the resulting position would have to be manually removed from the Market-Maker's account and carried in a customer account, which would cause serious recordkeeping problems for the Market-Maker and his clearing firm, even though the Market-Maker reasonably believed at the time that the transaction would provide a permitted hedge.

III Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the Federal Register or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) by order approve such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted within 21 days after the date of this publication.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

George A Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Release No. 11793; 811-1560]

Freedom Fund, Inc.; Filing of Application for an Order Declaring That Applicant Has Ceased To Be an Investment Company

May 28, 1981.

Notice is hereby given That the Freedom Fund, Inc., 99 High Street, Boston, MA 02110 ("Applicant"), a Massachusetts company registered under the Investment Company Act of 1940 ("Act") as an open-end, diversified, management investment company, filed an application on March 9, 1981 for an order of the Commission, pursuant to Section 8(f) of the Act, declaring that Applicant has ceased to be an investment company as defined by the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

The application states that, pursuant to an Agreement and Plan of Reorganization between Applicant and Keystone Custodian Funds, Inc., as trustee of Keystone Custodian Fund, Series K-1 ("K-1"), made as of June 30, 1980, as amended on October 24, 1980 (the "Agreement"), all of the assets of Applicant have been transferred to K-1 in exchange for shares of beneficial interest in K-1 and the assumption by K-1 of all the liabilities of Applicant.

The application states that in a vote taken on March 20, 1980, the Board of Directors of Applicant unanimously

approved the proposed reorganization of Applicant with K–1 and recommended its approval to the stockholders of Applicant. It is asserted that, on October 16, 1980, the Board of Directors of Applicant expressly authorized the termination and liquidation of Applicant pursuant to the Agreement. The application further states that the reorganization was approved by the stockholders of Applicant on October 24, 1980. On that date, Applicant also received K–1 shares in exchange for its assets, for distribution on a pro-rata basis to its shareholders of record as of that date. It is asserted that the number of shares delivered was determined on the basis of the net value of the assets and liabilities transferred by Applicant, and the net asset value per share of K–1, both calculated as of 4:00 p.m. on October 24, 1980. The application states that these values were determined in accordance with the procedures customarily utilized by K–1 in valuing its own assets.

The application states that the distribution of K–1 shares to stockholders whose shares of Applicant were not represented by certificates but were held in Plan Accounts was accomplished by the establishment of an Open Account Plan envidencing an appropriate number of K–1 shares in the name of each such stockholder. It is asserted that the K–1 shares to be distributed to stockholders whose shares of Applicant are represented by certificates have been credited to an account of the Bradford Trust Company ("Bradford") as custodian for such stockholders. It is asserted that, as each stockholder of Applicant surrenders his certificates, Bradford will issue a certificate to the stockholder for an appropriate number of whole shares of K–1 and cash equal to the current redemption price of any fractional shares, unless the stockholder at that time elects to have his shares credited to an Open Account Plan. The application states that distributions to stockholders whose shares of Applicant are represented by certificates are currently being made in accordance with the procedure described above.

The application state that, on January 22, 1981 Applicant filed Articles of Dissolution with the Secretary of State of the Commonwealth of Massachusetts and has subsequently dissolved. Finally, it is represented that the Applicant does not intend to engage in any further business activities other than those necessary to wind up its affairs.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and that, upon the effectiveness of such order, the registration of such company shall cease to be in effect.

Notice is further given That any interested person may, not later than June 22, 1981, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the application accompanied by a Statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010–01–M

[Release No. 11795 811–3014]

IDS Cash Management Fund II, Inc.; Notice of Filing of Application Pursuant to Section 8(f) of the Investment Company Act of 1940 For an Order Declaring that Applicant Has Ceased To be an Investment Company.

May 28, 1981.

Notice is hereby given That IDS Cash Management Fund II, Inc. 1000 Roanoke Building Minneapolis, Minnesota 55402 ("Applicant"), registered under the investment Company Act of 1940 ("Act") as an open-end, diversified, management investment company, filed an application on May 11, 1981, pursuant to Section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

The application states that Applicant, a Nevada corporation, was organized and registered under the Act on March 21, 1980. Simultaneous with such registration, Applicant filed a registration statement under the Securities Act of 1933 (File No. 2–67005) registering an indefinite number of its shares of common stock in connection with a proposed public offering of such shares. This registration statement was declared effective by the Commission on April 4, 1980, and the public offering was commenced on April 7, 1980.

Applicant states that after certain reserve requirements applicable to money market funds were rescinded, all of its public securityholders on August 1, 1980, voluntarily redeemed 59,550,634 shares, which were all of Applicant's shares then outstanding (valued at $1.00 per share) except for 100,000 shares owned by Investors Diversified Services, Inc. ("IDS"), Applicant's investment adviser. All of the proceeds from the redeemed shares where reinvested in shares of IDS Cash Management Fund, Inc. ("CMF"). On the same day Applicant's assets valued at $59,550,634 were conveyed to CMF, leaving Applicant with net assets of $99,926. On February 12, 1981, IDS redeemed 99,000 of the 100,000 shares of Applicant which it owned, leaving Applicant with net assets of $1,000. IDS then transferred such net assets to CMF by giving CMF its remaining 1,000 shares of Applicant. On February 13, 1981, Applicant was merged into CMF pursuant to a Plan of Reorganization adopted by CMF's Board of Directors on February 12, 1981, under the provisions of the Nevada Corporation Code. CMF, as the sole shareholder of Applicant on the date of the merger, succeeded to all the rights and liabilities of Applicant. All expenses of the merger of Applicant into CMF were either assumed by, or paid by IDS.

The application states that Applicant currently has no debts or other outstanding liabilities; it has no assets; it has no securityholders; and it is not a party to any litigation or administrative proceedings. Furthermore, according to the application within the last 18 months Applicant has not for any reason transferred any of its assets to a separate trust, the beneficiaries of which were or are securityholders of

Applicant. Finally, Applicant states that it is not now engaged, and does not propose to engage, in any business activities other than those that may be necessary for the winding up of its affairs. According to the application Applicant's legal existence has terminated by operation of Nevada law as a result of its merger into CMF and the filing of a Certificate of Ownership and Merger with the Secretary of State of Nevada.

Section 8(f) of the Act provides, in pertinent part, that whenever the Commission, on its own motion or upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the effectiveness of such order, the registration of such company under the Act shall cease to be in effect.

Notice is further given that any interested person may, not later than June 22, 1981, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the application accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controvered, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponement thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

[FR Doc 81–16813 Filed 6–3–81; 8:45 am]

BILLING CODE 8010–01–M

[Release No. 17818 SR–PSE–81–5]

Pacific Stock Exchange, Inc.; Filing of Amendment to Proposed Rule Change and Order Approving Proposed Rule Change

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78(s)(b)(1) (the "Act"), notice is hereby given that on May 4, 1981, the Pacific Stock Exchange, Incorporated 618 South Spring Street Los Angeles, California 90014 ("PSE") filed with the Commission copies of an amendment to a proposed rule change under Rule 19b–4 which would initiate a one-year pilot program with respect to the appointment and evaluation of specialists and the creation of new specialists' posts.[1] In general, the pilot program has been amended to address certain potential anti-competitive consequences of the evaluation process and to enhance the procedural safeguards which would be afforded in proceedings to deny registration to an applicant specialist and to reallocate securities from a registered specialist.

Pursuant to the amendments, all non-specialist floor members will be invited to complete an evaluation questionnaire for each registered specialist which participating floor members have the ability to evaluate. The Equity Listing and Allocation Committee ("Committee") will meet with all participating members and provide written instructions on the purpose and proper procedure for completing the evaluation questionnaires. PSE staff will tabulate each completed questionnaire in order to obtain two quantitative measures for each registered and applicant specialist: (1) a total evaluation score based upon the answers to all questions on the questionnaires, and (2) a question-by-question evaluation score. Along with these scores, the Committee will receive a compilation of all comments received with respect to specific securities in which an evaluator has indicated that a specialist's performance is substandard.

The amendments also provide additional procedural safeguards with respect to the qualification of applicant specialists and the evaluation of registered specialists. The pilot has been amended to require that the Committee provide the applicant or registered specialist with: (1) notice of and the basis for any negative recommendation which will be made to the Board of Governors; (2) an opportunity to respond to any negative determination made by the Committee prior to any recommendation made to the Board; (3) the right to appeal any adverse determination to the Board; and (4) the right to submit a written statement to the Board at the same time the Committee's recommendation is being considered or to appear before the Board and make an oral statement addressing such determination or recommendation.

Furthermore, the PSE has agreed to undertake the following during the pilot program: (1) to consider the possibility of expanding the use made of specialists' performance evaluations by authorizing the Committee to cancel a specialist's registration in selected stocks, both local and dually listed, where his performance has been found to be substandard; (2) to continue to study existing methods and to consider new methods of evaluating specialist performance and of enhancing due process rights; and (3) to inform the Commission if the PSE decides to terminate its pilot program before the end of one year from the date of commencement of the pilot and to provide a report of the reasons for the decision and the results of its undertakings.

Interested persons are invited to submit written data, views and arguments concerning the submission within 21 days from the date of this publication. Persons desiring to make written comments should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, 500 North Capitol Street, Washington, DC 20549. Reference should be made to File No. SR–PSE–81–5.

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change which are filed with the Commission, and of all written communications relating to the proposed rule change between the Commission and any person, other than those which may be withheld from the public in accordance with the provisions of 5 U.S.C. § 552, will be available for inspection and copying at the Commission's Public Reference Room, 1100 L Street, NW, Washington, D.C.

The Commission finds that the proposed rule change, as amended, is consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges and in particular, the requirements of Section 6 and the rules and regulations thereunder.

[1] Notice of the proposed rule change was given by publication of a Commission release (Securities Exchange Act Release No. 17647, March 20, 1981) and by publication in the **Federal Register** (46 FR 19372, March 30, 1981).

The Commission finds good cause for approving the proposed rule change, as amended, prior to the thirtieth day after the date of publication of notice of filing of the amendment thereof. The proposed rule change was filed initially with the Commission on March 13, 1981, and was noticed for public comment for the statutory time period. The Commission believes that it is appropriate to approve the proposed rule change on an accelerated basis since no comments were received with respect to the initial filing and the amendments noticed herein merely clarify and make more specific the provisions of the proposed rule change.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change referenced above be, and it hereby is, approved.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Commodity Policy Advisory Committee, Establishment

The U.S. Trade Representative has taken steps to establish a Commodity Policy Advisory Committee. This Committee will be chartered pursuant to Section 135(c)(2) of the Trade Act of 1974 (19 U.S.C. 2155), as amended; the Federal Advisory Committee Act (5 U.S.C. App. 1); and Section 4(d) of Executive Order No. 11846, March 27, 1975. The charter of this Committee will be filed 15 days from the date of this notice.

The Commodity Policy Advisory Commitee will advise, consult with, and make recommendations to the United States Trade Representative and relevant cabinet agencies regarding policy issues related to negotiation or operation of international agreements affecting trade in commodities.

The Committee will meet approximately three or four times per year, depending on the needs of the U.S. Trade Representative. The U.S. Trade Representative or his designee will convene meetings of the Committee.

Members of the Committee shall be appointed by, and serve at the discretion of the U.S. Trade Representative. Representatives from the private sector wishing further information or to be considered for appointment to serve on the Committee should contact: The United States Trade Representative, Office of Private Sector Liaison, 600 17th Street, N.W., Room 123, Washington, D.C. 20506, (202) 395-6120.

Phyllis O. Bonanno,

Director, Office of Private Sector Liaison.

BILLING CODE 3190-01-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD 81-041]

Qualification of Bunge Corp. as a Citizen of the United States

Notice is given that pursuant to 46 CFR 67.23-7, issued under the provisions of section 27A of the Merchant Marine Act, 1920, as added by the Act of September 2, 1958 (46 U.S.C. 883-1), Bunge Corporation of One Chase Manhattan Plaza, New York, New York 10005, incorporated under the laws of the State of New York, did on April 14, 1981, file with the Commandant, United States Coast Guard, in duplicate, an oath for qualification of the corporation as a citizen of the United States following the forms of oath prescribed in Form CG-1260.

The oath shows that:

(a) A majority of the officers and directors of the corporation are citizens of the United States;

(b) Not less than 90 percent of the employees of the corporation are residents of the United States;

(c) The corporation is engaged primarily in a manufacturing or mineral industry in the United States or in a Territory, District, or possession thereof;

(d) The aggregate book value of the vessels owned by the corporation does not exceed 10 percent of the aggregate book value of the assets of the corporation; and

(a) The corporation purchases or produces in the United States, its Territories or possessions not less than 75 percent of the raw materials used or sold in its operations.

The Commandant, United States Coast Guard, having found this oath to be in compliance with the law and regulations, on May 13, 1981, issued to Bunge Corporation a certificate of compliance on Form CG-1262, as provided for in 46 CFR 67.23-7. The certificate and any authorization granted thereunder will expire three years from May 30, 1981, unless there first occurs a change in the corporate status requiring a report under 45 CFR 67.23-7.

Dated: June 1, 1981.

Clyde T. Lusk, Jr.,

Rear Admiral, U.S. Coast Guard, Chief, Office of Merchant Marine Safety.

BILLING CODE 4910-14-M

Radio Technical Commission for Aeronautics (RTCA) Special Committee 137—Airborne Area Navigation System; Meeting

Pursuant to section 10(a) (2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. I) notice is hereby given of a meeting of RTCA Special Committee 137 on Airborne Area Navigation Systems to be held on June 29-30 and July 1, 1981 in RTCA Conference Room 267, 1717 H Street, NW, Washington, D.C., commencing at 9:30 a.m.

The Agenda for this meeting is as follows: (1) Chairman's Introductory Remarks; (2) Approval of Minutes of Fifth Meeting Held on July 8-10, 1980; (3) Review of Comments Received on Fourth Draft of Minimum Operatinal Performance Standards for Airborne Area Navigation Systems; and (4) Other Business.

Attendance is open to the interested public but limited to space available. With the approval of the Chairman, members of the public may present oral statements at the meeting. Persons wishing to present statements or obtain information should contact the RTCA Secretriat, 1717 H Street, NW, Washington, D.C. 20006; (202) 296-0484. Any member of the public may present a written statement to the committee at any time.

Issued in Washington, D.C. on May 28, 1981.

Karl F. Bierach,

Designated Officer.

BILLING CODE 4910-13-M

Federal Aviation Administration

Informal Airspace Meeting

AGENCY: Federal Aviation Administration/DOT.

ACTION: Notice of informal airspace meeting.

SUMMARY: Notice is hereby given that a public informal airspace meeting will be held to give interested persons the opportunity to comment on the proposed establishment of a Military Operations Area (MOA) in the State of New Hampshire to be called Yankee II by the Department of the Air Force.

DATE: June 4, 1981.

Notice is hereby given that a public informal airspace meeting will be held at the Lin-Wood High School, Main Street, Lincoln, New Hampshire, at 7:30 p.m., on Thursday, June 4, 1981, to give interested persons the opportunity to comment on the proposed establishment of a Military Operations Area (MOA) in the State of New Hampshire to be called Yankee II by the Department of the Air Force.

Yankee II will be located beneath part of the existing Yankee I MOA at an altitude ranging from 100' AGL to 9,000 MSL. The public is invited to attend this informal airspace meeting to present facts pertinent to the safe and efficient use of Navigable Airspace as it relates to the proposal. The topic of discussion will be the aeronautical effects this proposal may have on the safe and efficient use of Navigable Airspace. Environmental issues will not be addressed at this meeting. Comments concerning environmental aspects relating to this proposal should be directed to: Headquarters National Guard Bureau, Environmental Planning Division, Andrews AFB, Maryland 20334.

Comments may be submitted in writing at this meeting or within five days thereafter, addressed to the following: Federal Aviation Administration, Air Traffic Division, 12 New England Executive Park, Burlington, Massachusetts 01803. For further information contact Mr. David J. Hurley, Chief, Operations, Procedures and Airspace Branch, ANE-530, FAA, 12 New England Executive Park, Burlington, Massachusetts 01803, telephone (617) 273-7285, office hours 8:00 a.m. to 4:30 p.m.

Issued in Burlington, Massachusetts, on May 22, 1981.

David J. Hurley,

Chief, Operations, Procedures and Airspace Branch.

BILLING CODE 4910-13-M

Federal Highway Administration

Environmental Impact Statement; King County, Washington

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement will be prepared for the proposed road improvement project located in King County, Washington.

FOR FURTHER INFORMATION CONTACT: William J. Glover, Environmental Engineer, Federal Highway Administration, Suite 501, Evergreen Plaza, 711 South Capitol Way, Olympia, Washington 98501, telephone (206) 753-9480.

SUPPLEMENTARY INFORMATION: The FHWA in cooperation with the Washington Department of Transportation and King County Department of Public Works will prepare an environmental impact statement (EIS) on a proposal to widen Petrovitsky Road in King County, Washington. The proposed improvement would involve the reconstruction of Petrovitsky Road between 108th Avenue SE (SR 515) and 140th Avenue SE for a distance of 2.25 miles. Improvements to the corridor are considered necessary to provide for the existing and projected traffic demand.

Alternatives under consideration include (1) taking no action; (2) using alternate travel modes; (3) widening the existing two-lane roadway to four lanes; (4) constructing a four-lane limited access roadway; and (5) constructing a five-lane roadway. Incorporated into and studied with the various build alternatives will be design variations of grade and alignment.

Letters describing the proposed action and soliciting comments will be sent to appropriate federal, state, and local agencies, and to provide organizations and citizens who have previously expressed interest in this proposal. A series of public meetings will be held in King County between June and November, 1981. In addition, a public hearing will be held. Public notice will be given of the time and place of the meetings and hearing. The draft EIS will be available for public and agency review and comment. No formal scoping meeting is planned at this time.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues, identified comments and suggestions are invited from all interested parties. Comments or suggestions concerning this proposed action and the EIS should be directed to the FHWA at the address provided above.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Research, Planning and Construction. The provisions of OMB Circular No. A-95 regarding State and local clearinghouse review of Federal and Federally assisted programs and projects apply to this program.)

Issued on: May 28, 1981.

William J. Glover,

Environmental Engineer, Washington Division, Olympia, Washington.

[FR Doc. 81-16569 Filed 6-3-81; 8:45 am]

BILLING CODE 4910-22-M

Environmental Impact Statement: Marion County, Ind.

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Withdrawal of notice of intent.

SUMMARY: -The FHWA is issuing this Notice to advise the public that an environmental impact statement (EIS) will not be prepared for the proposed I-165 corridor between I-69 and the existing interchange of I-70 and I-65 in downtown Indianapolis, Indiana.

FOR FURTHER INFORMATION CONTACT: Mr. John Breitwieser, Staff Environmental Specialist, Federal Highway Administration, 575 North Pennsylvania Street, Room 254, Indianapolis, Indiana 46204, Telephone: 317/269-7481.

SUPPLEMENTARY INFORMATION: The FHWA Indiana Division issued a Notice of Intent to prepare an EIS for the proposed development of an I-165 corridor between I-69 and the existing interchange of I-70 and I-65 in downtown Indianapolis on May 12, 1980 (45 FR 31247). FHWA is withdrawing that Notice at this time because of overwhelming public objections during the development phase to impacts the I-165 corridor would impose on residences, businesses and the surrounding neighborhoods. A joint request from the Governor of the State of Indiana and the Mayor of Indianapolis for the withdrawal of the I-165 segment and the substitution of these funds for other transportation improvement projects within the Indianapolis urbanized area, is being reviewed at this time.

Questions concerning this proposed action should be directed to the FHWA at the address provided above.

(Catalog of Federal Domestic Assistance Program No 20.205, (Highway Research, Planning and Construction). The provisions of OMB Circular A-95 regarding State and local clearinghouse review of Federal and Federally assisted programs and projects apply to the program)

Issued on: May 27, 1981.

George D. Gibson, Jr.,

Division Administrator, Indianapolis, Indiana.

BILLING CODE 4910-22-M

Federal Railroad Administration

[Docket No. RFA-305-80-1; Notice No. 3]

Consolidated Rail Corporation; Expedited Supplemental Transaction Proposals

AGENCY: Federal Railroad Administration (FRA)), Department of Transportation (DOT).

ACTION: Final determination regarding the development of an expedited supplemental transaction proposal (Expedited STP) pursuant to section 305(f) of the Regional Rail Reorganization Act of 1973 (Act), 45 U.S.C. 745(f).

SUMMARY: On April 16, 1981, FRA published Notice No. 2 (46 Fed. Reg. 22300) requesting public comments by May 18, 1981, on the preliminary determinations of FRA regarding the development of an Expedited STP for the transfer of all rail properties of the Consolidated Rail Corporation (Conrail) in the States of Connecticut and Rhode Island (the Rail Properties) to another railroad in the region for the purpose of providing freight service. After giving due consideration to the public comments, the FRA has determined that it cannot make the three affirmative statutory determinations which are a condition precedent to initiating an Expedited STP.

FOR FURTHER INFORMATION CONTACT: Steve Black, Office of Federal Assistance, (202) 472-7180. Office hours are 8:30 a.m. to 5:00 p.m. e.d.s.t., Monday through Friday.

SUPPLEMENTARY INFORMATION: The Providence and Worcester Railroad (P&W) is the only railroad to have submitted a proposed Expedited STP to FRA. In Notice No. 2, FRA preliminarily determined that it could not make two of the three statutory findings (45 U.S.C. 745(f) (A) and (B)) which are a condition precedent to an Expedited STP. FRA cited the uncertainty regarding Conrail's future and the wide divergence in Conrail and P&W positions on the terms of an Expedited STP.

Summary of Public Comments

Several individual shippers and community groups in Connecticut and in Massachusetts (on connecting lines that might be transferred) provided comments supporting the proposal of the P&W that the Rail Properties be transferred to it. Seven members of Congress and the Governor of Rhode Island also wrote in support of P&W's proposal.

The State of Vermont and the Connecticut Association of Railway Shippers, representing 18 major rail shippers which together ship approximately 80 percent of all freight traffic shipped by rail in the State of Connecticut, submitted statements in agreement with the preliminary determinations of FRA outlined in Notice No. 2. Several other shippers independently expressed agreement with the preliminary determinations.

Conrail filed a statement supporting FRA's preliminary determinations and opposing the transfer of the Rail Properties under the terms as proposed by the P&W. Conrail commented that—

- P&W's proposed revenue divisions would result in Conrail revenue losses of $10.2 million—$13.6 million (1979 dollars) per year in excess of the revenue division proposal advanced by Conrail as being fair and equitable; Conrail recognized that if its division proposal were adopted P&W would have a net loss on the Rail Properties.
- P&W's annual Title V labor protection obligations resulting from the transfer of these lines could range as high as $4.8 million (if P&W hires only 560 of the 720 surplus Conrail employees associated with the Rail Properties, as P&W has proposed) to $21 million (if none of these Conrail employees transfers to P&W and if their remaining with Conrail results in the total displacement of 720 Conrail employees). Conrail notes that these labor protection costs are significantly in excess of the projected $1 million P&W expects to earn from these lines.
- P&W must agree to pay Amtrak fixed charges attributable to freight operations over these lines.
- Finally, Conrail expressed its disagreement with P&W over the methodology that should be used in valuing the Rail Properties and reaffirmed the need to resolve the pending litigation between P&W and Conrail.

Nothing in the public comments of the supporters of an Expedited STP is persuasive that the rationale which FRA cited as a reason for its preliminary determinations is invalid.

Recent Developments

Since FRA made the preliminary determinations, DOT has submitted legislation to the Congress (S. 1100 and H.R. 3448), which would provide for the transfer of all Conrail's properties used in freight services to financially responsible parties. The bill would also replace the costly Title V labor protection provisions with a more reasonable program. Entities acquiring Conrail properties would negotiate with employee representatives on the selection and protection of employees. Acquiring entities would not be required to bear the labor protection costs for Conrail employees who are not hired. The Senate Commerce Committee has acted favorably on the bill. A sale to P&W or other prospective buyers would be possible under the proposed legislation.

Final Determination

Sections 305(d)(7) and 508 of the Regional Rail Reorganization Act of 1973, as amended, require an acquiring railroad under an Expedited STP to agree to afford labor protection at the levels presently prescribed in Title V of the Act, to all Conrail employees adversely affected by a transfer of the Rail Properties. The P&W's proposal indicates that P&W is willing to assume only such labor protection costs as will be reimbursed by the Federal Government. Congressional action on the future of northeast rail service including revisions of the labor protection obligation of an acquiring entity could dramatically affect the operations and profitability of the Rail Properties. Because of the present uncertainties regarding the future of the Conrail system, the potentially high labor protection costs associated with a transfer of the Rail Properties under existing law, and the wide divergence in Conrail and P&W positions on the purchase price and other terms of an Expedited STP, FRA is unable to find—

(1) that any potential transferee is financially capable of assuming the freight operations obligations of Conrail on a financially self-sustaining basis. (This determination does not constitute a ruling on the operating and financial capabilities of the P&W); or

(2) that a transfer of the Rail Properties at this time would promote the establishment and retention of a financially self-sustaining railroad system in the States of Connecticut and Rhode Island adequate to meet the needs of such States.

Issued in Washington, D.C., on May 27, 1981.

Robert W. Blanchette,

Administrator.

BILLING CODE 4910-06-M

National Highway Traffic Safety Administration

[Docket No. IP80-13; Notice 2]

Lafer S.A.; Grant of Petition for Determination of Inconsequential Noncompliance With Glazing Materials Regulations

This notice grants the petition by Lafer S.A. of Sao Paulo, Brazil, to be exempted from the notification and remedy requirements of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1381 et seq.) for an apparent

noncompliance with 49 CFR 571.205, *Glazing Materials*, The basis of the grant is that the noncompliance is inconsequential as it relates to motor vehicle safety.

Notice of the petition was published on September 4, 1980 (45 FR 58743) and an opportunity afforded for comment.

Paragraph S6.4 of Standard No. 205 requires that each manufacturer who cuts a section of glazing material for use in a motor vehicle shall mark the material to identify it. Lafer's United States representative, Lafer Auto Sales, imported 50 motor vehicle kits in 1979 and 1980 whose "side wing, passenger and vent windows" did not carry the required AS–2 marking and the manufacturer's assigned identification number. Lafer argues that the noncompliance is inconsequential as the glazing, other than the omitted marking, complies with all requirements of Standard No. 205. A certificate of compliance from the glazing manufacturer accompanied the petition.

No comments were received on the petition.

Lafer's noncompliance with glazing marking requirements is similar to that of Volkswagen (Docket IP80–3), which was necessitated by the failure of the company to mark AS–1 on 505 replacement windshields imported from Mexico. NHTSA denied that petition (45 FR 79217) on the basis of comments from State inspection officials who replied that vehicles with unmarked windshields would be subject to rejection under their inspection codes. The NHTSA observed that "the noncompliance has a direct impact upon the vehicle safety inspection process, diverting public resources with no corresponding safety benefit" in determining that the noncompliance is inconsequential as it relates to motor vehicle safety.

The Lafer noncompliance differs in magnitude (50 kits) and criticality (AS–2 side window glazing). Even though no State officials commented this time, NHTSA's inquiry showed the likelihood that glazing in areas other than the windshield would be inspected and be subject to rejection if not marked. One jurisdiction, however, indicated when the problem was explained to them, that it would accept a certificate that the glazing was AS–2. Lafer has indicated its willingness to the agency to supply such a certificate to the owners of the 50 vehicle kits, a factor lacking in the Volkswagen case. For these reasons the agency has decided to grant Lafer's petition.

Accordingly, petitioner has met its burden of persuasion. It is hereby determined that the noncompliance described above is inconsequential as it relates to motor vehicle safety and Lafer's petition is granted.

The engineer and attorney primarily responsible for this notice are Ed Jettner and Taylor Vinson, respectively.

(Sec. 102, Pub. L. 93–492, 88 Stat. 1470 (15 U.S.C. 1417); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8)

Issued on May 29, 1981.

VETERANS ADMINISTRATION

Veterans Administration Wage Committee; Availability of Annual Report

Pursuant to the provisions of section 10(d) of Pub. L. 92–463 (Federal Advisory Committee Act) and OMB Circular A–63 of March 27, 1974, notice is hereby given that the Annual Report of the Veterans Administration Wage Committee for calendar year 1980 has been issued.

The report summarizes activities of the Committee on matters related to wage surveys and pay schedules for Federal prevailing rate employees. It is available for public inspection at two locations:

Library of Congress, Serial and Government Publications Division, Room 1026, Adams Building, Washington, D.C. 20540

Veterans Administration, Office of the Committee Secretary, VA Wage Committee, Room 1108, 810 Vermont Avenue, NW., Washington, D.C. 20420

Dated: May 29, 1981.

BILLING CODE 8320–01–M

Veterans Administration Wage Committee; Meetings

Under the provisions of section 10 of Pub. L. 92–463, notice is hereby given that meetings of the Veterans Administration Wage Committee will be held on:

Thursday, July 9, 1981
Thursday, July 23, 1981
Thursday, August 6, 1981
Thursday, September 3, 1981

The meetings will convene at 2:30 p.m. and will be held in Room 1175A, Veterans Administration Central Office, 810 Vermont Avenue, NW, Washington, DC 20420.

The Committee's primary responsibility is to consider and make recommendations to the Chief Medical Director, Department of Medicine and Surgery, on all matters involved in the development and authorization of wage rate schedules for Federal Wage System (blue-collar) employees.

At these scheduled meetings, the Committee will consider wage survey specifications, wage survey data, local committee reports and recommendations, statistical analyses, and proposed wage schedules derived therefrom.

Under the provisions of section 10(d) of Pub. L. 92–463, the Federal Advisory Committee Act, as amended by Pub. L. 94–409, meetings may be closed to the public when they are concerned with matters listed under section 552b, Title 5, United States Code. Two of the matters so listed are those related solely to the internal personnel rules and practices of an agency (5 U.S.C. 552b(c)(2)), and those involving trade secrets and commercial or financial

information obtained from a person and privileged or confidential (5 U.S.C. 552b(c)(4)).

Accordingly, I hereby determine that all portions of the meetings cited above will be closed to the public because the matters considered are related to the internal rules and practices of the Veterans Administration (5 U.S.C. 552b(c)(2)), and the detailed wage data considered by the Committee during its meetings have been obtained from officials of private establishments with a guarantee that the data will be held in confidence (5 U.S.C. 552b(c)(4)).

However, members of the public who wish to do so are invited to submit material in writing to the Chairman regarding matters believed to be deserving of the Committee's attention.

Additional information concerning these meetings may be obtained by contacting the Chairman, Veterans Administration Wage Committee, Room 1175, 810 Vermont Avenue, NW, Washington, DC 20420.

Dated: May 29, 1981.

Rufus H. Wilson,

Acting Administrator.

FEDERAL DEPOSIT INSURANCE CORPORATION.

Notice of change in subject matter of agency meeting

Pursuant to the provisions of subsection (e)(2) of the "Government in the Sunshine Act" (5 U.S.C. 552b(e)(2)), notice is hereby given that at its open meeting held at 2:00 p.m. on Monday, June 1, 1981, the Corporation's Board of Directors determined, on motion of Chairman Irvine H. Sprague, seconded by Director William M. Isaac (Appointive), concurred in by Mr. H. Joe Selby, acting in the place and stead of Director Charles E. Lord (Acting Comptroller of the Currency), that Corporation business required the withdrawal from the agenda for consideration at the meeting, on less than seven days' notice to the public, of a memorandum proposing the renewal of a two-year lease with Storage Technology Corporation for rental and maintenance of computer disk equipment.

The Board further determined, by the same majority vote, that no earlier notice of the change in the subject matter of the meeting was practicable.

Dated: June 1, 1981.

FEDERAL DEPOSIT INSURANCE CORPORATION.

NOTICE OF CHANGE IN SUBJECT MATTER OF AGENCY MEETING.

Pursuant to the provisions of subsection (e)(2) of the "Government in the Sunshine Act" (5 U.S.C. 552b(e)(2)), notice is hereby given that at its closed meeting held at 2:30 p.m. on Monday, June 1, 1981, the Corporation's Board of Directors determined, on motion of Chairman Irvine H. Sprague, seconded by Director William M. Isaac (Appointive), concurred in by Mr. H. Joe Selby, acting in the place and stead of Director Charles E. Lord (Acting Comptroller of the Currency), that Corporation business required the addition to the agenda for consideration at the meeting, on less than seven days' notice to the public, of the following matter:

Notice of acquisition of control:
Palm Beach Lakes Bank
West Palm Beach, Florida

The Board further determined, by the same majority vote, that no earlier notice of the change in the subject matter of the meeting was practicable; that the public interest did not require consideration of the matter in a meeting open to public observation; and that the matter could be considered in a closed meeting by authority of subsections (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b (c)(6), (c)(8), and (c)(9)(A)(ii)).

Dated: June 1, 1981.

Federal Deposit Insurance Corporation.
Hoyle L. Robinson,
Executive Secretary.

3

FEDERAL DEPOSIT INSURANCE CORPORATION.

Notice of agency meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 10:00 a.m. on Tuesday, June 9, 1981, members of the Board of Directors of the Federal Deposit Insurance Corporation will meet in closed session, by vote of the Board of Directors pursuant to sections 552b(c)(6), (c)(8), and (c)(9)(A)(ii) of Title 5, United States Code, to hear an oral presentation in connection with the application of an insured State nonmember bank for consent to establish a branch.

The meeting will be held in the Board Room on the sixth floor of the FDIC Building located at 550 17th Street, N.W., Washington, D.C.

Requests for information concerning the meeting may be directed to Mr. Hoyle L. Robinson, Executive Secretary of the Corporation, at (202) 389–4425.

Dated: June 2, 1981.

4

FEDERAL DEPOSIT INSURANCE CORPORATION.

Notice of agency meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 10:10 a.m. on Tuesday, June 2, 1981, the Board of Directors of the Federal Deposit Insurance Corporation met in closed session to consider a final decision with respect to an administrative enforcement proceeding against an insured State nonmember bank.

Name and location of bank authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(6), (c)(8), and (c)(9)(A)(ii)).

In calling the meeting, the Board of Directors determined, on motion of Chairman Irvine H. Sprague, seconded by Director William M. Isaac (Appointive), concurred in by Director Charles E. Lord (Acting Comptroller of the Currency), that Corporation business required its consideration of the matter on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public

interest did not require consideration of the matter in a meeting open to public observation; and that the meeting was exempt from the open meeting requirements of the "Government in the Sunshine Act" by authority of subsections (c)(6), (c)(8), and (c)(9)(A)(ii) thereof (5 U.S.C. 552b(c)(6), (c)(8), and (c)(9)(A)(ii)).

The meeting took place in the Chairman's Office, Room 6023, of the FDIC Building located at 550 17th Street, N.W., Washington, D.C.

Dated: June 2, 1981.

Federal Deposit Insurance Corporation.

8

FEDERAL RESERVE SYSTEM.

Board of Governors

TIME AND DATE: 10 a.m., Tuesday, June 9, 1981.

PLACE: Board Building, C Street entrance between 20th and 21st Streets, N.W., Washington, D.C. 20551.

STATUS: Open.

MATTERS TO BE CONSIDERED: *Summary Agenda:* Because of their routine nature, no substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the board requests that an item be moved to the discussion agenda.

1. Request by The Bank of Tokyo, Ltd., Tokyo, Japan, for permission to issue certificates of deposits through an agency outside its home state.

2. Proposal to amend Regulation T (Credit by Brokers and Dealers) regarding the use of foreign currency in a margin account. (Proposed earlier for public comment; Docket No. R-0250.)

3. Proposed amendment to Regulation Y (Bank Holding Companies and Change in Bank Control) permitting bank holding companies to perform appraisals of single-family residences. (Adopted earlier with provision for public comment; Docket No. R-0310.)

Discussion Agenda:

4. Proposal to establish International Banking Facilities within the United States. (Proposed earlier for public comment; Docket No. R-0214.)

5. Any items carried forward from a previously announced meeting.

Note.—This meeting will be recorded for the benefit of those unable to attend. Cassettes will be available for listening in the Board's Freedom of Information Office, and copies may be ordered for $5 per cassette by calling (202) 452-3684 or by writing to: Freedom of Information Office, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

CONTACT PERSON FOR MORE INFORMATION: Mr. Joseph R. Coyne, Assistant to the Board (202) 452-3204.

Dated: June 1, 1981.

James McAfee,

Assistant Secretary of the Board.
